Internal Medicine Horsemanship Seminar (1, 2, 3, 4) - On September 27th, the program held another Horsemanship Seminar that helps improve non-verbal communication skills with the help of an equine partner. Dr. Blair said, "This session focused more on the messages we send with our non-verbal communication. Previous sessions focused on being perceptive of what patients' (or horses') nonverbal communication is saying and adapting to each individual patient's communication style."

Women in Medicine Month Appreciation (5, 6) - September is Women in Medicine Month. This year, the program sponsored lunch in the Doctor's Lounge and took a moment to celebrate the impact and role of women in medicine.

Resident Wellness

Internal Medicine Resident Friendsgiving

With generous donations from our faculty, our residents hosted their own Friendsgiving, with over 40 residents in attendance. They rented a space and secured catering, and the resident-led initiative was well received by all who attended. Your donations help make events like this possible!

From The Coordinators

We would love to hear from you! Feel free to write, email, or call us at the contacts below.

Brant Weindorf
