Air Force Studies Minor	98	Geology Minor	177
Art & Art History	98	Meteorology (BS) - Broadcast Met Track	177
Art History Minor	109	Meteorology (BS) - Graduate School Track	179
Studio Art (BFA) - Animation Concentration	109	Meteorology (BS) - Professional Track	180
Studio Art (BFA) - Art History Concentration	111	Meteorology Minor	181
Studio Art (BFA) - Ceramics Concentration	112	English	182
Studio Art (BFA) - Glass Concentration	114	English (BA)	191
Studio Art (BFA) - Graphic Design Concentration	115	English (BA) - Creative Writing Concentration	193
Studio Art (BFA) - Painting Concentration	117	English (BA) - Professional Writing and Editing Concentration	194
Studio Art (BFA) - Photography Concentration	118	English (MA) - Literature Concentration	196
Studio Art (BFA) - Printmaking Concentration	119	English (MA) Creative Writing Concentration	197
Studio Art (BFA) - Sculpture Concentration	121	English Creative Writing Minor	197
Studio Art Minor	122	English Minor	198
Visual Art (BA) - Art History Concentration	122	English Professional Writing Minor	198
Visual Art (BA) - Studio Art Concentration	124	Environmental Toxicology	198
Visual Art (MFA) - Creative Technologies and Practice	125	Environmental Toxicology (MS)	199
Biology	127	Forensic Science	200
Biology (BS)	136	Forensic Science Minor	200
Biology (BS) - Environmental Science Concentration	138	Gender Studies	200
Biology (BS) - Marine Biology Concentration	139	Gender Studies Minor	204
Biology (BS) - Senior Thesis Concentration	139	Gerontology	204
Biology (MS)	140	Gerontology Graduate Certificate	208
Biology Minor	142	Gerontology Minor	209
Chemistry	142	Gerontology Undergraduate Certificate	210
Chemistry ACS Certified Chemistry Track, Major	147	Global Engagement	211
Chemistry Biochemistry Track, Major	148	Global Engagement Certificate Program	211
Chemistry Minor	149	History	211
Communication	150	History (BA)	218
Communication (BA) - Communication Studies Concentration	155	History (MA) - Non-Thesis Option	219
Communication (BA) - Digital Film & Television Production Concentration	156	History (MA) - Thesis Option	219
Communication (BA) - Journalism Concentration	157	History Minor	220
Communication (BA) - Strategic Communication Concentration	159	Interdisciplinary Programs	220
Communication (MA)	161	Composite Science Minor	223
Communication Minor	162	Related Science Minor	224
Earth Sciences	163	International Studies	224
Geographic Information Science (GIS) Certificate	174	International Studies (BA) - Asian Studies Concentration	229
Geographic Information Technology Minor	174	International Studies (BA) - European Studies Concentration	230
Geography (BS)	174		

International Studies (BA) - Global Health Concentration	232	Music (BM) – Elective Studies in Specific Outside Fields Concentration	304
International Studies (BA) - International Relations Concentration	234	Music (BM) – Instrumental Music Education Concentration	306
International Studies (BA) - Latin American Studies Concentration	236	Music (BM) – Instrumental Performance Concentration	309
International Studies (BA) - Middle East Studies Concentration	237	Music (BM) – Vocal Performance Concentration	311
International Studies (BA) - Modern and Classical Languages and Literature/International Studies Double Major	239	Music (MM) - Collaborative Keyboard Concentration	313
International Studies Minor	239	Music (MM) - Music Education Concentration	314
Jewish And Holocaust Studies	240	Music (MM) - Music Education Concentration - (Alternative Choral or Instrumental)	315
Jewish and Holocaust Studies Minor	243	Music (MM) - Performance Concentration (Piano, Voice, Brass, Percussion, Woodwinds)	316
Mathematics and Statistics	244	Music Minor	318
Applied Statistics Graduate Certificate	255	Native American Studies	318
Applied Statistics Minor	256	Native American Studies Minor	321
Mathematics (MS) - Non-Thesis Option	256	Philosophy	322
Mathematics (MS) - Non-Thesis Option with Computer Science Emphasis	256	Classics Minor	329
Mathematics (MS) - Thesis Option	257	Philosophy (BA) Classics Concentration	329
Mathematics and Statistics Major (BS)	257	Philosophy (BA) Philosophy Concentration	330
Mathematics Minor	258	Philosophy (BA) Religion Concentration	331
Military Science	259	Philosophy and Medicine Minor	332
Military Science Minor	262	Philosophy Minor	332
Modern Languages and Literature	262	Religion Minor	332
Applied Linguistics Minor	271	Physics	332
Chinese Minor	272	Physics (BS) - General Physics	336
French Minor	272	Physics (BS) - Graduate School Prep	337
German Minor	272	Physics (BS) - Meteorology Double Major	339
Modern Languages and Literature (BA) - French Concentration	272	Physics (BS) - Premedical Option	340
Modern Languages and Literature (BA) - German Concentration	274	Physics Minor	342
Modern Languages and Literature (BA) - Russian Concentration	275	Political Science and Criminal Justice	342
Modern Languages and Literature (BA) - Spanish Concentration	276	Criminal Justice (BA)	350
Russian Minor	277	Criminal Justice Minor	352
Spanish Minor	277	Political Science (BA)	352
Museum Studies	278	Political Science Minor	353
Museum Studies Minor	281	Public Administration (MPA)	353
Music	282	Psychology	354
Music (BM) - Elective Studies in Business Concentration	300	Psychology (BA)	362
Music (BM) - Vocal Music Education Concentration	302	Psychology (MS)	364
		Psychology Minor	364
		Sociology, Anthropology, And Social Work	365
		Anthropology (BA)	378
		Anthropology Minor	378

Social Work (BSW)	378	Performance Nutrition Minor	461
Sociology (BA)	380	Physical Education (BS) - P-12 Teacher Certification	461
Sociology Minor	381	Physical Education (M.Ed.) - Health Education 6-12 Teacher Certification	465
Stokes School of Marine and Environmental Sciences	381	Physical Education (M.Ed.) - P-12 Teacher Certification	465
Environmental & Sustainability Sciences (B.S.)	391	Physical Education (MS) - Exercise Science	465
Marine Science (MS) - Marine Conservation	392	Physical Education (MS) - Health Promotion	466
Marine Science (MS) - Non-Thesis Option	394	Recreational Therapy (BS)	466
Marine Science (MS) - Thesis Option	395	Sport Management (MS)	469
Marine Science (Ph.D.)	396	Sport Management and Recreation Studies (BS) - Coaching Administration	470
Marine Sciences (B.S.)	398	Sport Management and Recreation Studies (BS) - Sport Administration	473
Marine Sciences Minor	400	Sport Management and Recreation Studies Minor	476
Theatre and Dance	400	Hospitality and Tourism Management	476
Drama (BA)	402	Hospitality and Tourism Management (BS)	479
Drama Minor	403	Hospitality and Tourism Management Minor	481
Drama Minor with Concentration in Dance	404	Integrative Studies	482
College of Education and Professional Studies	404	Interdisciplinary Studies (BS or BA)	485
Counseling And Instructional Sciences	413	Interdisciplinary Studies Minor	488
Clinical Mental Health Counseling (MS)	423	Organizational Leadership (BS)	489
Clinical Mental Health Counseling Graduate Certificate	424	Leadership/Teacher Education	491
Educational Media (M.Ed.) - Library Media	424	Early Childhood Education (Alt. M.Ed.)	513
Educational Media and Technology (MS)	425	Early Childhood Education (M.Ed.)	514
Educational Media and Technology Graduate Certificate	426	Early Childhood Studies (BS)	514
Human Performance Improvement Graduate Certificate	426	Educational Administration (M.Ed.)	517
Instructional Design and Development (MS)	426	Educational Leadership (Ed.D.)	519
Instructional Design and Development (Ph.D.)	427	Educational Specialist (Ed.S.)	520
Instructional Design and Development Graduate Certificate	429	Elementary Education (Alt. M.Ed.)	521
School Counseling (M.Ed.)	430	Elementary Education (M.Ed.)	522
Health, Kinesiology, And Sport	430	Elementary Education: K-6 (BS)	522
Coaching Certificate	443	Reading Specialist Certification	526
Exercise Science (BS) - Health And Fitness Concentration	443	Secondary Education (Alt. M.Ed.)	526
Exercise Science (BS) - Pre-Professional Concentration	446	Secondary Education (M.Ed.)	527
Exercise Science and Performance Nutrition (Ph.D.)	450	Secondary Education Biology (BS)	528
Health & Wellness Minor	451	Secondary Education English Language Arts (BS)	531
Health (BS) - Health Education 6-12 Teacher Certification	451	Secondary Education General Sciences (BS)	534
Health (BS) - Health Promotion	455	Secondary Education Mathematics (BS)	538
Health-Physical Ed (BS) - Physical Education P-12 and Health Education 6-12 Teacher Certification	458	Secondary Education Social Science (BS)	541
		Special Education (Alt. M.Ed.)	544
		Special Education (BS)	545
		Special Education (M.Ed.)	549

College of Engineering	550	Nursing Practice (DNP) - MSN to DNP Adding a New Concentration Area	695
Chemical And Biomolecular Engineering	552	Nursing Practice (DNP) - MSN to DNP for Advanced Practice Nursing Roles	701
Chemical Engineering (BS)	556	Nursing Subspecialty Options	705
Chemical Engineering (MS)	559	Graduate School	706
Civil, Coastal, And Environmental Engineering	560	Chemical And Biomolecular Engineering	713
Civil Engineering (BS)	566	Chemical and Biomolecular Engineering (PhD)	714
Civil Engineering (MS)	568	Clinical and Counseling Psychology	715
Civil Engineering - Coastal Engineering Certificate	569	Clinical and Counseling Psychology (PhD)	722
Civil Engineering - Structural Engineering Certificate	570	Honors College	722
Civil Engineering - Water/Wastewater Engineering Certificate	570	Honors Interdisciplinary Studies	724
Electrical and Computer Engineering	571	Departmental Honors Designation	724
Computer Engineering (BS)	581	University Honors Designation	725
Electrical Engineering (BS) - General Track	584	Mitchell College of Business	725
Electrical Engineering (BS) - Premed Track	587	Accounting	728
Electrical Engineering (MS)	590	Accounting (BSBA)	731
Systems Engineering	591	Accounting For Business Majors Minor	734
Systems Engineering (MS)	594	Economics, Finance And Real Estate	734
Systems Engineering (Ph.D.)	595	Economics & Finance (BSBA)	739
Systems Engineering Certificate Program	596	Economics & Finance (BSBA) - Economics Concentration	740
William B. Burnsed, Jr. Mechanical, Aerospace, and Biomedical Engineering	596	Economics & Finance (BSBA) - Finance Concentration	743
Mechanical Engineering (BS)	603	Economics & Finance (BSBA) - Real Estate Concentration	746
Mechanical Engineering (BS) - Aerospace Track	605	Economics for Business Majors Minor	749
Mechanical Engineering (BS) - Biomedical Engineering Track	608	Economics for Non-Business Majors Minor	750
Mechanical Engineering (MS)	610	Finance for Business Majors Minor	750
Mechanical Engineering - Accelerated Bachelor's to Master's Program	611	Finance for Non-Business Majors Minor	750
College of Medicine	612	Real Estate for Business Majors Minor	750
Basic Medical Sciences	612	Real Estate for Non-Business Majors Minor	750
Basic Medical Sciences (PhD)	621	Management	750
College of Nursing	621	Entrepreneurship for Non-Business Majors Minor	759
Nursing	622	General Business (BSBA)	759
Nursing (BS) - Accelerated	661	General Business for Non-Business Majors Minor	763
Nursing (BSN) - RN-BSN	664	Industrial-Organizational Psychology Minor	763
Nursing (BSN) - Traditional	668	Management (BSBA)	763
Nursing (MSN) - BSN-Prepared RNs	674	Management (BSBA) - Entrepreneurship Concentration	766
Nursing (MSN) - RN-MSN with Non-Nursing Baccalaureate	679	Management (BSBA) - General Management Concentration	769
Nursing Post-Graduate Certificate	683	Management (BSBA) - Human Resources Concentration	772
Nursing Practice (DNP) - BSN to DNP	687	Management for Business Major Minor	775
Nursing Practice (DNP) - MSN Clinical Nurse Leader Bridge to DNP Executive Nursing Administration Pathway	692		

Management for Non-Business Majors Minor	775	Speech-Language Pathology (MSSLP)	884
Marketing and Quantitative Methods	776	School of Computing	885
Data Analytics Minor	780	Computer Science	888
International Business (BSBA)	780	Artificial Intelligence Certificate Non-Degree Program	897
Marketing (BSBA)	784	Computer Science (BS)	898
Marketing (BSBA) - Marketing Management Concentration	784	Computer Science (MS)	901
Marketing (BSBA) - Professional Sales Concentration	788	Computer Science Minor	902
Marketing for Business Majors Minor	791	Graduate Computer Science Cybersecurity Certificate	902
Marketing for Non-Business Majors Minor	791	Computing	903
Supply Chain & Logistics Management (BSBA)	791	Computing (PhD)	916
MCOB Graduate Programs	794	Information Systems And Technology	918
Accounting (MAcc)	808	Cybersecurity (MS)	929
Business Administration (MBA)	808	Graduate Information Systems Cybersecurity Certificate	931
Business Administration (PhD)	809	Health Informatics (BS)	931
Pat Capps Covey College of Allied Health Professions	811	Health Informatics Certificate	934
Biomedical Sciences	814	Information Systems (BS)	934
Biomedical Sciences (BS)	819	Information Systems (MS)	937
Biomedical Sciences (MS)	822	Information Systems Minor	937
Biomedical Sciences Minor	822	Information Technology (BS)	938
Emergency Medical Services	823	Information Technology Minor	941
Advanced EMT (AEMT) Certificate Program	828	Process Technology Certificate Non-Degree Program	941
Emergency Medical Services (BS)	828	Courses A-Z	942
Emergency Medical Services Minor	831	Academic & Student Affairs -MD (ASA)	944
EMT Certification Program	832	Accounting (ACC)	944
Paramedic Certificate Program	832	Adult Health Nursing (AHN) (AHN)	946
Professional Health Sciences (BS)	832	Aerospace Engineering (AE) (AE)	953
Occupational Therapy	835	African-American Studies (AFR) (AFR)	954

USA Bulletin Disclaimer

University of South Alabama
Mobile, Alabama 36688-0002
<https://www.southalabama.edu>

The University of South Alabama reserves the right to make changes in course offerings, curricula, academic policies, tuition and fee schedules and other rules and regulations affecting students in order to correct errors, omissions, inconsistencies or changes required by regulatory, accrediting and/or other governing bodies as necessary. Date of effectiveness and interpretation of said rules, regulations and policies are within the sole discretion of the University. These changes will apply to students who are enrolled at the time of the change, as well as those who will become enrolled in the future.

The University of South Alabama is an EO/AA employer and does not discriminate on the basis of race, color, national origin, sex, pregnancy, sexual orientation, gender identity and gender expression, religion, age, genetic information, disability, protected veteran status or any other applicable legally protected basis.

ACADEMIC CALENDAR

Academic Calendar 2023-24

Fall Semester 2023

Dates related to student finance and the Payment Plan:

<https://www.southalabama.edu/departments/financialaffairs/studentaccounting/payment-plan.html>

Dates for orientation for domestic students:

<https://www.southalabama.edu/orientation> (<https://www.southalabama.edu/orientation/>)

Dates for orientation for international students:

<https://www.southalabama.edu/departments/international/orientation.html>

Event	Date	Day
Registration begins for continuing students	Apr 3	Monday
Registration begins for new undergraduate students	Apr 25	Tuesday
Registration begins for new graduate students	May 16	Tuesday
Financial Aid/Scholarship Bookstore charges begin	Jul 24	Monday
100% of fall balance ¹ due	Aug 16	Wednesday
All registration schedules released if 100% of balance ¹ is not paid or participation in the payment plan	Aug 17	Thursday
Residence halls open	Aug 19	Saturday

About USA

We're the University of South Alabama. South, for short. Home to nearly 14,000 students and more than 125 academic programs, South is a dynamic community of leaders and learners who support and challenge one another to be actively engaged citizens who advance the Gulf Coast region (<https://www.southalabama.edu/aboutusa/gulfcoast/>) and the world. Founded in 1963, South's vision is to foster an environment that couples engaging learning experiences with high-level research, enabling our faculty and students to be leaders in their disciplines.

The unique and beautiful Gulf Coast region (<https://www.southalabama.edu/aboutusa/gulfcoast/>) is a catalyst for discovery and innovation, and South's 1,200-acre campus has been transformed over the past decade with new facilities and resources for teaching, housing and recreation, health sciences, the arts, engineering, computer science and athletics.

Jaguar athletes compete in 17 NCAA Division I sports, including baseball, basketball, cross country, football, golf, soccer, softball, tennis, track and field, and volleyball.

The coastal region is healthier because of the USA Health system. Through its five components — Children's & Women's Hospital, University Hospital, Mitchell Cancer Institute, USA Health Physicians Group and the Frederick P. Whiddon College of Medicine — and supported by the College of Nursing and the Pat Capps Covey College of Allied Health Professions — USA Health provides care to hundreds of thousands of people, and is a training ground for future physicians and healthcare professionals.

The University has implemented a strategic plan that is organized around five major priorities: Student Access and Success, Enhancement of Research and Graduate Education, Global Engagement, Excellence in Health Care, and University-Community Engagement. These priorities are the guiding influence in developing a strong, consistent vision for the future of the University.

USA is a place where students discover and strengthen their career passions, and form connections that result in lifelong relationships. At South, we look at the world and see things that we have the power to change, affect and shape — together. So that's exactly what we do, every single day.

To learn more about USA, visit our website at www.southalabama.edu (<http://www.southalabama.edu>) or schedule a campus visit by calling (251) 460-6141 or (800) USA-JAGS.

The University

University of South Alabama

The University of South Alabama, the only major public institution of higher learning on the upper Gulf Coast, was created by act of the Alabama State Legislature in May, 1963. With Alabama's two older universities more than 200 miles distant, the University is strategically located in the greater Mobile area, which has a population of more than a million within a 100-mile radius.

The Gulf Coast Region

Exploration in the Mobile River area began in 1519 when the Spanish Admiral Alonzo Alvarez de Pineda entered and charted the area now known as Mobile Bay. The old fort, now known as Fort Morgan, guarding Mobile Bay, was first fortified by the Spanish in 1559. Settled in 1711 by the French, the bay area has had a tradition rich in culture and vital in the affairs of the nation from its formative years to the present.

Trade and shipping are vital to the economy of the area. Millions of tons of shipping are handled annually through the Port of Mobile, which is rated among the top ports in the country. More than fifteen million tons of shipping are carried yearly on the Tombigbee-Black Warrior waterway system with its modern locks and dams. The intracoastal waterway, crossing the southern end of the state, is connected at Mobile Bay with both inland and ocean shipping. Railroads and airlines serve the Bay area. Diversified farming, woodland crops, and seafood and fisheries are major factors in the area's economy.

Mission Statement

The University of South Alabama, with a global reach and special focus on the Gulf Coast, strives to make a difference in the lives of those it serves through promoting discovery, health, and learning.

Vision Statement

The University of South Alabama will be a leading comprehensive public university internationally recognized for educational, research, and health care excellence as well as for its positive intellectual, cultural, and economic impact on those it serves.

Institution Philosophies and Purposes

The University of South Alabama is dedicated in purpose to the creation of an environment of intellectual excitement and an educational climate that will stimulate both faculty and students. A forum of free thought and discussion is provided which is intended to help develop an independent spirit undergirded by the moral and ethical values essential for effective participation in a free society.

The University strives for fresh approaches to courses and programs. Emphasis is placed on the traditional dedication to the advancement and dissemination of knowledge, as a center of learning concerned with the arts and humanities, study of human nature, phenomena of the physical world, processes of human relationships, and the knowledge and skills necessary for participation in professional vocational endeavors.

The University actively encourages the students to take responsibility for their own welfare and that of the community, thus stimulating them to become vitally involved in the pursuit of knowledge and the continuing use of their intellectual capabilities as responsible and effective individuals. Students are encouraged to participate in University decisions involving their own welfare, impressing upon them the responsibility inherent in this participation. The University is conscious of its obligation to the local, state, and national communities to assist students to attain the fullest possible knowledge of themselves in relation to society and to become enlightened participants in civic affairs. An ever-present concern with the problems of a changing society causes recognition of the University's responsibility to cooperate with local, civic, professional, and governmental organizations. It inculcates an awareness of the necessity for effective leadership in the social, political, and economic affairs of our society.

The University intends to extend its academic and professional programs to the highest level by introducing graduate programs and forming new schools and colleges when appropriate. New programs will be instituted only after necessary facilities, library resources, and faculty are acquired.

The University reaches outward to the international community and encourages a wide exchange of knowledge and cultural relationships with other peoples. Relations are maintained with other colleges and universities for the purpose of sharing resources and responsibilities in teaching, research, and service in this country and abroad, as well as with the secondary schools and junior colleges in this vicinity. The need for continuing adult education accounts for the public being offered an opportunity to profit from these intellectual and technical resources.

By contributing to the advancement of knowledge, by involving faculty and students in teaching, learning and research, and by offering its services to society commensurate with its resources, the University will achieve its maximum effectiveness.

Institutional Effectiveness

The University of South Alabama Statement on Institutional Effectiveness

To insure continued excellence as an educational institution, the University of South Alabama is committed to evaluating its effectiveness. The institution has carefully developed goals and objectives which are used as the basis for planning and evaluation. A variety of assessment methods are employed to determine the extent to which each goal has

been met, and the results of such assessments are used to improve both educational and support activities.

Athletic Department Mission/Philosophy

Mission Statement: The mission of the University of South Alabama Department of Athletics is to complement and support the University's overall institutional mission while developing leaders who achieve academic and athletic excellence.

Vision: The Department of Athletics will be a model intercollegiate athletics program recognized for its academic and competitive excellence. Our operations and culture will be student-centered and managed with sound educational and business practices. Sport programs will provide a source of pride and unity among students, alumni, faculty, staff, and the community we serve.

Core Values/Guiding Principles: The Department of Athletics affirms the following core values and guiding principles as essential to the accomplishment of its mission:

Core Values:

- Work ethic; Selflessness; Respect; Diversity; Fairness; Integrity; and Transparency.

Guiding Principles:

- Commitment to Graduation
- Commitment to Citizenship
- Commitment to Championships

Organization

The University of South Alabama, operating as a state institution of higher learning and financed in large part by public funds, is governed by a Board of Trustees.

The Board of Trustees has sixteen members who are appointed by the Governor, with the advice and consent of the Senate, with the exception of ex officio members:

- Twelve are from south Alabama including three from Mobile County and one from each of the nine southern senatorial districts as they were designated at the time the University was organized;
- Three are from the State at large;
- The Governor of Alabama serves as President, ex officio.

The administrative organization of the University has been designed to provide the greatest possible efficiency in operation for a multiplex, yet young, institution. The framework is sufficiently flexible, involving three primary areas of operation: academic, administrative, and student personnel. The three primary areas of institutional operation are supplemented and supported by programs in development and university relations. The organization includes:

- The President, appointed by the Board of Trustees;
- Other chief administrative officers who report directly to the President include the Executive Vice President, Provost and Senior Vice President for Academic Affairs, Vice President for Development and Alumni Relations, Vice President for Finance and Administration; Vice President for Medical Affairs; Chief Executive Officer and

Sr. Associate Vice President for Medical Affairs for USA Health; Vice President for Research and Economic Development; and Vice President for Student Affairs.

Each college within the University listed below is headed by an academic officer:

- The Pat Capps Covey College of Allied Health Professions
- College of Arts and Sciences
- Mitchell College of Business
- College of Education and Professional Studies
- College of Engineering
- College of Medicine
- College of Nursing
- School of Computing
- Graduate School
- Honors College

The Executive Director of University Libraries operates in cooperation with the faculty and reports directly to the Provost and Senior Vice President for Academic Affairs.

Within Colleges, departments operate under the direction of departmental chairs who report directly to the deans of the colleges.

Accreditations

The University of South Alabama is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award bachelor's, master's, specialist, and doctoral degrees. Degree-granting institutions also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of the University of South Alabama may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (<https://www.sacscoc.org/>).

Policy of Non-Discrimination

The University of South Alabama reserves the right to make changes in course offerings, curricula, academic policies, tuition and fee schedules and other rules and regulations affecting students in order to correct errors, omissions, inconsistencies or changes required by regulatory, accrediting and/or other governing bodies as necessary. Date of effectiveness and interpretation of said rules, regulations and policies are within the sole discretion of the University. These changes will apply to students who are enrolled at the time of the change, as well as those who will become enrolled in the future.

The University of South Alabama is an EO/AA employer and does not discriminate on the basis of race, color, national origin, sex, pregnancy, sexual orientation, gender identity and gender expression, religion, age, genetic information, disability, protected veteran status or any other applicable legally protected basis.

Compliance with Rehabilitation Act and ADA

The University of South Alabama complies with Section 504 of the Rehabilitation ACT of 1973 and the ADA of 1990 as amended. Any

questions relating to disability accommodations should be directed to the Center for Educational Accessibility and Disability Resources, Educational Services Building, Suite 19, (251) 460-7212.

University Libraries

The University Libraries provide the resources and services necessary to obtain, understand, and think critically about information, whether it is located physically in one of the libraries, or available electronically. Licensed full-text article services, periodical indexes and abstracts, eBooks, audiovisual resources and electronic reference materials are accessible online via the Libraries' web pages. The Libraries' book, journal, microform, and audiovisual collections provide students with physical information not available electronically. Individual and group study rooms and comfortable seating is available throughout the libraries. University librarians hold Master of Library Science degrees, specialize in particular fields of study, and are available to provide instructional classes at the request of faculty, as well as individualized reference and research services for students.

The Libraries of the University of South Alabama consist of the:

- Marx Library, the general library on the main campus
- Doy Leale McCall Rare Book and Manuscript Library, located in Marx Library
- Mitchell College of Business Joseph & Rebecca Mitchell Learning Resource Center
- Charles M. Baugh Biomedical Library, main campus adjacent to the College of Medicine

The Marx Library houses a Learning Commons offering reconfigurable table and lounge seating, whiteboards and technology for individual and group project development; group study rooms, photocopiers, networked printers; an auditorium and meeting rooms available for reservation; a Graduate Lounge and Reading Room; galleries featuring shows by student, faculty and regional artists, traveling exhibits, and special displays from the university collections. A full-service Starbucks is located at the west entrance to Marx Library. Reference, interlibrary loan, printing, photocopying, and other services are also available. USA's Student Academic Success JagSuccess tutoring services and its Writing Center are located within Marx Library. Marx Library houses the university's U.S. Documents collection. Marx Library faculty provide instructional services at the USA Baldwin County Campus.

The Doy Leale McCall Rare Book and Manuscript Library, located on the third floor of Marx Library, holds collections of local, regional, and national importance focused on the history of Mobile, the Alabama Black Belt, and southwest Alabama. These unique collections highlight the civil rights, cultural, economic, educational, environmental, legal, literary, military, political, and social history of the region from the early nineteenth century to the present. Of particular note are the McCall Library's photographic collections, which include over 3.4 million images, negatives, slides, and glass plates.

Located in the Mitchell College of Business, the Joseph & Rebecca Mitchell Learning Resource Center houses a business library, featuring a reading room and group study rooms, a computer lab, and the John B. Saint Financial Analysis Center.

The Charles M. Baugh Biomedical Library features library materials, study rooms, collaboration areas, instructional space, the ArtSpace@Biomed gallery, and the John F. Gray Student Veterans Resource Room, and provides reference and interlibrary loan services. The Biomedical Library

oversees hospital-based library services, as well as an extensive program of instruction to support the Colleges of Medicine,

Nursing, and Allied Health. Biomedical Library faculty work closely with clinical and teaching faculty to support student learning and information services for USA Health System personnel and patients.

The University Libraries manage JagWorks@USA, the online Institutional Repository serving the university and USA Health.

Admissions / Enrollment Services

The University of South Alabama welcomes applications from all individuals whose preparations and abilities give them reasonable chance of success in its programs. Admission recognizes both the university's commitment to excellence and its role as an urban institution. The University of South Alabama does not discriminate on the basis of age, sex, race, color, religion or national origin. These provisions also apply to disabled individuals pursuant to current federal and state regulations subject to reasonable standards of admission and employment.

- Nonresident and Residency Reclassification (p. 27)

Admission to the University

The Office of Admissions processes all applications for admission to undergraduate and graduate programs at the University. Inquiries about admission should be addressed to the Director of Admissions, Meisler Hall Suite 2500, University of South Alabama, Mobile, Alabama 36688-0002, or telephoned to (251)460-6141, toll-free number at (800)872-5247, or e-mail at admiss@southalabama.edu. Information is also available via a link on the University's Home Page on the World Wide Web: <https://www.southalabama.edu/departments/admissions/>.

Application for Admission

Students applying for admission to the University of South Alabama are required to file an application for admission with the \$35 nonrefundable processing fee by the deadlines noted. The application is available on

the Admissions website via a link from <https://www.southalabama.edu/departments/admissions/applytousa.html>.

Note: The University reserves the right to change fees without prior notice, as deemed necessary by the Board of Trustees (<https://www.southalabama.edu/departments/trustees/>).

Deadlines, Transcripts, and Test Scores

Students are urged to apply for admission well before their intended semester of entry. Scholarships and other financial aid and housing are more likely to be available to the qualified student who applies early. All undergraduate applications, including the required official documents, must be received no later than July 15 for fall semester, December 1 for spring semester, and May 1 for summer semester. Deadlines for applications and supporting documents for international students are earlier than the deadlines for U.S. Citizens. Refer to the "International Students" section for details. Scholarship deadlines are significantly earlier and published in the "Financial Aid" section of the Bulletin.

All documents required for admission review (transcripts, test scores, or letters of recommendation) must be official, i.e., mailed or sent electronically from the home institution or testing agency directly to the Office of Admissions by the deadline. These documents become the property of the University of South Alabama. The applicant is responsible for making certain that the admission application, processing fee, and all required documents are received by the University by the appropriate deadline.

First Time Freshmen must submit an official high school transcript showing grades earned and courses pursued. (A final official high school transcript showing the date of graduation is required for those who apply before the end of their senior year.) In addition, First-Time Freshmen applicants, who are not applying test-optional, must submit official college entrance examination scores—either the result of the ACT or the Scholastic Assessment Test (SAT).

High school students should take the test in the spring of the junior year or early in their senior year so test results will reach the University in ample time for admission review. Applicants must have the scores sent directly to the University from the testing agency by listing the University's code number as a recipient when registering for the examination (ACT code is 0059; SAT code is 1880) or by requesting an additional score report from the testing agency.

High school graduates, who are not applying test-optional, must submit test scores if their semester of matriculation is within five years of high school graduation or if they have not reached the age of 23. If applying for admission five years after graduation, applicants who have not taken the ACT or SAT need not sit for the examination and may apply under the Special Freshman Admissions category.

(See "Special Freshman Admission (<http://bulletin.southalabama.edu/admissions-enrollment-services/admission-types/#specialfreshman>)" under Admission Types).

Admission Types

Requirements for First Time Freshmen Admission

16 hours of required academic core courses

Curriculum Area	Units	Courses
English	4	
Mathematics	3	Must include Algebra I and two higher level math courses (For example: Algebra II, Algebra w/ Finance, Algebraic Connections, Geometry, Trigonometry, Analytical Geometry, Pre-calculus, or other higher level math courses will be considered).
Science	3	At least 2 of the sciences must include labs.
Social Science	3	
Advanced Electives	3	Courses chosen from any of the four core areas above and foreign language.
Total Core Units	16	

GPA and Test Scores

USA generally admits students with:

- a minimum ACT score of 19 or SAT score of 900 (critical reading and math only) if taken before March 2016, or New SAT score of at least 980 (Evidence Based Reading/Writing and math only) with a minimum GPA of 2.50.

Students who do not meet the standards for regular admission may be considered through committee review. Students who have completed and satisfied academic certification requirements for the National Collegiate Athletic Association under Division I guidelines may be considered for admission. (This option is available to all freshmen applicants.)

It is recommended that students submit the following items for committee review:

1. Letter of recommendation from your high school counselor or a teacher in a college preparatory course.
2. Personal essay on your reason for attending USA and your career plans.

The Alabama High School Diploma with Advanced Endorsement meets all University of South Alabama core requirements. The Credit Based Diploma awarded by Alabama High Schools is accepted; however, students must meet all high school core requirements listed above.

Students will be permitted to enroll in mathematics classes based on either a prerequisite course, their Math-ACT score, their Math-SAT score, or the Mathematics Placement test. Mathematics placement can be found at <https://www.southalabama.edu/colleges/artsandsci/mathstat/placementinfo.html>. Students may also be required to take reading or English courses based upon their ACT-English, ACT-Reading or SAT-Critical Reading score.

Applicants are now eligible to select test-optional as a path for admission to USA. Students who take this route could be asked to supply additional

materials. Test optional students are also eligible for scholarship consideration.

Permanent Residents will need to meet the above requirements and those who have not attended a US institution, whose native language is not English, must demonstrate English proficiency by submitting one of the following:

- Test of English as a Foreign Language (TOEFL) – composite of 61
- International English Language Testing System (IELTS) – composite of 5.5
- International Test of English Proficiency (iTEP) – composite of 3.6
- Pearson Test of English (PTE) – composite of 44
- Duolingo - composite 95
- ACT English – 19
- SAT Reading – 26
- Advanced Level English examinations from the United Kingdom with a score of “A”, “B”, or “C/A-E”

Applicants who hold a baccalaureate or graduate degree from a regionally accredited United States institution are exempt. Students transferring from postsecondary institutions within the United States are exempt, subject to the following conditions:

1. Transfer credits total at least 24 semester hours; **and**
2. Completion of English Composition I with a grade of “C” or better.

Admission Appeal Procedure

Applicants who fail to meet admission requirements as listed above and who believe that they have extenuating circumstances that might justify a different decision may contact the Admissions Office for procedures to seek additional consideration. You can reach out to the admissions office at admiss@southalabama.edu.

Special Freshman Admission

Special Freshman Admission are students who graduated from high school at least five years prior to the semester of entry or who have reached the age of 23, and did not sit for the college entrance examinations (ACT or SAT).

Academic Requirements: Applicants who do not satisfy the requirements for traditional admission may be admitted if satisfactory evidence is provided that they have the ability to successfully pursue the courses in which they wish to enroll.

Documents Required: Adult Special Freshman Admission applicants must submit an official high school transcript for admission consideration. Applicants for admission as Adult Special Freshman students should be high school graduates whose semester of entry to the university is at least five years since high school graduation or are at least 23 years of age.

Permanent Residents will need to meet the above requirements and those who have not attended a US institution, whose native language is not English, must demonstrate English proficiency by submitting one of the following:

- Test of English as a Foreign Language (TOEFL) – composite of 61
- International English Language Testing System (IELTS) – composite of 5.5
- International Test of English Proficiency (iTEP) – composite of 3.6

- Pearson Test of English (PTE) – composite of 44
- Duolingo - composite 95
- ACT English – 19
- SAT Reading – 26
- Advanced Level English examinations from the United Kingdom with a score of “A”, “B”, or “C/A-E”

Applicants who hold a baccalaureate or graduate degree from a regionally accredited United States institution are exempt. Students transferring from postsecondary institutions within the United States are exempt, subject to the following conditions:

1. Transfer credits total at least 24 semester hours; **and**
2. Completion of English Composition I with a grade of “C” or better.

GED First Time Freshmen Admission

GED First Time Freshmen Admission are students at least 17 years of age who took the General Education Development (GED) test and did not graduate from high school.

Academic Requirements: Applicants are granted admission based on adequate performance on high school level General Education Development (GED) test. Students taking the test prior to January 2014, must score an average of at least a 500 or a 50, if taken before January 2002. Students taking the GED beginning January 2014 must score at least a 170 in each subject area.

Documents Required: GED First Time Freshman applicants must submit an official copy of their General Educational Development (high school level) test results.

Both Adult Special Freshman Admission and GED First Time Freshman students are considered degree-seeking students and are subject to all academic regulations.

Permanent Residents will need to meet the above requirements and those who have not attended a US institution, whose native language is not English, must demonstrate English proficiency by submitting one of the following:

- Test of English as a Foreign Language (TOEFL) – composite of 61
- International English Language Testing System (IELTS) – composite of 5.5
- International Test of English Proficiency (iTEP) – composite of 3.6
- Pearson Test of English (PTE) – composite of 44
- Duolingo - composite 95
- ACT English – 19
- SAT Reading – 26
- Advanced Level English examinations from the United Kingdom with a score of “A”, “B”, or “C/A-E”

Applicants who hold a baccalaureate or graduate degree from a regionally accredited United States institution are exempt. Students transferring from postsecondary institutions within the United States are exempt, subject to the following conditions:

1. Transfer credits total at least 24 semester hours; **and**
2. Completion of English Composition I with a grade of “C” or better.

Freshmen with Previous Credits

Freshmen with Previous Credits are students who attended another college prior to high school graduation. Note: A student who also attended another college during the Summer directly after high school graduation, with no more than 11 credit hours earned, will be considered as a Freshman with Previous Credits. If a student earns 12 or more hours during the Summer after graduation or earns college credits in subsequent terms prior to enrolling at USA, the student will be considered as a Transfer student.

Academic Requirements: Applicants must satisfy the requirements for First-Time Freshmen applicants and must have earned at least a “C” (2.0) average on all previous collegiate work attempted. The grade-point average used is that computed by the Office of Admissions.

Documents Required: Freshmen with Previous Credits applicants must submit all the documents required for First-Time Freshmen as well as an official transcript from each college attended prior to enrolling at USA.

Permanent Residents will need to meet the above requirements and those who have not attended a US institution, whose native language is not English, must demonstrate English proficiency by submitting one of the following:

- Test of English as a Foreign Language (TOEFL) – composite of 61
- International English Language Testing System (IELTS) – composite of 5.5
- International Test of English Proficiency (iTEP) – composite of 3.66
- Pearson Test of English (PTE) – composite of 44
- Duolingo - composite 95
- ACT English – 19
- SAT Reading – 26
- Advanced Level English examinations from the United Kingdom with a score of “A”, “B”, or “C/A-E”

Applicants who hold a baccalaureate or graduate degree from a regionally accredited United States institution are exempt. Students transferring from postsecondary institutions within the United States are exempt, subject to the following conditions:

1. Transfer credits total at least 24 semester hours; **and**
2. Completion of English Composition I with a grade of “C” or better.

Early Admission Applicants

Early Admission applicants are students who have completed the junior year of high school and wish to enroll full-time at the University.

Academic Requirements: Applicants must be recommended by the high school counselor, have:

1. a 3.5 minimum high school GPA, as computed by the USA Office of Admissions;
2. scored at least a 28 composite on the ACT (or 1250 SAT scores);
3. completed the junior year of high school;
4. completed the Core High School Requirements listed above under Regular Admission.
5. and be approved by the Director of Admissions.

Documents Required: Early Admission applicants must submit an official high school transcript showing grades through the junior year, official

ACT or SAT scores and a letter of recommendation from the school guidance counselor.

Permanent Residents will need to meet the above requirements and those who have not attended a US institution, whose native language is not English, must demonstrate English proficiency by submitting one of the following:

- Test of English as a Foreign Language (TOEFL) – composite of 61
- International English Language Testing System (IELTS) – composite of 5.5
- International Test of English Proficiency (iTEP) – composite of 3.6
- Pearson Test of English (PTE) – composite of 44
- Duolingo - composite 95
- ACT English – 19
- SAT Reading – 26
- Advanced Level English examinations from the United Kingdom with a score of “A”, “B”, or “C/A-E”

Applicants who hold a baccalaureate or graduate degree from a regionally accredited United States institution are exempt. Students transferring from postsecondary institutions within the United States are exempt, subject to the following conditions:

1. Transfer credits total at least 24 semester hours; **and**
2. Completion of English Composition I with a grade of “C” or better.

Special Programs

Start South Dual Enrollment/Early College Program

Start South is the dual enrollment/early college program. It is open to high school sophomores, juniors, and seniors who meet the program's academic requirements. Courses can be used to satisfy degree requirements at USA, or they can be transferred to other institutions. Coursework is offered online, on campus, and on the high school campus when available.

Academic Requirements

Applicants must have authorization from their high school for dual enrollment or a transcript for early college. Students must have earned at least a “B” (3.0 on a 4.0 scale) average in academic subjects. Tests scores are not needed for admission but may be needed for math and English placement.

Alabama residents participating in Start South can qualify for automatic admission to USA if they complete 9 or more credit hours of USA coursework listed by August 15 of senior year and earn a minimum cumulative 3.0 USA GPA. Start South students also receive priority housing for entering freshmen upon earning 9 or more credit hours with a minimum 3.0 GPA by December of the senior year of high school.

College of Medicine Early Acceptance Program (EAP)

Qualified high school seniors are selected for acceptance to the University and to the University of South Alabama College of Medicine. Candidates selected for the program enter the Health Pre-Professions Program at USA; their curriculum will include core requirements for the selected baccalaureate program and prerequisites for matriculation in

medical school. Students participating in the College of Medicine Early Acceptance Program must meet program requirements during their tenure as undergraduates to continue in the program. Upon successful completion of the baccalaureate degree and EAP requirements, students enter the University of South Alabama College of Medicine.

Go to the Early Acceptance (<https://www.southalabama.edu/departments/admissions/earlyacceptance/>) page for more detail.

Physical Therapy Early Acceptance Program (PTEAP)

The Department of Physical Therapy Early Acceptance Program offers a select number of talented high school seniors a position in the University of South Alabama Department of Physical Therapy first year class after completion of the pre-requisite requirements of the program and their USA undergraduate degree.

Go to our Early Acceptance (<https://www.southalabama.edu/departments/admissions/earlyacceptance/>) page for more detail.

College of Nursing Early Acceptance Program

Highly qualified high school seniors selected for the College of Nursing Early Acceptance Program and fulfilling all program requirements are guaranteed admission to the upper division professional component of the nursing curriculum. Students are admitted to the College of Nursing and must complete all Pre-Professional Nursing courses at USA; their curriculum includes core requirements and prerequisites for the upper division nursing program.

Go to our Early Acceptance (<https://www.southalabama.edu/departments/admissions/earlyacceptance/>) page for more details

The Honors College

See “Honors College (p. 722)”.

Department of Psychology Early Acceptance Program

The Department of Psychology offers highly qualified high school students a position in the Master's Program in Experimental Psychology (Behavior and Brain Sciences) upon successful completion of pre-requisite requirements and their USA undergraduate degree.

Go to our Early Acceptance (<https://www.southalabama.edu/departments/admissions/earlyacceptance/>) page for more details.

Undergraduate Transfer Admissions Transfer Students

Transfer students have attended a regionally accredited college or university after high school graduation.

Academic Requirements: Applicants are granted unconditional admission if they have earned a cumulative average of at least “C” (2.00) on all work attempted. (Note: The grade-point average used is that computed by the University of South Alabama Office of Admission.) Applicants must be eligible to attend the institution in which they were last enrolled.

Applicants that have earned college credits, but fewer than 30 semester hours, must also satisfy freshman admission requirements.

Students graduating with an AA or AS Degree from a regionally accredited institution will be granted admission if this is their last school attended and they have earned a cumulative average GPA of at least a "C" (2.00); as calculated by the AA or AS Degree granting institution and documented on their college transcript.

Documents Required: Transfer student applicants must make certain that official transcripts of all courses for which they have been registered at other colleges or universities are sent directly to the University from each home institution. Students must report colleges where registration was completed even though no credit was earned. **Prior enrollment information will be verified by National Student Clearinghouse.**

Applicants who have attempted fewer than 30 semester hours or 40 quarter hours of college work must submit college transcripts and high school transcripts and ACT or SAT scores. (Test Scores are not required in applying test-optional)

Permanent Residents will need to meet the above requirements and those who have not attended a US institution, whose native language is not English, must demonstrate English proficiency by submitting one of the following:

- Test of English as a Foreign Language (TOEFL) – composite of 61
- International English Language Testing System (IELTS) – composite of 5.5
- International Test of English Proficiency (iTEP) – composite of 3.6
- Pearson Test of English (PTE) – composite of 44
- Duolingo - composite 95
- ACT English – 19
- SAT Reading – 26
- Advanced Level English examinations from the United Kingdom with a score of "A", "B", or "C/A-E"

Applicants who hold a baccalaureate or graduate degree from a regionally accredited United States institution are exempt. Students transferring from postsecondary institutions within the United States are exempt, subject to the following conditions:

1. Transfer credits total at least 24 semester hours; **and**
2. Completion of English Composition I with a grade of "C" or better.

Admission Appeal Procedure

Applicants who fail to meet admission requirements as listed above and who believe that they have extenuating circumstances that might justify a different decision may contact the Admissions Office for procedures to seek additional consideration. You can reach out to the admissions office at admiss@southalabama.edu.

Transfer of Credit: The Registrar's Office evaluates all credits to determine the number transferable to the University of South Alabama. Such transferred credit will be applied, after evaluation, to the specific program of the student. The final program evaluation requires approval by the Dean of the College in which the student is accepted or by the Dean's designated representative. Credits transferable to the University may or may not be applicable, in whole or in part, to a specific program. Transfer students are urged to review all the requirements for a degree as specified in the Academic Policies and Procedures section of the Bulletin.

No credit is given for college-level General Education Development tests, or for courses evaluated as non-credit or remedial at this institution. No more than a combined total of 25% of the total credits required for the degree will be allowed for credit received through the College Level Examination Program (CLEP), Advanced Placement Program (AP), credit by examination, correspondence courses, military service school courses, and other approved non-collegiate-sponsored programs as recommended by the American Council on Education.

Only one half of the credit hours required for a degree may be transferred from a community college. While the total number of transfer hours will appear on the transcript, the academic department offering the major will determine how they may apply to the degree.

A transfer student from a collegiate institution not accredited by the appropriate regional association may request an evaluation of transfer credits from the student's academic dean after completing one year (30 semester hours) of work at the University of South Alabama. Students must provide syllabi for each course to their academic dean. Syllabi will be sent to the appropriate colleges for approval. No degree credit will be accepted by the College of Education and Professional Studies from any collegiate institution unless that institution has regional accreditation.

Transfer Credit for English Composition: No credit is given for course work in English Composition in which the grade is below a "C".

Transfer Credit from Community/Junior Colleges

The University evaluates and includes all community college/junior college transfer credit on the transcript. Although transferable to the University, credits may or may not be applicable to a specific degree program. The final program evaluation of transfer credit requires the approval of the Dean. In no case will transfer credit applied to a degree program exceed 50% of the total number of hours in the program (up to a maximum of 64 hours).

No credit will be awarded for remedial, vocational and technical courses. Courses not generally accepted from a junior/community college may be considered for transfer credit on a selective basis. Such courses must be approved for degree credit by the student's academic dean based upon the recommendation of the appropriate department chair.

University of South Alabama students at any level of progress toward a degree are restricted, in terms of junior college transfer credit, only by the first and second items above.

Alabama Articulation Program (STARS)

The Alabama Articulation Program (also called STARS - Statewide Articulation Reporting System (<http://stars.troy.edu/home.html>)) is a web-based articulation and transfer planning system designed to inform students who attend Alabama Community Colleges about degree requirements, course equivalents, and other transfer information pertaining to specific majors at each state funded four-year institution. STARS provides students, counselors, and educators with accurate information upon which transfer decisions can be made. STARS is the information link between the state's public two-year and four-year institutions, and can prevent the loss of course credit hours, can provide direction for the scheduling of course work, and can ease the transition from one institution to another. Students who are interested in obtaining a "Transfer Guide" should visit the University of South Alabama Transfer

Assistance website at <https://www.southalabama.edu/departments/admissions/transfer.html>.

Transfer Credit from Military Service Schools

Military service-school courses will be evaluated with reference to the recommendation of the American Council on Education (ACE) when official credentials have been presented by the student to the Registrar's Office. Such recommendations, however, are not binding upon the University. In no instance, however, may any of the hours of credit be substituted for specific courses, but they may be substituted for electives.

Students who have successfully completed basic training in the armed forces may receive four semester hours of elective credit and exemption from P.E. by presenting a DD214, DD295, a copy of a Community College of the Air Force transcript, or a certificate of training to the Office of the Registrar for currently enrolled or former students, or to the Office of Admissions for new students. Army, Coast Guard, Marine Corps, and Navy (Active Duty, Reserve, and Veterans) may request an official Joint Services Transcript by visiting: <https://jst.doded.mil/official.html>

The Office of Veterans Affairs is located in Academic Support Center, Suite 1345 on the main campus of the University to facilitate veterans' programs and to provide counseling and other veterans' services. (See "Student Activities Section.")

Undergraduate Credit from Foreign Institutions

See "International Student (<http://bulletin.southalabama.edu/admissions-enrollment-services/international-student-admissions/>)" section.

Special Category Students

Transient Students

Transient Students are visiting students from other colleges/universities and who wish to attend the University for one term and return to the home institution.

Academic Requirements: Students must be in good standing at the current institution and have the approval of their registrar or dean to enroll at USA.

A transient student must accept full responsibility in meeting course prerequisites and having the necessary preparation to take the course or courses desired.

Enrollment as a transient student in no way implies future admission as a regular student to the University of South Alabama.

Documents Required: Transient applicants must request the registrar or dean of the college or university in which they are currently enrolled to complete the University's Transient Form or write a letter of good standing for the applicant and mail it directly to the University.

If the student should decide to remain in transient status for more than one term the student must submit the University's Transient Student Form and a Readmission Application (available from the Office of Admissions) by the specified deadline (see "How to Apply for Readmission" section of the Bulletin) each semester. Should a transient

student decide to transfer to the University of South Alabama, the student would be required to apply in the same manner as a transfer student and submit complete transcripts from each college or university attended.

Audit Students

Audit students wish to take courses, but not receive credit.

Academic Requirements: Students are admissible if a completed application for admission and the \$35 nonrefundable processing on-line fee are submitted to the Office of Admissions by the published deadlines. No other documentation is required. Audit students pay the same tuition and fees as credit students.

Note: Transient, Unclassified and Audit students are not eligible to be considered for financial aid since they are not enrolled in degree-seeking programs.

Unclassified Applicants

Unclassified applicants are students who have earned at least a baccalaureate degree and wish to take additional undergraduate courses, but not for degree purposes.

Academic Requirements: Applicants are admissible if an official transcript showing evidence of the baccalaureate, master's or doctoral degree is received. Note that unclassified students are eligible to enroll in undergraduate courses only and are not working toward a degree. Students seeking a second undergraduate degree should apply as Transfer students.

Documents Required: Unclassified students submit an official transcript showing their earned baccalaureate, master's, or doctoral degree.

International Student Admissions Requirements for International Admission

The Office of International Admissions and Student Programs at the University of South Alabama provides special services and programs for non-U.S. Citizens and is responsible for the processing of applications for admission submitted by non-citizens. The following are the specific requirements needed by the applicants.

Application Deadlines

All necessary documents must be received by the established deadline as indicated below for the semester the student wishes to enter. Applications completed after the deadline will be considered for the following term, unless otherwise requested by the student.

Deadlines Outside the United States	Deadlines Inside the United States
Fall - June 15	Fall - July 15
Spring - November 1	Spring - December 1
Summer - April 1	Summer - May 1

International Application for Admission

1. Non-citizen Application for Admission - The Non-citizen Application for Admission must be completed and signed by the applicant. A nonrefundable \$35.00 application fee, payable through a U.S. bank, must accompany the application. Applications received without the \$35.00 processing fee will not be processed.

II. Academic Records - Complete and certified academic records of all secondary and/or postsecondary education attempted must be submitted. Whenever possible, the records must be forwarded directly from the issuing institution to the University of South Alabama. Copies must be certified by an official of the government or school (e.g., Registrar or Dean). Unofficial copies may be accepted on a temporary basis. Any applicant who submits unofficial documents for admissions consideration must submit official copies no later than the student's first semester check-in and orientation. Failure to do so may result in revocation of admissions and cancellation of the immigration document issued by the University.

If an applicant submits documentation that is deemed fraudulent, the University will immediately revoke admission and terminate/cancel immigration documents issued by USA. If already a student, OIASP will also send notification to the Dean of Students of student misconduct.

III. English Proficiency

A. New Freshman/Transfer

Nonimmigrant applicants, whose native language is not English, must demonstrate English proficiency by submitting one of the following:

1. Tests of English Proficiency (minimum overall score posted below)
 - a. TOEFL - 61
 - b. IELTS - 5.5
 - c. ITEP - 3.6
 - d. PTE - 44
 - e. Duolingo - 95
 - f. Advanced Level English examination from the United Kingdom with a score of 'A', 'B', or 'C/A-E'

B. Transfer Students

Applicants transferring from a United States regionally accredited institution will be exempt, subject to the following conditions:

1. Transfer credits total at least 24 semester hours; **and**
2. Completion of English Composition I with a grade of "C" or above

C. Exemptions

Applicants may be exempt from the English proficiency requirement, under the following conditions:

1. Completion of a baccalaureate or graduate degree from a regionally accredited United State institution
2. From a native English speaking country

IV. Other Test Options

- a. ACT Composite - 19
- b. SAT Evidence Based Reading/Writing & Math - 980, with Reading Test score of 26

Students not meeting EH 101-English Composition prerequisites will be required enroll in a supported section of the course based upon their English proficiency Reading and Writing subscores, their ACT-English, SAT-Critical Reading, or SAT-Reading Test score. Students will be permitted to enroll in mathematics classes based on either a prerequisite course, their Math- ACT score, their Math-SAT score, or the Mathematics Placement test. Mathematics placement can be found at <https://www.southalabama.edu/colleges/artsandsci/mathstat/placementinfo.html>.

Unofficial test scores may be accepted on a temporary basis. Any applicant who submits unofficial test scores for admissions review must submit official score reports no later than the student's first semester.

Notification: Students are notified of admissions decisions as soon as all required documents are received. The I-20 or DS-2019 is emailed to students after additional documentation is received by the Office of Immigration.

Transfer Credit from Foreign Institutions - Students transferring to the University from foreign postsecondary institutions must submit a detailed course syllabus from which to evaluate transfer credit. Advanced Placement credit is available from a number of worldwide sources. Contact the Registrar's Office for details. Students may secure a professional evaluation of academic credentials at their own expense. Course-by-course professional evaluation is required of transfer students accepted into the College of Education and Professional Studies and students applying to the professional component of any program in the Pat Capps Covey College of Allied Health Professions.

(See the section below entitled "Additional information for all International Students.")

Graduate Applicants

- I. Non-citizen Application for Admission - A non-refundable \$60 application fee, payable through a U.S. Bank must accompany the application. Applications received without the \$60.00 application fee will not be processed.
- II. Academic Records - Complete and certified academic records of all secondary and postsecondary education attempted must be submitted. Whenever possible, the records must be forwarded directly from the issuing institution to the University of South Alabama. Copies must be certified by an official of the government or school (e.g., Registrar or Dean). Unofficial copies may be accepted on a temporary basis. Any applicant who submits unofficial documents for admissions consideration must submit official copies no later than the student's first semester check-in and orientation. Failure to do so may result in revocation of admissions and cancellation of the immigration document issued by the University. If an applicant submits documentation that is deemed fraudulent, the University will immediately revoke admission and terminate/cancel immigration documents issued by USA. If already a student, OIIA will also send notification to the Dean of Students of student misconduct.
- III. English Proficiency
 - Minimum TOEFL score of 71 **or**
 - Minimum IELTS score of 6 **or**
 - Minimum iTEP score 3.7 **or**
 - Minimum Pearsons (PTE Academic) score 48
 - Minimum Duolingo score of 100

Please note that some programs may require higher scores to prove English proficiency.

Students with Graduate degrees from regionally accredited United States postsecondary institutions are exempt.

Additional exemptions are at the admitting department's discretion.

- IV. Standardized Tests - Standardized test requirements for the various academic programs are listed in the appropriate sections of the Bulletin. All test scores must be official and sent directly from the testing service which administered the examination to the University. Unofficial test scores may be accepted on a temporary basis. Any applicant who submits unofficial test scores for admissions review must submit official score reports no later than the student's first semester.
- V. Recommendation Letters - Three recommendations may be required by the department. Applicants will enter each recommender's information during the application process. The recommender should be a person familiar with the applicant's academic qualifications and ability to undertake the proposed course of study.
- VI. Statement of Purpose - A Statement of Purpose written by applicant may be required by the department and must be uploaded to application portal.

Notification: Students are notified of the admissions decision from the Graduate Dean as soon as all required documents are received and the Graduate Dean has received a recommendation from the appropriate graduate program. The I-20 or DS-2019 is emailed to students after additional documentation is received by the Office of Immigration.

Students wishing to postpone their arrival to a later semester must notify the Office of Immigration and International Admissions in writing. Students who have previously attended USA and wish to re-enroll should contact the Office of Immigration and International Admissions to see what steps need to be taken to be reviewed for readmission or re-entry.

Nonimmigrant International Students

Deposits

A non-refundable admissions deposit of \$500 USD will be required of an international student before an I-20 or DS-2019 is issued.

International Student Nonimmigrant and International Student Fees

All international students with nonimmigrant visas are considered nonresidents for tuition purposes and will be assessed a nonresident fee and an international student fee each semester.

Orientation

New international students are required to participate in an orientation program prior to their first semester at the University. The orientation program welcomes students to the University, introduces them to staff and students, and familiarizes them with immigration regulations, academic procedures and the community. Readmitted and matriculated international students will be required to attend all or parts of the

orientation program the first semester they return to or begin a new program at the University.

Medical Insurance

The University requires all international students on nonimmigrant visas to maintain medical insurance coverage. Students must purchase the University's international student health insurance policy at registration or apply for a waiver of the University health insurance plan. Proof of adequate health insurance must be submitted with the waiver application. Sponsored students may request to waive the health insurance requirement if they receive health insurance from their home country government or Embassy.

Readmissions

Students who have been previously enrolled in the University of South Alabama and have been absent for at least three consecutive terms or have been required to sit out a term due to academic suspension or dismissal should comply with the following:

How to Apply for Readmission

An applicant should complete the electronic readmission application found here: https://www.southalabama.edu/departments/admissions/under_readmissions.html. The readmission application, including all required credentials, should be sent to the Office of Admissions.

Readmission applications do not have to pay another processing fee.

Requirements for Readmission

An applicant must be eligible to return to the University of South Alabama on the basis of a previous academic record at this institution. If the student has attended any college or university subsequent to last enrollment at the University of South Alabama, the student must also have the required transfer average or higher (as computed by the University of South Alabama, Office of Admissions) on work attempted, and must be in good standing and eligible to return to the last institution attended.

The University of South Alabama supports its students who are called into active military service or its members of a US military reserve unit. Students who have been admitted to or enrolled at the University of South Alabama may request a withdrawal to fulfill a US military obligation by contacting the Registrar's Office. These students will be readmitted in accordance with readmission provisions in the Higher Education Opportunity Act of 2008 (Section 484C of the HEA) and implementing regulations in 34 CFR Section 668.18. Students needing readmission should contact the Office of Admissions to provide notification of intent to return and would need to provide documentation of military service.

Permanent Residents who have not attended a US institution, whose native language is not English, must demonstrate English proficiency by submitting one of the following:

- Test of English as a Foreign Language (TOEFL) – composite of 61
- International English Language Testing System (IELTS) – composite of 5.5
- International Test of English Proficiency (iTEP) – composite of 3.6
- Pearson Test of English (PTE) – composite of 44
- Duolingo - composite 95
- ACT English – 19
- SAT Reading – 26

- Advanced Level English examinations from the United Kingdom with a score of "A", "B", or "C/A-E"

Applicants who hold a baccalaureate or graduate degree from a regionally accredited United States institution are exempt. Students transferring from postsecondary institutions within the United States are exempt, subject to the following conditions:

1. Transfer credits total at least 24 semester hours; **and**
2. Completion of English Composition I with a grade of "C" or better.

Applicants who fail to meet admission requirements and who believe they have extenuating circumstances that might justify a different decision may appeal for further consideration. The following items are required for the admissions appeal process:

1. A personal essay describing why you want to attend USA and your career goals.
2. Letter/s of recommendation
3. Optional : Additional supporting documents to substantiate an appeal (including any documents from USA departments or personnel)

Please send all supporting documents by e-mail to the Office of Admissions at admiss@southalabama.edu.

Prospective Student Programs and New Student Orientation

Southbound Orientation (<https://www.southalabama.edu/departments/orientation/index.html/>) provides an introduction to the academic, service, and social areas of the University of South Alabama. This mandatory program is offered at the beginning of each semester and prior to class registration. Details are sent to all new students prior to registration. Further information may be obtained from:

The Office of Prospective Student Programs and New Student Orientation

5910 USA South Drive
Mobile, AL 36688-0002
telephone (251) 460-7093

Re-admits do not need to attend New Student Orientation.

Nonresident and Residency Reclassification

Students enrolling at the University of South Alabama who come to the state of Alabama from another state [with the exception of the Service Area in Florida (Escambia and Santa Rosa counties) and Mississippi (George, Greene, Harrison, Jackson, Perry, and Stone counties)] for the purpose of attending school will be considered a "non-resident student" for tuition purposes. The Office of Admissions determines a student's residency status at the time of admission. This determination is based on the application information, transcripts, and other documents required for admission and will default to "non resident" status if any out-of-state information is received. After the initial determination of a student's residency status, the status shall continue unchanged through all registrations at the university until and unless

1. a non-resident student provides satisfactory evidence that they are a resident of Alabama as defined by this policy, or

2. a student classified as a resident is absent from Alabama with the intent to become a resident in another state.

Residency status is also reviewed at the time of readmission to the university after any absence of one year (three semesters) or more. At the discretion of the institution, residency status can be reviewed at any time.

A person or, if the person is a minor, the person's supporting person(s) who moves to Alabama or to the Service Area for the primary purpose of attending college shall not be considered to have demonstrated intent to establish domicile in Alabama or the Service Area and will not generally be considered eligible for classification as a resident student. A person or, if the person is a minor, the person's supporting person(s) who establishes domicile in Alabama or the Service Area for the sole purpose of avoiding Alabama non-resident tuition will be subject to non-resident tuition.

Non-resident students who carry a full-time academic load for the fall or spring semester will be presumed to be in Alabama or in the Service Area for the primary purpose of attending college. These students will not be considered to have demonstrated the intent to establish domicile in Alabama or the Service Area and will remain subject to non-resident tuition.

A "resident student" for **tuition purposes is one who,**

- Is not a "minor" and is a resident of the state of Alabama or Service Area and has been a resident of the state for at least one year (12 consecutive months) immediately preceding the date of registration; or
- Is a "minor or dependent" whose "supporting person(s)" is a resident of the state of Alabama or Service Area and has been a resident of the state for at least one year immediately preceding the date of registration; or
- One who, at the time of registration, is not a "minor" and:
 - Is a full-time (not temporary) employee of the University of South Alabama or is the spouse of such an employee; or
 - Is employed as a graduate assistant or fellow at the University of South Alabama; or
 - Is able to verify full-time permanent employment within the state of Alabama and shall commence said employment not more than 90 days after registration (first day of classes) with the institution, or is the spouse of such an employee; or
 - Is a member or the spouse of a member of the United States military on full-time active duty stationed in Alabama under orders for duties other than attending school; or
 - Is a resident of any county within the University of South Alabama's Service Area (Florida: Escambia and Santa Rosa counties; and Mississippi: George, Greene, Harrison, Jackson, Perry, and Stone counties) and has been a resident of that county for at least one year immediately preceding the date of registration; or
 - Has been a member of the Alabama National Guard for a period of at least two years immediately preceding the student qualifying for resident tuition and continues to be a member of the Alabama National Guard while enrolled at the University of South Alabama; or
 - Is a veteran of the Armed Forces of the United States, provided that the veteran has become a resident of Alabama and satisfies one of the following conditions:
 - The veteran has served on active duty for a continuous period of time, not less than two years, and has received

an honorable discharge as verified by a United States Department of Defense Form 214 within five years of enrolling at the University of South Alabama.

- The veteran is currently serving in a reserve component of the Armed Forces of the United States as verified by a memorandum from the commanding officer of the veteran student.
- The veteran has been assigned a service-connected disability by the United States Department of Veterans Affairs; or
- Is in a program or takes courses within an interstate consortium of colleges or universities that either offers reciprocal resident student tuition to residents of Alabama in the program or courses offered by colleges or universities not within Alabama, or is enrolled in a program or courses through an interstate consortium of colleges or universities that assesses tuition at a uniform rate for all students enrolled in that course or program; or
- Is an accredited member of or the spouse of an accredited member of a consular staff assigned to duties in Alabama; or
- One who, at the time of registration, is a "minor or dependent" and whose "supporting person(s)":
 - Is a full-time employee (not temporary) of the University of South Alabama; or
 - Is able to verify full-time permanent employment within the state of Alabama and shall commence said employment not more than 90 days after registration (first day of classes) with the institution; or
 - Is a member of the United States military on full-time active duty stationed in Alabama under orders for duties other than attending school; or
 - Is a resident of any county within University of South Alabama's Service Area and has been a resident of that county for at least one year immediately preceding the date of registration.

A non-resident student is one who does not meet the criteria for a "resident student" as specified in the preceding section.

Definitions

Dependent Students

Dependent Students are those students under the age of 24 who are presumed to be a dependent of his or her supporting person(s) if he or she (1) has been primarily involved in educational pursuits as evidenced by being enrolled as a full-time student at any point during the last year, or (2) cannot prove financial self-sufficiency for at least one calendar year (12 consecutive months) prior to enrollment at the University. All students under the age of 24 are presumed to be dependent students unless proven otherwise through appropriate documentation.

Minor Students

Minor Students are those students who lack the capacity to contract under the law of the State of Alabama because of their age (persons under 19 years of age or persons under 18 years of age if married) excluding those persons whose disabilities of non-age have been removed by a court of competent jurisdiction for a reason other than establishing a legal residence in Alabama.

Residence

For the purpose of this policy, a residence shall be the single location at which a person resides with the intent of remaining in that location indefinitely as evidenced by more substantial connections with that

place than with any other place and not for the purposes of obtaining an education.

Resident

A person or, if the person is a minor, the person's supporting person(s) whose residence is in the state of Alabama or the defined Service Area and not for the purposes of obtaining an education.

Residence of a Minor or Dependent Student

The residence of a minor or dependent student shall be the residence of his or her supporting parent unless, in the case of a minor, neither parent has legal custody. When neither parent has legal custody, the residence of the minor student shall be the residence of the person having legal custody of the minor student.

Supporting Person

If the student's parents are living together, the "supporting person(s)" may be either or both of the parents. If the parents are divorced or living separately, then either the parent having legal custody or the parent providing the greater amount of financial support of the two (verified by a copy of the most recent income tax return.) If both parents are deceased or if neither had legal custody, then supporting person shall be established in the following order: legal custodian of the student, and, if none, the guardian, and, if none, the conservator.

Service Area

The following counties in the states of Florida and Mississippi shall be defined as the University of South Alabama Service Area: in Florida: Escambia and Santa Rosa; in Mississippi: George, Greene, Harrison, Jackson, Perry, and Stone.

The ultimate determination of residency status shall be made by the institution. In determining whether the student is in fact a resident of Alabama or a resident of the Service Area for the purposes of assessing a student non-resident fee, the burden of proof is on the student. A student can change their status from non-resident to resident student only by establishing a physical presence and place in Alabama or in the predefined Service Area and by providing clear and convincing evidence that, for 12 consecutive months prior to the semester of registration, this presence and place has been the student's or, if the student is a minor, the student's supporting person's single location at which they reside with the intent of remaining in that location indefinitely as evidenced by more substantial connections with that place than with any other place and not for the purposes of obtaining an education.

Resident/Non-Resident Student

In determining resident or non-resident classification, the primary issue is one of intent. If a person is in Alabama primarily for the purpose of obtaining an education, that person shall be considered a non-resident student.

Request Reclassification

How Does a Non-resident Student Request Reclassification of Residency Status for Tuition Purposes?

To be reclassified for tuition purposes, a non-resident student must prove by sufficient evidence, as determined by the institution, that he or she is a resident of the state of Alabama. A student's status as a resident student is determined by one of the following methods by proving that:

- The student has a residence in the state of Alabama which means the specific address in Alabama at which they reside; that they

intend to remain there indefinitely; that they have more substantial connections with Alabama than with any other state; and that the student has established a physical presence and place that has been their true, fixed, and permanent place of habitation for the 12 consecutive months preceding the semester of registration; or

- The student is not a "minor" and is a full-time employee (not temporary) of the University of South Alabama or is the spouse of such an employee; or
- The student is able to verify full-time permanent employment within the state of Alabama and shall commence said employment not more than 90 days after registration (first day of classes) with the institution, or is the spouse of such an employee; or
- The student is a member or the spouse of a member of the United States military on full-time active duty stationed in Alabama under orders for duties other than attending school; or
- The student is a recipient of the Alabama G.I. Dependents' Scholarship administered through the Alabama Department of Veterans Affairs; or
- The student is a resident of any county within the University of South Alabama's Service Area and has been a resident of that county for at least one year immediately preceding the date of registration; or
- The student has been a member of the Alabama National Guard for a period of at least two years immediately preceding the student qualifying for resident tuition and continues to be a member of the Alabama National Guard while enrolled at the public institution of higher education; or
- The student is in a program or takes courses within an interstate consortium of colleges or universities that either offers reciprocal resident student tuition to residents of Alabama in the program or courses offered by colleges or universities not within Alabama, or is enrolled in a program or courses through an interstate consortium of colleges or universities that assesses tuition at a uniform rate for all students enrolled in that course or program; or
- The student is an accredited member of or the spouse of an accredited member of a consular staff assigned to duties in Alabama.

If the student is a minor or dependent, then his or her "supporting person," as that term is defined in the Non-resident Tuition Policy statement, must meet similar tests which are described in the Non-resident Tuition Policy.

In Determining Whether a Student Has a Residence in Alabama, The University Will Evaluate the Presence or Absence Of Connections With the State of Alabama Including, But Not Limited To, The Following:

- Continuous physical presence in the state or Service Area for a purpose other than attending school except for temporary absences for travel, military service, temporary employment, etc.
- Payment of income tax to the State of Alabama or Service Area in the previous calendar year.
- Evidence of employment in the State of Alabama or Service Area for the 12 consecutive months prior to the semester of registration.
- In-state or Service Area address and date shown on selective service registration, driver's license, automobile title registration, hunting and fishing license, insurance policies, stock and bond registrations, last will and testament, annuities, or retirement plans.
- Ownership of personal property in the state or Service Area and payment of state taxes thereon (e.g. automobile, boat, etc.) and possession of state license plates.
- Ownership of a residence or other real property in the state or Service Area and payment of state ad valorem taxes thereon; more

significantly ownership of a residence other than the place where the student resides while in school.

- Residence in the state or Service Area of a spouse, parents, or children.
- Transfer of all banking services to Alabama or Service Area, such as "checking and savings" accounts, safe deposit boxes, and/or investment accounts.
- Financial transactions in the state or Service Area.
- Previous periods of residency in the state or Service Area continuing for 12 months or more.
- Possession of state or local licenses to do business or practice a profession in the state or Service Area.
- Membership in religious, professional, business, civic, or social organizations in the state or Service Area not connected to their status as a student.
- Location within the state or Service Area of the high school from which the individual graduated.
- Financial independence from non-Alabama resident parents or other relatives.
- Military records, such as Leave & Earning Statements, showing an in-state address. CO Letter indicating date of Assignment in Alabama or Service Area (for Active Duty Military).
- Documentation that Alabama or Service Area is home state of record for returning military personnel.

Other Possible Supporting Documentation:

Voter registration in the State of Alabama or Service Area; more significantly certification of voting in the State of Alabama or Service Area that initially occurred at least 12 months prior to the initial registration of the student in Alabama at a public institution of higher education.

This list is not meant to be all-inclusive and merely describes examples of supporting evidence which may be considered in the determination of whether a student has more substantial connections with the state of Alabama than any other state. Supplying such supporting evidence does not guarantee classification as a resident.

For a Student Who is Not a Minor, Factors Which May Show More Connections With a State Other Than Alabama Include, But Are Not Limited To, The Following:

- Student maintains ties with another state, excluding Service Area, such as maintaining a driver's license in another state, or owning a house in another state.
- Student begins living in Alabama or Service Area shortly before or only after being admitted to attend school in an Alabama university.
- Student lives in Alabama or Service Area only while in school and returns repeatedly to another state during summer term, vacations, and holidays.
- A parent or other person who is not an Alabama resident or Service Area resident provides more than minimal or occasional financial support.
- Student leaves personal possessions in another state, excluding Service Area, and only brings to Alabama what is necessary for temporary stay.
- Student receives PLUS loan money from parents who are not Alabama residents or Service Area residents.

- Student receives personal loans other than from a financial institution.
- Student obtains loans with co-borrowers who are non-Alabama residents.
- Student receives financial aid that requires the student to be a resident of another state.

For information regarding the Residency Reclassification process, please contact the Office of the Registrar at:

Office of the Registrar
Meisler Hall, Suite 1100
390 Student Center Circle
Mobile, AL 36688
Ph: (251) 460-6251
residency@southalabama.edu

Online Programs

Tuition and fees for programs delivered in a distance format are assessed based on a separate schedule approved by the Board of Trustees.

International Student Residency Status

In general, international students may apply for residence reclassification but must have the ability to remain indefinitely in the United States and otherwise meet the requirements of the Alabama Code and Board Rule 202. More specifically, a person must be a Permanent Resident Alien, Political Asylee, Political Refugee, or hold an A, E, G, H, I, L, O, P, R, TC, TD, TN, or U visa to be eligible for review as an in-state resident for tuition purposes. Students who hold a B, F, J, or M visa are not eligible to establish Alabama residency unless their supporting person is an Alabama resident or is a full-time employee of a company party to an Alabama Free Trade Agreement.

Academic Common Market Non-Resident Tuition Remission

Academic Common Market (ACM) non-resident tuition remission (exemption) is available to students from certain states for specific academic programs. Application must be made first with the awarding state. The student must be a legal resident of that state and approved for a specific major at the University of South Alabama. Both undergraduate and graduate students are eligible to apply. The waiver is 100 percent of the non-resident tuition remission and will remain at this level unless the student's field of study changes, or a student no longer has full-time status.

A qualified student must maintain full-time status, remain in academic good standing and comply with all the requirement of the degree program. If a student changes their major from the approved ACM certified major, then they must inform the Office of the Registrar at USA of the change of status. The student will be responsible for the non-resident tuition for the remaining semesters at the University of South Alabama. To be eligible for the non-resident tuition remission during the first semester of enrollment, applications and resident verification must be submitted to and approved by the Office of the Registrar prior to the first day of class.

For more information about submission and deadlines, please contact the Office of the Registrar at (251) 460-6251. Students seeking information on the Academic Common Market waiver should contact the Academic Common Market at:

Southern Regional Education Board
592 10th St. N.W.
Atlanta, GA 30318-5776
Main phone: (404) 875-9211
Main fax: (404) 872-1477

Tuition and Fees

This schedule includes the basic fees required each semester of all students enrolled at the University. Since personal expenses including books, supplies, and other living expenses vary, no attempt is made to estimate those costs. The University reserves the right to change fees, as deemed necessary by the University Board of Trustees, without prior notice.

Nonresident Fees are waived for graduate assistants.

Students taking both on-line and on-campus courses are subject to additional on-campus fees including non-resident fees.

Graduate Students enrolled in undergraduate courses will be assessed tuition at the graduate tuition rate.

Estimated Costs (Example Only)

Full-time Commuting Students

Based upon 2023-2024

Course Fees of Typical Undergraduate Student	Semester	Year
Taking 15 credit hrs	\$5,610.00	\$11,220.00
Registration Fee	0	0

Academic Infrastructure & Technology Fee	\$200.00	\$400.00
	\$5,810.00	\$11,620.00

Full-time Resident Students

Based upon 2023-2024

Course Fees of Typical Undergraduate Student	Semester	Year
Taking 15 credit hrs	\$5,610.00	\$11,220.00
Registration Fee	0	0
Academic Infrastructure & Technology Fee	\$200.00	\$400.00
Delta Room for Two	\$2,690.00	\$5,380.00
Jag Meal Plan	\$2,075.00	\$4,150.00
	\$10,575.00	\$21,150.00

Departmental Fees

These fees are charged on a semester basis to students who enroll in certain courses; see Schedule of Classes (<https://www.southalabama.edu/schedule/>) for detailed information.

All students enrolled in courses utilizing university computing facilities will be charged a fee. The amount of the fee (\$15.00 or \$22.00) will be based on the planned level of computer utilization as defined by individual departments.

Miscellaneous Fees

These fees are charged on a semester, yearly, or one-time basis or when certain conditions are present:

Miscellaneous Fee	Amount
Admissions	
Application Fee (non-refundable, on-line)	\$35.00
Application Fee (non-refundable, paper)	\$45.00

Greek Housing

For information about Fraternity and Sorority Housing rates, please visit <https://www.southalabama.edu/departments/housing/fshapply.html>.

¹ All rates are subject to change. Room rates include campus mail box, digital cable, Ethernet & wireless internet access, all utilities (electricity, water/sewer, heat/air, garbage service, and pest control), housing and facilities staff available 24/7, accommodation furnishings, and unlimited laundry access.

Board Plans

Information on the Board Plans is available through USA Dining, located in the Student Center, (251) 460-6296. See Housing & Dining (<https://www.southalabama.edu/departments/housing/>) for additional information.

These are the University of South Alabama's payment policies effective Fall Semester 2023. Payment can be made via cash, check, electronic check or money order, Visa, MasterCard, Discover or American Express card. Student payments can be made on-line on PAWS with your credit card or ACH web check. Payment Drop Boxes are located at Meisler Hall,

and the lobby of the College of Education. (No Cash Please.) The Office of Student Accounting is open Monday-Friday 8:00 AM - 5:00.

Payment Plans

The University of South Alabama offers the option to pay in full or to pay via participation in a payment plan. Students must enroll in the payment plans in accordance with each semester's payment deadlines or their class schedule is subject to cancellation.

Payment by payment plan requires the student or authorized user to sign up each term within their student financial account. The plan features four monthly payments for the Fall and Spring terms (late enrollment may reduce the number of payments available to three) based on actual charges and plan enrollment date. Three payments are offered for the Summer term. The plan payments may increase or decrease if a student makes changes to their schedule. A late fee of \$15 will apply if installment payments are not made by the due date. Installment plan payments are divided equally according to the duration of the plan.

The first payment and a \$35 nonrefundable processing fee are due at the time of enrollment. Students must have a minimum balance of \$400 to be eligible to enroll in the payment plan. Students with a past due balance of \$200 or more from a previous term are not eligible to participate. Students in the College of Medicine, English Language Center and Study Abroad are not eligible to participate. Enrolling in a payment plan does not result in automatic payment scheduling. Payment plan participants must either log in each month to make payments or schedule their payments in advance according to the due dates of the plan installments within the student financial account.

How to enroll in the payment plans.

2023 - 2024 Payment Policy Summary

Full payment or enrollment in a payment plan is required for all tuition and fees, including housing and meals, by the following dates for students registered before the first day of class.

- Fall 2023 - August 16, 2023 on campus payments, or on-line (PAWS).
- Spring 2024 - January 4, 2024 campus payments or on-line (PAWS).

Full payment or enrollment in a payment plan is required for all tuition and fees, including housing and meals, by the following dates for students registering during the late registration period.

- Fall 2023 - August 28, 2023 on campus payments, or on-line (PAWS).
- Spring 2024 - January 12, 2024 campus payments or on-line (PAWS).

Class cancellations will occur on the following dates:

- Fall 2023
 - 1st cancellation - August 17, 2023, if account is not paid in full or nor enrolled in a payment plan.
 - 2nd cancellation - August 29, 2023, if account is not paid in full or not enrolled in a payment plan.
- Spring 2024
 - 1st cancellation - January 5, 2024, if account is not paid in full or not enrolled in a payment plan.
 - 2nd cancellation - January 16, 2024, if account is not paid in full or not enrolled in a payment plan.

Late Registration and Re-registration Periods:

- Fall 2023: August 22-28, 2023
- Spring 2024: January 8-12, 2024

Students registering during the late registration period will be assessed \$100 Late Registration.

Please see <https://www.southalabama.edu/departments/financialaffairs/studentaccounting/financialcalendar.html> **for summer payment deadlines.**

Fall Semester 2023

Date	Event
April 3	Registration for continuing students
July 24	Financial Aid/Scholarship Bookstore charges begin
August 16	100% of Fall balance due
August 17	All registration schedules released if 100% payment deadline not met or participation in the Payment Plan.
August 22	Classes Begin 100% refund period on dropped courses and complete withdrawals.
August 30	Deadline for electronic direct deposit (EDD) enrollment Late registration 100% of balance* due
August 29	100% refund period on dropped courses and complete withdrawals end at 10:00 PM Late registration schedules released if 100% payment deadline not met or participation in the Payment Plan.
August 30	50% refund period begins on dropped courses and complete withdrawals.
August 29	50% refund period ends: No course withdrawal refunds after this date.
August 30	Financial Aid/Scholarship Bookstore Charges End
September 1	Financial Aid Refunds Begin

Spring Semester 2024

Date	Event
October 30	Spring registration for continuing students
December 4	Financial Aid/Scholarship Bookstore Charges Begin
January 4	100% of Spring Balance Due
January 5	All registration schedules released if 100% payment deadline not met or participation in the Payment Plan.
January 8	Classes Begin 100% refund period begins on dropped courses and complete withdrawals.
January 12	Late registration 100% of balance* due
January 15	100% refund period on dropped courses and complete withdrawals end at 10:00 PM
January 16	Financial Aid/Scholarship Bookstore charges end Late registration schedules released if 100% payment deadline not met or participation in the Payment Plan Deadline for electronic direct deposit (EDD) enrollment 50% refund period begins on dropped courses and complete withdrawals.
January 19	Financial Aid Refunds Begin
January 21	50% refund period ends: No course withdrawal refunds after this date.

Financial Aid Refunds Will Be Distributed After Drop/Add

The Office of Student Accounting will review eligibility after the third day of class and process the refunds within 10 business days. Refunds will continue to be processed via direct deposit and checks.

For more detailed information, please see the Schedule of Classes for fall semester. Remember, if you are a financial aid recipient, be sure to apply early and complete your file in a timely manner. Enrollment Services will be happy to direct students to the proper office, should assistance be needed.

Charging Privileges at the USA Bookstore (For Financial Aid Recipients Only)

Students who have been awarded financial aid may now charge their books at the USA Bookstore immediately. Students will no longer need to wait until their financial aid balance is returned to them to buy books. If a student has been awarded financial aid by USA's Office of Financial Aid and has excess funds after all tuition, fees, meals, and housing have been paid, he or she may charge up to \$1,500 (or the available balance, whichever is less) of books at the USA Bookstore. The Bookstore will have the available amount at checkout. Bookstore charges will be placed

on the student's account and covered by the financial aid disbursement. **Bookstore charges will run from July 24, 2023 to August 30, 2023 for Fall Semester 2023, December 4 - January 17, 2024 for Spring Semester 2024.**

University Withdrawals and Refunds

A student who withdraws from one or more courses may request a refund on course fees only. The refund period is the first two weeks of the semester.

Withdrawal Date	Percent of Fees Refunded
First day of class through eighth day of classes (calendar days)	100%
Ninth day of class through fourteenth day of classes (calendar days)	50%

For complete withdrawals, other fees are also proportionately refunded, except those listed as nonrefundable. The actual dates for withdrawals are shown in the University Calendar (<https://www.southalabama.edu/academiccalendar/>) section of this Bulletin.

Application fees and registration fees (including the late-registration or late-payment fees) are nonrefundable fees.

A student called for military service during the school term should consult the Office of Student Accounting regarding refunds of fees.

Housing and Meal Plan refund information is located at: <https://www.southalabama.edu/departments/housing/financialpolicies.html>.

Guaranty Tuition Bond

For certain distance education courses, the University of South Alabama maintains a guaranty tuition bond covering any amounts of tuition that may be refundable according to the policies of the University. To obtain a copy of this bond, please e-mail your request to USAonline at ecampus@southalabama.edu.

Federal Financial and Recipient Withdrawals and Refunds

Return of Federal Financial Aid Refunds

In accordance with federal guidelines, when a student completely withdraws from school, a portion of Federal Financial aid grant or loan funds, except for Federal Work-Study earnings, must be returned to the applicable federal program (s). If a federal aid recipient completely withdraws from school after beginning attendance, the amount of federal aid earned by the student must be determined based on the number of days the student attended in the given term. If the amount disbursed to the student is greater than the amount the student earned, the unearned federal aid funds must be returned. Federal aid funds will be returned in the following order:

- Unsubsidized Direct Stafford loans (other than PLUS loans)
- Subsidized Direct Stafford loans
- Federal Perkins loans
- Direct PLUS loans
- Federal Pell Grants
- Federal SEOG

- Federal TEACH Grants
- Iraq and Afghanistan Service Grant

Note: If your Title IV Financial Aid required return is greater than the posted University refund at the time of your withdrawal, you will owe the difference to the University. The Office of Student Accounting will notify you of the amount due.

If a student completely withdraws after completing 60% of the term, then it is assumed that the student has earned 100% of their federal aid award, and no funds will be returned to the federal programs.

Return of Department of Defense Tuition Assistance Funds

In accordance with the Department of Defense Memorandum of Understanding (MOU), the University is required to return unearned funds to the program, if a student withdraws from a course paid for by Department of Defense funds (tuition assistance), based on the following schedules:

5-week Course Withdrawal

Withdrawal Date	Percent of Fees Refunded
Day 1-7	100% return
Day 8	77% return
Day 9	74% return
Day 10	71% return
Day 11	69% return
Day 12	66% return
Day 13	63% return
Day 14	60% return
Day 15	57% return
Day 16	54% return
Day 17	51% return
Day 18	49% return
Day 19	46% return
Day 20	43% return
Day 21	40% return (60% of course is completed)
Day 22	0% returns

8-week Course Withdrawal

Withdrawal Date	Percent of Fees Refunded
Before or during week 1	100% return
During week 2	75% return
During weeks 3-4	50% return
During week 5	40% return (60% of course completed)
During weeks 6-8	0% return

16-week Course Withdrawal

Withdrawal Date	Percent of Fees Refunded
Before or during weeks 1-2	100% return
During weeks 3-4	75% return
During weeks 5-8	50% return

During weeks 9-10	40% return (60% of course is completed)
During weeks 11-16	0% return

Delinquent/Unpaid Accounts

In the event of an unpaid balance of any nature on the student's account (including any unpaid check returned by a bank) the following services will be withheld until the balance is paid in full:

- Enrollment for subsequent terms
- Transcripts, including any for transfer of college credits
- Grades, including viewing on PAWS
- Diploma

If it is necessary to refer an unpaid account to an outside collection agency, any costs and fees of collection (up to 34% of the debt) will be added to the student's account, and the account will be reported to the credit bureaus. If legal action is required to collect the account, attorney fees will be added to the amount due.

Offset of Funds

If a student's University account has an outstanding balance due, of any nature, including departmental fines and the University has in its possession any funds payable to the student (from payments or credits applied to the student's account, payroll checks, and/or any other source, except federal financial aid awards), the University reserves the right to withhold the funds necessary to clear the student's outstanding balance and to cover any collection costs incurred. Once those amounts are paid, any remaining funds are paid to the student.

Check-Cashing Service

Checks drawn on out-of-town banks to a maximum of \$25.00 may be cashed at the Office of Student Accounting by presenting a valid I.D. card. A \$15.00 charge will be made on each returned check not paid by the bank. Checks are not cashed for students during the last two weeks of classes each semester.

Financial Aid

- Financial Aid General Information (p. 35)
- One Stop (p. 41)
- Scholarships (p. 42)

Financial Aid General Information

Purpose

The University of South Alabama (USA) subscribes to the principle that the purpose of financial aid is to provide assistance to students who, for lack of funds, would otherwise be unable to attend college. Financial aid is offered according to each student's need in relation to college costs. Aid offers may include grants, loans and part-time employment, and may be offered to a student in various combinations.

Inquiries about financial aid should be addressed to:

The Office of Financial Aid (<https://www.southalabama.edu/departments/finaid/>)
390 Student Center Circle, 1200 Meisler Hall
University of South Alabama, Mobile, AL 36688-0002

telephone (251) 460-6231 or e-mail: finaid@southalabama.edu.

Applying for Financial Aid

Students interested in receiving federal student aid must complete the Free Application for Federal Student Aid (FAFSA) at <https://fafsa.gov>. The FAFSA must be filed each year. USA's federal school code is 001057. By listing USA's federal school code and completing the FAFSA correctly, USA will receive the FAFSA electronically. Upon receipt of this data, notification will be sent via email of additional forms needed by the Office of Financial Aid.

Students are eligible to continue receiving financial aid as long as they meet federal aid eligibility criteria and the academic policies of the USA. Students must also meet the conditions of Satisfactory Academic Progress (SAP) as defined in the current University Bulletin.

Additionally, students may be asked to submit information such as tax transcripts and other documents to support the information provided on the FAFSA. Official aid offers will not be determined until all requested documents are received and reviewed.

When all required application information is submitted to the Office of Financial Aid, the student's file is reviewed and evaluated to determine eligibility for federal aid. Students are notified of their aid offers via JagMail.

Application Deadlines

Students who submit all required application data early and correctly will receive priority for financial aid funding. Please refer to the Office of Financial Aid's website at <https://www.southalabama.edu/departments/finaid/> for important deadlines.

Disbursement of Financial Aid

Financial aid is typically disbursed on the eighth day of each academic term and paid to students at the rate of one-half (1/2) per semester.

Aid eligibility is determined at the end of the official Drop/Add period. Classes added after the Drop/Add period ends will not increase a student's aid eligibility.

All aid except Federal Work Study (FWS) will be applied to institutional charges. Students whose federal aid eligibility has not been determined by the payment deadlines or whose federal aid does not cover all institutional charges should be prepared to pay the difference with a personal check, credit card or enroll in the University Payment Plan. If the amount of aid is more than institutional charges, the excess funds excluding scholarships will be issued as a credit balance refund by the Office of Student Accounting.

Admission

To be considered for financial aid, a student must be accepted for admission. A student must be classified as a degree seeking student in an eligible program and major. Students who are non-degree, unclassified, transient, or audit students are not eligible to receive financial aid. Only courses required for the student's degree program can be used to determine enrollment status.

Citizenship

For all programs, an applicant must be a citizen of the United States or an eligible noncitizen.

Federal Pell Grant

The Federal Pell Grant is a need based grant given to undergraduate students who are seeking their first bachelor's degree. Eligibility is determined through a standard formula established by Congress, which is used to evaluate the information reported on the FAFSA. This will produce an Expected Family Contribution (EFC). The amount of Pell Grant a student is eligible to receive depends on the EFC and enrollment status. Pell Grant is prorated for three-quarter, half time, or less-than-half time enrollment. Students must be enrolled full time in order to receive the full amount of the Pell Grant listed on their finalized aid offer. A student's Pell Grant eligibility cannot exceed 600% which is the equivalent of 12 full time semesters. Pell Grant does have to be repaid.

Federal Supplemental Educational Opportunity Grant (FSEOG)

The Federal Supplemental Educational Opportunity Grant (SEOG) is a need based grant given to undergraduate students who are enrolled in a first bachelor's degree program and are Federal Pell Grant eligible. Students with the highest need are given priority. SEOG funds are limited and are given to eligible students until the funds are depleted. SEOG does not have to be repaid.

Federal Teacher Education Assistance for College & Higher Education (TEACH) Grant

Federal Teacher Education Assistance for College & Higher Education (TEACH) Grant are conditional grants of up to \$4,000 per year provided to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families.

In exchange for receiving a TEACH Grant, students must agree to serve as a full-time teacher in a high-need field in a public or private elementary or secondary school that serves low-income students. For more information on high-need fields and schools serving low-income students, visit <https://studentaid.gov>.

As a recipient of a TEACH Grant, students must teach for at least four academic years within eight calendar years of completing the program of study for which they received a TEACH Grant.

To receive a TEACH Grant, students must meet the following criteria:

- The FAFSA must be filed for the application year and USA must have the results of the FAFSA.
- Be a U.S. citizen or eligible non-citizen.
- Meet USA's Satisfactory Academic Progress standards.
- Attend each term at USA. Disbursement amounts are prorated based on hours of attendance. (ex: Full Time - 100% award, 3/4 time - 75% of award, 1/2 time - 50% of award, less than half time - 25% of award)
- If an undergraduate student (second bachelor's student are not eligible):
 - Be enrolled in the College of Education and Professional Studies in an eligible TEACH Grant major.
 - Maintain a cumulative USA GPA of at least a 3.25
 - A final high school GPA of 3.25 for a new first year students or a cumulative USA GPA of 3.25 for continuing students.
- If a graduate student (not eligible if received TEACH for previous degree in same teaching field):
 - Be enrolled in the College of Education and Professional Studies in an eligible TEACH Grant major.

- Maintain a cumulative USA GPA of at least a 3.25.
- An overall undergraduate GPA of at least 3.25 documented on the transcript at the time of graduation for new graduate students or a cumulative USA graduate GPA of 3.25 for continuing graduate students.

If a student receives a TEACH Grant but does not complete the required teaching service, the student will be required to repay the grants as a Federal Direct Unsubsidized Direct Loan with interest charged from the date of each TEACH Grant disbursement.

Alabama Student Assistance Program (ASAP)

Alabama Student Assistance Program (ASAP) is a need-based grant offered to eligible Alabama residents seeking a first undergraduate degree and are Federal Pell Grant recipients.

The amount of ASAP offered depends on the student's need, the amount of funds allocated to USA, and the availability of funds.

Federal Work Study (FWS)

Federal Work Study (FWS) is a federally funded part time work program administered through the Office of Financial Aid. FWS is need-based and offered to students based on their eligibility as determined by the FAFSA and other financial aid criteria. Students must indicate their interest in the FWS program on the FAFSA to be considered each academic year. FWS funds are limited and are offered to eligible students on a first come first serve basis until the funds are depleted.

The Office of Financial Aid will offer FWS to eligible students as part of their financial aid package. These funds must be earned and will not be available at the time of registration for the payment of fees. The amount listed on a student's aid offer is the maximum amount available to earn from the FWS program and will usually allow student employees to work up to 15 hours per week. FWS student employees are paid bi-weekly. Each student is required to accept their FWS offer, complete orientation, locate a job and begin working within 30 days of the first day of class.

The FWS Program provides funding for both on campus and off campus jobs. Students assigned on campus FWS are able to apply for jobs that are available on USA's campus. Students who are assigned off campus FWS may apply for community service-based jobs or through USA's Students Teaching America's Youth (STAY) program in partnership with the Mobile County Public School System (MCPSS) elementary schools under the America Reads Program. Through the STAY program, FWS students assist teaching students in approved Mobile County public elementary schools. STAY students are required to pay for a nationwide background check and be cleared before working in the elementary school. Some community service opportunities may require a background check as well. FWS jobs are exclusively posted on <https://southalabama.joinhandshake.com/login> (<https://southalabama.joinhandshake.com/login/>).

Student Employment Program

Part-time employment is available to students through individual departments or colleges. Students should contact departments or colleges directly regarding possible employment opportunities for student employment.

Off-Campus Employment

The Job Location and Development (JLD) Program is a federally funded program administered through the Office of Financial Aid and is dedicated to helping students find part-time employment to help alleviate the increasing cost of education. The primary goal of this program is to help currently enrolled students locate off-campus, part-time job opportunities regardless of financial need. Announcements of part-time job openings in the Mobile, AL and surrounding areas are posted in Handshake at <https://www.southalabama.edu/departments/finaid/job.html>. Students must be enrolled at USA to access the job listings.

Federal Direct Loans

Federal Direct Loans are low interest loans that undergraduates, parents of dependent undergraduates and graduates may obtain from the federal government. They include the Federal Direct Subsidized Loan, Federal Direct Unsubsidized Loan, Federal Direct Parent Loan for Undergraduate Students (PLUS) Loan and the Federal Direct Graduate PLUS Loan. These loan programs were created by Congress to help all eligible students and parents with and without financial need pay for educational expenses. Students must be enrolled at least half time to be eligible to receive Federal Direct Loan funds.

The type of Federal Direct Loan a student may borrow is based on the student's demonstrated need. Demonstrated need is the student's Cost of Attendance minus the Expected Family Contribution (which is calculated from the information submitted on the FAFSA) minus other aid.

Federal Direct Loans have loan origination fees that are a percentage of the total loan amount. The loan fee is deducted proportionately from each loan disbursement that is received. Information regarding loan fees and interest rates can be found at <https://studentaid.gov>.

Direct Subsidized Loan

The Direct Subsidized Loan is offered to undergraduate students with demonstrated need. The federal government pays the interest that accrues while the student is in school.

Direct Unsubsidized Loan

The Direct Unsubsidized Loan is offered to both undergraduate and graduate students without demonstrated need. The student pays the interest that accrues while in school and during the grace period. Undergraduate students may receive a combination of both Subsidized and Unsubsidized loans depending on their eligibility of need versus no-need and their dependency status.

Federal Direct Loan Limits

Dependent Undergraduates

- Freshmen may borrow up to \$5,500 per year. (Not to exceed \$3,500 in Federal Direct Subsidized Loans)
- Sophomores may borrow up to \$6,500 per year. (Not to exceed \$4,500 in Federal Direct Subsidized Loans)
- Juniors and Seniors may borrow up to \$7,500 per year. (Not to exceed \$5,500 in Federal Direct Subsidized Loans)
- The maximum that all dependent undergraduates may borrow for all years is \$31,000 (not to exceed \$23,000 in Federal Direct Subsidized Loans).

Independent Undergraduates

- Freshmen may borrow up to \$9,500 per year. (Not to exceed \$3,500 in Federal Direct Subsidized Loans)
- Sophomores may borrow up to \$10,500 per year. (Not to exceed \$4,500 in Federal Direct Subsidized Loans)
- Juniors and Seniors may borrow up to \$12,500 per year. (Not to exceed \$5,500 in Federal Direct Subsidized Loans)
- The maximum that all independent undergraduates may borrow for all years is \$57,500. (Not to exceed \$23,000 in Federal Direct Subsidized Loans)

Graduate Students

- Graduate students may borrow up to \$20,500 per year in Federal Direct Unsubsidized Loans.
- The maximum that all graduate students may borrow is \$138,500. (including Federal Direct Loans received as an undergraduate student)

The table below displays sample repayment plans. The minimum Federal Direct Loan payment is \$50 per month, and repayment usually begins six (6) months after a student graduates, drops below half time enrollment or leaves school.

Appropriate Monthly Repayment Plan

Loan Amount	Monthly Payment	# of Payments	Total Interest Paid	Total Amount Paid
1,000	50.00	22	76.87	1,076.87
1,500	50.00	34	179.19	1,679.19
2,000	50.00	47	333.94	2,333.94
2,500	50.00	62	555.12	3,051.12
3,000	50.00	77	843.97	3,843.97
3,500	50.00	95	1,230.30	4,730.30
4,000	50.00	115	1,735.12	5,735.12
5,000	66.66	120	2,279.66	7,279.66
7,500	91.00	120	3,419.48	10,919.48
10,000	121.33	120	4,559.31	14,559.31

Federal Direct Parent Loan for Undergraduate Students (PLUS)

The Federal Direct Parent Loan For Undergraduate Students (PLUS) allows parents to borrow up to the Cost of Attendance, less other financial aid. A credit check is required for all Federal Direct PLUS Loan applications. The parent borrower is generally expected to start making payments on the Direct PLUS Loan once the loan is fully disbursed. However, the parent borrower may request a deferment while the student is enrolled at least half-time and for an additional six months after the student graduates, leaves school, or drops below half-time enrollment. A student must be enrolled at least half-time to be eligible for the funds. Please visit <https://studentaid.gov> for current loan fees and interest rates.

Federal Direct Graduate PLUS Loan

Federal Direct Graduate PLUS Loans are offered to students attending graduate school. With a Graduate PLUS Loan, students may borrow up to the full cost of their education less other financial aid received including Federal Direct Unsubsidized Loans. A credit check is required for all Graduate PLUS Loan applications. A student must be enrolled at least

half time to be eligible for the funds. Repayment of Graduate PLUS Loans is not required while the student is in enrolled at least half-time, and for an additional six months after graduation, leaving school or dropping below half-time enrollment. Please visit <https://studentaid.gov> for current loan fees and interest rates.

Federal Direct Student Loan Counseling Entrance Counseling

Students borrowing Federal Direct Loans for the first time at USA must complete online Entrance Counseling before receiving their loan disbursement. During Entrance Counseling, students will be informed of their rights and responsibilities as borrowers, advised on the consequences of excessive borrowing, of defaulting on a student loan, and given tips on money management. Students must complete Entrance Counseling online at <https://studentaid.gov>.

Exit Counseling

Students who borrowed a Federal Direct Loan while attending USA must complete online Exit Counseling before leaving the University through graduation, withdrawal, transfer, or when dropping below half-time status. Students should complete Exit Counseling online at <https://studentaid.gov>. Completion of Exit Counseling will not prevent receipt of federal aid in the future or prevent a student from returning to school.

Overawards

Definition

When students receive federal funds, their financial need is established according to federal guidelines. Students may not receive more financial assistance than their Cost of Attendance. This occasionally occurs when students receive funds from other sources after the Office of Financial Aid issues a financial aid offer. This situation is called an overaward.

When overawards occur, the Office of Financial Aid is required to adjust the student's financial aid. Students may be required to repay some of the funds they have already received.

To prevent overawards, students should take the following steps:

- Notify the Office of Financial Aid of any assistance from outside sources not listed on the award letter such as scholarships, ROTC, etc.
- Check with the Office of Financial Aid before applying for financial assistance from other sources.

Federal Financial Aid Recipient Withdrawals and Return to Title IV Funds

The Return to Title IV Funds Policy applies to all federal aid recipients who completely withdraw from the University or cease academic participation in all classes during the term of enrollment, after federal aid has been disbursed. Federal financial aid recipients considering withdrawing from all courses are advised to contact the Office of Financial Aid prior to withdrawal.

Please Note: This policy would not apply to students who withdraw from some classes but continue academically participating in and ultimately earn credit for their remaining classes. However, withdrawing from any classes can still impact future federal financial aid eligibility. Please refer to USA's Satisfactory Academic Progress Policy for more information.

Federal financial aid (Title IV aid) is offered under the assumption that the student will attend school for the entire term of enrollment for which the federal aid is received. When a Title IV aid recipient completely withdraws or ceases attendance in all classes, on or before completing 60% of the term, the University is required to return a percentage of the disbursed aid.

1. Official Withdrawals:

Official withdrawals occur when an enrolled student drops all registered courses for the term through their PAWS account. Students may contact the Office of the Registrar at (251) 460-6251 or by email at registrar@southalabama.edu for more information regarding the official withdrawal process.

2. Unofficial Withdrawals:

Unofficial withdrawals occur when an enrolled student begins academic participation and received Title IV aid, but ceases to attend class without officially withdrawing; the student is considered to have unofficially withdrawn for Title IV aid purposes. This includes students who earn failing grades in all classes if it is determined the student ceased academic participation in classes before the end of the term. The withdrawal date for a student who unofficially withdraws is the last date of academic participation reported by the student's instructor(s).

When a student is considered to have completely withdrawn during a semester in which he/she has begun attendance and received Title IV aid, federal regulations require the University to perform a calculation to determine the amount of Title IV aid that was earned versus unearned. A student is only eligible to retain the percentage of Title IV aid originally disbursed that is equal to the percentage of the term of enrollment actually completed by the student. If the amount disbursed to the student is greater than the amount the student earned, the unearned Title IV aid funds must be returned.

Example: If a student completed 30% of the term, the student would earn 30% of the aid they were originally scheduled to receive. The unearned Title IV aid must then be returned to the appropriate federal aid program(s). If more than 60% of the term of enrollment has been completed by the student, the student is considered to have earned all of the disbursed aid for the term and no Title IV aid needs to be returned.

In accordance with federal regulations, unearned Title IV aid shall be returned in the following order:

- Federal Direct Unsubsidized Stafford Loans
- Federal Direct Subsidized Stafford Loans
- Federal Direct Parent or Graduate PLUS Loans
- Federal Pell Grants
- Iraq and Afghanistan Service Grant
- Federal Supplemental Educational Opportunity Grants (SEOG)
- Federal Teacher Education Assistance for College and Higher Education Grants (TEACH)

The unearned portion of Title IV aid will be charged back to the student's billing account and must be repaid by the student. A hold will be placed on the student's account by the Office of Student Accounting until the outstanding balance is repaid. If it is determined that a portion of a student's federal financial aid must be returned due to completely withdrawing from the school, an email notification will be sent to the student's Jag Mail account.

The requirements of the Return to Federal Financial Aid (Title IV aid) program funds when a student withdraws are separate from other USA refund policies. If a student's required return to the Title IV aid program(s) is greater than the posted University refund at the time of withdrawal, the student will owe the difference to the University. Therefore, a student may still owe funds to the school to cover unpaid institutional charges and/or any federal aid funds that the school was required to return.

Student Rights

Students Have The Right To Know:

1. The names of organizations which accredit and license the University;
2. About the University's programs, instruction, laboratories, physical facilities, and faculty;
3. The cost of attending the University and its refund policy;
4. The type of financial assistance offered by the University from federal, state, local, and private programs;
5. Who the financial aid personnel are and the location of the Office of Financial Aid;
6. What the procedures and deadlines are for applying for financial aid;
7. How the University selects its financial aid recipients;
8. How the University determines financial need;
9. How much financial need has been met;
10. How financial aid is received;
11. About each type of financial assistance offered;
12. Information about all student loans offered;
13. The kind of Federal Work Study (FWS) jobs that are offered, hours, duties, rate, and frequency of pay;
14. When and how financial aid offers are adjusted;
15. About special facilities for the handicapped; and
16. The University's Satisfactory Academic Progress (SAP) Policy.

Consumer Complaint Procedures

Students and prospective students should be aware that, should they have concerns or complaints related to the management or conduct of the Title IV financial assistance programs or to misleading or inappropriate advertising and promotion of the institution's educational programs, this institution has a complaint procedure. To the extent possible, students must seek a resolution of such matters through the institution's internal complaint procedure before involving others. Students with complaints should refer to the guidelines at <https://www.southalabama.edu/departments/studentaffairs/grievances.html>. Should the institution not be able to resolve the problem, students may contact the Department of Education Ombudsman at 1 (202) 401-4498 or toll free at 1 (877) 557-2575.

Student Responsibilities

Students Have The Responsibility To:

1. Review and consider all information about the University before enrolling;
2. Pay special attention to the application for financial aid, complete it accurately, submit it on time and to the right place;
3. Know all deadlines for applying for aid and meet them;
4. Provide all required documentation, corrections, and/or information requested by the Office of Financial Aid;

5. Notify the University of any information that has changed since the financial aid application was submitted;
6. Read, understand, and keep copies of all forms;
7. Repay any student loans borrowed;
8. Complete Entrance and Exit Counseling at <https://studentaid.gov> if borrowing federal student loans.
9. Notify the Office of Financial Aid of a change in name, address, or enrollment status (half-time, full-time, three-quarter- time);
10. Satisfactorily perform the work agreed upon in a Federal Work-Study (FWS) job;
11. Understand the University's refund policy.

Satisfactory Academic Progress (SAP) Policy

Federal financial aid funds are given with the understanding that students will make progress toward their chosen degree. The University of South Alabama, as directed by the U.S. Department of Education, has established guidelines (Standards of Satisfactory Academic Progress) to follow in order to meet this goal. To download a copy of the policy, please visit <https://www.southalabama.edu/departments/finaid/sap.html>.

Standards of Satisfactory Academic Progress apply for the following types of federal financial aid funds:

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (SEOG)
- Federal Work-Study (FWS)
- Federal Perkins Loan
- Federal Direct Loans (Subsidized & Unsubsidized)
- Federal Direct PLUS Loan
- Federal Direct Graduate PLUS Loan
- Federal Teacher Education Assistance for College & Higher Education Grant (TEACH)
- Iraq and Afghanistan Service Grant

The requirements of this policy apply to all undergraduates, graduates, and doctoral students including all levels of enrollment. Satisfactory Academic Progress is evaluated at the end of each semester.

Student Standards for Satisfactory Academic Progress (SAP)

The Standards of Satisfactory Academic Progress (SAP) are comprised of the following components. Students who fail to meet any one of these academic standard components outlined below will lose their eligibility for federal financial aid funds. Students can view their SAP status at any time on PAWS.

Cumulative Grade-Point Average (CGPA): Undergraduate students must maintain a minimum CGPA of at least 2.0 on all credit hours attempted at USA. **Please note:** Undergraduate students enrolled in programs in the College of Education after being admitted to Candidacy must have and maintain a minimum 2.2 CGPA for non-teacher certification programs, or a 2.75 CGPA and 2.75 program GPA for teacher certification programs.

Graduate students must maintain a CGPA of 3.0 to meet minimum CGPA requirements.

Please note: Graduate students enrolled in the College of Education after being admitted to Candidacy must maintain a CGPA of 3.25 as well as

a 3.25 program GPA and a 3.5 GPA for Educational Specialist Degree programs in order to graduate.

Pace of Progression Requirements: To ensure that students earn a degree within the maximum time frame allowed, students must be passing 67% of all attempted hours (including transfer hours).

Maximum Time Frame: Federal financial aid funds cannot be paid to a student who exceeds 150% of the published length of the degree program (including transfer hours) in credit hours.

Examples:

1. If a student's degree is a 120 hour program: $120 \times 150\% = 180$ attempted hours maximum time frame. The student is eligible for only the first 180 hours attempted.
2. If a student transfers and bring 70 hours credit into a 120 hour program: $120 \times 150\% = 180 - 70 = 110$ hours maximum time allowed for degree funding (transfer credits count towards credit hours attempted and earned so when the student transfers, the initial calculation would be 70/70).

Please note:

- Assigned grades of A, B, C, D, F and F* are all included in the CGPA, Pace of Progression, and Maximum Time Frame components. Courses with non-assigned letter grades of S, P, U, I, X, WD, AU, UA, and N are considered in Pace of Progression and Maximum Time Frame components but are not included in the CGPA component.
- All terms of attendance are reviewed including terms when no federal financial aid funds were received.
- Students transferring to USA are assumed to be maintaining Satisfactory Academic Progress. Grades from transfer credits will not factor into the CGPA at USA but transfer credits will count as credits attempted and credits earned.
- A student may elect to declare Academic Bankruptcy, as defined in the USA Bulletin, in which none of a student's prior course work is counted towards completion of grade requirements and the computation of their institutional CGPA. Credit hours and grades earned prior to declaring Academic Bankruptcy will continue to be included in the determination of Satisfactory Academic Progress.
- Repeating classes may negatively affect federal aid eligibility. A student who remains otherwise eligible to receive federal financial aid funds under the applicable requirements, including this SAP Policy, may repeat failed classes and continue to receive federal financial aid funds. Similarly, an otherwise eligible student may repeat a previously passed course once and continue to receive federal financial aid funds. All attempts of a course, including repeat courses, are included in CGPA, Pace of Progression, and Maximum Time Frame components. Changes to a student's CGPA due to grade replacement will not be taken into account until the grade replacement is approved in accordance with the Grade Replacement Policy. Grade replacement will allow for a prior grade earned not being included in the CGPA component, if approved by the Registrar's Office; however, all attempts will still be counted in the Pace of Progression and Maximum Time Frame components.
- All remedial courses are included in CGPA, Pace of Progression, and Maximum Time Frame components.
- Students classified as pursuing a second Bachelor's degree will continue to be evaluated on Pace of Progression and Maximum Time Frame components stated above. For students who pursue a second

degree at USA, a CGPA of 2.0 must be maintained. In calculating the Maximum Time Frame component, the published program length for the second degree will be reduced by the number of general education credit hour requirements earned from the first degree (generally 40 credit hours).

- For students changing programs or majors prior to completion, all credit hours and grades will continue to be included in CGPA, Pace of Progression, and Maximum Time Frame components.
- Students in candidacy status in a program in the College of Education who fail to meet the minimum CGPA requirement at the end of a semester will automatically be removed from candidacy status and evaluated under the minimum CGPA requirement for students not in a candidacy status.

Satisfactory Academic Progress (SAP) Evaluation - Financial Aid Warning Status

Students who have been receiving federal financial aid funds in a clear SAP status and fail to meet one or more of the SAP components at the end of a semester will automatically be placed on Financial Aid Warning and will be eligible to receive federal financial aid funds for one additional semester. Students who do not meet Satisfactory Academic Progress requirements after this period of Financial Aid Warning will be denied eligibility for future semesters until they have met SAP requirements or submit an appeal that is approved.

Students that have exceeded the Maximum Time Frame component will **not** be eligible for one term of Financial Aid Warning Status but may submit an appeal as indicated in the Satisfactory Academic Progress (SAP) Appeal Procedures and Financial Aid Probation section.

Satisfactory Academic Progress (SAP) Appeal Procedures and Financial Aid Probation

Students who fail to meet the components of Satisfactory Academic Progress (SAP) after one semester on Financial Aid Warning status will be sent an e-mail notifying them that they are no longer eligible to receive federal financial aid funds. Students have the option to appeal the loss of federal financial aid eligibility as follows:

- If the failure to maintain SAP was due to extenuating circumstances (examples: a significant injury or illness of the student or the death of an immediate family member), students may submit an appeal through the USA Financial Aid Verification Portal. Once logged in, the appeal can be initiated by selecting the Manage Request box in the upper right-hand corner of the page and selecting the green plus sign for SAP appeal for the appropriate aid year.
- Students are strongly encouraged to submit their letter of appeal within 15 days of being notified of their aid suspension. Submitting an appeal letter does not guarantee that financial aid will be reinstated. Results of the financial aid appeal letter can be viewed in PAWS under "Academic Progress" within 14 business days of submission.
- If the appeal is approved and minimum requirements can be met in one additional term, the student will be placed on Financial Aid Probation. If it will require more than one additional term to meet SAP requirements, a student whose appeal has been approved will be placed on an Academic Plan where such a plan will make it possible for the student to meet the institution's SAP requirements within a reasonable timeframe. The student will be eligible for federal financial

aid funds during the period of Financial Aid Probation and Academic Plan. As part of any Financial Aid Probation status or Academic Plan, a student is required to complete a Financial Aid Probation Agreement which must be signed by the student and their academic advisor. If the student's appeal is not successful, the student will not be eligible for federal aid.

- Note: Circumstances related to the typical adjustment to college life such as working while attending school, financial issues related to paying bills and car maintenance/travel to campus are not considered as extenuating for purposes of appealing suspension of federal financial aid funds.
- If a student fails to meet the terms of the Financial Aid Probation or their Academic Plan, any additional federal financial aid funds will be denied until minimum standards are met.

USA Education Study Abroad

Students wishing to use financial aid for study abroad opportunities should contact the Office of Financial Aid and the USA Office of International Education. Financial aid may be available based on student eligibility and certification of the program.

One Stop

At the University of South Alabama, there's a shortcut for students with questions about everything from financial aid to academic resources to campus activities. It is called One Stop it makes problem-solving more convenient so students can focus on school and make the most of their college experience.

Whether you are getting a head start on planning for college, want to know more about your financial aid options, are a current student who needs assistance paying a bill, locating a transcript, or finding a job, the USA One Stop provides access to Academic, Campus, and Financial resources all in one location. On the One Stop website, there are specific links for all sorts of task.

The USA One Stop is staffed with a combination of professional student support advocates and a team of cross-trained student assistants. If you cannot find what you need online, or simply want to speak with someone in person, contact our team today – we are here to assist. If you've got questions, we've got answers.

One Stop is your go-to for assistance with resources and support services across USA. This is your experience; we are here to connect you!

You can reach us by calling 251-341-4USA, visiting us in Meisler Hall, emailing us at onestop@southalabama.edu, or live chatting us at www.southalabama.edu/onestop (<http://www.southalabama.edu/onestop/>).

South CARES

South CARES is USA's Collaborative Access, Resources, and Emergency Support program. At South, we are committed to your success and stand ready to support you in navigating your journey in whatever that includes.

The South CARES team was established to support students when unexpected challenges rise and may impact your ability to be successful. Our team can provide guidance and connect you to the resources necessary to flourish in your academic pursuit. This includes short term financial hardship, money management programs, a one-on-one resource connection.

You can reach our team by calling us at 251-341-4USA, emailing us at southcares@southalabama.edu, or visiting our portal.

The South CARES portal will allow you to connect with us by submitting an online request for contact, securely. By giving us a little information about your situation we can match you with a Student Aid Advocate, who can help identify resources and programming for your specific need.

Scholarships

USA's scholarship opportunities include four-year, renewable Freshman Scholarships (<https://www.southalabama.edu/departments/financialaffairs/scholarships/freshscholarships/>) for incoming traditional freshmen, one year General Scholarships (<https://www.southalabama.edu/departments/financialaffairs/scholarships/applyingforscholarships.html>) for new and Current Students (<https://www.southalabama.edu/departments/financialaffairs/scholarships/currentstudents.html>), Transfer Scholarships (<https://www.southalabama.edu/departments/financialaffairs/scholarships/transferstudents.html>), and Departmental Scholarships (<https://www.southalabama.edu/departments/financialaffairs/scholarships/departmentalscholarshipdirectory.html>) awarded by the various colleges and schools on campus.

Students should visit the Office of Scholarship Services website, at www.southalabama.edu/scholarships (<https://www.southalabama.edu/departments/financialaffairs/scholarships/>), for a complete list of all scholarship opportunities and to access JagSPOT.

Students use JagSPOT – USA's Scholarship Program Opportunity Tracker - to search for scholarships, complete applications, and accept/track offers.

All incoming students must complete the application process by December 1st to ensure consideration for general and departmental scholarships. Individual scholarship deadlines vary.

Scholarships are awarded using a variety of factors including, but not limited to, academic achievement, departmental and community involvement, employment experience, areas of study, and financial need.

Students receiving University scholarships will have the award credited to their tuition and fees due each semester. Any balance from scholarships may be eligible to pay for associated academic costs such as books at the USA Bookstore, USA Housing and USA Food Service. Review your individual award letter for specific eligibility. Annual University scholarships are split between Fall and Spring semesters.

Any awards or scholarships funded by USA are considered institutional aid. Some examples of institutional aid are admission based scholarships, departmental awards, employee tuition assistance, housing benefits and athletic scholarships. USA reserves the right to adjust aid if a student receives multiple scholarship awards or exceeds the institutional maximum.

Scholarships for Freshman Students

Mitchell-Moulton Scholarship Initiative

Under the Mitchell-Moulton Scholarship Initiative, USA offers several scholarship levels based on standardized test scores, high school GPA and area of study. The University's largest scholarship programs for academic achievement are:

USA Freshman Admission Scholarships for First-Time Freshmen

All first-time freshmen who meet the USA Freshman Admission Scholarship Program requirements, funded by the Mitchell-Moulton Scholarship Initiative, by December 1st will be guaranteed a scholarship award. USA Freshman Admission Scholarship Program levels can be viewed at Freshman Scholarships (<https://www.southalabama.edu/departments/financialaffairs/scholarships/freshscholarships/>).

Abraham Mitchell Scholars Program in Business

The Abraham Mitchell Scholars Program allows elite business students to develop to their full potential. Through faculty mentorships and a four-year scholarship that includes a laptop computer, scholars will pursue challenging programs while developing stewardship and civic responsibility.

After acceptance to USA, incoming first-time freshman majoring in the Mitchell College of Business will automatically be reviewed for the Abraham Mitchell Scholarship award.

For more information and qualifications visit the Mitchell Scholars Program (https://www.southalabama.edu/colleges/mcob/mitchell_scholars.html) website.

Please note: Students who are awarded both a Mitchell Business Scholarship and a USA Freshman Admission Scholarship must choose which scholarship they wish to accept.

USA Honors College

The University of South Alabama Honors College offers a curriculum of interdisciplinary excellence designed to stimulate the analytical and critical thinking of exceptionally qualified and highly motivated students. The USA Honors College challenges each student through discussion, research, creative scholarship, intercultural engagement and the arts in an effort to create the feel of a small college environment in the midst of the opportunities provided by a large urban university.

The USA Honors College provides its students with opportunities for travel, research programming support, and unique opportunities throughout their four years of enrollment. These experiences and activities are designed to foster student success and encourage students to participate in enhanced intellectual experiences.

A limited number of scholarships are awarded competitively and are available to students of the USA Honors College once admission is complete. Additional scholarships may be available as the student progresses through the Honors College.

First-time freshman, who meet the December 1st priority deadline, have a qualifying score on the ACT/SAT and have at least a 3.0 cumulative high school GPA, will automatically receive the USA Freshman Admissions Scholarship that matches their profile.

Please note: Students who are awarded both a Whiddon Honors Scholarship and a USA Freshman Admission Scholarship must choose which scholarship they wish to accept.

Visit the USA Honors College (<https://www.southalabama.edu/colleges/honors/>) website to learn more information.

Scholarships for Transfer Students

Scholarships for Community College Transfer Students

USA offers a variety of scholarships to admitted Community College transfer students based on criteria such as academics. These scholarships are not competitive and do require an application.

Please note that for the purpose of these scholarships, students will only be considered if they have earned at least 48 credit hours at an approved community college prior to the posted priority deadline. To ensure consideration for the Phi Theta Kappa Scholarship, students accepted for admission must apply through the JagSPOT (<https://www.southalabama.edu/departments/financialaffairs/scholarships/>) portal prior to the transfer priority deadline. For questions about specific requirements or how to apply, please contact the Office of Scholarship Services.

Scholarships for 4 Year College and University Transfer Students

USA offers a variety of scholarships to admitted University transfer students based on academic criteria. These scholarships are competitive and do require an application. Please note that for the purpose of these scholarships, students will only be considered if they have earned at least 30 credit hours at an approved community college prior to the posted priority deadline. To ensure consideration, students accepted for admission must apply through the JagSPOT (<https://www.southalabama.edu/departments/financialaffairs/scholarships/>) portal prior to the transfer priority deadline. For questions about specific requirements or how to apply, please contact the Office of Scholarship Services.

For more information, or assistance, please contact the Office of Scholarship Services:

Office: (251) 461-1958

Center for Continuing Education and Conference Services

Department Information

UMCOM Center for Continuing Education 125
(251) 460-7200

Title	Name
Interim Director	Joy Aull
Program Director	Ginger Wade
Support Staff/Student Assistants	Amanda McCree, Autumn Faulkner, Ana Claire Giffin, Gabby Jarvis
Accountant	Patricia Miles
Hazardous Material Instructors	Reggie Norton

The mission of the Center for Continuing Education and Conference Services (CCE or the Center) is to provide innovative and in-demand educational programs and experiences to the Mobile, Gulf Coast and international communities focused on growing strategic partnerships, providing student enrichment opportunities and encouraging economic, civic and cultural development. The CCE offers professional and career development opportunities through noncredit seminars, courses and certificate programs. The Center also works with local businesses and industry to provide custom training solutions. In addition, the CCE enriches the lives of individuals who seek to invigorate their minds through noncredit enrichment course offerings including: foreign languages, art, music, literature, and leisure activities. The Center

administers the awarding of Continuing Education Units (CEUs) and issues transcripts for noncredit courses, workshops, and conferences.

Workforce Development

The CCE offers continuing education programs for the working professional in the form of seminars, workshops, conferences, and short-term courses. University faculty, along with field experts, actively participate in the development and instruction of these programs. Staff members focus on meeting the needs of our regional community partners by assisting them in building human capital.

The CCE Safety and Emergency Response Training program serves industry, government and other agencies with state-of-the-art instruction in the handling of hazardous materials and emergency spills, technical rescue and incident command in accordance with state and federal regulations. The Center also offers training programs in mental health and crisis intervention for first responders and other primary responders such as school counselors and hospital personnel.

Career Development

Certificate programs are available for individuals seeking new careers or ways to advance in their current profession. Some of our certificate programs are Paralegal Studies, Photography and Medical Billing and Coding.

Recognizing that members of the community may need more flexibility than traditional in-person classes, the CCE has partnered with some of the most widely recognized providers of online educational courses to bring students learning opportunities in a plethora of areas for both professional development and personal enrichment.

Personal Enrichment

The CCE offers noncredit classes for adults in a number of areas for personal enrichment. Whether it is to learn a new hobby or simply have fun, the CCE selects instructors who are experts in their fields to provide engaging quality courses in a wide variety of topics including foreign languages, photography, music and physical activities.

Odyssey USA is the University's Institute for Learning in Retirement in Mobile. Senior adults have the opportunity to attend noncredit classes that are designed to satisfy the quest for knowledge in areas of the arts, history, music, literature, and other interesting disciplines. These students enjoy a broad selection of classes and events year-round. Courses are offered in four 6-week terms, and students may choose to take just one course at a time, or they may choose to take all that are offered. No membership fee is required; students only enroll in and pay for the courses that interest them.

Test Prep

With test preparation courses for the GRE®, GMAT®, LSAT®, Praxis®, SAT® and ACT®, the CCE is the Gulf Coast's leading test prep solution for admission exams. These courses are designed to strengthen students' performance in all core areas that are covered in the examinations, providing them a greater chance of success and a competitive edge among their peers.

Summer Programs, Camps and Conferences

The CCE serves as a resource for event administration, registrations and payment processing for university departments and external groups. For

external groups seeking to hold events at USA, the Center coordinates arrangements for University facilities and services. Our professional staff also provides event management services for educational events off-site. As part of Global USA, the Center assists other university departments with the logistics, coordination and management of short-term, non-credit international cohorts. Additionally, the CCE develops custom short-term, non-credit programs with academic enrichment and cultural components for domestic and international groups.

Global Outreach

(251) 460-7800

Title	Name
Director	Ms. Maya De Andrade
International Student Recruiter	Mr. Zach Thomas
Coordinator, Global USA Support Services	Ms. Sharon Leinhos

The Office of Global Outreach oversees and implements the University of South Alabama's strategic plan for international student recruitment. Along with international and domestic recruitment travel, the Office of Global Outreach works closely with various educational organizations, institutions, consultancies and partners abroad. Faculty, staff, and university partners interested in collaborating with the Office of Global Outreach for international student recruitment should contact globalusa@southalabama.edu for more information. Prospective students can visit <https://www.southalabama.edu/departments/globalusa/outreach/> to learn more.

Global USA

(251) 460-6283

Title	Name
Assoc. VP for Global Engagement	Dr. Richard W. Carter
Coordinator, Global USA Support Services	Ms. Sharon Leinhos

Global USA is a division of Academic Affairs and is the central international office for the University of South Alabama. This division supports the University's Strategic Priority of Global Engagement by working with colleges, departments, faculty, staff, students and the Mobile area community to facilitate the comprehensive internationalization of the University of South Alabama.

Global USA encompasses all international and continuing education offices on the university's main campus in Mobile as well as our satellite campus in Fairhope, Alabama.

The Office of Immigration is designed to handle immigration and compliance for both students and scholars. The Office of International Admissions and Student Programs is specifically designed to assist with admissions, support services, and activities for international students and scholars. The Office of Global Outreach is in charge of all international recruiting. The Office of International Education connects students to study abroad programs in a variety of countries, facilitates foreign exchange programs and works with international partnerships. The Center for Continuing Education and Conference Services designs international and domestic camps, offers training programs and certificate programs, plans conferences and special events as well as provide continuing education for adults. USA Baldwin County

offers another location for students to take credit and non-credit courses as well as being the site for many university and community events.

Global USA is here to serve and support our international students and scholars as well as our domestic students who are interested in traveling and studying all over the world.

Office of Immigration

251-460-6050

Title	Name
Director	Ms. Denise Robb
Immigration Manager	Mr. Maurice Chavarry Sr.
Secretary	Ms. Sharon Snelgrove

The Office of Immigration at the University of South Alabama is responsible for immigration compliance for those foreign national student, scholars, faculty, and staff associated with the University and USA Health. The University of South Alabama does not discriminate on the basis of age, sex, race, color, religion or national origin. These provisions also apply to disabled individuals pursuant to current federal and state regulations subject to reasonable standards of admission and employment.

Immigration Compliance

The Office of Immigration is responsible for the development and implementation of policies and procedures associated with U.S. immigration compliance functions for foreign nationals associated with current and potential nonimmigrant degree and non-degree students, nonimmigrant faculty/staff employment, J exchange scholars (including postdoctoral trainees, medical trainees, degree and non-degree students, professors and research scholars), academic/co-curricular exchange program participants and international guests. Inquiries regarding immigration matters should be emailed to immigration@southalabama.edu. For specific immigration policies and procedure, please visit <https://southalabama.edu/departments/immigration/> (<https://southalabama.edu/departments/immigration/>).

Office of International Admissions and Student Programs

(251) 460-6050

Title	Name
Director	Mrs. Heather Nix
Coordinator, International Student Services	Mrs. Olivia Jackson
International Admissions Specialist	Ms. Katherine Brown
Secretary	Mrs. Sharon Snelgrove

The Office of International Admissions and Student Programs at the University of South Alabama is responsible for the processing of applications for admission submitted by non-citizens. The University of South Alabama does not discriminate on the basis of age, sex, race, color, religion or national origin. These provisions also apply to disabled individuals pursuant to current federal and state regulations subject to reasonable standards of admission and employment.

International Admission

The Office of International Admissions and Student Programs processes all non-citizen applications for admission to undergraduate and graduate programs at the University of South Alabama. Inquiries about admission for non-citizens should be addressed to:

The Office of International Admissions and Student Programs
390 Student Center Circle
Meisler Hall, Suite 2200
University of South Alabama
Mobile, Alabama 36688-0002
or e-mail at internationaladmissions@southalabama.edu.

For specific International Admissions policies and procedure, please visit <https://www.southalabama.edu/departments/international> (<https://www.southalabama.edu/departments/international/>).

Office of International Education

(251) 460-7053

Title	Name
Executive Director for Global Engagement	Dr. Bri Ard
Assistant Director of International Programs	Ms. Shawn Dillard
Education Abroad Advisor	Ms. Jan-Dominique Santos
International Programs Assistant	Ms. Elizabeth Calhoun

The Office of International Education provides to the University community information and support on international initiatives and is responsible for Education Abroad, student exchange and international partnerships as well as providing assistance with visiting international delegations, reviewing and approving university related travel abroad for students, faculty, and staff. OIE is actively involved in facilitating international academic exchange programs and additional international agreements for the University.

The Office of International Education is available for collaboration with local governmental, business and community organizations that foster international cooperation, exchange and understanding. All existing or proposed international programs, exchanges, contracts and grants are reviewed and registered with the Office of International Education. The director chairs the University Council on International Education and Scholarship (USACIES), whose members are appointed by the Senior Vice President of Academic Affairs and charged with disseminating information, developing, and guiding policy and planning for USA in the international arena.

Study Abroad

The Office of International Education administers all USA Education Abroad Programs and international cooperation agreements/ contracts. In addition, the Director of International Education works in collaboration with University deans, division heads and directors responsible for curriculum and faculty development.

All USA students who plan to participate in a study, research, internship, work or virtual abroad opportunity must contact the Office of International Education for information on program advising and approval procedures.

USA Baldwin County Campus

University of South Alabama Baldwin Campus
111 St. James Avenue
Fairhope, Alabama 36532
(251) 928-8133

Title	Name
Director	Dr. Richard W. Carter
Business Operations	Kim Martin
Criminal Justice faculty	Dr. Mike Reynolds
Computer Support	Mike Miller
Security	Ralph McDonald
Environmental Services Aides	Brenda Gordon and Brenda Hill

The University of South Alabama Baldwin County (USABC) was established as a campus of the University in August, 1984, to offer higher education in one of the fastest growing and most diverse counties in Alabama. USABC offers upper-level (junior and senior) undergraduate courses, graduate courses, and non-credit programs. The campus is in downtown Fairhope. The classroom complex is at 111 St. James Avenue, the corner of Summit Street and St. James; and the College of Nursing building at 161 N. Summit Street.

Academic offerings include courses leading to Bachelor's degrees in Interdisciplinary Studies, Communication, Criminal Justice, Elementary Education, Emergency Medical Services and Nursing Accelerated BSN Track. Courses in business, education, and liberal arts are offered each semester which can be used as credit in a variety of degree programs. Faculty who teach these courses are hired by the University's academic divisions.

Computer services are provided for students and faculty. Classrooms have internet access and audio-visual equipment. The administration building contains a computer laboratory and computers are available in the building's lobby for use during business and class hours. An additional computer lab is located at the Classroom Complex.

Credit courses are offered during the day and the evening in Fairhope. Most evening courses meet once per week and day time courses meet in a variety of formats. USABC students are eligible for on-line courses scheduled by the academic departments. Check the USABC website for the complete schedule of courses for each semester.

USABC supports the University's mission of public service by working cooperatively with community organizations. The Fairhope Film Festival is co-sponsored by USABC and is held in the USABC Performance Center. Special events are held on the USABC campus throughout the year such as conferences, trainings and summer camps.

Academic Services

Student Academic Success supports the mission of the University by developing, implementing, and assessing initiatives and practices to ensure all students are offered the resources and relationships necessary for high quality learning, academic persistence, and degree completion. This includes Academic Advising & Transfer Services, the Center for Academic Excellence, Career Services, Second Year Experience, Summer Start, freshman learning communities, the university first year experience courses, and the USA Scholars initiative, including our Earn Back

program. For more information visit <https://www.southalabama.edu/departments/academicssuccess/>.

Learning Communities

Freshman learning communities at South are focused on academic courses. A learning community usually includes two or three classes shared with other students enrolled in that community. Learning communities typically enroll about 25 first year students; generally, all students share their first year experience course. In most communities, students will share one or two additional classes with the same group of 25 students. Learning communities are designed to provide students with the opportunity to meet other students in the same major, to offer the best schedule for the first semester, and to maximize the applicability of courses should a student decide to change majors.

First Year Experience Courses

First year experience (FYE) courses are offered at universities around the world. At USA, this course was constructed by faculty and designed to address areas where first year students need additional development. First year experience courses include college success strategies, metacognitive practices, and often discipline specific skills. They help maximize our students' potential to achieve academic success; adjust to the shift in responsibility that comes with college learning; and overcome interpersonal challenges associated with college life.

Summer Start

Summer Start is a six-week, seven credit-hour summer session that focuses on providing students with a jump-start on college, giving them an early opportunity to learn more about campus, and engage with academic success and extracurricular activities during the summer term. Students who are admitted into Summer Start are required to participate in the program and to continue at the University in the fall. Summer Start allows students to enjoy smaller class sizes while learning "in community" - sharing the same group of classes together.

Second Year Experience

The Second Year Experience (SYE) at the University includes a leadership and skills development program for second year students, with a special focus on students who identify as first-generation and/or have unmet financial need, which supports strategic efforts to close equity gaps and graduate more students. Through the SYE Transformational Leadership Program (TLP), students develop leadership, service, and crucial career skills to prepare them for a Career Trek to meet employers. SYE focuses on student engagement with faculty in a high impact practice (HIP), such as diversity/global learning, experiential learning, internships, study abroad, and undergraduate research (AAC&U, 2013), and will culminate with a poster presentation on that experience to be delivered at the University Second Year Showcase to take place in the fall semester of a student's third year at USA.

USA Scholars Initiative

The USA Scholars Initiative focuses additional attention on USA scholarship students who may be academically at risk. First year students whose fall GPA is below 3.0 may be contacted about additional resources designed specifically to increase academic insight. Included in this program is our Earn Back opportunity. Students who have lost their Freshman Admission Scholarship may be able to earn it back by participating in this program.

Students begin their relationship with their advisor during orientation. Students should meet with their academic advisor each term and are encouraged to meet as often as needed. Generally, students move to an advisor in their major when they complete between thirty and sixty credit hours. Students are expected to communicate with their assigned academic advisor regularly; however expectations for meetings vary by major and department. For more information visit <https://www.southalabama.edu/departments/academicadvising/>.

Students enrolled in Pathway USA meet with transfer advisors during enrollment at their community college prior to transferring to USA. Transfer students outside of Pathway USA are welcome to make an appointment with transfer advisors to discuss their transition to USA. Students may also be referred to major advisors as appropriate. For more information visit <https://www.southalabama.edu/departments/admissions/pathwayusa/>.

Pre-Health advising at the University of South Alabama offers valuable resources to students interested in a variety of graduate professional health programs. In order to prepare students for the rigorous demands of these programs, advisors provide information and guidance on required course work, admission test needs, the application process and non-academic requirements. Pre-health advising is provided as a supplement to major academic advising. All pre-health students have an academic advisor who will guide them in meeting requirements for graduation.

<https://www.southalabama.edu/departments/academicadvising/pre-health/>

The Center for Academic Excellence is a full-service learning center, providing subject tutoring, writing center consultations, workshops, and learning resources for all USA students. The Center for Academic Excellence strives to help every student reach their academic goals. The CAE's academic enrichment services are grounded in a growth mindset that students can learn anything with hard work, perseverance, and good study habits.

The Center for Academic Excellence offers subject tutoring for a large variety of general education courses. Subject tutoring is a collaborative learning experience in which peers work together to develop knowledge, build skills, and think critically and creatively to solve problems. The CAE also provides writing center consultations for courses in any discipline. Writing center consultations focus on helping students improve their writing skills, rather than simply editing papers. Students may receive help with any type of writing task at any stage of the writing process, including understanding assignments, brainstorming, organization, development, and revision. Additionally, the CAE provides workshops, events, and a variety of programs aimed at empowering USA students to succeed in their coursework and beyond.

The Center for Academic Excellence is located on the second floor of the Marx Library. For more information, please call (251) 460-6480 or visit <https://www.southalabama.edu/cae/> (<https://www.southalabama.edu/cae/>).

USA Career Services assists students and alumni in all phases of the career development process. As a comprehensive career services center, the office offers services to support career and academic major exploration, co-op and internship participation, identification and preparation for employment opportunities, and graduate and professional school preparation assistance.

Career Exploration

Career Services guides students in determining career interests and selecting appropriate academic programs to reach career goals. The appropriate selection of a major can impact a student's desire to complete a college education and a student's success in college and the workplace. Career Advisors are trained to assist students in the various aspects of career and academic development. Among the many resources available to students are:

- One-on-one advising appointments with career advising staff
- Information on career and major exploration, job search skills, resume preparation, interviewing, employer information, and more
- Self-assessments and career inventories
- Handshake career management system
- Video interviewing platform containing curriculum and capability to practice and record mock interviews.
- Resources on numerous career fields including entrance requirements and projected employment outlook
- Graduate and professional school information

Cooperative Education and Internship Program

The Cooperative Education (Co-op) and Internship Program enables students to combine classroom studies with paid work experience related to their major field of study. Co-op and Internships are designed to supplement classroom experience and to promote academic and professional development. Students generally complete one year of courses prior to beginning an assignment. Students receive academic recognition through a transcript notation for each term. Students do not earn academic credit hours. Employers and students appreciate this official recognition because it reflects a student's desire to obtain practical work experience while pursuing their degree.

Program Requirements

Undergraduate students must meet general program requirements, including being classified as a full-time student upon participation in the program, completion of 12-24 credit hours depending upon the selected program option, an overall institutional GPA of 2.3 or higher for the Co-op options, and an overall institutional GPA of 2.0 or higher for the Internship option. Graduate students may participate after they are accepted into a graduate program. Program requirements may vary based upon the student's academic college. While the program is open to all academic majors, there are some majors/academic departments in which the curriculum may not support a particular work-schedule option. Students on study visas can participate in the program with prior approval from the Office of Immigration.

Program Options

Alternating Co-op

The Alternating Co-op program option integrates multiple terms of work and academics. Students work in professional assignments directly related to their major. Students on the alternating plan rotate semesters of full-time work with semesters of full-time school. Students are required to meet and maintain an institutional GPA of 2.3 or higher and remain in good standing with the university in order to be eligible. Engineering students must also complete MA 125 and MA 126 prior to participation.

Students must meet with Career Services to receive program approval prior to accepting employment.

Parallel Co-op

The Parallel Co-op program option allows nursing students to gain practical, relevant work experience at one of the participating area hospitals. Nursing students may apply to the Co-op program after completing the designated first semester foundation courses with at least a 2.5 GPA. Students must maintain above a 'C' in nursing courses, may not earn an 'F' in any course, and must be designated as full-time to remain eligible for participation. Students accepted into the Co-op program must meet with Career Services to complete the program orientation.

Internship

The internship program offers students a unique educational opportunity to participate in either a part-time or full-time work experience to complement their major field of study. Participants are required to meet and maintain an institutional GPA of 2.0 or above and remain in good standing with the university in order to be eligible. The partnership between the student, the employer, and the university is a collaboration structured to maximize the value of an internship. Prior to accepting employment, students should meet with a Career Services advisor to review the internship duties and discuss program requirements.

Career Services support internships completed for academic credit. These opportunities may be paid or unpaid. Students interested in earning academic credit should consult with their academic department to determine eligibility for credit. For assistance initiating, an internship search or help with the approval process, please contact Career Services.

Job Search and Graduate School Assistance

Career Services assists students in multiple ways. Students seeking career-related employment, planning to pursue graduate or professional school, or those that need a job to supplement income while completing their degree, are encouraged to utilize Career Services' resources. Handshake, an online career management system, is just one of the resources students are encouraged to use when seeking a job, internship, or co-op. From Handshake, students can share their profile, submit employment applications, upload and have resume documents reviewed. In addition, career advisors are available for individual appointments at a student's request. Career Services provides additional assistance by offering seminars, job search and networking programs, career, graduate, and professional school fairs, on-campus interviews, employer information sessions, and other career-related events.

Student Affairs & Services

The Division of Student Affairs is responsible for that part of the student's total educational experience which takes place outside the formal classroom program. Among its concerns are student center, student activities, student health, recreation, student organizations, programs, disciplinary actions, disabled student services, multicultural student affairs, counseling and testing services, housing and dining, university police, and veterans affairs. Through such activities as the Student Government Association (<https://www.southalabama.edu/departments/sga/>), the students are given a responsible voice in the governance of the University.

(See Student Handbook, The Lowdown <https://www.southalabama.edu/lowdown/>).

Students also participate as members of some University-wide committees as well as on committees within the colleges of the University.

- Student Conduct (p. 49)
- Housing and Dining (p. 50)
- Student Affairs Services (p. 51)
- University Police (p. 52)

Student Life and Student Center

The University of South Alabama, is committed to providing services and creating a supportive campus environment which fosters engagement, academic success, and personal development within a diverse community of learners.

Student Center

The Student Center (<https://www.southalabama.edu/departments/studentcenter/>) supports the University mission by providing quality programs, facilities, and services that create a community that encourages involvement, development and personal and academic growth. The Student Center is truly the center of it all on campus.

Located in the building are lounge areas, the Student ID Office, a computer lab office that supports student engagement, dining and other student life areas. Nine meeting rooms, including a ballroom, that have audio-visual equipment are available for registered student organizations, and administrative and academic departments. Individuals and outside organizations must be sponsored by a registered student organization or department to reserve space and equipment for a fee.

Reservations for any space in or around the Student Center may be made Monday through Friday, 8:00 a.m. - 5:00 p.m. at (251) 460-6077 or <https://www.southalabama.edu/departments/studentcenter/>.

Campus Recreation

The Department of Campus Recreation and Wellness (<https://www.southalabama.edu/departments/campusrec/>) strives to improve the holistic health and well-being of our entire University community. Our mission is to inspire students to play hard, get fit, and live happy, healthy lives. We want to emphasize that wellness is an active, ongoing pursuit. Campus Recreation and Wellness provides active programming designed to help South Alabama students maintain healthy habits on their individual paths toward wellness.

The path to wellness begins with our state-of-the art Student Recreation Center (<https://www.southalabama.edu/departments/campusrec/studentrecreationcenter/>) (SRC). The 116,000 square foot complex contains a cardio exercise theater and two weight rooms with selectorized machines, plate loaded machines, and free weights. The SRC houses three multipurpose basketball and volleyball courts, an indoor soccer court, four racquetball courts, and two fitness studios. Our

SouthFit fitness program offers free classes to students and members of the SRC including Zumba, Spinning, and Yoga! The SRC is also home to a 35' high rock climbing wall offering challenges and excitement to climbing enthusiasts. Students can participate in Aquatics (<https://www.southalabama.edu/departments/campusrec/aquatics/>) fitness year-round by swimming laps in our indoor heated pool, relaxing in the hot tub, playing a game of volleyball, basketball, water-polo, or attending an Aqua Fitness class in our outdoor heated pool. In addition, the SRC has dry saunas inside the men's and women's locker rooms. After a good workout, students can enjoy refreshments from the smoothie bar and sit on the deck overlooking the courtyard containing beautiful heritage oak trees.

Students can explore the Mobile Delta and surrounding areas for little cost with our Outdoor Adventures (<https://www.southalabama.edu/departments/campusrec/outdoor/>) program. Outdoor Adventures offers a variety of trips each semester including canoeing, kayaking, and hiking for students and members of the SRC. The Outdoor Adventures program also offers rentals on camping equipment, kayaking equipment, and bikes, which students can rent on a semester basis.

Compete against other students on campus while building a community through sports! Our Intramural & Club Sports program offers leagues and tournaments in basketball, flag football, volleyball, softball, soccer, and more to meet your competitive edge. The Intramural Sports Complex (<https://www.southalabama.edu/departments/campusrec/southsports/>) is home to six lighted multipurpose playing fields, an outdoor sand volleyball court, and an outdoor basketball court.

Research shows a strong correlation between enhanced mental wellbeing and participation in activities based in an outdoor and relaxed environment. We're fortunate that South Alabama has outdoor areas to get you moving along our beautiful campus. The Jag Fitness Trail is a mile and half trail allowing for each person to incorporate the strength, balance, and flexibility training with the cardio workout of the trail itself through three fitness stations. The Glenn Sebastian Nature Trail (GSNT) is a 100-acre wooded area on the north side of campus with one-, two-, and three-mile paths. The GSNT is lined with informational signage highlighting different plants and animals that you may see along the way, offering a beautiful and informational fitness experience.

All members of our university community are encouraged to take advantage of the wonderful opportunities for fun and fitness offered through the Department of Campus Recreation and Wellness (<https://www.southalabama.edu/departments/campusrec/>). For further information, please visit our web page or call (251) 460-6065.

Counseling/Testing, Drug/Alcohol, Disability Resources

The University Counseling And Testing Center (<https://www.southalabama.edu/departments/counseling/>) (UCTC), a department in the Division of Student Affairs, provides counseling and standardized testing services to the University of South Alabama's undergraduate and graduate student community. Our mission is to provide high quality counseling, testing, outreach and consultative services and strives to facilitate the academic, emotional, social, and career development of students. Counseling services are free and confidential and provided by a staff of qualified mental health counselors. Students experiencing mental health and/or behavioral problems are invited to take advantage of this campus resource.

The USA Substance Abuse (USASA) Program is another facet of the University Counseling and Testing Center. This program provides USA students with counseling, educational, and prevention programs related specifically to substance abuse. The primary goals of the USASA program are to increase knowledge and awareness of alcohol and other drug issues and to decrease the harmful consequences associated with high risk drinking and/or illegal drug use.

The University Counseling and Testing Center also serves as a regional testing center for various national testing organizations. Testing services are provided for USA students as well as non-students. Fees for testing services vary according to the types of tests administered.

The University Counseling and Testing Center is located at 300 Student Center Circle. For further information about any of these services, contact our office at (251) 460-7051 or go on-line to www.southalabama.edu/departments/counseling (<http://www.southalabama.edu/departments/counseling/>).

The University does not permit the possession, consumption, or distribution of alcohol by an individual on any of its campuses and in any of its facilities without prior approval. The possession, consumption, and/or distribution of illegal substances are forbidden. Violation of either policy is subject to both University administrative action and criminal prosecution.

See The Lowdown at <https://www.southalabama.edu/lowdown/> for a full description of the policy.

The University offers special services to students with disabilities. Students requesting services must submit documentation regarding the disability to the Center for Educational Accessibility and Disability Resources (<https://www.southalabama.edu/departments/sds/>) (CEADR) prior to receiving services. Reasonable accommodations are offered in accordance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Amendments Act of 2008. The Center for Educational Accessibility and Disability Resources is located at 320 Student Center Circle, Suite 19, (251) 460-7212.

Multicultural Leadership Center

The Multicultural Leadership Center (MLC) is committed to providing programming for cultural awareness, coordinate efforts to increase the retention of minority students, encourage minority students to participate in all aspects of campus life, and provide leadership development for aspiring student leaders. For further information or assistance contact (251) 460-6895 or visit <https://www.southalabama.edu/departments/omsa/>.

University Programs and Activities

The Student Activities Board, Jaguar Productions, presents activities to serve the cultural, educational, recreational, and social interests of students. Students directly involved have opportunities to exemplify creative thinking and leadership outside the classroom.

Jaguar Productions functions through committees, such as Talks & Topics, Comedy, Music, Movies, Special Events, Technical and Promotions. Students select, publicize and produce the events. All students are invited to join these committees. For more information, please call (251) 460-7144 or visit the Jaguar Productions Office on the first floor of the USA Student Center.

Educational Talent Search (E T S) is a federally funded program designed to encourage low income and first generation college students to consider post-secondary opportunities while they are in secondary schools. The program serves sixth (6th) through twelfth (12th) grade students. Participants must demonstrate a potential for academic success and have a desire to further their education. E T S is designed to improve academic performance, increase student motivation and facilitate transitions from one level of education to the next. The services offered are counseling techniques related to academic, career, vocational, and enrichment activities, study skills training, college preparation, financial aid and scholarship information, educational trips, and tutorial sessions. Tutorial services are conducted by students who are enrolled at the University. For more information, contact the Educational Talent Search Office, 320 Alumni Circle, Educational Services Building, Suite 6 (251) 380-2620.

Upward Bound is a federally funded, college preparatory program for high school students in Mobile County. The program provides academic counseling, tutorial support, cultural enrichment activities, and academic courses offered during a six (6) week summer residential component. The primary goal of Upward Bound is to provide each participant with the necessary skills to successfully enter and complete a program of post-secondary education. USA students serve as tutors and residential counselors for the participants. For information, contact the Upward Bound Office, 320 Alumni Circle, Educational Services Building, Suite 5, (251) 460-7322.

Student Activities is home to over 240 registered student organizations which represent a wide variety of interests and provide an opportunity for students to get involved. The Office of Student Activities is committed to the development of student organizations and student leaders. The addition of new student organizations enhances the campus community and provides more opportunities for students to become involved and participate in activities that support their interest. For more information about registered student organizations, including how to start a new student organization, visit <https://www.southalabama.edu/departments/studentactivities/>.

The University and the community offer to students an opportunity to participate in a variety of cultural and recreational programs. Among them are concerts by symphonic and chamber organizations, choral groups and choirs, ballet and opera productions, theatre, art exhibits, film series, and lecture and discussion conferences. In many of these programs, students are urged to participate as performers. Special events are scheduled on the campus, and reduced rates for students are arranged for many civic programs.

Student Conduct

The University of South Alabama is dedicated to the advancement of a community of leaders and learners that become actively engaged citizens who advance the Gulf Coast region and the World.

Our goal is to uphold an environment that is free from all forms of discrimination, harassment, and retaliation. The University promotes fair and equitable treatment for all students, faculty, and staff. The spirit of South Alabama was adopted by the Student Government Association as a basis for expectations from our students. In keeping with the University of South Alabama's values, any sanctions imposed are for the purposes of restoring the standards of the university community, educating students and student organizations about the seriousness

of their actions(s), and promoting civility and positive growth, while maintaining the safety and integrity of the university community.

All students and student organizations are held to high standards of academic excellence and expected to conduct themselves in accordance with all federal, state and local laws, board of governors and university regulations, and policies. Failure to assume responsibility for actions which jeopardize the rights and freedoms of others or defame the integrity of the University will result in disciplinary review.

When a student or student organization is not a danger to the university community or when the repetition of misconduct is unlikely, the University will try to educate the student through a sanction(s) process. However, the University reserves the right to deny admission, continued attendance, or recognition to students or student organizations who continually violate expected standards or established regulations and demonstrate an unwillingness to obey the rules governing student conduct. The Lowdown, the USA student handbook (<https://www.southalabama.edu/lowdown/>), contains the Code of Student Conduct.

Student Academic Conduct

The Student Academic Conduct Policy is presented in the USA student handbook, The Lowdown. Please refer to <https://www.southalabama.edu/lowdown/>.

Housing and Dining On-Campus Living

A college education offers students opportunities for advanced learning, interesting career options, and meeting new people. Students who live on campus have an even greater opportunity for an enhanced college experience! Residents of USA Housing report a sense of community by living where learning and personal growth are a priority. Students who live in one of our residence halls have direct access to campus resources and support staff which helps cultivate a positive and successful college experience.

The University of South Alabama offers a wide range of facilities to meet the lifestyles of a diversified student body. As a student, you have a wealth of choices to choose from when it comes to on-campus housing, including private and semi-private room options. Whether your plans include taking classes the entire academic year or simply during the spring or summer semesters, you can find housing on-campus. Our 33 residence halls can be found on the west side of main campus divided into 7 residential communities that are home to approximately 2500 residents.

Once admitted to the University, students should apply for housing as soon as possible. The earlier you complete your housing contract the larger your selection of room choices will be. Visit the USA Housing website (<https://www.southalabama.edu/departments/housing/>) for details about room assignments and key deadlines.

Overview

The University of South Alabama is committed to providing students with a vibrant, comprehensive and successful undergraduate student experience. National studies show that students who live on campus are more successful, have higher grade point averages, are more engaged, and have higher rates of retention and graduation. This is true for students who live on campus at the University of South Alabama.

Data from USA's Office of Institutional Research suggests that students who live in University Housing at South Alabama have higher grade point averages, have a higher rate of first to second year retention and are more likely to graduate within six years (national average). Additionally, results from the Annual Resident Student Satisfaction Survey indicate students who live on campus report a greater sense of belonging on campus and to college life.

Therefore, in an effort to enhance student success and the undergraduate student experience as well as improve student retention and graduation rates, the University of South Alabama requires first-time, fulltime students to live on campus for their first academic year.

Policy

First-time, full-time students are required to live on campus for their first academic year.

Students who first enroll in the **summer** are required to live in the residence halls for the **summer, fall, and spring** semesters during their first year attending the University.

Students who first enroll in the **fall** are required to live in the residence halls for **fall and spring** semesters during their first year attending the University.

Students who first enroll in the **spring** semester are required to live in the residence halls for the **spring** semester during their first year attending the University.

Residency Exception

Exceptions will be made for students meeting the following criteria:

- 21 years of age or older by the first day of classes
- Enrolled in less than full-time (12) credit hours each semester on campus
- Graduated high school more than one (1) year before the first day of classes
- Have dependent child(ren) in residence
- Live within 80 miles of USA with relative(s) (*i.e., parent, grandparent, aunt, uncle*) or legal guardian
- Married
- Military veteran
- Other*

**Students who believe they have circumstances not listed above that warrant an exemption may submit a request for review. Exemptions will be granted in situations where the policy presents an undue hardship and in other well-documented circumstances. To access the exemption request form, please log in to [SouthAlabama.edu/MyUSAHousing](https://www.southalabama.edu/MyUSAHousing/) (<http://bulletin.southalabama.edu/information/student-affairs-services/housing-dining/SouthAlabama.edu/MyUSAHousing/>) and select 'First Year Residency Exemption'.*

Furnishings and Amenities

Room rates include campus mail box, digital cable, Ethernet, all utilities (electricity, water/sewer, heat/air, garbage service, and pest control), housing and facilities staff available 24/7, accommodation furnishings,

and unlimited laundry access. All residence hall rooms are furnished with a bed frame (adjustable height), mattress, desk, chair, and closet or wardrobe per student. Additionally, each room comes with its own fridge or mini-fridge (size depends on the room type). Visit our Residence Hall webpage (<https://www.southalabama.edu/departments/housing/residencehalls.html>) for virtual tours, floor plans, and more detailed furnishings information for each residential community. USA Housing and Facilities staff are available 24/7 to ensure all resident maintenance concerns are addressed quickly and effectively.

All residential communities include vending machines with drink and snack options. Also, each residential community has one or more common spaces available for student use (lounges, study rooms, TV rooms, conferences rooms, etc.).

Additional Residence Hall Info

All students living in University housing must provide proof of having received the Meningitis vaccine within the last 5 years by uploading to the Student Health Web Portal: studenthealth.southalabama.edu (<https://studenthealth.southalabama.edu/>). Please call Student Health at (251) 460-7151 should you encounter any problems.

While all of the rooms in our residence halls are great places to live, we understand that some students would prefer to live in a different room than where they are assigned for various reasons. This is why we offer several opportunities for students to request a room change after receiving their initial assignment. Please visit the 'Assignment Process' section of your specific classification online at the USA Housing website to review the timelines and procedures associated with these opportunities.

Visit our Financial Policies webpage (<https://www.southalabama.edu/departments/housing/financialpolicies.html>) page for detailed housing contract cancellation guidelines.

USA Dining / Meal Plans

USA Dining offers a wide variety of food and convenient services across campus. These services are designed with the students' needs in mind, providing flexibility and convenience to meet their demanding schedules. Click Here to review all campus dining locations (<https://usouthal.campusdish.com/LocationsAndMenus/>).

Residential Meal Plans

Living where you learn means that eventually, you'll need to eat. With the dining experience at South you'll never have to worry! The meal plan options for residential students offer quality food at a discounted price. The Dining Hall is conveniently located within the residential area. Visit the Meal Plan section of our Rates (<https://www.southalabama.edu/departments/housing/rates.html>) page for detailed meal plan descriptions, requirements, and cost. All students living in University housing are required to have a meal plan.

Commuter Student and Faculty/Staff Meal Plans

Meal plan options are also available for faculty, staff, and commuter students. These plans provide a discounted price over purchasing individual meals on each visit to the dining facility.

Other Meal Plans

In addition, faculty, staff, residential and commuter students can purchase Dining Dollars to use at any food service location on campus.

Dining Dollars never expire! These funds are added to the Jag ID card and are deducted each time there is a food service transaction.

Click Here (<https://usouthal.campusdish.com/>) to review detailed meal plan descriptions and cost.

Catering

USA Dining is also the exclusive caterer on campus. A full catering guide is available online under the Catering tab. Click Here to view the full catering guide. Don't see what you want listed in the guide? Call USA Catering to request a custom menu. Written approval to use an outside caterer must be obtained in advance from the Vice President for Student Affairs.

Student Affairs Services

USA Bookstore

The USA Bookstore is located in the Student Center on the main campus. The bookstore offers a wide range of products and services on campus and online at <http://southalabama.bncollege.com/>. The bookstore carries all required textbooks in either new, used, rental and digital options and required supplies for courses taught on campus and online for distance students. The bookstore also carries a wide variety of USA branded clothing and gift items as well as school supplies, laptops, test preps, general reading trade books, and diploma frames.

Regular store hours are Monday-Friday, 8am-5pm and Saturday, 11am-3pm. Extended store hours for back to school and summer hours will be posted in store and online.

The bookstore accepts all major credit cards and student financial aid. For additional information, please visit our website at southalabama.bncollege.com (<http://southalabama.bncollege.com/>) or call the store at (251) 460-7012.

USA Mail Hub

Located in the Student Center and managed by Ricoh Americas Corporation, the USA Mail Hub provides campus mail services for students, faculty and staff. University of South Alabama students and employees have access to an array of services including: mailing, shipping options using all major carriers, shipping and mailing supplies,

printing, faxing, and copying services. Cash, checks, and credit/debit cards are accepted.

Departmental mail pickup and delivery service is provided by means of an established route. The Mail Hub processes all departmental mail, domestic and foreign.

All residence hall students receive a mail box in the Mail Hub at no additional cost. Mail Hub service includes automated electronic notifications for student letters and packages. Mail and packages are not delivered to residence hall rooms.

For more information, contact USA's Ricoh representative at mailhub@southalabama.edu, or call (251) 414-8191.

Student Insurance

All students should have medical insurance. This information is available through Student Health Services. Students are encouraged to purchase this policy if they do not have medical insurance. For more information contact Student Health Services, (251) 460-7151.

University Police

The University of South Alabama has its own University Police Force (<https://www.southalabama.edu/departments/police/>). The mission of the University of South Alabama Police Department is to uphold the values of safety, security, and respect, fostering a campus environment that encourages academic success and personal responsibility. To achieve this mission, we are committed to the following:

1. Safety - We prioritize the safety and security of all students, faculty, staff, and visitors by implementing strong security measures and proactive policing to protect against potential threats and ensure a safe learning environment.
2. Communication - We foster a strong relationship with the campus community, actively engaging with students, faculty, and staff through open communication, listening to their concerns, and working together to address issues related to campus safety.
3. Professionalism - We maintain the highest standards of professionalism, ethics, and accountability among our officers by providing training and development to ensure they carry out their duties with integrity in their interactions with the campus community.
4. Support - We actively contribute to the development of the campus community by providing educational programs and resources that promote personal safety and responsible decision-making.

Auxiliary Student Services

Please navigate to the individual services for additional information on these services:

- JagTran (p. 52)
- Intercollegiate Athletics (p. 52)
- Student Health Services (p. 52)
- Student Media (p. 52)
- Office of Veterans Affairs (p. 53)
- Mitchell Center (p. 53)
- Telecommunications Department (p. 53)
- Licensing (p. 53)

JagTran

The University of South Alabama's campus transportation, JagTran, was created to provide easy, safe, and efficient transportation for USA students, employees and visitors. Some JagTran vehicles run continuously throughout the day on the main campus. No tickets, money, or reservation are needed. Students will park their cars in color-coded lots, which they choose, and then walk or ride JagTran. For more information, visit <https://www.southalabama.edu/jagtran> (<https://www.southalabama.edu/jagtran/>).

Intercollegiate Athletics

Competing in both men's and women's sports on the intercollegiate level, the University's athletic program fulfills a vital role in giving the students a well-rounded environment of study and recreational entertainment. The University is an active member of the National Collegiate Athletic Association Division 1AAA. Teams are maintained yearly in baseball, basketball, cross country, golf, soccer, tennis, track, and volleyball. Governed by regulations set forth by the President of the University, the Director of Athletics, the NCAA, and the Sun Belt Conference, athletic participation and expansion is occurring as rapidly as facilities permit.

Student Health Services

Student Health Center 5870 Alumni Circle
(251) 460-7151

www.southalabama.edu/studenthealth/ (<http://www.southalabama.edu/studenthealth/>)

The USA Student Health Center (SHC) is staffed with a team of physicians, nurse practitioners, registered nurses, licensed practical nurses and clerical personnel dedicated to providing quality medical and educational services to students.

All currently enrolled students are eligible for treatment in the SHC. The SHC accepts and processes claims for most major insurance carriers along with Alabama Medicaid. We strongly recommend that all students have health insurance. The University sponsors a United Healthcare health insurance plan that is specifically designed for USA students and is available for purchase.

The services offered in the Student Health Center are the same as in any physician's private practice. The SHC provides treatment for a variety of medical conditions as well as physical examinations, sports medicine, immunizations, women's health, psychiatry, sexual assault services and health education. Laboratory testing is offered in the clinic and by reference laboratory to assist in properly diagnosing and treating students. X-rays are also available by referral through the SHC.

For more information, you may contact us at (251) 460-7151 or <https://www.southalabama.edu/departments/studenthealth/>

Student Media

The student newspaper The Vanguard, is distributed free to students and is under the direction of a Board comprised of representatives from the Student Government Association, The Vanguard, the faculty, media services, and public relations. The editor and business manager are selected from applications submitted by interested students.

Office of Veterans Affairs

The Office for Veteran Affairs provides services to meet the special needs of veterans, service members, dependents, and survivors in order to ease their transition to college life and fulfill their educational goals.

The office is located in the Academic Services Center, III Student Services Drive, Suite 1345 on the main campus. Students who wish to use veterans' education benefits must contact the office of Veterans Affairs, (251) 460-6230.

Tuition Rates for Veterans and Certain Military-Affiliated Students

The following individuals shall be charged a rate of tuition not to exceed the in-state rate for tuition and fees purposes:

- A student using educational assistance under either chapter 30 (Montgomery G.I. Bill -Active Duty Program), chapter 33 (Post-9/11 G.I. Bill), or chapter 35 (Dependents Educational Assistance), of title 38, United States Code, who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence).
- Anyone using transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor's discharge or release from a period of active duty service of 90 days or more.
- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three year period following discharge or release as described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.
- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 331 I(b)(9)) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence).
- Anyone using transferred Post-9/11 G.I. Bill benefits (38 U.S.C. § 3319) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal state of residence) and the transferor is a member of the uniformed service who is serving on active duty.
- Anyone using educational assistance under chapter 31, Vocational Rehabilitation/Employment (VR&E), also be charged the resident rate. Effective for courses and terms beginning after March 1, 2019, a public institution of higher learning must charge the resident rate to chapter 31 participants, as well as the other categories of individuals described above. When an institution charges these individuals more than the rate for resident students, VA is required to disapprove programs of education sponsored by VA. Refer to 38 U.S. Code 3679.

Veterans Benefits Transition

Students utilizing VA education benefits shall not be charged a penalty, including assessment of late fees, denial of access to classes, libraries, or other institutional facilities, or be required to borrow additional funds because of the individual's inability to meet their financial obligations due to the delayed disbursement of a payment to be provided by the Department of Veterans. Refer to PL 115-407 Sec. 103.

Complaint Policy for Students Receiving VA Education Benefits

Individuals who wish to submit a complaint can do so on their own behalf, on behalf of someone else, or anonymously, by visiting the GI Bill Feedback System at <https://www.benefits.va.gov/GIBILL/Feedback.asp>

Mitchell Center

The Mitchell Center, home to the University of South Alabama Jaguars, which is located adjacent to the historical Jaguar Gymnasium, features a 10,000-seat arena and exceptional support space with state-of-the-art equipment. The Center is a multi-purpose facility that hosts major events such as graduation, convocation, concerts, sporting events, and a variety of family events. There is also space dedicated to classrooms, meeting rooms, private offices, Athletic Administration offices and the USA Coastal Weather Research Center. A "must see" for many tourists visiting the area, the Waterman Globe is located in the Grand Lobby of the Mitchell Center. This massive historic globe was originally installed in 1948 in the Waterman Building, in downtown Mobile. It was acquired by the University and installed in the Mitchell Center Grand Lobby to be shared with the community and its many visitors. For rental information call (251) 461-1632 or visit our website at <http://www.mitchellcenter.com>.

Telecommunications Department

USA Telecommunications Department is committed to providing high quality, cost effective services to the University Community.

Telecommunications is located off USA North Drive. As you approach the traffic circle on USA North Drive, we are the first building on your right. Hours are Monday through Friday, from 8:00 a.m. to 4:45 p.m. Our information number is (251) 460-7114 or if you are on campus, dial 6-7114.

Licensing

As a program within the Public Relations Department, licensing serves as a support function to the University's overall mission which is: to protect the name and identifying marks of the University of South Alabama, also, to preserve the University's good name and reputation by insuring that products bearing its name or marks are good quality and reflect positively on the University, and to promote the University by stimulating public awareness and support of the University through use of its name and marks.

All items bearing the logo/marks of the University, must be ordered through companies that are officially licensed. A list of vendors is maintained by this office and can be provided if requested. This includes items that bear the log/marks of the University that aren't for resale. A letter of request should be sent to the licensing department stating the nature of the use and that the product is being used internally along with the name and address of the licensed company so the royalty fee can be waived.

All royalty income received will be placed into a permanent endowment for scholarships. The proceeds from this endowment will be divided equally for use in undergraduate, graduate, and athletic scholarships.

For questions concerning the licensing program, please call (251) 460-6211.

ACADEMIC POLICIES & PROCEDURES

- General Academic Policies (p. 54)
- Requirements for Baccalaureate Degrees (p. 55)
- College Course Credit (p. 57)
- Double/Second Majors (p. 61)
- Graduation (p. 61)
- Examinations (p. 62)
- Grades (p. 63)
- Plagiarism and Cheating (p. 64)
- Academic Status Policy (p. 64)
- Student Records (p. 66)
- International Education/Study Abroad (p. 67)
- Graduate Study for Advanced Undergraduates (p. 68)
- Academic Recognition (p. 68)

General Academic Policies

The University of South Alabama's academic policies and procedures provide the framework for the orderly conduct of its degree programs. They are intended to ensure a thorough and complete education for each of the University's graduates. Academic programs are administered through the Office of the Provost and Senior Vice President for Academic Affairs and the Office of the Vice President for Medical Affairs

General Information

University E-mail

Each student admitted to the University of South Alabama is assigned a free, official University e-mail address (@jagmail.southalabama.edu). Most changes in University policies and official University correspondence will be transmitted via the student's official e-mail account. Instructors must also utilize this address to communicate with students. Students are responsible for regularly reading e-mail sent to this address. The official University e-mail address cannot be changed, but students may elect to have official mail forwarded to any other personal e-mail address. To activate your JagMail account, select that link on the University's PAWS website at <https://www.southalabama.edu/services/logins/students/>.

Academic Terms and Credit Hours

The institutional process for assigning credit hours to courses is based on the minimum academic activity to achieve intended learning outcomes as verified by evidence of student achievement. For traditional classes, a credit hour consists of approximately one hour of classroom or direct faculty instruction and a minimum of two hours of out of class work each week for approximately fifteen weeks for one semester or the equivalent amount of work over a different amount of time for semesters of other durations. For classes offered in other formats leading to the award of academic credit, the equivalent amount of academic activity is required.

The University Academic Calendar is two semesters (Fall and Spring) and three terms: a May term and two Summer terms. Semesters normally consist of fifteen weeks of class followed by a final examination week. In some programs of study, courses may be scheduled for parts of terms different from a normal semester. Usually, one semester credit hour is

awarded for each 50-minute lecture class per week or 2-3 hour laboratory or studio period.

Each hour of lecture usually requires two hours of outside preparation. Thus, a student carrying sixteen semester hours should be prepared to spend at least 48 hours in class and study per week.

Student Classification

A student's classification is determined by the number of credits earned toward the degree. A student is classified as follows:

Student Classification	Number of Credits
Freshman	0 - 29 semester hours
Sophomore	30 - 59 semester hours
Junior	60 - 89 semester hours
Senior	90 semester hours or more

Policy for Declaring an Academic Major

Declaring an Academic Major, Non-Transfer Students

Students who enter the university as undeclared or who intend to complete a degree at the university must declare a degree granting major by the time they complete 60 credit hours.

There are two exceptions: Students classified as Business Administration students need to declare their major in the College of Business by 75 credit hours. Students majoring in programs leading to teacher certification in the College of Education and Professional Studies need to enter candidacy, which leads to a degree granting major, by 75 credit hours.

Policy will not apply to second degree seeking or graduate students.

Full-time/Part-Time Enrollment Status

Undergraduate degree seeking students carrying twelve or more credit hours of coursework each semester are considered full-time. However, students must carry at least fifteen hours each semester (for eight semesters) to meet requirements for graduation in four academic years. Co-op students who alternate full-time enrollment with employment are considered full-time students for enrollment purposes. Students carrying nine to eleven credit hours are considered three-quarter time, students carrying six to eight credit hours are considered half-time and students enrolled for one to five credit hours are considered less than half-time.

Full Load of Course Work in a Semester

Permission of the student's academic dean is required to take more than 19 semester hours.

Registration

Registration (making course selections and enrolling in classes) occurs prior to the beginning of each semester or term. All students obtain registration appointment times ("time tickets") and register utilizing USA's Personal Access Web System (PAWS) at <https://www.southalabama.edu/services/logins/students/>.

Registration is not complete until all fees have been paid and all admissions documents and examinations furnished. Failure to satisfy any of the admission or registration requirements will prevent registration for subsequent semesters and terms. Enrollment status can be found in PAWS website at <https://www.southalabama.edu/services/logins/students/>.

Course Numbering System

Course Number	Classification
001-099	Remedial courses which do not carry credit toward graduation
100-199	Freshman
200-299	Sophomore
300-399	Junior
400-499	Senior
500-599	Graduate/Professional
600-799	Doctoral

Attendance and Absences

An individual student is responsible for attending the classes in which the student is officially enrolled. The quality of work will ordinarily suffer from excessive absences. At the beginning of classes, instructors must define their policy on absences, and all cases of illness and emergency shall be promptly reported and verified to the instructor. For excessive absences (two or three consecutive class meetings) due to illness, death in family, or family emergency, the Dean of Students' office should be advised. Absence notices will be sent to each instructor notifying him of the reason for and the approximate length of the absence. This notification does not constitute an excused absence.

Students receiving veterans' benefits are required to attend classes according to the regulations of the Veterans Administration.

All international students on F-1 visas must comply with attendance regulations as dictated by the Department of Justice, Immigration and Naturalization Services. They must remain students in good standing with at least twelve (12) hours per semester.

Students attending authorized off-campus functions or required activities shall be excused by the responsible University official through the Office of Academic Affairs. In case of doubt, instructors may consult these lists in that office. Work missed as a result of these excused absences may be made up.

Computer Access Requirement

All students enrolled at the University of South Alabama are required to have access to a personal computer. This may be achieved by individual ownership, access to a family computer when residing at home, sharing with a roommate, or other suitable arrangements not dependent on University public computer laboratories. Student personal computer access must include a current version of word processing software appropriate to college-level work, access to the Internet, and access to the university's e-mail system. Individual degree programs and specific courses may have additional requirements appropriate to curriculum needs.

Students will be permitted to enroll in mathematics classes based on their prerequisite course grade(s), Math-ACT score, Math-SAT score, or the Mathematics Placement test score as described on the following website: <https://www.southalabama.edu/colleges/artsandsci/mathstat/placementinfo.html>

Students who transfer credit for MA 112 or higher with a grade C or better and who plan to take subsequent mathematics courses are not required to take the Mathematics Placement Exam. Nevertheless, they are encouraged to take the exam to help evaluate their level of preparation.

If a student chooses to take the Mathematics Placement test, it must be completed before enrolling in any mathematics course other than ST 210.

Students who transfer credit for MA 110 or higher and who **do not** plan to enroll for any other mathematics courses are not required to take the Mathematics Placement Exam. Note that MA 110 does not fulfill prerequisite requirements for most mathematics courses.

The Mathematics Placement test is a computer-based test administered in a computer lab. A Texas Instruments TI-30XIIs calculator is allowed during this exam. No other resources are permitted during this exam. Students should complete the exam at least 48 hours prior to coming to campus for orientation. Students without any transfer credit for prerequisite course(s) will be blocked from registering for most mathematics and some statistics courses. Questions concerning the Math Placement Exam should be directed to the Department of Mathematics and Statistics (MSPB 325, (251) 460-6264). Dates when the Math Placement Exam is given and information on how to sign up for it can be found on the webpage:

<https://www.southalabama.edu/colleges/artsandsci/mathstat/placementschedule.html>.

Requirements for Baccalaureate Degrees

Bachelor's Degree

To qualify for a baccalaureate degree a student must complete a minimum of 120 approved semester hours, meet the university's general education requirements, meet the requirements of the major, and meet any specific requirements of the college or school. Some colleges and schools also require a minor. Degree requirements in some academic programs may exceed 120 hours. Students should consult the individual college or school for more details.

I. General Education Requirements

General Education Mission

The General Education Curriculum at USA helps students succeed academically in college, be prepared for their professional careers, be equipped for life-long learning, and become responsible citizens and leaders. To meet these goals in a dynamic world, General Education provides shared experiences for students to acquire foundational skills and knowledge, along with an appreciation of diverse perspectives and a broad intellectual context in which students can situate their specialized fields of study.

General Education Competencies and Student Learning Outcomes

Communication Skills:

- The student will demonstrate effective writing skills.
- The student will demonstrate effective oral presentation skills.

Aesthetic and Critical Interpretations:

- The student will demonstrate a foundational knowledge of artistic and literary interpretations, and the student will demonstrate proficiency in basic interpretive skills.

Scientific Reasoning:

- The student will demonstrate proficiency in scientific reasoning and foundational knowledge of the natural sciences.

Quantitative Reasoning:

- The student will demonstrate proficiency in quantitative reasoning and the use of mathematics.

Social Scientific Literacy:

- The student will demonstrate foundational knowledge of the social sciences.

Historical Perspectives:

- The student will demonstrate a foundational knowledge of historical perspective.

General Education Course Requirements

All students must fulfill the following general education requirements, consisting of a minimum of 41 semester hours plus two designated writing intensive or "W" courses. Specific degree program and college requirements may exceed any or all of the minimum general education requirements. Also, because specific course requirements in general education will vary from major to major, students must refer to the program section of the Bulletin for their major before enrolling in courses intended to satisfy general education requirements as well as other program requirements. In addition, students should plan their degree program with an academic advisor. The general education requirements are:

Area I. Written Composition

EH 101 and EH 102 are required of all students, unless exempted. In addition, two designated writing (W) courses are required with at least one course chosen from offerings in the students' major or minor. Courses carrying this required credit are identified in the University Bulletin by a (W) after the course title. EH 101 and EH 102 are prerequisites to writing courses.

Students must demonstrate general competence in writing by earning a "C" or better in EH 101 and a "C" or better in EH 102. Students are exempt from the EH 101 requirement with an enhanced ACT English score of 27 or above, a recentered old SAT score of 610 or above, or a new SAT Reading Test. Students scoring a minimum of 50 on the CLEP English Examination will satisfy the EH 101 and EH 102 requirement. A score of 4 or higher in the Advanced Placement Program will satisfy the EH 101 requirement. Students completing an IB degree, with an IB exam score of 5 or higher in English, will satisfy the EH 101 and EH 102 requirement. Students failing to complete IB degree, but who have an IB exam score of 5 or higher in English, may satisfy only EH 101 requirement.

Note: Credits earned in the English as a Second Language courses or Developmental Studies will not be accepted toward meeting writing competency requirements.

Area II. Humanities and Fine Arts

Requirements include at least 12 semester hours in humanities, with a minimum of three semester hours in literature and three semester hours in the arts and the remaining semester hours from the humanities and fine arts. In addition to literature, disciplines in the humanities include, but are not limited to, philosophy, religious studies, speech¹, modern and classical languages and literature, art, music, and theater and dance.

Courses should be broad in scope and content rather than specific and should emphasize a global perspective. Courses in the arts should emphasize history and appreciation rather than performance. Examples in the humanities and fine arts include, but are not limited to, world

literature, art history, music appreciation, comparative religions, and history or origins of dance.

¹ Students must complete one course that demonstrates competency in oral communication. Within the Colleges of Allied Health Professions, Arts and Sciences, Education and Professional Studies, Nursing, the School of Computing, and in the Departments of Civil Engineering, Electrical and Computer Engineering, and Mechanical Engineering in the College of Engineering, students must complete CA 110 to satisfy the competency in oral communication requirement. Students majoring in the College of Business and the Department of Chemical and Biomolecular Engineering must meet the specific oral communication requirements of their major (see appropriate sections of this Bulletin for details.)

Area III. Natural Sciences and Mathematics

Requirements include at least 11 semester hours with at least three semester hours in mathematics at the finite mathematics (MA 110) or precalculus algebra (MA 112) level or higher and at least eight semester hours in the natural sciences which must include laboratory experiences. See the **Mathematics Placement** section.

Disciplines in the natural sciences include, but are not limited to, astronomy, biology, chemistry, geology, physical geography and physics.

Courses in the natural sciences should be broad in scope and content rather than specific to an aspect of a discipline and may include interdisciplinary science courses. Courses in the natural sciences must include laboratory experiences which emphasize the scientific method.

Area IV. History, Social, and Behavioral Sciences

Requirements include twelve semester hours in history, social and behavioral sciences with at least six semester hours from among other disciplines in the social and behavioral science. Other disciplines include, but are not limited to, anthropology, economics, geography, political science, psychology, and sociology.

Courses should be broad in scope and content, include global or international perspectives, and must emphasize the methods of inquiry in the social sciences.

Students must complete a six semester hour sequence in literature or history.¹ Note that some majors specify the sequence and the requirements of the major should be referred to before deciding upon either a literature or history sequence. If the sequence selected is in literature, an additional three hours must be taken in any of the history, social science or behavioral science disciplines above.

¹ Students preparing to complete the BS degree in engineering are required to complete nine rather than 12 semester hours in the humanities and fine arts. Rather than the six hour sequence in history or literature, they must demonstrate in-depth study in the humanities and fine arts, history, and the social and behavioral sciences as indicated in the General Education Requirements of the College of Engineering.

II. Major Requirements

(Refer to the Program Section of the Bulletin)

Technology Use Requirement

All undergraduate students must have access to and training in the use of technology to enhance learning and appropriate to meeting the

objectives of individual degree programs. Each degree program will specify how its students will meet this requirement.

Pre-requisites

Students may not register for courses for which they do not have the prerequisites specified in the course descriptions. Any student who does so will be withdrawn by the Registrar, the student's dean, or the dean of the college in which the course is taught.

Minimum Grade-Point Average

A student must earn a minimum grade-point average (GPA) of 2.00 (an average grade of "C") based on all course work taken at the University of South Alabama. Students enrolled in the College of Education and Professional Studies in majors with candidacy requirements must have a minimum grade-point average of 2.20 (2.75 grade-point average for teacher certification). Grades in pass-fail (S/U) courses do not carry quality points and are not used in determining the grade-point average.

Hours in Residence/Residency Requirement

A candidate for graduation must complete a minimum of 25 percent of the credit hours required for the degree through instruction offered by the University of South Alabama in upper-division course work (300 and 400 levels). Upon the recommendation of the dean of the appropriate college and approval of the Provost and Senior Vice President for Academic Affairs or Vice President for Medical Affairs, other credit earned at USA may be substituted to meet the residency requirement. Up to 15 credit hours of study abroad courses may be used to satisfy USA upper-division course requirement. In such cases, up to 15 credit hours of lower-division courses may be used to help meet the requirement that a minimum of 25 percent of the credit hours required for the degree are accomplished through courses offered by USA.

There is also a minimum number of semester hours that must be completed in the major and minor at the University of South Alabama: A minimum of 15 credit hours of courses at the 300/400 level in the major discipline must be completed at the University of South Alabama. If a minor is required in the particular degree program, 9 credit hours of courses in the minor must also be completed at the University of South Alabama.

Any deviation from these residency policies must be approved by the Provost and Executive Vice President for Academic Affairs or Vice President for Medical Affairs. Students should consult the University Bulletin for additional regulations in each academic unit.

Dual Bachelor's Degree

Students currently enrolled in a degree program may pursue a dual degree. A dual degree differs from a double major in that the dual degree has additional requirements beyond those of a second major's as specified below. To earn a dual degree, students must fulfill the following requirements:

1. They must complete the appropriate form(s) in the Registrar's Office.
2. They must be enrolled in the college(s) in which both degrees are administered.
3. They must complete at least 150 total semester hours.
4. They must complete a course of study, approved by the appropriate dean, consisting of at least 30 credit hours in upper division course work in residence over and above the requirements for the first bachelor's degree including a recognized major program.

5. They must satisfy all degree requirements of the college(s) awarding each degree.
6. They must comply with all other University regulations.

Second Bachelor's Degree

Students who have been awarded a bachelor's degree from a regionally accredited college or university, based on at least 120 semester hours of fully accredited work, may seek a second bachelor's degree at the University of South Alabama. To earn a second bachelor's degree, students must fulfill the following requirements:

1. Complete the appropriate form(s) in the Admissions Office or Registrar's Office.
2. Complete a course of study, with a grade point average of 2.0 or higher, consisting of at least 30 credit hours in upper division course work in residence over and above the requirements for the first bachelor's degree, including a recognized major program.
3. Students must select a major different from that of the first degree.
4. Certain majors may require students to complete prerequisite courses before enrolling in the minimum 30 hours in upper division coursework.
5. The general education requirements earned during the first baccalaureate degree will be honored by the University as fulfillment of the general education curriculum.

College Course Credit

English Composition I Exemption

Students who score a minimum ACT English score of 27 or an old SAT verbal score of 610 or a new SAT Reading Test score of at least 33 will be exempt from taking English 101. Official scores should be mailed to the Office of Admissions for exemption to be granted.

Credit by Examination

A student may receive credit for a course by passing a locally prepared examination and by paying appropriate fees. (See "Credit by Examination".)

Military Service/ROTC Credit

A student may receive Military Science or Aerospace Science placement credit for prior military service or Junior ROTC training. Contact the Department of Military Science or the Department of Air Force Studies for details.

The Prior Learning Assessment Center

The Prior Learning Assessment Center, housed in the Department of Integrative Studies, will serve as a central location where potential and enrolled USA students can obtain information and advising on the assessment options available for earning USA credit for prior learning. The center will also be the primary academic unit responsible for the coordination and administration of prior learning assessment by portfolio.

Advanced Placement (AP) Credit

Students participating in the Advanced Placement Program of the College Entrance Examination Board (CEEB) will be granted University credit as indicated below.

AP Course	USA Course	Score	Credit Hours
Art History	ARH 100	4	3 hrs

CSC120

International Baccalaureate Program (IB)

Students participating in the International Baccalaureate Program (IB) will be granted credit by the University of South Alabama to those who have achieved a score of "5" or higher on the International Baccalaureate Program examinations. Individual academic disciplines will determine if a higher score is required in a particular course(s). IB Credit with a grade of at least "5" will be awarded as follows:

Title	SL/HL	Passing Score	USA Course Equivalent	Credit Hours
Biology	SL	5	BLY 101, BLY 101L, BLY 102, BLY 102L	8
Biology	HL	5	BLY 121, BLY 121L, BLY 122, BLY 122L	8
Chemistry	SL	5	CH 101, CH 101L or CH 131, CH 131L	4

CLEP

A student can receive up to 25% of the total credits required for the degree from the General Examinations and certain Subject Examinations of the College Level Examination Program (CLEP) as shown below. Official CLEP scores mailed directly from the CLEP division of the Educational Testing Service are required before credit will be awarded.

CLEP Exam	USA Credit Awarded	Hours Awarded	CLEP Score Required
American Government PSC 130	3 hrs		50
General Biology BLY 121/BLY 122	8 hrs		50
Calculus MA 125	4 hrs		60

Computer Science CLEP credit is awarded based on USA departmental recommendations. The University reserves the right to change the CLEP minimum scores and credit awarded based on recommendations by the College Board and University research.

Double/Second Majors

Double Majors

Undergraduate students may elect to fulfill the requirements for two majors concurrently. To do so, the student must declare a primary major and a secondary major on the Declaration of Program form that is filed with the Registrar's Office. Students who declare a double major must participate in academic advising in each major. Completion of a minor is not required of students completing two majors. Students who declare two majors from different colleges will be required to fulfill all requirements for each major and to fulfill all degree requirements, including those for general education, that apply in the college of the primary major. Students who complete requirements for two majors from different colleges will be awarded the degree granted by the college of the primary major, and transcripts will designate that both the primary and secondary majors were completed.

Second Major

Students who have been awarded a baccalaureate degree at the University of South Alabama may return to study for a second major

as a non-degree student (see unclassified). Such students must fulfill the following requirements to have a second major recorded on their academic record:

1. They must be enrolled in the college in which the major is administered.
2. They must meet all the requirements of the second major.
3. At least half the total number of hours required for the second major must be satisfactorily completed in residence at the University of South Alabama.
4. At least nine hours of the work in the second major satisfactorily completed in residence at the University of South Alabama must be in addition to work completed as part of the bachelor's degree.
5. The appropriate dean's office is responsible for notifying the Registrar's office of satisfactory completion of the second major.

When these requirements have been met, a notation will be entered on the student's record to indicate that the student has "completed work equivalent to a major in ____". Students completing a major equivalency in this fashion may not apply the additional coursework toward a second bachelor's degree.

Minors

The purpose of a minor program is to specify a set of courses that provide a degree of content mastery in a discipline or coherent interdisciplinary field. Ordinarily, a minor program consists of a minimum of 18 hours with at least 9 hours at the upper-division level. Exceptions to the 9 upper-division hours in a minor may occur when the prerequisite sequence for a minor requires more than 9 hours of lower-division courses. Minors approved prior to December 3, 2014 are exempted from the minimums identified above. A minimum of 9 credit hours of courses in the minor must be completed at the University of South Alabama.

Graduation

Application and Bulletin Choice

Application for Graduation

Students planning to graduate must submit an application according to the dates specified in the University Calendar. Failure to apply will result in a delay in scheduled graduation dates.

A student must file an application for graduation with the Registrar's Office at least one semester before expected degree completion (see University Calendar for deadlines). The degree audit/official check sheet must be approved by the graduation check out personnel in each college with the approval of the chair of the major department and the academic dean.

Choice of Bulletin Under Which a Student Graduates

A candidate for the bachelor's degree must fulfill the requirements of a degree program as specified in the Bulletin in effect during the academic year of the student's first matriculation as a degree student. Students may select a subsequent Bulletin during their matriculation with the approval of an academic advisor. If a student does not attend the University for a period of one (1) calendar year or longer, the student will be required to fulfill the requirements of the degree program as specified by the Bulletin in effect during the year of the student's return as a degree student.

If a student prolongs the completion of a degree program, curricular or programmatic changes may occur to such an extent that the requirements for the degree program as outlined in a Bulletin for which the student would otherwise be eligible can no longer be fulfilled. If in the judgment of the appropriate academic dean, this has occurred, such Bulletins cannot be used for meeting degree requirements. In these cases, the academic dean would designate the appropriate Bulletin for determination of degree requirements.

If a student changes degree programs, the student will fulfill the requirements of the Bulletin in effect when the change of degree program is approved.

The University reserves the right to make changes, as required, in course offerings, curricula, academic policies, and other rules and regulations affecting students, to be effective whenever determined by the University. These changes will govern current and former students. Interpretations of these policies will be made by the appropriate University authorities, keeping in mind the interests of the students and the University. Enrollment of all students is subject to the conditions and policies as set forth in the Bulletin.

Evaluation of Degree Requirements

Each candidate will have one official check of remaining degree requirements following filing of the application for graduation which includes the payment of the \$65.00 application fee. Students who apply for graduation after the dates posted in the University Calendar will be assessed a \$25.00 late fee. Students may verify degree progress at any time using the Degree Works audit available through PAWS.

Graduation with Honors

Undergraduate students who have at least 60 GPA hours in residence with a grade-point average of 3.50 or better at the University of South Alabama are graduated with distinction. Transfer credit hours are not included in the determination of academic honors. Academic honors are not awarded for graduate or professional degrees.

Students completing a second undergraduate degree at USA are eligible for consideration of academic hours. Such students must have 60 or more undergraduate GPA hours in residence at USA, including any work towards a first degree at USA and all work on the second degree. All undergraduate work at USA is used in the calculation. No work at another institution is considered.

Students earning a grade-point average of 3.90 or higher are graduated summa cum laude.

Students earning a grade-point average of 3.70 but less than 3.90 are graduated magna cum laude.

Students earning a grade-point average of 3.50 but less than 3.70 are graduated cum laude.

Since commencement occurs before final grades are processed, final official honors cannot be determined before the commencement ceremony. Thus tentative honors, based on the student's academic record through the end of the last term completed, will appear in the printed commencement program. Final, official honors will be computed after all grades are processed at the end of the term for the last term of attendance, and will appear on student's diploma and transcript.

Honors College

Students who have completed all requirements for the University of South Alabama Honors College with an institutional grade-point average of 3.50 or higher will receive special recognition at graduation. For details of the USA Honors College see USA Honors College (<https://www.southalabama.edu/departments/honors/>).

Commencement

USA has commencement ceremonies in Spring and Fall Semesters. Summer candidates participate in the Spring commencement ceremony with the exception of doctoral candidates. Summer doctoral candidates will have their degrees presented at the Fall commencement ceremony. Participation in commencement does not mean that degree requirements have been completed or that academic honors have been awarded.

Diplomas

Diplomas are issued each term. Diplomas will be held until all outstanding obligations to the University have been cleared. Unclaimed diplomas become the property of the University one calendar year thereafter.

Awarding of Posthumous Degree

A posthumous degree may be awarded to a deceased undergraduate student who had senior academic status or to a deceased graduate student near completion of his or her graduate program. Qualifying students must have been registered at the University of South Alabama within twelve months of the time of death and be in good academic standing at the University. The Dean of the student's college submits a recommendation to the Provost and Senior Vice President for Academic Affairs or Vice President for Medical Affairs for review. If approved, the recommendation will be forwarded to the Office of the President for final approval.

If they so desire, the deceased student's family may receive the diploma in a regularly scheduled university commencement ceremony or in a private ceremony.

Examinations

Examinations

Final examinations are held at the end of each semester or term.

Credit by Examination

USA students may receive credit by special examination upon approval of the appropriate academic personnel (statement of application procedures may be obtained from the Office of the Registrar). A fee of \$30.00 will be charged for each examination. In addition, the student will be charged the current course fee per hour of credit. Hours attempted will be included in determining the student's grade-point average.

College Level Examination Program (CLEP)

The University of South Alabama is a participant in the College Level Examination Program. Transfer credits earned through the College Level Examination Program will be evaluated according to standards established by this University. Prospective or enrolled students may seek information from the Office of Admissions or Office of the Registrar.

Credit Limitation

No more than a combined total of 25% of the total credits required for the degree will be allowed for credit received through the College Level Examination Program (CLEP), Advanced Placement Program (AP), International Baccalaureate Program (IB), military service school courses, and other approved non-collegiate-sponsored programs, as recommended by the American Council on Education.

Grades

Grades

Reporting of Grades

Final grades are available through PAWS (Personal Access Web System) at <http://paws.southalabama.edu> at the completion of each semester or term.

Midterm Grades

Undergraduate students in full-term courses will receive midterm grades that will address attendance and academic progress. Midterm grades are intended to provide feedback for students and will not show on the academic transcript unless the midterm grade is the final grade submitted due to the student's failure to continue in the course.

Graduate students in full-term courses will receive midterm grades. Letter grade feedback for graduate courses may or may not be assigned at midterm but all graduate course midterm grades will address attendance and academic progress. Midterm grades are intended to provide feedback for graduate students and will not show on academic transcripts unless the midterm grade is the final grade submitted due to the student's failure to continue in the course.

Grades and Grade-Points

Final examinations are held at the end of each semester. Students are graded on the basis of the following guidelines:

Grade	Guideline
A	Excellent, 4 grade-points per semester
B	Good, 3 grade-points per semester
C	Satisfactory, 2 grade-points per semester hour (Undergraduate); Marginal, 2 grade-points per semester hour (Graduate)
D	Minimum Passing, 1 grade-point per semester hour (Undergraduates)
F	Failure, no grade-points (weighted)
F*	Failure in cases where the student does not officially withdraw, but failed to attend or participate in class activities, or stopped attending or participating in class activities prior to the end of classes.. No grade points.
S	Satisfactory, no grade-points (unweighted)
U	Unsatisfactory, no grade-points (unweighted)

U*	Unsatisfactory in cases where the student does not officially withdraw, but failed to attend or participate in class activities, or stopped attending or participating in class activities prior to the end of classes.. No grade points.
----	---

The following symbols are substitutes for grades. They are not grades:

Symbol	Guideline
I	Incomplete (see below)
WD	Withdrawal
P	Course in progress (see below)
AU	Audit
N	No grade or invalid grade (assigned only by the Registrar)

The symbol "I" (Incomplete) is assigned when, for reasons beyond the student's control, the student is unable to fulfill all the normal course requirements. The situation warranting an "I" must be a medical condition, an equipment problem, or other mitigating circumstance that is patently demonstrable to be beyond the student's control. This symbol is not used to provide time for completion of extra work beyond the normal course requirements for improving the student's grade, or to permit the student to avoid probation, suspension, or dismissal. The "I" symbol should not be assigned unless the amount of incomplete work can reasonably be completed in the time period allotted for an "I" grade without additional extensions. Extensions of "I" grades should only be granted in rare cases where additional and unanticipated circumstances beyond a student's control have prevented completion. All records of the symbols "I" must be cleared by the specified deadline of the next semester or term; if they are not, grades of "F" will be recorded by the Registrar.

The symbol "P" (In Progress) is assigned only in a limited number of approved courses which require more than one semester or term for completion. Unless the "P" is removed by the end of the second succeeding semester or term, a grade of "F" will be recorded.

Change of Grade

Grades reported by instructors to the Registrar may not be changed unless there was an error in recording or in evaluation. Grade changes require the approval of the primary instructor of record and the signature of the department chair and the dean of the college in which the course is taught (or, for graduate students, the Director of Graduate Studies and the Dean of the Graduate School.) A Dean may delegate this responsibility to an Assistant/Associate Dean or to a Director or other academic administrator in their college when appropriate. All grade changes involving an F* or U* grade will also require the signature of the Associate Vice President for Academic Affairs. Grades on record for one calendar year may not be changed. The approval authority of the Dean is not intended to impede or restrict the right of the faculty to request and be granted approval to change a grade when it has been erroneously entered into the official academic records of the University.

Final Grade Grievance Policy

A student may initiate an inquiry under procedures set forth by the Undergraduate Final Course Grade Grievance Policy. A copy of this policy is available in the dean's office of each college and is published in The Lowdown (<https://www.southalabama.edu/departments/studentaffairs/>)

lowdown/) (Student Handbook) and in the Faculty Handbook (<https://www.southalabama.edu/departments/academicaffairs/facultyhandbooks.html>).

Repeated Courses

A student may repeat a course in which a grade of "D" or "F" is received. Total grade-points are computed on the basis of all attempts. A student who has a grade of "C" or better may repeat the course with the approval of the appropriate academic dean. Credit for a repeated course may be counted only once toward graduation, but all grades are recorded on the student's transcript and are counted in determining quality points.

Grade Replacement Policy

Please Note: A USA grade point average that includes grade replacement, may not be used for some purposes. For example, graduate and professional programs may recalculate your grade point average with no grade replacement for admissions decisions.

Note to students: If you are receiving financial aid, please be aware that the Satisfactory Academic Progress Policy is separate from the Grade Replacement Policy. Replacement of a grade does not change the Satisfactory Academic Progress calculation. All work attempted is part of this calculation and repeating courses could negatively affect your eligibility for financial aid. If you have questions, please contact the Office of Financial Aid (251-460-6231 or finaid@southalabama.edu).

If you received a University of South Alabama Scholarship that requires you to complete 30 semester hours/academic year, be aware that repeating a course for grade replacement in the same year will not contribute additional credit hours toward satisfying the 30 semester hour requirement. For the replacement to impact your USA GPA in a specific year or term, a Grade Replacement Application must be processed prior to the deadline for scholarship review for that year or term. Contact the Office of Scholarship Services to obtain deadline dates.

Grade replacements are subject to the following conditions:

- Only USA undergraduate students seeking a first Bachelor's degree qualify for this policy.
- All attempts for each course are recorded on the transcript. Courses that are not used in calculating the GPA will remain on the transcript.
- Only courses taken at USA are eligible for grade replacement.
- Courses in which a B, C, D, or F was earned may be eligible for grade replacement.
- A maximum of 12 credit hours of undergraduate (100-400 level) course grades may be replaced. In each case, the student must have repeated the identical course with an improved grade relative to the course grade being replaced.
- It is possible for a student to have more than one grade removed from the GPA calculation for the same course. However, each grade that is removed counts towards the maximum 12 credit hours eligible for grade replacement.
- Certain courses are not eligible for grade replacement. Courses that are not eligible include: Graduate courses, PE activity courses, internships/clinical courses, health science professional courses, field experiences, research seminars, independent/ directed studies, and special topics courses. Students check with their specific program for further restrictions on eligible courses.
- A course grade for which academic misconduct has been established does not qualify for grade replacement.

- Once a student graduates with any first Bachelor's degree, a class may not be repeated to improve the USA grade point average.
- Grade replacement does not change a student's past academic standing.

Application Procedure

- Complete a Grade Replacement Application form and turn it in to your College Advising office.
- Each course grade replacement request must be done on a separate form.
- Once a grade is replaced, the action is irrevocable.
- A maximum of 12 USA credit hours for repeated courses can be replaced. Additional requests will not be granted. This rule may not be appealed.
- The Grade Replacement Application form may be turned in anytime before the awarding of the student's first Bachelor's degree at USA.
- Students will be notified through their USA e-mail of the approval or denial of this request. Students may confirm grade replacement by viewing their PAWS transcript.

Adding or Dropping Courses

Students may drop courses, using PAWS (the student on-line self-service system), without penalty provided the withdrawal occurs within the time limits listed in the official calendar. See procedures for withdrawals below. Course drops may also be submitted in person to the Registrar's Office. The grade of "F*" or "U*" is recorded for a course abandoned without an official withdrawal. Students who withdraw from a course after the last day for refunds may, with the permission of the instructor, continue to attend the course but may participate in class activities and assignments only to the extent allowed by the instructor. Students who withdraw from clinical courses or laboratory or field experiences must have permission of the department chair to continue in the course.

Plagiarism and Cheating

See Student Academic Conduct Policy (p. 49).

Academic Status Policy

Status Policies

Required Grade Point Average

All undergraduate students must meet the established standards designating appropriate academic progress.

As discussed in the section, General Requirements of Bachelor Degrees, a student must earn a minimum cumulative USA grade point average of 2.0 to graduate. (See special requirements in the College of Education and Professional Studies.) The cumulative GPA hours- all hours taken at USA and all transfer hours -will determine the required minimum USA GPA. Cumulative GPA hours can be found on the unofficial transcript or in the Student Information System.

Academic Probation

Students with a cumulative grade point average below 2.0 are having academic difficulties and are alerted to this fact by being placed on Academic Probation. Students who earn Academic Probation receive a Academic Probation hold and are required to meet with their academic advisor to discuss their course load and plans for the upcoming semester. Students will not be able to adjust or make changes to their

schedule until they speak with their academic advisor or designated staff in their dean's office.

Academic Suspension

Academic Suspension for one regular semester, Fall or Spring, results if a student at the end of any semester on Academic Probation does not have the minimum cumulative USA grade point average indicated in the table below, but does earn a USA grade point average of 2.0 or higher for the term, the student may request consideration for an exception. In order to receive an exception, the student must meet with their academic advisor to create an academic plan that specifies a viable path to degree completion and complete the Academic Recovery Plan document. If the advisor and the student agree to and sign the plan, the student may remain enrolled at USA for the subsequent term. As long as the student remains on probation and does not meet the minimum grade point average indicated in the table below, the student must continue to meet each term with an academic advisor to review the academic plan and progress, and must indicate agreement each term with signatures to the ongoing Academic Recovery Plan.

The minimum required grade point average varies with the total number of Cumulative GPA hours. No student will be placed on Academic Suspension who has not spent the prior term of enrollment on Academic Probation. Students will not receive credit at USA for courses taken at other institutions while on suspension from USA.

Academic Dismissal

Academic Dismissal for one calendar year results if a student who has been reinstated following a previous Academic Suspension or Dismissal fails to make satisfactory progress. Satisfactory progress is specified in the sections following titled Reinstatement Following Academic Suspension and Reinstatement Following Academic Dismissal. Students will not receive credit at USA for courses taken at other institutions while on Academic Dismissal from USA.

Suspension and Dismissal Table

Cumulative GPA hours include both institutional and transfer GPA hours.

Cumulative GPA Hours	GPA (USA GPA Only)
0-42	1.20
43-54	1.43
55-66	1.56
67-77	1.64
78-89	1.69
90-102	1.73
102-up	1.80

Reinstatement Following Academic Suspension

Students reinstated following one regular term, Fall or Spring, (excludes summer term) of Academic Suspension are reinstated on Academic Probation. Students who do not return to the institution immediately following Academic Suspension will be subject to the rules of readmissions. Reinstated students are subject to Academic Dismissal if they do not make satisfactory progress. A student is considered to be making satisfactory progress as long as he or she maintains a USA grade point average for each semester of 2.0 or above until their cumulative USA grade point average is above the minimum required grade point average as outlined in the table above. Once a student achieves a grade point average higher than the minimum required grade point average, he or she is subject to the requirement to maintain his or her grade point

average above the minimum value as listed in the table. Reinstated students will remain on probation until the cumulative USA grade point average is 2.0 or greater.

Students intending to seek reinstatement after suspension must first file a Readmission Form by the official deadline with the Admission's Office.

Reinstatement Following Academic Dismissal

Students academically dismissed from USA will be reinstated on Academic Probation after a period of one calendar year. Reinstatement on Academic Probation requires students to meet with an academic advisor prior to registering for classes. Students reinstated after Academic Dismissal are subject to a second Academic Dismissal if they do not make satisfactory progress. A student is considered to be making satisfactory progress as long as he or she maintains a USA grade point average for each semester of 2.0 or above until their cumulative USA grade point average is above the minimum required grade point average as outlined in the table above. Once a student achieves a grade point average higher than the minimum required grade point average, he or she is subject to the requirement to maintain his or her grade point average above the minimum value as listed in the table. Reinstated students will remain on Academic Probation until the cumulative USA grade point average is 2.0 or greater.

Students intending to seek reinstatement after Academic Dismissal must first file a Readmission Form with the Admission's Office by the official deadline.

Academic Bankruptcy

Undergraduate students readmitted after an absence of at least one or more calendar years may choose to count all or none of their University of South Alabama credits toward completion of degree requirements and the computation of their GPA. Should the student elect to count none of the prior work, i.e., declare academic bankruptcy, the student is, in effect, allowed to start academic work at the University of South Alabama over with a GPA of zero in good standing; however, all course work will remain on the student's academic record. This determination must be made by the student during the term of reentry no later than the last day of class for that term, but preferably at the time of application for readmission. It requires dean's office approval. This election may be made only once during a student's USA career and is irrevocable. Such election also carries with it the stipulation that the student's choice of Bulletin is limited to those in effect from the time in which the student declares academic bankruptcy onward. Academic bankruptcy applies only to courses completed at the University of South Alabama.

In determining academic honors at the University of South Alabama, only the course work taken after academic bankruptcy has been declared counts in the calculation of GPA.

The option of academic bankruptcy is not available to a student who has received a bachelor's degree or certificate.

For financial aid recipients - filing academic bankruptcy will not clear your satisfactory progress problem nor reinstate your federal financial aid eligibility (including loans).

Academic Reboot

Students may request to declare Academic Reboot for one single academic term of study. This could be particularly appropriate for a change of program or major, where none of an earlier semester's classes

are prerequisites for the new major or program of study. If approved, the Academic Reboot request will retroactively remove all registered courses for that term on the last day of classes from the completion of their degree requirements and from the USA GPA calculation for that term.

Note to students: If you are receiving financial aid, please be aware that the Standards of Academic Progress Policy is separate from the Academic Reboot policy. Filing Academic Reboot will not improve the satisfactory academic progress calculation. All work attempted is part of this calculation and rebooting courses could negatively affect your eligibility for financial aid. If you have questions please contact the Office of Financial Aid (251) 460-6231 or finaid@southalabama.edu.

If you have received a University of South Alabama Scholarship that requires you to complete 30 semester hours/ academic year, be aware that an academic reboot will impact the hour earning required for scholarship renewal. If you are considering petitioning for academic reboot, you should speak with the Office of Scholarship Services about the implication for scholarship renewal. The Office of Scholarship Services can be reached at (251) 461-1958 or at scholarships@southalabama.edu.

The following specific rules apply to any petition for academic reboot:

- Only currently enrolled undergraduate students, first Bachelor degree seeking, at the University of South Alabama are eligible to request Academic Reboot.
- Certain programs do not allow for Academic Reboot, including the College of Nursing clinical program and some other professional, clinical programs. Students should meet with their academic advisor to discuss eligibility.
- Maymester, Summer I, and Summer 2 sessions are together considered a single academic term.
- Academic Reboot is never granted for the academic term in which the student is currently enrolled. The earliest petition for Academic Reboot can be filed is after the end of the following term, provided a 2.0 term USA GPA is earned.
- A petition for Academic Reboot may only be filed following a term in which a student earned a 2.0 term USA GPA.
- Academic Reboot is only granted for coursework completed during an academic term at the University of South Alabama. Transfer and placement credits are not eligible for Academic Reboot.
- Petitions for Academic Reboot must be filed by the last class day during the term prior to graduation.
- No more than one petition for Academic Reboot may be approved during the student's academic career at the University of South Alabama. If approved, the Reboot is irrevocable.
- If the petition for Academic Reboot is approved, the courses the student was registered for on the last day of classes for that term will not contribute to degree requirements or be computed in the USA GPA; however, all course work for that term will remain on the student's academic record, including the transcript.
- The option of Academic Reboot is not available to a student who has completed any Bachelor's degree.
- The application for Academic Reboot is filed in the Dean's office of the academic college in which the student is enrolled (i.e. the college including their academic major). Once a student has been enrolled in an academic college for one term, that college has the authority to grant Academic Reboot for a term in which the student was enrolled in another academic college.

- A course in which academic misconduct has been established will not be included in an Academic Reboot.
- No courses subject to the Academic Reboot can be used to satisfy prerequisite requirements for any subsequent course.

Related policies: Grade Replacement (p. 64) and Complete Withdrawal from All Courses (p. 66)

Withdrawals

Official withdrawal (dropping all courses in progress) from the University can be done through PAWS (the student on-line self-service system). Students attending with VA benefits need to check with the Veteran Affairs Office prior to withdrawing. Students with financial aid need to check with that office to determine the impact of course drops or complete withdrawals on financial aid eligibility or possible repayments. International students must get authorization from the Office of International Services prior to withdrawing. The symbol "WD" is recorded for all courses when the student completes the withdrawal within the time limits listed in the official calendar. A grade of "F, or U" is recorded when a currently enrolled student leaves the University without completing the withdrawal.

Readmission to the University

Students who were previously enrolled in courses at the University of South Alabama, and have been absent from the University of South Alabama for at least three consecutive terms should comply with the following:

How to Apply for Readmission

An applicant should request the appropriate forms from the Admission's Office. The readmission form, including all required credentials, should be filed with the Admission's Office by the published deadlines found on the Admission's Office website <https://www.southalabama.edu/departments/admissions/applytousa.html>.

Requirements for Readmission

An applicant must be eligible to return to the University of South Alabama on the basis of a previous academic record at this institution. If the student has attended any college or university subsequent to last enrollment at the University of South Alabama, the student must also have the required transfer average or higher (as computed by the University of South Alabama) on work attempted, and must be in good standing and eligible to return to the last institution attended.

Transient Credits Earned

A student enrolled in the University of South Alabama is not permitted to take credit work as a transient student at another institution to be applied toward a degree without prior permission from the dean of the college. The permission must be in writing, specifying which courses are acceptable and their equivalents at the University of South Alabama. A copy of this permission must be filed with the University Registrar. Students do not need transient approval if they have not been enrolled at the University for two or more consecutive terms (not including summer).

Student Records

The University of South Alabama maintains records and data relative to the individual student to facilitate the educational process of the student and to assist in the administration of student needs by the University. The University of South Alabama complies with the rights of privacy

and access to the educational records of the student as set forth in the Family Educational Rights and Privacy Act (FERPA) of 1974.

The University of South Alabama has formulated the following policy in accordance with the Act:

- No information from records, files, or data directly related to a student other than that defined as "directory information" shall be disclosed or released to any individual or agency outside the University without the prior written consent of the student, except according to lawful subpoena or court orders, or except in the case of need by other educational agencies or governmental agencies. Information will be available to University personnel and faculty only for legitimate educational purposes. The student shall have the right of access to and to review the accuracy of all such information with those exceptions that are defined within this policy statement.
- The University is not required to disclose information from the student's education records to any parent of a dependent student. Discretion in releasing the student's records to the parent will be exercised.
- Information about deceased students may be released to legal next of kin and or the executor of the student's estate. The request for deceased student information must be in writing accompanied by an official death certificate and any additional documentation deemed necessary by the University.
- A deceased student's educational records may also be accessed by subpoena and or court order issued by a court of competent jurisdiction. No notification of such subpoena or court order will be issued by the University.
- Directory information may be released by the University without the written consent of the student. Directory information, as defined by FERPA, includes the student's name, address, photograph, major, dates of enrollment, degrees conferred and dates of conferral, any graduation distinction, institutions attended prior to admission, participation in officially recognized activities and sports, and weight and height of members of University athletic teams.
- To request nondisclosure of directory information, students must complete a "Request to Prevent Disclosure of Directory Information" form in the Registrar's Office. This request will remain in effect unless changed by the student.

Additional information on FERPA may be found in the University Lowdown (student handbook) under "Student Record Policy". A complete explanation of FERPA is available in the Registrar's Office. Any complaints regarding University compliance with this law may be filed with the Family Educational Rights and Privacy Act, Department of Education, Washington, DC 20201.

The Registrar's Office follows the recommendations of the State of Alabama Records Disposition Authority and the American Association of Collegiate Registrars and Admissions Officers in the retention and disposal of student records.

Transcripts

Students may request transcripts on-line through the National Student Clearinghouse or via PAWs (the student on-line self-service system). Students may also request their transcript at the Registrar's Office in Meisler Hall. The costs involved when requesting transcripts can be obtained by contacting the Registrar's Office or visiting <https://www.southalabama.edu/departments/registrar/records/transcripts.html>. All outstanding obligations to the University must be cleared prior to

the release of transcripts. The University does not release copies of transcripts from other institutions.

Enrollment Certification / Degree Verification

Students may request official enrollment/degree verification through their PAWS account, from the National Student Clearinghouse or in person with a written request of the student.

For enrollment/degree verification related to employment or financial aid, the University of South Alabama is a participant in the National Student Clearinghouse. The Clearinghouse is a repository for enrollment/degree status information and was established to simplify, standardize and automate the status verification and deferment process. The Clearinghouse, the University's agent, will provide student enrollment/degree information directly to the guaranty agencies, lenders, and other services.

International Education/Study Abroad

University of South Alabama students in all academic disciplines are encouraged to participate in a study abroad experience for credit toward their major, minor or elective credits. Academic research, practicum, internship and work abroad experience are also highly encouraged for all disciplines and all USA students. Students should check with their academic advisors and the Office of International Education for available opportunities, information on scholarships and application/approval procedures.

Study Abroad

All students receiving academic credit for study or interning abroad must be enrolled in an official USA Study Abroad "course" (check with the Office of International Education for course and section numbers). This includes participation in faculty-led USA Study Abroad programs as well as other USA approved study abroad programs offered by other universities and third party program providers. To participate in a study abroad program, have an overall GPA of at least 2.25 for undergraduates. Graduate student qualifications vary by department and program. Student should see Office of International Education for "exceptional" circumstances procedures. Students with a GPA between 2.0 and 2.25 must demonstrate positive and constructive maintenance of their GPA with no decline in order to be considered for study abroad. Students should have no incomplete coursework due from the term prior to going abroad. Students experiencing academic challenges on campus should work closely with their academic advisors and the Office of International Education prior to making any plans to study abroad. Students requiring accommodations or special services should contact the USA Office of Student Disability Services and discuss such arrangements with OIE and the host program well in advance of their proposed activity abroad. All applicants for USA Study Abroad must be in good academic and non-academic standing prior to and during the proposed activities abroad. Additionally, all students who plan to study are encouraged to take a pre-departure course entitled IST 300: Global Orientation prior to going abroad. This course is an eight week, one credit hour blended format course designed to help students prepare to go abroad. The IST 300 course is a requirement for all students who intend to participate in semester or yearlong programs, and for all Foreign Languages and Literature majors.

With some planning, study abroad can be fully integrated in USA degree programs and applied to core, major, minor and elective courses. Prior

knowledge of a foreign language is not required although many programs provide access to all levels of language learning (beginning to expert). All programs encourage and facilitate intercultural learning opportunities. Opportunities abroad last from one week (depending on the nature of the program) to a full academic year and are available for all semesters including fall, spring, summer and May term. Upon completing USA's study abroad application, including course approval form(s), students will enroll in a USA Study Abroad "course". These courses carry an administrative and registration fee of at least \$150 per program and term abroad. With this registration students are able to receive academic credit for courses taken abroad and while abroad have access to a 24/7 emergency assistance network. Additionally this registration provides access to study abroad advising and support services. Depending on the duration of the program, students may be charged additional fee for international insurance. Students participating in USA Faculty-led programs will enroll in a discipline specific USA course that confers USA credits. Students on Faculty-led programs pay a program fee that generally includes tuition, housing abroad, in-country travel, international insurance, and other on-site expenses. All students who plan to study abroad must attend required USA Study Abroad information and pre-departure sessions. By participating in an approved program, students will retain official full time USA student status and in some instances, may apply for or retain their existing financial aid and scholarship money. Freshmen are encouraged to begin planning for study abroad upon arrival to USA. Scholarship information is available through International Education for internal University scholarships as well as for external sources, such as the Gilman Scholarship, U.S. Fulbright Awards for graduating seniors, and the National Security Education/ Boren Program for Undergraduate and Graduate Students. Additionally, students eligible for the Alabama prepaid tuition (PACT) program, vocational rehab, and veteran's benefits may be able to apply these funds to their study abroad program. For more information, please visit the Office of International Education's website at www.southalabama.edu/ie (<http://www.southalabama.edu/ie/>) or www.southalabama.edu/studyabroad (<http://www.southalabama.edu/studyabroad/>). Students can also come to Study Abroad walk-in hours (see website for hours) or schedule an appointment with a study abroad advisor by e-mailing intledu@southalabama.edu.

Graduate Study for Advanced Undergraduates

With permission of the department chair and appropriate director of graduate studies, a student who has completed 90 semester hours with a "B" (3.0) average may register for graduate courses, provided the total load does not exceed 12 hours. This policy is extended to provide an opportunity for well-prepared undergraduates who meet minimum GPA and sufficient undergraduate course work in the major subject to qualify for graduate study in the involved discipline.

The same course may not be counted both for undergraduate and graduate credit. Up to 12 graduate credit hours may be transferred to a future graduate degree at USA. The graduate course may only count toward a degree in graduate school if and when the student is admitted to the graduate school, provided such course was taken no more than 5 years prior to the completion of the graduate degree, and the course is approved for credit by the graduate advisor.

Academic Recognition

Candidates for all honor lists must be undergraduate degree-seeking students with a clear academic status. Graduates, professional level, unclassified, auditors, transients, non-degree, or other special categories are excluded.

- The President's Scholars include all full-time students earning a 4.0 semester grade-point average.
- The Dean's Honor List includes all full-time students who have completed a minimum of 30 hours at the University of South Alabama, earned a cumulative grade-point average of 3.40 or greater, and a 3.50 or greater semester grade-point average.
- The Dean's List includes all full-time students earning a 3.50 or greater semester grade-point average.
- The Dean's List for part-time students (students taking fewer than twelve hours) includes all students who are enrolled in at least six semester hours and have earned a semester grade-point average of 3.50 or greater.

All of the above lists are compiled upon completion of the processing of a particular semester's grades. Removal of "I" and "P" symbols at a later date will not qualify the student for recognition. Grades recorded in error will be considered only if properly changed and the Dean's office is notified before publication of the lists.

GRADUATE SCHOOL

The University of South Alabama, the only major public institution of higher learning on the upper Gulf Coast, was created by act of the Alabama State Legislature in May, 1963. With Alabama's two older senior universities more than 200 miles distant, the University is strategically located in the greater Mobile area, which has a population of more than a million within a 100-mile radius. The Graduate School provides the student with opportunities for creative achievement and the advancement of knowledge. Graduate study fosters the spirit of independent investigation while creating an environment for free inquiry and intellectual challenge in advanced and specialized areas. Emphasis upon scholarship, original thinking, and the practical application of knowledge to the solution of complex problems will enable the student to make a valuable contribution to society.

All graduate work is administered by the Graduate School under the direction of the Graduate Dean who is advised by the Graduate Council. The voting members of the council are eight Full Members of the Graduate Faculty, eight Graduate Directors, one from each college, a Faculty Senate representative, a Graduate Student Association member, and one graduate student at large. Non-voting ex officio members are the Graduate Dean, the Executive Director of the University Libraries, a representative of the Office of Institutional Effectiveness, a representative from the Innovations and Learning Center, a representative of the Office of Admissions, and a representative of the Registrar's Office.

For more information, see Graduate School (p. 706) section in the Bulletin under Colleges and Schools.

PRE-PROFESSIONAL PROGRAMS

Please navigate to the appropriate program:

- Pre-Health (p. 70)
- Pre-Law (p. 70)

Pre-Health

Pre-Health advising at the University of South Alabama offers valuable resources to students interested in a variety of graduate professional health programs. In order to prepare students for the rigorous demands of these programs, advisors provide information and guidance on required course work, admission test needs, the application process and non-academic requirements. Pre-health advising is provided as a supplement to major academic advising. All pre-health students have an academic advisor who will guide them in meeting requirements for graduation.

<https://www.southalabama.edu/departments/academicadvising/pre-health/>

Pre-Law

Preparation for Law School

Students interested in preparing for a career in law will find outstanding opportunities at the University of South Alabama. The finest pre-law education is considered by many to be a four-year liberal arts curriculum, but law schools will accept bachelor's degrees in other areas also.

Law schools generally do not prescribe a particular major or course of undergraduate study to qualify for admission. They all stress, however, the importance of excellence in whatever course of study is pursued. Specifically, the Association of American Law Schools emphasizes excellence in attaining the following three objectives in pre-law studies:

1. Comprehension and expression in words.
2. Critical understanding of human institutions and values with which the law deals.
3. Creative power in thinking.

"Shortly stated, what the law schools seek in their entering students is not accomplishment in mere memorization but accomplishment in understanding, the capacity to think for themselves, and the ability to express their thoughts with clarity and force" (from Association of American Law Schools, Statement of Policy).

To help the student develop the best possible course of study to prepare for law school in the light of particular needs, the University of South Alabama provides pre-law advising in the Academic Advising & Transfer Services office as well as a pre-Law Advisor in the Department of Political Science and Criminal Justice. Pre-Law students are urged to consult with the Advisor for detailed information concerning how best to prepare for law school and for information concerning the Law School Admission Test, now required by practically all law schools.

College Mission Statement

The College of Arts and Sciences is the intellectual center of the University of South Alabama and is the foundation for establishing and building the quality of the University's academic programs. In the College of Arts and Sciences, students receive broad exposure to all areas of academic inquiry, as well as in-depth knowledge in their chosen field of study. The College provides every undergraduate student at the University, regardless of major, with the fundamentals of a liberal arts education to enhance students' knowledge and create an atmosphere in which students develop their own critical thinking, communication skills, and the tools with which to carry out independent inquiry. Such an education promotes a heightened sense of intellectual curiosity, an appreciation of the values and accomplishments of the sciences, arts and humanities, and a sense of awareness and responsibility for the well-being of their society.

In achieving these educational goals, the College of Arts and Sciences will:

- offer a full range of subjects in the humanities, fine arts, social sciences, mathematics, and the natural sciences
- encourage breadth of learning and training in the fundamentals of scholarship
- create and apply knowledge in the arts and sciences through dedicated research, teaching, scholarship, and creative works
- maintain a community of teachers and scholars devoted to the preservation and discovery of knowledge and its transmission to students and to the public
- encourage and support the application of knowledge in service to the University, the Mobile metropolitan area, and the wider society
- emphasize the regional uniqueness of southwest Alabama, including its cultural heritage, its natural environment, and its strategic location as a port city on the Gulf of Mexico
- prepare students to participate in the larger world beyond the region by giving them an awareness of the complexity of global issues and contexts
- prepare students for meaningful and productive careers and contribute to the development of an educated work force responsive to the needs of the region

 - Drama Minor with Concentration in Dance (p. 404)

Requirements for Admission

Each applicant to a graduate program must meet the general Graduate School standards stated in the Graduate School Admission Requirements and Procedures. Individual programs may have additional requirements for admission and may be restricted because of capacity limitations. Consult departmental descriptions for additional information.

College Requirements Undergraduate

Options exist for students to earn dual degrees, double majors, or complete more than one minor. Students interested in these options should contact the A&S Student Academic Services at (251) 460-7233 for details.

Degree requirements are to be satisfied with Arts and Sciences courses unless otherwise specified. Credits earned in the Developmental Studies Program or the Department of English as a Second Language (ESL) cannot be used to satisfy degree requirements.

At least 30 hours of course work, which represents 25% of the required 120 hours, must be at the upper division level in order to fulfill the University's residency requirement. At least 15 of the 30 upper-division hours must be in the major or concentration area. If a minor is required in the particular degree program, **at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.**

An overall grade-point-average (GPA) of 2.0 is required for graduation. In addition, a minimum GPA of 2.0 is required in the student's major or concentration area.

Majors in Arts and Sciences may be completed with a minimum of 120 semester hours unless designated otherwise.

Designated Writing Course Requirement

Majors in Arts and Sciences must complete two designated writing ("W") courses with at least one course chosen from offerings in the student's major or minor. Courses carrying this required credit are identified in the University Bulletin with a "W" after the course title.

Mathematics Proficiency

All incoming students who do not have ACT scores and require MA 112 or higher for their major must take the Mathematics Placement Test administered in the department.

Calculators and other outside resources are not permitted during this exam.

Students should complete the exam at least 48 hours prior to coming to campus for orientation. If the exam is not taken, the students will be blocked from registering for all mathematics courses. To take the test, students will need their JAG number and the e-mail address provided by the USA Office of Admissions. The result of the test will be e-mailed to the student's JagMail e-mail address. Students should keep a copy of their Mathematics Placement Test results to take to their academic advisor. Students should anticipate a 48 hour lag time between the time they take the Math Placement Test and the time they register.

Required ACT, SAT, or Math Placement Exam scores for entry into MA 112 or higher are viewable at the following link:

<https://www.southalabama.edu/colleges/artsandsci/mathstat/placementinfo.html>

The Math Placement Exam schedule and sign-up instructions are available at:

<https://www.southalabama.edu/colleges/artsandsci/mathstat/placementschedule.html>

Questions concerning the Math Placement Exam should be directed to the Math/Statistics Department (251) 460-6264. The PAWS registration system will enforce the placement and course prerequisites.

CAS 100: First Year Experience (2cr)

A course for first-year students majoring in the College of Arts and Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibility to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who may enroll in CAS 100 during their first summer or fall term.

Bachelor of Arts and Bachelor of Science

A minimum of 120 hours in prescribed and elective courses is required for the Bachelor of Arts or Bachelor of Science degrees in the College of Arts and Sciences.

Candidates for these degrees must meet the general education requirements listed below, as well as completing the requirements for a major and minor field. All Bachelor of Arts and Bachelor of Science degrees within the College of Arts and Sciences require a minor. Requirements for a major or minor are listed under the departmental headings. Major programs may require no more than 47 hours in a single discipline. A student may count no more than eight hours of directed study toward a degree. Two courses (6 semester hours) may count toward both the major and minor only after approval of the student's advisor, chair of the major department, chair of the minor department, and the dean.

Majors and Minors in the College of Arts and Sciences

Undergraduate students pursuing a Bachelor of Arts or a Bachelor of Science degree in the College of Arts and Sciences are required to have a

major and a minor. The exceptions to the minor requirement are: students pursuing a Bachelor of Fine Arts degree, or a Bachelor of Music degree.

Requirements for a major are determined by the department and are listed under the departmental listing in this Bulletin. **At least 15 hours of upper-division course work in the major must be satisfactorily completed in residence at the University of South Alabama.** Courses are chosen in consultation with departmental advisors. Substitutions for stated requirements must be approved by the Chair of the department and the Dean of the college.

Requirements for a minor are determined by the department and are published in this Bulletin. **At least 9 hours of (lower and/ or upper-division) course work in the minor must be satisfactorily completed in residence at the University of South Alabama.**

Students may not choose a major and a minor in the same department unless they are clearly separate disciplines that fall administratively under a single department and have been approved by the Dean. Two courses (6 semester hours) may count toward both the major and minor only after approval of the student's advisor, chair of the major department, chair of the minor department, and the Dean.

Minors offered by Arts and Sciences students include: Air Force Studies, Anthropology, Applied Linguistics, Art, Art History, Biology, Classics Communication, Chemistry, Composite Sciences, Criminal Justice, Dramatic Arts, English, Foreign Languages and Literatures, Forensic Sciences, Geography, Geology, History, Interdisciplinary Studies (African-American Studies, Gender Studies, Gerontology, Jewish and Holocaust Studies), International Studies, Marine Science, Mathematics, Meteorology, Military Science, Music, Museum Studies, Philosophy, Philosophy and Medicine, Physics, Political Science, Psychology, Related Sciences, Religion, Sociology, and Statistics.

Students who take two minors cannot count the same or equivalent courses toward both minors.

Double Major

Undergraduate students pursuing a Bachelor of Arts or Bachelor of Science degree may elect to fulfill the requirements for two majors simultaneously. To do so, the student must declare a primary major and a secondary major on the Declaration of Major form that is filed with the Registrar's Office. The student's academic file will be maintained in the department of the primary major. Students who complete the requirements for a second major are not required to complete a minor.

Students may count related courses from one major toward the fulfillment of the requirements for the other major, provided that the total number of credit hours counted toward both majors does not exceed twelve. Required courses for a major that are not in the major discipline do not count toward the twelve hour limit. At least one major must be in the College of Arts and Sciences. Written permission of the student's academic advisors, the Chair or Director of each major department or program and the Deans of all involved colleges is required for all courses double-counted.

Bachelor of Fine Arts in Studio Art

The degree requirements and admission requirements to the B.F.A. program in studio art are listed under the Department of Visual Arts.

Bachelor of Music

The requirements for the B.M. degree in performance and music education are listed under the Department of Music.

Bachelor of Social Work

The requirements for the B.S.W. degree in social work are listed under the Department of Sociology, Anthropology, and Social Work.

Programs in Other Colleges and Divisions

Students in the College of Arts and Sciences may elect to pursue a second major or a minor in other colleges and divisions of the University.

Students seeking dual degrees or second degrees must have a course of study approved in advance by the student's advisor, department Chair, and the Dean.

Transient Course Credit

Students enrolled in the College of Arts and Sciences must receive prior approval from the Chair of the Department and the Dean before enrolling in courses at another domestic institution. Approval will not be granted for transient enrollment in a course during a semester in which the requested course is available at USA. Students must have earned a "C" in English 101 before transient approval is granted. If these conditions are met, transient course approval may be granted in one or more of the following circumstances:

- A student is not a resident of the area and leaves USA to return home for one or more semesters;
- A student has met the residency requirements for the University and moves to another area prior to completing all degree requirements;
- A student is scheduled to graduate and the course is not offered at USA during their final term.

Failure to obtain prior approval may result in a loss of credit for the course work. This policy applies to transient courses offered at domestic institutions only.

International Programs

The College participates in a number of international programs: summer sessions in England, and Mexico; student exchange programs and seminars in France, Germany, Russia and Greece; as well as the International University Consortium.

For further information about these programs, contact the Department of Foreign Languages and Literatures, or the Office of International Programs.

Teacher Certification for Arts and Sciences Students

Students in the College of Arts and Sciences may participate in the program leading to teacher certification in middle and high school education.

See College of Education and Professional Studies for Teacher Certification Requirements.

Cooperative Education Program

Students in the College of Arts and Sciences may participate in the Cooperative Education Program, which is described in a later section of the Bulletin. For further information, write to the

Director
Career Services Center

University of South Alabama
Mobile, Alabama 36688-0002

Graduate Graduate Studies

The College of Arts and Sciences offers programs leading to a Master of Arts degree in Communication, English, History, or Sociology; a Master of Public Administration degree; a Master of Science degree in Biology, Marine Sciences, Mathematics, or Psychology; a Master of Music degree in Music, a Master of Science in Environmental Toxicology, a Master of Fine Arts degree in Art, and to Doctor of Philosophy degrees in Marine Sciences and Clinical and Counseling Psychology.

General Education Requirements

Code	Title	Hours	
Area I - Written Composition			
A. Complete the following:			
EH 101	English Composition I	3	
B. Complete the following:			
EH 102	English Composition II	3	
Area II - Humanities & Fine Arts			
A. Complete the following:			
CA 110	Public Speaking	3	
B. Select one of the following: see footnote table below (p. 92) ¹			
EH 215	Brit Lit before 1785	3	
EH 216	Brit Lit after 1785		
EH 225	Am Lit before 1865		
EH 226	Am Lit after 1865		
EH 235	World Lit before 1650		
EH 236	World Lit after 1650		
C. Select one of the following:			
ARH 100	Survey of Art	6	
ARH 103	Art History I		
ARH 123	Art History II		
ARS 101	Art Appreciation		
DRA 110	Introduction to Theatre		
MUL 101	Introduction to Music		
D. Select six hours from the following:			
AFR 101	Intro to African Amer Studies		
ARH 100	Survey of Art		
ARH 103	Art History I		
ARH 123	Art History II		
ARH 203	Survey of Non-Western Art		
ARS 101	Art Appreciation		
CLA 110	Intro Anc Greek Roman Culture		
DRA 110	Introduction to Theatre

REL 201	Survey of the New Testament	
Area III – Natural Sciences & Mathematics		
A. Select 3-4 hours from the following:		3-4
MA 110	Finite Mathematics	
MA 111	Math in Society	
MA 112	Precalculus Algebra	
MA 113	Precalculus Trigonometry	
MA 115	Precal Algebra-Trigonometry	
MA 120	Calculus and Its Applications	
MA 125	Calculus I	
MA 126	Calculus II	
MA 227	Calculus III	
MA 237	Linear Algebra I	
MA 238	Differential Equations I	
B. Select 8-10 hours from the following:		
Students cannot receive credit for both BLY 101 and BLY 121 or for both BLY 102 and BLY 122.		
AN 121 & 121L	Biological Anthropology and Biological Anthropology Lab	
BLY 101 & 101L	Life Science I and Life Science I Laboratory	

or BLY 121 & 121L	General Biology I and General Biology I Lab
BLY 102 & 102L	Life Science II and Life Science II Lab
or BLY 122 & 122L	General Biology II and General Biology II Laboratory
BLY 205	Intro Environmental Sci
BMD 110	Introduction to A & P I
BMD 111	Introduction to A & P II
CH 101 & 101L	Survey of Inorg and Org Chem and Survey Inorg-Org Chem Lab
CH 131 & 131L	General Chemistry I and General Chemistry I Lab
CH 132 & 132L	General Chemistry II and General Chemistry II Lab
GEO 101 & 101L	Environmental Geography and Environmental Geography Lab
GEO 102 & 102L	Earth and the Environment and Earth and the Environment Lab
GY 111 & 111L	Physical Geology and Physical Geology Lab
GY 112 & 112L	Earth History and Earth History Lab
MAS 134 & 134L	Ocean Science and Ocean Science Lab
MET 140 & 140L	Introduction to Meteorology and Intro to Meteorology Lab
PH 101 & 101L	Introduction to Astronomy and Introduction to Astronomy Lab
PH 104 & 104L	Concepts of Physics and Concepts of Physics Laboratory
PH 114 & 114L	Physics with Algebra-Trig I and Alg-Trig Based Physics I Lab
PH 115 & 115L	Physics with Algebra -Trig II and Alg-Trig Based Physics II Lab
PH 201 & 201L	Calculus-Based Physics I and Calculus-Based Physics I Lab
PH 202 & 202L	Calculus-Based Physics II and Calculus-Based Physics II Lab

Area IV – History, Social & Behavioral Sciences see footnote table below (p. 92)

A. Select one of the following:	3
HY 101	HY of Western Civilization I
HY 102	HY of Western Civilization II
HY 121	World Civilization I
HY 122	World Civilization II
HY 135	US History to 1877
HY 136	US History since 1877
B. Select three of the following:	9
AN 100	Intro to Cultural Anthropology
AN 101	Intro Archaeology-Bio Anthro
CA 100	Intro to Communication
CA 211	Interpersonal Comm
CJ 105	Introduction to Criminal Justice
ECO 215	Prin of Microeconomics

ECO 216	Prin of Macroeconomics
GEO 114	People, Places, Environment
GEO 115	World Regional Geography
GS 101	Intro to Gender Studies
HY 101	HY of Western Civilization I
HY 102	HY of Western Civilization II
HY 121	World Civilization I
HY 122	World Civilization II
HY 135	US History to 1877
HY 136	US History since 1877
IS 100	Global Issues
IST 201	Seasons of Life
NAS 101	Intro Native American Studies
PSC 130	Intro to US Government
PSY 120	Introduction to Psychology
PSY 250	Life Span Development
SY 109	Introductory Sociology
SY 112	Social Problems

Area V

A. Foreign Language - Select six hours from any one group of the following: see footnote table below (p. 92)² 6

LG 101 & LG 102	Introductory Latin I and Introductory Latin II
LGS 106 & LGS 107	Introductory Arabic I and Introductory Arabic II
LG 111 & LG 112	Introductory French I and Introductory French II (or proficiency test)
LG 121 & LG 122	Introductory Chinese I and Introductory Chinese II
LG 131 & LG 132	Introductory Spanish I and Introductory Spanish II (or proficiency test)
LG 141 & LG 142	Intro Classical Greek I and Intro Classical Greek II
LG 151 & LG 152	Introductory German I and Introductory German II (or proficiency test)
LGS 171 & LGS 172	Introductory Korean I and Introductory Korean II

B. Natural Sciences/Math - Select 3-4 hours lab science or math/stat 3-4 courses from the following:

AN 121 & 121L	Biological Anthropology and Biological Anthropology Lab
BLY 101 & 101L	Life Science I and Life Science I Laboratory
or BLY 121 & 121L	General Biology I and General Biology I Lab
BLY 102 & 102L	Life Science II and Life Science II Lab
or BLY 122 & 122L	General Biology II and General Biology II Laboratory
BMD 110	Introduction to A & P I
BMD 111	Introduction to A & P II
CH 101 & 101L	Survey of Inorg and Org Chem and Survey Inorg-Org Chem Lab
CH 131 & 131L	General Chemistry I and General Chemistry I Lab

CH 132 & 132L	General Chemistry II and General Chemistry II Lab
GEO 101 & 101L	Environmental Geography and Environmental Geography Lab
GEO 102 & 102L	Earth and the Environment and Earth and the Environment Lab
GY 111 & 111L	Physical Geology and Physical Geology Lab
GY 112 & 112L	Earth History and Earth History Lab
MAS 134 & 134L	Ocean Science and Ocean Science Lab
PH 101 & 101L	Introduction to Astronomy and Introduction to Astronomy Lab
PH 104 & 104L	Concepts of Physics and Concepts of Physics Laboratory
PH 114 & 114L	Physics with Algebra-Trig I and Alg-Trig Based Physics I Lab
PH 115 & 115L	Physics with Algebra -Trig II and Alg-Trig Based Physics II Lab
PH 201 & 201L	Calculus-Based Physics I and Calculus-Based Physics I Lab
PH 202 & 202L	Calculus-Based Physics II and Calculus-Based Physics II Lab
ST 210	Stat Reason and Application
MA 113 - MA 299 (except MA 201 and MA 202)	

Total Hours 53-57

Footnote

¹ Students must complete a 6 credit hour sequence either in literature (Area II – EH 215 & EH 216, EH 225 & EH 226, or EH 235 & EH 236) or history (Area IV – HY 101 & HY 102 or HY 121 & HY 122 or HY 135 & HY 136)

² The Department of Modern and Classical Languages recognizes AP (Advanced Placement) and CLEP (College Level Examination Program) scores at the equivalent to the second semester of the foreign language sequence as fulfilling the foreign language requirement. Other proficiency tests (Avant STAMP 4 and tests offered by the BYU FLATS) are also accepted. Students who score on a proficiency test at the level equivalent to first semester of the foreign language sequence are required to complete only the second semester and will fulfill the foreign language requirement with 3 credit hours of course work.

African American Studies

Department Information

The minor in African American Studies provides an interdisciplinary investigation of the experiences, conditions, origins, accomplishments, and contributions of people of African ancestry in the United States. Students may deepen their appreciation and understanding of African Americans by studying their earlier history in Africa, their transition to the New World, and their diasporic experiences in other parts of the world. The African American Studies Program is comprised of eighteen courses offered through seven departments of instruction within the College of Arts and Sciences.

The minor in African American Studies takes advantage of those characteristics of the African American experience that make it uniquely valuable for serious academic study and teaching, for it exposes students to the diversity and unity of the African American experience as well as to the similarities and differences among the cultures of Africa.

Degrees, Programs, or Concentrations

- African American Studies Minor (p. 95)

Courses

African-American Studies (AFR)

AFR 101 Intro to African Amer Studies 3 cr

An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States.

College of Arts/Sciences (CAS)

CAS 100 First Yr Exp - 2 cr

A course for first-year students majoring in the College of Arts & Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

CAS 190 Special Topics - 1-3 cr

This variable content course deals with selected topics from any of the disciplines in the College of Arts and Sciences. Topics will focus on current and relevant issues and may contain a service-learning component. The course may be repeated for credit when the topic varies for a maximum of six credit hours.

Gerontology (GRN)

GRN 272 Gender and Aging 3 cr

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Gender Studies (GS)**GS 101 Intro to Gender Studies 3 cr**

This course provides an interdisciplinary, multicultural overview of the concept of gender and gender roles in patriarchal society. This course examines the social construction of gender in our society and how that has shaped such areas as economics, politics, cultural/social values, and the impact upon women and men in historical and contemporary terms.

GS 290 Sp Tp-#MeToo, Black Lives Matter & Beyond 3 cr

Study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 301 Moving Beyond Diversity 3 cr

This course explores ways of fighting injustice and dismantling systemic oppression for those who are being disproportionately impacted generationally. The course offers a framework for activism that focuses on creating a culture that stands up for what is right by fighting against normalizing cycles of perpetuated injustices. Students will examine diverse perspectives that center on the capacity to mobilize solidarity for those efforts, strategies, and practices that negate performative allyship with systems-changing action for today's realities.

GS 302 Black Women and Activism 3 cr

This fully online three-hour credit course is interdisciplinary in nature and addresses the need to recognize and validate contributions made by Black women that sought and continue to uplift Black America throughout the late 19th and early 21st centuries. This cadre of activism will be contextualized through both womanist and feminist theories. Central to these works will be an examination for how multiple oppressions have shaped Black women's lives throughout their ongoing efforts to redefine self and bring empowerment to their communities through racial solidarity and advancement as a people. These women's underlying resistance strategies and intellectual discourse for offsetting the negative effects of racism and other oppressive measures will be mirrored through the use of race and gender as a socio-political construct. A postmodern response depicted through the lens of contemporary Black feminists for how both mainstream feminism and Black America have responded to these heroic forms of activism will be analyzed. These activists' contributions will unfold through the following curricula foci: 1) early roots of nationalism, 2) the emergence of both Black Feminist and Womanist Thought, and 3) political movements involving Black women activists. Additional cornerstones for learning will include participating in a posting process that involve sharing research and writing projects which in return will facilitate lively discussions on today's black women activism from their own respective domain (e.g. music, spirituality, film, arts and letters, judicial system, the intellectual and socio-political arenas).

GS 304 #Me Too, Black Lives Matter & 3 cr

The velocity of national protests fighting for human rights across the constitutional continuum of justice, dignity, and safety have evolved into an epidemic throughout American infrastructures. This course will plunge into the #MeToo Era, Black Lives Matter, and Woke Movements. Significant visibility for how social constructs of gender, race, and sexuality intersect with these protesters? outcries will be examined. Further considerations will be given to exposing those accused of sexual violence on various fronts as well as existing allegations of wrongful deaths will be a part of the course curriculum. An added dimension to the curriculum will include also focusing on political strategies and an operative activism model that are being used to effectively penetrate these existing cultures of power and dominance.

GS 390 Special Topics 3 cr

Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 490 Special Topics 3 cr

Advanced study of selected topics within an area in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 492 Gender Studies Seminar - 3 cr

Advanced study of selected topics in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 494 Directed Studies 1-3 cr

Directed research under the guidance of a Gender Studies faculty member. Requires permission of instructor. Student is restricted to taking a maximum of six hours of Directed Studies.

Prerequisite: GS 101 Minimum Grade of D

GS 496 Internship - 3-6 cr

Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special Permission required.

Prerequisite: GS 101 Minimum Grade of D

Interdisciplinary Programs (IDS)**IDS 290 Special Topics 1-3 cr**

A study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 490 Special Topics 1-3 cr

Advanced study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 590 Sp Top 1-9 cr

Specialized topics not generally listed in the course offerings. Requires consent of Graduate Director.

International Studies (IS)**IS 100 Global Issues 3 cr**

This course introduces students to the basic structural components of the global system, including the nation-state system and the world economy, and explores the major schools of thought in such areas as security, economic prosperity and development, international law, gender and environmental studies. The course helps students understand the complex and interlinked issues facing global society, and current problems, and view the U.S. within a broader global context.

IS 193 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 200 People-Nations - 3 cr

Variable content course focusing on particular nation or region of the world. Course offers a multi-disciplinary introduction to the people, society and politics. May be repeated for credit when content varies up to a total of 6 hours.

IS 210 Global Engagement Orientation 1 cr

This course introduces students to international global issues, allows students to identify opportunities for active engagement in these issues, and provides the framework for successful completion of the Global Engagement Certificate.

IS 290 Special Topics - 3 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 293 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and CJ 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 363, PSC 363

IS 371 Studies in Russia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Russian civilization. May be repeated for credit when content varies.

IS 372 Studies in E. Europe & C. Asia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Eastern European and Central Asian civilizations. May be repeated for credit when content varies.

IS 390 Sp Top- 1-3 cr

Advanced study of selected topics within a particular concentration. May be repeated for credit when content varies.

IS 391 Study Abroad - 18 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated.

IS 393 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 410 Global Engagement Capstone 1 cr

Global Engagement Capstone is required for students completing the Global Engagement Certificate (GEC), and is a one hour course designed to help students reflect on the 16 hours of coursework and nine hours of globally engaged activities they have completed. Students will create a portfolio during the course, which will be presented to students and affiliated faculty at its conclusion.

Prerequisite: IS 210 Minimum Grade of P

IS 473 International Law 3 cr

This course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 473, PSC 473

IS 489 Leadership and World Leaders 3 cr

An overview of the definitions, characteristics, and typologies of leadership, with a focus on lives and legacies of global influential political leaders over the past century.

Prerequisite: PSC 130 Minimum Grade of D or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of D

Cross-Listed: PSC 251, PSC 489

IS 490 Special Topics 3 cr

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with CJ 491 and PSC 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, PSC 491

IS 492 Seminar - 3 cr

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 493 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 494 Directed Studies 1-3 cr

Directed research in the field of international studies. May be repeated or credit up to a total of 9 hours. Prerequisite: permission of IS Director

IS 495 Senior Seminar - W 3 cr

The course seeks to provide an interdisciplinary and cross-regional overview of the fields and research opportunities within international studies.

Prerequisite: EH 102 Minimum Grade of C

IS 496 Prof St Internship - 3-9 cr

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business Prerequisite: Permission of IS Director

IS 499 Senior Honors Thesis 3 cr

The course covers major theoretical perspectives in organizational psychology based on empirical research and case studies. Students will explore learning theory, group dynamics, and change in different types of learning organizations.

Prerequisite: (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

IS 591 Study Abroad 12 cr

Graduate level international exchange programs for University of South Alabama students.

Museum Studies (MUM)**MUM 201 Intro to Museum Studies 3 cr**

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

African American Studies Minor Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in African American Studies Core Requirements

1. AFR 101 (three semester hours). This course is to be taken immediately after the African American Studies minor is declared.
2. At least one course from Group #1 and one from Group #2 course selected from the offerings below.
3. The election of additional courses to bring the total credits to at least 21 hours.

African American Studies Course Offerings

Code	Title	Hours
Required		
AFR 101	Intro to African Amer Studies	3
Group #1		
EH 390	Sp Top -	
EH 468	Contemporary Black Fiction	
EH 477	Genre	
EH 492	Seminar -	
PHL 331	Constitutional Law	
Group #2		
GS 290	Sp Tp-#MeToo, Black Lives Matter & Beyond	
GS 492	Gender Studies Seminar -	
HY 362	History of Africa since 1500	
HY 377	African American Experiences	
HY 435	Civil War and Reconstruction	
HY 477	The Old South	
HY 478	The New South	
PSY 270	Psy of Black Experience	
SY 220	Marriage and the Family	
SY 315	African American Families	
SY 435	Health Disparities Life Span	

SY 445	Majority-Minority Relations-W	
PSC 340	Race, Gender, & Politics	
Other Electives		12
Choose Electives from any course listed above and below.		
ARH 250	African Art	
ARH 343	African-American Art	
IST 320	Cultural Competency	
Total Hours		21

A description of these courses may be found under the appropriate departments.

Air Force Studies

Department Information

Department of Air Force Studies website
<https://www.southalabama.edu/colleges/artsandsci/afrotc/>

Air Force ROTC offers students a course of study leading to a commission as a second lieutenant. Designed to complement individual academic majors, AFROTC courses can be applied toward minor requirements. Cadets enrolled in the program represent a broad cross section of the student body. The student/cadet has an opportunity to explore and evaluate Air Force and Space Force career opportunities while earning a college degree. Completion of the AFROTC curriculum is the initial step in the education of the professional officer and provides a firm understanding of basic aerospace doctrine and the Air Force missions, organization, and operation.

The Air Force ROTC program consists of two phases: the General Military Course (GMC) and the Professional Officer Course (POC). Each phase requires four (4) semesters of study.

General Military Course (The Basic Course)

Students may enroll in the General Military Course with no military obligation. The GMC courses focus on Air Force organizations and their missions, Air Force history, and basic leadership skills. Communication skills are also emphasized.

Professional Officer Course (The Advanced Course)

Enrollment in the POC is limited to those students who have applied and been accepted for the course. Selection is based on interest in the Air Force or Space Force together with academic records, observed leadership abilities, physical fitness, and Air Force Officer Qualification Test (AFOQT) scores. Application is normally made while a member of the GMC. Individuals entering the POC must have two academic years remaining in college as full-time students at the undergraduate level. Upon completion, all POC students are obligated to accept a commission and enter the active-duty Air Force or Space Force.

Junior-year materials emphasize student involvement in learning and practicing management and leadership techniques. Leadership and management skills as they apply to a Junior officer in the Air Force are emphasized, and communication skills are stressed throughout the entire AFROTC curriculum. The senior-year course deals extensively with the political, economic, and social factors relating to the formulation and implementation of national security policy as well as preparation for entrance into active duty life.

Cadets receive a nontaxable allowance monthly while on contract (normally during the two academic years in the POC). This stipend is in addition to any other scholarship benefits.

Field Training Course

All students must complete one field training course, conducted at an active Air Force base during the summer months. The program requires a three-week course to be completed, normally, between the sophomore and junior years.

While attending field training, a student is furnished transportation or payment for travel plus pay at the current rate of approximately \$400 per month. Uniforms and free medical care are provided while at field training.

AFROTC College Scholarship Program

The Professor of Air Force Studies (PAS) can nominate qualified freshmen, sophomores, and juniors to compete for three and two-year scholarships. The scholarship entitlement pays full tuition and fees at USA, a textbook allotment, and the monthly allowance mentioned above. Scholarship consideration is predicated on student ability, performance, and potential needs of the Air Force. Interested students need to contact the Department of Air Force Studies.

All individuals that complete field training, contracted into POC, and not already on scholarship with AFROTC will receive the Brig Gen Charles McGee Leadership Award which provides either \$18,000 per year in tuition or \$10,000 in housing assistance. This award is only available for undergraduate studies.

Three and four-year scholarships are also available to high school students. High school students interested in applying should call the Department of Air Force Studies at (251) 460-7211 or write the:

Department of Air Force Studies (AFROTC),
 University of South Alabama, AHS Rm 147,
 Mobile, AL 36688-0002.

Also, you can apply via the Internet at <http://www.afrotc.com>.

Air Force ROTC Uniforms

Students in Air Force ROTC will be issued uniforms to wear to class and leadership laboratory. They must be turned in upon completion of the year or when the cadet drops or is dropped from the program. Those individuals in the GMC will wear khakis and a black polo for class unless issued uniforms. All POC cadets will wear issued uniforms.

Courses of Instruction

The GMC course is normally completed during the freshman and sophomore years. This basic course consists of four semesters of study with one hour of classroom work and two hours of leadership laboratory per week.

The POC consists of four semesters of study, and this advanced course leads to a commission in the United States Air Force. Three classroom hours and two hours of Leadership Laboratory are required weekly. Students interested in this program should contact the Professor of the Air Force Studies.

All students enrolled in GMC or POC are also required to attend physical training events three days a week. These sessions run approximately one hour.

Degrees, Programs, Or Concentrations

- Air Force Studies Minor (p. 98)

Courses

AS 101 Foundations of USAF I 1 cr

AS 101 is a survey course designed to introduce students to the United States Air Force and encourage participation in Air Force Reserve Officer Training Corps. Featured topics include: overview of ROTC, special programs offered through ROTC, mission and organization of the Air Force, brief history of the Air Force, introduction to leadership and leadership related issues, Air Force Core Values, Air Force officer opportunities, and an introduction to communication studies. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with followership experiences.

Corequisite: AS 101L

AS 101L Foundation of USAF I Lab 0 cr

Provides an introduction to the military profession, including applications in leadership, drill and ceremony, customs and courtesies and community service.

Corequisite: AS 101

AS 102 Heritage and Values II 1 cr

AS 102 is a survey course designed to introduce students to the United States Air Force and encourage participation in Air Force Reserve Officer Training Corps. Featured topics include: overview of ROTC, special programs offered through ROTC, mission and organization of the Air Force, brief history of the Air Force, introduction to leadership and leadership related issues, Air Force Core Values, Air Force officer opportunities, and an introduction to communication studies. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with followership experiences.

Corequisite: AS 102L

AS 102L Heritage and Values II Lab 0 cr

Provides an introduction to the military profession, including applications in leadership, drill and ceremony, customs and courtesies and community service.

Corequisite: AS 102

AS 201 Team/Leadership Fund I 1 cr

AS 201 is designed to provide a fundamental understanding of both leadership and team building. Students will apply leadership perspectives when completing team building activities and discussing things like conflict management. Students should demonstrate basic verbal and written communication skills. Cadets will apply these lessons at Field Training, which follows AS 201 and AS 202. Co-requisite: AS 201L

Corequisite: AS 201L

AS 201L Team/Leadership Fund I lab 0 cr

Provides an introduction to the military profession, including applications in leadership, drill and ceremony, customs and courtesies and community service.

Corequisite: AS 201

AS 202 Team/leadership Fund II 1 cr

AS 202 is designed to provide a fundamental understanding of both leadership and team building. Students will apply leadership perspectives when completing team building activities and discussing things like conflict management. Students should demonstrate basic verbal and written communication skills. Cadets will apply these lessons at Field Training, which follows AS 201 and 202L. Co-requisite: AS 202L

Corequisite: AS 202L

AS 202L Team/Leadership Fund II Lab 0 cr

Provides an introduction to the military profession, including applications in leadership, drill and ceremony, customs and courtesies and community service.

Corequisite: AS 202

AS 301 Lead People/Effect Comm I 3 cr

AS 301 is a study of leadership, management fundamentals, professional knowledge, Air Force personnel and evaluation systems, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences in officer-type activities, giving students the opportunity to apply leadership and management principles of this course.

Corequisite: AS 301L

AS 301L Leading People/Effective Communication I Lab 0 cr

Provides an introduction to the military profession, including applications in leadership, drill and ceremony, customs and courtesies and community service.

Corequisite: AS 301

AS 302 Leading People/Eff Comm II 3 cr

AS 302 is designed to build on the leadership fundamentals taught in AS 200. Cadets will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The course continues into advanced skills and ethics training that will prepare them for becoming an officer and supervisor. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences in officer type activities, giving student the opportunity to apply leadership and management principles of the course. Co-requisite: AS 301L

Corequisite: AS 302L

AS 302L Lead People/Eff Comm II Lab 0 cr

Provides an introduction to the military profession, including applications in leadership, drill and ceremony, customs and courtesies and community service.

Corequisite: AS 302

AS 401 Sec/Lead/Comm Prep I 3 cr

AS 401 examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, 'officership', military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills.

Corequisite: AS 401L

AS 401L Sec/Lead/Comm Prep I Lab 0 cr

Provides an introduction to the military profession, including applications in leadership, drill and ceremony, customs and courtesies and community service.

Corequisite: AS 401

AS 402 Sec/Lead/Comm Prep II 3 cr

Course examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, officership, military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills.

Corequisite: AS 402L

AS 402L Sec/Lead/Comm Prep II Lab 0 cr

Provides an introduction to the military profession, including applications in leadership, drill and ceremony, customs and courtesies and community service.

Corequisite: AS 402

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
ARMSTEAD, THOMAS (armstead@southalabama.edu)	Air Force Studies	Assistant Professor	BA, Univ of Arizona Global Campus
FAIR, HENRY W	Air Force Studies	Assistant Professor	BS, University of West Florida MS, University of West Florida
MULLINS, DOUGLAS E	Air Force Studies		BA, Ohio University MA, Webster University
PAYTON, ELSA MAE (empayton@southalabama.edu)	Air Force Studies	Assistant Professor	BS, US Air Force Academy MS, American Public University CERT, Auburn University
RANDOLPH, RUTH (ruthrandolph@southalabama.edu)	Air Force Studies	Professor	BA, Augustana College MA, Norwich University
SCHILL, NOAH P.	Air Force Studies	Assistant Professor	BA, Rhodes College

Air Force Studies Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Air Force Studies

Code	Title	Hours
Requirements		
Completion of the 16 hours of Arts and Sciences course work included in the GMC (Basic Course) and the POC (Advanced Course) are required for a minor in Air Force Studies.		
AS 101	Foundations of USAF I	1
AS 102	Heritage and Values II	1
AS 201	Team/Leadership Fund I	1
AS 202	Team/leadership Fund II	1
AS 301	Lead People/Effect Comm I	3
AS 302	Leading People/Eff Comm II	3
AS 401	Sec/Lead/Comm Prep I	3
AS 402	Sec/Lead/Comm Prep II	3
Total Hours		16

In addition, students must complete all commissioning requirements.

Art & Art History

Department Information

Department of Art & Art History website
<https://www.southalabama.edu/art> (<https://www.southalabama.edu/art/>)

The Department of Art & Art History's goals include preparing students for graduate work or careers in the visual arts; providing suitable programs and courses for persons who want to study or practice the arts for personal development and cultural enrichment; and introducing students to their cultural tradition.

The Department of Art & Art History offers a Bachelor of Arts and a Bachelor of Fine Arts degree with concentrations in Animation, Art History, Ceramics, Glass, Graphic Design, Painting, Photography, Printmaking, and Sculpture.

These degree programs are intended for students who plan to pursue careers in Art or Art History, which typically requires continuing their studies at the graduate level. The Department offers minors in Studio Art and in Art History.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Graduate Studies

The University of South Alabama offers a Masters of Fine Arts degree (MFA) in Creative Technologies and Practice, which is the terminal, or highest, degree available in the field. It is a cross-disciplinary degree program appealing to creatives who are interested in a variety of media technologies. The program emphasizes interdisciplinary practice that spans multiple concentrations within Art & Art History with technology serving to inform or facilitate the creative process.

The MFA in Creative Technologies and Practice will equip individuals to enter the workforce in various creative technology areas, manage creative teams, pursue careers as visual artists, advance knowledge in the field through research or creative input, and teach at the university level.

The University of South Alabama offers a Master in Art Education and an Alternative Master in Art Education which are housed in the College of Education and Professional Studies. Coursework in the visual arts is

within the Department of Art & Art History. Further information regarding these degree programs is listed in the Bulletin under graduate programs in the College of Education and Professional Studies.

Degrees, Programs, Or Concentrations

- Art History Minor (p. 109)
- Studio Art (BFA) - Animation Concentration (p. 109)
- Studio Art (BFA) - Art History Concentration (p. 111)
- Studio Art (BFA) - Ceramics Concentration (p. 112)
- Studio Art (BFA) - Glass Concentration (p. 114)
- Studio Art (BFA) - Graphic Design Concentration (p. 115)
- Studio Art (BFA) - Painting Concentration (p. 117)
- Studio Art (BFA) - Photography Concentration (p. 118)
- Studio Art (BFA) - Printmaking Concentration (p. 119)
- Studio Art (BFA) - Sculpture Concentration (p. 121)
- Studio Art Minor (p. 122)
- Visual Art (BA) - Art History Concentration (p. 122)
- Visual Art (BA) - Studio Art Concentration (p. 124)
- Visual Art (MFA) - Creative Technologies and Practice (p. 125)

General Education Requirements

Code	Title	Hours
Area I - Written Composition		
A. Complete the following:		
EH 101	English Composition I	3
B. Complete the following:		
EH 102	English Composition II	3
Area II - Humanities & Fine Arts		
A. Complete the following:		
CA 110	Public Speaking	3
B. Select one of the following: see footnote table below (p. 100) ¹		
EH 215	Brit Lit before 1785	
EH 216	Brit Lit after 1785	
EH 225	Am Lit before 1865	
EH 226	Am Lit after 1865	
EH 235	World Lit before 1650	
EH 236	World Lit after 1650	
C. Complete the following:		
ARH 103	Art History I	3
ARH 123	Art History II	3
ARH 344	Contemporary Art	3
Elective Art History courses		6
Area III – Natural Sciences & Mathematics		
A. Select 3-4 hours from the following:		
MA 110	Finite Mathematics	
MA 111	Math in Society	
MA 112	Precalculus Algebra	
MA 113	Precalculus Trigonometry	
MA 115	Precal Algebra-Trigonometry	
MA 120	Calculus and Its Applications	
MA 125	Calculus I	
MA 126	Calculus II	

MA 227	Calculus III	
MA 237	Linear Algebra I	
MA 238	Differential Equations I	
B. Select 8-10 hours from the following:		8-10
AN 121 & 121L	Biological Anthropology and Biological Anthropology Lab	
BLY 101 & 101L	Life Science I and Life Science I Laboratory (see footnote table below (p. 100)) ²	
or BLY 121 & 121L	General Biology I and General Biology I Lab	
BLY 102 & 102L	Life Science II and Life Science II Lab (see footnote table below (p. 100)) ²	
or BLY 122 & 122L	General Biology II and General Biology II Laboratory	
BMD 110	Introduction to A & P I	
BMD 111	Introduction to A & P II	
CH 101 & 101L	Survey of Inorg and Org Chem and Survey Inorg-Org Chem Lab	
CH 131 & 131L	General Chemistry I and General Chemistry I Lab	
CH 132 & 132L	General Chemistry II and General Chemistry II Lab	
GEO 101 & 101L	Environmental Geography and Environmental Geography Lab	
GEO 102 & 102L	Earth and the Environment and Earth and the Environment Lab	
GY 111 & 111L	Physical Geology and Physical Geology Lab	
GY 112 & 112L	Earth History and Earth History Lab	
MAS 134 & 134L	Ocean Science and Ocean Science Lab	
PH 101 & 101L	Introduction to Astronomy and Introduction to Astronomy Lab	
PH 104 & 104L	Concepts of Physics and Concepts of Physics Laboratory	
PH 114 & 114L	Physics with Algebra-Trig I and Alg-Trig Based Physics I Lab	
PH 115 & 115L	Physics with Algebra -Trig II and Alg-Trig Based Physics II Lab	
PH 201 & 201L	Calculus-Based Physics I and Calculus-Based Physics I Lab	
PH 202 & 202L	Calculus-Based Physics II and Calculus-Based Physics II Lab	
Area IV – History, Social & Behavioral Sciences see footnote table below (p. 100)¹		
A. Select one of the following sequences:		6
HY 101 & HY 102	HY of Western Civilization I and HY of Western Civilization II	
HY 121 & HY 122	World Civilization I and World Civilization II	
HY 135 & HY 136	US History to 1877 and US History since 1877	
B. Select two of the following: see footnote table below (p. 100) ³		6

AN 100	Intro to Cultural Anthropology
AN 101	Intro Archaeology-Bio Anthro
CA 100	Intro to Communication
CA 211	Interpersonal Comm
CJ 105	Introduction to Criminal Justice
ECO 215	Prin of Microeconomics
ECO 216	Prin of Macroeconomics
GEO 114	People, Places, Environment
GEO 115	World Regional Geography
GS 101	Intro to Gender Studies
IST 201	Seasons of Life
IS 100	Global Issues
NAS 101	Intro Native American Studies
PSC 130	Intro to US Government
PSY 120	Introduction to Psychology
PSY 250	Life Span Development
SY 109	Introductory Sociology
SY 112	Social Problems
Area V	
A. Complete the following:	
CAS 100	First Yr Exp - 2
Total Hours	52-55

Footnote

- ¹ Students must complete a 6 credit hour sequence either in literature (Area II – EH 215 & EH 216, EH 225 & EH 226, or EH 235 & EH 236) or history (Area IV – HY 101 & HY 102 or HY 121 & HY 122 or HY 135 & HY 136).
- ² BLY 121 and BLY 122 are restricted to Arts and Sciences science majors, Allied Health science majors, Engineering majors, and Computer Science majors. Students cannot receive credit for both BLY 101 and BLY 121 or for both BLY 122 and BLY 102.
- ³ No more than 6 hours in any one discipline may be counted.

Courses

Art History (ARH)

ARH 100 Survey of Art 3 cr

A survey of major periods of artistic development from prehistoric times to the present. Note: this course cannot be counted toward fulfilling degree requirements for majors in Studio Art, Art, or Art History. Core course

ARH 103 Art History I 3 cr

An examination of the history of the Western tradition of art from cave painting through the Middle Ages including but not limited to Ancient Egypt, Ancient Greece, Ancient Rome, and Romanesque, and Gothic Europe. Students will be introduced to the descriptive and critical analysis of works of art and architecture as well as their cultural, economic, religious, and historical context.

Cross-Listed: CLA 103

ARH 123 Art History II 3 cr

An examination of the history of the Western tradition of art from the late Middle Ages to the 20th century including but not limited to the periods of the Renaissance, the Baroque, Neo-Classicism, Romanticism, Impression, Cubism, and Pop Art. Students will be introduced to the descriptive and critical analysis of works of art and architecture as well as their cultural, economic, religious, and historical context.

ARH 203 Survey of Non-Western Art 3 cr

Survey of the visual arts from five broad geographic areas of the world outside of Europe: Asia, Middle East, Africa, Oceania (the islands of the Pacific Ocean), and the Americas (North, Central, and South).

ARH 245 History of Graphic Design 3 cr

A survey of graphic design from the ancient Sumerians to the present day.

Prerequisite: ARH 123 Minimum Grade of D

ARH 248 History of Photography 3 cr

A comprehensive study of the medium of photography. The course traces chronologically and thematically the evolution of an independent art form. The focus of the course is the growth of this contribution to the visual arts, through the inseparable aspects of science and art.

Prerequisite: ARH 123 Minimum Grade of D

ARH 250 African Art 3 cr

This course is designed as a basic orientation to the arts of Africa and the interpretation of experience as witnessed in various African visual art forms. The course will focus on the major civilization and/or nations south of the Sahara Desert and their stylistic developments. Emphasis will be placed on the aesthetic approach of African artists and the influence of their art on western culture.

ARH 290 Special Topics - 3 cr

Different subjects or themes in art or architectural history as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours.

ARH 304 Ancient Grk Art and Architect 3 cr

Architecture, sculpture, and painting in Ancient Greece and the expansion and influence of Greek culture in the Ancient World. Identical to CLA 304. Credit cannot be received for both ARH 304 and CLA 304.

Prerequisite: (ARH 103 Minimum Grade of D or CLA 103 Minimum Grade of D) or CLA 110 Minimum Grade of D

Cross-Listed: CLA 304

ARH 306 Roman Art 3 cr

Architecture, sculpture, and painting in Ancient Rome and its empire. Identical to CLA 306. Credit cannot be received for both ARH 306 and CLA 306.

Prerequisite: (ARH 103 Minimum Grade of D or CLA 103 Minimum Grade of D) or CLA 110 Minimum Grade of D

Cross-Listed: CLA 306

ARH 312 Medieval Art and Architecture 3 cr

This course is a survey of the art and architecture of the Medieval world from the legalization of Christianity in AD 313 to the end of the Gothic Period.

Prerequisite: (ARH 103 Minimum Grade of D or CLA 103 Minimum Grade of D)

ARH 320 Renaissance Art & Arch. 3 cr

A study of the art and architecture of Italy, Flanders, Germany, and France in the 14th, 15th, and 16th centuries. Prerequisite: ARH 123.

Prerequisite: ARH 123 Minimum Grade of C

ARH 322 Northern Renaissance Art 3 cr

Art of Flanders, Germany, and France in the 14th, 15th, and 16th centuries.

Prerequisite: ARH 123 (may be taken concurrently) Minimum Grade of D

ARH 324 Italian Early Renaissance 3 cr

Art of 14th and 15th century Italy. Fee

Prerequisite: ARH 123 (may be taken concurrently) Minimum Grade of D

ARH 326 16th Century Italian Art 3 cr

Art of the Italian High Renaissance and Mannerist Periods.

Prerequisite: ARH 123 (may be taken concurrently) Minimum Grade of D

ARH 330 Baroque Art of Southern Europe 3 cr

A study of painting, sculpture, and architecture in Italy and Spain during the 17th and early 18th centuries.

Prerequisite: ARH 123 (may be taken concurrently) Minimum Grade of D

ARH 332 Baroque Art and Architecture 3 cr

This course is a survey of the art and architecture of Seventeenth Century Europe.

Prerequisite: ARH 123 Minimum Grade of D

ARH 335 18th Century Art and Arch 3 cr

Survey of the art and architecture of the Eighteenth Century.

Prerequisite: ARH 123 Minimum Grade of D

ARH 340 Early Modern Art 3 cr

A study of art developments in the 19th and early 20th centuries.

Prerequisite: ARH 123 Minimum Grade of D

ARH 343 African-American Art 3 cr

Investigation of the art of African-Americans and the historical and social contexts in which the works were produced. Major periods of concentration include slavery, post-slavery, and the 20th century.

ARH 344 Contemporary Art 3 cr

A study of art developments since 1960.

ARH 345 American Arts 1600 - 1940 3 cr

American painting, graphics and sculpture from the Colonial period to 1940.

Prerequisite: ARH 123 Minimum Grade of D

ARH 346 Amer Architecture 1600-1940 -W 3 cr

American architecture from the colonial period to 1940.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and ARH 123 Minimum Grade of D

ARH 348 Native American Art 3 cr

This class will address key issues in Native American Art including symbolism and spirituality, the role of patronage and museum practices, and the politics of art criticism.

ARH 360 Traineeship in Museum Work 3 cr

This course is evaluated experience in museum work at an accredited institution of art. It may be repeated once if the experience differs.

Prerequisites: Fifteen hours of Art History with a grade of C or above and permission of the course director.

ARH 362 Internshp Architect Preservatn 3 cr

Evaluated experience in architectural preservation at the Mobile Historic Development Commission. Cannot be used to fulfill requirements for the Art History major or minor. The course may not be repeated.

Prerequisite: ARH 304 (may be taken concurrently) Minimum Grade of D or ARH 346 (may be taken concurrently) Minimum Grade of D or ARH 406 (may be taken concurrently) Minimum Grade of D or ARH 415 (may be taken concurrently) Minimum Grade of D

ARH 370 Philosophy of Art 3 cr

Acquaints students with main issues in aesthetics. Includes such issues as the nature and function of art and the criteria of aesthetic judgment.

Identical with PHL 370. Credit cannot be received for both ARH 370 and PHL 370.

Cross-Listed: PHL 370

ARH 390 Special Topics - 3 cr

Different subjects or themes in art or architectural history as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours.

ARH 415 Gothic Architecture 3 cr

A study of art, architecture and sculpture during the Gothic Age, with special emphasis on France, Germany, England, Italy, and Scandinavia.

Prerequisite: ARH 103 (may be taken concurrently) Minimum Grade of D

ARH 434 Baroque Art Flanders-Holland 3 cr

A study of the painting of the major artists of Baroque Flanders and Holland; the work of Rubens, Hals, Rembrandt, Vemeer, and others will be studied.

Prerequisite: ARH 123 (may be taken concurrently) Minimum Grade of D

ARH 480 Women in Art-W 3 cr

A study of women throughout art history as both the subject and the creator of art. Prerequisite: Nine hours of Art History above the 200 level.

Prerequisite: (EH 101 Minimum Grade of D or EH 102 Minimum Grade of D)

ARH 492 Seminar - W - 3 cr

This seminar will treat variable subjects. This course may be repeated twice when content varies, for a maximum of nine credit hours.

Prerequisite: (ARH 103 Minimum Grade of D or CLA 103 Minimum Grade of D) and ARH 123 Minimum Grade of D and (ARH 344 Minimum Grade of D or ARH 244 Minimum Grade of D) and (EH 102 Minimum Grade of D or EH 105 Minimum Grade of C)

ARH 493 Methodology of Art History-W 3 cr

An investigation of methodologies used by art historians in their examination of artistic production. Prerequisite: 9 hours of ARH courses above the 200 level.

ARH 494 Directed Studies 3 cr

Research in a selected topic in art or architectural history under the direction of a faculty member, resulting in a scholarly paper.

Prerequisites: Nine hours in Art History numbered 300 or higher and permission of the instructor. This course may be repeated twice for a total of nine credit hours.

ARH 498 Art History Senior Thesis 3 cr

Art History B.F.A. students will identify and carry out independent scholarly research on an art history topic over two semesters with the guidance of a faculty committee. At the end of the second semester, the project will be concluded with submission of the polished thesis and a thesis defense presented through a formal session given to the Visual Arts faculty. This course is to be taken as two sequential, three-credit units.

Prerequisite: ARH 493 (may be taken concurrently) Minimum Grade of C

ARH 499 Honors Senior Thesis - H (W) 3 cr

Honors students will identify and carry out independent scholarly research on an art history topic over two semesters with the guidance of a faculty mentor. At the end of the first semester, the project will be concluded with a formal oral presentation to the Visual Arts Faculty. At the end of the second semester, the students will submit the senior thesis. The work from both semesters will be graded by a three-member faculty committee, chaired by the mentor. This course is to be taken as two sequential, three-credit course units.

Prerequisite: HON 301 Minimum Grade of D

ARH 544 Graduate Contemporary Art 3 cr

A survey of art developments since 1960.

Cross-Listed: ARH 344

ARH 560 Graduate Museum Internship 3 cr

This course is evaluated experience in museum work at an accredited institution of art. It may be repeated once if the experience differs.

Prerequisites: ARH 103 or ARH 123 as relevant and Instructor Permission.

Prerequisite: ARH 103 Minimum Grade of C or ARH 123 Minimum Grade of C

ARH 590 Special Topics - 3 cr

Different subjects or themes in art or architectural history as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours.

Prerequisite: ARS 103 (may be taken concurrently) Minimum Grade of D and ARS 123 (may be taken concurrently) Minimum Grade of D

ARH 594 Directed Study 3 cr

Directed individual study. A maximum of nine credit hours of ARH 594 may count toward degree requirements. Must have permission of instructor.

Art Studio (ARS)**ARS 101 Art Appreciation 3 cr**

A broad introduction to the nature, vocabulary, and media of the visual arts of drawing, painting, prints, the camera arts, graphic design, sculpture, crafts, and architecture.

ARS 121 Perceptual Drawing I 3 cr

An introductory course with emphasis on the development of drawing skills to realistically represent natural and man-made forms using dry drawing media.

ARS 122 Perceptual Drawing II 3 cr

A continuation of ARS 121 using wet and mixed drawing media.

Prerequisite: ARS 121 Minimum Grade of D

ARS 123 Two-Dimensional Design 3 cr

The study and application of art elements and principles, and principles of perception, for the purpose of increasing the student's skill in communicating visually with paints and other two-dimensional media.

ARS 124 Three-Dimensional Design 3 cr

A study and application of art principles to three-dimensional problems.

ARS 155 Introduction to Print Media 3 cr

This course will provide students with an introductory education in the materials, methods, and history of the varied printmaking techniques. Students will gain a basic knowledge of the print processes and issues through the development of a body of original work.

ARS 200 Intro to Animation 3 cr

This course introduces the student to the basic concepts of animation. Emphasis will be on the processes involved in creation of animation stressing teamwork, storyboarding, hand drawing, clay animation, motion, and balance. Digital camera, scanning and computer editing are critical skills that make the foundation for this class. Study of the history of animation and terminology will be included in this curriculum.

Prerequisite: ARS 121.

Prerequisite: ARS 121 Minimum Grade of C

ARS 201 Two Dimensional Animation I 3 cr

This course will offer skill development in the use of software to develop storyboards and 2-dimensional animation including creating, importing and sequencing media elements to create interactive motion graphics. Emphasis will be on conceptualization, creativity, and visual aesthetics. This course takes the students through various aspects of animation using 2 dimensional software. Developing concepts, storyboarding and production of several 2 dimensional animations will be accomplished.

Prerequisite: ARS 122 Minimum Grade of D and ARS 121 Minimum Grade of D and ARS 123 Minimum Grade of D and ARS 200 Minimum Grade of D

ARS 202 Three Dimensional Animation I 3 cr

This course focuses on storytelling techniques through animation and the principles of animation. It covers the fundamentals of scene navigation, modeling, cameras, and lightning. Students will be introduced to 3D technology and how it is used to film and video game production.

Prerequisite: ARS 200 Minimum Grade of D and ARS 201 Minimum Grade of D

ARS 204 Experimental Animation 3 cr

This course offers a framework in which students will explore and develop aesthetically progressive concepts and professional practices in their personal animation art-making. The students will develop a unique artistic voice in the creation of visually based animation using experimentation, exploration, traditional and non-traditional mediums.

Prerequisite: ARS 200 Minimum Grade of C and ARS 122 Minimum Grade of C and ARS 123 Minimum Grade of C

ARS 211 Glass Art, Science, History 3 cr

A survey of glass objects from 5,000 years ago, leads to a focus on the contemporary and international Studio Glass Movement in art. Methodologies of glass making and the work of artists utilizing the medium will be explored. The physical properties of glass including coloration and transition range (heating and cooling) will be discussed and demonstrated with hands-on instruction.

ARS 212 Intro to Glass Blowing 3 cr

The manipulation, construction, and experimentation with glass as a sculptural and craft medium. Emphasis will be on glass blowing. Other investigations may include surface design, sandblasting, painting, and enameling on glass. 3 hours minimum of additional lab time beyond class time are required per week.

ARS 222 Figure Drawing I 3 cr

A study of the human figure using various drawing (dry) media.

Prerequisite: ARS 122 Minimum Grade of D and ARS 123 Minimum Grade of D

ARS 225 Conceptual Drawing I 3 cr

An introduction to the developmental process of drawing as an art form using various subject matter and drawing media.

Prerequisite: ARS 122 Minimum Grade of D and ARS 123 Minimum Grade of D

ARS 231 Painting I 3 cr

An introduction to the techniques and concepts of oil painting using various subject matter.

Prerequisite: ARS 122 Minimum Grade of D and ARS 123 Minimum Grade of D

ARS 232 Painting II 3 cr

A continuation of ARS 231 with an emphasis on color, composition and technical facility in oil paint.

Prerequisite: ARS 231 Minimum Grade of D

ARS 241 Intro to Ceramics 3 cr

Introduction to the exploration of basic hand building and wheel techniques of working with clay. Included will be basic design considerations for traditional pottery forms as well as simple sculptural forms. There will be exposure to techniques for glazing and basic firing.

ARS 250 Lithography 3 cr

An introduction to lithography. Technical skills related to processing and printing an edition will be studied. The course will consist of studio practice, lectures, quizzes, and critiques.

Prerequisite: ARS 121 Minimum Grade of D and ARS 123 Minimum Grade of D

ARS 251 Intaglio/Etching 3 cr

An introduction to Intaglio printing techniques also known as etching. Technical skills related to drawing, processing, and printing the metal plates will be studied. The class will consist of studio problems in plate making and printing along with lectures, quizzes, and critiques.

Prerequisite: ARS 122 (may be taken concurrently) Minimum Grade of D and ARS 123 (may be taken concurrently) Minimum Grade of D

ARS 252 Woodcut/Relief 3 cr

A study of relief printmaking. Techniques may include and are not limited to relief, linoleum cut, and wood engraving. The course will consist of studio practice, lectures, quizzes, and critiques. Emphasis will be given to the skills involved in the use of hand tools to cut the image and skills used in printing and editioning the block.

Prerequisite: ARS 121 Minimum Grade of D and ARS 123 Minimum Grade of D

ARS 253 Silkscreen/Serigraphy 3 cr

An introduction to silkscreen printing as a fine art form. The class will explore various techniques used in water-based screen printing, from simple stencils of hand drawn and cut paper designs to advanced photo processes. The course will consist of studio practice, lectures, quizzes, and critiques. Technical methods involved in color use, processing, and printing will be studied.

Prerequisite: ARS 121 Minimum Grade of C and ARS 123 Minimum Grade of C

ARS 255 Beginning Printmaking 3 cr

This course will provide students with a fundamental education in the materials, methods, and history of the varied printmaking techniques. Students will gain a basic knowledge of the print processes and issues through the development of a body of original work.

Prerequisite: ARS 122 (may be taken concurrently) Minimum Grade of C and ARS 123 Minimum Grade of C and ARS 121 Minimum Grade of C

ARS 261 Sculpture I 3 cr

A basic course with additive sculpture materials dealing with problems of mass, volume, and form.

Prerequisite: ARS 124 Minimum Grade of D

ARS 262 Sculpture II 3 cr

An introduction to basic metal fabrication, including cutting, brazing, and welding both ferrous and non-ferrous materials.

Prerequisite: ARS 261 (may be taken concurrently) Minimum Grade of D

ARS 271 Introduction to Graphic Design 3 cr

An introduction to skills and techniques used in graphic design, problems in visual priorities, and use of selected materials. Restricted to Majors.

Prerequisite: ARS 122 Minimum Grade of D and ARS 123 Minimum Grade of D

ARS 272 Typography 3 cr

This class will examine typography as a visual communication tool.

Course must be completed or in progress to participate in the Sophomore Review. Restricted to majors.

Prerequisite: ARS 271 Minimum Grade of C and ARS 273 (may be taken concurrently) Minimum Grade of C

ARS 273 Graphic Design Foundations 3 cr

An introduction to skills and design principles used in graphic design, problems in visual priorities, and use of selected materials. Course must be completed or in progress to participate in the Sophomore Review. Restricted to Majors.

Prerequisite: ARS 122 Minimum Grade of D and ARS 123 Minimum Grade of D

ARS 281 Intro to Photography 3 cr

An introduction to the technical and aesthetic aspects of photography. Investigation of picture-making problems and control of photographic media. Involves the use of color transparency materials and an introduction to black and white processing enlarging. Students must have 35 mm single lens reflex cameras capable of being operated in the manual exposure mode.

ARS 290 Special Topics - 3-6 cr

A lower level studio, lecture, or seminar course treating a special medium, subject, or theme, as announced. This course may be repeated when the topic varies for a maximum of 6 credit hours.

ARS 301 2D Animation II 3 cr

This course will continue to develop skills in the use of traditional mediums as well as digital software to create storyboards and 2-dimensional animation including creating, importing and sequencing media elements. Emphasis will be on conceptualization, creativity, and visual aesthetics. This course takes the students through various aspects of animation using 2 dimensional software. Developing concepts, storyboarding and the production of several dimensional animations will be accomplished.

Prerequisite: ARS 201 Minimum Grade of C

ARS 302 3D animation II 3 cr

This course focuses on storytelling techniques through animation and the principles of animation. It will reinforce the fundamentals of scene navigation, modeling, cameras, and lighting. Students will become proficient in the use of 3D technology and how it is used for film and video game production.

Prerequisite: ARS 202 Minimum Grade of C

ARS 304 Digital Modeling 3 cr

This course introduces the concepts and techniques used in the creation of three dimensional form in a digital space. Emphasis will be on the practical use and creation of three dimensional models for animation and texturing. The course will also explore how formal choices impact meaning, and discuss contemporary artists who incorporate digital modeling into their work.

Prerequisite: ARS 122 Minimum Grade of C and ARS 124 Minimum Grade of C and ARS 200 Minimum Grade of C

ARS 311 Kiln Formed Glass 3 cr

The exploration of glass formed through a variety of kiln working methods including fusing, slumping, pate de verre, and casting.

ARS 312 Intermediate Glass Blowing 3-6 cr

A continuation of ARS 212 focusing on refinement of form and investigation of complex techniques in order to develop proficiency in glass blowing as a means to service individual creativity. The use of glass color is explored. A minimum of 3 additional hours of lab time outside of class time are required weekly.

Prerequisite: ARS 212 Minimum Grade of D and ARS 124 (may be taken concurrently) Minimum Grade of D

ARS 322 Figure Drawing II 3 cr

Further study of the human figure using various drawing (wet and dry) media.

Prerequisite: ARS 222 Minimum Grade of D

ARS 325 Conceptual Drawing II 3 cr

A continuation of ARS 225 with emphasis on concept driven work.

Prerequisite: ARS 225 Minimum Grade of D

ARS 331 Painting III 3-12 cr

A continuation of ARS 231 and 232 with emphasis on conceptual exploration in oil and/or water media paint. May be repeated for a maximum of 12 hours.

Prerequisite: ARS 231 (may be taken concurrently) Minimum Grade of D and ARS 232 (may be taken concurrently) Minimum Grade of D

ARS 341 Intermediate Ceramics 3-9 cr

A continuation of ARS 241 with emphasis on hand building or wheel techniques. May be repeated for a total of 9 semester hours credit.

Prerequisite: ARS 122 (may be taken concurrently) Minimum Grade of D and ARS 124 (may be taken concurrently) Minimum Grade of D and ARS 241 (may be taken concurrently) Minimum Grade of D

ARS 351 Intermediate Printmaking 3-12 cr

Further work in printmaking. Students may work in one or more of the following print media: Intaglio, lithography, relief, screen printing. Students must have taken the 200 level of the appropriate print media to move to intermediate level of that same media. The course may be repeated for a maximum of 9 semester hours.

Prerequisite: ARS 250 Minimum Grade of D or ARS 251 Minimum Grade of D or ARS 252 Minimum Grade of D or ARS 253 Minimum Grade of D

ARS 352 Relief/Woodcut 3 cr

Building on the relief techniques covered in ARS 255 Beginning Printmaking, this course will provide students with a deeper education in the materials, methods, and history of Relief/Woodcut printing. Students will gain knowledge of the print processes and issues through the development of a body of original work.

Prerequisite: ARS 155 Minimum Grade of C or ARS 255 Minimum Grade of C

ARS 353 Intaglio/Etching 3 cr

Building on the intaglio techniques covered in ARS 255 Beginning Printmaking, this course will provide students with an education in the materials, methods, and history of Intaglio/Etching. Students will gain knowledge of the print processes and issues through the development of a body of original art work.

Prerequisite: ARS 155 Minimum Grade of C or ARS 255 Minimum Grade of C

ARS 354 Screenprint/Serigraphy 3 cr

Building on the Screenprint/Serigraphy techniques covered in ARS 255 Beginning Printmaking, this course is an introductory course in water-based screen printing, designed to present the basic techniques and concepts of the medium as a fine art form.

Prerequisite: ARS 155 Minimum Grade of C or ARS 255 Minimum Grade of C

ARS 355 Lithography 3 cr

Building on the lithography techniques covered in ARS 255 Beginning Printmaking, this course will provide students with an intermediate education in the materials, methods, and history of lithography. Students will gain a knowledge of the print processes and issues through the development of a body of original art work.

Prerequisite: ARS 155 Minimum Grade of C or ARS 255 Minimum Grade of C

ARS 361 Sculpture III 3-6 cr

An introduction to direct carving processes with wood and stone. This course may be repeated for a total of 6 semester hours credit.

Prerequisite: ARS 262 (may be taken concurrently) Minimum Grade of D

ARS 362 Sculpture IV 3-6 cr

Advanced mold making techniques. This course may be repeated for a total of 6 semester hours credit.

Prerequisite: ARS 361 (may be taken concurrently) Minimum Grade of D

ARS 372 Graphic Design Production 3 cr

Design, typography, page layout, paper selection, pre-press techniques and the preparation of art for reproduction using both traditional and digital means. Prerequisites: Must have a C or above in ARS 272, ARS 273.

Prerequisite: ARS 272 Minimum Grade of C and ARS 273 Minimum Grade of C

ARS 373 Graphic Design Identity Systems 3 cr

An intermediate course developing design skills used in the production of printed materials for visual communications with an emphasis on logos, letterheads, brochures and posters.

Prerequisite: ARS 272 Minimum Grade of C and ARS 273 Minimum Grade of C

ARS 374 Publication Design 3 cr

An intermediate course developing design skills used in the production of printed materials for visual communications with an emphasis on newsletters, magazines, and newspaper graphics.

Prerequisite: ARS 272 Minimum Grade of C and ARS 273 Minimum Grade of C

ARS 375 Digital Graphic Design 3 cr

An advanced level course utilizing computers to produce graphic design work for printed and digital media.

Prerequisite: ARS 373 Minimum Grade of C and ARS 374 Minimum Grade of C

ARS 376 Illustration 3 cr

Conceptual approaches, materials and techniques used to solve problems in illustration, emphasizing developing rendering skills.

Prerequisite: (ARS 222 Minimum Grade of C or ARS 225 Minimum Grade of C) or (ARS 373 Minimum Grade of C or ARS 374 Minimum Grade of C)

ARS 381 Intermediate Photography I 3 cr

This course is designed to allow you to begin to communicate your own vision and artistic voice. This course is intended to take your technical skills to the next level, by reading, writing and thinking about photography.

Prerequisite: ARS 281 Minimum Grade of D

ARS 382 Intermediate Photography II 3 cr

The three main objectives of this course is to further your knowledge of the fine art photography, learn how to conceptualize ideas through the medium of photography, and to treat photography primarily as a creative medium for discussing personal, political, and social concerns. Since photography is tied to many technical processes, these concerns will also be acknowledged in this class.

Prerequisite: ARS 281 Minimum Grade of C and ARS 381 Minimum Grade of C

ARS 387 Digital Silver Photography 3 cr

This studio course examines the intersecting theories and practices of photography with digital cameras and computer imaging.

Prerequisite: ARS 382 Minimum Grade of D

ARS 390 Special Topics 3 cr

An upper level studio, lecture, or seminar course treating a special medium, subject, or theme, as announced.

ARS 396 Professional Practices - W 3 cr

This course prepares students for employment, graduate school, or a professional career in the visual arts. Restricted to majors.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

ARS 400 Topics in Animation 3 cr**ARS 404 Studies in Animation 3 cr**

Independent work in an approved Animation topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

Prerequisite: ARS 201 Minimum Grade of D and ARS 301 Minimum Grade of D

ARS 408 Pre-Thesis in Animation - W 3 cr

This course focuses on the creation of pre-production materials, concept art, storyboards, animatics, as well as research design documents and supplements, to be used in ARS 409 Senior Thesis in Animation course.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and (ARS 301 Minimum Grade of C or ARS 302 Minimum Grade of C)

ARS 409 Senior Thesis in Animation 3-6 cr

An Independent project of creative work in the area of Animation with the guidance of one to three faculty advisors. The student is required to work at least 9 hours a week in the studio. The thesis must be publicly exhibited. This course should be taken twice in consecutive semesters for a total of 6 credit hours.

Prerequisite: ARS 404 Minimum Grade of C

ARS 410 Topics in Glass 3 cr

An upper level Glass course treating a special subject or theme as announced. This course may be repeated when the topic varies for a maximum of 6 credit hours.

ARS 411 Advanced Kiln Formed Glass 3 cr

Advanced kiln forming requires investigation into conceptual and technical problems in glass. The student becomes increasingly self-directed through further exploration of fusing, slumping, of casting. The development of firing schedules is emphasized.

Prerequisite: ARS 311 Minimum Grade of D and ARS 123 (may be taken concurrently) Minimum Grade of D

ARS 412 Advanced Glassblowing 3 cr

Advanced techniques in hot glass will be explored for the development of refined sculpture and/or craft in glass. Course assignments will emphasize personal creativity and exploration. Instruction includes advanced finishing techniques and cold working techniques. A minimum of 3 additional weekly lab hours outside of class time are required.

Prerequisite: ARS 312 Minimum Grade of D and ARS 121 (may be taken concurrently) Minimum Grade of D

ARS 414 Studies in Glass 3 cr

Independent work in an approved Glass topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

ARS 418 Pre-Thesis in Glass 3 cr

Independent work in an approved Glass topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

Prerequisite: (ARS 212 Minimum Grade of C and ARS 312 Minimum Grade of C and ARS 412 (may be taken concurrently) Minimum Grade of C) or (ARS 311 Minimum Grade of C and ARS 411 (may be taken concurrently) Minimum Grade of C) or ARS 490 (may be taken concurrently) Minimum Grade of C

ARS 422 Figure Drawing III 3 cr

Individual problems with the human figure as subject, emphasizing concept, composition, and media.

Prerequisite: ARS 322 (may be taken concurrently) Minimum Grade of D

ARS 425 Conceptual Drawing III 3 cr

A continuation of ARS 325 with emphasis on exploration of personal concepts.

Prerequisite: ARS 325 (may be taken concurrently) Minimum Grade of D

ARS 426 Color Theory 3 cr

A studio course on the nature, theory and application of color in an aesthetic context.

Prerequisite: (ARS 222 Minimum Grade of D and ARS 225 Minimum Grade of D)

Cross-Listed: ARS 326

ARS 427 Advanced Color Theory 3 cr

A studio course continuing the study of the nature, theory and application of color in an aesthetic context.

Prerequisite: ARS 426 Minimum Grade of C

ARS 430 Topics in Painting 3 cr

An upper level Painting course treating a special subject or theme as announced. This course may be repeated when the topic varies for a maximum of 12 credit hours.

ARS 431 Painting IV 3-6 cr

This class is a continuation of ARS 331 with emphasis on personal development of conceptual approaches in oil paint and/or water media paintings. Students with Primary Concentrations in Painting will use this course to prepare for thesis. This course may be repeated for a total of 6 semester hours credit.

Prerequisite: ARS 331 (may be taken concurrently) Minimum Grade of D or ARS 332 Minimum Grade of D

ARS 434 Studies in Painting 3 cr

Independent work in an approved Painting topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

ARS 438 Pre-Thesis in Painting 3 cr

Independent creative production and preliminary work in an approved Painting topic under the direction of a studio faculty member.

Prerequisite: ARS 431 Minimum Grade of C

ARS 439 Senior Thesis in Painting 6 cr

An Independent project of creative work in the area of Painting with the guidance of one to three faculty advisors. The student is required to work at least 18 hours a week in the studio. The thesis must be publicly exhibited. This course may be repeated once for credit.

ARS 440 Topics in Ceramics 3 cr

An upper level Ceramics course treating a special subject or theme as announced. This course may be repeated when the topic varies for a maximum of 6 credit hours.

ARS 441 Advanced Ceramics 3-12 cr

A continuation of ARS 341 with emphasis on hand building or wheel processes. May be repeated for a total of 12 semester hours credit.

Prerequisite: ARS 341 (may be taken concurrently) Minimum Grade of D or ARS 342 Minimum Grade of D

ARS 444 Studies in Ceramics 3 cr

Independent work in an approved Ceramics topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

ARS 448 Pre-Thesis in Ceramics 3 cr

This course will focus on developing conceptual, technical and professional presentation skills in preparation for the capstone course, ARS 498 Senior Thesis in Ceramics.

Prerequisite: ARS 441 Minimum Grade of C

ARS 449 Senior Thesis in Ceramics 6 cr

An independent project of creative work in the area of the Primary Concentration or one or more Secondary Concentrations, with the guidance of one to three faculty advisors. The student is required to work at least 18 hours a week in the studio. The thesis must be publicly exhibited.

Prerequisite: ARS 448 Minimum Grade of C

ARS 450 Topics in Printmaking 3 cr**ARS 451 Advanced Printmaking 3-6 cr**

A continuation of ARS 351 with emphasis on each student's developing and refining an individual approach to creative work. For students with a Primary Concentration in Printmaking, this course is preparation for Thesis.

Prerequisite: ARS 351 (may be taken concurrently) Minimum Grade of D

ARS 454 Studies in Printmaking 3 cr

Independent work in an approved Printmaking topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

ARS 458 Pre-Thesis in Printmaking 3 cr

Independent creative production and preliminary work in an approved Printmaking topic in preparation for the capstone course.

Prerequisite: ARS 451 Minimum Grade of C

ARS 459 Senior Thesis in Printmaking 6 cr

An Independent project of creative work in the area of Printmaking with the guidance of one to three faculty advisors. The student is required to work at least 18 hours a week in the studio. The thesis must be publicly exhibited. This course may be repeated once for credit.

ARS 460 Topics in Sculpture 3 cr

An upper level Sculpture course treating a special subject or theme as announced. This course may be repeated when the topic varies for a maximum of 6 credit hours.

ARS 461 Sculpture V 3-6 cr

Experimental work with synthetic materials. This course may be repeated for a total of 6 semester hours credit. Requires permission of instructor.

Prerequisite: ARS 362 (may be taken concurrently) Minimum Grade of D

ARS 464 Studies in Sculpture 3 cr

Independent work in an approved Sculpture topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

ARS 468 Pre-Thesis in Sculpture 3 cr

This course focuses on the exploration and production of sculpture in materials such as metal, resin, clay, wood and concept to be taken prior to ARS 469 Senior Thesis in Sculpture. This course may be repeated for a maximum of 6 credit hours. \$200.00.

Prerequisite: ARS 362 Minimum Grade of C

ARS 469 Senior Thesis in Sculpture 6 cr

An independent project of creative work in the area of Sculpture with the guidance of one to three faculty advisors. The student is required to work at least 18 hours a week in the studio. The thesis must be publicly exhibited. This course may be repeated once for credit.

ARS 470 Topics in Graphic Design 3 cr

An upper level Graphic Design course treating a special subject or theme as announced. This course may be repeated when the topic varies for a maximum of 6 credit hours.

ARS 472 Senior Graphic Design 3 cr

An advanced workshop that addresses issues of visual communication using graphic design as a problem-solving tool.

Prerequisite: ARS 373 Minimum Grade of C and ARS 374 Minimum Grade of C

ARS 473 Web Design 3 cr

An introduction to interactive applications. This course provides instruction in innovative, artistic design and development of visual communication skills related to interactive applications.

Prerequisite: ARS 373 Minimum Grade of C

ARS 474 Studies in Graphic Design 3 cr

Independent work in an approved Graphic Design topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

ARS 479 Design Business Practices-W 3 cr

A study of the business principles of Graphic Design. Projects encourage both collaborative and independent study. Students explore design as a commercial art and develop the skills to coordinate projects through all phases of a professional, business relationship.

Prerequisite: ARS 373 Minimum Grade of C and ARS 374 Minimum Grade of C and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

ARS 480 Topics in Photography 3 cr

An upper level Photography course treating a special subject or theme as announced. This course may be repeated when the topic varies for a maximum of 6 credit hours.

ARS 481 Advanced Photography 3 cr

This course will strive to help further develop each student's artistic strength in their use of the photographic medium. Each student will be required to write a statement explaining the body of work that they will create and what particular processes they might be interested in exploring.

Prerequisite: ARS 281 Minimum Grade of C and ARS 381 Minimum Grade of C and ARS 382 Minimum Grade of C

ARS 483 Color Photography 3 cr

This is an introduction to color photography. The goals are to become familiar with all aspects of color photography including film selection, processing, printing, theory, and criticism.

Prerequisite: ARS 281 Minimum Grade of D and ARS 381 Minimum Grade of D and ARS 382 Minimum Grade of D

ARS 484 Studies in Photography 3 cr

Independent work in an approved Photography topic under the direction of a studio faculty member. This course may be repeated for a maximum of 6 credit hours.

ARS 485 Alternative Photo Processes 3 cr

This is an advanced studio art course designed for students with a background in photography (primarily black and white) who want to expand their image making vocabulary through the use of early photographic techniques.

Prerequisite: ARS 481 Minimum Grade of D

ARS 486 Pre-Thesis in Photography 3 cr

This course is designed for students to communicate their own artistic vision by creating one large body of work. Students will be required to write a statement explaining the body of work that they wish to create and what particular processes they might be interested in exploring. This course is designed to prepare students for senior thesis and to help individuals think independently as artists, to formulate ideas based on aspects of their work, interests, and passions.

Prerequisite: ARS 481 Minimum Grade of C

ARS 487 Photo Bookmaking 3 cr

This class will focus on the design and construction of artist books. We will explore structure and form and how they support and influence the content of a book.

Prerequisite: ARS 481 Minimum Grade of D

ARS 488 Graphic Design Thesis 3 cr

A self-directed creative project in the area of graphic design with the guidance of a faculty member. Evaluation of the project is by faculty committee.

Prerequisite: ARS 472 Minimum Grade of C and ARS 479 Minimum Grade of C

ARS 489 Senior Thesis in Photography 6 cr

An independent project of creative work in the area of Photography with the guidance of one to three faculty advisors. The student is required to work at least 18 hours a week in the studio. The thesis must be publicly exhibited. This course may be repeated once for credit.

ARS 490 Special Topics 1-12 cr

An advanced studio, lecture, or seminar course treating a special medium, subject, or theme, as announced. This course may be repeated for a maximum of twelve (12) credit hours. Requires junior standing and permission of the instructor.

ARS 494 Directed Studies 3-6 cr

Independent work in an approved studio medium or topic under the direction of a studio faculty member.

ARS 496 Professional Studies Internship 3 cr

Students intern in a specialized area of interest. Written report required.

ARS 497 Senior Thesis in Glass 6 cr

An independent project of creative work in the area of the Glass Concentration, with the guidance of one to three faculty advisors. The student is required to work at least 18 hours a week in the studio. The thesis must be publicly exhibited.

ARS 498 Senior Thesis 6 cr

An independent project of creative work in the area of the Primary Concentration or one or more Secondary Concentrations, with the guidance of one to three faculty advisors. The student is required to work at least 18 hours a week in the studio. The thesis must be publicly exhibited. This course may be repeated once for credit.

ARS 499 Honors Senior Thesis - H 3 cr

Honors student, the first semester, will identify and carry out independent scholarly research on a topic with the guidance of a faculty mentor. The second semester, students will produce a body of work that incorporates and exemplifies the ideas explored in the research paper. The project will be concluded with a formal presentation to the Visual Arts faculty. The Honors Project will be graded by a three-member faculty committee, chaired by the mentor. This course is to be taken as two, sequential, three-credit course units.

Prerequisite: HON 301 Minimum Grade of D

ARS 500 Graduate Animation 3 cr

Intensive course structured as an exploration of the practice and production of animation. May be repeated for a total of 36 credit hours.

ARS 504 Digital Modeling 3 cr

This course introduces the concepts and techniques used in the creation of three dimensional form in a digital space. Emphasis will be on the practical use and creation of three dimensional models for animation and texturing. The course will also explore how formal choices impact meaning, and discuss contemporary artists who incorporate digital modeling into their work.

ARS 510 Graduate Glass 3 cr

Intensive investigation of visual, expressive or technical problems in glass. May be repeated for a total of 18 credit hours. Pre-requisite: bachelor's degree in art or art education.

Prerequisite: ARS 411 Minimum Grade of C and ARS 412 Minimum Grade of C

ARS 520 Graduate Drawing 3-9 cr

Intensive course in drawing as both a set of skills and as a creative medium of expression. May be repeated for a total of 36 credit hours. Pre-requisites: complete either appropriate pre-requisites or bachelor's degree in art or art education.

Prerequisite: ARS 422 (may be taken concurrently) Minimum Grade of C or ARS 425 (may be taken concurrently) Minimum Grade of C

ARS 526 Graduate Color Theory 3 cr

A studio course continuing a study of the nature, theory and application of color in an aesthetic context.

Prerequisite: ARS 326 Minimum Grade of C

ARS 530 Graduate Painting 3-9 cr

Intensive course in painting with traditional or contemporary media, subjects and concepts. May be repeated for a total of 36 credit hours. Pre-requisites: complete either appropriate pre-requisites or bachelor's degree in art or art education. Fee

Prerequisite: ARS 431 (may be taken concurrently) Minimum Grade of C

ARS 540 Graduate Ceramics 3-9 cr

A study of clay as a creative medium of expression. Problems of form, volume, space, texture, decoration, and function will be investigated in their relation to selected ceramics processes and building techniques. May be repeated for a total of 36 semester hours. Pre-requisites: complete either appropriate pre-requisites or bachelor's degree in art or art education.

Prerequisite: ARS 441 (may be taken concurrently) Minimum Grade of C

ARS 550 Graduate Printmaking 3-9 cr

Intensive investigation of visual, expressive or technical problems in one or more printmaking media. This course may be repeated for a total of 36 hours credit. Pre-requisites: complete either appropriate pre-requisites or bachelor's degree in art or art education.

Prerequisite: ARS 451 (may be taken concurrently) Minimum Grade of C

ARS 551 Photomechanical Technologies 3 cr

This course will provide students with an education in the materials, methods, history, contemporary technologies of photomechanical processes. Students will gain a knowledge of photographic print processes and issues through the development of a body of original work. Through critiques students will be expected to develop a familiarity with techniques and materials. Concurrent enrollment in ARS 591. Lab fee.

Cross-Listed: ARS 591

ARS 552 Artist Book Seminar 3 cr

This course will provide students with an education in the materials, methods, and contemporary strategies for artist books. Students will gain knowledge of several artist book strategies and forms through the development of a body of original work. Through critiques students will be expected to develop a familiarity with techniques and materials. Concurrent enrollment in ARS 591. Lab fee.

Cross-Listed: ARS 591

ARS 560 Graduate Sculpture 3-9 cr

Intensive investigation of problem of mass, volume, form, and space using one or more sculptural media. This course may be repeated for a total of 36 hours credit. Pre-requisites: complete either appropriate pre-requisites or bachelor's degree in art or art education.

Prerequisite: ARS 461 (may be taken concurrently) Minimum Grade of C

ARS 570 Graduate Graphic Design 3 cr

An intensive workshop that investigates advanced issues of visual communication using graphic design as both a problem-solving tool and as a medium for creative expression and communication. Emphasis on trending technology and/or professional practice. May be repeated for a total of 36 credit hours.

Prerequisite: ARS 488 Minimum Grade of B

ARS 571 Advanced Typography and Layout 3-6 cr

Intensive workshop that investigates and explores advanced typography and layout and/or format techniques both in digital and analog forms. Issues of visual communication using graphic design as both a problem-solving tool and a medium for creative expression and communication will also be investigated and explored. Emphasis on trending technology, research methods, and professional practice. May be repeated for a total of 6 credits hours.

Prerequisite: ARS 488 Minimum Grade of B

ARS 572 Divergent Thinking Research 3-6 cr

Introduction to the fundamental and varied methodologies of research, theories of design and human behavior, and discipline-related history in order to work with a variety of design products and users. Emphasis will be placed on application of research findings to the creative process, design, and visual solutions. May be repeated for a total of 6 credit hours.

Prerequisite: ARS 488 Minimum Grade of B

ARS 576 Build Your online & Social Media Brand 3-6 cr

An intensive workshop that investigates advanced uses and techniques for growing an audience through social media and online content marketing using visual communication, graphic design, and copy writing techniques. Emphasis on trending technology and/or professional practice as a medium for creative expression and communication.

This graduate course focuses on growing an audience online with an emphasis on personal branding, social media branding and marketing, and content marketing on your website and social media channels. May be repeated for a total of 6 credit hours.

Prerequisite: ARS 488 Minimum Grade of B

ARS 580 Graduate Photography 3 cr

Emphasizing theory, concept, and critical thinking, while expanding knowledge of the photographic medium. May be repeated for a total of 18 credit hours. Prerequisite: ARS 387 Minimum Grade of D or ARS 481 Minimum Grade of a D or bachelor's degree in art or education.

Prerequisite: ARS 387 Minimum Grade of C or ARS 481 Minimum Grade of C

ARS 590 Special Topics - 3-9 cr

A graduate course treating a special medium, subject, or theme, as announced. This course may be repeated twice when the content varies, for a maximum of 9 credit hours.

ARS 591 Graduate Seminar 3 cr

A detailed examination of selected topics in art. Topics announced prior to registration. This course includes scholarly research, writing, and creative work. May be repeated up to five times for a total of 18 credit hours when course content changes. Prerequisite: Graduate standing in the Visual Art Department.

ARS 592 Graduate Thesis 1-3 cr

An independent project of creative work, with the guidance of a faculty committee. The thesis must be an original project/production and have a visual component. May be repeated for a total of 6 credit hours. Prerequisite: Must have completed or be concurrently enrolled in 9 hours of graduate courses.

SKIADAS, MARGARET (skiadas@southalabama.edu)	Art and Art History	Assistant Professor	BFA, College of Santa Fe MFA, University of Colorado-Boulder
WRIGHT, ROGER ANTHONY (rwright@southalabama.edu)	Art and Art History	Professor	BFA, Moorhead State University MFA, Southern Illinois U-Carbondale

Art History Minor Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Art History

Code	Title	Hours
Twenty-one hours minimum of Art History:		
ARH Upper Division (300/400) Electives		6
ARH Electives, any level		15
Total Hours		21

Additional Information

Six hours must be in courses 300 or higher taken at this university.

ARH 100 - Survey of Art may not count toward the minor in Art History..

Studio Art (BFA) - Animation Concentration

D. Select one of the following:		3
ARS 322	Figure Drawing II	
ARS 325	Conceptual Drawing II	
ARS 422	Figure Drawing III	
ARS 425	Conceptual Drawing III	
ARS 426	Color Theory	
Animation Concentration		33
A. Complete the following:		
ARS 200	Intro to Animation	3
ARS 201	Two Dimensional Animation I	3
ARS 202	Three Dimensional Animation I	3
ARS 204	Experimental Animation	3
ARS 301	2D Animation II	3
ARS 302	3D animation II	3
ARS 304	Digital Modeling	3
B. Complete the following:		
ARS 408	Pre-Thesis in Animation - W	3
C. Complete the following:		
ARS 409	Senior Thesis in Animation	6
D. Complete the following:		
ARS 396	Professional Practices - W	3
Secondary Concentration Requirement		15

A secondary concentration is required for this program.

The secondary concentration is fifteen hours in a studio area different from the student's primary concentration for the BFA in Studio Art. Secondary concentrations are available in Ceramics, Glass, Painting, Photography, Printmaking, Sculpture and Interdisciplinary. Interdisciplinary Secondary concentration consists of 9 credits in one area and 6 credits in any combination of the other.

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Additional Information Requirements for a Double Primary Concentration

In lieu of a secondary concentration, students may complete a second primary concentration. This will require course work in excess of the 121 hours minimum required for the B.F.A. and may delay time to graduation. To complete a Double Primary Concentration, students must complete Primary Concentration requirements in two separate areas including Senior Thesis or Senior Portfolio where applicable.

Requirements for an Optional Minor

In addition to the completion of the Studio Art B.F.A. primary and secondary concentration requirements, students have the option to complete a minor in a discipline outside the department. The addition of a minor will require course work in excess of the 120 hours minimum required for the B.F.A. and may delay time to graduation.

Secondary Concentration Requirement **15**

A secondary concentration is required for this program.

The secondary concentration is fifteen hours in a studio area different from the student's primary concentration for the BFA in Studio Art. Secondary concentrations are available in Ceramics, Glass, Painting, Photography, Printmaking, Sculpture and Interdisciplinary. Interdisciplinary Secondary concentration consists of 9 credits in one area and 6 credits in any combination of the other.

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE **120**

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Notes:

Students may prefer to take either glass blowing or kiln formed classes. It is recommended that students take at least one kiln formed class (ARS 311) and one glass blowing class (ARS 212), before committing to a specific direction.

Additional Information

Requirements for a Double Primary Concentration

In lieu of a secondary concentration, students may complete a second primary concentration. This will require course work in excess of the 121 hours minimum required for the B.F.A. and may delay time to graduation. To complete a Double Primary Concentration, students must complete Primary Concentration requirements in two separate areas including Senior Thesis or Senior Portfolio where applicable.

Requirements for an Optional Minor

In addition to the completion of the Studio Art B.F.A. primary and secondary concentration requirements, students have the option to complete a minor in a discipline outside the department. The addition of a minor will require course work in excess of the 121 hours minimum required for the B.F.A. and may delay time to graduation.

A secondary concentration is required for this program.

The secondary concentration is fifteen hours in a studio area different from the student's primary concentration for the BFA in Studio Art. Secondary concentrations are available in Ceramics, Glass, Painting, Photography, Printmaking, Sculpture and Interdisciplinary. Interdisciplinary Secondary concentration consists of 9 credits in one area and 6 credits in any combination of the other.

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Notes:

Graphic Design Sophomore Review:

Once a year, students who wish to pursue a degree in graphic design at the University of South Alabama apply for admission to the BFA program in graphic design after completing ARS 271, ARS 273, and have completed or be taking ARS 272. For more information on the Review please contact art@southalabama.edu for specific dates and requirements.

Additional Information

Requirements for a Double Primary Concentration

In lieu of a secondary concentration, students may complete a second primary concentration. This will require course work in excess of the 121 hours minimum required for the B.F.A. and may delay time to graduation.

To complete a Double Primary Concentration, students must complete Primary Concentration requirements in two separate areas including Senior Thesis or Senior Portfolio where applicable.

Requirements for an Optional Minor

In addition to the completion of the Studio Art B.F.A. primary and secondary concentration requirements, students have the option to complete a minor in a discipline outside the department. The addition of a minor will require course work in excess of the 120 hours minimum required for the B.F.A. and may delay time to graduation.

		6

Minor Requirements

A minor is required for this degree program	18-24
A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE	120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Notes:

Seminar and Special Topics courses may be used to satisfy Art History Concentration area requirements.

Language Requirements in Art History

While the department does not require language training beyond the General Education requirement (6 hours), we strongly encourage art history majors, particularly those planning graduate study, to pursue foreign languages beyond what is required by the College. French and German are the preferred languages because they are required by most M.A. and Ph.D. programs in art history.

The B.A. program requires completion of the general education requirements in the College of Arts and Sciences, requirements for a minor, and enough elective courses for credit hours to total 120. At least 30 hours of courses numbered 300 or higher must be taken at this University, including a minimum of 15 hours of upper-division art courses. A minimum of 39 hours in art history and studio courses is required. All students must complete the core requirements and those listed under one of two concentrations, art history or art studio.

Visual Art (MFA) - Creative Technologies and Practice Degree Requirements

Master of Fine Arts in Creative Technologies and Practice (M.F.A.) Program

The Master of Fine Arts program in Creative Technologies and Practice at the University of South Alabama is a cross-disciplinary program appealing to creatives who are interested in a variety of media technologies. The program emphasizes interdisciplinary practice that spans multiple concentrations within the visual arts with technology serving to inform or facilitate the creative process.

The MFA in Creative Technologies and Practice will equip individuals to enter the workforce in a variety of creative technology areas, particularly to manage creative teams, to pursue careers as visual artists, to advance knowledge in the field through research or creative output, and to teach at the university level.

The MFA in Creative Technologies and Practice will equip individuals to enter the workforce in various creative technology areas, particularly to manage creative teams, pursue careers as visual artists, advance knowledge in the field through research or creative output, and teach at the university level.

The requirements and procedures that follow are specifically for the Department of Visual Arts. However, the general rules and policies of the Graduate School also apply.

Minimum Requirements for Regular Admission

Students may be admitted for Fall or Spring enrollment. Although applications for admission and assistantships are accepted throughout the year, applicants who want to be considered for the assistantships need to have their application submitted by February 15.

Fall admission applications are reviewed from February 15 through July 15. The graduate admissions committee will make initial recommendations about applicants for Fall enrollment, with formal letters sent to applicants by the end of April. Applicants seeking enrollment in the Spring must have their application submitted by November 20 of the preceding Fall semester. Depending on the availability of space and funding, applications may be approved and students admitted throughout the year. In addition to the general admissions requirements of the Graduate School, requirements for admission to the M.F.A. Creative Technologies program are:

1. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In

exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.

2. Official Transcript(s) from other institutions and sessions/programs/workshops the student has attended.
3. Artist's statement of no more than 500 words.
4. Letter of intent of no more than 500 words.
5. Resumé or Curriculum Vitae
6. Three letters of recommendation.
7. A portfolio of 20 pieces that shows proficiency of media in which the student wishes to dedicate further study. If the student is focusing on video, film, or animation we require portfolio equivalents of five pieces that are three to five minutes in length.

To apply please go to this link and upload all materials through the online system. If you have any questions please email me at gradart@southalabama.edu.

For applicants for whom English is a second language, the students must have a working proficiency of the English language and submit:

- Minimum TOEFL IBT score of at least 71 **or**
- Minimum IELTS score of at least 6 (Paper-based score of 525, computer-based score of 197) **or**
- Minimum iTEP score of 3.7 **or**
- Minimum PTE Academic score of 48

Note: ESL applicants must apply through the International Admissions Office at USA. Some programs may require higher scores to prove English proficiency. Applicants who hold a bachelor's degree from an accredited U.S. institution are not required to submit TOEFL results.

Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.

Graduate Assistantships

The Department of Visual Arts offers assistantships to M.F.A. students annually on a competitive basis. Assistantships include a stipend, a tuition fellowship, and waiver of out-of-state fees. The deadline for Graduate Assistantships is February 15. Applications for admissions are taken continuously. See Graduate Coordinator for information and application. (See also Bulletin section on Graduate School, "Assistantships and Fellowships.") Students awarded assistantships must complete all semesters of study in residence at the University of South Alabama. More information about assistantships is available from the:

Office of the Dean of the Graduate School
Mobile Townhouse 222
University of South Alabama
Mobile, AL 36688-0002

Degree Requirements

The Master of Fine Arts in Creative Technologies and Practice degree is awarded in recognition of the student's demonstrated ability to create original, creative research at the highest levels without extensive supervision. The degree is not granted solely upon completion of a stated amount of course work, but rather after the student demonstrates and

defends a body of work or presentation of a major project in a public exhibition.

General Required Credit

A minimum of 60 semester hours of approved graduate credit is required. Details about the curriculum are given below.

Transfer Credit

Graduate courses taken at another accredited university, such as for students with MA degrees in the same (or a closely related) subject as that of the M.F.A. program, may be considered in the M.F.A. plan of study up to a maximum of 12 semester hours. Only grades of "A" or "B" may be accepted as transfer credit. The graduate coordinator, in consultation with the Chair, and if necessary, the advisory committee, will evaluate transfer credit; the transfer credit is approved by the Dean of the Graduate School only after completion of a minimum of nine semester hours of graduate course work in the masters program at USA.

Residency Requirements

A minimum of four semesters of study in residence is required. The residency requirement must be met at USA.

The final two semesters of study may be completed as low residency. The low residency requirement obligates each student to visit the USA main campus two to three times during each semester of low residency.

If a student plans on completing his/her final two semesters in residency elsewhere the student must meet the following by February 1 of his/her second year:

No one with an assistantship will be able to apply for the final year to be held in low residency.

1. The student must have internet access and a computer or phone on which to video chat weekly with primary thesis advisor, having virtual studio tours.
2. The student must provide proof of access to a facility where they can create and obtain suitable studio space in which to work.
3. The student must have the ability to transport the work to the University of South Alabama main campus.
4. The student's thesis show must be on the University of South Alabama main campus.
5. The student must have the ability to travel during the weeks specified for both semesters.
6. The student must be on campus for a thesis review during the first full week of classes during the Fall Semester and once again during the last week of October or the first full week of November. In the Spring Semester the student must be on campus three times: once during the first full week of class, the second time will be the week before spring break, and the third time will be at the end of the semester to hang and present his/her thesis show.
7. The student must be available per the faculty's schedule.

Time Limit

Failure to complete the work within the periods specified shall necessitate reevaluation of the student's program and may result in a recommendation for dismissal by the Director of Graduate Studies to the Graduate Dean.

All requirements for the M.F.A. degree must be completed within seven years from the date of matriculation. A student who has not satisfactorily completed a thesis in a seven-year period must apply for a defined

extension to complete the degree based on a personal hardship. This request must be recommended by the major professor, the Chair of the Department, the Director of Graduate Studies, and approved by the Dean of the Graduate School. If the extension is not approved, the student will be dismissed.

If the student does not complete the degree requirements in any defined extension period, the Director of the Graduate Program may recommend and the Dean of the Graduate School may take whatever action is necessary up to and including dismissal.

Course Requirements

All students must have fifteen credits of art history including Contemporary Art History at time of graduation, but students may exempt the requirement using undergraduate courses.

Each student must have at least 18 semester hours of Graduate Seminar (ARS 591), 36 hours in directed research, (ARS 500-ARS 590, ARH 590, or approved Graduate Coursework outside of the Department), and at least 6 hours in thesis development (ARS 592).

Total Hours		60

Footnote

¹ ARS 500-590 or ARH 590

Defense of Thesis

The final oral defense of the thesis is scheduled after the public exhibition and submission of written component is completed except for such revisions as may be necessary as a result of the defense.

Biology

Department Information

Department of Biology website
<https://www.southalabama.edu/biology> (<https://www.southalabama.edu/biology/>)

Undergraduate Studies

The program of the Department of Biology is designed to contribute to a scientific background as part of a liberal education. The department offers a diversified, broadly based program, which can be designed to satisfy many areas of study. Our multitrack major can provide the traditional student with a well-rounded background in biology, or students may select courses to prepare them for a particular area of study. The multitrack curriculum can prepare students for graduate study, pre-health professional fields (such as medicine or dentistry), marine biology, or environmental science. The department has persons trained to advise in

each of these areas. A list of advisors for a specific track or area of study can be obtained from the departmental office.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students, who must enroll in the fall semester following entry.

Effective for fall, 2016, Major Milestones are used in all concentrations of the Biology Bachelor of Science major to help students stay on track for timely graduation. Each regular semester in the Biology major is a tracking term. To remain on track, students must complete the milestone requirements for each tracking term. These requirements are viewable on the Major Milestone tab above.

Major milestone requirements apply only to full-time, degree-seeking students who first entered Fall 2016 or later. Milestone requirements do not apply to transfer students in the Biology program.

The sample academic plan viewable on the Major Milestone tab above is designed to ensure graduation in the Biology major in four years. Several academic plans are available – consult with your academic advisor for the plan that is the best fit for you. For specific course requirements, refer to the program requirements above and the General Education requirements of the College of Arts and Sciences.

Courses

BLY 101 Life Science I 3 cr

The first of a two-semester sequence designed for the non-major. The basic principles of biological phenomena are emphasized by examples relating to the human. Cell structure and function, energy and organ systems are studied. Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102 BLY 102L) and the major/minor sequence (BLY 121, BLY 121L and BLY 122, BLY 122L).

Corequisite: BLY 101L

BLY 101L Life Science I Laboratory 1 cr

Laboratory exercises associated with BLY 101. Together, BLY 101 and BLY 101L count as one laboratory science course, partially fulfilling general education requirements. Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102 BLY 102L) and the major/minor sequence (BLY 121, BLY 121L and BLY 122, BLY 122L).

Prerequisite: BLY 101 (may be taken concurrently) Minimum Grade of D

BLY 102 Life Science II 3 cr

A continuation of BLY 101. Organ systems, cell reproduction, plant and animal development, heredity, evolution, and ecology area studied. Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102 BLY 102L) and the major/minor sequence (BLY 121, BLY 121L and BLY 122, BLY 122L).

Prerequisite: BLY 101 (may be taken concurrently) Minimum Grade of D

BLY 102L Life Science II Lab 1 cr

Laboratory exercises associated with BLY 102. Together, BLY 102 and 102L count as one laboratory science course, partially fulfilling general education requirements. Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102 BLY 102L) and the major/minor sequence (BLY 121, BLY 121L and BLY 122, BLY 122L).

Prerequisite: BLY 101 (may be taken concurrently) Minimum Grade of D and BLY 102 (may be taken concurrently) Minimum Grade of D

BLY 121 General Biology I 3 cr

A study of general biological principles, including the chemical basis of life; cellular biology, including cell structure and metabolism, genetics, microevolution; and a survey of simple organisms, including bacteria, protists and fungi. Core Course. Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102 BLY 102L) and the major/minor sequence (BLY 121, BLY 121L and BLY 122, BLY 122L).

Prerequisite: ACT Math 22 or SAT Mathematics 540 or MATH SECTION SCORE 565 or CH 100 Minimum Grade of D or CH 131 (may be taken concurrently) Minimum Grade of D or BLY 101 Minimum Grade of C or MA 112 (may be taken concurrently) Minimum Grade of D

Corequisite: BLY 121L

BLY 121L General Biology I Lab 1 cr

Laboratory exercises associated with BLY 121. Together, BLY 121 and BLY 121L count as one laboratory science course, partially fulfilling general education requirements. Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102 BLY 102L) and the major/minor sequence (BLY 121, BLY 121L and BLY 122, BLY 122L). Fee.

Prerequisite: (SAT Mathematics 540 or ACT Math 22 or CH 100 Minimum Grade of D or CH 131 (may be taken concurrently) Minimum Grade of D or BLY 101 Minimum Grade of C or MA 112 (may be taken concurrently) Minimum Grade of D)

Corequisite: BLY 121

BLY 122 General Biology II 3 cr

A study of plants, major invertebrate phyla, vertebrate morphology, plant and animal physiology, animal behavior, macroevolution and ecology. Core course. Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102 BLY 102L) and the major/minor sequence (BLY 121, BLY 121L and BLY 122, BLY 122L).

Prerequisite: BLY 121 Minimum Grade of D

Corequisite: BLY 122L

BLY 122L General Biology II Laboratory 1 cr

Laboratory exercises associated with BLY 122. Together, BLY 122 and 122L count as one laboratory science course, partially fulfilling general education requirements. Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102 BLY 102L) and the major/minor sequence (BLY 121, BLY 121L and BLY 122, BLY 122L). Fee.

Prerequisite: BLY 121 Minimum Grade of D

Corequisite: BLY 122

BLY 134 Ocean Science 3 cr

An introduction to physical, chemical, and biological oceanography.

BLY 134L Ocean Science Lab 1 cr

Lab experiences associated with BLY 134.

Prerequisite: BLY 134 (may be taken concurrently) Minimum Grade of D

BLY 205 Intro Environmental Sci 4 cr

Environmental science, including the fundamentals required to understand how ecosystems work, how environmental modifications affect ecosystems and living things, and how living things affect their environment. Topics to be emphasized include the effects of pollution, habitat modification and other environmental changes, on ecosystems, plants, wildlife, man, outdoor recreation and the future. Public health and medical effects will also be considered. Many topics covered are of special significance to this region: wetlands, the effects of dredging and filling, artificial lake construction, development, agricultural and forestry practices on ecosystems, plants and animals. Requires college biology, or permission of instructor. The course includes lecture and a lab component.

BLY 207 Biology of Aging 3 cr

A descriptive review of processes of aging. Emphasis is placed on studying structural and functional changes that could occur with increase in chronological age. Usually taught in the fall, spring and summer terms.

Prerequisite: BLY 101 Minimum Grade of D

BLY 213 Microbiology 3 cr

A survey of bacteria, fungi, protozoa and viruses with emphasis on host-microbe interactions, immune responses, and control mechanisms.

Prerequisite: BLY 101 Minimum Grade of D or BLY 121 Minimum Grade of D

Cross-Listed: BMD 210

BLY 214 Lab Studies Microbiology 1 cr

A series of laboratory experiments designed to provide practical experiments in basic microbial techniques.

Prerequisite: (BLY 213 (may be taken concurrently) Minimum Grade of D or BMD 210 Minimum Grade of D)

BLY 300 Ecology 3 cr

Introduction to general concepts of ecology. Major topics will include population growth dynamics, community structure and interactions, ecosystem structure and function, and principles of biodiversity and biogeography. Theoretical and practical issues will be addressed. Core course.

Prerequisite: (MA 112 Minimum Grade of D and CH 131 Minimum Grade of D and BLY 121 Minimum Grade of C and BLY 122 Minimum Grade of C)

BLY 301 Cell Biology 3 cr

A course designed to integrate cell structure and function: the study of the ultrastructure, organization, physiology, genetics, and other functions of the cell. Core course.

Prerequisite: (BLY 121 Minimum Grade of C and BLY 122 Minimum Grade of C and CH 131 Minimum Grade of D) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

BLY 302 Genetics 3 cr

An introduction to both classical and modern genetic concepts and theory, with an emphasis on problem-solving. Topics covered include Mendelian genetics, molecular genetics, and evolutionary genetics. Core course.

Prerequisite: BLY 121 Minimum Grade of C and BLY 122 Minimum Grade of C and CH 131 Minimum Grade of D and BLY 121L Minimum Grade of C and BLY 122L Minimum Grade of C

BLY 304 Exp. Designs in Biology 3 cr

Experimental designs in Biology is intended to provide students with basic skills of experimental design and statistical methodology needed in modern biological research. Additionally, students will learn basic statistical software (e.g., Minitab, Ecosim, Resampling Procedures). The use of statistical software will be fully integrated with lecture material to provide a 'holistic' learning experience. Having completed this course, students will have gained a basic foundation in quantitative procedures for analyzing and interpreting biological data. This course requires each student to have a lap-top computer and a copy of Minitab Student v 14, which is provided with the required text.

Prerequisite: BLY 121 Minimum Grade of C and BLY 122 Minimum Grade of C and MA 112 Minimum Grade of C

BLY 305 Introduction to Evolution 3 cr

Introduction to general concepts of evolution. Major topics will include natural selection, genetic drift, quantitative genetics, phylogenetics, speciation, human evolution, and evolutionary medicine. Theoretical and practical issues will be addressed. Core course.

Prerequisite: (MA 112 Minimum Grade of D or CH 131 Minimum Grade of D) and (BLY 121 Minimum Grade of C and BLY 122 Minimum Grade of C)

BLY 310 Economic Botany 3 cr

This course includes the study of plants in their form and structure by connecting them to their use by humans. Topics include plant anatomy and nomenclature; history of plant use; origins of economically important plants; use of flowers, fruits, stems and leaves for food and other purposes.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 314 Molecular Microbiology - W 4 cr

Study of procaryotic and eucaryotic microorganisms and their relationship to their environment. Molecular, genetic and biochemical aspects of each will be emphasized.

Prerequisite: EH 102 Minimum Grade of C and CH 131 Minimum Grade of C and BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 321 Genetics of Development 3 cr

An in-depth laboratory experience to determine the genetic regulation involved in organ development using the *C. elegans* model system. The research experience gained in this laboratory class is designed to generate novel results to ultimately be shared with the larger scientific community. Emphasis will be place on mastering experimental design and data analysis. Students will work together in laboratory groups to carry out experiments, to discuss progress and conclusions, and review the primary literature relating to the project.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 332 Biology of Algae 4 cr

A survey of non-vascular plants: algae, fungi, liverworts, and mosses, with emphasis on morphology and taxonomy.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 333 Biomedical Ethics - W 3 cr

Ethical analyses of problems and issues in the biomedical and health-related fields. Topics may include genetic research and technology, abortion, health care, experimentation, and death and dying.

Prerequisite: EH 102 Minimum Grade of C or EH 105 Minimum Grade of C

Cross-Listed: PHL 333

BLY 342 Experimental Cell Biology-W 2 cr

Laboratory experience with instrumentation and techniques utilized in modern cell biology research including organellar isolation, enzyme assay, protein analysis, and microscope techniques. Students develop and conduct group projects.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 350 Human Physiology 3 cr

The function and regulation of the organ systems of the body and physiological integration of the systems to maintain homeostasis.

Course content will include neural and hormonal homeostatic control mechanisms, and study of the musculoskeletal, circulatory, respiratory, digestive, urinary, immune, reproductive, and endocrine systems.

Prerequisite: (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C) and CH 115 Minimum Grade of C or (CH 131 Minimum Grade of C and CH 131L Minimum Grade of C) and (BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and BLY 121L Minimum Grade of C and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and BLY 122L Minimum Grade of C

BLY 354 General Entomology 4 cr

Classification and habits of insects, including collection, preservation, and identification of those occurring in south Alabama.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 360 Invertebrate Zoology 4 cr

Detailed study of the invertebrate phyla, taxonomy, ecology and phylogenetic relationship. Terrestrial, fresh-water, and marine forms are studied.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 365 Comp Vertebrate Anatomy 5 cr

Anatomy and evolution of the organ systems of the major vertebrate groups. Laboratory includes dissections of dogfish, sharks, and cats. Category C (usually taught in the fall term).

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D)

BLY 367 Marine Biology 4 cr

A general survey of marine plants, invertebrates and vertebrates, the communities they form and the physical and chemical factors that influence them. Field trips include marsh, seagrass, and dune habitats. Sampling from research vessels and laboratory exercises will serve to introduce students to the diversity of marine habitats and organisms. Organisms will be identified using dichotomous keys. Participation in overnight field trips is a part of this course. Snorkeling gear is required.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C) and (CH 115 Minimum Grade of D or CH 131 Minimum Grade of D) and (CH 116 Minimum Grade of D or CH 132 Minimum Grade of D)

BLY 368 Dolphins and Whales 2 cr

Classification, anatomy, and ecology of cetaceans and manatees. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 369 Bly/Conserv Marine Turtles 2 cr

Introductory course providing an overview of the biology and conservation of marine turtles. The course will culminate with a multi-day field trip to sea turtle nesting beaches and foraging grounds in the southeastern U.S. Class also will visit sea turtle research and rehabilitation facilities. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term. Special fees apply and will be posted on the website: www.disl.org

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 370 Marine Aquaculture 2 cr

Techniques and issues involved with the commercial culture of marine organisms including nutrition, reproductive biology, production, water quality, processing, marketing, and economics. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 371 Shark and Ray Biology 2 cr

This course will provide an introduction to the biology of sharks and rays, with special emphasis on regional shark fauna and field techniques. Lectures will be supplemented with discussions of papers from the primary literature to familiarize students with current research; in addition, longline and gillnet sampling will provide students with first hand knowledge of field techniques and local shark identification. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) or (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 372 Coastal Birds of Alabama 2 cr

An introductory-level, field-based course covering identification, population dynamics and behavior of coastal avian fauna. Field trips will be taken to local coastal ecosystems and island rookeries. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 380 Study Abroad Biology 1-4 cr

This course is for educational opportunities in foreign countries in any biological science discipline. Offered in May, or Summer Semester. May be repeated when content varies.

Prerequisite: (BLY 300 Minimum Grade of C and BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 305 Minimum Grade of C)

BLY 411 Developmental Biology 3 cr

A study of the principles that regulate the development of a complex, multicellular from a single cell with a focus on the underlying molecular mechanism and genetic regulation. Topics to be covered will include fertilization, differentiation, cell fate determination, pattern formation, organogenesis and regeneration. Particular emphasis will be placed on the experimental approaches, both historical and contemporary, that led to our current understanding of the development of multicellular organisms.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 414 Expt Bacterial Genomics - W 4 cr

An integrated lab-lecture course utilizing real-world research experiences to explore the molecular genetics and genomics of bacteria. Students will be directly involved in the design, execution, analysis, and presentation of group research projects determining the function of genes from completed microbial genomes. A basic foundation in microbiology and genetics is required for this course.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C and BLY 314 Minimum Grade of C and EH 101 Minimum Grade of C and EH 102 Minimum Grade of C

BLY 425 Chemical Ecology - W 3 cr

This class focuses on chemically mediated interactions between, among, and within organisms in both the aquatic and terrestrial environments.

The topics covered include: chemoreception, chemical defense, chemical attraction, and the impact of chemical ecology on humans. This course includes a writing component. Students will gain experience in critical analysis, research development, grant writing, and computer-based presentation.

Prerequisite: (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 426 Freshwater Ecology 3 cr

This course examines four aspects of freshwater ecology; physical and chemical properties of water, biotic communities, links among freshwater systems, and human influence on freshwater ecosystems. Students will be required to submit a collection of local freshwater invertebrates.

Prerequisite: (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

Cross-Listed: BLY 526

BLY 430 Marine Botany 4 cr

A general survey of marine algae and vascular and non-vascular plants associated with the marine environment. Distribution, identification, structure, ecology, and reproduction will be considered. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 431 Plant Physiology - W 4 cr

An integrative study of higher plant functions. This course includes a study of water relations, plant biochemistry, plant development, and plant-environmental interactions.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C and CH 132 Minimum Grade of D

BLY 433 Evolution of Vascular Plants 4 cr

A survey of the systematics, taxonomy, and structure of the major groups of vascular plants. Fossil plants (paleobotany) will also be covered where relevant. Many labs are outdoors and focus on plant structure and identification utilizing the rich local flora.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 434 Plant Physiological Ecology 3 cr

Plant Physiological Ecology is an investigation into the relatively "new" scientific field of physiological ecology (i.e., the study of how plants function in their environment) and is designed to meet the needs of students majoring in biology, ecology and/or various disciplines in plant biology. This course explores plant biology, plant-animal interactions, as well as, principles of ecology and evolution. Category B.

Prerequisite: BLY 121 Minimum Grade of C and BLY 122 Minimum Grade of C and BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C and BLY 431 Minimum Grade of C

Cross-Listed: BLY 534

BLY 435 Biology of Fungi 4 cr

Identification and morphology of fungi with some emphasis on their relation to human affairs. Collection required.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 436 Animal Physiology - W 4 cr

This class will take a comparative approach to animal physiology. Comparisons of structural and functional relationships in the body systems of invertebrates and vertebrates, including humans, will be made. A basic foundation in chemistry and cell biology is required for this course. This course incorporates writing and computer components. Students will gain experience in critical analysis, research development and analysis, word processing, computer based statistical and graphical analysis, and in computer based presentation programs.

Prerequisite: (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 440 Biochemistry I 3 cr

Study of the fundamental biochemical concepts; emphasis is placed on protein, carbohydrate, and lipid structure as related to their functional behavior; enzymes kinetics and mechanisms of action; thermodynamic relationships in biochemical systems. Offered only in Fall term. Cross-listed with CH 440.

Prerequisite: CH 202 Minimum Grade of D and BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

Cross-Listed: CH 440

BLY 441 Biochemistry II 3 cr

Study of the reaction and regulations of intermediary metabolism; the biochemistry of genetics systems to include regulatory mechanisms and protein synthesis. Offered only in Spring term. Cross-listed with CH 441.

Prerequisite: BLY 440 Minimum Grade of D or CH 440 Minimum Grade of D

Cross-Listed: CH 441

BLY 443 Lab Studies Biochemistry 2 cr

Course familiarizes the student with basic laboratory techniques commonly employed in biochemical research. Offered only in Spring term. Cross-listed with CH 443.

Prerequisite: (BLY 440 Minimum Grade of D or CH 440 Minimum Grade of D) and (BLY 441 (may be taken concurrently) Minimum Grade of D or CH 441 (may be taken concurrently) Minimum Grade of D)

Cross-Listed: CH 443

BLY 445 Computational Genetics-W 3 cr

An ever growing body of online genetic datasets and publically available software makes basic informatic analysis of genetic systems no longer restricted to programmers. Utilizing the principle online resources employed by researchers today, this course will provide advanced undergraduates with a solid foundation in computational biology as well as the competency to independently evaluate emerging resources in the future. Students enrolled in this course will gain real world experience in the application of informatic techniques through participating in an actual collaborative research analysis and through directly contributing to a peer-reviewed manuscript reporting their results. Requires permission of instructor.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 450 Animal Behavior 4 cr

Course examines animal behavior from a biological and empirical viewpoint, with an emphasis on behavioral adaptations of animals to their environment. Orientation, migration, rhythms, communication, territoriality, social and courtship behaviors will be considered within the context of ecology and evolution.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 451 Marine Vertebrate Zoology 4 cr

A study of marine vertebrates, with emphasis on fishes; their systematics, zoogeography, and ecology. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 452 Marine Mammals 4 cr

This is a marine field course designed to engage students in the collection, identification, and preservation of parasites of marine vertebrates and invertebrates. Each student will be required to submit a collection of parasites taken from beach, barrier island, estuarine, and pelagic (10-200km) offshore localities.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 455 Ornithology 4 cr

Principles of classification, structure, distribution, migration, natural history and adaptations of birds within an ecological context. Field & laboratory identification of birds by habitat, size, form, color, and sound. Some field activities may occur at times other than regularly scheduled laboratory hours.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C and BLY 121 Minimum Grade of C and BLY 121L Minimum Grade of C and BLY 122 Minimum Grade of C and BLY 122L Minimum Grade of C

BLY 459 General Parasitology 4 cr

Ecology and evolution of parasites and a survey of all major parasitic groups.

Prerequisite: (BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 463 Vertebrate Histology 4 cr

Microscopic anatomy of organ systems, with emphasis on human tissues. Category C (usually taught in the Spring term)

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D)

BLY 466 Introduction to Neurobiology 3 cr

Neuroanatomy and neurophysiology of marine invertebrates and vertebrates. Topics include resting and action potentials, synaptic transmission, neurotransmitters, sensory transduction, muscle innervation, sensorimotor transformations, and the neurophysiological basis of behavior. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 468 Coral Reef Ecology 4 cr

Ecology and evolution of coral reef, seagrass, and mangrove communities. An additional assessment will cover transportation, meals, and lodging for a one-week field trip to Andros Island, Bahamas. Updated information at www.disl.org. Prerequisites: BLY 121 and 122 and BLY 325 or BLY 325 or BLY 425 or BLY 475. Category D (usually taught in summer session).

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 325 Minimum Grade of C or BLY 425 Minimum Grade of C or BLY 475 Minimum Grade of C)

BLY 470 Herpetology 4 cr

A field course that emphasizes the ecology, evolution, natural history, characteristics, structure, function, geographic distribution, behavior, and systematics of amphibians and reptiles. Course includes structured writing assignments and focuses on good writing skills and forms. Laboratory and field work emphasize identification of specimens by name, habitat, and characteristics. Some field activities will occur at times other than the scheduled laboratory hours.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 471 Mar Invertebrate Zoology 4 cr

A study of the natural history, systematics, and morphology of marine invertebrates. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 472 Marine Behavioral Ecology 4 cr

The ecological and evolutionary significance of animal behaviors in the marine environment. Exercises will include analysis of data collected from laboratory and field experiments. Statistics recommended. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 474 Intro to Oceanography 4 cr

A general introduction to the oceans, with emphasis on chemical, physical, and geological processes and their relation to biological systems. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 475 Marine Ecology 4 cr

The relationship of marine organisms to their environment. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 478 Coastal Wetlands Ecology 4 cr

This course will focus on near shore wetland areas and emphasize biogeochemical processes, productivity, biodiversity and ecosystem function, as well as address the issues that threaten and protect these valuable resources.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 483 Field Marine Science 1-4 cr

Course consists of a 10-day field exercise in the tropical southeastern Gulf of Mexico (Florida Keys) and the temperate north Atlantic. Sites alternate annually. Faculty members with diverse interest accompany the students, participate in pre-trip readings and discussion sessions and evaluate the product developed by each student. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term. Requires Senior or Graduate standing in a major related to Marine Sciences and permission of instructor.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 484 Conservation Biology 3 cr

The study of preserving biodiversity and sustaining ecosystems using a multidisciplinary approach. Primary emphasis will focus on the development of strategies for preservation and management using scientific principles and theory.

Prerequisite: (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 485 Evolutionary Biology 3 cr

The study of mechanisms and historical patterns of evolutionary change in biological systems ranging from genes to phylogeny.

Prerequisite: (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

BLY 490 Special Topics 1-4 cr

Small interested groups of students will study specialized topics not generally listed in the course offerings. Faculty and visiting professors will offer courses in their areas of specialization. This course may be taken more than once if the topic changes for a total of eight hours. Requires permission of the department.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 494 Directed Studies 1-4 cr

Course is designed to enable the capable student to pursue independent research under the direction of a member of the faculty. Six hours of credit can be used to satisfy the 37 credit hours for the Biology major. Requires permission of the department chair.

Prerequisite: BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C

BLY 499 Honors Research in Biology-H-W 1-6 cr

Experience in planning, conducting, and reporting a research project under the direction of the faculty. Requires overall GPA 3.0, Biology GPA 3.5, and permission of the faculty.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (CH 115 Minimum Grade of D or CH 131 Minimum Grade of D) and (CH 116 Minimum Grade of D or CH 132 Minimum Grade of D)

BLY 510 Prof in Science 3 cr

The overall goal for this course to convey expectations and important "survival skills" required to succeed in the competitive world of science. Emphasis is placed on grant writing, publications, tenure and promotion, collegiality, productivity creativity, building a CV, alternative paths, and achieving balance between the professional and private life.

BLY 511 Developmental Biology 3 cr

A study of the principles that regulate the development of a complex, multicellular organism from a single cell with a focus on the underlying molecular mechanism and genetic regulation. Topics to be covered will include fertilization, differentiation, cell fate determination, pattern formation, organogenesis, and regeneration. Particular emphasis will be placed on the experimental approaches, both historical and contemporary, that led to our current understanding of the development of multicellular organisms.

Prerequisite: (BLY 302 Minimum Grade of D or BLY 311 Minimum Grade of D) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and BLY 363 Minimum Grade of D

BLY 514 Expt Bact Genomics 4 cr

An integrated lab-lecture course utilizing real-world research experience to explore the molecular genetics and genomics of bacteria. Students will be directly involved in the design, execution, analysis, and presentation of group research projects determining the function of genes from completed microbial genomes. A basic foundation in microbiology and genetics is required for this course.

BLY 515 Ecotoxicology 4 cr

The impact of chemicals as toxic agents on ecosystems. Students will understand types, sources, and effects of environmental toxicants, methods of testing and interpretation, and regulation of environmental toxicants. This material will be presented in the context of ecosystem health rather than human health. This is a core course for MS degree students in the Environmental Toxicology program.

Prerequisite: (BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C) and (CH 201 Minimum Grade of C and CH 202 Minimum Grade of C) and (CH 540 Minimum Grade of B and CH 541 Minimum Grade of B)

BLY 520 Biometry 4 cr

The application of statistical methodology, both univariate and multivariate techniques, to the solution of biological problems. This course is not designed as a substitute for instruction in statistics, but rather to complement previous course work. The laboratory will involve the use of PC computers to perform procedures on biological data and subsequent interpretation of the results. Prerequisites can be waived at the discretion of the instructor.

Prerequisite: (BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (ST 175 Minimum Grade of D or ST 210 Minimum Grade of D or ST 540 Minimum Grade of C)

BLY 525 Chemical Ecology 3 cr

Chemical Ecology focuses on chemically mediated interactions within organisms in both aquatic and terrestrial environments. The topics covered include: chemoreception, chemical defense, chemical attraction, and the impact of chemical ecology on humans. Students will gain experience in critical analysis, research development, grant writing, and computer-based presentation. Requires permission of instructor.

Prerequisite: (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C) and (CH 201 Minimum Grade of C or CH 222 Minimum Grade of C)

BLY 526 Freshwater Ecology 3 cr

Course examines four aspects of freshwater ecology: physical and chemical properties of water, biotic communities, links among freshwater systems, and human influences on freshwater ecosystems. Students will be required to submit a collection of local freshwater invertebrates.

Prerequisite: Ecology (equivalent to BLY 303). This prerequisite may be waived at the discretion of the instructor. Dual listed with BLY 426.

Prerequisite: BLY 303 Minimum Grade of C

Cross-Listed: BLY 426

BLY 530 Marine Microbial Ecology 3 cr

A general survey of the types of microorganisms found in the marine environment. Emphasis will be on the interaction of microorganisms with each other and with their environment. In particular, the role of microorganisms in the carbon cycling and biogeochemical processes will be stressed. Readings from current literature will expose students to the latest techniques and research.

Cross-Listed: MAS 530

BLY 534 Plant Physiological Ecology 3 cr

This course is an investigation into how plants function in their environment and is designed to meet the needs of students majoring in biology, ecology and/or various disciplines in plant biology. This course explores plant biology, plant-animal interactions, as well as, principles of ecology and evolution.

Prerequisite: BLY 121 Minimum Grade of C and BLY 122 Minimum Grade of C and BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C and BLY 303 Minimum Grade of C and BLY 431 Minimum Grade of C

Cross-Listed: BLY 434

BLY 535 Biology of Fungi 4 cr

Identification and morphology of fungi with some emphasis on their relation to human affairs. Collection required. Credit for both BLY 535 and 435 is not allowed.

Cross-Listed: BLY 435

BLY 536 Advanced Animal Physiology 3 cr

This class explores animal physiology, aiming to understand how animals work, from individual cells to whole organisms. We will take a comparative approach to understand the fundamental ways in which animals deal with the common challenges. A basic foundation in chemistry, molecular biology, cell biology, and evolutionary biology is required for this course. Students will complete a capstone independent literature review on a topic of their choice in the field of animal physiology.

Cross-Listed: BLY 436

BLY 540 Biochemistry I 3 cr

Study of the fundamental biochemical concepts; emphasis is placed on protein, carbohydrate, and lipid structure as related to their functional behavior; enzymes kinetics and mechanisms of action; thermodynamic relationships in biochemical systems. Offered only in Fall term. Cross-listed with CH 540.

Prerequisite: (CH 201 Minimum Grade of D or CH 222 Minimum Grade of D) and (CH 202 Minimum Grade of D or CH 223 Minimum Grade of D)

Cross-Listed: BLY 440

BLY 541 Biochemistry II 3 cr

Study of the reaction and regulations of intermediary metabolism; the biochemistry of genetics systems to include regulatory mechanisms and protein synthesis. Offered only in Spring term. Cross-listed with CH 541.

Prerequisite: BLY 540 (may be taken concurrently) Minimum Grade of B

BLY 543 Lab Studies Biochemistry 2 cr

Course familiarizes the student with basic laboratory techniques commonly employed in biochemical research. Offered only in Spring term. Cross-listed with CH 543.

Prerequisite: BLY 440 Minimum Grade of D or BLY 441 Minimum Grade of D or BLY 540 Minimum Grade of B or BLY 541 Minimum Grade of B

Cross-Listed: CH 543

BLY 544 Molecular Biology 3 cr

BLY 544 is a graduate course that covers the basic mechanisms by which organisms utilize, maintain and duplicate their genetic information. Topics to be covered include: organization of genes, the mechanisms and regulation of transcription, RNA processing and translation, the packaging of DNA as chromatin and its impact on gene expression, DNA replication, recombination and repair, and genomics and proteomics.

BLY 551 Marine Vertebrate Zoology 4 cr

A study of marine vertebrates with emphasis on fishes; their systematics, zoogeography, and ecology. Students will have an opportunity to assemble a collection of vertebrate species. Course offered only through Marine Environmental Sciences Consortium. Credit for both BLY 551 and BLY 451 is not allowed.

BLY 566 Introduction to Neurobiology 4 cr

Neuroanatomy and neurophysiology of marine invertebrates and vertebrates. Topics include resting and action potentials, synaptic transmission, neurotransmitters, sensory transduction, muscle innervation, sensorimotor transformations, and the neurophysiological basis of behavior. Credit for BLY 566 and 466 is not allowed.

Prerequisite: ((BLY 121 Minimum Grade of C and BLY 121L Minimum Grade of C) or BLY 141 Minimum Grade of C) and ((BLY 122 Minimum Grade of C and (BLY 122L Minimum Grade of C) or BLY 142 Minimum Grade of C)

BLY 568 Coral Reef Ecology 4 cr

Ecology and evolution of coral reef, seagrass, and mangrove communities. An additional assessment will cover transportation, meals, and lodging for a one-week field trip Andros Island, Bahamas. Updated information at www.disl.org. Prerequisite: BLY 325, Ecology. Credit for BLY 568 and BLY 468 is not allowed.

Prerequisite: BLY 325 Minimum Grade of C

BLY 570 Herpetology 4 cr

A field course that emphasizes the ecology, evolution, natural history, characteristics, structure, function, geographic distribution, behavior, and systematics of amphibians and reptiles. Course includes structured writing assignments and focuses on good writing skills and forms. Laboratory and field work emphasize identification of specimens by name, habitat, and characteristics. Some field activities will occur at times other than the scheduled laboratory hours. Oral classroom presentations required. Credit for BLY 470 and BLY 570 is not allowed.

BLY 571 Marine Invertebrate Zoology 4 cr

A study of the natural history, systematics and morphology of marine invertebrates. Credit for both BLY 571 and BLY 471 is not allowed.

BLY 572 Marine Behavioral Ecology 4 cr

The ecological and evolutionary significance of animal behaviors in the marine environment. Exercises will include analysis of data collected from laboratory and field experiments. Statistics recommended. Credit for BLY 572 and BLY 472 is not allowed.

Prerequisite: (BLY 122 Minimum Grade of C and BLY 122L Minimum Grade of C) or BLY 142 Minimum Grade of C

BLY 573 Oceanol Gulf of Mexico 3 cr

A descriptive study of the oceanology of the Gulf of Mexico, and adjacent waters, including coastal zone, continental shelf, and deep ocean.

BLY 575 Marine Ecology 4 cr

Their relationship of marine organisms to their environment. Credit for both BLY 575 and BLY 475 is not allowed.

BLY 583 Field Marine Science I 1-4 cr

The Field Marine Science course will consist of an 8 - 12 day field exercise in representative coastal sites. The field exercise is conducted in the term break prior to the term of registration for the course. Faculty members with diverse interests will accompany the students, participate in pre-trip discussions and evaluate the product developed by each student. The course is designed to familiarize students with habitats and research conditions different from those they experience on the Northern Gulf Coast. Field trip locations are selected on the basis of faculty and student interest, economics, and availability of logistical support. Students pay their room and board costs for the field exercise. The course is primarily for graduate students, but advanced undergraduates may enroll with consent of instructor. Both BLY 483/583 and 488/588 may be taken for credit when each is taught in a different environment.

BLY 585 Evolutionary Biology 3 cr

The study of mechanisms and historical patterns of evolutionary change in biological systems ranging from genes to phylogeny.

BLY 589 Marine Plankton 3 cr

The course familiarizes the student with the taxonomic breadth of phytoplankton, bacterioplankton and zooplankton in estuaries, coastal seas and open oceans. Though the focus is on taxonomic familiarization, basic biology of all major taxa, represented in the plankton will be covered. Students will learn fundamental, as well as "cutting-edge", field, lab, and statistical techniques.

BLY 590 Special Topics - 1-4 cr

Small, interested groups of students will study specialized topics not generally listed in the course offerings. Faculty and visiting professors will offer courses in their areas of specialization. This course may be taken more than once if the topic changes for a total of eight hours. Requires permission of the department.

BLY 592 Seminar 1 cr

Recent research in areas of special academic interest to students and faculty.

BLY 594 Directed Studies - 1-4 cr

Independent research under the direction of a member of the graduate faculty. A maximum of six credits may be used to meet degree requirements. Permission of instructor required.

BLY 599 Thesis 1-4 cr

Requires approval of research prospectus by student's graduate committee.

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
DELANEY TUCKER, CYNTHIA LEIGH (leighdelaney@southalabama.edu)	Biological Sciences	Senior Instructor	BS, University of West Florida MS, University of South Alabama

Major Milestones

Effective for fall, 2016, Major Milestones are used in all concentrations of the Biology Bachelor of Science major to help students stay on track for timely graduation. Each regular semester in the Biology major is a tracking term. In order to remain on track, students must complete the

milestone requirements for each tracking term. These requirements are viewable on the Major Milestone table below.

Major milestone requirements apply only to full-time, degree-seeking students who first entered Fall 2016 or later. Milestone requirements do not apply to transfer students in the Biology program.

The sample academic plan viewable on the Major Milestone tab below is designed to ensure graduation in the Biology major in four years. Several academic plans are available – consult with your academic advisor for the plan that is the best fit for you. For specific course requirements, refer to the program requirements above and the General Education requirements of the College of Arts and Sciences.

Biology Sample 4+Year Plan with Milestones

Complete a total of at least 20 upper division (300-400) Biology elective hours		
Hours		13
Total Hours		120

¹ Students who earn an English ACT score of 27 or above, SAT score of 610 or above on the verbal portion, or a new SAT Reading Test can opt out of EH 101.

² Courses meet general education requirements.

³ Must have one history elective and one literature elective. In addition, students must choose a second history or literature to complete a two-part sequence.

Major Milestone Notes

- Students with ACT Math scores 22-23 should take MTH 100 and MA 112 in the first semester, and they will graduate with 123 hours; MA 125 also satisfies the math requirement. Students with ACT Math scores 21 and below should begin math courses in the summer before Fall - Year 1.
- There may be additional prerequisites for upper level major electives. Refer to the bulletin for more information.
- All Arts and Sciences majors require a minor between 18 and 24 hours. Courses used in a minor can also be used for general education requirements or major requirements (up to two courses).
- Two designated writing (W) courses are required with at least one course chosen from offerings in the student's major or minor. Courses carrying this required credit are identified in the University Bulletin by a (W) after the course title.
- The Sample 4-year plan is designed as a guide for students preparing for their course selections. This information provides only a suggested schedule. Actual course selections should be made in consultation with an advisor.

Effective for Fall, 2016, Major Milestones are used in all concentrations of the Biology Bachelor of Science major to help students stay on track for timely graduation. Each regular semester in the Biology major is a tracking term. In order to remain on track, students must complete the milestone requirements for each tracking term. These requirements are viewable on the Major Milestone tab above.

Major milestone requirements apply only to full-time, degree-seeking students who first entered Fall 2016 or later. Milestone requirements do not apply to transfer students in the Biology program.

Biology (BS) - Senior Thesis Concentration

Degree Requirements

Code	Title	Hours
General Education Requirements		
https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext		53-57
Major Requirements		40
<i>Biology Core</i>		
C or better is required for these six courses:		
A. Complete the following:		
BLY 121 & 121L	General Biology I and General Biology I Lab	4
BLY 122 & 122L	General Biology II and General Biology II Laboratory	4
B. Complete the following:		
BLY 300	Ecology	3
BLY 301	Cell Biology	3
BLY 302	Genetics	3
BLY 305	Introduction to Evolution	3
C. Students then must complete 20 hours of upper level Biology courses		20
Other STEM Requirements		
See list below		
Minor Requirements		
A minor is required for this degree program		18-24
A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE		120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Other STEM Requirements

Code	Title	Hours
CH 131 & 131L	General Chemistry I and General Chemistry I Lab	4
CH 132 & 132L	General Chemistry II and General Chemistry II Lab	4
CH 201 & 201L	Organic Chemistry I and Organic Chemistry I Lab	4
Select one of the following Options:		8-10
Option 1		
PH 114 & 114L	Physics with Algebra-Trig I and Alg-Trig Based Physics I Lab	
PH 115 & 115L	Physics with Algebra -Trig II and Alg-Trig Based Physics II Lab	
Option 2		
GY 111 & 111L	Physical Geology and Physical Geology Lab	
GY 112 & 112L	Earth History and Earth History Lab	
Select one of the following Options:		4-7
Option 1		
MA 113 or MA 115	Precalculus Trigonometry Precal Algebra-Trigonometry	
ST 210 or BLY 304	Stat Reason and Application Exp. Designs in Biology	
Option 2		
MA 125	Calculus I	
Total Hours		24-29

Notes:

Effective for Fall, 2016, Major Milestones are used in all concentrations of the Biology Bachelor of Science major to help students stay on track for timely graduation. Each regular semester in the Biology major is a tracking term. In order to remain on track, students must complete the milestone requirements for each tracking term. These requirements are viewable on the Major Milestone tab above.

Major milestone requirements apply only to full-time, degree-seeking students who first entered Fall 2016 or later. Milestone requirements do not apply to transfer students in the Biology program.

Additional Information

The Biology Senior Thesis Program offers bright, academically motivated undergraduate students the opportunity to develop research and communication skills in preparation for a graduate or professional career. To apply for admission into the program, a student must:

1. have completed BLY 121, BLY 121L, BLY 122, BLY 122L, CH 131, CH 132, plus one more upper division biology course.
2. have earned a 3.25 GPA or better in biology courses attempted.
3. have earned a 3.0 GPA or better overall.
4. obtain a recommendation from a faculty member.

In addition to fulfilling the requirements of the standard biology program, senior thesis students must:

1. participate in the Undergraduate Senior Thesis in Biology program for three terms; this may include summer terms.
2. complete a minimum of six credits of directed research, three credits of which must be Honors Research in Biology (BLY 499).
3. complete a research prospectus including an introduction, proposed methods, and relevant literature citations. The prospectus must be submitted and approved by their advisory committee during the first term of participation in the program.
4. complete a written thesis, which must be approved by the advisory committee.
5. present a public oral defense of the research project.
6. complete a poster presentation at the USA Annual Research Forum or the UCUR Annual Research Forum.

Students participating in the Biology Senior Thesis Program who have a 3.5 GPA will also be eligible for Departmental Honors status.

Biology students who are part of the University Honors College will meet requirements for the Undergraduate Biology Senior Thesis as well as those of the University's program.

Biology (MS)

Degree Requirements

Graduate Studies

The Master of Science degree in Biology is designed to provide qualified students the opportunity to further their knowledge in areas of biology, as indicated by course offerings and research interests of the faculty.

Requirements for Admission

Students are admitted each semester. Graduate classes are only offered in fall and spring semester, however.

The following criteria supplement the Graduate School criteria (see Categories of Admission):

Regular Admission

1. Undergraduate major in Biology, Botany, Zoology, or Environmental Biology with a minimum GPA of 2.5 (on a 4-point scale) in all biological courses taken.
2. One year of freshman chemistry and at least one semester of organic chemistry.
3. One year of physics or geology.
4. Mathematics at least through calculus or statistics.
5. International students who do not speak English as their native language must submit proof of proficiency. A minimum TOEFL test scores of 560 on the paper-based test (PBT), 220 on the computer-based test (CBT) or 85 on the internet-based test (IBT), or a minimum score of 6.5 on the IELTS test.
6. Three letters of reference.
7. Students interested in entering the Thesis Program will submit a 750-word letter from the student indicating their research interests. Students interested in entering the non-thesis Program will submit a 500-word letter indicating their interest in the program and their future goals.
8. Students interesting in entering the Thesis Program will require a willing mentor from Biology (in this regard the student should contact the Graduate Coordinator before applying to the program).
9. All students will submit a resume, or CV.

Non-Degree Admission

The Department of Biology accepts Non-Degree Graduate Students within the general admission and credit regulations of the University of South Alabama with certain reservations and limitations. Students should consult the Department concerning these limitations before applying for such status. Included, but not limited to, are the following:

1. Students are restricted to enrollment in courses prefixed BLY that the Chair determines will advance their career development in biological sciences. Only in exceptional cases wherein it is determined to the satisfaction of the Chair that the aforementioned career goals are enhanced will a non-degree student be permitted to enroll in courses in other departments.
2. Students must confer with the Chair or the Graduate Coordinator of the Department of Biology before attempting to enroll in any class.
3. Students seeking to change from non-degree status to a degree-granting program must reapply and be evaluated as any other student who has not previously applied to such program.

Graduate Assistantships

The Department offers several types of assistantships to qualified students. Application forms for assistantships with primary responsibilities in teaching and preparing laboratories are available from the departmental office. In addition, some assistantships with primary responsibility in research are usually available each year. These assistantships are associated with grants and contracts that support the research of individual faculty members. In all cases, assistantships are approved by the Dean of the Graduate School upon recommendation of the appropriate sponsor within the University.

Requirements for MS Degree for All Students

Students planning to pursue the Ph.D. degree are encouraged to follow the thesis option. However, a non-thesis curriculum is available for those students who so elect. The non-thesis degree offers students the possibility of furthering their academic credentials to prepare themselves for professional careers in healthcare, government, etc.

The curriculum for each student will be developed by the student's advisory committee in view of the student's professional goals. If, in the opinion of a student's committee, the student lacks adequate undergraduate preparation or English skills, the student will be required to make up such deficiencies.

All requirements must be met in five years. In addition to satisfying the general requirements of the Graduate School, the candidates for the Master of Science degree in Biology must satisfy the following requirements:

Thesis Program

1. Complete, with a minimum grade of "B", thirty hours of course work at the 500 level. All Biology graduate student must complete at least 18 hours of formal coursework in BLY (excluding directed studies and thesis) listed courses. No course at the 400 level or below may be taken for graduate credit. A maximum of six credit hours may be granted for Directed Studies (BLY 594). All courses must be accepted by the student's graduate advisory committee. The student's graduate committee may, at its option, after consultation with the student, require demonstration of additional proficiency in mathematics, computer skills, statistics, and/or require the student to take additional course work.
2. Included in the 18 hours of formal coursework, students will complete the following core sequence:

Code	Title	Hours
BLY 510	Prof in Science	3
BLY 520	Biometry	4
BLY 544	Molecular Biology	3
BLY 585	Evolutionary Biology	3
BLY 592	Seminar	1
Remaining 4 hours can be chosen from other 500-level BLY course		4
Total Hours		18

3. Complete a thesis representing original research. A maximum of 9 hours credit will be granted for the thesis. Enrollment in BLY 599 (Thesis) is not permitted until the student's research prospectus has been approved by the advisory committee and the Director of Graduate Studies, College of Arts and Sciences.
4. After submission of the written research prospectus to the committee, students will schedule a committee meeting and comprehensive qualifying exam. The exam will be oral and will start with a presentation of the prospectus and, where applicable, a progress report. Students will first be examined on the prospectus and progress report, and then any area of study closely or broadly related to the student's area of specialization. The exam committee will consist of the student's thesis committee.
5. The student will be graded by all committee members, following a rubric that considers various aspects of the presentation and has three possible scores for each category: 1 (insufficient), 2 (meets expectations), and 3 (above expectations). To pass the exam, a student will have to score an average of 2 or higher. Students are encouraged to look at the rubric before the presentation to be aware of the committee's expectations. Students who fail the exam will be given a second opportunity.
6. Make an oral defense of the thesis.

Non-Thesis Program

1. The student will be required to complete, with a minimum grade of "B", 30 hours of course work at the 500 level. No course at the 400 level or below may be taken for graduate credit. A maximum of six credit hours may be granted for Directed Studies (BLY 594).
 2. A thesis will not be required. Consequently, BLY 599 (Thesis) may not be taken, and the six semester hours normally associated with it must be earned through formal coursework.
 3. The student will complete at least 18 hours of graduate coursework with the "BLY" designation, excluding BLY 594. Additional career-relevant graduate course selection may be from other departments. BLY coursework will include the following core sequence:
- | Code | Title | Hours |
|---------|----------------------|-------|
| BLY 510 | Prof in Science | 3 |
| BLY 520 | Biometry | 4 |
| BLY 544 | Molecular Biology | 3 |
| BLY 585 | Evolutionary Biology | 3 |
| BLY 592 | Seminar | 1 |
4. At the completion of coursework, non-thesis students will take a comprehensive evaluation in oral and/or written format. A departmental committee will evaluate the student's performance using a rubric. If unsuccessful, the evaluation may be repeated once after corrective action is recommended and implemented.

5. Transition between “thesis” and “non-thesis” options requires the majority consent of the student’s advisory committee.

Biology Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Biology

Twenty hours of biology are required, including:

Code	Title	Hours
BLY 121	General Biology I	3
BLY 121L	General Biology I Lab	1
BLY 122	General Biology II	3
BLY 122L	General Biology II Laboratory	1
BLY 300	Ecology	3
BLY 301	Cell Biology	3
BLY 302	Genetics	3
BLY 305	Introduction to Evolution	3
Total Hours		20

Credit will not be allowed for both the non-major sequence (BLY 101, BLY 101L and BLY 102, BLY 102L) and the major/minor sequence (BLY 121, BLY 121L, BLY 122, BLY 122L.)

Chemistry

Department Information

Department of Chemistry website
<https://www.southalabama.edu/colleges/artsandsci/chemistry/>

Undergraduate Studies

The chemistry curriculum is designed for students seeking a liberal education as well as for those students requiring more specialized training and skills. The courses provide the foundation necessary for those planning careers as chemists and biochemists following graduation, for students planning to further their education through advanced degrees in chemistry, biochemistry, related sciences, and for those in other professional fields. Two basic curricula are offered for chemistry majors:

1. The American Chemical Society certified degree program in Chemistry is available for those students seeking technical positions in chemistry, as well as for those planning to attend graduate school, or
2. A Biochemistry Option track is available for students strongly interested in the interface of chemistry and biomedical or biological sciences, especially for students anticipating going to graduate school in medical sciences, biochemistry, biophysics, or other life sciences.

Students pursuing a degree in Chemistry also must have a minor in another discipline. All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first

term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Undergraduate Senior Thesis in Chemistry

The Chemistry Senior Thesis Program is designed to stimulate analytical and critical thinking and as such offers motivated and focused undergraduate students the opportunity to develop research and communication skills in preparation for a graduate or professional career. To apply for admission into the program, a student must:

1. Have Junior Chemistry Major status or above.
2. Have completed:

Code	Title	Hours
CH 131	General Chemistry I	3
CH 132	General Chemistry II	3
CH 201	Organic Chemistry I	3
CH 202	Organic Chemistry II	3
Plus one (1) more lower or upper division chemistry course		3

3. Have earned a 3.25 GPA or better in chemistry courses attempted.
4. Have earned a 3.0 GPA or better overall.
5. Obtain a recommendation from a faculty member who will serve as research mentor for senior thesis.

In addition to fulfilling the requirements of the standard chemistry program, senior thesis students must complete:

1. A minimum of six (6) semester hours of CH 499. Upon successful completion of six (6) hours of CH 499 the requirement for four (4) hours of CH 494 will be waived.
2. A formal research Project Prospectus needs to be submitted and approved by the student’s research mentor during the first term of participation in program. The prospectus will be prepared under the supervision of the student’s research mentor and should include an introduction to the proposed research project, proposed research methods, and relevant literature citations.
3. Complete a written research thesis.
4. The formation of a thesis committee will be at the discretion of the faculty mentor.
5. Present a formal oral defense of the research work to Chemistry Department faculty and students.
6. Complete a poster presentation at national, regional, or local research forum.

Examples of appropriate venues for the presentation include an ACS National meeting, the USA Annual Research Forum (Spring term) or the UCUR Annual Research Forum (Fall term). Students participating in the Chemistry Senior Thesis Program who have a 3.5 GPA will also be eligible for Departmental Honors status. Chemistry majors who are part of the University Honors College will meet the requirements for the Undergraduate Chemistry Senior thesis as well as those of the University’s program.

Graduate Studies

Although the Department of Chemistry has no graduate degree programs, courses are offered at the graduate level for those students who need such work.

Degrees, Programs, or Concentrations

- Chemistry ACS Certified Chemistry Track, Major (p. 147)
- Chemistry Biochemistry Track, Major (p. 148)
- Chemistry Minor (p. 149)

Courses

CH 101 Survey of Inorg and Org Chem 3 cr

An intensive presentation of inorganic and organic chemistry principles selected to convey a basic understanding of their relationship to and function in the life process. Laboratory exercises will introduce students to basic laboratory procedures, often using exercises related to life process. This course is generally taken by students in the College of Nursing. CH 101L must be taken concurrently. Together, CH 101 and CH 101L count as one laboratory science course, partially fulfilling general education requirements. (Offered Fall and Spring Semesters.) Core Course.

Corequisite: CH 101L

CH 101L Survey Inorg-Org Chem Lab 1 cr

Laboratory exercises associated with CH 101. CH 101 must be taken concurrently or as a prerequisite. Together, CH 101 and CH 101L count as one laboratory science course, partially fulfilling general education requirements. Core Course.

Corequisite: CH 101

CH 131 General Chemistry I 3 cr

Three lecture hours and one recitation hour per week for one semester. First of a two-semester sequence for majors, minors, and others seeking quantitative treatment. Topics include the nuclear model, stoichiometry, chemical reactions, gas laws, thermochemistry, atomic structure, and molecular bonding. It is strongly suggested that students take CH 131 and CH 131L concurrently. Together, CH 131 and CH 131L count as one laboratory science course partially fulfilling general education requirements. (Offered Fall and Spring Semesters.) Core Course.

Prerequisite: CH 100 Minimum Grade of D or CH 110 Minimum Grade of D or ACT Math 24 or SAT Mathematics 560 or MATH SECTION SCORE 580 or MA 112 Minimum Grade of C or MA 113 Minimum Grade of C or MA 172 Minimum Grade of C or MA 115 Minimum Grade of C or MA 121 Minimum Grade of C or MA 120 Minimum Grade of C or MA 287 Minimum Grade of C or MA 125 Minimum Grade of C or MA 132 Minimum Grade of C or MA 126 Minimum Grade of C or MA 233 Minimum Grade of C or MyMathTest 080 or University test - Math 85

CH 131L General Chemistry I Lab 1 cr

Laboratory exercises associated with CH 131. It is strongly suggested that students take CH 131 and CH 131L concurrently. Together, CH 131 and CH 131L count as one laboratory science course, partially fulfilling general education requirements. Core course.

Prerequisite: CH 100 Minimum Grade of D or CH 110 Minimum Grade of D or ACT Math 24 or SAT Mathematics 560 or MATH SECTION SCORE 580 or MA 112 Minimum Grade of C or MA 113 Minimum Grade of C or MA 172 Minimum Grade of C or MA 115 Minimum Grade of C or MA 121 Minimum Grade of C or MA 120 Minimum Grade of C or MA 287 Minimum Grade of C or MA 125 Minimum Grade of C or MA 132 Minimum Grade of C or MA 126 Minimum Grade of C or MA 233 Minimum Grade of C or MyMathTest 080 or University test - Math 85

CH 132 General Chemistry II 3 cr

Continuation of CH 131. Topics include solutions, colligative properties, chemical kinetics, equilibrium, acids and bases, pH, buffers, titrations, thermodynamics, and electrochemistry. Additional topics may include nuclear chemistry, organic and biochemistry, chemistry of inorganic compounds, transition metal complexes, and industrial chemistry. It is strongly suggested that students take CH 132 and CH 132L concurrently. Together, CH 132 and CH 132L count as one laboratory science course, partially fulfilling general education requirements. (Offered Fall and Spring Semesters.) Core Course.

Prerequisite: CH 115 Minimum Grade of D or (CH 131 Minimum Grade of D and CH 131L Minimum Grade of D)

CH 132L General Chemistry II Lab 1 cr

Laboratory exercises associated with CH 132. It is strongly suggested that students take CH 132 and CH 132L concurrently. Together, CH 132 and CH 132L count as one laboratory science course, partially fulfilling general education requirements. Core course.

Prerequisite: CH 131 Minimum Grade of D and CH 131L Minimum Grade of D

CH 141 Chemical Principles 4 cr

A one-semester accelerated introductory course in chemistry for majors, minors, and others seeking a more physical and quantitative treatment. Covers stoichiometry, states of matter, chemical bonding and structure, solutions, kinetics, gaseous and aqueous equilibria, thermodynamics, electrochemistry, and nuclear chemistry. (Offered Fall and Spring Semesters.) Core Course.

Prerequisite: Toledo Chem Placemnt Tst 45

Corequisite: CH 141L

CH 141L Chemical Principles Lab 1 cr

Laboratory exercises associated with CH 141. CH 141 must be taken concurrently or as a prerequisite. Together, CH 141 and CH 141L count as one laboratory science course, partially fulfilling general education requirements.

Prerequisite: CH 141 (may be taken concurrently) Minimum Grade of D

Corequisite: CH 141

CH 150 Intro to Computer Chemistry 2 cr

This course will introduce the student to direct application and use of computer activity for applications in chemistry; acquisition of data from instrumentation, data analysis, presentation of experimental data, and chemical structure and modeling programs.

Prerequisite: (CH 115 Minimum Grade of D or (CH 131 Minimum Grade of D and CH 131L Minimum Grade of D) or (CH 141 (may be taken concurrently) Minimum Grade of D and CH 141L (may be taken concurrently) Minimum Grade of D)) and ((MA 113 Minimum Grade of D or MA 172 Minimum Grade of D) or (MA 115 Minimum Grade of D or MA 121 Minimum Grade of D) or (MA 125 Minimum Grade of D or MA 132 Minimum Grade of D) or (MA 126 Minimum Grade of D or MA 233 Minimum Grade of D))

CH 201 Organic Chemistry I 3 cr

Fundamentals of structure and chemical behavior of organic molecules including nomenclature, properties, structure, stereochemistry, spectroscopy (both infrared and nuclear magnetic resonance), reactions, synthesis, and mechanisms of alkanes, alkenes, alkyl halides, and alcohols. (Offered Fall and Spring Semesters.) CH 201L must be taken concurrently.

Prerequisite: CH 116 Minimum Grade of D or (CH 132 Minimum Grade of D and CH 132L Minimum Grade of D) or (CH 141 Minimum Grade of D and CH 141L Minimum Grade of D)

Corequisite: CH 201L

CH 201L Organic Chemistry I Lab 1 cr

Laboratory exercises associated with CH 201. (Offered Fall and Spring Semesters.) The laboratory introduces basic organic laboratory practices such as the collection of physical properties data, separation and purification techniques, synthesis, and spectroscopic methods. CH 201 must be taken concurrently or as a prerequisite.

Prerequisite: ((CH 116 Minimum Grade of D) or (CH 132 Minimum Grade of D and CH 132L Minimum Grade of D))

Corequisite: CH 201

CH 202 Organic Chemistry II 3 cr

Continuation of study of structure and chemical behavior of organic molecules including aromatic compounds, ketones and aldehydes amines, carboxylic acids and their derivatives, carbohydrates, amino acids, peptides and proteins, nucleic acids, alkynes, ethers and epoxides, and conjugated dienes. (Offered Fall and Spring Semesters.) CH 202L must be taken concurrently.

Prerequisite: (CH 201 Minimum Grade of D and CH 201L Minimum Grade of D) or CH 222 Minimum Grade of D

Corequisite: CH 202L

CH 202L Organic Chemistry II Lab 1 cr

Laboratory exercises associated with CH 202. The laboratory continues with the basic organic laboratory practices with additional synthetic methods. (Offered Fall and Spring Semesters.) CH 202 must be taken concurrently or as a prerequisite.

Prerequisite: (CH 222 Minimum Grade of D) or (CH 201 Minimum Grade of D and CH 201L Minimum Grade of D)

Corequisite: CH 202

CH 265 Introductory Analysis 3 cr

A detailed study of the fundamental theories and principles of chemistry with emphasis on their application to quantitative analysis. Because proficiency of the material covered in CH 132 is vital for success in this course, students are strongly advised to take the two courses as close together as schedules permit. (Offered Fall and Spring Semesters.)

Prerequisite: (CH 132 Minimum Grade of C and CH 132L Minimum Grade of C) or (CH 116 Minimum Grade of C)

Corequisite: CH 265L

CH 265L Introductory Analysis Lab 1 cr

Laboratory exercises associated with CH 265. (Offered Fall and Spring Semesters.) CH 265 must be taken concurrently or as a prerequisite.

Prerequisite: (CH 132 Minimum Grade of C and CH 132L Minimum Grade of C) or (CH 116 Minimum Grade of C)

Corequisite: CH 265

CH 301 Physical Chemistry I 3 cr

Gas Laws, First and Second Law of Thermodynamics, Phase Equilibrium, Chemical Equilibrium, Physical Chemistry of Solutions, Electrochemistry, Transport Properties, and Chemical Kinetics. (Offered Fall Semester).

Prerequisite: (CH 132 Minimum Grade of C and CH 132L Minimum Grade of C and MA 126 Minimum Grade of D) and (PH 115 Minimum Grade of D or PH 202 Minimum Grade of D)

Corequisite: CH 301L

CH 301L Physical Chemistry I Lab-W 1 cr

Laboratory exercises associated with CH 301. (Offered Fall Semester.) Lab is required for chemistry majors.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and (CH 132 Minimum Grade of C and CH 132L Minimum Grade of C) and (MA 126 Minimum Grade of D) and (PH 202 Minimum Grade of D or PH 115 Minimum Grade of D)

Corequisite: CH 301

CH 302 Physical Chemistry II 3 cr

Quantum Theory and Applications to Atoms and Molecules, Spectroscopy, and Statistical Thermodynamics. (Offered Spring Semester.) Required for chemistry majors.

Prerequisite: ((CH 265 Minimum Grade of D and CH 265L Minimum Grade of D) or CH 266 Minimum Grade of D) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and (MA 126 Minimum Grade of D or MA 223 Minimum Grade of D) and (PH 202 (may be taken concurrently) Minimum Grade of D or PH 217 Minimum Grade of D) or (MA 227 (may be taken concurrently) Minimum Grade of D or MA 234 (may be taken concurrently) Minimum Grade of D) and (PH 115 Minimum Grade of D or PH 113 Minimum Grade of D)

Corequisite: CH 302L

CH 302L Physical Chemistry II Lab - W 1 cr

Laboratory exercises associated with CH 302. (Offered Spring Semester.) Lab is required for chemistry majors.

Prerequisite: ((EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and CH 265 Minimum Grade of D) and (CH 265L Minimum Grade of D or CH 266 Minimum Grade of D) and (MA 126 Minimum Grade of D or MA 233 Minimum Grade of D) and (PH 202 (may be taken concurrently) Minimum Grade of D or PH 217 Minimum Grade of D) or (MA 227 (may be taken concurrently) Minimum Grade of D or MA 234 (may be taken concurrently) Minimum Grade of D) and (PH 115 Minimum Grade of D or PH 113 Minimum Grade of D)

Corequisite: CH 302

CH 394 Directed Studies - 1-4 cr

Student works in a research laboratory under faculty guidance. May be repeated; sum of all directed studies cannot exceed eight (8) credits. Requires Junior standing or permission of Department Chair.

CH 401 Intern Inorganic Chemistry 3 cr

Atomic and molecular structure and bonding emphasizing the use of symmetry, group theory, and molecular orbitals; NMR spectrometry; coordination chemistry; organometallic chemistry and homogeneous catalysis. (Offered Spring Semester).

Prerequisite: (CH 301 Minimum Grade of D and CH 301L Minimum Grade of D and CH 302 Minimum Grade of D and CH 302L Minimum Grade of D) or CH 333 Minimum Grade of D

CH 413 Org Reaction Mech and Synth 3 cr

Study of organic reaction kinetics and mechanisms. Study of the synthesis of natural products and their mechanism of formation with concurrent discussion of nuclear magnetic resonance spectroscopy. (Offered as required).

Prerequisite: (CH 202 Minimum Grade of D or CH 223 Minimum Grade of D) and (CH 301 Minimum Grade of D or CH 332 Minimum Grade of D)

CH 440 Biochemistry I 3 cr

Study of fundamental biochemical concepts; emphasis is placed on protein, carbohydrate, and lipid structures as related to their functional behavior; enzyme kinetics and mechanisms of action; thermodynamic relationships in biochemical systems. (Offered Fall Semester). Cross-listed with BLY 440.

Prerequisite: (CH 202 Minimum Grade of D or CH 223 Minimum Grade of D)

Cross-Listed: BLY 440

CH 441 Biochemistry II 3 cr

Study of the reaction and regulations of intermediary metabolism; the biochemistry of genetic systems to include regulatory mechanisms and protein synthesis. (Offered Spring Semester). Cross-listed with BLY 441.

Prerequisite: CH 440 Minimum Grade of D or BLY 440 Minimum Grade of D

Cross-Listed: BLY 441

CH 443 Lab Studies in Biochemistry 2 cr

Course familiarizes the student with the basic laboratory techniques commonly employed in biochemical research. (Offered Spring Semester). Cross-listed with BLY 443.

Prerequisite: CH 440 Minimum Grade of D or BLY 440 Minimum Grade of D

Cross-Listed: BLY 443

CH 451 Biophysical Chemistry 3 cr

The study of the hydrodynamic and optical properties and methods used to elucidate the structure, conformation and function of biological macromolecules. (Offered as required). Prerequisite: Permission of instructor

Prerequisite: (CH 300 Minimum Grade of D or CH 301 Minimum Grade of D or CH 332 Minimum Grade of D) and (CH 440 Minimum Grade of D or BLY 440 Minimum Grade of D)

CH 465 Instrumental Analysis 3 cr

Modern analytical instruments, their operating principles, and their applications. (Offered Fall Semester).

Prerequisite: ((CH 265 Minimum Grade of D and CH 265L Minimum Grade of D) or CH 266 Minimum Grade of D) and (CH 300 Minimum Grade of D and CH 300L Minimum Grade of D) or ((CH 302 Minimum Grade of D and CH 302L Minimum Grade of D) or CH 333 Minimum Grade of D) or ((CH 301 Minimum Grade of D and CH 301L Minimum Grade of D) or CH 332 Minimum Grade of D)

Corequisite: CH 465L

CH 465L Instrumental Analysis Lab 2 cr

Laboratory exercises associated with CH 465. (Offered Fall Semester.)

Prerequisite: ((CH 265 Minimum Grade of D and CH 265L Minimum Grade of D) or CH 266 Minimum Grade of D) and (CH 300 Minimum Grade of D and CH 300L Minimum Grade of D) or ((CH 302 Minimum Grade of D and CH 302L Minimum Grade of D) or CH 333 Minimum Grade of D) or ((CH 301 Minimum Grade of D and CH 301L Minimum Grade of D) or CH 332 Minimum Grade of D)

Corequisite: CH 465

CH 490 Sp Top - 1-4 cr

Study of a significant topic in Chemistry. May be repeated for a maximum of four credits when the content varies. Requires Senior standing.

CH 492 Seminar I 1 cr

Information retrieval from scientific references, journals, and on-line databases directed toward computer-based preparation of a student seminar having as the capstone experience a formal seminar for Department Faculty and students. (Offered Spring Semester). Requires Senior standing.

CH 494 Directed Studies 1-4 cr

Student works in a research laboratory under faculty guidance. May be repeated; sum of all directed studies cannot exceed eight (8) credits. Requires Senior standing or permission of Department Chair.

CH 499 Sr Honors Chemistry Project-H 3 cr

Student research under faculty direction; written report and oral presentation of research work to faculty and students. This course may be repeated once for a maximum of six credits. Requires permission of department chair.

CH 514 Environmental Chemistry 3 cr

Introduces the cycling of elements in the earth as groundwork for understanding the chemical reactions and fate of chemical species introduced as contaminants to the environment. The chemistry of natural and anthropogenic contaminants in the atmosphere, the hydrosphere, the lithosphere and the transport and transformation of chemical species in the environment are discussed. CH 514L must be taken concurrently. (Offered in Fall Semester.)

Prerequisite: (CH 202 Minimum Grade of D or CH 223 Minimum Grade of D)

Corequisite: CH 514L

CH 514L Environmental Chemistry Lab 1 cr

Laboratory exercises associated with CH 514. Real-world samples will be used to learn appropriate isolation techniques followed by chemical and instrumental analysis. CH 514 must be taken concurrently. (Offered in Fall Semester.)

Prerequisite: (CH 202 Minimum Grade of D or CH 223 Minimum Grade of D)

Corequisite: CH 514

CH 515 Environmental Toxicology 4 cr

Introduction to the scientific and technical principles of toxicological processes in the context of the ecosystem. Students will understand both the types of major environmental toxicants and how to properly evaluate their toxicity and factors that influence toxicity. Students will recognize and coherently formulate risk assessment and by using the tools and techniques acquired, develop and communicate proposals for remedy.

Prerequisite: (BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C) and (CH 201 Minimum Grade of C and CH 202 Minimum Grade of C) and (CH 540 Minimum Grade of B and CH 541 Minimum Grade of B)

Cross-Listed: EXT 515, MAS 515

CH 540 Biochemistry I 3 cr

Study of fundamental biochemical concepts; emphasis is placed on protein, carbohydrate, and lipid structures as related to their functional behavior, enzyme kinetics and mechanisms of action; thermodynamic relationships in biochemical systems. (Offered Fall Semester.) Requires Graduate status. Cross-listed with BLY 540.

Prerequisite: (CH 202 Minimum Grade of D or CH 223 Minimum Grade of D)

CH 541 Biochemistry II 3 cr

Study of the reactions and regulations of intermediary metabolism; the biochemistry of genetic systems to include regulatory mechanisms and protein synthesis. (Offered Spring Semester.) Requires Graduate status. Cross-listed with BLY 541.

Prerequisite: CH 540 Minimum Grade of B or BLY 540 Minimum Grade of B

CH 543 Lab Studies in Biochemistry 2 cr

Course familiarizes the student with the basic laboratory techniques commonly employed in biochemical research. (Offered Spring Semester.) Requires Graduate status. Cross-listed with BLY 543.

Prerequisite: CH 441 (may be taken concurrently) Minimum Grade of D or CH 540 Minimum Grade of B or CH 541 (may be taken concurrently) Minimum Grade of B

CH 551 Biophysical Chemistry 3 cr

The study of the hydrodynamic and optical properties and methods used to elucidate the structure, conformation and function of biological macromolecules. (Offered as required.)

Prerequisite: (CH 300 Minimum Grade of D or CH 301 Minimum Grade of D or CH 332 Minimum Grade of D) and (CH 440 Minimum Grade of D or BLY 440 Minimum Grade of D)

CH 565 Instrumental Analysis 3 cr

Modern analytical instruments, their operating principles, and their applications. (Offered Fall Semester). Requires Graduate status.

Prerequisite: ((CH 265 Minimum Grade of D and CH 265L Minimum Grade of D) or CH 266 Minimum Grade of D) and (CH 300 Minimum Grade of D and CH 300L Minimum Grade of D) or ((CH 302 Minimum Grade of D and CH 302L Minimum Grade of D) or CH 333 Minimum Grade of D) or ((CH 301 Minimum Grade of D and CH 301L Minimum Grade of D) or CH 332 Minimum Grade of D)

CH 565L Instrumental Analysis Lab 2 cr

Laboratory exercises associated with CH 565. (Offered Fall Semester.) Requires Graduate status.

Prerequisite: ((CH 265 Minimum Grade of D and CH 265L Minimum Grade of D) or CH 266 Minimum Grade of D) and (CH 300 Minimum Grade of D and CH 300L Minimum Grade of D) or ((CH 302 Minimum Grade of D and CH 302L Minimum Grade of D) or CH 333 Minimum Grade of D) or ((CH 301 Minimum Grade of D and CH 301L Minimum Grade of D) or CH 332 Minimum Grade of D)

CH 571 Oxy Trans Proteins Marine Org 3 cr

Study of the structure-function relationship of oxygen transport proteins utilized by marine vertebrates and invertebrates. (Offered as required.) Prerequisite: Graduate status or permission of instructor.

CH 590 Special Topics - 1-4 cr

Study of a significant topic in chemistry. May be repeated for a maximum of four credits when the content varies. Requires Graduate status.

CH 592 Seminar 1 cr

The use of scientific references and journals retrieval. Library assignment may be directed toward preparation of student seminars which are scheduled concurrently. (Offered as required). Requires Graduate status.

CH 594 Directed Studies- 1-4 cr

Literature survey and research under senior staff guidance. May be repeated but not to exceed four credits.

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
CLEMENTS, JOSIE WILLOW (jclements@southalabama.edu)	Chemistry	Instructor	BS, University of South Alabama MSET, University of South Alabama
COYM, JASON W. (jwcoym@southalabama.edu)	Chemistry	Associate Professor	BS, University of Texas- Austin PHD, Florida State University
DAVIS, JAMES H. (jdavis@southalabama.edu)	Chemistry	Professor	AB, University of North Alabama MS, Vanderbilt University PHD, Vanderbilt University
FORBES, DAVID C. (dforbes@southalabama.edu)	Chemistry	Professor	BS, University of Florida PHD, University of Illinois-Urbana
O'BRIEN, RICHARD A. (robrien@southalabama.edu)	Chemistry	Assoc Professor of Instruction	BS, South Dakota State University MS, University of North Dakota PHD, Universit of Nebraska -Lincoln
OERTLI, CHRISTIAN U (cuoertli@southalabama.edu)	Chemistry	Assistant Professor	MS, Swiss Federal Inst of Tech PHD, Swiss Federal Inst of Tech

Degree Requirements

Code	Title	Hours
General Education Requirements		
https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext		50-54
Major Requirements		46
A. Complete the following:		
CH 131 & 131L	General Chemistry I and General Chemistry I Lab	4
CH 132 & 132L	General Chemistry II and General Chemistry II Lab	4
CH 150	Intro to Computer Chemistry	2
CH 201 & 201L	Organic Chemistry I and Organic Chemistry I Lab	4
CH 202 & 202L	Organic Chemistry II and Organic Chemistry II Lab	4
CH 265 & 265L	Introductory Analysis and Introductory Analysis Lab	4
CH 301 & 301L	Physical Chemistry I and Physical Chemistry I Lab-W	4
CH 302 & 302L	Physical Chemistry II and Physical Chemistry II Lab - W	4
CH 401	Intern Inorganic Chemistry	3
CH 440	Biochemistry I	3
CH 465 & 465L	Instrumental Analysis and Instrumental Analysis Lab	5
CH 492	Seminar I	1
B. Select four hours from one or both of the following:		
CH 394	Directed Studies -	4
CH 494	Directed Studies	

Other STEM Requirements

See below for details on required coursework in Mathematics and Physics.

Minor Requirements

A minor is required for this degree program 18-24

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Other STEM Requirements

Code	Title	Hours
Mathematics		
Two semesters of calculus are required, as follows:		
MA 125	Calculus I	4
MA 126	Calculus II	4
Physics		

A Physics or Physics/Mathematics sequence is required. Select one of the following options:

Option 1:

PH 201	Calculus-Based Physics I
PH 202	Calculus-Based Physics II

Option 2:

PH 114	Physics with Algebra-Trig I
PH 115	Physics with Algebra -Trig II
MA 227	Calculus III

Option 3: see footnote table below (p. 147) ¹

PH 114	Physics with Algebra-Trig I
PH 115	Physics with Algebra -Trig II
PH 201	Calculus-Based Physics I

Option 4: see footnote table below (p. 147) ¹

PH 114	Physics with Algebra-Trig I
PH 115	Physics with Algebra -Trig II
PH 202	Calculus-Based Physics II

Footnote

¹ Options 3 and 4 require the approval of the Chair of the Department of Physics.

Graduation Plan

(121 Total Hours)

¹ While the General Chemistry I and II Lecture and Lab are not strict co-requisites, completion of both is required to enroll in any course for which they are a pre-requisite. It is very strongly suggested that CH 131 and CH 131L be taken the same semester, and CH 132 and CH 132L be taken the following semester.

² See General Education Requirements

³ Biochemistry students must take one Physical Chemistry Lecture/Lab pair. CH 301/CH 301L is recommended for Biochemistry students and generally offered in the Fall; CH 302/CH 302L is allowed and generally offered in the Spring.

Chemistry Minor Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Chemistry

A minimum of 12 hours of Chemistry beyond the CH 132/CH 132L course level is required.

This minor will consist of:

Code	Title	Hours
CH 131 & 131L	General Chemistry I and General Chemistry I Lab	4

CH 132 & 132L	General Chemistry II and General Chemistry II Lab	4
CH 201 & 201L	Organic Chemistry I and Organic Chemistry I Lab	4
CH 202 & 202L	Organic Chemistry II and Organic Chemistry II Lab	4
CH 265 & 265L	Introductory Analysis and Introductory Analysis Lab	4
Total Hours		20

Students are advised to consult with the Chair of the Department of Chemistry.

Communication

Department Information

Department of Communication website
<https://www.southalabama.edu/colleges/artsandsci/communication/index.html> (<https://www.southalabama.edu/colleges/artsandsci/communication/>)

The purpose of the Department of Communication is to provide students with core competencies, within the context of a broad liberal arts and sciences curriculum, which will prepare them to be independent, critical thinkers who uphold the highest ethical standards as communication leaders in a global society.

Given this purpose, the Department attempts to meet individual performance and career needs with a flexible curriculum. Students select one of the majors offered and confer with their advisors to plan their courses of study. These focused areas of study help prepare students for a variety of careers in the communication field.

The majors offered in the Department of Communication are: Communication Studies, Digital Film and Television Production, Journalism (Multimedia Journalism and Broadcast Journalism), and Advertising and Public Relations. Students pursuing one of these 4 degrees must also have a minor area.

The department also offers a Master of Arts in Communication, integrating theoretical and research components of mass, interpersonal, and organizational communication, preparing students for work and further academic studies in a lively intellectual environment. The small program size permits students and faculty to work closely together as a community of learners. The program accepts students with a variety of undergraduate degrees and professional experiences.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Honors in Communication

The Communication Departmental Honors program offers undergraduate students an opportunity to prepare for a graduate program or professional career. Students in this program will use their communication skills to develop a formal research project.

To be awarded Departmental honors in communication, students must:

1. Complete the standard requirements for the major in communication.
2. Have an overall institutional GPA of 3.5 or higher (University requirement).
3. Have a minimum 3.5 GPA in all communication courses (Department requirement).
4. Complete a communication research methods course (CA 300) with an earned grade of "B" or higher. This course may be counted toward the communication degree and toward 3 hours of upper division credit.
5. Complete a minimum of 3 credit hours, and no more than 6 credit hours in the Senior Honors Project, CA 499. Students receiving honors in communication will be required to take a minimum of 48 hours in communication (including CA 110).
6. Successfully defend the final research project during an oral presentation to a faculty committee. It is recommended that the student present a summary of the project during the Department's colloquium series and/or another appropriate public forum.

Application procedure - Students must:

1. Have earned an overall institutional GPA of 3.5 or higher and a minimum 3.5 GPA in all communication courses.
2. Apply by April 1 of their junior year.
3. Receive agreement of a tenure-track faculty member of the Department of Communication to serve as mentor, and obtain a letter of recommendation from that faculty member.
4. Receive permission of the Department Chair.

Degrees, Programs, or Concentrations

- Communication (BA) - Communication Studies Concentration (p. 155)
- Communication (BA) - Digital Film & Television Production Concentration (p. 156)

- Communication (BA) - Strategic Communication Concentration (p. 159)
- Communication (MA) (p. 161)
- Communication Minor (p. 162)
- advertising-public-relations-minor/ (<http://bulletin.southalabama.edu/programs-az/arts-sciences/communication/advertising-public-relations-minor/>)
- digital-cinema-television-minor/ (<http://bulletin.southalabama.edu/programs-az/arts-sciences/communication/digital-cinema-television-minor/>)
- journalism-minor/ (<http://bulletin.southalabama.edu/programs-az/arts-sciences/communication/journalism-minor/>)

Courses

CA 100 Intro to Communication 3 cr

Course examines various approaches people take to communicating. Focuses on developing an awareness of how and why we communicate and why we do not always communicate effectively. Includes consideration of variables related to interpersonal, group, public, and mass-communication contexts.

CA 101 Intro to Media 3 cr

Course examines the functioning of communication media in contemporary society including the political, economic and social environment. The structure and functions of newspapers, magazines, film, recording, radio, television, advertising and public relations industries are examined. The impact of the media on individuals and institutions is explored.

CA 110 Public Speaking 3 cr

A beginning study of the principles of speech communication as they relate to speaker-audience communication. The student is provided an opportunity to develop the art of audience and subject analysis, research, critical thinking, organization, language, and delivery of speeches. This course includes a video component. Fee

CA 200 Survey of Comm Theory 3 cr

Introductory survey of theoretical orientations in the field of human communication. Focuses on alternative explanations regarding elements of the communication process, models of communication, the communication act, and the communication relationship.

CA 210 Argumentation 3 cr

Examines the role of argumentation in a democratic society and aims to develop critical thinking and reasoned advocacy. Course makes functional a knowledge of tests of evidence and the modes of logical reasoning. Students participate in various forms of argumentation and debating.

Prerequisite: EH 101 Minimum Grade of C and EH 102 Minimum Grade of C

Cross-Listed: ARG 210

CA 211 Interpersonal Comm 3 cr

A study of communication behavior in the interpersonal setting. Focuses on development of knowledge, trust, understanding, supportiveness, etc., in a relationship, and their collective impact on the communication exchange.

CA 220 Writing Comm Media - W 3 cr

Intensive study of writing for various media and audiences. Specific attention is given to improvement of writing skills, including grammar, punctuation, spelling, word use, sentence composition, Associated Press style, and organization of material, as well as the different formats for the different media. Media styles studied include print, broadcast, on-line journalism, and public relations, which also includes a study of evaluating, documenting, and prioritizing facts in the writing of news stories and media releases for public relations. Computer fee.

Prerequisite: (ACT English 27 or SAT Critical Reading 610 or University - EH101 Exempt P or EH 101 Minimum Grade of C or EH 110 Minimum Grade of D or EH 190 Minimum Grade of D or USA 010 Minimum Grade of S) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

CA 222 Rhetoric, Culture, and Society 3 cr

Course examines rhetoric or the art of persuasion, as it relates to popular culture. Students will apply rhetorical theory to such topics as music, film, and advertising.

Cross-Listed: ARG 222

CA 230 Comm in Organization 3 cr

Application of communication principles and techniques to those aspects of one's life in an organization that have been shown to be the most difficult and troublesome parts of the communication milieu in the world of work. Includes interviewing, conference participation, leadership decisions, conflict management, and organizational change as communication phenomena.

CA 260 Digital Writing and Production 3 cr

This course considers the nature of the digital environment as it relates to communication. Topics include writing in the online environment, effective use of images and multimedia, and basic web design. Computer fee.

CA 275 Decision Making - Small Groups 3 cr

Theory and practice in leading and participating in small group decision making. Special focus on group problem solving and the management of conflict in small group decision-making meetings.

CA 286 Principles of Public Relations 3 cr

An overview of the principles and techniques of public relations. Concentrates on the role of public relations in our society, the audience for public relations, and the mass media as public relations vehicles.

Prerequisite: (ACT English 27 or SAT Critical Reading 550 or University - EH101 Exempt P or EH 101 Minimum Grade of C or EH 110 Minimum Grade of D or EH 190 Minimum Grade of D or USA 010 Minimum Grade of S) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and CA 101 (may be taken concurrently) Minimum Grade of D

CA 290 Special Topics - 1-3 cr

A variable-topics course treating communication concepts and topics relevant to the disciplines. May be repeated once when course content changes for a total of six credit hours.

CA 300 Fnds of Comm Research 3 cr

Introduction to research foundations in the field of communication. Includes historical, critical, descriptive, and experimental methods. Computer fee.

CA 310 Persuasion 3 cr

Basic theories and techniques of persuasion and their application to typical communication situations and problems in today's society.

CA 315 Gender and Communication 3 cr

Examines communication between genders by exploring theoretical perspectives used of gender development, gender socialization, interactions and stereotypes. Includes discussions involving the lesbian, gay, bisexual, transgender and LGBTQ community.

CA 330 Intercultural Communication-W 3 cr

CA 330 is the study of the theory and practice of intercultural communication. This course's goal is to focus on global dialogues within critical organizational incidents. This course has three objectives: to explain the culture-based situational conflict model; to integrate theory and practice in the discussion of organizational conflict; and to provide an excellent opportunity for writing within the organizational communication content areas.

CA 351 Social Effects Mass Comm 3 cr

Examination of the interaction between mass communication and the social institutions of American society. Current research literature in the field will be analyzed and methods of improving the system will be discussed.

Prerequisite: CA 200 Minimum Grade of D

CA 360 Comm and the Internet 3 cr

Intensive study and application of rhetorical and communication theories to understanding problems that arise as the Internet and the World Wide Web begin to render fixed media-based communication obsolete. Implications for advertising, journalism, organizational record keeping and management, interpersonal communication, training, entertainment, etc. Computer fee

CA 366 Visual Info Electron Com Media 3 cr

Rhetorical issues in the design of Internet and World Wide Web materials. Focus on how motion, color, and other visual elements compete for audience attention; how rhetorical theory, learning theory, and communication theory inform the myriad decisions involved in visual presentation. This course will address these rhetorical issues from the creator's and user's view point. Computer fee

CA 385 Magazine Writing and Editing 3 cr

CA 385 is designed to give students a broad overview of the magazine industry and its current trends, while also teaching them the skills needed to become successful magazine writers.

Prerequisite: (CA 220 Minimum Grade of D or CA 280 Minimum Grade of D)

CA 386 Public Relations Comm Meth - W 3 cr

The course provides a framework for the development of solidly written pieces for the public relations professional. It examines the techniques and approaches to communication tools across various media channels including traditional, nontraditional and digital media as well as strategies and tactics of public relations campaigns for internal and external audiences. Prerequisites: CA 220 and CA 286. Computer fee.

Prerequisite: (CA 220 Minimum Grade of D or CA 280 Minimum Grade of D) and CA 286 Minimum Grade of D

CA 388 History of the Mass Media 3 cr

The role of journalism in American society from the Revolution to the present. This course is also listed as History 388.

Cross-Listed: HY 388

CA 390 Special Topics - 1-3 cr

An advanced variable-topic course treating communication concepts and topics relevant to the discipline. May be repeated twice for up to six hours credit.

CA 394 Dir St - 1-3 cr

Directed individual study of literature in an area of need and interest to the student. May be repeated for a maximum of six hours credit.

CA 410 Advanced Persuasion 3 cr

An advanced examination of an application of persuasive techniques in communication situations and contexts (e.g. field, laboratory, interpersonal, small group, nonverbal, mass communication).

CA 411 Relational Communication 3 cr

An examination of issues, theories, research and skills that apply to managing and nurturing close relationships. Emphasis is given to applying course concepts to promote relational growth and manage interpersonal conflict through interaction in relationships.

CA 422 Rhetorical Theory 3 cr

A broad survey of the Western rhetorical tradition designed to give students a working knowledge of rhetoric and its historical and contemporary influence on communicative events and perspectives.

CA 424 Rhetorical Criticism - W 3 cr

This course is designed to introduce students to the process of rhetorical analysis. Through criticism of communication artifacts, students learn to identify key elements of the rhetorical process and to develop critical thinking, writing, and viewing skills. The course prepares students to interpret, understand, analyze, and critique communication in diverse contexts including speeches, advertisements, interpersonal conversations, films, and works of art to name a few. Culminating experience for communication studies students.

Prerequisite: (ACT English 27 or SAT Critical Reading 610 or University - EH101 Exempt P or (EH 101 Minimum Grade of C or EH 110 Minimum Grade of D or EH 190 Minimum Grade of D or USA 010 Minimum Grade of S)) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

CA 425 Issues in Rhetoric 3 cr

Close examination of a single contemporary rhetorical phenomenon. Topics will rotate based upon disciplinary relevance and student needs. May be repeated once for credit when content varies for a maximum of six credits.

CA 430 Adv Organizational Communicatn 3 cr

Study and application of organizational and communication theory of assessment of organizational and communication needs. Critical analysis of intervention programs and strategies.

Prerequisite: CA 230 Minimum Grade of D

CA 435 Comm Training-Dev Programs - W 3 cr

Review and analysis of communication training and development programs designed to solve communication problems in groups and organizations. Students will develop and present a training or development program. Computer fee

CA 443 Film History 3 cr

An examination of the development of motion pictures from 1893 to the present. Films representing major periods, movements, and styles will be examined.

CA 444 Film & TV Aesthetics 3 cr

A study of the formation and evolution of film and television genres. Selected genres will be studied in terms of their structure and cultural history.

CA 445 Ethics-Social Respons Comm 3 cr

Study of social responsibility and ethics in communication. Acquaints student with ethical standards and expectations society has for communicators. Capstone Course. Requires Junior or Senior standing.

CA 449 Mass Media Social Effects 3 cr

Examination of the interaction between mass communication and American society. Current research literature in the field will be analyzed and methods of improving the system will be discussed.

Prerequisite: CA 101 Minimum Grade of D

CA 453 Campaign and Election Comm 3 cr

Provides students with a broad overview of political communication from both historical and contemporary perspectives so students may understand how the subject has evolved over time to become a unique field of theoretical and research interest. Special attention is paid to campaigns and elections, agenda-setting research, and media power. The major focus is on the United States.

Prerequisite: CA 100 Minimum Grade of C or CA 101 Minimum Grade of C or PSC 130 Minimum Grade of C

Cross-Listed: PSC 453

CA 455 Law of Communication 3 cr

Study of the broad application of principles of law to American Communication, including study of free speech, freedom of information, mass media law and regulation including libel, copyright, and right of privacy.

CA 456 Social Media and Politics 3 cr

An examination of how and why digital information technologies are used by citizens, activists, journalists, and politicians to shape and influence individual's political participation and engagement and public policy and society.

Prerequisite: (PSC 130 or CA 100 or CA 101)

Cross-Listed: PSC 456

CA 460 Comm. Technology Systems 3 cr

An examination of the new communication technology systems with an emphasis on how they reconfigure patterns of communication organizations, production, storage, and dissemination. The role of communication technology systems today and tomorrow, and implications for organizational, local, national, and international contexts will be studied. Computer fee.

CA 475 Comm-Group Processes 3 cr

The nature of small group processes. Leadership, communication, and decision making in small groups.

CA 476 Advertising Campaigns I 3 cr

The course is one of a two course sequence and is the first half of the advertising concentration capstone. It synthesizes previous courses within the communication curriculum. Students will research and develop a strategic advertising plan for a national client.

Prerequisite: (CA 321 Minimum Grade of D or CA 365 Minimum Grade of D) and CA 322 Minimum Grade of D

CA 478 Advertising Campaigns II 3 cr

Students develop a strategic integrated advertising campaign for a selected client. Campaign development includes the integration of research, planning and objective setting, branding, message, media and creative strategies, promotions, budgeting and evaluations. Culminating experience for advertising and brand communication students. **Prerequisite:** CA 476.

Prerequisite: CA 476 Minimum Grade of D

CA 484 Managing Public Relations 3 cr

Study of the operation and objectives of corporate and agency public relations using the case study approach. Emphasis is given to relating the management function of decision-making and policy formation to the communication process.

Prerequisite: CA 300 Minimum Grade of D and CA 386 Minimum Grade of D

CA 490 Special Topics 1-3 cr

An advanced variable-topic course treating communication concepts and topics relevant to the discipline. May be repeated twice for up to six hours credit.

CA 492 Seminar - 1-3 cr

An investigation of advanced topics and concepts of communication. Topics will rotate based upon disciplinary relevance and student need. May be repeated once for credit when content varies for a maximum of six credit hours.

CA 494 Directed Studies 1-3 cr

Investigation of questions of special interest in communication. May be repeated to a maximum of six semester hours, provided no repetition of subject matter occurs. Students are required to file a description of their goals and objectives for their study. This description is to be specific so that it can serve in place of a syllabus for this course.

CA 496 Prof Studies - Internship 1-3 cr

On-the-job experience in a selected communication area related to potential career selection. Supervision by communication advisor and off-campus agency required. The Internship Program may be repeated for up to six credits. Requires prior approval of internship coordinator and student's advisor. Internship candidates must have at least a 2.5 overall GPA and at least a 2.75 major GPA.

CA 499 Senior Honors Project - H 3-6 cr

Under the advice and guidance of a faculty mentor, honors students will identify and carry out a research project, relevant to the field of Communication study, that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty chaired by the honors mentor. This course is required for Honors recognition and may be repeated for up to six credit hours.

CA 500 Found Graduate Study Comm 3 cr

This three-hour course provides an introduction to graduate study in the University of South Alabama Communication Department and an introduction to academic writing. This is a web-enhanced course. We will meet throughout the semester face-to-face in seminar format and in an informal "Meet and Greet" for graduate students and faculty.

CA 501 Qualitative Research Methods 3 cr

An in-depth study of a variety of qualitative research methodologies and their use in communication research, along with study of the use and practical applications of mixed-method and triangulation research methods.

CA 502 Communication Theory 3 cr

A survey of the theoretical perspectives that guide the study of communication. Competing and complementary epistemological frameworks will be compared.

CA 503 Quantitative Research Methods 3 cr

An investigation of research used in the study of communication; in-depth study of a variety of quantitative methodologies used in basic and applied communication research settings; study of statistical applications and practical interpretations.

CA 510 Persuasion in Professional Com 3 cr

Advanced analysis and development of persuasive messages and argumentative strategies. Ethical responsibilities of the message sender will also be addressed.

CA 511 Theor Found in Interper Comm 3 cr

Review of the interpersonal communication research literature with respect to the process of mutual adaptation and negotiation. The social and psychological processes constraining and organizing interpersonal communication will be studied. Topics include verbal and nonverbal codes, message production and interpretation, conversation management, relationship definition, and interpersonal communication competence.

CA 522 Rhetorical Strategy Prof Comm 3 cr

A broad survey of the Western rhetorical tradition designed to give students a working knowledge of rhetoric and its historical and contemporary influence on communicative events and perspectives.

CA 524 Rhetorical Criticism 3 cr

This course is designed to introduce students to the process of rhetorical analysis. Through criticism of communication artifacts, students learn to identify key elements of the rhetorical process and to develop critical thinking, writing, and viewing skills. This course prepares students to interpret, understand, analyze, and critique communication in diverse contexts including speeches, advertisements, interpersonal conversations, films, and works of art to name a few.

CA 525 Issues in Rhetoric 3 cr

Close examination of a single contemporary rhetorical phenomenon. Topics will rotate based upon disciplinary relevance and student needs. May be repeated once for credit when content varies for a maximum of six credits.

CA 530 Analysis of Comm in Orgs. 3 cr

Analysis of interpersonal, dyadic, group, and organization-wide communication events that occur in organizational settings. Attention will be directed to the network of messages that occur in organizations and the organizational change that occurs when a message system is disrupted or changed. Organizational communication research methodologies will be introduced.

CA 535 Comm. Training & Develop Prog. 3 cr

Review and analysis of communication training and development programs designed to solve communication problems in groups and organizations. Students will develop and present a training or development program.

CA 542 Moving Image Structure 3 cr

An analysis of moving-image form and process makers who supervise, produce, and/or evaluate electronic and/or film media for organizations. Theories of narrative and of moving-image syntax provide principles for structuring media content and managing the production process.

CA 545 Communication Ethics 3 cr

Advanced analysis and interaction between organizations and the social institutions of American society. Study of the literature and communication ethics and social responsibility.

CA 549 Media Effects 3 cr

A study of the role of corporate and public communication in the American social structure, including mass media extensions and impact upon institutions. Consideration of historical, legal, social, and economic issues.

CA 555 Corp. and Public Comm. Law 3 cr

A survey of the law as it deals with public communication. The course provides a working knowledge of First Amendment theory, copyright, trademark, advertising, contracts, access and administrative laws as they relate to the public relations environment.

CA 560 Social Media Management 3 cr

This course explores the roles, scopes, functions and impact of social media in communication, society, and business. Social media have caused a paradigm shift in the communication landscape. This course will teach students how to critically examine the dynamics of social media in different areas of global communication. We will investigate theoretical and research phenomena of social media management.

CA 561 Teaching & Professionalism 3 cr

This course will explore the practice of teaching and learning. In this course, the primary goal is to help students to make the transition from student to future colleague, thus there will also be a heavy emphasis on professionalization in the communication studies discipline.

CA 570 Audience Dynamics 3 cr

CA 570 explores how audience dynamics (attitudes, feelings, beliefs, experiences, values, needs, and behavior) influence message development in public relations and advertising campaigns.

CA 575 Investigation of Group Comm. 3 cr

An in-depth analysis of group communication theories. Topics to be covered include decision making, conflict, conformity, leadership, and observation methods.

CA 576 Historical Perspectives of SC 3 cr

An in-depth study of the field of strategic communication focusing specifically on the cultural history of advertising and public relations, as well as the contemporary issues, problems, and challenges facing these industries.

CA 585 Reputation Management 3 cr

CA 585 is designed to provide graduate students with a working knowledge of public relations crisis management. Course material focuses on actions to take and actions to avoid in handling a crisis situation from a public relations perspective, and how to work with management, employees, affected publics and the media.

CA 587 Tideline Student Agency 3 cr

This course allows graduate students to create and execute advertising and public relations strategies in an agency setting for select clients. Graduate students will have a supervisory role on assigned projects.

CA 590 Sp Top in Comm - 1-3 cr

A detailed examination of selected topics in communication theory. Topic announced prior to registration. Course may be repeated once when subject matter varies.

CA 592 Seminar in Comm Theory 1-3 cr

Departmental seminar investigating a selected field of communication theory through in-depth evaluation of its accompanying body of literature. Topic announced prior to registration. Course may be repeated once when subject matter varies.

Prerequisite: CA 500 (may be taken concurrently)

CA 594 Dir St in Communication - 1-3 cr

Independent research in field, laboratory, or library under the direction of a member of the graduate faculty.

CA 596 Professional Studies - Intern 1-3 cr

This course offers on-the-job experience related to student's course work in the Master of Arts in Communication program. Before enrolling in CA 596 students will consult with the Communication Department Graduate Coordinator regarding internship opportunities and eligibility.

CA 599 Thesis 1-3 cr

Students work independently to plan, research, and write results of an original research project. Students must have completed 24 hours of course work before enrolling in this course. Six credit hours of this course is required to complete the MA Thesis Option Degree in Communication. However, no more than 3 credit hours may be taken in any one semester without the expressed permission of the graduate faculty.

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
ARIF, DELAWARE (darif@southalabama.edu)	Communication Arts	Associate Professor	BA, University of Dhaka MA, University of Dhaka MA, Southern Illinois U-Carbondale PHD, Southern Illinois U-Carbondale

Communication (MA)

Degree Requirements

Graduate Studies

The Master of Arts in Communication integrates theoretical and research components of mass, interpersonal and organizational communication, preparing students for work and further academic studies. The graduate faculty combines applied knowledge with communication theory as they engage students to think critically about current communication issues and practices. Courses examine how communication creates, sustains, and changes organizations, political institutions, and society as a whole.

The graduate faculty combines applied knowledge with communication theory as they engage students to think critically about current communication issues and practices. Courses examine how communication creates, sustains, and changes organizations, political institutions, and society as a whole.

The program curriculum consists of 33 credit hours, including a 6-hour core, and 27 hours from elective courses from the Communication and other university departments.

Thesis/Non-Thesis Option

The program provides a thesis or non-thesis option. The non-thesis curriculum consists of 33 credit hours, including a 6-hour core, 27 hours of elective courses. The thesis curriculum consists of 33 credit hours, including a 6-hour core, 21 hours of elective courses, and 6 credit hours toward completion of a thesis.

Thesis hours count toward degree completion only when a thesis is completed. In the event of non-completion, students will substitute 6 additional credit hours to complete the non-thesis degree option.

Requirements for Admission

All applications must receive approval from the Graduate Program Coordinator, the Director for Graduate Studies for the College of Arts and Sciences, and the Graduate Dean. Students are admitted each semester and must meet the following requirements:

Regular Admission

A bachelor's degree from an institution accredited by the appropriate United States accrediting agency or equivalent for international institutions.

Official copies of undergraduate transcripts.

Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.

International Students

- International students must submit documentation of TOEFL test scores of 250 on computer-based test or 100 on internet-based test, or a minimum score of 7 on the IELTS.
- A documented evaluation by the USA host department to be conducted by video teleconference.
- Students who are required to take the English Language Proficiency Examination and whose scores suggest an English language deficiency must take the appropriate English as a Second Language courses. These courses are not counted as part of the 33-hour degree program.

Non-Degree Admission

Students may register for and complete up to 15 hours without formal entrance into the program.

Degree Requirements and Courses

Students must complete a minimum of 33 semester hours of credit in approved 500-level courses. A minimum of 27 semester hours must be completed at the University of South Alabama. At least 27 semester hours must be taken in communication.

Core Courses

The following 6 hours are required and must be completed at the University of South Alabama.

- CA 502 (generally offered in the fall semester)
- CA 503 (generally offered in the spring semester).

Although students are advised to take CA 502 and CA 503 sequentially, they are not required to do so.

Remaining Courses

- With advisor approval, students may take up to 6 of the 33 required graduate hours outside of the Communication Department. Students should work closely with their advisors to develop a plan of study. After completing the two required courses, the remaining hours (excluding any directed studies, courses outside the department, or thesis hours for those on the thesis-track) may be selected from any CA 500-level courses.

Directed Studies

CA 594

Directed study courses involve independent study of a communication topic. The purpose is to provide study in an area of specialization not covered by an existing course.

- The student must submit a topic proposal to a graduate faculty member. Once the topic is approved, both the faculty member and the student must sign a contract describing student expectations and outcomes and grading criteria.
- The student can register for between 1 and 3 credit hours in CA 594 courses with course requirements determined accordingly.
- The student may take a maximum of 3 hours in directed study coursework.

Grade Requirements

- A minimum of a 3.0 GPA on all work attempted is required for graduation.
- Courses in which a student receives a "D" or below will not be counted toward the degree program.
- A maximum of 2 courses with a grade of "C" will be counted toward the degree program.
- Students receiving 3 grades of "C" or below, regardless of the overall GPA, will be dismissed from the program.
- A student who receives a failing grade in a course for graduate credit may be dismissed from the program.

Time Limitations

- All degree requirements must be completed within 7 calendar years.
- Most students who take 9 hours per semester complete the degree within a 2-year period.
- The time required for degree completion depends on how many courses a student can take each semester.

Course Load

- Two or three courses (6-9 credit hours) per semester constitute a full-time course load.

Accelerated Bachelor's to Master's Program in Communication Option

Program Description

The USA accelerated bachelor's to master's (ABM) in Communication provides exceptional undergraduate students the opportunity to earn a bachelor's and master's degree at an accelerated pace.

Communication majors with a major in Advertising and Public Relations are encouraged to apply for the Accelerated Bachelor's to Master's Program in Communication (ABM). Students pursuing concentrations outside of Advertising and Public Relations are also encouraged to apply.

This program is designed to allow students to complete the Bachelor's degree in Advertising and Public Relations and the Master of Arts degree in Communication in five years.

Admission Procedures

Admission will be a competitive process. The minimum standards are:

- Completed at least 90 credit hours
- Completed at least 30 credit hours at USA
- An overall GPA of 3.3 (Cumulative and AD/PR)
- Two letters of recommendation.

Admission will be based on characteristics of the applicant and research match to the Communication faculty.

Once admitted into the ABM program, students must maintain at least a 3.0 GPA and remain in good standing in order to stay in the program.

Credit Hour Requirements

Completion of the ABM program requires students complete at least 150 approved unique credit hours. To qualify for a baccalaureate degree, a student must complete at least 120 approved semester hours. To qualify for a master's degree a student must complete a minimum of 30 approved semester hours. Generally, undergraduate students are not approved to take more than 12 credit hours of graduate coursework.

Program Procedures

ABM students may begin taking graduate courses after completing at least 90 hours of undergraduate credit.

Upon completing the undergraduate degree, students will apply to the Master of Arts in Communication program. ABM students, who are in good standing, will be accepted into the Master of Arts in Communication program.

Completion of the Master of Arts in Communication requires successful completion of all requirements, including at least 33 graduate credit hours. Graduate credit taken while an undergraduate that is completed with at least the grade of B will be transferred into the Master's program upon acceptance into the program and will apply toward the 33 hours required for the Master of Arts in Communication degree, as long as the requirement of 150 approved unique undergraduate credit hours and 30 unique graduate credit hours is met.

A student who withdraws or is dismissed from the ABM program may not count graduate coursework towards both degrees. Graduate courses for which an undergraduate student did not earn an "A" or "B" grade, may not be counted towards the graduate degree.

An ABM student must be a full-time student and must complete all degree requirements for the master's within three semesters of the semester in which they were admitted to the Graduate School. An exception for a fourth semester may be granted where an additional semester is required for final revisions to and submission of a defended thesis. Exceptions to the ABM policy are at the discretion of the Dean of the Graduate School.

To qualify for a baccalaureate degree a student must complete a minimum of 120 approved semester hours, meet the university's general education requirements, meet the requirements of the major, and meet any specific requirements of the college or school. To qualify for a master's degree a student must complete a minimum of 30 semester hours of credit in an approved program of study.

Communication Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Communication

Minors in Communication must complete a total of 18 hours in communication including 9 upper division hours.

Earth Sciences

Department Information

Department of Earth Sciences website
<http://southalabama.edu/colleges/artsandsci/earthsci/>

The Department of Earth Sciences includes the disciplines of Geography, Geology, and Meteorology, and it offers a B.S. degree as well as a minor in each of these three majors. Students can also earn a GIS Certificate and/or a minor in Geographic Information Technology (GIT) Geography, which is both a natural and a social science, studies the location, spatial distribution, and spatial interaction of Earth's natural and human environments. Courses and research in the program encompass the broad subfields of Human Geography (for example, tourism, health, and social justice), Physical Geography (like climatology, natural hazards, and environmental geography), Regional Geography (International Economics and Relations), and Geographic Techniques, including Geographic Information Science and Technology (GIS/GIT) and Remote Sensing. Upon completing their degree, geography students are employed in government, industry, and nonprofits in multiple kinds of work environments (includes field, lab, computer, office and work).

Geology is an interdisciplinary physical science pertaining to the study of the Earth. Courses and research within the department address the chemical and physical properties of minerals, rocks, soils, sediments, and water; the processes that shape the Earth's surface; the stratigraphic, paleobiological, and geochemical records of Earth history; and the

processes associated with deformation in the Earth's crust and mantle. Together an understanding is obtained of present-day, historical, and long-term feedbacks between global systems, as well as the origin and occurrence of our natural resources.

Meteorology is the study of atmospheric phenomena and the processes that cause weather. The science of meteorology is firmly rooted in basic physical laws governing mass, momentum, and energy. Many weather processes are simulated by complex computer models; however, accurate weather analysis and forecasting often requires meteorologists to identify and conceptualize weather patterns often missed by automated techniques.

The programs of the Department of Earth Sciences are designed to give the non-major a background in Earth and atmospheric science and the human impact on the landscape as part of a general education. Students pursuing a degree in Geography, Geology, or Meteorology must also have a minor in another discipline.

The Department of Earth Sciences offers a departmental honors program that allows exceptional students to pursue independent research. Students work with a faculty committee to choose an Earth Sciences research project (Geography, Geology, Meteorology), develop a prospectus, and complete a senior thesis. Students completing this program graduate with departmental honors.

Requirements for successful completion of an honors degree in Geography, Geology, or Meteorology include a GPA of at least 3.50 at graduation and completion of ES 492 (Honors Earth Sciences Seminar), ES 497 (Senior Thesis Prospectus), and six hours of ES 499 (Senior Honors Thesis). These classes are in addition to those required for the major in Geography, Geology, or Meteorology. All honors courses are listed under the prefix ES. Students interested in Earth Sciences honors must apply for the program by their junior year. Complete requirements are available on the departmental web page.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry. Students must demonstrate technology proficiency by passing the designated class in their major. GEO 331 for Geography majors, GY 301 for Geology majors, or MET 455 for Meteorology majors.

Graduate Studies

Although the Department of Earth Sciences has no graduate degree program, courses, including Geographic Information Technology (GIT), are offered at the graduate level for students enrolled in Biology, Public Administration, Marine Sciences and Environmental Toxicology, and others who need such course work. Contact the Department for more information.

Degrees, Programs, or Concentrations

- Geographic Information Science (GIS) Certificate (p. 174)
- Geographic Information Technology Minor (p. 174)
- Geography (BS) (p. 174)
- Geography Minor (p. 175)
- Geology (BS) (p. 176)
- Geology Minor (p. 177)
- Meteorology (BS) - Broadcast Met Track (p. 177)
- Meteorology (BS) - Graduate School Track (p. 179)

- Meteorology (BS) - Professional Track (p. 180)
- Meteorology Minor (p. 181)

Courses

Earth Sciences (ES)

ES 301 Writing for the Earth Sci -W 3 cr

This course is designed to introduce students to basic scientific writing skills. Participants will review the general principles of clear writing and will apply these principles to writing for a specific audience. Particular emphasis will be placed on conveying the significance of research, outlining the aims, and discussing the results for scientific papers.

Prerequisite: EH 101 Minimum Grade of C or EH 102 Minimum Grade of C

ES 492 Honors Earth Sciences Sem - H 3-4 cr

Multidisciplinary (Geography, Geology, Meteorology) topics not covered in current Department of Earth Sciences courses. Topic announced prior to registration. Prerequisites: acceptance into the University Honors Program, the Earth Sciences Departmental Honors Program, or by permission of the Chair of Earth Sciences. (Completion of this course is required for the Earth Sciences Departmental Honors students)

ES 497 Senior Thesis Prospectus - H 2 cr

With the guidance and advice of a Senior Thesis Committee, students will identify a suitable research project in Earth Sciences (Geography, Geology, Meteorology) and develop a thesis prospectus to conduct this research during their senior year. The Senior Thesis prospectus will be evaluated by the committee which must pass it before thesis research can formally begin. Prerequisites: establishment of a senior thesis committee; acceptance into the Departmental Honors Program.

ES 499 Senior Honors Thesis - H - W 3 cr

With the guidance and advice of a Senior Thesis Committee, students will carry out an in-depth research project in Earth Sciences (Geography, Geology, Meteorology) according to an accepted Thesis Prospectus during their senior year. This course will be repeated for up to six (6) credits. Prerequisites: Geography, Geology, Meteorology major, senior status; acceptance into the Departmental or University Honors Program.

Prerequisite: ES 497 Minimum Grade of C or HON 301 Minimum Grade of C and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Geography (GEO)

GEO 101 Environmental Geography 3 cr

Study of the Earth's environment, specifically: Weather, Climate Change, Vegetation, and Ecosystem Science with an emphasis on connections between the atmosphere, biosphere, and human influence.

Corequisite: GEO 101L

GEO 101L Environmental Geography Lab 1 cr

Laboratory exercises associated with GEO 101. GEO 101 must be taken concurrently. Together, GEO 101 and GEO 101L count as one laboratory science course, partially fulfilling general education requirements.

Corequisite: GEO 101

GEO 102 Earth and the Environment 3 cr

Study of the Earth's environment, specifically volcanoes, earthquakes, and landforms created by water, ice, and wind, emphasizing human influence on the physical environment and vice versa.

Corequisite: GEO 102L

GEO 102L Earth and the Environment Lab 1 cr

Laboratory exercises associated with GEO 102. GEO 102 must be taken concurrently. Together, GEO 102 and GEO 102L count as one laboratory science course, partially fulfilling general education requirements.

Corequisite: GEO 102

GEO 114 People, Places, Environment 3 cr

Explore human interaction and manipulation of the environment through population, economics, politics, urban development, and local cultures, emphasizing geography's spatial approach to solving societal problems.

GEO 115 World Regional Geography 3 cr

A survey of the major regions of the world, excluding North America, and the interrelationship of environmental, cultural, economic, and political factors that characterize each. Core Course.

GEO 201 Geography Orientation 1 cr

This 1-credit hour course will cover topics that are important to geography students, such as: which geography courses to choose, the major sub-disciplines of geography, and career choices available for geography majors. You will meet the Geography faculty as they give brief overviews of the courses they teach and their research interests. Field trips, which will generally take place during the class time, are included in the course and will showcase examples of the research interests of faculty members. Core Course.

GEO 310 Environmental Earth Science 3 cr

A spatial perspective on major global environmental problems. Topics include population pressure; loss of biodiversity; ozone depletion; global warming; water, energy, and mineral resources, food supplies, waste disposal, geologic hazards, and political/economic forces (identical to GY 310).

Prerequisite: (GY 101 Minimum Grade of D or GY 111 Minimum Grade of D) or GEO 101 Minimum Grade of D or GEO 102 Minimum Grade of D

Cross-Listed: GY 310

GEO 312 World Economic Geog 3 cr

Emphasis is placed on the location, spatial distribution, and spatial interaction of economic activities within a global context. Topics covered include population, natural resources, primary, secondary and tertiary activities, development and international trade and aid. Students will write technical reports using word processing and spreadsheet software.

Prerequisite: GEO 114 Minimum Grade of D and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

GEO 313 Geography of U.S. and Canada 3 cr

An analysis of the environmental, historical, cultural, and economic factors that create the spatial patterns, development processes and distinctiveness of Canada and the United States.

GEO 314 Geography of Europe 3 cr

An analysis of the environmental, historical, social and economic factors that create the diversity of countries and their unique spatial characteristics on the subcontinent of Europe.

GEO 315 Geography of Latin America 3 cr

A systematic survey of Latin America landscapes. Attention is directed to natural resources, human activities and regional differentiation.

Prerequisite: GEO 101 Minimum Grade of D or GEO 102 Minimum Grade of D or GEO 114 Minimum Grade of D or GEO 115 Minimum Grade of D

GEO 320 Alabama Geography 3 cr

Spatial study of physical and human features in Alabama. Includes geomorphology, climate, vegetation, agriculture, development, population, and environmental issues within the state.

Prerequisite: (GEO 101 Minimum Grade of D or GEO 102 Minimum Grade of D or GEO 114 Minimum Grade of D or GEO 115 Minimum Grade of D) and (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

GEO 321 Nat'l Parks Conservation 3 cr

An analysis of the motives and processes for establishing national parks and nature reserves, the primary conservation and preservation issues they have and the influences of ecology, politics, and culture on their planning and management. U.S. national parks are emphasized.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and (GEO 101 Minimum Grade of D or GEO 102 Minimum Grade of D or GEO 114 Minimum Grade of D or GEO 115 Minimum Grade of D)

GEO 331 Computer Graphs and Maps 4 cr

Introductory review of the application of computers to the production of graphs and thematic maps for geographical analysis. Core course. Meets computer proficiency requirement for Geography majors.

GEO 332 Remote Sensing I 4 cr

Interpretation of maps, air photos and satellite images (identical to GY 332). Core course.

Cross-Listed: GY 332

GEO 342 Severe Weather 3 cr

A study of the cause, structure and impact of tornadoes, hurricanes, thunderstorms, and severe weather systems (Identical to MET 342). Prerequisite: GEO 353 or MET 353. Minimum grade of 'C' needed in course prerequisite.

Prerequisite: (GEO 353 Minimum Grade of C or MET 353 Minimum Grade of C)

Cross-Listed: MET 342

GEO 353 General Meteorology 4 cr

An overall view of the field of meteorology for science majors and minors. This course uses a quantitative approach to study the composition of the atmosphere, atmospheric processes, global circulation, and storm development (identical to MET 353). Prerequisites: MET 140, MET 140L, and MA 112. Minimum grade of 'C' needed in course prerequisites.

Prerequisite: (MA 112 Minimum Grade of C or MA 171 Minimum Grade of C) or (MA 113 Minimum Grade of C or MA 172 Minimum Grade of C) or (MA 125 Minimum Grade of C or MA 132 Minimum Grade of C) and (MET 140 Minimum Grade of C and MET 140L Minimum Grade of C)

Cross-Listed: MET 353

GEO 353L General Meteorology Lab 1 cr

Laboratory exercises associated with GEO 353. Particular attention is given to hands-on weather analysis of meteorological charts.

Corequisite: GEO 353

Cross-Listed: MET 353L

GEO 365 Urban Geography and Planning 3 cr

Concentrates upon the evolution and function of the urban spatial system, and upon the internal spatial structure of an urban area's residential, commercial, and industrial land use. This course also introduces basic concepts and strategies of urban and regional planning with a focus on the domestic realm.

Prerequisite: GEO 114 Minimum Grade of D or GEO 115 Minimum Grade of D

GEO 370 International Tourism 3 cr

The study of the components of the Tourism industry, their spatial distribution, the environmental and cultural effects of Tourism, and the requisites and techniques for planning tourism development.

Prerequisite: (GEO 101 Minimum Grade of D or GEO 102 Minimum Grade of D or GEO 114 Minimum Grade of D or GEO 115 Minimum Grade of D)

GEO 381 Cultural Geography 3 cr

Study of the development and differentiation of cultural landscapes and the economic, political, technological, and cultural processes that shape them. Prerequisite: GEO 114 or GEO 115.

Prerequisite: (GEO 113 Minimum Grade of D or GEO 115 Minimum Grade of D) or GEO 114 Minimum Grade of D

GEO 404 Geography of Alcohol 3 cr

By synthesizing ideas considered in lectures, readings, discussions with industry experts, and through practical lab experiments, students will learn about the historical, political, economic, and environmental footprint of the global alcohol industry and its place in society.

Prerequisite: (GEO 101 Minimum Grade of C or GEO 102 Minimum Grade of C or GEO 114 Minimum Grade of C or GEO 115 Minimum Grade of C)

GEO 405 Natural Hazards and Disasters 3 cr

An overview of natural hazards and disasters from a scientific perspective that focuses on the occurrence and impact of environmental hazards, such as volcanoes, earthquakes, tsunamis, floods, mass movements, and coastal hazards. Mitigation techniques used to make the human environment more resilient against natural hazards are also covered. In addition, the viewpoint of hazard and emergency managers toward natural disasters will be studied.

Prerequisite: GEO 102 Minimum Grade of C or (GY 101 Minimum Grade of C or GY 111 Minimum Grade of C)

GEO 410 Biogeography 3 cr

Analysis of spatial patterns of life on earth. Biogeography emphasizes the influence of the physical environment, paleogeography, and past and possible future climate change on the biomes and biogeographic realms.

Prerequisite: GEO 101 Minimum Grade of D

GEO 411 Soils 3 cr

A review of soil formation, processes and properties (identical to GY 411).

Prerequisite: GEO 102 Minimum Grade of D

Cross-Listed: GY 411

GEO 414 Urban Geography & Planning 3 cr

Concentrates upon the evolution and function of the urban spatial system, and upon the internal spatial structure of an urban area's residential, commercial, and industrial land use. This course also introduces basic concepts and strategies of urban and regional planning with a focus on the domestic realm.

Prerequisite: (GEO 114 Minimum Grade of D or GEO 115 Minimum Grade of D)

GEO 417 Health and Place 3 cr

This course illustrates how geographic concepts help us better understand health and well-being, through the exploration of theories, methodologies, and contributions of medical geography to the social and health sciences. Using spatial tools, such as mapping and Geographic Information Systems, this course will examine the geographical patterns of health and disease. This course encourages students to examine the theoretical and technological tools geography brings to topics related to health and provides them with a foundation for studying geographic differences in health and health services.

Prerequisite: EH 102 Minimum Grade of C

GEO 420 Geostatistics 3 cr

Applied bivariate and multivariate statistics to problems in Geography, Geology, and Meteorology; parametric and non-parametric procedures in correlation, regression, analysis of variance, etc. Time series analysis, trend surface analysis, and kriging and analysis of spatial (map) data. Identical to GY 420.

Prerequisite: ((GY 111 Minimum Grade of C and GY 111L Minimum Grade of C) or GY 101 Minimum Grade of C) or ((GY 112 Minimum Grade of C and GY 112L Minimum Grade of C) or GY 103 Minimum Grade of C) and (MA 112 Minimum Grade of C or MA 171 Minimum Grade of C) or (ST 210 Minimum Grade of C or ST 175 Minimum Grade of C)

Cross-Listed: GY 420

GEO 435 Research Methods Geography 3 cr

This course serves as an introduction to geography as a research discipline. Emphasis is placed on geographic problem solving, data collection, data analysis, and reporting. Micro computer oriented statistical and mapping packages will be used to analyze geographic data. Prerequisites: Junior standing. Core course.

Prerequisite: ST 210 (may be taken concurrently) Minimum Grade of D

GEO 440 Coastal Zone Management 2 cr

A review of ecological features and of management policies for coastal communities with a description of relevant federal and state programs. Taught only at Dauphin Island Sea Lab.

GEO 441 Coastal Climatology 2 cr

Study of the controlling factors and features of the world's climates, with particular attention to coastal areas, and application and interpretation of climate data. Taught only at Dauphin Island Sea Lab.

GEO 442 Remote Sensing II 2 cr

Analysis of remotely sensed digital data for detection and mapping of earth resources (identical to GY 442). Prerequisite: GEO 332 or GY 332. Minimum grade of 'B' needed in course prerequisite.

Prerequisite: GEO 332 Minimum Grade of B or GY 332 Minimum Grade of B

Cross-Listed: GY 442

GEO 443 Climatology-W 3 cr

Analysis of global climate as aggregate weather. Component elements, factors controlling distribution, resulting area patterns, and climatic classification are studied (identical to MET 443). Fee

Prerequisite: MET 140 Minimum Grade of C or GEO 101 Minimum Grade of C

Cross-Listed: MET 443

GEO 460 Introduction to GIS 4 cr

Fundamentals of Geographic Information Systems technology, including software functionality (ArcGIS), data processing, cartography and spatial analysis (identical to GY 460.) Prerequisite: CIS 150 with a grade of B or better or passing the computer proficiency exam.

Prerequisite: CIS Proficiency Exam P or CIS 150 Minimum Grade of B

Cross-Listed: GY 460

GEO 461 GIS Apps I-Environment 4 cr

Application of Geographic Information Systems to studies of the natural environment (identical to GY 461). Permission Prerequisite: GEO 460 or GY 460 or permission of instructor. Minimum grade of 'B' needed in course prerequisite. Fee

Prerequisite: GEO 460 Minimum Grade of B or GY 460 Minimum Grade of B

Cross-Listed: GY 461

GEO 462 GIS Apps II-Business/Social Sc 4 cr

Application of Geographic Information Systems to Business and the Social Sciences. Prerequisite: GEO 460 or GY 460 or permission of instructor. Minimum grade of 'B' needed in course prerequisite.

Prerequisite: GEO 460 Minimum Grade of B or GY 460 Minimum Grade of B

GEO 475 Field Work in Geography 1-6 cr

Students will travel to pre-determined location to perform field work for a project that was pre-determined by the professor and student. Once in the field, students will gather data and learn about the landscape(s).

Prerequisite: EH 102 Minimum Grade of D

GEO 485 Seminar Geographic Thought - W 3 cr

This course serves as the capstone course for geography majors in which students integrate their knowledge of human and physical geography, as well as the geographic techniques, to investigate real-world problems with a spatial component. Students gain experience in working in small groups and in written and oral presentation of project results. Students will also lead discussions on key or pertinent research articles in geography. Taught Spring only.

Prerequisite: GEO 435 and GEO 331 and GEO 332

GEO 490 Special Topics 2-4 cr

Geographic topics not covered in current geography courses. May be repeated when content varies for a maximum of 8 credit hours.

GEO 492 Seminar - 1-3 cr

Departmental seminar investigating a selected field of geography. May be repeated when content varies for a maximum of 3 credit hours.

GEO 494 Directed Studies 1-4 cr

Independent research under the direction of a member of the geography faculty. No more than 8 hours of Directed Studies is allowed.

GEO 496 Internship in Geography 1-4 cr

On-the-job learning through occupational or professional work with an approved firm or agency. Open to geography majors only. No more than 4 hours of Internship credit is allowed.

GEO 542 Remote Sensing II 4 cr

Analysis of remotely sensed digital data for detection and mapping of earth resources. Credit for both GEO 442 or GY 442 and GEO 542 is not allowed. Prerequisite: GEO 332 or GY 332. Special project required.

Prerequisite: GEO 332 Minimum Grade of B or GY 332 Minimum Grade of B

Cross-Listed: GEO 442, GY 442

GEO 560 Introduction to GIS 4 cr

Fundamentals of Geographic Information Systems technology, including software functionality (ArcGIS), data processing, cartography and spatial analysis. Credit for both GEO 460 or GY 460 and GEO 560 is not allowed. Prerequisite: CIS 150 with a grade of 'B' or better or computer proficiency exam. Special project required.

Prerequisite: CIS 150 Minimum Grade of B or CIS Proficiency Exam P

Cross-Listed: GEO 460, GY 460

GEO 561 GIS Apps I-Environment-C 4 cr

Application of Geographic Information Systems to studies of the natural environment. Credit for both GEO 461 or GY 461 and GEO 561 is not allowed. Prerequisite: GEO 560 or GEO 460 or GY 460 with a grade of 'B' or better or permission of instructor. Special project required.

Prerequisite: GEO 560 Minimum Grade of B or GEO 460 Minimum Grade of B or GY 460 Minimum Grade of B

Cross-Listed: GEO 461, GY 461

GEO 562 GIS Apps II-Business/Social 4 cr

Application of Geographic Information Systems to Business and the Social Sciences. Credit for both GEO 462 and GEO 562 is not allowed. Prerequisite: GEO 560 or GEO 460 or GY 460 with a grade of 'B' or better or permission of instructor. Special project required.

Prerequisite: GEO 560 Minimum Grade of B or GEO 460 Minimum Grade of B or GY 460 Minimum Grade of B

Cross-Listed: GEO 462

GEO 590 Sp Top - 1-6 cr

An in-depth course for advanced students in geography. Topics and titles will be selected to examine the subject matter in an area of current interest to students and in an area of particular faculty expertise. Includes specialized topics not currently listed in the Bulletin course offerings.

GEO 594 Grad Dir Study in Geography- 1-4 cr

Independent research in Geography at the graduate level. May be used to learn new techniques or explore research questions of special interest under the direction of a member of the Geography graduate faculty.

Geographic Info Techn (GIT)**GIT 420 Computer Apps in Earth Science 4 cr**

An introduction to basic Python programming, with examples and exercises pertinent to Earth Science and GIS applications.

Prerequisite: MA 112 Minimum Grade of D or MA 110 Minimum Grade of C

Cross-Listed: MET 420

GIT 442 Remote Sensing II 4 cr

Analysis of remotely sensed digital data for detection and mapping of Earth resources. Minimum grade of "B" needed in course prerequisite.

Prerequisite: (GEO 332 Minimum Grade of B or GY 332 Minimum Grade of B)

GIT 460 Intro to GIT 4 cr

Fundamentals of Geographic Information Systems technology, including software functionality (ArcGIS), data processing, cartography and spatial analysis.

GIT 461 Environmental GIS 4 cr

Application of Geographic Information Systems to the studies of the natural environment.

Prerequisite: (GIT 460 Minimum Grade of C or GEO 460 Minimum Grade of C or GY 460 Minimum Grade of C)

GIT 462 GIT Apps II-Business/Soc Sci 4 cr

Application of Geographic Information Systems to Business and the Social Sciences. Prerequisite: GIS 460, with a grade of "C" or better, or permission of instructor.

Prerequisite: (GIT 460 Minimum Grade of C or GEO 460 Minimum Grade of C or GY 460 Minimum Grade of C)

GIT 490 Special Topics 2-4 cr

Geographic Information Technology topics not covered in current GIT courses. May be repeated when content varies for a maximum of 8 credit hours.

Prerequisite: GIT 460 Minimum Grade of C or GEO 460 Minimum Grade of C or GY 460 Minimum Grade of C

GIT 494 Directed Studies 2-4 cr

Geographic Information Technology topics not covered in current GIT courses. May be repeated when content varies for a maximum of 8 credit hours.

Prerequisite: GIT 460 Minimum Grade of C or GEO 460 Minimum Grade of C or GY 460 Minimum Grade of C

GIT 496 Internship in GIT 1-4 cr

On-the-job learning through occupational or professional work with an approved firm or agency. Open to geography majors only. No more than 4 hours of internship credit is allowed.

Prerequisite: GIT 460 Minimum Grade of C or GEO 460 Minimum Grade of C or GY 460 Minimum Grade of C

GIT 520 Computer Applications in Earth Sciences 4 cr

An introduction to basic Python programming, with examples and exercises pertinent to Earth Sciences and GIS applications.

Prerequisite: MA 112 Minimum Grade of D or MA 110 Minimum Grade of D

GIT 542 Remote Sensing II 4 cr

Analysis of remotely sensed digital data for detection and mapping of Earth resources. Minimum grade of "B" needed in course prerequisite. Special project required.

Prerequisite: (GEO 332 Minimum Grade of B or GY 332 Minimum Grade of B)

GIT 560 Intro to GIT 4 cr

Fundamentals of Geographic Information Systems technology, including software functionality (ArcGIS), data processing, cartography and spatial analysis. Credit for GIT 460 and GIT 560 not allowed. Special project required.

GIT 561 Environmental GIS 4 cr

Application of Geographic Information Systems to the studies of the natural environment. Credit for GIT 461 and GIT 561 not allowed. Special project required.

Prerequisite: (GIT 460 Minimum Grade of C or GIT 560 Minimum Grade of C or GEO 460 Minimum Grade of C or GY 460 Minimum Grade of C or GEO 560 Minimum Grade of C)

GIT 562 GIT Apps II-Business/Soc Sci 4 cr

Application of Geographic Information Systems to business and the social science. Credit for GIT 462 and GIT 562 not allowed. Special project required.

Prerequisite: (GIT 460 Minimum Grade of C or GEO 460 Minimum Grade of C or GY 460 Minimum Grade of C or GIT 560 Minimum Grade of C or GEO 560 Minimum Grade of C)

GIT 590 Special Topics - 2-4 cr

Geographic Information Technology topics not covered in current GIT courses. May be repeated when content varies for a maximum of 8 credit hours.

Prerequisite: GIT 460 Minimum Grade of C or GIT 560 Minimum Grade of C or GEO 460 Minimum Grade of C or GY 460 Minimum Grade of C or GEO 560 Minimum Grade of C

GIT 594 Directed Studies 1-4 cr

Graduate level independent study under the direction of a member of the graduate faculty. May be used to learn new techniques or to explore research questions of special interests.

Geology (GY)**GY 111 Physical Geology 3 cr**

Materials that make up the Earth as well as the properties and geological processes that operate in the Earth. Special topics include plate tectonics, mineral chemistry, the rock cycle, sedimentary processes, metamorphism and geological map reading. Core course.

Corequisite: GY 111L

GY 111L Physical Geology Lab 1 cr

Laboratory course for Physical Geology.

Corequisite: GY 111

GY 112 Earth History 3 cr

The origin and history of the earth as seen in the rocks and their contained life record. Core Course.

Corequisite: GY 112L

GY 112L Earth History Lab 1 cr

Laboratory course for Earth History.

Prerequisite: GY 111 Minimum Grade of D and GY 111L Minimum Grade of D

Corequisite: GY 112

GY 113 Honors Geoscience Field - H 3 cr

A two-week field course emphasizing the recognition and understanding of geologic processes in the field environment. The course is based in the Taos Ski Valley, New Mexico, with field trips ranging across northern New Mexico and southern Colorado during the interim session.

Prerequisite: ((GY 101 Minimum Grade of D or (GY 111 Minimum Grade of D and GY 111L Minimum Grade of S) and ((GY 103 Minimum Grade of D or (GY 112 Minimum Grade of D and GY 112L Minimum Grade of S))

GY 301 Geomorphology 3 cr

Principles of landform development as it relates to specific processes (fluvial erosion, glacial erosion, etc.), construction of topographic base maps with Alidade/Total Station, GPS navigation and surveying, and rock/mineral resource evaluation.

Prerequisite: (GY 101 Minimum Grade of D or GY 111 Minimum Grade of D)

GY 302 Crystallography and Mineralogy 4 cr

Introduction to elementary crystallography, crystal chemistry, and atomic structure of minerals, as well as the identification, characterization and use of common rock-forming minerals and important ore minerals.

Prerequisite: (GY 101 Minimum Grade of D or (GY 111 Minimum Grade of D and GY 111L Minimum Grade of D)) and (GY 103 Minimum Grade of D or (GY 112 Minimum Grade of D and GY 112L Minimum Grade of D)) and (CH 131 (may be taken concurrently) Minimum Grade of D or CH 115 Minimum Grade of D)

GY 303 Igneous & Meta Petrology 4 cr

The study of the formation and classification of igneous and metamorphic rocks.

Prerequisite: (GY 101 Minimum Grade of D or GY 111 Minimum Grade of D) and (GY 232 Minimum Grade of D or GY 302 Minimum Grade of D or GY 342 Minimum Grade of D)

GY 304 Stratigraphy - W 3 cr

The development of the stratigraphic column; correlation and field procedures.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 Minimum Grade of C) and (GY 103 Minimum Grade of D or GY 112 Minimum Grade of D)

GY 305 Geophysics 4 cr

Application of classical physics to the study of the Earth and the solution of problems in Earth sciences, including analysis of seismic refraction and reflection surveys, earthquakes, gravity and magnetic fields, and electrical geophysical surveys.

Prerequisite: GY 111 Minimum Grade of D and GY 301 Minimum Grade of D

GY 306 Sedimentology & Stratigraphy-W 4 cr

Study the principles pertaining to the description and classification of sedimentary rocks, with emphasis on sedimentary processes and depositional environments.

Prerequisite: GY 111 Minimum Grade of D and GY 111L Minimum Grade of D and GY 112 Minimum Grade of D and EH 102 Minimum Grade of C or EH 105 Minimum Grade of C

Cross-Listed: GY 344, GY 402

GY 310 Environmental Earth Science 3 cr

A spatial perspective on major global environmental problems. Topics include population pressure, loss of biodiversity, ozone depletion, global warming, water, energy and mineral resources, food supplies, waste disposal, geological hazards and political/economic forces (identical to GEO 310).

Prerequisite: GY 111 Minimum Grade of D or GEO 101 Minimum Grade of D or GEO 102 Minimum Grade of D

Cross-Listed: GEO 310

GY 332 Remote Sensing I 4 cr

Interpretation of maps, air photos and satellite images (identical to GEO 332).

Prerequisite: GEO 102 (may be taken concurrently) Minimum Grade of C and GEO 102L (may be taken concurrently) Minimum Grade of C and GY 301 Minimum Grade of C

Cross-Listed: GEO 332

GY 401 Paleontology 3 cr

Major invertebrate fossil groups, their identification, and their geologic distribution.

Prerequisite: (GY 103 Minimum Grade of D or (GY 112 Minimum Grade of D and GY 112L Minimum Grade of D))

GY 403 Structural Geology 4 cr

Study of the deformation of the internal Earth and the structures that result.

Prerequisite: (GY 101 Minimum Grade of D or GY 111 Minimum Grade of D) and (GY 301 Minimum Grade of D or GY 325 Minimum Grade of D) and ((PH 112 Minimum Grade of D or PH 114 Minimum Grade of D) or (PH 201 Minimum Grade of D or PH 216 Minimum Grade of D))

GY 411 Soils 3 cr

A review of soil formation, processes and properties (identical to GEO 411).

Prerequisite: (GEO 102 Minimum Grade of D and GEO 102L Minimum Grade of D and GY 301 Minimum Grade of D)

Cross-Listed: GEO 411

GY 413 Coastal Geomorphology 2 cr

An introduction to coastal sediment processes and their applied coastal geomorphology with emphasis on waves, tides, sediments, and their interactions including the impacts of anthropogenic influences. Taught only at Dauphin Island Sea Lab.

GY 420 Geostatistics 3 cr

Applied bivariate and multivariate statistics to problems in Geography, Geology, and Meteorology; parametric and non-parametric procedures in correlation, regression, analysis of variance, etc. Time series analysis, trend surface analysis, kriging and analysis of spatial (map) data. Identical to GEO 420.

Prerequisite: (GY 111 Minimum Grade of C and GY 112 Minimum Grade of C) and (MA 112 Minimum Grade of C or ST 210 Minimum Grade of C)

Cross-Listed: GEO 420, GY 520

GY 421 Applied Environ Geology - W 3 cr

A geological applications course designed to familiarize students with techniques used by environmental and engineering geologists in their studies of land use, land development and assessment of geological hazards. Material is illustrated with case studies from the Mobile area.
Prerequisite: (GY 101 Minimum Grade of D or GY 111 Minimum Grade of D) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

GY 422 Sedimentary Geology 3 cr

A course examining sedimentation with emphasis on environments of deposition, sea-level and other controls on sedimentation in the rock record, and petroleum exploration. Credit for both GY 422 and GY 522 will not be allowed.
Prerequisite: (GY 101 Minimum Grade of D or GY 111 Minimum Grade of D) and (GY 103 Minimum Grade of D or GY 112 Minimum Grade of D)

GY 425 Hydrology 4 cr

Principles of sources, occurrences, and movement of groundwater. Surface and subsurface investigations of groundwater and elementary groundwater hydrology and chemistry. Credit for both GY 425 and GY 525 will not be allowed.

GY 426 Contaminant Hydrogeology 3 cr

Flow systems, mass transport in the vadose and saturated zones; advection and dispersion; transformation, retardation and attenuation of solutes; low temperature geochemical processes and kinetics of chemical reactions; contaminant modeling using finite difference-finite element methods. Credit for both GY 426 and GY 526 will not be allowed.
Prerequisite: (GY 425 Minimum Grade of D or GY 475 Minimum Grade of D)

GY 431 Optical Mineralogy-Crystallogr 4 cr

Theory and use of the petrographic microscope in the recognition and identification of crystallographic and optical properties in non-opaque minerals.
Prerequisite: (GY 232 Minimum Grade of D or GY 302 Minimum Grade of D or GY 342 Minimum Grade of D)

GY 433 X-Ray Analytical Methods 4 cr

Theory and use of x-ray diffraction systems as applied to crystallography, mineralogy, chemistry, and metallurgy.
Prerequisite: GY 302 Minimum Grade of D
Cross-Listed: GY 533

GY 442 Remote Sensing II 4 cr

Analysis of remotely sensed digital data for detection and mapping of Earth resources (identical to GEO 442). Prerequisite: GY 332 or GEO 332. Minimum grade of 'B' needed in course prerequisite.
Prerequisite: GEO 332 Minimum Grade of B or GY 332 Minimum Grade of B
Cross-Listed: GEO 442

GY 446 Marine Geology 4 cr

A study of the geology of the ocean basins, with special emphasis on the continental shelves, their sediments, and sedimentary processes at work there.
Prerequisite: (GY 101 Minimum Grade of D or GY 111 Minimum Grade of D) and (GY 103 Minimum Grade of D or GY 112 Minimum Grade of D)

GY 450 Thin-Section Techniques 1 cr

A laboratory based course illustrating techniques employed by geologists to prepare thin-sections from geological materials. Students will produce thin-sections and write up reports detailing the petrography of the samples examined.
Prerequisite: (GY 232 Minimum Grade of D or GY 302 Minimum Grade of D or GY 342 Minimum Grade of D) and (GY 233 Minimum Grade of D or GY 303 Minimum Grade of D or GY 343 Minimum Grade of D) and (GY 344 Minimum Grade of D or GY 402 (may be taken concurrently) Minimum Grade of D)

GY 460 Introduction to GIS 4 cr

Fundamentals of Geographic Information Systems technology, including software functionality (ArcGIS), data processing, cartography and spatial analysis (identical to GEO 460). Prerequisite: CIS 150 with a grade of B or better or passing the computer proficiency exam.
Prerequisite: CIS Proficiency Exam P or CIS 150 Minimum Grade of B
Cross-Listed: GEO 460

GY 461 GIS Apps I-Environment 4 cr

Application of Geographic Information Systems to studies of the natural environment (identical to GEO 461). Prerequisite: GY 460 or GEO 460 or permission of instructor. Minimum grade of 'B' needed in course prerequisite.
Prerequisite: GEO 460 Minimum Grade of B or GY 460 Minimum Grade of B
Cross-Listed: GEO 461

GY 480 Field Geology 6 cr

A six-week, summer field course on the methods of geologic surveying, the nature and construction of geologic maps and cross-sections, measurements of stratigraphic sections and preparation of geologic reports. This course serves as a capstone class for geology majors.
Prerequisite: (GY 303 Minimum Grade of D and GY 403 Minimum Grade of D and GY 402 Minimum Grade of D and HS 170 Minimum Grade of P)

GY 490 Special Topics 1-4 cr

Geological topics not covered in current geology courses. Prerequisite: Junior or Senior standing.

GY 492 Seminar - 1-3 cr

Departmental seminar investigating a selected field of geology (topic announced prior to registration). May be repeated when content varies for a maximum of 3 credits

GY 494 Directed Studies 1-4 cr

Independent research in the field or laboratory under the direction of a member of the Geology faculty. Students must have an acceptable project approved before registering for this course. Prerequisite: Permission of the Chair, Junior or Senior standing. No more than 8 hours of directed study is allowed.

GY 496 Internship in Geology 1-3 cr

On-the-job training through occupational or professional work through an approved geological organization. Only open to geology majors. Prerequisite: Permission of chair; Junior or Senior standing. No more than 3 hours of internship is allowed.

GY 520 Geostatistics 4 cr

Applied bivariate and multivariate statistics to problems in Geography, Geology, and Meteorology; parametric and non-parametric procedures in correlation, regression, analysis of variance, etc. Time series analysis, trend surface analysis, kriging and analysis of spatial (map) data. Identical to GEO/GY 420. Credit for both GY 420 and GY 520 will not be allowed.

Prerequisite: (ST 175 Minimum Grade of B or ST 210 Minimum Grade of B) or (MA 125 Minimum Grade of C or MA 132 Minimum Grade of C)

Cross-Listed: GEO 420, GY 420

GY 531 Optical Mineralogy-Crystallogr 4 cr

Theory and use of the petrographic microscope in the recognition and identification of crystallographic and optical properties in non-opaque minerals. Graduate credit will require an additional project specified by the instructor. Credit for both GY 431 and GY 531 will not be allowed.

Prerequisite: (GY 232 Minimum Grade of D or GY 302 Minimum Grade of D or GY 342 Minimum Grade of D)

GY 533 X-Ray Analytical Methods 4 cr

Theory and use of x-ray diffraction systems as applied to crystallography, mineralogy, chemistry, and metallurgy.

Prerequisite: (GY 231 Minimum Grade of D or GY 341 Minimum Grade of D)

Cross-Listed: GY 433

GY 543 Sel Appls in Remote Sensing 3 cr

Critical assessment of selected remote sensing applications in earth science. Application subject designation prior to registration. Graduate credit will require an additional project specified by the instructor. Credit for both 443 and 543 will not be allowed.

Prerequisite: GY 332 Minimum Grade of D or GEO 332 Minimum Grade of D

Cross-Listed: GY 442

GY 544 Sedimentary Geology 3 cr

A study examining sedimentation with emphasis on environments of deposition, sea-level and other controls on sedimentation in the rock record, and petroleum exploration. Credit for both GY 444 and GY 544 will not be allowed.

Prerequisite: MAS 603 Minimum Grade of C or GY 344 Minimum Grade of D

Cross-Listed: GY 444

GY 575 Hydrology 4 cr

Principles of sources, occurrences, and movement of ground water. Surface and sub-surface investigations of ground water and elementary ground water hydrology and chemistry.

Prerequisite: (GY 232 Minimum Grade of D or GY 342 Minimum Grade of D)

Cross-Listed: GY 475

GY 576 Contaminant Hydrogeology 4 cr

Flow systems, mass transport in the vadose and saturated zones; advection and dispersion; transformation, retardation and attenuation of solutes; low temperature geochemical processes and kinetics of chemical reactions; contaminant modeling using finite difference-finite element methods. Credit for both GY 426 and GY 576 will not be allowed.

Prerequisite: GY 425 Minimum Grade of D or GY 475 Minimum Grade of D or GY 575 Minimum Grade of D

Cross-Listed: GY 476

GY 590 Sp Top - 1-6 cr

An in-depth course for advanced students in geology. Topics and titles will be selected to examine the subject matter in an area of current interest to students and in an area of particular faculty expertise. To include specializing topics not currently listed in Bulletin course offerings.

GY 592 Seminar - 1-6 cr

Students and faculty meet weekly in an interactive discussion of current literature in geological sciences. The focus will be on 'state of the art' theories and methodologies as they occur in the primary literature. Student presentation is required to receive credit.

GY 594 Directed Research 1-6 cr

Independent research under the direction of a member of the graduate faculty. May be used to learn new techniques or to explore research questions of special interest. A maximum of 6 hours may be earned for this course.

Meteorology (MET)**MET 140 Introduction to Meteorology 3 cr**

This course focuses on introducing the student to the basic concepts of meteorology. Major topics include the structure of our atmosphere, heat balance, meteorological measurements, atmospheric stability, atmospheric motion, and wind circulations on both the global and local scales. Other areas covered may include an introduction to air masses, fronts, and precipitation processes. The analysis of US Government weather charts is also introduced. Core course.

Corequisite: MET 140L

MET 140L Intro to Meteorology Lab 1 cr

Laboratory exercises associated with MET 140.

Corequisite: MET 140

MET 191 Tropical Weather Discussion 1 cr

Tropical Weather Discussion is an introductory course in current or recently-active tropical weather systems. This course mainly reviews the structure, behavior, history and potential forecasts of tropical cyclones in the Atlantic, Pacific, and Indian Ocean basins from a meteorological perspective with special emphasis on activity in the Atlantic basin.

The course is taught during the Fall Semester because it overlaps with the most active period of the Atlantic Hurricane Season. Other tropical weather topics such as El Nino, La Nina, monsoon troughs, tropical upper-tropospheric troughs, Madden Julian Oscillation, and hurricane climatology are discussed during weeks of inactivity when no tropical cyclones may be occurring. This course may be repeated for credit up to two times for a total of three hours; however, the course may only count once toward a meteorology elective.

MET 340 Introduction to Meteorology 4 cr

Analysis of weather phenomena and patterns on a global and local scale. Major topics include the heat balance, stability, precipitation processes, cyclonic activity, severe weather and forecasting techniques. Particular attention is devoted to the jet stream and its effect on surface weather.

Prerequisite: GEO 101 Minimum Grade of C

Cross-Listed: GEO 340

MET 342 Severe Weather 3 cr

A study of the causes, structure and impact of tornadoes, hurricanes, thunderstorms and severe weather systems (Identical to GEO 342).

Prerequisite: MET 353 Minimum Grade of C or GEO 353 Minimum Grade of C

MET 353 General Meteorology 4 cr

An overall view of the field of meteorology for science majors and minors. This course uses a quantitative approach to study the composition of the atmosphere, atmospheric processes, global circulation, and storm development. Laboratory exercises pay particular attention to hands-on analysis of meteorological charts (identical to GEO 353.)

Prerequisite: (MET 140 Minimum Grade of D and MET 140L Minimum Grade of D) and ((MA 112 Minimum Grade of C or MA 171 Minimum Grade of C) or (MA 113 Minimum Grade of C or MA 172 Minimum Grade of C) or (MA 125 Minimum Grade of C or MA 132 Minimum Grade of C))

Cross-Listed: GEO 353

MET 353L General Meteorology Lab 1 cr

Laboratory exercises associated with MET 353. Particular attention is given to hands-on weather analysis of meteorological charts.

Corequisite: MET 353

Cross-Listed: GEO 353L

MET 354 Dynamic Meteorology I 3 cr

Dynamic meteorology is the study of atmospheric motions that control our weather and climate. Using fundamental laws of physics (fluid dynamics and thermodynamics), a set of mathematical equations that describe how the atmosphere behaves, is derived. These equations are too complex to solve analytically, but with certain assumptions they can be simplified so that approximate solutions can be found. Even though approximate, these solutions still give useful information about the current state of the atmosphere and its evolution into the future. The theories derived in dynamic meteorology underlie all forecasting rules and techniques. Thorough understanding of these theories is invaluable to becoming a skilled forecaster.

Prerequisite: (MA 126 Minimum Grade of C or MA 233 Minimum Grade of C) and (PH 201 Minimum Grade of C or PH 216 Minimum Grade of C)

MET 355 Dynamic Meteorology II 3 cr

The circulation of the atmosphere and the structure of storms is quantitatively analyzed using equations of atmospheric flow. The jet stream, atmospheric waves, mid-latitude cyclones, and the concept of vorticity are given considerable attention.

Prerequisite: MET 354 Minimum Grade of C or GEO 344 Minimum Grade of C or GEO 354 Minimum Grade of C

MET 356 Physical Meteorology 3 cr

A detailed investigation of adiabatic processes, thermodynamic diagrams, atmospheric stability, and precipitation processes. Additional topics include atmospheric composition and aerosols, radiation and electricity.

Prerequisite: (MET 353 (may be taken concurrently) Minimum Grade of C or GEO 353 (may be taken concurrently) Minimum Grade of C) and (MA 126 (may be taken concurrently) Minimum Grade of C or MA 233 (may be taken concurrently) Minimum Grade of C) and (PH 201 (may be taken concurrently) Minimum Grade of C or PH 216 (may be taken concurrently) Minimum Grade of C)

MET 357 Meteorological Instrumentation 2 cr

Design, calibration, use and maintenance of existing and newly developed meteorological instruments and instrumentation systems. Analysis of data collected by instruments and instrument systems.

Prerequisite: (MET 353 Minimum Grade of C or GEO 353 Minimum Grade of C)

MET 358 Radar Meteorology 4 cr

This course is designed to give the student a three-fold introduction to weather radar and its value in the workplace. Basic radar principles and assumptions applicable to all radars are presented; the Doppler function and limitations are covered in depth with final emphasis on properly utilizing weather radar in an operations setting.

Prerequisite: (MET 354 Minimum Grade of C or GEO 344 Minimum Grade of C or GEO 354 Minimum Grade of C) and (PH 202 Minimum Grade of C or PH 217 Minimum Grade of C)

MET 359 Introduction to TV Weather 2 cr

This course gives the students the basic skills necessary for broadcasting weather information on TV. This course will focus on the basic principles and techniques of effective TV weather broadcasting.

Prerequisite: (MET 353 Minimum Grade of C or GEO 353 Minimum Grade of C)

MET 360 Atmospheric Analysis 1 cr

Analysis of meteorological charts. Provides additional preparation prior to Synoptic.

Prerequisite: (MET 353 Minimum Grade of C or GEO 353 Minimum Grade of C) and (MET 354 Minimum Grade of C or GEO 344 Minimum Grade of C or GEO 354 Minimum Grade of C)

MET 370 Satellite Meteorology 3 cr

This course is an introduction to the weather satellite and its influence on meteorological observations and forecasting. Both radiative propagation theory and satellite interpretation of meteorological features will be covered extensively.

Prerequisite: MET 356 Minimum Grade of C and (PH 202 Minimum Grade of C or PH 217 Minimum Grade of C)

MET 401 Weather Forecasting I 2 cr

A course specifically designed for students minoring in Meteorology.

Students are introduced to weather forecasting concepts and methods.

Prerequisite: (MET 353 Minimum Grade of C or GEO 353 Minimum Grade of C)

MET 402 Weather Forecasting II 2 cr

A course specifically designed for students minoring in Meteorology.

Weather forecasting techniques are discussed with an emphasis on the use of meteorological models and severe weather forecasting.

Prerequisite: MET 401 Minimum Grade of C

MET 410 MET Phenomenology - W 3 cr

This class is an introduction to reading meteorological journal and professional writings and to writing some of the standard scientific forms common in both operational and research meteorology: summaries, conference abstracts, and scientific journal articles. The students will engage in brief examination of some of the fundamental phenomena in the atmosphere through selected journal articles and write about these topics in an appropriate manner as inquisitive meteorologists.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and (MET 353 Minimum Grade of C or GEO 353 Minimum Grade of C) and ((MET 354 Minimum Grade of C or GEO 344 Minimum Grade of C or GEO 354 Minimum Grade of C) or MET 401 Minimum Grade of C)

MET 420 Computer Apps in Earth Science 4 cr

An introduction to basic Python programming, with examples and exercises pertinent to Earth Science and GIS applications.

Prerequisite: MA 112 Minimum Grade of D or MA 110 Minimum Grade of C

Cross-Listed: GIT 420

MET 430 Mesoscale Meteorology 3 cr

Assessment of mesoscale phenomena, including frontogenesis and frontolysis, low-level jet streams, nocturnal boundary layer wind maxima, sea and land breezes, gravity waves, dry lines, lake-effect snow, and deep moist convection. Emphasis on scale analysis, subsynoptic-scale dynamics, interactions with larger-scale processes, and case study examples.

Prerequisite: (MET 355 Minimum Grade of C or GEO 345 Minimum Grade of C or GEO 355 Minimum Grade of C)

MET 440 Air Pollution Meteorology 2 cr

Air Pollution Meteorology is a survey course in air pollution topics taught primarily from an atmospheric perspective. This course covers topics on air pollution history, methods of measuring air quality, sources of air pollution, basic atmospheric pollution dispersion concepts, basic principles of air pollution modeling and prediction, and an overview of the impacts of polluted air on human health and the environment.

Prerequisite: MET 140 Minimum Grade of C or GEO 101 Minimum Grade of C and MA 110 Minimum Grade of C

MET 442 Tropical Meteorology 2 cr

This course presents an overview of meteorology in the tropics. The tropical realm is defined and the importance of solar radiation and distribution of temperature, moisture and precipitation in driving tropical weather systems is discussed. The general circulation in the tropics is explored along with seasonal and non-seasonal variations, including the Monsoon and El Nino/La Nina. Certain mesoscale and local circulations common to the tropics are also discussed. Several weeks will be spent investigating tropical cyclones.

Prerequisite: MET 353 Minimum Grade of C or GEO 353 Minimum Grade of C

MET 443 Climatology - W 3 cr

Analysis of global climate as aggregate weather. Component elements, factors controlling distribution, resulting area patterns, and climatic classification are studied (identical to GEO 443). Fee

Prerequisite: MET 140 Minimum Grade of C or GEO 101 Minimum Grade of C

Cross-Listed: GEO 443

MET 454 Synoptic Meteorology I 6 cr

Principles of dynamic and physical meteorology are applied to current surface and upper air analyses of frontal cyclones. An emphasis is placed on forecasting techniques, daily weather discussions, continuity and analysis.

Prerequisite: MET 355 Minimum Grade of C and MET 356 Minimum Grade of C

MET 455 Synoptic Meteorology II 6 cr

This course continues the development of principles learned in MET 454. Principles of atmospheric dynamics and conceptual models will be studied and employed through the use of surface and upper air analyses, satellite and radar data. A multi-week overview of numerical weather prediction principles and concepts will be accomplished along with the integration and interpretation of model guidance of actual modeling simulations using basic concepts of numerical weather prediction. Topics on mid-latitude cyclones and fronts will continue to be expanded beyond Synoptic I. Ensemble prediction and atmospheric oscillations will be discussed along with intrinsic predictability limitations. This course serves as the capstone class for meteorology majors.

Prerequisite: MET 454 Minimum Grade of C

MET 456 Applied Climatology - W 3 cr

Training in the application of climatology to solve real world problems. In addition to an examination of present day climate patterns, their causes, and mechanisms, the course focuses on the El Nino, recent and past climates, the natural and human impact on the Earth's energy balance, global warming, ozone hole and the chaos theory.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 Minimum Grade of C) and (MET 353 (may be taken concurrently) Minimum Grade of C or GEO 353 Minimum Grade of C) and (MET 341 Minimum Grade of C or GEO 341 Minimum Grade of C)

MET 490 Sp Top - 1-4 cr

Meteorological topics not covered in current meteorology courses. May be repeated when content varies for a maximum of four hours. May require permission of instructor.

MET 492 Seminar - 1-4 cr

Departmental seminar investigating a special field of meteorology. (Topic announced prior to registration.) May be repeated when content varies for a maximum of eight hours. Requires permission of instructor.

MET 494 Directed Studies 1-4 cr

Independent research in field, laboratory, or library under the direction of a member of the meteorology faculty. Prerequisite: Requires permission of instructor. May be taken for a total of eight hours.

MET 495 Mesonet Internship 1 cr

Students will learn various aspects of mesonet (mesoscale weather station network) operation and maintenance. Students will take part in routine weather station site visits, emergency site visits when a sensor malfunctions, and quality control of incoming data. Once a year every weather station receives a complete retrofit where all sensors are replaced with freshly calibrated sensors. If such a retrofit occurs during the semester of a student's internship, the student will be given the opportunity to take part in this process as well. A large component of this course will consist of field work. Depending on student schedules and mesonet behavior, time will also be spent in the lab performing manual data quality control using the USA Mesonet website.

Prerequisite: (MET 353 Minimum Grade of C or GEO 353 Minimum Grade of C)

MET 496 Internship in Meteorology 1-3 cr

On-the-job learning through occupational, professional, or research work with an approved firm, agency, or meteorology faculty member. Open only to meteorology majors. Prerequisite: Permission of department chair.

MET 497 Broadcast Meteorology Pract I 3 cr

This course focuses on introducing the student to the ever evolving technology in broadcast meteorology. Emphasis is placed on the application of meteorological data through the use of professional television weather graphics systems in order to develop a "weather story". Particular attention is given to the use of chroma key mechanics/ techniques for public viewing.

Prerequisite: MET 359 Minimum Grade of C

MET 498 Broadcast Meteorology Prac II 3 cr

This course focuses on communicating accurate forecasts and other important weather information to the public. Attention is given to fine-tuning the on-air weather presentation style, as well as developing a professional resume tape of weather shows in order to gain employment as a broadcast meteorologist. Special attention is given to severe weather cut-ins and accurately conveying severe weather threats to the public.

Prerequisite: (MET 355 (may be taken concurrently) Minimum Grade of C or GEO 345 Minimum Grade of C or GEO 355 Minimum Grade of C) and MET 497 Minimum Grade of C

MET 540 Topics in Air Pollution MET 3 cr

Topics in Air Pollution Meteorology is a graduate course on advanced air pollution topics taught primarily from an atmospheric perspective. This course provides an overview of "dry" meteorological processes, such as temperature, pressure, wind, and general circulation combined with topics on air pollution history, methods of measuring air quality, sources of air pollution, atmospheric pollution dispersion concepts, principles of air pollution modeling and prediction, and the impacts of polluted air on human health and the environment.

MET 590 Meteorology 1-6 cr

An in-depth course for advanced students in meteorology. Topics and titles will be selected to examine the subject matter in an area of current interest to students and in an area of particular faculty expertise. Includes specialized topics not currently listed in the Bulletin.

MET 594 Grad Dir St in Meteorology- 1-4 cr

Graduate level independent study in Meteorology under the direction of a member of Meteorology's Graduate Faculty. Student must have an approved topic and must be accepted by a Graduate Faculty mentor before registering for this class. Prerequisite: Graduate standing.

Geographic Information Science (GIS) Certificate

Degree Requirements

Students who want to earn a GIS (Geographic Information Science) Certificate must take all six of the following courses:

Code	Title	Hours
GEO 331	Computer Graphs and Maps	4
GEO/GYMID-TERM GRADES WEB ENTRY DUE BY 10:00 AM332	Remote Sensing I	4
GIT 442	Remote Sensing II	4
GIT 460	Intro to GIT	4
GIT 461	Environmental GIS	4
GIT 462	GIT Apps II-Business/Soc Sci	4
Total Hours		24

For students to earn a GIS Certificate, they must have a 3.0 overall GPA and at least a "B" in each of the six courses that make up the GIS Certificate. If students receive less than a B in a class, it may still count as credit, but not towards the certificate.

Geographic Information Technology Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Geographic Information Technology

A minimum of 22 hours of Geographic Information Technology related classes.

Code	Title	Hours
Core Courses		
GIT 460	Intro to GIT	4
GIT 461	Environmental GIS	4
or GIT 462	GIT Apps II-Business/Soc Sci

Geography (BS)

Degree Requirements

Code	Title	Hours
General Education Requirements		
https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext		53-57
Major Requirements		47
A. Complete the following:		
GEO 101 & 101L	Environmental Geography and Environmental Geography Lab	4
GEO 102 & 102L	Earth and the Environment and Earth and the Environment Lab	4
GEO 114	People, Places, Environment	3
GEO 115	World Regional Geography	3
GEO 201	Geography Orientation	1
GEO 331	Computer Graphs and Maps	4
GEO 332	Remote Sensing I	4
GEO 435	Research Methods Geography	3
GEO 485	Seminar Geographic Thought - W	3
B. Select at least one upper level course from each of the following four categories:		18
Human Geography courses:		
GEO 312	World Economic Geog	
GEO 321	Nat'l Parks Conservation	
GEO 365	Urban Geography and Planning	
GEO 370	International Tourism	
GEO 417	Health and Place	
Physical Geography courses:		
GEO 310	Environmental Earth Science	
GEO 405	Natural Hazards and Disasters	
GEO 410	Biogeography	
GEO 411	Soils	
GEO 440	Coastal Zone Management	
GEO 441	Coastal Climatology	
GEO 443	Climatology-W	
Regional Geography courses:		
GEO 313	Geography of U.S. and Canada	
GEO 314	Geography of Europe	
GEO 315	Geography of Latin America	
GEO 475	Field Work in Geography	
Technical Geography courses:		
GIT 442	Remote Sensing II	
GIT 460	Intro to GIT	
GIT 461	Environmental GIS	
GIT 462	GIT Apps II-Business/Soc Sci	
GIT 490	Special Topics	
Minor Requirements		

A minor is required for this degree program 18-24

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Only two courses in the GIT minor may be counted toward the Geography major.

Complete at least 15 semester hours in residence in major at the 300 and/or 400 level. A minimum GPA of 2.0 is required in major.

Additional Information

The Geography degree also requires: One additional Natural science course, one additional social science course outside of Geography, and ST 210.

Note that a portion of Area IV (GEO 114, GEO 115) of the General Education requirements and the Natural Sciences portion of Area III (GEO 101, GEO 102, ST 210) of the General Education requirements are fulfilled by the major requirements specified above.

Geology Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Geology

A minimum of 18 hours of Geology related classes.

Code	Title	Hours
Required Courses		
GY 111 & 111L	Physical Geology and Physical Geology Lab	4
GY 112 & 112L	Earth History and Earth History Lab	4
GY 301	Geomorphology	3
Remaining Requirements		
At least 7 hours of any GY course numbered 300 or higher may be used, from core or elective courses, to satisfy remaining minor course requirements.		7
Total Hours		18

Possible core Geology courses include:

Code	Title	Hours
GY 302	Crystallography and Mineralogy	4
GY 303	Igneous & Meta Petrology	4
GY 306	Sedimentology & Stratigraphy-W	4

GY 403	Structural Geology	4
GY 480	Field Geology	6

Possible elective Geology courses include:

Code	Title	Hours
GY 304	Stratigraphy - W	3
GY 305	Geophysics	4
GY 401	Paleontology	3
GY 425	Hydrology	4
GY 494	Directed Studies	1-4

A geology faculty advisor is recommended for planning an appropriate minor curriculum past the initial introductory sequence.

Meteorology (BS) - Broadcast Met Track

Major Requirements		47
<i>Meteorology Major Core</i>		

A. Complete the following:

MET 140 & 140L	Introduction to Meteorology and Intro to Meteorology Lab	4
MET 443	Climatology - W	3
MET 353	General Meteorology	4
MET 354	Dynamic Meteorology I	3
MET 355	Dynamic Meteorology II	3
MET 356	Physical Meteorology	3
MET 454	Synoptic Meteorology I	6
MET 490	Sp Top - (Orientation to Meteorology)	1
MET 455	Synoptic Meteorology II	6

Broadcast Meteorology Track

A. Complete the following:

MET 490	Sp Top - (Baron Graphics)	1
MET 342	Severe Weather	3
MET 358	Radar Meteorology	4
MET 359	Introduction to TV Weather	2
MET 496	Internship in Meteorology	1
MET 497	Broadcast Meteorology Pract I	3

B. Select one hour from the following:

MET 191	Tropical Weather Discussion	1
MET 357	Meteorological Instrumentation	1
MET 370	Satellite Meteorology	1
MET 410	MET Phenomenology - W	1
MET 420	Computer Apps in Earth Science	1
MET 430	Mesoscale Meteorology	1
MET 440	Air Pollution Meteorology	1
MET 442	Tropical Meteorology	1
MET 456	Applied Climatology - W	1

MET 490	Sp Top -
MET 495	Mesonet Internship
GY 425	Hydrology
GIT 460	Intro to GIT
MGT 300	Management Theory and Practice
MKT 320	Principles of Marketing

Other STEM Requirements

See list below.

Minor Requirements

A minor is required for this degree program **18-24**

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Other STEM Requirements

The Meteorology degree also requires:

Code	Title	Hours
MA 125	Calculus I	4
MA 126	Calculus II	4
MA 227	Calculus III	4
MA 238	Differential Equations I	3
PH 201 & 201L	Calculus-Based Physics I and Calculus-Based Physics I Lab	4
PH 202 & 202L	Calculus-Based Physics II and Calculus-Based Physics II Lab	4
ST 315	Applied Probability-Statistics	3

Note that Area III General Education requirements are fulfilled by these major requirements.

¹ Recommended Course

² See General Education Requirements

Upon completion of Meteorology major requirements, students are only one course short of a minor in Mathematics. This recommended template incorporates a Math minor. However, students are free to choose a different minor or double-minor. Many Broadcast Track Meteorology students pursue a minor in Communication.

Many Broadcast Track Meteorology majors choose to complete an internship during the summer between the junior and senior year in addition to another internship during typical senior year classes. Completion of a summer internship is not mandatory; however, the Meteorology faculty strongly recommend completing two internships with one emphasizing broadcasting and the other emphasizing reporting/producing.

MET 497 Broadcast Meteorology Pract I

Total Hours 20

Footnote

¹ MET 191 may be taken up to 3 times for credit but will only count once toward the meteorology minor.

English

Department Information

Department of English website

<https://www.southalabama.edu/colleges/artsandsci/english> (<https://www.southalabama.edu/colleges/artsandsci/english/>)

Through its focus on the interpretation, analysis, and production of literary and other texts, the English Department teaches students how those texts shape and are shaped by the world around them. In so doing, the Department helps students acquire the critical skills they need to analyze and participate in these interactions and contribute to the shaping of their worlds. The faculty's teaching and research in literature, creative writing, and composition/rhetoric combine to foster excellence in critical reading, creative thinking, and effective writing.

For all students, the Department provides the composition skills essential for success at the University and offers courses introducing the cultural diversity and historical breadth of British, American, and world literatures. For students majoring or minoring in English, the Department teaches critical strategies needed for intensive study in creative writing, professional writing, and in diverse literatures in English. For students pursuing graduate study in English, the Department provides advanced training in creative writing, literary analysis, rhetoric, methods of scholarly research, and critical theory. In all cases, by asking students to read, discuss, and write about a wide variety of texts, the Department promotes an inclusive and evolving understanding of English Studies.

All first-time freshmen must successfully complete CAS 100, as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Honors in English

To be awarded Departmental Honors in English a student must:

1. Complete all the standard requirements for the major in English.
2. Maintain a 3.5 overall GPA (University requirement) and a 3.5 GPA in all course work in English.
3. Receive permission from the Department Chair and agreement from a Department member to serve as mentor.
4. Complete a Senior Honors Thesis (EH 499), with a grade of "A" or "B" in addition to the standard requirements for the English major. EH 499 (six semester hours credit), may be counted toward three hours of the 39 hours required for the major and toward three hours of the nine 400-level hours required for the major. Thus, the student receiving honors in English will be required to take a total of 42 hours in English instead of 36. In EH 499 the student will normally take three hours in the Fall semester for research and three in the Spring for writing. A final committee of three or more faculty members, including a representative of the University Honors College, will conduct an

oral defense. The thesis must be approved by the director of the University Honors College.

Please Note: To be eligible to undertake an honors thesis in creative writing, the student must first complete four creative writing courses at the University of South Alabama. This policy on creative writing theses not only applies to students seeking departmental honors but also to students enrolled in the Honors College.

The Accelerated Bachelor's to Master's Program in English (ABM)

The Accelerated Bachelor's to Master's in English degree program provides undergraduate students with the opportunity to earn a bachelor's and master's degree in English at an accelerated pace. English majors applying for the Accelerated Bachelor's to Master's program must meet the Graduate School requirements for the program and have a 3.5 GPA in English classes at the 300 and 400 levels in order to receive departmental approval. ABM students typically count 6 credit hours of graduate course work towards the graduate degree. USA accelerated bachelor's to master's (ABM) in English provides exceptional undergraduate students the opportunity to earn a bachelor's and master's degree at an accelerated pace in English. While still an undergraduate, ABM students may count up to 6 credit hours of graduate course work towards their graduate degree.

Eligibility Requirements

Undergraduate students must meet the following criteria:

- 3.0 cumulative undergraduate GPA
- Completed at least 90 credit hours
- Completed at least 30 credits at USA
- At least a 3.5 GPA in EH 300- and 400-level classes.

Admission will be based on the applicant's meeting these criteria and the approval of the graduate program coordinator. Once admitted into the ABM program, students must maintain at least a 3.0 GPA and remain in good standing to progress into the graduate program.

Credit Hour Requirements

Completion of the ABM program requires students complete at least 150 approved unique credit hours. To qualify for a baccalaureate degree, a student must complete at least 120 approved semester hours. To qualify for a master's degree a student must complete a minimum of 30 approved semester hours. Generally, undergraduate students are not approved to take more than 12 credit hours of graduate coursework.

Program Procedures

ABM students may begin taking graduate courses after completing at least 90 hours of undergraduate credit. Up to 6 hours can count toward both degrees (Bachelor's and Master's) if the courses are completed with grades of at least B. Courses with a grade of C can count toward the undergraduate degree but not the graduate degree. Courses with a grade below C cannot count toward the undergraduate or graduate degree. Upon completing the undergraduate degree, students will apply to the English Master's program. ABM students who are in good standing will be accepted in the English Master's program.

Completion of the English M.A. program requires successful completion of all requirements, including at least 36 graduate credit hours. Graduate credit taken while an undergraduate that is completed with at least the grade of B will be transferred into the Master's program upon acceptance and will apply toward the 36 hours required for the Master of Arts degree.

A student who withdraws or is dismissed from the ABM program may not count graduate coursework towards both degrees. Graduate courses for which an undergraduate student did not earn an "A" or "B" grade, may not be counted towards the graduate degree.

An ABM student must be a full-time student and must complete all degree requirements for the master's within three semesters of the semester in which they were admitted to the Graduate School. An exception for a fourth semester may be granted where an additional semester is required for final revisions to and submission of a defended thesis. Exceptions to the ABM policy are at the discretion of the Dean of the Graduate School.

Graduate Studies

The Master of Arts degree program in English is designed to meet the needs of students pursuing a terminal M.A. and of those planning to work toward the Ph.D. and a career in university teaching. The terminal M.A. serves such career tracks as junior college or secondary-school teaching and writing or editing in the business or corporate community. Creative writers find the degree meaningful in careers both in and out of the academic community since the M.A. provides guidance towards book publication and time to study successful literary texts.

Requirements for Admission

Students are admitted each semester. The following criteria supplement the Graduate School criteria (see Categories of Admission):

1. For the Literature Concentration, applicants normally have an undergraduate major or minor in English or at least 21 semester hours of course work in English beyond the freshman level, at least 12 of these hours in upper-division literature courses. For the Creative Writing Concentration, applicants normally have 15 semester hours of course work in English beyond the freshman level. Students lacking prior coursework can complete additional upper-division courses in English to strengthen their applications.
2. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work. The English Department normally requires a minimum GPA of 3.0 in junior- and senior-level courses presented in fulfillment of requirement 1.
3. All applicants should submit a personal statement of no more than 500 words, a writing sample of 5-15 pages in the area of concentration (creative writing or literature) and three letters of recommendation.¹
4. All applicants for whom English is a second language should submit a TOEFL IBT score of at least 79 or IELTS score of at least 6.5. (Note that ESL applicants must apply through the International Admissions Office at USA.)

¹ Students must specify their concentration at the time of application and may not thereafter change concentrations without the specific approval of the English Department's Graduate Committee.

Graduate Assistantships

The English Department awards both teaching assistantships and research assistantships. Teaching assistantships involve responsibility for freshman composition classes. Graduate students holding research assistantships are usually assigned tasks involving tutoring, research, editing, or administrative/clerical tasks. Awards are normally made for

the academic year; occasionally, assistantships become available for spring semester. Applications are taken continuously; competition for appointments begins in February for the following year. See Graduate Coordinator for information and application. (See also Bulletin section on Graduate School, "Assistantships and Fellowships.")

- English Professional Writing Minor (p. 198)

Courses

EH 101 English Composition I 3 cr

Prepares students for diverse types of college writing. Covers the writing process, general criteria used to evaluate writing, collaborative writing, and rhetoric, especially audience analysis. Some sections require an ACT Reading score of 19 or higher or an SAT Critical Reading score of 26 or higher. Grading is "A", "B", "C", and "U". Core Course.

Prerequisite: ACT English 19 or READING TEST SCORE 26 or SAT Critical Reading 450 or (ESL 015 Minimum Grade of C or IELTS Reading 5.5 or IBT TOEFL Reading 20) and (IBT TOEFL Writing 20 or IELTS Writing 5.5 or ESL 016 Minimum Grade of C)

EH 102 English Composition II 3 cr

EH 102 prepares students for college writing by focusing on argumentation, research, and the critical thinking required to argue effectively. Students must earn a C or higher in EH 102 to fulfill the University writing requirement for composition. Core course.

Prerequisite: ACT English 27 or SAT Critical Reading 610 or READING TEST SCORE 33 or EH 101 Minimum Grade of C or EH 010 Minimum Grade of S or University - EH101 Exempt P

Cross-Listed: EH 105

EH 105 Honors Composition - H 3 cr

This course emphasizes the types of writing that students will do in college and reflects goals of the Honors Program with advanced work in critical thinking and research. Prerequisite: students must have been accepted in the Honors Program.

Prerequisite: ACT English 27 or SAT Critical Reading 610 or READING TEST SCORE 33 or EH 101 Minimum Grade of C or EH 110 Minimum Grade of D or EH 190 Minimum Grade of D or EH 010 Minimum Grade of S or University - EH101 Exempt P

Cross-Listed: EH 102

EH 200 Intro to Creative Writing 3 cr

This course will introduce students to writing creatively in four major genres: poetry, fiction, nonfiction, and drama. Fundamentals of craft to be studied will include plot and character in fiction; sound and image in poetry; dialogue in drama; and form and research in creative nonfiction. Analysis of literary models, critiques of students' work, and craft discussions will aid students in creating a final portfolio.

Prerequisite: EH 102 (may be taken concurrently) Minimum Grade of C or EH 101 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C

EH 203 Literary Genres - 3 cr

Variable-content course featuring literary forms. May be repeated once for a total of 6 credits. Prerequisites: EH 101 and EH 102.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 204 Literary Themes - 3 cr

Variable-content course treating particular concepts that recur in literature. May be repeated once for a total of 6 credits when topics vary. Prerequisites: EH 101 and EH 102.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 207 Literature and Gender 3 cr

A variable-topics course to study gender issues in literary texts. Can only be taken for a maximum of 3 credits.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 215 Brit Lit before 1785 3 cr

This course introduces students to the cultural heritage of the British Isles by studying representative literary works from the Middle Ages through the 18th Century.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

EH 216 Brit Lit after 1785 3 cr

This course introduces the student to the cultural heritage of the British Isles by studying representative literary works from the 19th Century to the present.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

EH 225 Am Lit before 1865 3 cr

This course traces the development of American literature from its beginning through 1865 by studying the works of representative writers. Core course.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

EH 226 Am Lit after 1865 3 cr

This course traces the development of American literature from 1865 to the present by studying the works of representative writers. Core Course.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

EH 235 World Lit before 1650 3 cr

A survey of literature from the Ancient World, the Middle Ages, and the Renaissance, featuring selections in translation. Core Course.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

EH 236 World Lit after 1650 3 cr

A survey of literature from Neoclassicism, Romanticism, Nineteenth-century Realism and Naturalism, and the Modern World, featuring selections in translation. Core course.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

EH 242 Black Writers in America 3 cr

A survey of literature by major African-American authors from the days of slavery to the present. Readings will include fiction, poetry, drama, autobiography, and polemical prose.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: EH 357

EH 288 Academic Writing - W 3 cr

Practice in the writing necessary in various academic disciplines.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 290 Sp Top 3 cr

A variable-content course treating selected topics in literature and language. May be repeated once for a total of 6 credits when topic varies.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 300 Intro to Literary Study 3 cr

This course offers an introduction to the study of literature with special emphasis on critical writing. Required for 400-level literature classes.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 301 Poetry Crit Reading-Analysis 3 cr

Introduction to close reading and interpretation of poetry, including written explications and analysis.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 302 Drama Crit Reading-Analysis 3 cr

Introduction to close reading and interpretation of drama, including written analysis. Prerequisites: EH 101 and EH 102.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 303 Fiction Critical Rdnng Analysis 3 cr

Introduction to close reading and interpretation of fiction, including written analysis.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 310 Classical Mythology 3 cr

Through the disciplines of English and Philosophy, this course will provide an introduction to myths and to the literature that recounts the myths, legends, and folktales of ancient Greece and Rome. Not only will this course offer a survey of Greek and Roman myth, but it will also look at how different writers treat the material and why their treatments vary. Cross-listed with PHL 310 and REL 310. Credit cannot be received for both EH 310 and either PHL 310 or REL 310.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: CLA 310, PHL 310, REL 310

EH 314 Medieval Literature 3 cr

This course will introduce students to major texts of medieval literature, including narrative poetry, drama, prose, and lyric poetry.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 315 Chaucer 3 cr

This course will introduce students to Chaucer's major works in the original language; no prior knowledge of Middle English is required.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 320 Shakespeare's Plays 3 cr

Study of Shakespeare's plays from across all the kinds he wrote: tragedies, histories, comedies, and romances.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 321 Renaissance Literature 3 cr

Non-dramatic literature of the English Renaissance through 1600.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 324 17th Century Literature 3 cr

Non-dramatic literature 1600-1660.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 331 American Novel to 1900 3 cr

American novel from its beginning to 1900.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 332 American Nonfiction Prose 3 cr

Major American nonfiction prose.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 334 American Poetry to 1900 3 cr

American poetry from its beginning to 1900.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 335 Native American Literature 3 cr

Survey of Native American Literature from the 18th century to the present.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 340 Restoration Early 18th Lit 3 cr

Literature of the period, including such authors as Behn, Dryden, Finch, Defoe, Pope, Montagu, Swift, and Fielding.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 342 Later 18th Century Lit - W 3 cr

Literature of the period, including such authors as Gray, Boswell, Johnson, Sheridan, Radcliffe, Wollstonecraft, Blake, and Austen.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 343 18th Century British Novel 3 cr

Eighteenth-Century British novel.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 351 British Romanticism 3 cr

The poetry and prose of Romantic-era writers, including Wordsworth, Coleridge, Byron, Keats and Shelley.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 352 Victorian Poetry 3 cr

A study of poetry of the Victorian period.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 353 Victorian Prose 3 cr

A study of prose, emphasizing nonfiction, of the Victorian period.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 354 19th Century British Novel 3 cr

Novels of the Romantic and Victorian periods.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 357 Black Writers in America 3 cr

A survey of literature by African-American authors from the early colonial period to the present. Readings will include fiction, poetry, drama, autobiography, and polemical prose.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 360 Anglo-Am Poetry since 1900 3 cr

A study of Anglo-American poets such as D.H. Lawrence, T.S. Eliot, Ezra Pound, Robert Graves, W.H. Auden, Dylan Thomas, Derek Walcott, Paul Muldoon, Eavan Boland, Seamus Heaney, Galway Kinnel, Adrienne Rich, Robert Penn Warren, John Crowe Ransom, Margaret Walker, Elizabeth Bishop, Gwendolyn Brooks, Gary Synder, Charles Olson, Allen Ginsberg, Anne Sexton, and Sylvia Plath.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 361 American Novel since 1900 3 cr

Twentieth-century American novel. Prerequisites: EH 101 and EH 102.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 362 Am. Novel from 1900 to 1945 3 cr

A study of the American novel from 1900 to 1945.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 363 American Novel since 1945 3 cr

A study of the American novel since 1945.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 364 Brit. Novel from 1900 to 1945 3 cr

A study of the British novel from 1900 to 1945.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 365 British Novel since 1945 3 cr

A study of the British novel since 1945.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 366 Contemporary Fiction 3 cr

An introduction to literary fiction of the contemporary era.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 367 British Novel since 1900 3 cr

Twentieth-century British novel. Prerequisite: EH 101 and EH 102.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 369 Modern Short Story 3 cr

Representative modern short story writers.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 370 History of English Language 3 cr

A study of the development from Old English through Middle English to Modern English.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 371 Approaches to Eng Grammar - W 3 cr

A course designed primarily to help education majors translate between the languages of conventional grammar and the syntactical grammar relevant to the teaching of English at pre-college levels. Consideration will also be given to the rationales basic to the formation of different grammars and to methods of presenting grammatical material in a classroom situation. Non-education majors interested in a sophisticated approach to the study of grammar might also benefit from this course.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: ARG 371

EH 372 Technical Writing - W 3 cr

The purpose of this course is to train students in the kinds of written reports required of practicing professionals, aiming to improve mastery of the whole process of report writing from conceptual stage through editing stage.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 373 Writing in Professions - W 3 cr

Practice in the kinds of writing done in such professions as speech pathology and audiology, nursing, teaching, criminal justice, and business. Assignments, which emphasize persuasive writing, may include position papers, correspondence, and reports.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 379 Horror 3 cr

A study of the history and themes of horror from the early 19th century to the present, including representative texts, films, and scholarship.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 380 Science Fiction 3 cr

Study of the history and themes of science fiction literature and film from the end of the nineteenth century to the present.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 390 Sp Top - 3 cr

A variable-content course addressing selected topics in literature and writing. May be repeated for a total of 6 credits when course content varies.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 391 Fiction Writing 3 cr

Intensive practice in the short story with contemporary readings. Constructive, critical discussions are conducted on each composition. Emphasis is on the creation of compelling short fiction.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and EH 200 Minimum Grade of C

EH 393 Creative Nonfiction Writing 3 cr

Intensive study of and practice in writing creative nonfiction - nonfiction that stresses personal voice and the use of literary elements. Concentrates on genres of creative nonfiction (personal or narrative essay, travel and nature writing, cultural criticism, memoir) with an emphasis on producing high-quality writing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and EH 200 Minimum Grade of C

EH 395 Poetry Writing 3 cr

Intensive study in different modes and forms in contemporary poetry such as fixed, open, and spoken word. Readings in contemporary poetry will serve as models for students' creation of new poems. Workshops a primary component of the class.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and EH 200 Minimum Grade of C

EH 401 Teaching Composition-W 3 cr

Study of theories of composition and their applications for teaching writing at the secondary school level.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 402 Rhetoric-Ancient and Modern-W 3 cr

Readings in rhetorical theory, ancient and modern, are applied in specific writing assignments which encourage students to adopt a point of view and address a specific audience.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: ARG 402, CLA 402

EH 404 Grant Proposal Writing 3 cr

Extensive preparation in the discourse and generic conventions of grant proposals written by practicing professionals, aiming to promote mastery of the whole process of grant writing from conceptual stage through editing stage.

Prerequisite: (EH 101 Minimum Grade of C and EH 102 Minimum Grade of C) or EH 105 Minimum Grade of C

EH 405 Editing and Document Design 3 cr

Covers general editing principles, levels and types of editing, and technical editing terms, along with theories and aesthetic principles of document design and production. The course offers extensive, hand-on experience in both areas.

Prerequisite: (EH 101 Minimum Grade of C and EH 102 Minimum Grade of C) or EH 105 Minimum Grade of C

EH 421 Literary Criticism to 1900-W 3 cr

Classical, Neo-Classical, Romantic, and Victorian literary theory. Identical to PHL 421. Credit cannot be received for both PHL 421 and EH 421.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: PHL 421

EH 422 Lit Criticism Since 1900-W 3 cr

Modern and contemporary literary theory. Identical to PHL 422. Credit cannot be received for both EH 422 and PHL 422.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: PHL 422

EH 461 Tudor and Stuart Drama 3 cr

A historical and generic study of plays by authors including Kyd, Marlowe, Dekker, Jonson, Middleton, Beaumont, Fletcher, and Webster.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 462 Restor-18th Century Drama - W 3 cr

A historical and generic study of plays by authors such as Wycherley, Etheridge, Behn, Dryden, Otway, Congreve, Steele, Goldsmith, and Sheridan.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 463 Drama 1890 to Present 3 cr

Twentieth-century British, American, and Continental drama, with major emphasis on the plays of Ibsen, Chekhov, Shaw, Pirandello, O'Neill, and Beckett.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 465 Middle English Literature 3 cr

Major romances and dream-visions of the late Middle Ages such as Sir Gawain and the Green Knight, Troilus and Criseyde, Sire Orfeo, Pearl, and Parliament of Birds.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 467 Milton 3 cr

Milton's major poems, with emphasis on Paradise Lost.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 468 Contemporary Black Fiction 3 cr

A close reading of selected fiction published since World War II by such authors as James Baldwin, Ralph Ellison, Alice Walker, Toni Morrison, Ernest J. Gaines, Gloria Naylor, and Julius Lester.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 470 Medieval Lit 3 cr

A variable content course in specific topics from medieval literature. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 471 Renaissance Lit 3 cr

A variable content course in specific topics from Renaissance literature. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 472 Shakespeare 3 cr

A variable content course in specific topics on Shakespeare. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 474 Restoration Lit 3 cr

A variable content course in specific topics in Restoration and 18th Century literature. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 475 19th Century Lit 3 cr

A variable content course in specific topics from 19th Century literature. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 476 Studies in 20th Century Lit 3 cr

A variable content course in specific topics from 20th-Century literature. May be repeated once for credit when course content varies for up to six credit hours.

Prerequisite: (EH 102 Minimum Grade of C) or EH 105 Minimum Grade of C

EH 477 Genre 3 cr

A variable content course in specific topics from various genres. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 478 Film 3 cr

A variable content course in specific topics from film studies. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 479 Mod/Postmodern Poetry 3 cr

A variable content course in specific topics from modern/postmodern poetry. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 480 Gender and Lit 3 cr

A variable content course in specific topics dealing with gender and literature. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 481 Comp and Rhetoric - W 3 cr

A variable content course in specific topics concerned with writing, rhetoric, or language studies. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: ARG 481

EH 482 Am Literature 3 cr

A variable content course in specific topics from American literature. May be repeated once for credit when course content varies for up to six credit hours. Junior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 483 Advanced Fiction Writing 3 cr

Innovative study in various forms of fiction for students with experience in the techniques of fiction writing. Discussion include cultural and critical context as well as foundational models.

Prerequisite: EH 102 Minimum Grade of C or EH 105 Minimum Grade of C and EH 200 Minimum Grade of C and EH 391 Minimum Grade of C

EH 485 Advanced Poetry Writing 3 cr

Advanced poetry writing course that explores different styles of contemporary American poetry such as political poetry, eco-poetry, ekphrastic poetry and more. Students will create at least ten new poems and submit them for workshop.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and (EH 200 Minimum Grade of C and EH 395 Minimum Grade of C)

EH 487 Screenwriting for Film 3 cr

Craft talks and guided workshops on how to create a feature-length screenplay.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and EH 200 Minimum Grade of C

EH 488 Screenwriting for Television-W 3 cr

Craft talks and guided workshops on how to create a television series and write the pilot episode.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: CA 488

EH 489 Folklore and Ways of Listening 3 cr

This course focuses on the collection of folklore and expressive culture, providing a contemporary glimpse at collective memory. Students learn ethnographic fieldwork methods, oral history interviewing techniques, transcription, and the evaluation of oral evidence.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C and EH 300 (may be taken concurrently) Minimum Grade of C)

EH 490 Special Topics 1-3 cr

Selected topics in writing in literary studies. May be repeated for a total of 9 credits when course content varies.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 491 Special Topics in Creative Writing 3 cr

Selected topics in creative writing. May be repeated for a total of 9 credits when course content varies.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and (EH 200 Minimum Grade of C)

Corequisite: EH 300

EH 492 Seminar - 3 cr

Specific topics in literature. Can be taken twice for a total of 6 credits when topics vary.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 494 Directed Studies 1-3 cr

Directed individual study. Requires permission of the directing professor and department chair. Course can be repeated for a total of 8 credits.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 496 Professional Studies - Intern 1-2 cr

On-the-job experience related to the student's classroom work in the field of English. A maximum of two hours of credit may be earned in internships. Students consult with the English department chair regarding internship opportunities and eligibility. English majors and minors who are juniors or seniors may enroll. Pre-requisites: Permission of English department chair and the supervising professor, completion of EH 101 and EH 102 (or EH 105), 3.0 GPA, and junior or senior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 497 Adv Creative Nonfiction Writ. 3 cr

Advanced study and practice of writing creative nonfiction.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 499 Senior Honors Project-H 3-6 cr

With the guidance of a faculty mentor, Honors Students will identify and carry out an independent scholarly project in English. The outcome of the project will include a formal presentation and defense before the faculty and a written senior thesis. The Honors Senior Project will be evaluated and graded by three members of the faculty and chaired by the project faculty mentor. The student must complete a total of six hours of Honors Senior work, be accepted to the University Honors Program or the Department Honors Program, and have an approved project prospectus. University Honors Program participants must have completed HON 301.

Prerequisite: HON 301 Minimum Grade of D and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

EH 501 Introduction to Crit Theory 3 cr

Required of all M.A. students in the Literature Concentration in their first year of work. Surveys current literary theory from structuralism to the present. The purpose is to introduce the conceptual lexicons and reading strategies of advanced literary analysis. Topics treated include structuralism, deconstruction, psychoanalysis, hermeneutics, Marxism, feminism, and reception theory.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 502 Graduate Writing for English 3 cr

A course preparing students for research and academic writing at the graduate level in English studies. Required of all MA students in their first year of work. Prerequisite: Admitted to Graduate Program

EH 505 Teaching College Writing 3 cr

A study of contemporary theories in writing and rhetoric, with an emphasis on their application in a college level curriculum.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 506 Composition Theory & Research 3 cr

Traces development of theoretical movements in composition, addressing research methodologies as well. Covers pedagogy but also theoretical and empirical issues such as relationship of composition to cultural criticism, ways of knowing and assessment.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 507 Topics in Rhetoric/Composition 3 cr

A variable-content course treating selected topics in Rhetoric/Composition Studies. Possible topics include histories of rhetoric, digital literacy in composition and rhetorical analyses of texts.

Prerequisite: EH 502 Minimum Grade of C

EH 508 Workplace Writing Contexts 3 cr

Study of theories, practices, and histories of professional writing.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 510 Introduction to Old English 3 cr

Old English poetry and prose studied in its original linguistic form.

EH 511 Beowulf 3 cr

A study of the Old English poem Beowulf in its original linguistic form.

Prerequisite: EH 510

EH 513 Studies in Chaucer 3 cr

A study of selections of Chaucer's Canterbury Tales and dream visions.

Prerequisite: EH 502 Minimum Grade of C

EH 514 Renaissance Poetry 3 cr

Examination of non-dramatic Renaissance poetic development, including the sonnet.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 520 Studies in Shakespeare 3 cr

Study of Shakespeare's plays from across all the kinds that he wrote: tragedies, histories, comedies, and romances.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 521 17th Century Poetry 3 cr

A historical and formal study of the poetry of the early seventeenth century, including the works of Donne, Jonson, Herbert, Vaughn, Herrick, Marvell, Wroth, Lanyer, and Philips. The course will emphasize the close reading of poems.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 525 Restor-Early 18th Century Lit 3 cr

A study of literature in the period, including such authors as Dryden, Rochester, Behn, Congreve, Defoe, Pope, Swift, and Gay.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 532 Early Romantics 3 cr

A study of early Romantic poetry and prose, with emphasis on the poetry of William Wordsworth and S.T. Coleridge.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 534 Late Romantics 3 cr

A study of late romantic poetry and prose, with emphasis on the poetry of Lord Byron, Percy Shelley, and John Keats.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 536 Victorian and Edwardian Poetry 3 cr

A study of poetry of the Victorian and Edwardian periods.

EH 538 Victorian and Edwardian Prose 3 cr

A study of novels and short fiction of the Victorian and Edwardian periods.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 543 American Romanticism 3 cr

A study of writers of the American Romantic Movement, such as Irving, Emerson, Thoreau, Douglass, Whitman, and Dickinson, focusing primarily on nonfiction prose and poetry.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 544 Antebellum American Fiction 3 cr

Examines the emergence and development of American fiction before the Civil War, focusing on the tale and the novel, and including such figures as Cooper, Hawthorne, Poe, Melville, and Stowe.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 545 American Realism 3 cr

A study of writers of the American Realist Movement, such as Twain, James, Crane, Dreiser, Chopin, Cheitnutt, and Jewett.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 548 Native American Fiction 3 cr

Study of fiction written by Native Americans since 1900.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 551 African Am. Lit. to 1900 3 cr

Study of literature written by African Americans to 1900.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 552 African Am. Lit. since 1900 3 cr

Study of literature written by African Americans since 1900.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 562 20th Century Poetic Revolution 3 cr

A study of the key figures in the shaping of modern poetry - Yeats, Eliot, Pound, Stevens, and Frost.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 570 Studies in Medieval Literature 3 cr

Theme-based study of Medieval texts; possible topics include late medieval chivalry, medieval sexualities, Arthurian tradition.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 571 Modern British Fiction 3 cr

Examination of selected works of such authors as Conrad, D.H. Lawrence, Woolf, Forster, Joyce, Greene, and Lessing.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 572 Modern American Fiction 3 cr

Examination of selected works of such authors as Anderson, Dickey, Faulkner, Fitzgerald, and Hemingway.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 573 Contemporary Fiction 3 cr

Examines significant trends in contemporary literary fiction.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 574 Folklore and Ways of Listening 3 cr

This course focuses on the collection of folklore and expressive culture, providing a contemporary glimpse at collective memory. Students learn ethnographic fieldwork methods, oral history interviewing techniques, transcription, and the evaluation of oral evidence.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 577 Studies in Genre - 3 cr

Seminar in specific topics from various genres. May be repeated once for credit when content varies.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 583 Grad Fiction Writing Wksp I 3 cr

Special individual instruction in fiction writing. This course requires special permission.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 584 Grad Fiction Writing Wksp II 3 cr

Special individual instruction in fiction writing. This course requires special permission.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 585 Grad Poetry Writing Wksp I 3 cr

Special individual instruction in poetry writing. This course requires special permission.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 586 Grad Poetry Writing Wksp II 3 cr

Special individual instruction in poetry writing. This course requires special permission.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 588 Writing and Diversity 3 cr

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 589 Creative Nonfiction Writing 3 cr

Intensive study of and practice in writing creative nonfiction that stresses personal voice and the use of literary elements. Focus on the personal or narrative essay, travel and nature writing, and cultural criticism.

EH 590 Special Topics - 3 cr

A graduate seminar designed to allow close study of selected literary topics or figures. May be repeated twice for credit when the subject offerings are from different literary areas.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 591 Topics in Creative Writing 3 cr

Selected topics in creative writing. May be repeated for a total of 6 credits when the course content varies.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 592 Seminar - 3 cr

A specific subject in American or British literature to be assigned prior to each semester. May be taken once for credit when the subject offerings are from different literary areas.

Prerequisite: EH 502 Minimum Grade of C

EH 594 Dir St - 1-8 cr

Directed individual study on a topic not covered by an existing course.

Prerequisite: Prior permission of the directing professor and the department chair. May be taken for a total of 8 credits.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 596 Professional Studies--Intern 1,2 cr

On-the-job experience related to the student's classroom work in the field of English. A maximum of two hours of credit may be earned in internships. Students consult with the English Department Graduate Coordinator regarding internship opportunities and eligibility. **Prerequisites:** Permission from the Graduate Coordinator and the English Department Chair.

EH 598 Literature Capstone 3 cr

The literature Capstone is a directed study class required for students completing the Literature Concentration in their last semester of coursework. Working with a mentor, students create a research portfolio and give a departmental presentation.

Prerequisite: EH 502 (may be taken concurrently) Minimum Grade of B

EH 599 Thesis - 6 cr

One to six credits per semester with a maximum of six hours of credit.

Pre-requisite: Admitted to the Graduate Program.

English (BA)

Degree Requirements

Code	Title	Hours
General Education Requirements		
	https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext	53-57
Major Requirements		39
<i>English BA Major Core</i>		
A. Survey Sequence - Select six hours from the following:		6
EH 215 & EH 216	Brit Lit before 1785 and Brit Lit after 1785	

EH 225 & EH 226	Am Lit before 1865 and Am Lit after 1865	
EH 235 & EH 236	World Lit before 1650 and World Lit after 1650	
B. Gateway Course		
EH 300	Intro to Literary Study (see footnote table below (p. 192)) ¹	3
C. Literature prior to 1660 - Select one of the following: see footnote table below (p. 192) ²		
EH 314	Medieval Literature	
EH 315	Chaucer	
EH 320	Shakespeare's Plays	
EH 321	Renaissance Literature	

EH 324	17th Century Literature
EH 461	Tudor and Stuart Drama
EH 465	Middle English Literature
EH 467	Milton
EH 470	Medieval Lit
EH 471	Renaissance Lit
EH 472	Shakespeare

D. British or American Literature, 1660-1900 - Select one of the following: 3

EH 331	American Novel to 1900
EH 332	American Nonfiction Prose
EH 334	American Poetry to 1900
EH 340	Restoration Early 18th Lit
EH 342	Later 18th Century Lit - W
EH 343	18th Century British Novel
EH 351	British Romanticism
EH 352	Victorian Poetry
EH 353	Victorian Prose
EH 354	19th Century British Novel
EH 462	Restor-18th Century Drama - W
EH 474	Restoration Lit
EH 475	19th Century Lit

E. Literature after 1900 - Select one of the following: 3

EH 360	Anglo-Am Poetry since 1900
EH 362	Am. Novel from 1900 to 1945
EH 363	American Novel since 1945
EH 364	Brit. Novel from 1900 to 1945
EH 365	British Novel since 1945
EH 366	Contemporary Fiction
EH 369	Modern Short Story
EH 380	Science Fiction
EH 463	Drama 1890 to Present
EH 468	Contemporary Black Fiction
EH 476	Studies in 20th Century Lit
EH 478	Film
EH 479	Mod/Postmodern Poetry

F. Criticism, Theory, Rhetoric - Select one of the following: 3

EH 402	Rhetoric-Ancient and Modern-W
EH 421	Literary Criticism to 1900-W
EH 422	Lit Criticism Since 1900-W

G. Diversity, Equity, and Inclusion - Select one of the following: 3

EH 207	Literature and Gender
EH 335	Native American Literature
EH 357	Black Writers in America
EH 468	Contemporary Black Fiction
EH 480	Gender and Lit

H. English Electives - Five additional EH courses see footnote table below (p. 192)³ 15

I. 400-level courses see footnote table below (p. 192)⁴ 9

Minor Requirements

A minor is required for this degree program 18-24

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Footnote

- ¹ Should be completed prior to enrollment in any 400-level English course. Also fulfills technology requirement.
- ² Classical Mythology EH 310/PHL 310/REL 310/CLA 310 cannot satisfy this requirement.
- ³ Any EH course qualifies, not just those listed above. See limits on 200-level courses.
- ⁴ These can simultaneously fulfill requirements C-G above, with one being Item F

Additional Information

Coursework requirements for the English BA include:

- 9 hours of 400-level coursework in English at USA.
- 30 hours of 300- or 400-level coursework at USA.
- 39 hours of English coursework, excluding composition. (Only four 200-level courses can count toward this requirement.)
- 15 hours of 300- or 400-level coursework in English at USA.

English (MA) - Literature Concentration

Degree Requirements

A. Coursework. A minimum of thirty-six semester hours of credit is required beyond the bachelor's degree with a grade of "A" or "B," to include the following two courses in the first year of course work.

Code	Title	Hours
EH 501	Introduction to Crit Theory	3
EH 502	Graduate Writing for English	3
Early Literature Requirement: Two courses from literary periods pre-1800		6
Later Literature Requirement: Two courses from literary periods post-1800		6
DEI Requirement: One course from the "diversity, equity, and inclusion" list (which may be in literature or creative writing): EH 548, EH 551, EH 552, or EH 588		3
Additional Coursework: Select 9 hours of additional courses		9
Thesis or Capstone Requirement: Thesis Option (6 hours) or Capstone Option (3 hours + 1 additional course). See information below.		6
Total Hours		36

Note on dual-listed courses: No more than 18 hours of dual-listed courses (courses listed simultaneously at both the 400 level and the 500 level) may be counted towards the minimum hours required for a degree. In addition, graduate students will receive graduate credit only when they enroll in the 500-level version of any dual-listed course.

B. Thesis or Capstone Requirement. The literature concentration requires either a literature thesis or a capstone, which is included in the program requirement of 36 hours.

1. Thesis option (6 hours). The literature thesis is the preferred option for students who plan to enter a doctoral program in English. Students write a thesis, which may draw on a student's previous written work in courses, but which must also involve substantial further research under the supervision of a thesis director. An oral defense, which will situate the thesis in the comprehensive objectives of the creative writing concentration, will be required one to two weeks prior to the Thesis First Submission Deadline for the Graduate School. Six hours of thesis credit will be granted on the successful completion and oral defense of the thesis.
2. Capstone option (3 hours + 1 additional course). Students produce a capstone project, which may draw on a student's previous written work in courses, but which must also involve significant further research, meeting the comprehensive objectives of the literature concentration under the supervision of a capstone mentor. Each capstone requires an annotated bibliography, a major researched essay or an essay/digital presentation, and a presentation in the department. In order to qualify for graduation, all capstone work must be completed by April 15 (spring) or November 15 (fall) and receive the approval of the capstone mentor and the Graduate Committee. Departmental presentations will be scheduled between the deadline

and the end of the semester. NOTE: Students who choose the capstone option must take an additional course in order to complete the program requirement of 36 hours.

C. Foreign Language Proficiency Requirement. All students pursuing the M.A. in English must demonstrate a reading proficiency in Spanish, French, German, or Latin before registering for the comprehensive exam or for thesis hours. Foreign nationals for whom English is not native may offer their native language. Credit in reading courses in acceptable languages may not count toward the 36 hour credit requirement for the M.A. in English.

English (MA) Creative Writing

Degree Requirements

A. Coursework: A minimum of thirty-six semester hours of credit is required beyond the bachelor's degree with a grade of "A" or "B," including the following course in the first year of coursework.

Code	Title	Hours
EH 502	Graduate Writing for English	3
DEI Requirement: One course from the "diversity, equity, and inclusion" list (which may be in literature or creative writing): EH 548, EH 551, EH 552, or EH 588		3
Literature Coursework: Twelve additional hours of courses in literature chosen from EH 501, EH 505, EH 506, EH 507, EH 508, EH 513, EH 514, EH 520, EH 521, EH 526, EH 527, EH 532, EH 534, EH 536, EH 538, EH 543, EH 544, EH 545, EH 547, EH 548, EH 551, EH 552, EH 562, EH 570, EH 571, EH 572, EH 573, EH 574, EH 577, EH 590, EH 592		12
Creative Coursework: Twelve additional hours of courses in creative writing chosen from these courses: EH 583, EH 584, EH 585, EH 586, EH 588, EH 589, EH 591		12
Thesis or Capstone Requirement: Thesis Option (6 hours) or Capstone Option (3 hours + 1 additional course). See information below.		6
Total Hours		36

Note on dual-listed courses. No more than 18 hours of dual-listed courses (courses listed simultaneously at both the 400 level and the 500 level) may be counted towards the minimum hours required for a degree. In addition, graduate students will receive graduate credit only when they enroll in the 500-level version of any dual-listed course.

B. Thesis or Capstone Requirement. The creative writing concentration requires either a creative thesis or a capstone, which is included in the program requirement of 36 hours.

1. Thesis option (6 hours). The thesis is a substantial body of fiction, non-fiction, poetry, or other genres. An oral defense, which will situate the thesis in the comprehensive objectives of the creative writing concentration, will be required one to two weeks prior to the Thesis First Submission Deadline for the Graduate School. Six hours of thesis credit will be granted on the successful completion and oral defense of the thesis.
2. Capstone option (6 hours + 1 additional course). The capstone is a collection of fiction, non-fiction, poetry, or other genres, which grows out of previous coursework. NOTE: Students who choose the capstone option must take an additional course in order to complete the program requirement of 36 hours.

C. Foreign Language Requirement. All students pursuing the M.A. in English must demonstrate a reading proficiency in Spanish, French, German, or Latin before registering for capstone or thesis hours. Students for whom English is not native may offer their native language to satisfy the foreign language requirement. Credit earned in foreign language courses does not count toward the 36-hour credit requirement for the M.A. in English.

English Creative Writing Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Creative Writing

The minor in creative writing invites students from any major to explore literature and creative writing. While there are many ways to pursue creative writing, this minor provides those who want more sustained work in creative writing, a structure for that work, and a community of support. In addition, the creative writing minor fosters skills that employers have come to expect of students who study literature, such as the ability to comprehend complex material, analyze subtext, and communicate their ideas clearly.

To achieve a minor in creative writing, a student will need a minimum of 21 semester hours in English, exclusive of freshman English composition (EH 101 and EH 102). The other details and requirements are:

Code	Title	Hours
Core Courses		
EH 200	Intro to Creative Writing	3
EH 391	Fiction Writing	3
EH 395	Poetry Writing	3
Additional Creative Writing Course		
Select one additional course		3
Additional English Courses		
Select three additional English courses from the following: see footnote table below (p. 197) ¹		9
EH 200	Intro to Creative Writing	
EH 391	Fiction Writing	
EH 393	Creative Nonfiction Writing	
EH 395	Poetry Writing	
EH 483	Advanced Fiction Writing	
EH 485	Advanced Poetry Writing	
EH 487	Screenwriting for Film	
EH 488	Screenwriting for Television-W	
Total Hours		21

Footnote

¹ One of which must be a literature class higher than EH 300.

English Minor

Minor Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in English

- A minimum of 21 semester hours in English is required, exclusive of freshman English.
- The minor requires at least four courses at the 300 level or above, two of which must be literature courses. (Contact English Department for list of approved literature courses.)
- Students who wish to take 400-level courses must first take EH 300.

English Professional Writing Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Professional Writing

The minor in English: Professional Writing provides students with the conceptual foundations and hands-on practice necessary for communicating and writing proficiently in technical and professional contexts. The minor is intended to prepare students for producing the forms of writing they will encounter in the workplace (feasibility studies, technical reports, business letters, and grants, for example), and to provide a broad understanding of the rhetorical dimensions of written communication, especially nonacademic texts.

Code	Title	Hours
Core Courses		
EH 372	Technical Writing - W	3
or EH 373	Writing in Professions - W	
EH 402	Rhetoric-Ancient and Modern-W	3
EH 481	Comp and Rhetoric - W	3
Other Courses		
Select one of the following:		3
EH 371	Approaches to Eng Grammar - W	
EH 372	Technical Writing - W ¹	
EH 373	Writing in Professions - W ¹	
EH 401	Teaching Composition-W	
EH 404	Grant Proposal Writing	
EH 405	Editing and Document Design	
EH 496	Professional Studies - Intern ²	
Additional English Courses		
Select three additional English courses including but not limited to courses in the second section above		9
Total Hours		21

¹ Students can take either or both of these two courses.

² EH 496 is 1-2 credits per semester; students must take 3 credits to complete the required hours.

Environmental Toxicology

Department Information

Environmental Toxicology website

<https://www.southalabama.edu/colleges/graduateschool/etox/>

The University of South Alabama, through its Stokes School of Marine and Environmental Sciences, offers an interdisciplinary Master's program in Environmental Toxicology. Its students focus on understanding how toxins, pollutants, and other stressors affect the health of people, food webs, and ecosystems. Students in this program will learn to:

- Evaluate the impact of toxins, pollutants, and other stressors in the environment
- Perform laboratory and/or field studies to evaluate the impacts of toxins, pollutants, and stressors at a molecular level, as well as in organisms, populations, food webs, ecosystems, and in communities.
- Optimize and/or develop field or laboratory methods to identify and evaluate toxic substances in biota and in the environment
- Evaluate strategies to prevent, mitigate, monitor and/or control and manage toxic substances relevant to environmental and human health

Graduates from this program will be able to seek opportunities across multiple employment sectors including academic research, State and Federal Government research and policy, industry, non-governmental organizations, and private consulting and/or environmental monitoring. Alternatively, students may continue their education by pursuing a Ph.D. degree in Environmental Toxicology or related areas (e.g., Marine Sciences, Biology, Biomedical Sciences). In addition, these graduates will be qualified for jobs requiring M.S. degrees in their original areas of concentration.

Minimum Requirements for Admission

Students applying to this program must fulfill all the requirements for admission specified by the Graduate School. Additional requirements include:

- B.S./B.A. degree from an accredited four-year college or university. The program is designed for graduates holding baccalaureate degrees in Biology, Biomedical Sciences, Chemistry, Engineering or related fields.
- An undergraduate GPA of 3.00 or above is required.
- In addition, students applying to this program must have completed the following undergraduate courses: Biology (2 semesters); Statistics (1 semester); Calculus (1 semester); Organic Chemistry (2 semesters); Biochemistry.
- It is recommended (but not required) that students applying to the program have completed at least 6 credit hours of undergraduate Biochemistry. Those students who have only taken the minimum 3 hours of undergraduate biochemistry will have to include an additional 3 hours of graduate Biochemistry among the elective courses to complete the program.
- The GRE score is not required for admission. You may optionally submit your GRE scores if you wish for them to be considered as part of your application to any graduate program, but this is not required. Individual faculty members may consider available GRE scores as part of a holistic evaluation of the candidates.

The applicant will also be required to submit:

1. A completed application including a 1-2 page statement indicating the student's interests and professional goals
2. Official transcripts from all undergraduate institutions attended
3. At least two professional letters of recommendation with current contact information

Assessment of credentials will be supplemented by evaluation of letters of recommendation and the educational background of the student. Foreign applicants must meet all University entrance requirements and meet a minimum TOEFL score of 71 (or equivalent). More details for foreign applicants can be found here: <https://www.southalabama.edu/departments/international/requirements-deadline.html>

To ensure compatibility between the student's research interests and faculty expertise, particular attention will be given to the written statement of interest from applicants. A University faculty member will be asked to act as a "mentor" for the applicant based on the statement of interest, and if necessary, a follow-up interview. Through this process, the student's interests will be matched to the expertise available at the University. Where possible, students should contact potential mentors in advance or work with the graduate coordinator to find a potential mentor when applying to the program.

Fellowships and Assistantships

The Graduate School offers a limited number of competitive research and/or teaching assistantships to students in the Environmental Toxicology program at the University of South Alabama. These include tuition remission and waiver of out-of-state fees. Additional research assistantships may be possible through extramural grants and contracts.

Deadline for Applications to the Environmental Toxicology Program

Students entering the program in the fall are encouraged to submit applications by June 1. Students may also apply for admission during spring and summer. Early applications and inquiries are welcomed to assist in identification of potential faculty mentors.

Environmental Toxicology (MS)

Master of Science in Environmental Toxicology

The Master of Science degree in Environmental Toxicology is awarded in recognition of a student's demonstrated ability to successfully complete a prescribed program of courses and original scholarly research. Original scholarly research will be evaluated based on a student's ability to write and defend an acceptable research thesis.

Degree Requirements

Required Credit

A minimum of thirty-two (32) semester hours of course credit beyond the baccalaureate degree is required for students pursuing this MS degree.

Residence, Full-Time Study, and Continuous Registration

A minimum of two consecutive semesters of fulltime study in residence is required. The residency requirements may be met at the University

of South Alabama, the Dauphin Island Sea Lab, or the Mitchell Cancer Institute.

Time Limit

All requirements for the MS degree must be completed within four (4) years from the date of matriculation. A student who has not satisfactorily completed a MS degree in a five year period must apply for a defined extension to complete the degree. This request must be recommended by a major professor, the program coordinator, the Director of Graduate studies, and approved by the Dean of the Graduate School. If the student does not complete the degree requirements in the defined extension period, the Director of Graduate studies may recommend, and the Dean of the Graduate School may take, whatever action is necessary up to and including dismissal.

Failure to complete the work in the periods specified shall necessitate reevaluation of the student's program, and may result in a recommendation of dismissal by the Director of Graduate studies to the graduate Dean.

Students will be required to take twelve (12) semester hours of core classes including Environmental Chemistry (CH 514 and CH 514L); Environmental Toxicology (EXT 515); and Environmental Statistics (ST 550) plus a Research Integrity Seminar (GIS 501). Additional coursework will be determined by the student's advisory committee and approved by the Environmental Toxicology program coordinator. Elective courses should be selected from the recommended list of electives where possible (see below) to make up an additional six (6) semester hours of credit towards the degree. Directed studies conducted under the supervision of a student's advisor or an advisory committee member should comprise up to six (6) semester hours of credit. Lastly, students will be expected to demonstrate research capability, preferably through the completion of an acceptable written thesis and oral defense of the research. At least eight (8) semester hours should be included in the MS degree program of study to meet this thesis requirement.

Course Requirements

The student and her/his advisory committee will be responsible for designing the curriculum that best fits the student's professional goals. If, in the opinion of the student's committee, the student lacks adequate undergraduate preparation, the student will be required to make up such deficiencies.

Forensic Science

Department Information

Title	Name
Co-Directors	Dr. Lesley Gregoricka Dr. Sarah Koon-Magnin

Forensic Science at USA is an interdisciplinary program offering students the opportunity to gain foundation-level exposure to the various social and physical sciences from which forensic applications are derived. Students will acquire broad-based knowledge and skills in a combination of areas such as chemistry, anthropology, criminal justice and biology.

The minor is designed to prepare students for future graduate education or job training in specialized fields within forensic science, including the search for and recovery of human remains, human identification, crime scene investigation, evidence collection, and laboratory analyses. Although all students at USA are welcome to minor in FS, the minor will be especially useful for students in anthropology, biology, biomedical sciences, chemistry, and criminal justice. Students who plan to pursue careers in forensic science will benefit from a broader understanding of the criminal justice system, offender behavior, and due process law. Students who plan to pursue careers in the criminal justice system will benefit from a broader understanding of forensic science so that they understand what happens to evidence once it is taken to a lab for processing.

Gender Studies

Department Information

Department of Gender Studies website
<https://www.southalabama.edu/genderstudies> (<https://www.southalabama.edu/genderstudies/>)

(251) 460-7373

Title	Name
Director	Dr. Claire Cage

The Gender Studies Program offers a minor in the interdisciplinary study of contemporary and historical gender theory and gender issues on a global level. The program allows students to acquire depth of knowledge in specific areas of gender-related focus and gender theory, as well as a wide range of research skills and methodologies from across the disciplines. The program offers courses from numerous departments within the College of Arts and Sciences, as well as service learning and community internship opportunities.

Gender Studies deepens students' understanding of areas of study such as historical and contemporary constructions of femininity and masculinity and their representations; sexuality; feminist theory; LGBTQIA + studies; male and female physiology; gender and health, business and politics; and the intersection of race, class, gender and sexuality. The Gender Studies Program encourages students to become actively engaged in gender-focused research and its practical applications, and provides numerous opportunities for students to interact with faculty members to discuss their current research.

Degrees, Programs, or Concentrations

- Gender Studies Minor (p. 204)

Courses

African-American Studies (AFR)

AFR 101 Intro to African Amer Studies 3 cr

An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States.

College of Arts/Sciences (CAS)

CAS 100 First Yr Exp - 2 cr

A course for first-year students majoring in the College of Arts & Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

CAS 190 Special Topics - 1-3 cr

This variable content course deals with selected topics from any of the disciplines in the College of Arts and Sciences. Topics will focus on current and relevant issues and may contain a service-learning component. The course may be repeated for credit when the topic varies for a maximum of six credit hours.

Gerontology (GRN)

GRN 272 Gender and Aging 3 cr

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Gender Studies (GS)**GS 101 Intro to Gender Studies 3 cr**

This course provides an interdisciplinary, multicultural overview of the concept of gender and gender roles in patriarchal society. This course examines the social construction of gender in our society and how that has shaped such areas as economics, politics, cultural/social values, and the impact upon women and men in historical and contemporary terms.

GS 290 Sp Tp-#MeToo, Black Lives Matter & Beyond 3 cr

Study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 301 Moving Beyond Diversity 3 cr

This course explores ways of fighting injustice and dismantling systemic oppression for those who are being disproportionately impacted generationally. The course offers a framework for activism that focuses on creating a culture that stands up for what is right by fighting against normalizing cycles of perpetuated injustices. Students will examine diverse perspectives that center on the capacity to mobilize solidarity for those efforts, strategies, and practices that negate performative allyship with systems-changing action for today's realities.

GS 302 Black Women and Activism 3 cr

This fully online three-hour credit course is interdisciplinary in nature and addresses the need to recognize and validate contributions made by Black women that sought and continue to uplift Black America throughout the late 19th and early 21st centuries. This cadre of activism will be contextualized through both womanist and feminist theories. Central to these works will be an examination for how multiple oppressions have shaped Black women's lives throughout their ongoing efforts to redefine self and bring empowerment to their communities through racial solidarity and advancement as a people. These women's underlying resistance strategies and intellectual discourse for offsetting the negative effects of racism and other oppressive measures will be mirrored through the use of race and gender as a socio-political construct. A postmodern response depicted through the lens of contemporary Black feminists for how both mainstream feminism and Black America have responded to these heroic forms of activism will be analyzed. These activists' contributions will unfold through the following curricula foci: 1) early roots of nationalism, 2) the emergence of both Black Feminist and Womanist Thought, and 3) political movements involving Black women activists. Additional cornerstones for learning will include participating in a posting process that involve sharing research and writing projects which in return will facilitate lively discussions on today's black women activism from their own respective domain (e.g. music, spirituality, film, arts and letters, judicial system, the intellectual and socio-political arenas).

GS 304 #Me Too, Black Lives Matter & 3 cr

The velocity of national protests fighting for human rights across the constitutional continuum of justice, dignity, and safety have evolved into an epidemic throughout American infrastructures. This course will plunge into the #MeToo Era, Black Lives Matter, and Woke Movements. Significant visibility for how social constructs of gender, race, and sexuality intersect with these protesters' outcries will be examined. Further considerations will be given to exposing those accused of sexual violence on various fronts as well as existing allegations of wrongful deaths will be a part of the course curriculum. An added dimension to the curriculum will include also focusing on political strategies and an operative activism model that are being used to effectively penetrate these existing cultures of power and dominance.

GS 390 Special Topics 3 cr

Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 490 Special Topics 3 cr

Advanced study of selected topics within an area in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 492 Gender Studies Seminar - 3 cr

Advanced study of selected topics in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 494 Directed Studies 1-3 cr

Directed research under the guidance of a Gender Studies faculty member. Requires permission of instructor. Student is restricted to taking a maximum of six hours of Directed Studies.

Prerequisite: GS 101 Minimum Grade of D

GS 496 Internship - 3-6 cr

Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special Permission required.

Prerequisite: GS 101 Minimum Grade of D

Interdisciplinary Progs (IDS)**IDS 290 Special Topics 1-3 cr**

A study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 490 Special Topics 1-3 cr

Advanced study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 590 Sp Top 1-9 cr

Specialized topics not generally listed in the course offerings. Requires consent of Graduate Director.

International Studies (IS)**IS 100 Global Issues 3 cr**

This course introduces students to the basic structural components of the global system, including the nation-state system and the world economy, and explores the major schools of thought in such areas as security, economic prosperity and development, international law, gender and environmental studies. The course helps students understand the complex and interlinked issues facing global society, and current problems, and view the U.S. within a broader global context.

IS 193 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 200 People-Nations - 3 cr

Variable content course focusing on particular nation or region of the world. Course offers a multi-disciplinary introduction to the people, society and politics. May be repeated for credit when content varies up to a total of 6 hours.

IS 210 Global Engagement Orientation 1 cr

This course introduces students to international global issues, allows students to identify opportunities for active engagement in these issues, and provides the framework for successful completion of the Global Engagement Certificate.

IS 290 Special Topics - 3 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 293 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and CJ 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 363, PSC 363

IS 371 Studies in Russia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Russian civilization. May be repeated for credit when content varies.

IS 372 Studies in E. Europe & C. Asia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Eastern European and Central Asian civilizations. May be repeated for credit when content varies.

IS 390 Sp Top- 1-3 cr

Advanced study of selected topics within a particular concentration. May be repeated for credit when content varies.

IS 391 Study Abroad - 18 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated.

IS 393 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 410 Global Engagement Capstone 1 cr

Global Engagement Capstone is required for students completing the Global Engagement Certificate (GEC), and is a one hour course designed to help students reflect on the 16 hours of coursework and nine hours of globally engaged activities they have completed. Students will create a portfolio during the course, which will be presented to students and affiliated faculty at its conclusion.

Prerequisite: IS 210 Minimum Grade of P

IS 473 International Law 3 cr

This course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 473, PSC 473

IS 489 Leadership and World Leaders 3 cr

An overview of the definitions, characteristics, and typologies of leadership, with a focus on lives and legacies of global influential political leaders over the past century.

Prerequisite: PSC 130 Minimum Grade of D or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of D

Cross-Listed: PSC 251, PSC 489

IS 490 Special Topics 3 cr

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with CJ 491 and PSC 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, PSC 491

IS 492 Seminar - 3 cr

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 493 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 494 Directed Studies 1-3 cr

Directed research in the field of international studies. May be repeated or credit up to a total of 9 hours. Prerequisite: permission of IS Director

IS 495 Senior Seminar - W 3 cr

The course seeks to provide an interdisciplinary and cross-regional overview of the fields and research opportunities within international studies.

Prerequisite: EH 102 Minimum Grade of C

IS 496 Prof St Internship - 3-9 cr

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business Prerequisite: Permission of IS Director

IS 499 Senior Honors Thesis 3 cr

The course covers major theoretical perspectives in organizational psychology based on empirical research and case studies. Students will explore learning theory, group dynamics, and change in different types of learning organizations.

Prerequisite: (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

IS 591 Study Abroad 12 cr

Graduate level international exchange programs for University of South Alabama students.

Museum Studies (MUM)

MUM 201 Intro to Museum Studies 3 cr

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

Gender Studies Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Gender Studies

Core Requirements

1. Students minoring in Gender Studies must complete a total of 18 semester hours in approved courses.
2. Students are required to complete two courses in any discipline in Group 1 and two courses in any discipline in Group 2.
Group 1 disciplines are: African-American Studies, Art History, Communication, English, Foreign Languages, and History. Group 2 disciplines are: Anthropology, Criminal Justice, International Studies, Political Science, Psychology, and Sociology.
3. Minor courses must also represent four different disciplines.
4. Approved Variable and Special Topics Courses that focus on gender studies can also be taken to complete the 18 semester hour requirement. For information on upcoming variable and special topics courses, consult the Director.
5. GS 101
6. One 400 level course with a focus on gender studies. This can be a GS course (i.e. GS 490) or an approved 400 level course in another discipline.

Code	Title	Hours
------	-------	-------

Core Courses

GS 101	Intro to Gender Studies	
--------	-------------------------	--

Group 1

Complete two Gender Studies courses from any of the following disciplines: African-American Studies, Art History, Communication, English, Foreign Languages, and History. These courses include but are not limited to the following:

AFR 101	Intro to African Amer Studies
ARH 480	Women in Art-W
CA 315	Gender and Communication
EH 207	Literature and Gender
EH 468	Contemporary Black Fiction

EH 475	19th Century Lit
--------	------------------

EH 480	Gender and Lit

Gerontology

Department Information

Department of Gerontology website

<https://www.southalabama.edu/colleges/artsandsci/syansw/gerontologyprogram/>

(251) 460-6020

Title	Name
Program Director and Academic Advisor	Dr. Roma Stovall Hanks
Associate Director and Academic Advisor	Dr. Hosik Min

The University of South Alabama offers Certificates in Gerontology at the Graduate and Undergraduate levels and an Interdisciplinary Minor in Gerontology.

Gerontology is the interdisciplinary study of:

1. The human life cycle
2. Issues related to aging
3. Intergenerational Relationships

The Gerontology program is designed to establish an expertise that will enhance and compliment the analytical skills that the student acquires as part of the major area of study. This expertise may be used as preparation to specialize within the career area related to the student's major area of study or to pursue further academic training in graduate or medical school. Special topics courses and on-line instruction are available.

Depending on their specific needs and interests, students may be able to complete requirements for the Undergraduate or Graduate Certificate in Gerontology through distance learning options. Students who are interested in pursuing a Gerontology Certificate on-line should speak with their academic advisor and the Gerontology program director. Students in professional programs may be able to use field placements in lieu of the Gerontology Internship.

The Degree Works audit tool lists the Gerontology Certificates as programs. Students should alert their advisors to check that they are enrolled in a Gerontology Certificate program (Graduate or Undergraduate). In order to receive the printed Gerontology Certificate, the student must submit a completed Data Sheet and Application available at the program website: [https:// www.southalabama.edu/colleges/artsandsci/syansw/gerontologyprogram/](https://www.southalabama.edu/colleges/artsandsci/syansw/gerontologyprogram/). ([https:// www.southalabama.edu/colleges/artsandsci/syansw/gerontologyprogram/.html](https://www.southalabama.edu/colleges/artsandsci/syansw/gerontologyprogram/.html)) The certificate is not automatically issued without an application. Students and alumni of the program may be asked to participate in exit interviews or surveys.

Degrees, Programs, or Concentrations

- Gerontology Graduate Certificate (p. 208)
- Gerontology Minor (p. 209)
- Gerontology Undergraduate Certificate (p. 210)

Courses

African-American Studies (AFR)

AFR 101 Intro to African Amer Studies 3 cr

An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States.

College of Arts/Sciences (CAS)

CAS 100 First Yr Exp - 2 cr

A course for first-year students majoring in the College of Arts & Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

CAS 190 Special Topics - 1-3 cr

This variable content course deals with selected topics from any of the disciplines in the College of Arts and Sciences. Topics will focus on current and relevant issues and may contain a service-learning component. The course may be repeated for credit when the topic varies for a maximum of six credit hours.

Gerontology (GRN)

GRN 272 Gender and Aging 3 cr

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Gender Studies (GS)**GS 101 Intro to Gender Studies 3 cr**

This course provides an interdisciplinary, multicultural overview of the concept of gender and gender roles in patriarchal society. This course examines the social construction of gender in our society and how that has shaped such areas as economics, politics, cultural/social values, and the impact upon women and men in historical and contemporary terms.

GS 290 Sp Tp-#MeToo, Black Lives Matter & Beyond 3 cr

Study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 301 Moving Beyond Diversity 3 cr

This course explores ways of fighting injustice and dismantling systemic oppression for those who are being disproportionately impacted generationally. The course offers a framework for activism that focuses on creating a culture that stands up for what is right by fighting against normalizing cycles of perpetuated injustices. Students will examine diverse perspectives that center on the capacity to mobilize solidarity for those efforts, strategies, and practices that negate performative allyship with systems-changing action for today's realities.

GS 302 Black Women and Activism 3 cr

This fully online three-hour credit course is interdisciplinary in nature and addresses the need to recognize and validate contributions made by Black women that sought and continue to uplift Black America throughout the late 19th and early 21st centuries. This cadre of activism will be contextualized through both womanist and feminist theories. Central to these works will be an examination for how multiple oppressions have shaped Black women's lives throughout their ongoing efforts to redefine self and bring empowerment to their communities through racial solidarity and advancement as a people. These women's underlying resistance strategies and intellectual discourse for offsetting the negative effects of racism and other oppressive measures will be mirrored through the use of race and gender as a socio-political construct. A postmodern response depicted through the lens of contemporary Black feminists for how both mainstream feminism and Black America have responded to these heroic forms of activism will be analyzed. These activists' contributions will unfold through the following curricula foci: 1) early roots of nationalism, 2) the emergence of both Black Feminist and Womanist Thought, and 3) political movements involving Black women activists. Additional cornerstones for learning will include participating in a posting process that involve sharing research and writing projects which in return will facilitate lively discussions on today's black women activism from their own respective domain (e.g. music, spirituality, film, arts and letters, judicial system, the intellectual and socio-political arenas).

GS 304 #Me Too, Black Lives Matter & 3 cr

The velocity of national protests fighting for human rights across the constitutional continuum of justice, dignity, and safety have evolved into an epidemic throughout American infrastructures. This course will plunge into the #MeToo Era, Black Lives Matter, and Woke Movements. Significant visibility for how social constructs of gender, race, and sexuality intersect with these protesters' outcries will be examined. Further considerations will be given to exposing those accused of sexual violence on various fronts as well as existing allegations of wrongful deaths will be a part of the course curriculum. An added dimension to the curriculum will include also focusing on political strategies and an operative activism model that are being used to effectively penetrate these existing cultures of power and dominance.

GS 390 Special Topics 3 cr

Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 490 Special Topics 3 cr

Advanced study of selected topics within an area in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 492 Gender Studies Seminar - 3 cr

Advanced study of selected topics in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 494 Directed Studies 1-3 cr

Directed research under the guidance of a Gender Studies faculty member. Requires permission of instructor. Student is restricted to taking a maximum of six hours of Directed Studies.

Prerequisite: GS 101 Minimum Grade of D

GS 496 Internship - 3-6 cr

Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special Permission required.

Prerequisite: GS 101 Minimum Grade of D

Interdisciplinary Progs (IDS)**IDS 290 Special Topics 1-3 cr**

A study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 490 Special Topics 1-3 cr

Advanced study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 590 Sp Top 1-9 cr

Specialized topics not generally listed in the course offerings. Requires consent of Graduate Director.

International Studies (IS)**IS 100 Global Issues 3 cr**

This course introduces students to the basic structural components of the global system, including the nation-state system and the world economy, and explores the major schools of thought in such areas as security, economic prosperity and development, international law, gender and environmental studies. The course helps students understand the complex and interlinked issues facing global society, and current problems, and view the U.S. within a broader global context.

IS 193 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 200 People-Nations - 3 cr

Variable content course focusing on particular nation or region of the world. Course offers a multi-disciplinary introduction to the people, society and politics. May be repeated for credit when content varies up to a total of 6 hours.

IS 210 Global Engagement Orientation 1 cr

This course introduces students to international global issues, allows students to identify opportunities for active engagement in these issues, and provides the framework for successful completion of the Global Engagement Certificate.

IS 290 Special Topics - 3 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 293 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and CJ 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 363, PSC 363

IS 371 Studies in Russia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Russian civilization. May be repeated for credit when content varies.

IS 372 Studies in E. Europe & C. Asia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Eastern European and Central Asian civilizations. May be repeated for credit when content varies.

IS 390 Sp Top- 1-3 cr

Advanced study of selected topics within a particular concentration. May be repeated for credit when content varies.

IS 391 Study Abroad - 18 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated.

IS 393 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 410 Global Engagement Capstone 1 cr

Global Engagement Capstone is required for students completing the Global Engagement Certificate (GEC), and is a one hour course designed to help students reflect on the 16 hours of coursework and nine hours of globally engaged activities they have completed. Students will create a portfolio during the course, which will be presented to students and affiliated faculty at its conclusion.

Prerequisite: IS 210 Minimum Grade of P

IS 473 International Law 3 cr

This course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 473, PSC 473

IS 489 Leadership and World Leaders 3 cr

An overview of the definitions, characteristics, and typologies of leadership, with a focus on lives and legacies of global influential political leaders over the past century.

Prerequisite: PSC 130 Minimum Grade of D or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of D

Cross-Listed: PSC 251, PSC 489

IS 490 Special Topics 3 cr

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with CJ 491 and PSC 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, PSC 491

IS 492 Seminar - 3 cr

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 493 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 494 Directed Studies 1-3 cr

Directed research in the field of international studies. May be repeated or credit up to a total of 9 hours. Prerequisite: permission of IS Director

IS 495 Senior Seminar - W 3 cr

The course seeks to provide an interdisciplinary and cross-regional overview of the fields and research opportunities within international studies.

Prerequisite: EH 102 Minimum Grade of C

IS 496 Prof St Internship - 3-9 cr

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business Prerequisite: Permission of IS Director

IS 499 Senior Honors Thesis 3 cr

The course covers major theoretical perspectives in organizational psychology based on empirical research and case studies. Students will explore learning theory, group dynamics, and change in different types of learning organizations.

Prerequisite: (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

IS 591 Study Abroad 12 cr

Graduate level international exchange programs for University of South Alabama students.

Museum Studies (MUM)**MUM 201 Intro to Museum Studies 3 cr**

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

Gerontology Graduate Certificate Degree Requirements

The Graduate Certificate Program at USA requires a minimum of four courses (12 hours) with grades of "A" or "B", including Aging in American Society (SY 523) and an approved internship or approved equivalent experience. It is strongly recommended that students take other courses to enhance their research/practice in aging and the life course, such as a course in public policy or public health; a research methods course appropriate to the student's primary discipline and/or gerontology; and a course in professional ethics. All courses not specifically listed in this section must be approved by the Gerontology Program Director and the student's academic advisor prior to registration for the course.

The Gerontology internship (GRN 596) is required but may be waived for students who are employed in the field of aging or those who complete an approved internship or clinical/field placement within the student's discipline. The internship must allow the student to apply skills to work with older individuals and their families. Research shows that positive, supportive attitudes toward aging are best developed through personal involvement with older people. The skill of applying knowledge to the issues in aging is developed in experiential learning situations. Therefore, an internship is required unless the student demonstrates substantial previous experience with the client population. A maximum of six credit hours of internship and six credit hours of directed study may be applied toward the Graduate Certificate in Gerontology. The internship must be approved by the program director during the semester prior to placement. Students in professional programs may be able to use field placements in lieu of the Gerontology Internship. Additional course substitutions may be possible. The Gerontology Certificate is a valuable added credential for students in Nursing, Allied Health Professions, Health Education, and Public Health/Health Administration. Students are encouraged to speak with their academic advisors and the Director or Associate Director of the Gerontology Programs about adding the Gerontology Certificate to their programs of study.

All course waivers and substitutions must be approved by the Gerontology program director. The student must work closely with the director and with the advisor in the major area of specialization to develop the best program possible to meet career goals.

Graduate Certificate in Gerontology

Following are the courses approved for the Graduate Certificate in Gerontology:

Code	Title	Hours
Required Courses		
SY 523	Aging in American Society	3
GRN 596	Internship - Gerontology (or equivalent)	3,6
Elective Courses		
Select two of the following:		6
GRN 535	Health Disparities Life Span	
GRN 594	Dir St in Gerontology -	
GRN 597	GRN Teaching Apprenticeship	
HS 510	Current Health Issues	

PSC 581	Public Policy and Aging
KIN 563	Nutrition
PSY 516	Cognitive Psychology
PSY 524	Lifespan Development
PSY 575	Comparative Psychology
SY 535	Health Disparities Life Span
SY 572	Sociology of Aging-Family

Total Hours 12-15

Graduate level Special Topics courses and Directed Studies may be taken as electives when the course topic is appropriate for gerontology. Distance learning options may be offered for some courses. Check with the program director or associate director for information about on-line courses and other distance learning opportunities.

Other electives may be taken from the student's degree discipline with approval by the student's graduate advisor, the Gerontology program director, and the Graduate School (Examples: courses in Advanced Geropsychiatric Nursing and courses in the College of Allied Health Professions where the focus is on aging and age-related health conditions). Students should meet with the Gerontology program director to discuss specific questions about elective courses.

Courses which are taken as part of a degree program may be considered for credit toward the certificate provided they are approved by the Director of the University Programs in Gerontology, the Director of Graduate Studies in the College offering the degree, and the Dean of the Graduate School. In order to receive the printed Graduate Certificate in Gerontology, you must submit a completed application form. Certificates are not issued automatically. Forms are available on the program website at: <http://www.southalabama.edu/gerontology/>. Students must schedule an exit interview with the director or associate director of the Gerontology Program six weeks prior to completion of the program. Zoom or phone interviews can be arranged. Certificate recipients are listed in the Commencement Program closest to the date the certificate completion documentation approved.

Application for the Certificate

The Degree Works audit tool lists the Gerontology Certificates (Graduate and Undergraduate) as programs. Students should alert their advisors to check that they are enrolled in the appropriate Gerontology Certificate program. Upon completion of requirements, an application must be submitted by the student.

The application is available at the Gerontology website:
<http://www.southalabama.edu/colleges/artsandsci/syansw/gerontologyprogram/>.

Gerontology Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Gerontology

The Interdisciplinary Minor in Gerontology requires 18 semester hours. At least 9 hours (lower and/or upper-division) hours of courses in the minor must be completed at the University. At least 9 hours of courses must be upper division. The Interdisciplinary Minor on Gerontology is designed for those Arts and Sciences majors who are interested in obtaining jobs in agencies that provide services for older individuals and their families or in pursuing graduate degrees that involve research on aging and the life course or intergenerational relationships. Majors in other colleges may also pursue the Interdisciplinary Minor in Gerontology, but should discuss this option with an advisor from the major field. Students who complete requirements for the Gerontology minor may be eligible to receive the Undergraduate Certificate in Gerontology as well, provided all requirements for the Certificate are met. Students should consult their advisor and the program director or assistant director to discuss this dual credential option. University policies regarding dual use of courses for both a major and a minor apply.

Code	Title	Hours
Core Courses for the Minor (Undergraduate)		
<i>Required (total of 9 hours, including 3-hour internship):</i>		
SY 372	Social Gerontology - W	3
Select one of the following: 3		
BLY 207	Biology of Aging	
SY 435	Health Disparities Life Span	
GRN 435	Health Disparities Life Span	
Select one of the following: 3		
PSY 456	Adult Development and Aging-	
PSY 250	Life Span Development	
<i>Internship (Required 3 hours) see footnote table below (p. 210) ¹</i> 3		
<i>Elective Courses (Select courses to bring total hours to 18)</i> 6		
Any required course option that was not chosen from the list above to fulfill a requirement may be used as an elective. An additional 3 hours of internship may be accepted as an elective. Other elective choices include:		
GRN 272	Gender and Aging	
GRN 290	Special Topics - (see footnote table below (p. 210)) ²	
GRN 490	Special Topics (see footnote table below (p. 210)) ²	
GRN 494	Directed Studies	
HS 262	Personal Health	
IST 201	Seasons of Life	
KIN 263	Intro to Nutrition	
PSC 481	Public Policy and Aging	
PSY 416	Cognition	
PSY 428	Perception	
PSY 456	Adult Development and Aging-	
PSY 475	Comparative Evolutionary Psy	

SY 472	Sociology of Aging and Family
SY 490	Special Topics
Total Hours	18

Footnote

¹ Internship in Gerontology (GRN 496 or equivalent). With permission of the program director and the student's academic advisor, an internship in the student's primary discipline may be substituted if the internship provides significant contact with older people, their families, or appropriate service agencies. Three (3) semester hours required; up to six (6) semester hours may be accepted. Approval of the internship placement must be obtained at least 6 weeks prior to registration. The 3 hour internship requires 100 contact hours; the 6 hour internship requires 200 contact hours. If you plan to substitute an internship from another discipline, you must obtain written approval from the Gerontology Program Director prior to registration.

² GRN 290 and GRN 490 are variable topic courses. Directed studies, seminars, and special topics courses may be taken for credit toward the minor or certificate in gerontology only when the course topic is appropriate for the study of aging or intergenerational relationships. Check the class schedule each term to determine which topic is being offered. Sample topics include: Gender and Aging; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes across the Life Course; Aging and Public Policy. Other electives may be taken from the student's degree discipline with approval by the student's advisor and the Gerontology Program Director. Content of the elective must include substantial focus on aging.

Gerontology Undergraduate Certificate

Degree Requirements

Students who wish to earn an Undergraduate Certificate in Gerontology must complete four courses (12 semester hours), including an approved internship that will expose the student directly to older people and their families. The internship must be approved by the program director during the semester prior to placement. The internship may be waived for students who are currently employed in the field of aging or those who can provide documentation of substantial work experience in the field. Waiver of the internship requirement must be approved by the Gerontology Program Director and the student's academic advisor. Students in professional programs may be able to substitute clinical or field placements for the internship with permission of the Gerontology Program Director and the student's academic advisor. Substitutions will be approved only if the placement provides opportunities to interact with and provide services for older individuals and their families.

Approved courses are offered in various departments as well as in Gerontology (GRN). Students are encouraged to pursue the Gerontology Certificate in conjunction with degree programs. Some approved courses may not carry the GRN designation. It is essential for students to work with their academic advisors and the Gerontology program director or associate director to develop a plan of study for the Gerontology Certificate.

² GRN 290 and GRN 490 are variable topics courses. Check the class schedule each term to determine which topic is being offered. Sample topics include: Gender and Aging; and Aging and Public Policy. Additional courses may be used as electives, if approved by the Gerontology program director or associate director. Students should

meet with the program director to discuss specific questions about elective courses.

Directed studies courses, special topics, and seminars in gerontology or other disciplines may be accepted only when the course topic is appropriate for gerontology. Students should meet with the program director to discuss specific questions about elective courses.

Program Enhancement

Research opportunities, service learning, and scholarships may be available for students in Gerontology. Contact the Program Director for details. Membership in Sigma Phi Omega Gerontology Honor Society and the Gerontology Club are also available to qualified students.

Application for the Certificate

Printed certificates are not sent automatically to students. The certificate application is available at the Gerontology website: <https://www.southalabama.edu/colleges/artsandsci/syansw/gerontologyprogram/>.

An exit interview may be required. Contact the program director at least 6 weeks prior to completion of requirements for the certificate. Recipients of the Gerontology Certificates are listed in the Commencement Program closest to the date the certificate completion documentation was approved.

Title	Name
Coordinator	Christine Rinne, Ph.D.

The Global Engagement Certificate provides students the opportunity to engage in global issues and experiences through a combination of course work and approved activities.

Degrees, Programs, or Concentrations

- Global Engagement Certificate Program (p. 211)

Global Engagement Certificate Program

Degree Requirements

The program is open to all undergraduate students. Application to the program, admission, and advising are required; the application is available on the program website.

Code	Title	Hours
IS 210	Global Engagement Orientation	1
IS 410	Global Engagement Capstone	1

Remaining Hours see footnote table below (p.) ¹	15
Total Hours	17

Footnote

- ¹
- No more than 6 hours should be general education requirements at 100-/200-level
 - 3 hours must be in foreign language
 - at least 50% of course content must focus outside of the USA
 - Students will complete nine hours of globally engaged activity, such as study abroad, service learning, and internships.

Contact the coordinator for a list of approved courses and activities.

History

Department Information

Department of History website

<http://www.southalabama.edu/history> (<http://www.southalabama.edu/history/>)

Undergraduate Studies

Knowledge and awareness of history and society are important ingredients of a liberal education. The Department of History offers general courses for all students, a major and a minor in history, and preparation for students who plan to continue study at the graduate level, to teach history, or to enter related fields.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Honors in History

To be awarded Honors in History, a student must:

1. complete the standard requirements for a major in History
2. have a 3.5 overall GPA (University requirement)
3. have a 3.5 History GPA (Department requirement)
4. receive agreement of a member of the History Department to serve as mentor e.receive permission of the Department Chair to undertake this program
5. complete a Senior Honor Paper (HY 499), with a grade of "B" or "A", in addition to the standard History requirements. HY 499 (six semester hours credit) may be counted toward three hours of the 36 required for a major and toward the three hours of 400-level electives required for the major. Thus, the student receiving honors in History will be required to take a total of 39 hours in History instead of 36 (In HY 499, the student will normally take three hours in Fall Semester for research and three in Spring for writing, though occasionally this may be spread out over a longer period. A final committee of three or more faculty, which may include a representative of the University Honors College, will conduct an oral defense)

Note:

1. one need not be receiving University Honors to obtain Honors in History;

- a certificate will be awarded to the student indicating that they have been awarded "Honors in History."

Graduate Studies

The Master of Arts degree in History is designed to meet the varied needs of students. There are two study tracks or plans for completion of the degree: thesis, non-thesis.

Normally, those who wish to enter a Ph.D. program, law school, or certain positions in archives, government, and community college teaching positions pursue the thesis option. Other students pursuing positions where a thesis is not needed often study in the non-thesis track.

For further information on the M.A. program, see the Department website under Graduate Academic Programs.

Requirements for Admission

Students are admitted each semester. In addition to Graduate School requirements, all applicants must submit a statement of purpose for undertaking graduate work in History, provide three academic letters of recommendation, and a writing sample. These documents must be submitted electronically at <http://www.southalabama.edu/colleges/artsandsci/history/gradadmit.html>. Please contact the History Department Coordinator of Graduate Studies for more information. The following criteria supplement Graduate School criteria (see Categories of Admission).

Regular Admission

- At least twenty-one semester hours of college work in History approved by the Graduate Committee of the Department of History.
- Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 (on a 4.0 scale) on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.

Non-Degree Students

Students holding baccalaureate degrees from accredited institutions of higher education who are not interested in earning an MA degree, or who are not yet ready to apply for Regular Admission may enroll in a Non-Degree status. A suitable background for the courses to be taken is expected. Non-Degree students may enroll only in courses offered at specific times and places. They may not enroll in directed studies courses.

Graduate Assistantships

A limited number of assistantships are awarded to incoming and returning graduate students on a competitive basis. Assistantships include a tuition waiver and a stipend, for which students are asked to work 20 hours a week, usually as teaching assistants, in public history, or assisting in the University Archives. Applications for each academic year are due in the department no later than March 15.

Degrees, Programs, or Concentrations

- History (BA) (p. 218)
- History (MA) - Non-Thesis Option (p. 219)
- History (MA) - Thesis Option (p. 219)
- History Minor (p. 220)

Courses

History (HY)

HY 101 HY of Western Civilization I 3 cr

History of humankind, emphasizing the development of the West to c. 1600 C.E. Topics may include Mesopotamia and Egypt, Ancient Greece and Rome, the origins of monotheistic religions, and medieval Europe, Core Course.

HY 102 HY of Western Civilization II 3 cr

History of humankind, emphasizing the rise of the West, from c. 1600 C.E. Topics may include the Enlightenment, the French Revolution, WWI, WWII and the Cold War. Core course. Note: History 101 and 102 are related courses but need not be taken in order.

HY 103 HY of Asian Civilization I 3 cr

A survey of traditional cultures, values, ideas, and institutions of East, South, Southeast Asia to 1800.

HY 104 HY of Asian Civilization II 3 cr

The responses of East, South, and Southeast Asia to the impact of Western challenges and their roles in the modern world. Economic and political structure; the emergence of China and Japan as major world political and economic powers.

HY 121 World Civilization I 3 cr

This course will cover the history of World Civilization from its evolutionary beginnings in Africa to the beginning of the Protestant Reformation in Europe (c. 1550s CE).

HY 122 World Civilization II 3 cr

This course will cover the history of World Civilization from approximately 1550 through the contemporary era.

HY 135 US History to 1877 3 cr

Survey of US History to 1877. Topics may include Native American societies, colonial societies, the American Revolution, slavery, the Civil War, and Reconstruction. Core course.

HY 136 US History since 1877 3 cr

Survey of US History from 1877. Topics may include Western frontiers and Native Americans, Progressive Era, immigration, the Great Depression and Civil Rights Movements. Core Course. Note: History 135 and 136 are related courses but need not be taken in order.

HY 190 Special Topics - 1-3 cr

Special topics and their development, illustrating historical concepts. May be repeated twice for credit when content varies.

HY 212 Japanese Film 3 cr

This course will introduce students to major themes in recent Japanese history, including samurai culture and other issues pertaining to social class, Westernization, the postwar family, sixties radicalism, and recent popular culture. Students will explore these themes through Japanese film and literature, and will thus become familiar with major directors, including Akira Kurosawa, Yasujiro Ozu, and Juzo Itami, and novelists such as Junichiro Tanizaki and Yukio Mishima.

HY 228 Latin America 3 cr

An introductory survey of Latin American history from the time of European conquest to the present.

HY 283 Chinese Film 3 cr

This course will introduce students to major topics in Chinese history, covering both ancient periods such as the Three Kingdoms period, and twentieth-century events such as the war with Japan and the Cultural Revolution. Post-Tiananmen Chinese society will also be stressed. Students will explore these themes through Chinese film and literature, and will thus become familiar with major directors, including Zhang Yimou and Jia Zhangke, and writers such as Yu Hua.

HY 288 History of the Mass Media 3 cr

The role of journalism in American society from the Revolution to the present. This course is equivalent to CA 288.

Cross-Listed: CA 388, HY 388

HY 290 Special Topics- 3 cr

Special topics and their development, illustrating historical concepts. May be repeated twice for credit when content varies.

HY 303 Warfare Society Modern World 3 cr

Examines the mutual interrelations between warfare and society in western civilization since the 14th century.

Prerequisite: HY 102 Minimum Grade of C

HY 305 History of Military Thought-W 3 cr

An intellectual history of the place of armed conflict in society from the Renaissance to the Nuclear Age.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

HY 310 Amer Environmental Hy-W 3 cr

A textual and discussion-based analysis of the role of the environment in America's history from the Pre-Columbian era through the present, this course considers the interactions between human society and its surroundings across North America. In particular, this course explores the ideas, activities, technologies and institutions that have influenced our national interaction with the natural world. Conversely, we consider the degree to which the environment has shaped our national institutions and identity.

Prerequisite: (EH 101 Minimum Grade of C or EH 110 Minimum Grade of D or EH 190 Minimum Grade of D or USA 010 Minimum Grade of S) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

HY 312 America in the 1960s 3 cr

This course covers American history during the 1960's. It will offer an overview of one of the most tumultuous periods in modern American history.

HY 321 The Caribbean 3 cr

Explores the history of the island Caribbean from the onset of European rule to the present.

HY 332 Great Britain 1603 to 1815 3 cr

Great Britain from the accession of James I to the defeat of Napoleon.

HY 333 Great Britain Since 1815 3 cr

The British at home and abroad; Constitution and culture, identity and empire, since Waterloo.

HY 335 History of Modern France 3 cr

France since the Revolution.

HY 336 Central European History 3 cr

Addresses Central European History, in the lands of the Holy Roman Empire and its successor states, from the middle of the 15th Century until the middle of the 19th Century. Particular emphasis on major religious and political events during events during this period, along with discussion of Jewish history during these centuries.

HY 337 History of Eastern Europe 3 cr

History of Eastern Europe since 1914.

HY 338 History of Russia 3 cr

History of Russia from Kievan Rus to Present.

HY 346 The Second World War 3 cr

A history of the Second World War, its background and its aftermath.

HY 347 The Holocaust 3 cr

The history of the systematic mass murder of Europe's Jews and other groups by Nazi Germany during World War II. Cross-listed with REL 347. Credit cannot be received for both HY 347 and REL 347.

Cross-Listed: REL 347

HY 348 Hitler and Nazi Germany 3 cr

The rise of Adolf Hitler and the Nazi Party to power in Germany and the history of National Socialist Germany from 1933 to 1945.

HY 355 French Revolution 3 cr

Political, cultural and social revolution of the late eighteenth and early nineteenth centuries, emphasizing the French Revolution.

HY 356 European Civ 1815-1918-W 3 cr

History of European Civilization from 1815-1918.

Prerequisite: EH 102 Minimum Grade of C or EH 105 Minimum Grade of C

HY 357 Europe Since 1945 3 cr

The history of Europe from the end of the Second World War to the present.

HY 362 History of Africa since 1500 3 cr

A survey of the last five centuries of Africa's history moving from before European contact to the slave trade, colonial experience, and independence movements. Africans cultural patterns and its peoples' distinctive historical experience will be the focus of the course.

HY 364 Islamic Civilization to 1453 3 cr

This course will cover the political, economic, social, and cultural history of Islamic Civilization from its beginnings in the Arabian Peninsula in the sixth century to the Ottoman conquest of Constantinople in 1453. Cross-listed with REL 364. Credit cannot be received for both HY 364 and REL 364.

Cross-Listed: REL 364

HY 365 Islamic Civilization 1453 - W 3 cr

This course will examine the political, economic, social, and cultural history of Islamic Civilization from the Ottoman conquest of Constantinople in 1453 to the present. Cross-listed with REL 365. Credit cannot be received for both HY 365 and REL 365.

Cross-Listed: REL 365

HY 366 Traditional China 3 cr

Historical development of China from prehistoric times to arrival of Western influences in the 1800s.

HY 367 Modern China 3 cr

A study of Modern China from the arrival of Western influence in the 1800s to the present.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

HY 368 Japan 3 cr

Japanese history from antiquity to the present and the emergence of Japan as major world political and economic power.

HY 369 Modern Japan 3 cr

Japanese History from the late Tokugawa period to the present and the emergence of Japan as a major world political and economic power.

HY 371 Soc History of Early America 3 cr

Patterns of frontier, agrarian, and urban society to 1865.

HY 377 African American Experiences 3 cr

Examines the role of African Americans in United States history with an emphasis on social, political, economic, intellectual and cultural developments.

HY 382 Jews & Modern Amer Culture-W 3 cr

This course will look at the cultural history of Jews' contributions to United States culture during the late 19th and 20th century. From Broadway to comedy (and beyond), American Jews have used their positionality as both insiders and outsiders to create lasting artifacts of cultural brilliance that helped to define the "American century"-and continue to do so today.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

HY 384 Japanese Film 3 cr

This course will introduce students to major themes in recent Japanese history, including samurai culture and other issues pertaining to social class, Westernization, the postwar family, sixties radicalism, and recent popular culture. Students will explore these themes through Japanese film and literature, and will thus become familiar with major directors, including Akira Kurosawa, Yasujiro Ozu and Juzo Itami, and novelists such as Junichiro Tanizaki and Yukio Mishima.

Cross-Listed: CA 284, HY 284, LG 284, LG 384

HY 388 History of Mass Media 3 cr

The role of journalism in American society from the Revolution to the present. This course is also listed as CA 388.

HY 390 Special Topics - 1-3 cr

Special topics and their development, illustrating historical methodology. May be repeated twice for credit when content varies for a maximum of nine hours.

HY 401 Coll in History- 3 cr

A course which discusses various issues in history. May be repeated when content varies for a total of six hours. Prerequisite: Junior or Senior standing.

HY 405 War and Soc 20th Century 3 cr

A seminar which studies major themes in the interaction of warfare and society in the 20th century.

HY 415 Studies in Military History 3 cr

This course will deal with different topics in Military History. May be repeated for twice for credit when content varies for a maximum of nine hours. Prerequisite: Junior or Senior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

HY 429 Studies Latin Amer History-W 3 cr

A seminar devoted to the exploration of a specific topic in Latin American history. May be repeated twice when content varies for a maximum of nine hours. Prerequisite: Junior or Senior standing.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

HY 431 Studies in U.S. History - 3 cr

This course will deal with different topics in U.S. History. May be repeated twice for credit when content varies for a maximum of nine hours. Prerequisite: Junior or Senior standing

HY 432 Colonial America 3 cr

Colonial period to the revolution.

HY 433 The American Revolution 3 cr

This course emphasizes changes occurring in American society ca.1750-1800.

Cross-Listed: HY 533

HY 434 The Early Republic - W 3 cr

The early Republic from 1789 to 1840.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

HY 435 Civil War and Reconstruction 3 cr

The United States from 1840-1877.

HY 436 Modern US I 1877-1945 3 cr

History of urban industrialization, war, peace, prosperity, and depression.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

HY 437 Modern US II Since 1945 - W 3 cr

History of US in global perspective.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

HY 441 Research Seminar-U.S. History 3 cr

Research in topics in U.S. History. Limited to 15 students. Prerequisites: History major, Junior or Senior standing, permission from the Department Chair.

HY 442 Research Seminar European Hy 3 cr

Research in topics in European History. Limited to 15 students.

Prerequisites: History major, Junior or Senior standing, permission from the Department Chair.

HY 443 Research Seminar-World HY 3 cr

Research topics in Asian, African or Latin American History, or in the History of Islamic Civilization. Prerequisites: History major, Junior or Senior standing, permission from the Department Chair.

HY 444 Research Seminar-Digital Hist 3 cr

Research in topics in Digital History.

HY 454 The British Empire 3 cr

This course examines the rise, fall, and legacy of the British Empire.

HY 455 History of Travel and Tourism 3 cr

This course examines the history of British and American travel and tourism from the eighteenth century to the present.

HY 456 Body, Medicine, Society Europe 3 cr

This course examines the social and cultural history of medicine, health, and the human body in Western Europe from 1500 to 1900.

HY 457 Studies in European History - 3 cr

This course will deal with different topics in European history. May be repeated twice for credit when content varies for a maximum of nine hours. Prerequisite: Junior or Senior standing.

HY 458 Sex,Celibacy Christian West 3 cr

This course examines the history of attitudes towards sexuality, marriage and celibacy in the Western World. It focuses on the question of how Christianity has shaped sexual norms and gender relations from ancient times to the present.

HY 461 Studies in Asian History - 3 cr

This course will deal with different topics in Asian history. May be repeated twice for credit when the content varies for a maximum of nine hours. Prerequisite: Junior or Senior standing.

HY 465 Studies in HY of Islamic Civ - 3 cr

This course will cover specific topics in the history of Islamic civilization. May be repeated for credit when content varies. Prerequisite: Junior or Senior status. Cross-listed with REL 465. Credit cannot be received for both HY 465 and REL 465.

Cross-Listed: REL 465

HY 471 Atlantic World - W 3 cr

Examines the interactions among Europeans, Native American, and Africans in the Americas. This course is a "W" course.

Prerequisite: (EH 102 (may be taken concurrently) Minimum Grade of C or EH 105 (may be taken concurrently) Minimum Grade of C)

HY 477 The Old South 3 cr

This course examines the settlement and evolution of the American South from settlement of Jamestown to the Civil War. Of particular concern will be the degree to which the development of economic, social and political institutions in the South, especially the institution of slavery, increasingly isolated the region from the rest of the country.

Cross-Listed: HY 577

HY 478 The New South 3 cr

History of the South from Reconstruction to the 1920's.

HY 494 Directed Studies - 1-3 cr

Directed Individual Study. Requires approval of department chair.

HY 496 Public History 3 cr

This course will introduce students to the field of public history as an academic field and a possible career. Students cannot receive credit for both this course and HY 495.

HY 498 Internship in History 3-6 cr

Directed individual field research at the undergraduate level. Occupational and professional experiences under faculty direction in a defined field of interest, primarily for but not limited to archival, museum, library, or other public history projects. Written reports required. Special permission of departmental chair required. Maximum hours 6.

HY 499 Senior Honors Paper - H 1-6 cr

The researching and writing of a major historical paper. Requires permission of department chair.

HY 501 Colloquium of History 3 cr

A course which discusses various issues in history. May be repeated when content varies. Students cannot receive credit for both this course and HY 401.

Cross-Listed: HY 401

HY 505 Warfare and Society 20th Cent 3 cr

A seminar which studies major themes in the interaction of warfare and society in the 20th century. Students cannot receive credit for both this course and HY 405.

Cross-Listed: HY 405

HY 515 Studies in Military History - 3 cr

This course will deal with different topics in military history. May be repeated for credit when content varies. Students cannot receive credit for both this course and HY 415.

Cross-Listed: HY 415

HY 529 Studies in Latin Am. History - 3 cr

A seminar devoted to the exploration of a specific topic in Latin American History. May be repeated for credit when content varies. Students cannot receive credit for both this course and HY 429.

Cross-Listed: HY 429

HY 530 American Historiography 3 cr

Examination of major American historians; study of techniques, styles, ideas, interpretations, and critical evaluations.

HY 531 Studies in U.S. History - 3 cr

A seminar devoted to different topics in U.S. History. May be repeated for credit when content varies. Students cannot receive credit for both this course and HY 431.

Cross-Listed: HY 431

HY 532 Colonial America 3 cr

Colonial period to the Revolution.

HY 533 American Revolution 3 cr

This course emphasizes changes occurring in American society ca. 1750-1800.

Cross-Listed: HY 433

HY 534 The Early Republic 3 cr

The early Republic from 1789-1849. Students cannot receive credit for both this course and HY 434.

Cross-Listed: HY 434

HY 535 Civil War and Reconstruction 3 cr

The United States from 1840-1877. Students cannot receive credit for both this course and HY 435.

Cross-Listed: HY 435

HY 536 Modern U.S. I 1877-1945 3 cr

History of urban industrialization, war, peace, prosperity, and depression. Students cannot receive credit for both this course and HY 436.

Cross-Listed: HY 436

HY 537 Modern U.S. II Since 1945 3 cr

History of U.S. in a global perspective. Students cannot receive credit for both this course and HY 437.

Cross-Listed: HY 437

HY 538 20th Century U.S. History 3 cr

This course emphasizes interpretations of twentieth-century United States history.

HY 540 Modern European Historiography 3 cr

A study of the development of European historical literature and its theoretical and methodological bases.

HY 541 Major European Thinkers 3 cr

Seminar devoted to the writings of leading European thinkers of the last five hundred years, including such figures as Luther, Rousseau, Darwin, Marx, Freud and de Beauvoir.

HY 542 World Historiography 3 cr

Study of the development of World historical literature and its theoretical and methodological bases.

HY 544 Digital History 3 cr

Students will learn about an historical subject while gaining experience in digital methodologies and research. The goal is to conduct original primary research that will be published collaboratively on the web. Each class meeting will be equally divided between the topic of focus, and workshops. Simultaneously, students will learn the theory, research methods, and tools associated with digital humanities. Projects meeting certain criteria will be published on-line if the students elect to do so.

Cross-Listed: HY 444

HY 546 Research in Soviet Soc History 3 cr

A study of the relationship between political and social developments in Soviet Russia from 1917 to 1941.

HY 551 Medieval Europe 3 cr

Seminar that explores the history of Western Europe between 950 and 1500, with emphasis on changes in government, economy, society, religion, thought, war and diplomacy.

HY 552 Renaissance Europe 3 cr

Seminar that explores intellectual and cultural developments in Western Europe between 1350 and 1600.

HY 553 Religious Reform in Europe 3 cr

Seminar that considers religious reform movements within the Catholic Church before the beginning of Protestantism, the development of the major Protestant tendencies, and the continuing development of reform within the Catholic Church after the Protestant break.

HY 554 The British Empire 3 cr

The history and legacy of the British Empire from the 17th century to the present.

HY 555 History of Travel and Tourism 3 cr

The history of Travel and Tourism: The British and American Experience from the Eighteenth Century to the present.

HY 556 Body, Medicine, Society Europe 3 cr

This course examines the social and cultural history of medicine, health, healing, and the human body in Western Europe from 1500 to 1900.

HY 557 Studies in European History - 3 cr

A seminar devoted to different topics in European History. May be repeated for credit when the content varies. Students cannot receive credit for both this course and HY 457.

Cross-Listed: HY 457, HY 558

HY 558 Sex, Celibacy Christian West 3 cr

This course examines the history of attitudes towards sexuality, marriage, and celibacy in the Western world. It focuses on the question of how Christianity has shaped sexual norms and gender relations from ancient times to the present.

HY 559 Modern European History 3 cr

Problems in historical interpretation and method from 1740 to present. May be repeated when topic varies.

HY 561 Studies in Asian History - 3 cr

A seminar devoted to different topics in Asian History. May be repeated for credit when the content varies. Students cannot receive credit for both this course and HY 461.

Cross-Listed: HY 461

HY 564 Classical/Medieval Islamic His 3 cr

Seminar that examines the Classical and Medieval history of Islamic civilization from the sixth to the thirteenth centuries, with a focus on the political and cultural changes experienced by the Muslim world in this period.

HY 565 Studies in Islamic Civil. - 3 cr

A seminar devoted to different topics in the history of Islamic Civilization. May be repeated for credit when the content varies. Students cannot receive credit for both this course and HY 465.

Cross-Listed: HY 465

HY 570 American Biography 3 cr

A study of American biography, autobiography, and methodology.

HY 571 Atlantic World 3 cr

This course examines the interactions among Europeans, Native Americans, and Africans in the Americas. Students cannot receive credit for both this course and HY 471.

Cross-Listed: HY 471

HY 573 19th Century American West 3 cr

Seminar that explores the history of the American West in the nineteenth century, focusing on Manifest Destiny, imperialism, Mormonism, the environment, and the place of Native Americans in U.S. society.

HY 577 The Old South 3 cr

This course examines the settlement and evolution of the American South for settlement of Jamestown to the Civil War. Of particular concern will be the degree to which the development of economic, social and political institutions in the South, especially the institution of slavery, increasingly isolated the region from the rest of the country.

Cross-Listed: HY 477

HY 578 The New South 3 cr

History of the South from Reconstruction to the 1920's.

Cross-Listed: HY 478

HY 580 Research in Southern History 3 cr

History of the southern United States, from the colonial era to the present. Students will write a research paper involving interpretation of primary documents.

HY 581 Research in American History 3 cr

This is a variable content seminar course. Students will write a research paper involving interpretation of primary sources.

HY 586 Research in European History 3 cr

This is a variable content seminar course. Students will write a research paper involving interpretation of primary sources.

HY 590 Special Topics - 3 cr

A colloquium of selected subjects and readings to be arranged by the department. Limited to fifteen students. May be repeated seven times for credit when content varies for a total of 24 semester hours.

HY 592 The Teaching of History 3 cr

The class is conceived as part seminar and part practicum. It is an introduction to the problems and principles of the teaching of history in secondary and higher education settings. It will combine instructor lecture, class presentations, and class discussions of assigned readings.

HY 593 Exam and Thesis Introduction 1 cr

This course seeks to provide M.A. students with a practical introduction to the research techniques and bibliographic knowledge that will facilitate the timely completion of a master's level program. Required of all incoming History M.A. students.

HY 594 Directed Studies 1-3 cr

Directed individual study. May only be used in unusual cases to build on regular graduate course work. A maximum of nine credit hours of HY 594 may count toward degree requirements. Pre-requisites: Special permission of instructor required.

HY 595 Archival Practice 3 cr

Introduces graduate students to archival theory and practice.

HY 596 Public History 3 cr

This course will introduce students to the field of public history as an academic field and a possible career. Students cannot receive credit for both this course and HY 495 or HY 496.

HY 597 Pro Studies-Dir Field Research 3 cr

Directed individual field research. Occupational and professional experiences under faculty direction in a defined field of interest, including but not limited to archival, museum, library, or other public history projects. Written reports required. Special permission of departmental chair required.

HY 598 Comp and Thesis Preparation 0 cr

This zero credit hour course will provide continuous enrollment while engaged in comprehensive exam preparation or for thesis preparation beyond thesis hours.

HY 599 Thesis 1-3 cr

Six hours required of student in the thesis track. May not be taken for credit toward a degree by students in the non-thesis track. Pre-requisites: Completion of nine hours of graduate level history, including one 500-level course in the field relevant to the thesis. Special permission of the department chair.

Jewish & Holocaust Stds (JHS)**JHS 101 Intro to Jewish Studies 3 cr**

This course is a requirement for all Jewish & Holocaust Studies minors and will introduce students to methods, questions, and concerns within these fields. Students will be provided with an overview of Jewish history as well as how Jewish history first came to be an historical field of inquiry. Students will also be given an overview of the Holocaust, other genocides, and genocidal violence. Students will then be introduced to various approaches in Jewish and Holocaust Studies. This course will help students formulate ideas for research topics related to the class and will show them how and why a Jewish & Holocaust Studies minor may be able to help them in future endeavors.

JHS 390 Special Topics - 3-9 cr

Special topics and their development, illustration appropriate methodologies in Jewish studies. May be repeated twice for credit when content varies for a maximum of nine hours.

JHS 494 Directed Studies 1-3 cr

Directed Individual Study. Requires approval of department chair.

History Elective 300 or 400 Level		6
History Elective any Level		6
Minor Requirement		
A minor is required for this degree program.		18-24
A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE		120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Additional Information

"W" Writing Course:

The 'W' course should be taken early on in the student's slate of upper-division history courses, but it should not be the student's first upper-division history course.

Research Seminar:

In the spirit of understanding the Research Seminar as "doing history after learning history," it should not be the student's first 400-level course. It should be taken after the student has completed a couple of 400-level courses. Ideally, it should be taken in the first semester of the senior year. (Of it is taken during the student's last semester of the senior year, and the student fails the course, he or she will not be able to graduate on time.)

* Recommended Course

** See General Education Requirements

History (MA) - Non-Thesis Option

Degree Requirements

All candidates for the Master of Arts degree in History, regardless of which of the two tracks they are following, must complete the following requirements:

- A minimum of 30 credit hours with grade of "A" or "B".
- A minimum of 21 credit hours completed at the University of South Alabama.
- A maximum of 9 credit hours of 500 level courses that are dual-listed at the 400 level. Graduate students will only receive graduate credit for the 500 level version of dual-listed courses. These courses will require extra work beyond that expected of undergraduates in the 400 level course.
- At least 21 credit hours at the 500 level courses that are not dual-listed with the 400 level.
- Complete one of HY 530, HY 540, or HY 542 (except for students taking the Public History topical field or other topical fields).
- Choose a major field with 12 credits of coursework, and a minor field with 9 credits of coursework from among the following fields: American History, European History or World History, Topical Fields

Note: A grade of "C" or below is not considered a passing grade by the Department of History. Students receiving such a grade in a required course must make-up the hours.

Requirements for topical fields vary. Students must check with graduate coordinator for specific requirements. The remaining requirements are dictated by the track in which students choose to study.

Non-Thesis Option

- Complete comprehensive exams in both major and minor fields choosing from American; European or World; or topical field.

History (MA) - Thesis Option

Degree Requirements

All candidates for the Master of Arts degree in History, regardless of which of the two tracks they are following, must complete the following requirements:

- A minimum of 30 credit hours with grade of "A" or "B".
- A minimum of 21 credit hours completed at the University of South Alabama.
- A maximum of 9 credit hours of 500 level courses that are dual-listed at the 400 level. Graduate students will only receive graduate credit for the 500 level version of dual-listed courses. These courses will require extra work beyond that expected of undergraduates in the 400 level course.
- At least 21 credit hours at the 500 level courses that are not dual-listed with the 400 level.
- Complete one of HY 530, HY 540, or HY 542 (except for students taking the Public History topical field or other topical fields).
- Choose a major field with 12 credits of coursework, and a minor field with 9 credits of coursework from among the following fields: American History, European History or World History, Topical Fields

Note: A grade of "C" or below is not considered a passing grade by the Department of History. Students receiving such a grade in a required course must make-up the hours.

Requirements for topical fields vary. Students must check with graduate coordinator for specific requirements. The remaining requirements are dictated by the track in which students choose to study:

Thesis Option

- Complete a minor field in one field (see list of fields above) other than the thesis field.
- Complete six credit hours of HY 599.
- Submit an approved thesis prospectus.
- Formally defend their thesis in public. (Students must be enrolled in at least one hour of HY 599 when they defend.)
- Submit an approved thesis in accordance with Graduate School regulations.

History Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in History

A minimum of 21 semester hours in History.

Code	Title	Hours
Choose one of the following sequences:		6
HY 101 & HY 102	HY of Western Civilization I and HY of Western Civilization II	
HY 121 & HY 122	World Civilization I and World Civilization II	
HY 135 & HY 136	US History to 1877 and US History since 1877	
HY Upper Division (300/400) Electives		9
HY Electives, any level		6

At least nine hours of courses numbered 300 or above must be taken at this University.

Interdisciplinary Programs

Department Information

Interdisciplinary programs are designed to combine several disciplines in their curriculum. Several interdisciplinary programs are offered by the College.

Degrees, Programs, or Concentrations

- African American Studies Minor (p. 95)
- Composite Science Minor (p. 223)
- Forensic Science Minor (p. 200)
- Gender Studies Minor (p. 204)
- Gerontology Graduate Certificate (p. 208)
- Gerontology Undergraduate Certificate (p. 210)
- International Studies (BA) - Asian Studies Concentration (p. 229)

- International Studies (BA) - European Studies Concentration (p. 230)
- International Studies (BA) - Global Health Concentration (p. 232)
- International Studies (BA) - International Relations Concentration (p. 234)
- International Studies (BA) - Latin American Studies Concentration (p. 236)
- International Studies (BA) - Middle East Studies Concentration (p. 237)
- International Studies (BA) - Modern and Classical Languages and Literature/International Studies Double Major (p. 239)
- International Studies Minor (p. 239)
- Museum Studies Minor (p. 281)
- Native American Studies Minor (p. 321)
- Related Science Minor (p. 224)

Courses

African-American Studies (AFR)

AFR 101 Intro to African Amer Studies 3 cr

An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States.

College of Arts/Sciences (CAS)

CAS 100 First Yr Exp - 2 cr

A course for first-year students majoring in the College of Arts & Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

CAS 190 Special Topics - 1-3 cr

This variable content course deals with selected topics from any of the disciplines in the College of Arts and Sciences. Topics will focus on current and relevant issues and may contain a service-learning component. The course may be repeated for credit when the topic varies for a maximum of six credit hours.

Gerontology (GRN)

GRN 272 Gender and Aging 3 cr

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Gender Studies (GS)**GS 101 Intro to Gender Studies 3 cr**

This course provides an interdisciplinary, multicultural overview of the concept of gender and gender roles in patriarchal society. This course examines the social construction of gender in our society and how that has shaped such areas as economics, politics, cultural/social values, and the impact upon women and men in historical and contemporary terms.

GS 290 Sp Tp-#MeToo, Black Lives Matter & Beyond 3 cr

Study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 301 Moving Beyond Diversity 3 cr

This course explores ways of fighting injustice and dismantling systemic oppression for those who are being disproportionately impacted generationally. The course offers a framework for activism that focuses on creating a culture that stands up for what is right by fighting against normalizing cycles of perpetuated injustices. Students will examine diverse perspectives that center on the capacity to mobilize solidarity for those efforts, strategies, and practices that negate performative allyship with systems-changing action for today's realities.

GS 302 Black Women and Activism 3 cr

This fully online three-hour credit course is interdisciplinary in nature and addresses the need to recognize and validate contributions made by Black women that sought and continue to uplift Black America throughout the late 19th and early 21st centuries. This cadre of activism will be contextualized through both womanist and feminist theories. Central to these works will be an examination for how multiple oppressions have shaped Black women's lives throughout their ongoing efforts to redefine self and bring empowerment to their communities through racial solidarity and advancement as a people. These women's underlying resistance strategies and intellectual discourse for offsetting the negative effects of racism and other oppressive measures will be mirrored through the use of race and gender as a socio-political construct. A postmodern response depicted through the lens of contemporary Black feminists for how both mainstream feminism and Black America have responded to these heroic forms of activism will be analyzed. These activists' contributions will unfold through the following curricula foci: 1) early roots of nationalism, 2) the emergence of both Black Feminist and Womanist Thought, and 3) political movements involving Black women activists. Additional cornerstones for learning will include participating in a posting process that involve sharing research and writing projects which in return will facilitate lively discussions on today's black women activism from their own respective domain (e.g. music, spirituality, film, arts and letters, judicial system, the intellectual and socio-political arenas).

GS 304 #Me Too, Black Lives Matter & 3 cr

The velocity of national protests fighting for human rights across the constitutional continuum of justice, dignity, and safety have evolved into an epidemic throughout American infrastructures. This course will plunge into the #MeToo Era, Black Lives Matter, and Woke Movements. Significant visibility for how social constructs of gender, race, and sexuality intersect with these protesters' outcries will be examined. Further considerations will be given to exposing those accused of sexual violence on various fronts as well as existing allegations of wrongful deaths will be a part of the course curriculum. An added dimension to the curriculum will include also focusing on political strategies and an operative activism model that are being used to effectively penetrate these existing cultures of power and dominance.

GS 390 Special Topics 3 cr

Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 490 Special Topics 3 cr

Advanced study of selected topics within an area in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 492 Gender Studies Seminar - 3 cr

Advanced study of selected topics in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 494 Directed Studies 1-3 cr

Directed research under the guidance of a Gender Studies faculty member. Requires permission of instructor. Student is restricted to taking a maximum of six hours of Directed Studies.

Prerequisite: GS 101 Minimum Grade of D

GS 496 Internship - 3-6 cr

Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special Permission required.

Prerequisite: GS 101 Minimum Grade of D

Interdisciplinary Progs (IDS)**IDS 290 Special Topics 1-3 cr**

A study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 490 Special Topics 1-3 cr

Advanced study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 590 Sp Top 1-9 cr

Specialized topics not generally listed in the course offerings. Requires consent of Graduate Director.

International Studies (IS)**IS 100 Global Issues 3 cr**

This course introduces students to the basic structural components of the global system, including the nation-state system and the world economy, and explores the major schools of thought in such areas as security, economic prosperity and development, international law, gender and environmental studies. The course helps students understand the complex and interlinked issues facing global society, and current problems, and view the U.S. within a broader global context.

IS 193 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 200 People-Nations - 3 cr

Variable content course focusing on particular nation or region of the world. Course offers a multi-disciplinary introduction to the people, society and politics. May be repeated for credit when content varies up to a total of 6 hours.

IS 210 Global Engagement Orientation 1 cr

This course introduces students to international global issues, allows students to identify opportunities for active engagement in these issues, and provides the framework for successful completion of the Global Engagement Certificate.

IS 290 Special Topics - 3 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 293 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and CJ 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 363, PSC 363

IS 371 Studies in Russia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Russian civilization. May be repeated for credit when content varies.

IS 372 Studies in E. Europe & C. Asia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Eastern European and Central Asian civilizations. May be repeated for credit when content varies.

IS 390 Sp Top- 1-3 cr

Advanced study of selected topics within a particular concentration. May be repeated for credit when content varies.

IS 391 Study Abroad - 18 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated.

IS 393 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 410 Global Engagement Capstone 1 cr

Global Engagement Capstone is required for students completing the Global Engagement Certificate (GEC), and is a one hour course designed to help students reflect on the 16 hours of coursework and nine hours of globally engaged activities they have completed. Students will create a portfolio during the course, which will be presented to students and affiliated faculty at its conclusion.

Prerequisite: IS 210 Minimum Grade of P

IS 473 International Law 3 cr

This course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 473, PSC 473

IS 489 Leadership and World Leaders 3 cr

An overview of the definitions, characteristics, and typologies of leadership, with a focus on lives and legacies of global influential political leaders over the past century.

Prerequisite: PSC 130 Minimum Grade of D or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of D

Cross-Listed: PSC 251, PSC 489

IS 490 Special Topics 3 cr

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with CJ 491 and PSC 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, PSC 491

IS 492 Seminar - 3 cr

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 493 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 494 Directed Studies 1-3 cr

Directed research in the field of international studies. May be repeated or credit up to a total of 9 hours. Prerequisite: permission of IS Director

IS 495 Senior Seminar - W 3 cr

The course seeks to provide an interdisciplinary and cross-regional overview of the fields and research opportunities within international studies.

Prerequisite: EH 102 Minimum Grade of C

IS 496 Prof St Internship - 3-9 cr

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business Prerequisite: Permission of IS Director

IS 499 Senior Honors Thesis 3 cr

The course covers major theoretical perspectives in organizational psychology based on empirical research and case studies. Students will explore learning theory, group dynamics, and change in different types of learning organizations.

Prerequisite: (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

IS 591 Study Abroad 12 cr

Graduate level international exchange programs for University of South Alabama students.

Museum Studies (MUM)**MUM 201 Intro to Museum Studies 3 cr**

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

Composite Science Minor**Degree Requirements**

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Composite Sciences

A minimum of 24 hours is required for this minor.

To declare the Composite Science minor, talk to your academic advisor or visit the Arts and Sciences Academic Service Center in Alpha Hall South, room 345.

Select three laboratory science sequences from the following:

Note: Students may receive credit for only one sequence in Biology (BLY 101/102 or BLY 121/122) and one sequence in Physics (PH 114/115 or PH 201/202).

Code	Title	Hours
All sequences require lab associated with lecture course.		
BLY 101 & BLY 102	Life Science I and Life Science II	
BLY 121 & BLY 122	General Biology I and General Biology II	
CH 131 & CH 132	General Chemistry I and General Chemistry II	
GEO 101 & GEO 102	Environmental Geography and Earth and the Environment	
GY 111 & GY 112	Physical Geology and Earth History	
PH 114 & PH 115	Physics with Algebra-Trig I and Physics with Algebra -Trig II	
PH 201 & PH 202	Calculus-Based Physics I and Calculus-Based Physics II	

Additional Information

Students cannot choose a laboratory sequence in their major.

Geology majors are required to take a Physics laboratory sequence.

Related Science Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

To declare the Composite Science minor, talk to your academic advisor or visit the Arts and Sciences Student Academic Services Center in Alpha Hall South, room 345.

Minor in Related Sciences

The Related Sciences minor offers two tracks: a Medical/Molecular Sciences track, and an Ecosystems Sciences track. Students must choose one track: consult with your Academic Advisor about the best choice for your major and career. The Medical/ Molecular Science Track is designed for students seeking to enhance their preparation in organic and biochemistry, such as pre- med students. The Ecosystems/Evolution Track emphasizes the study of terrestrial ecosystems.

Medical/Molecular Science Track

Code	Title	Hours
A student must take 22 semester hours as follows:		
CH 131 & 131L	General Chemistry I and General Chemistry I Lab	4
CH 132 & 132L	General Chemistry II and General Chemistry II Lab	4
CH 201 & 201L	Organic Chemistry I and Organic Chemistry I Lab	4
CH 202 & 202L	Organic Chemistry II and Organic Chemistry II Lab	4
CH/BLYMID- TERM GRADES WEB ENTRY DUE BY 10:00 AM440	Biochemistry I	3

CH/BLYMID- TERM GRADES WEB ENTRY DUE BY 10:00 AM441	Biochemistry II	3
--	-----------------	---

Total Hours 22

Ecosystems Sciences Track

Code	Title	Hours
GY 111 & 111L	Physical Geology and Physical Geology Lab	4
GY 112 & 112L	Earth History and Earth History Lab	4

Select four of the following: 12-15

GEO 332	Remote Sensing I	
GEO 410	Biogeography	
GEO/METMID- TERM GRADES WEB ENTRY DUE BY 10:00 AM443	Climatology-W	
GIT 460	Intro to GIT	
GIT 461	Environmental GIS	
GY 310	Environmental Earth Science	
GY 306	Sedimentology & Stratigraphy-W	
GY 425	Hydrology	
MET 357	Meteorological Instrumentation	
ST 340	Design-Analysis of Experiments	
ST 345	Sampling-Survey Techniques	

Total Hours 20-23

Studies)

The International Studies major is a rigorous interdisciplinary program designed for students who wish to build a solid foundation for a career in international affairs. The program combines language fluency, international/ area studies, and international business, and, as such, fulfills the requirements for both the major and minor. The faculty directing the major is drawn mostly from the departments of modern and classical languages and literature, geography, history, philosophy, political science, sociology and anthropology.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Study Abroad

Students in International Studies are strongly encouraged to incorporate international experiences as part of their academic activities. Study, research, and internships as well as service learning and community service abroad are available options. For more information contact the IS Office and/or the USA Office of International Education.

Courses

African-American Studies (AFR)

AFR 101 Intro to African Amer Studies 3 cr

An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States.

College of Arts/Sciences (CAS)

CAS 100 First Yr Exp - 2 cr

A course for first-year students majoring in the College of Arts & Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

CAS 190 Special Topics - 1-3 cr

This variable content course deals with selected topics from any of the disciplines in the College of Arts and Sciences. Topics will focus on current and relevant issues and may contain a service-learning component. The course may be repeated for credit when the topic varies for a maximum of six credit hours.

Gerontology (GRN)

GRN 272 Gender and Aging 3 cr

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Gender Studies (GS)

GS 101 Intro to Gender Studies 3 cr

This course provides an interdisciplinary, multicultural overview of the concept of gender and gender roles in patriarchal society. This course examines the social construction of gender in our society and how that has shaped such areas as economics, politics, cultural/social values, and the impact upon women and men in historical and contemporary terms.

GS 290 Sp Tp-#MeToo, Black Lives Matter & Beyond 3 cr

Study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 301 Moving Beyond Diversity 3 cr

This course explores ways of fighting injustice and dismantling systemic oppression for those who are being disproportionately impacted generationally. The course offers a framework for activism that focuses on creating a culture that stands up for what is right by fighting against normalizing cycles of perpetuated injustices. Students will examine diverse perspectives that center on the capacity to mobilize solidarity for those efforts, strategies, and practices that negate performative allyship with systems-changing action for today's realities.

GS 302 Black Women and Activism 3 cr

This fully online three-hour credit course is interdisciplinary in nature and addresses the need to recognize and validate contributions made by Black women that sought and continue to uplift Black America throughout the late 19th and early 21st centuries. This cadre of activism will be contextualized through both womanist and feminist theories. Central to these works will be an examination for how multiple oppressions have shaped Black women's lives throughout their ongoing efforts to redefine self and bring empowerment to their communities through racial solidarity and advancement as a people. These women's underlying resistance strategies and intellectual discourse for offsetting the negative effects of racism and other oppressive measures will be mirrored through the use of race and gender as a socio-political construct. A postmodern response depicted through the lens of contemporary Black feminists for how both mainstream feminism and Black America have responded to these heroic forms of activism will be analyzed. These activists' contributions will unfold through the following curricula foci: 1) early roots of nationalism, 2) the emergence of both Black Feminist and Womanist Thought, and 3) political movements involving Black women activists. Additional cornerstones for learning will include participating in a posting process that involve sharing research and writing projects which in return will facilitate lively discussions on today's black women activism from their own respective domain (e.g. music, spirituality, film, arts and letters, judicial system, the intellectual and socio-political arenas).

GS 304 #Me Too, Black Lives Matter & 3 cr

The velocity of national protests fighting for human rights across the constitutional continuum of justice, dignity, and safety have evolved into an epidemic throughout American infrastructures. This course will plunge into the #MeToo Era, Black Lives Matter, and Woke Movements. Significant visibility for how social constructs of gender, race, and sexuality intersect with these protesters' outcries will be examined. Further considerations will be given to exposing those accused of sexual violence on various fronts as well as existing allegations of wrongful deaths will be a part of the course curriculum. An added dimension to the curriculum will include also focusing on political strategies and an operative activism model that are being used to effectively penetrate these existing cultures of power and dominance.

GS 390 Special Topics 3 cr

Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 490 Special Topics 3 cr

Advanced study of selected topics within an area in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 492 Gender Studies Seminar - 3 cr

Advanced study of selected topics in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 494 Directed Studies 1-3 cr

Directed research under the guidance of a Gender Studies faculty member. Requires permission of instructor. Student is restricted to taking a maximum of six hours of Directed Studies.

Prerequisite: GS 101 Minimum Grade of D

GS 496 Internship - 3-6 cr

Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special Permission required.

Prerequisite: GS 101 Minimum Grade of D

Interdisciplinary Progs (IDS)

IDS 290 Special Topics 1-3 cr

A study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 490 Special Topics 1-3 cr

Advanced study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 590 Sp Top 1-9 cr

Specialized topics not generally listed in the course offerings. Requires consent of Graduate Director.

International Studies (IS)

IS 100 Global Issues 3 cr

This course introduces students to the basic structural components of the global system, including the nation-state system and the world economy, and explores the major schools of thought in such areas as security, economic prosperity and development, international law, gender and environmental studies. The course helps students understand the complex and interlinked issues facing global society, and current problems, and view the U.S. within a broader global context.

IS 193 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 200 People-Nations - 3 cr

Variable content course focusing on particular nation or region of the world. Course offers a multi-disciplinary introduction to the people, society and politics. May be repeated for credit when content varies up to a total of 6 hours.

IS 210 Global Engagement Orientation 1 cr

This course introduces students to international global issues, allows students to identify opportunities for active engagement in these issues, and provides the framework for successful completion of the Global Engagement Certificate.

IS 290 Special Topics - 3 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 293 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and CJ 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Advanced study of selected topics within a particular concentration. May be repeated for credit when content varies.

IS 391 Study Abroad - 18 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated.

IS 393 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 410 Global Engagement Capstone 1 cr

Global Engagement Capstone is required for students completing the Global Engagement Certificate (GEC), and is a one hour course designed to help students reflect on the 16 hours of coursework and nine hours of globally engaged activities they have completed. Students will create a portfolio during the course, which will be presented to students and affiliated faculty at its conclusion.

Prerequisite: IS 210 Minimum Grade of P

IS 473 International Law 3 cr

This course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 473, PSC 473

IS 489 Leadership and World Leaders 3 cr

An overview of the definitions, characteristics, and typologies of leadership, with a focus on lives and legacies of global influential political leaders over the past century.

Prerequisite: PSC 130 Minimum Grade of D or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of D

Cross-Listed: PSC 251, PSC 489

IS 490 Special Topics 3 cr

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with CJ 491 and PSC 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, PSC 491

IS 492 Seminar - 3 cr

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 493 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 494 Directed Studies 1-3 cr

Directed research in the field of international studies. May be repeated or credit up to a total of 9 hours. Prerequisite: permission of IS Director

IS 495 Senior Seminar - W 3 cr

The course seeks to provide an interdisciplinary and cross-regional overview of the fields and research opportunities within international studies.

Prerequisite: EH 102 Minimum Grade of C

IS 496 Prof St Internship - 3-9 cr

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business Prerequisite: Permission of IS Director

IS 499 Senior Honors Thesis 3 cr

The course covers major theoretical perspectives in organizational psychology based on empirical research and case studies. Students will explore learning theory, group dynamics, and change in different types of learning organizations.

Prerequisite: (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

IS 591 Study Abroad 12 cr

Graduate level international exchange programs for University of South Alabama students.

Museum Studies (MUM)**MUM 201 Intro to Museum Studies 3 cr**

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

International Studies (BA) - Asian Studies Concentration

General Education Requirements		
https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext		53-57
Major Requirements		42
<i>International Studies Core</i>		<i>18</i>
A. Complete the following:		
IS 100	Global Issues	3
PSC 250	Comparative Politics	3
PSC 270	International Relations	3
GEO 312	World Economic Geog	3
PHL/RELMID- TERM GRADES WEB ENTRY DUE BY 10:00 AM352	World Religions	3
IS 495	Senior Seminar - W	3
<i>Asian Studies Concentration</i>		<i>24</i>
A. Asian Language at 200 level - Select six hours from the following:		
LG 221 & LG 222	Intermediate Chinese I and Intermediate Chinese II	
LGS 201 & LGS 202	Intermediate Japanese I and Intermediate Japanese II	
LGS 206 & LGS 207	Intermediate Arabic I and Intermediate Arabic II	
LGS 271 & LGS 272	Intermediate Korean I and Intermediate Korean II	
B. Complete the following:		
HY 104	HY of Asian Civilization II	3
C. 300-400 level courses - Select one of the following:		
HY 367	Modern China	
HY 368	Japan	
HY 461	Studies in Asian History -	
D. Complete the following:		
PHL 354 or PHL 355	Philosophies of India Chinese Philosophy	3
E. Complete the following:		
PSC 368	Politics of South Asia	3
F. Select six hours of electives from the following:		
ARH 203	Survey of Non-Western Art	
HY 367	Modern China	
HY 368	Japan	
HY 461	Studies in Asian History - (not taken above)	
PHL 354	Philosophies of India	
PHL 355	Chinese Philosophy (not taken above)	
PSC 365	Politics of the Middle East	

IS 489	Leadership and World Leaders
IS 491	Seminar on Terrorism
IS 492	Seminar -
IS 496	Prof St Internship -
Any approved Special Topics course or Directed Studies focusing on contemporary Asia or Asian country	

Minor Requirements

A minor is required for this degree program 18-24

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Additional Information

Students majoring in International Studies should complete 18 credit hours of core courses, one of six concentrations (24 credit hours), and a pre-professional program or traditional minor in a complementary subject.

Pre-Professional Program

(21 Hours)

Students should complete either one of the three pre-professional programs outlined below (international business, a language specialization, or a personalized pre-professional program) or have a traditional minor. Students with a double major are not required to have a pre-professional program or a minor.

International Business

(21 Hrs)

The International Business option provides students with a basic foundation in business and best equips the student to enter the field of international business or related areas upon graduation.

Code	Title	Hours
ECO 330 or ECO 363	Current Global Economic Issues International Economics	3
MKT 320	Principles of Marketing	3
MKT 374	Consumer Behavior	3
MKT 380	Integrated Mkt Communications	3
Select nine hours of electives from the following:		9
FIN 332	Multinational Finance	
MGT 334	International Mgt	
MGT 465	New Venture Creation	
MKT 336	International Marketing	
MKT 384	Market Research	
MKT 310	Intro International Business	
MKT 477	Export-Import Management	
MKT 492	Applications in International Business	
IS 496	Prof St Internship -	

Total Hours 21

Language Specialization

(21 Hrs)

The Language Concentration option allows students to acquire a professional level of fluency in a foreign language as a complement to their international studies training. The requirements are 21 hours of

study in a selected foreign language. Students wishing to concentrate in language should consider the FL/IS double major described below. Note: This option may not be available for all languages.

Personalized Pre-professional Program

(21 Hrs)

The Personalized Pre-professional Program is designed primarily for students who wish to pursue graduate study and need a special program tailored to the needs of their expected graduate area. A pre-professional program consisting of a minimum of 21 semester hours including at least one upper-level seminar, directed studies, or internship. Proposals for a personalized program, drawn up by the student in consultation with his or her advisor, must be submitted for approval to the Program Director and the Dean of Arts and Sciences before the first semester of the student's junior year.

Language Specialization

(21 Hrs)

The Language Concentration option allows students to acquire a professional level of fluency in a foreign language as a complement to their international studies training. The requirements are 21 hours of study in a selected foreign language. Students wishing to concentrate in language should consider the FL/IS double major described below. Note: This option may not be available for all languages.

Personalized Pre-Professional Program

(21 Hrs)

The Personalized Pre-professional Program is designed primarily for students who wish to pursue graduate study and need a special program tailored to the needs of their expected graduate area. A pre-professional program consisting of a minimum of 21 semester hours including at least one upper-level seminar, directed studies, or internship. Proposals for a personalized program, drawn up by the student in consultation with his or her advisor, must be submitted for approval to the Program Director and the Dean of Arts and Sciences before the first semester of the student's junior year.

International Studies (BA) - Modern and Classical Languages and Literature/International Studies Double Major

Degree Requirements

Majors in Arts and Sciences may be completed with a minimum of 120 semester hours unless designated otherwise. At least 30 hours of course work, which represents 25% of the required 120 hours, must be at the upper division level in order to fulfill the University's residency requirement. At least 15 of the 30 upper-division hours must be in the major or concentration area. An overall grade-point-average (GPA) of 2.0 is required for graduation. In addition, a minimum GPA of 2.0 is required in the student's major or concentration area.

Modern and Classical Languages and Literature/ International Studies Double Major

This program allows students to maximize their international training and experience. In addition to completing the 42 hours requirements for the International Studies major, the student will complete the program of study set out by the Department of Modern and Classical Languages and Literature. This option allows the student to develop additional language and analytical skills. Moreover, Modern and Classical Languages and Literature majors enjoy additional and special opportunities to participate in study abroad programs.

International Studies Minor Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in International Studies

A minimum of 21 hours, including at least 9 hours at the 300-400 level.

Jewish And Holocaust Studies

Department Information

Program in Jewish & Holocaust Studies website
<https://www.southalabama.edu/colleges/artsandsci/jewishandholocauststudies> (<https://www.southalabama.edu/colleges/artsandsci/jewishandholocauststudies/>)

(251) 460-6867

Title	Name
Director	David A. Meola

The minor in Jewish and Holocaust Studies is an interdisciplinary program offering students the opportunity to gain exposure to the various fields within Jewish and Holocaust Studies. Students will acquire knowledge about Jewish religion and Jewish history, including that of the Holocaust. They will also be introduced to different methodologies and how the study of Jewish life is impacted within different disciplines. This minor will help prepare students for graduate programs in different fields related to Jewish and Holocaust Studies, and also for work in public and private sectors.

Jewish & Holocaust Studies deepens students' understanding of areas of study such as historical/cultural constructions of the "Other" and the relationship of minority groups to their host societies. It will also explore constructs of "Jewishness"—in both positive and negative ways—and that of anti-minority sentiment, including historical and present-day Antisemitism. Moreover, students will also learn about the demonization of "Others" and the all-too-frequent prevalent of ethnic violence and genocide, including the Holocaust. The Jewish & Holocaust Studies

Program encourages students to become actively engaged in research about the Jewish people and other minority groups, how one can have a career in this field, and provides numerous opportunities for students to interact with faculty members to discuss their current research.

Degrees, Programs, or Concentrations

- Jewish and Holocaust Studies Minor (p. 243)

Courses

African-American Studies (AFR)

AFR 101 Intro to African Amer Studies 3 cr

An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States.

College of Arts/Sciences (CAS)

CAS 100 First Yr Exp - 2 cr

A course for first-year students majoring in the College of Arts & Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

CAS 190 Special Topics - 1-3 cr

This variable content course deals with selected topics from any of the disciplines in the College of Arts and Sciences. Topics will focus on current and relevant issues and may contain a service-learning component. The course may be repeated for credit when the topic varies for a maximum of six credit hours.

Gerontology (GRN)

GRN 272 Gender and Aging 3 cr

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Gender Studies (GS)**GS 101 Intro to Gender Studies 3 cr**

This course provides an interdisciplinary, multicultural overview of the concept of gender and gender roles in patriarchal society. This course examines the social construction of gender in our society and how that has shaped such areas as economics, politics, cultural/social values, and the impact upon women and men in historical and contemporary terms.

GS 290 Sp Tp-#MeToo, Black Lives Matter & Beyond 3 cr

Study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 301 Moving Beyond Diversity 3 cr

This course explores ways of fighting injustice and dismantling systemic oppression for those who are being disproportionately impacted generationally. The course offers a framework for activism that focuses on creating a culture that stands up for what is right by fighting against normalizing cycles of perpetuated injustices. Students will examine diverse perspectives that center on the capacity to mobilize solidarity for those efforts, strategies, and practices that negate performative allyship with systems-changing action for today's realities.

GS 302 Black Women and Activism 3 cr

This fully online three-hour credit course is interdisciplinary in nature and addresses the need to recognize and validate contributions made by Black women that sought and continue to uplift Black America throughout the late 19th and early 21st centuries. This cadre of activism will be contextualized through both womanist and feminist theories. Central to these works will be an examination for how multiple oppressions have shaped Black women's lives throughout their ongoing efforts to redefine self and bring empowerment to their communities through racial solidarity and advancement as a people. These women's underlying resistance strategies and intellectual discourse for offsetting the negative effects of racism and other oppressive measures will be mirrored through the use of race and gender as a socio-political construct. A postmodern response depicted through the lens of contemporary Black feminists for how both mainstream feminism and Black America have responded to these heroic forms of activism will be analyzed. These activists' contributions will unfold through the following curricula foci: 1) early roots of nationalism, 2) the emergence of both Black Feminist and Womanist Thought, and 3) political movements involving Black women activists. Additional cornerstones for learning will include participating in a posting process that involve sharing research and writing projects which in return will facilitate lively discussions on today's black women activism from their own respective domain (e.g. music, spirituality, film, arts and letters, judicial system, the intellectual and socio-political arenas).

GS 304 #Me Too, Black Lives Matter & 3 cr

The velocity of national protests fighting for human rights across the constitutional continuum of justice, dignity, and safety have evolved into an epidemic throughout American infrastructures. This course will plunge into the #MeToo Era, Black Lives Matter, and Woke Movements. Significant visibility for how social constructs of gender, race, and sexuality intersect with these protesters? outcries will be examined. Further considerations will be given to exposing those accused of sexual violence on various fronts as well as existing allegations of wrongful deaths will be a part of the course curriculum. An added dimension to the curriculum will include also focusing on political strategies and an operative activism model that are being used to effectively penetrate these existing cultures of power and dominance.

GS 390 Special Topics 3 cr

Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 490 Special Topics 3 cr

Advanced study of selected topics within an area in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 492 Gender Studies Seminar - 3 cr

Advanced study of selected topics in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 494 Directed Studies 1-3 cr

Directed research under the guidance of a Gender Studies faculty member. Requires permission of instructor. Student is restricted to taking a maximum of six hours of Directed Studies.

Prerequisite: GS 101 Minimum Grade of D

GS 496 Internship - 3-6 cr

Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special Permission required.

Prerequisite: GS 101 Minimum Grade of D

Interdisciplinary Progs (IDS)**IDS 290 Special Topics 1-3 cr**

A study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 490 Special Topics 1-3 cr

Advanced study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 590 Sp Top 1-9 cr

Specialized topics not generally listed in the course offerings. Requires consent of Graduate Director.

International Studies (IS)**IS 100 Global Issues 3 cr**

This course introduces students to the basic structural components of the global system, including the nation-state system and the world economy, and explores the major schools of thought in such areas as security, economic prosperity and development, international law, gender and environmental studies. The course helps students understand the complex and interlinked issues facing global society, and current problems, and view the U.S. within a broader global context.

IS 193 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 200 People-Nations - 3 cr

Variable content course focusing on particular nation or region of the world. Course offers a multi-disciplinary introduction to the people, society and politics. May be repeated for credit when content varies up to a total of 6 hours.

IS 210 Global Engagement Orientation 1 cr

This course introduces students to international global issues, allows students to identify opportunities for active engagement in these issues, and provides the framework for successful completion of the Global Engagement Certificate.

IS 290 Special Topics - 3 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 293 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and CJ 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 363, PSC 363

IS 371 Studies in Russia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Russian civilization. May be repeated for credit when content varies.

IS 372 Studies in E. Europe & C. Asia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Eastern European and Central Asian civilizations. May be repeated for credit when content varies.

IS 390 Sp Top- 1-3 cr

Advanced study of selected topics within a particular concentration. May be repeated for credit when content varies.

IS 391 Study Abroad - 18 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated.

IS 393 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 410 Global Engagement Capstone 1 cr

Global Engagement Capstone is required for students completing the Global Engagement Certificate (GEC), and is a one hour course designed to help students reflect on the 16 hours of coursework and nine hours of globally engaged activities they have completed. Students will create a portfolio during the course, which will be presented to students and affiliated faculty at its conclusion.

Prerequisite: IS 210 Minimum Grade of P

IS 473 International Law 3 cr

This course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 473, PSC 473

IS 489 Leadership and World Leaders 3 cr

An overview of the definitions, characteristics, and typologies of leadership, with a focus on lives and legacies of global influential political leaders over the past century.

Prerequisite: PSC 130 Minimum Grade of D or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of D

Cross-Listed: PSC 251, PSC 489

IS 490 Special Topics 3 cr

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with CJ 491 and PSC 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, PSC 491

IS 492 Seminar - 3 cr

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 493 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 494 Directed Studies 1-3 cr

Directed research in the field of international studies. May be repeated or credit up to a total of 9 hours. Prerequisite: permission of IS Director

IS 495 Senior Seminar - W 3 cr

The course seeks to provide an interdisciplinary and cross-regional overview of the fields and research opportunities within international studies.

Prerequisite: EH 102 Minimum Grade of C

IS 496 Prof St Internship - 3-9 cr

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business Prerequisite: Permission of IS Director

IS 499 Senior Honors Thesis 3 cr

The course covers major theoretical perspectives in organizational psychology based on empirical research and case studies. Students will explore learning theory, group dynamics, and change in different types of learning organizations.

Prerequisite: (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

IS 591 Study Abroad 12 cr

Graduate level international exchange programs for University of South Alabama students.

Museum Studies (MUM)**MUM 201 Intro to Museum Studies 3 cr**

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

Jewish and Holocaust Studies Minor Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Jewish and Holocaust Studies Core Requirements

1. Students minoring in Jewish & Holocaust Studies must complete a total of 18 semester hours in approved courses.
2. Approved Variable and Special Topics Courses that focus on Jewish & Holocaust studies can also be taken to complete the 18 semester hour requirement. For information on upcoming variable and special topics courses, consult the Director.
3. Complete all three core courses (JHS 101, REL 200, & HY 347) listed below.
4. Three electives from the following list, excluding the core courses. Please note that most electives do need Director Approval before credit will be given.
5. Students must take at least one upper division course outside of their major discipline, and courses must be approved by the director, who will evaluate the course content for consideration within the Jewish and Holocaust Studies minor.
6. As part of the minor, students may count HY 101/HY 102 or HY 135/HY 136 for only one of their three electives, with director permission. Students must take at least two upper-level (300-level and higher) courses (6 credit hours) as part of their electives.

Code	Title	Hours
Core Courses		
JHS 101	Intro to Jewish Studies	3
HY 347	The Holocaust	3
REL 200	Old Testament/Hebrew Bible	3
Electives		
Select three of the following:		9
The following do not need Director Approval:		
JHS 390	Special Topics -	
HY 348	Hitler and Nazi Germany	
HY 382	Jews & Modern Amer Culture-W	

JHS 390 Special Topics -

JHS 494 Directed Studies

The following need Director Approval:

HY 101 HY of Western Civilization I

or HY 102 HY of Western Civilization II

AN 290 Special Topics -

EH 476 Studies in 20th Century Lit

HY 135 US History to 1877

or HY 136 US History since 1877

HY 335 History of Modern France

HY 336 Central European History

HY 337 History of Eastern Europe

HY 338 History of Russia

HY 356 European Civ 1815-1918-W

HY 365 Islamic Civilization 1453 - W

HY 437 Modern US II Since 1945 - W

HY 390 Special Topics -

HY 401 Coll in History-

HY 494 Directed Studies -

HY 496 Public History

IS 393 Study Abroad

LG 390 Special Topics -

LG 362 German Cult-Lit 19th Century

LG 363 Modern-Contemp German Cult-Lit

Mathematics and Statistics

Department Information

Department of Mathematics and Statistics website

<https://www.southalabama.edu/colleges/artsandsci/mathstat/>

Developmental Studies

The courses and academic support through an on-demand tutoring center offered by the developmental studies in mathematics provide students with the opportunity to strengthen the basic mathematical skills necessary to progress to college-level mathematics courses.

Credits earned in courses with a DS prefix do not meet degree requirements within the University. The credits earned do carry institutional, non-degree credit and allow students to qualify for financial aid. Grades earned are computed into the overall GPA in most colleges and hours are counted toward classification (sophomore, etc.). Credits earned in courses with a MTH prefix count as free electives.

Math Lab Information

Location

The Math Technology Lab is located in ASC 1301.

Resources:

- 210 computer workstations with Internet access
- Separate testing area and private tutoring rooms
- Study room for one-on-one or group tutoring
- Tutors and instructors available during all operating hours to assist students

Undergraduate Studies

The purpose of the Department of Mathematics and Statistics is to provide a well-rounded program for students majoring in the mathematical sciences and to fulfill the mathematical science needs of students in other fields of study. To this end, the department emphasizes excellence in teaching, and encourages the professional growth of its faculty through study, research, and consulting.

The Department offers a major leading to the Bachelor of Science Degree in Mathematics and Statistics. We also offer a minor in mathematics and a minor in applied statistics. Students pursuing a degree in Mathematics and Statistics also must have a minor in another discipline.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Where to Begin in the Mathematics Courses?

Students must begin at the proper level and in the proper track in mathematics. Students who lack college level credit in mathematics should take the placement exam at least 48 hours prior to registering for a mathematics course. Students must register online to take the test. Times and days of the test as well as registration information are available at the department website.

Graduate Studies

A Master of Science degree in Mathematics is offered by the Department of Mathematics and Statistics. The program has been designed to meet the varied needs and goals of most students seeking advanced degrees in mathematics. The course of study accommodates students interested in traditional and modern mathematics, applied mathematics, statistics, and computer science.

Requirements for Admission

Students are admitted each semester. The following criteria supplement the Graduate School requirements.

Regular Admission

1. A bachelor's degree in mathematics or in a mathematics-related field from an accredited institution of higher education with a concentration of upper-level mathematics courses including a sequence in advanced calculus or real analysis.
2. A minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.
3. Submission of scores on the General Test of the Graduate Record Examination. A minimum combined score of 297 on the verbal and quantitative sections or a minimum score of 148 on the quantitative section (without regard to the score on the verbal section). An advanced degree or other standardized test score may be considered in lieu of a GRE score.
4. English proficiency requirement for international applicants:
 - Minimum Duolingo Score of 100 or
 - Minimum TOEFL score of 71 or
 - Minimum IELTS score of 6 or
 - Minimum iTEP score 3.7 or
 - Minimum Pearsons (PTE Academic) score 48
 Applicants who hold a bachelor's degree from an accredited U.S. institution are not required to submit test scores.
5. Three original letters of recommendation written by persons familiar with the applicant's qualifications and ability to undertake the proposed course of study are required.

Non-Degree Admission

Applicants who do not meet all the conditions for admission or who are not interested in earning a graduate degree may apply for non-degree admission. Adequate undergraduate preparation in mathematics which indicates a reasonable chance of success in graduate mathematics courses is required for non-degree admission. After admission, permission of the department graduate coordinator is required for each course taken. In cases where undergraduate preparation is inadequate for a particular graduate course, a plan of study including additional undergraduate courses can be worked out in consultation with the graduate coordinator.

Graduate Assistantships

Graduate students holding assistantships are usually assigned duties such as tutoring or supervising recitation sections in the Department of Mathematics and Statistics. Awards are normally made for the academic year, but positions occasionally become available during the year. An assistantship application can be obtained from the Graduate Coordinator in the department and on-line. Three letters of recommendation sent directly to the Graduate Coordinator are required. Graduate Assistants are required to enroll in MA 592 (Seminar) each semester.

Policies and Procedures

The document "Department Policies and Procedures for the MS Degree Program in Mathematics" is posted on the departmental website. It contains details concerning advising, the comprehensive examination, graduate assistant duties, student meetings and colloquia.

Degrees, Programs, or Concentrations

- Applied Statistics Graduate Certificate (p. 255)
- Applied Statistics Minor (p. 256)
- Mathematics (MS) - Non-Thesis Option (p. 256)
- Mathematics (MS) - Non-Thesis Option with Computer Science Emphasis (p. 256)
- Mathematics (MS) - Thesis Option (p. 257)
- Mathematics and Statistics Major (BS) (p. 257)
- Mathematics Minor (p. 258)

Courses

Mathematics (MA)

MA 100 Mathematics in Society 3 cr

An introduction and real life applications to the mathematics of finance, probability, and descriptive statistics with particular emphasis on mathematics of finance. Specific topics include geometric progressions, compound interest, annuities, perpetuities, permutations, combinations, probability measure, and statistical measures of central location and dispersion. This course does not satisfy the mathematics requirement for General Studies.

MA 101 Intro to Mathematical Thought 3 cr

A course designed to give the nonscience major-especially humanities and fine arts majors-an appreciation of the method, content, and scope of mathematics. This course does not satisfy the mathematics requirement for General Studies.

MA 105 Algebra for Math Placement 4 cr

Introduction to equations of straight lines in various forms and transition between these forms; Manipulation and solution of linear equations and linear inequalities; graphing solution sets on the number line and expression of solution sets in both set and interval notation. Simplification, multiplication, and division of polynomials; Factoring quadratic expressions and the solution of quadratic equations by factoring; Solution of basic rational equations; Addition, subtraction, multiplication and division of rational expressions; simplification of complicated ratios of rational expressions. Working with set operations: Absolute value inequalities and equations and compound inequalities; Addition, subtraction, multiplication, division, and simplification of expressions with radicals and/or rational exponents and rationalization of numerator or denominator. Credit for both MTH 100, MTH 101 and MA 105 is not allowed.

MA 110 Finite Mathematics 3 cr

This course is intended to give an overview of topics in finite mathematics together with their applications. The course includes logic, sets, counting, permutations, combinations, basic probability, descriptive statistics and their applications, and financial mathematics. Students are required to have a scientific calculator. Core Course. Note: May be offered for Honors credit. NOTE: MA 110 is not a Pre-requisite for nor is it intended to be preparatory for any course except MA 201 and MA 202.

MA 111 Math in Society 3 cr

This course focuses on developing mathematical concepts and interpreting data used in society. Topics may include percentage, creating and analyzing different types of graphs, estimation, apportionment, linear and exponential growth, simple and compound interest, and descriptive statistics. An emphasis on technology such as Excel will be prevalent.

MA 112 Precalculus Algebra 3 cr

The course covers algebraic, graphical and numerical properties of functions, focusing on linear, quadratic, general polynomial, absolute value, rational, exponential, and logarithmic functions. Topics also include equations, inequalities, and complex numbers. Applications of mathematics to modeling real world situations are emphasized. Credit for both MA 112 and MA 115 not allowed. Core Course.

Prerequisite: ACT Math 22 or MTH 100 (may be taken concurrently) Minimum Grade of C or MyMathTest 070 or MTH 101 Minimum Grade of C or MA 105 Minimum Grade of C or SAT Mathematics 510 or MATH SECTION SCORE 540 or TRNFR Math Placement 2 or Highest ACT Math Subscore 18

MA 113 Precalculus Trigonometry 3 cr

Continuation of MA 112. Topics include numerical, graphical and algebraic properties of trigonometric functions, inverse trigonometric functions, right angle trigonometry, parametric equations, polar coordinates, and conic sections. Development and application of mathematical models to real-world situations is emphasized. Credit for both MA 113 and MA 115 not allowed. Core Course.

Prerequisite: ACT Math 24 or MyMathTest 080 or MA 112 Minimum Grade of C or SAT Mathematics 560 or MATH SECTION SCORE 580 or Highest ACT Math Subscore 24

MA 115 Precal Algebra-Trigonometry 4 cr

This fast-paced course is designed as a review of the algebra and trigonometry needed in calculus. It covers the material of MA 112 and MA 113 in one semester. Topics include numerical, graphical and algebraic properties of polynomial, rational, exponential, logarithmic, and trigonometric functions; inverse trigonometric functions; right angle trigonometry; parametric equations; polar coordinates and conic sections. Applications of mathematics to modeling real world situations are emphasized. Credit for both MA 112 and MA 115 not allowed; credit for both MA 113 and MA 115 not allowed. Core Course.

Prerequisite: ACT Math 25 or MyMathTest 080 or SAT Mathematics 570 or MATH SECTION SCORE 590 or Highest ACT Math Subscore 25

MA 120 Calculus and Its Applications 3 cr

Introduction to calculus with an emphasis on problem solving and applications. Key concepts are presented graphically, numerically and algebraically, although the stress is on a clear understanding of graphs and tabular data. The course covers: algebraic, exponential and logarithmic functions, their properties and their use in modeling; the concepts of derivative and definite integral and applications. Credit for both MA 120 and MA 125 not allowed. Students must have sufficient Mathematics Placement Exam score. MA 120 is not a prerequisite for subsequent calculus courses. Core Course.

Prerequisite: ACT Math 23 or MyMathTest 080 or MA 112 Minimum Grade of C or MA 113 Minimum Grade of C or MA 115 Minimum Grade of C or SAT Mathematics 530 or MATH SECTION SCORE 560 or Highest ACT Math Subscore 23

MA 125 Calculus I 4 cr

The course provides an introduction to calculus with emphasis on differential calculus. Topics include limits of functions, derivatives of algebraic and transcendental functions, application of the derivative to curve sketching, optimization problems, and examples in the natural sciences, engineering, and economics. The course concludes with an introduction to anti-derivatives, definite integrals, and the fundamental theorem of calculus. Credit for both MA 120 and MA 125 is not allowed. Prerequisite: Sufficient Mathematics Placement Exam score. Core Course. NOTE: MA 110, MA 112, MA 113, MA 115, MA 120, and MA 125 have strict Pre-requisites. To be able to enroll in these courses a student needs either to pass the Pre-requisite course with C or better or to have a sufficient Mathematics Placement Exam score.

Prerequisite: ACT Math 27 or MyMathTest 090 or MA 113 Minimum Grade of C or MA 115 Minimum Grade of C or SAT Mathematics 620 or MATH SECTION SCORE 640 or Highest ACT Math Subscore 27

MA 126 Calculus II 4 cr

This course is a continuation of MA 125 with emphasis on integral calculus. Topics include techniques of integration; applications of the definite integral to geometry, natural sciences, engineering, and economics; improper integrals; infinite sequences and series; Taylor polynomials and Taylor series; parametric equations and polar coordinates. Core Course.

Prerequisite: MA 125 Minimum Grade of C

MA 150 Contemporary Math-Stat Seminar 1 cr

This course gives an overview of modern mathematics and statistics from the point of view of the practitioners. The course is designed for majors in mathematics and statistics at all levels as well as those student who are considering mathematics or statistics as a major or minor area of study. Topics usually included are elements of geometry, algebra, analysis, methods of statistical inference, the role of the computer in the analytical sciences; these topics vary from semester to semester. This course cannot be taken for credit simultaneously with ST 150. NOTE: May be offered for Honors Credit.

MA 201 Math for Elem Teachers I 3 cr

An examination of some of the major ideas encountered in K-6 mathematics. Topics include introduction to problem solving, numeration systems, modeling arithmetic operations of whole numbers, elementary number theory, properties and operations for whole numbers, integers, rational numbers and real numbers. An emphasis on problem solving is prevalent in this course. NOTE: MA 201 does not fulfill graduation requirements for any curriculum other than College of Education and Professional Studies.

Prerequisite: MA 110 Minimum Grade of C or MA 112 Minimum Grade of C or MA 113 Minimum Grade of C or MA 115 Minimum Grade of C or MA 120 Minimum Grade of C or MA 125 Minimum Grade of C or MA 126 Minimum Grade of C or MA 150 Minimum Grade of C

MA 202 Math for Elem Teachers II 3 cr

An examination of some of the major topics encountered in teaching geometry in K-6 mathematics. Topics include geometric shapes in the plane and in space, U.S. and metric systems of measurement, perimeter and area of shapes in the plane, the Pythagorean Theorem, surface area and volume of figures in space, and coordinate geometry. An emphasis on problem solving is prevalent in this course. NOTE: MA 202 does not fulfill graduation requirements for any curriculum other than College of Education and Professional Studies.

Prerequisite: MA 110 Minimum Grade of C or MA 112 Minimum Grade of C or MA 113 Minimum Grade of C or MA 115 Minimum Grade of C or MA 120 Minimum Grade of C or MA 125 Minimum Grade of C or MA 126 Minimum Grade of C or MA 150 Minimum Grade of C

MA 227 Calculus III 4 cr

Vectors; functions of several variables; partial derivatives; local linearity; directional derivatives; the gradient; differential of a function; the chain rule; higher order partial derivatives; optimization of functions of several variables; multiple integrals and their applications; parametric curves and surfaces; vector fields; line and surface integrals; vector calculus. Core Course.

Prerequisite: MA 126 Minimum Grade of C

MA 237 Linear Algebra I 3 cr

This course provides an introduction to linear algebra. Topics include systems of linear equations, matrices, Gaussian elimination, rank, linear independence, subspaces, basis, dimension, linear transformations, determinants, eigenvalues and eigenvectors, change of basis, diagonalization, the abstract concept of a vector space, and applications. Core Course.

Prerequisite: MA 126 Minimum Grade of C

MA 238 Differential Equations I 3 cr

This course provides an introduction to ordinary differential equations. Topics include first order differential equations, higher order linear differential equations, systems of first order linear differential equations, Laplace transforms, methods for approximating solutions to first order differential equations, applications. Students should have taken or be taking MA 227. Core Course.

Prerequisite: MA 227 (may be taken concurrently) Minimum Grade of D

MA 267 Discrete Math Structures 3 cr

This course is an introduction to discrete mathematics for students majoring in computer-related areas. Students will be introduced to concepts and methods that are essential to theoretical computer science. A strong emphasis is placed on mathematical reasoning and proofs. Topics include sets, functions, induction, recursion, combinatorics and graphs. Students must have sufficient mathematics placement exam score.

Prerequisite: ACT Math 23 or MyMathTest 080 or MA 113 Minimum Grade of C or MA 115 Minimum Grade of C or Highest ACT Math Subscore 23

MA 290 Special Topics - 1-3 cr

Selected topics in elementary undergraduate mathematics. This course may be repeated for a maximum of six credits.

MA 303 Math for Elem Teachers III 3 cr

An exploration of problem solving strategies. Problems exemplifying the various problem solving strategies studied. Emphasis on the development of problem solving skills by exploring interesting problems which demand for their solution that the student select from a wide variety of possible strategies and use a wide variety of conceptual tools. NOTE: MA 303 does not fulfill graduation requirements for any curriculum other than elementary education.

Prerequisite: MA 202 Minimum Grade of C

MA 311 Intro to Number Theory 3 cr

An introduction to classical number theory with a balance between theory and computation. Topics include mathematical induction, divisibility properties, properties of prime numbers, the theory of congruences, number theoretic functions, continued fractions.

Prerequisite: MA 126 Minimum Grade of C

MA 316 Linear Algebra II 3 cr

A continuation of MA 237. Topics include inner product spaces, spectral theorem for symmetric operators, complex vector spaces, Jordan canonical form. Additional topics such as duality and Tensor products among others to be included at the discretion of the instructor.

Prerequisite: MA 237 Minimum Grade of C

MA 318 Matrix Theory 3 cr

A theoretical as well as computational treatment of the notions of determinant, inverse, rank and diagonalization of a matrix with real and complex entries. Eigenvalues and eigenvectors, similarity, solutions of linear systems of algebraic equations, Jordan canonical forms. Students are required to have a graphing calculator.

Prerequisite: (MA 126 Minimum Grade of C or MA 233 Minimum Grade of C)

MA 320 Foundations of Math - W 3 cr

A transition to higher mathematics with an emphasis on proof techniques. Topics include symbolic logic, elementary set theory, induction, relations, functions, and the structure of the number system. Mathematics and Statistics majors are encouraged to take MA 320 as soon as possible after completing MA 125.

Prerequisite: MA 125 Minimum Grade of C and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

MA 321 Elementary Geometry 3 cr

This course covers the major topics from the secondary school curriculum of plane and solid geometry from a modern viewpoint. Emphasis will be placed on axioms, undefined terms, definitions, theorems, and proofs. Topics include straightedge and compass constructions, Euclidean geometry, Euclidean space, congruence, isometry, reflection, rotation, translation, vectors, parallel postulate, similarity, Pythagorean theorem, coordinate geometry, non-Euclidean geometry, projective geometry, projective space, perspective, homogenous coordinates.

Prerequisite: MA 320 Minimum Grade of C

MA 332 Differential Equations II 3 cr

Series solutions of second order linear equations. Numerical methods. Nonlinear differential equations and stability. Partial differential equations and Fourier series. Sturm-Liouville problems.

Prerequisite: MA 227 Minimum Grade of C and MA 238 Minimum Grade of C

MA 334 Advanced Calculus I 3 cr

This is the first of a two course sequence designed to provide students with the theoretical context of concepts encountered in MA 125 through MA 227. Topics covered include Completeness Axiom, sequences of real numbers, suprema and infima, Cauchy sequences, open sets and accumulation points in Euclidean space, completeness of Euclidean space, series of real numbers and vectors, compactness, Heine-Borel Theorem, connectedness, continuity, Extremum Theorem, Intermediate Value Theorem, differentiation of functions of one variable.

Prerequisite: MA 227 Minimum Grade of C and MA 237 Minimum Grade of C and MA 320 Minimum Grade of C

Cross-Listed: MA 486

MA 335 Advanced Calculus II 3 cr

This is the second of a two course sequence designed to provide students with the theoretical context of concepts encountered in MA 125 through MA 227. Topics covered include integration of functions of one variable, pointwise and uniform convergence, integration and differentiation of series, differentiable mappings of several variables, chain rule, product rule and gradients, Mean Value Theorem, Taylor's Theorem, Inverse Function Theorem, Implicit Function Theorem.

Prerequisite: MA 334 Minimum Grade of C

Cross-Listed: MA 487

MA 354 Comp Assist Math Modeling - W 3 cr

This course is intended to provide the basic ideas regarding formulation, development, testing and reporting of mathematical models of various real world problems. Deterministic and stochastic models, optimization and simulations will be covered. Emphasis will be on careful mathematical formulations and the use of computer software, such as Microsoft Excel, Mathematica and Matlab. A term project will be an important component of this course. The course is taught in a laboratory setting with computers as lab equipment.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C) and MA 227 Minimum Grade of C and MA 238 Minimum Grade of C

MA 367 Combinatorial Enumeration 3 cr

An introduction to the mathematical theory of counting. Basic counting principles, permutations and combinations, partitions, recurrence relations, and a selection of more advanced topics such as generating functions, combinatorial designs, Ramsey theory, or group actions and Poyla theory.

Prerequisite: MA 126 Minimum Grade of C

MA 390 Special Topics 1-3 cr

Selected topics in advanced undergraduate mathematics. This course may be repeated for a maximum of six credits.

MA 410 History of Mathematics - W 3 cr

Historical survey of the general development of mathematics with a balance of historical perspective and mathematical structure.

Prerequisite: ((EH 102 Minimum Grade of C or MA 320 Minimum Grade of C) and EDM 310 (may be taken concurrently) Minimum Grade of C)

MA 413 Abstract Algebra I - W 3 cr

An introduction to group theory and ring theory. Topics include permutations and symmetries, subgroups, quotient groups, homomorphisms, as well as examples of rings, integral domains, and fields.

Prerequisite: MA 237 Minimum Grade of C and (MA 311 Minimum Grade of C or MA 320 Minimum Grade of C or MA 334 Minimum Grade of C) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

MA 414 Abstract Algebra II - W 3 cr

A continuation of MA 413 focusing on rings and fields. Topics include rings, ideals, integral domains, fields and extension fields. Geometric constructions and Galois theory are introduced.

Prerequisite: MA 413 Minimum Grade of C and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

MA 434 Topology 3 cr

An introduction to topology with emphasis on the geometric aspects of the subject. Topics covered include surfaces, topological spaces, open and closed sets, continuity, compactness, connectedness, product spaces, and identification and quotient spaces. Credit for both MA 434 and MA 542 is not allowed.

Prerequisite: MA 227 Minimum Grade of C and MA 237 Minimum Grade of C and MA 320 Minimum Grade of C

MA 436 Numerical Analysis 3 cr

Topics include methods of numerical solution of nonlinear equations in one variable, fixed points, contraction mapping and functional iteration methods, interpolation and approximation methods, numerical differentiation and integration, numerical solution of ordinary differential equations, analysis of error for various numerical procedures. Implementation of Mathematica of all numerical methods discussed in class is an essential part of the course. Credit for both MA 436 & MA 565 is not allowed.

Prerequisite: MA 227 Minimum Grade of C and MA 238 (may be taken concurrently) Minimum Grade of C

MA 437 Complex Variables 3 cr

Arithmetic of complex numbers; regions in the complex plane, limits, continuity and derivatives of complex functions; elementary complex functions; mapping by elementary functions; contour integration, power series, Taylor series, Laurent series, calculus of residues; conformal representation; applications. Credit for both MA 437 and MA 537 not allowed.

Prerequisite: MA 238 Minimum Grade of C

MA 451 Probability 3 cr

A comprehensive introduction to probability, the mathematical theory used to model uncertainty, covering the axioms of probability, random variables, expectation, classical discrete and continuous families of probability models, the law of large numbers and the central limit theorem. Credit for both MA 451 and MA 550 is not allowed.

Prerequisite: MA 227 Minimum Grade of C and MA 237 Minimum Grade of C

MA 452 Financial Mathematics 3 cr

Introduction to financial mathematics and a brief introduction to financial economics. Students will learn about the time value of money, annuities, loans, bonds, general cash flows and portfolios, immunization, general derivatives, options, forwards and futures, swaps and hedging from the point of view of an actuarial scientist.

Prerequisite: MA 126 Minimum Grade of C

MA 458 Operations Research - W 3 cr

An introduction to linear programming. The course will include a study of the simplex method as well as using computers to solve linear systems of equations. As time permits, topics covered will include sensitivity analysis, duality, integer programming, transportation, assignment, transshipment, and networks. Credit for both MA 458 and MA 567 is not allowed.

Prerequisite: MA 237 Minimum Grade of C and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

MA 467 Mathematical Logic 3 cr

An introduction to formal first-order logic, first-order metatheory, and its extensions. Topics include axiom systems and their models, completeness, compactness, and recursive sets and functions. Identical with PHL 467. Credit cannot be received for both PHL 467 and MA 467.

Prerequisite: PHL 321 Minimum Grade of C or MA 311 Minimum Grade of C or MA 316 Minimum Grade of C or MA 318 Minimum Grade of C or MA 320 Minimum Grade of C or MA 321 Minimum Grade of C or MA 332 Minimum Grade of C or MA 334 Minimum Grade of C or MA 335 Minimum Grade of C or MA 354 Minimum Grade of C or MA 367 Minimum Grade of C or MA 410 Minimum Grade of C or MA 413 Minimum Grade of C or MA 414 Minimum Grade of C or MA 434 Minimum Grade of C or MA 436 Minimum Grade of C or MA 437 Minimum Grade of C or MA 451 Minimum Grade of C or MA 458 Minimum Grade of C or MA 490 Minimum Grade of C or MA 537 Minimum Grade of C or MA 542 Minimum Grade of C or MA 550 Minimum Grade of C

Cross-Listed: PHL 467

MA 481 Cryptography 3 cr

This course provides an introduction to classical and modern methods of message encryption and decryption (cryptography) as well as possible attacks to cryptosystems (cryptanalysis). Topics include classical (symmetric) cryptosystems (DES, AES), public-key (asymmetric) cryptosystems (Diffie-Hellman, RSA, ElGamal), modes of operation, one-way and trapdoor functions, Hash functions, cryptographic protocols. Credit for both MA 481 and MA 581 is not allowed.

Prerequisite: MA 311 Minimum Grade of C or (MA 126 Minimum Grade of C and MA 267 Minimum Grade of C)

Cross-Listed: MA 581

MA 486 Advanced Calculus I 3 cr

This is the first of a two-course sequence designed to provide students with the theoretical context of concepts encountered in MA 125 through MA 227. Topics covered include Completeness Axiom, sequences of real numbers, suprema and infima, Cauchy sequences, open sets and accumulation points in Euclidean space, completeness of Euclidean space, series of real numbers and vectors, compactness, Heine-Borel Theorem, connectedness, continuity, Extremum Theorem, Intermediate Value Theorem, differentiation of functions of one variable.

Prerequisite: (MA 227 Minimum Grade of C and MA 237 Minimum Grade of C and MA 320 Minimum Grade of C)

Cross-Listed: MA 334

MA 487 Advanced Calculus II 3 cr

This is the second of a two course sequence designed to provide students with the theoretical context of concepts encountered in MA 125 through MA 227. Topics covered include integration of functions of one variable, pointwise and uniform convergence, integration and differentiation of series, differentiable mappings of several variables, chain rule, product rule and gradients, Mean Value Theorem, Taylor's Theorem, Inverse Function Theorem, Implicit Function Theorem.

Prerequisite: (MA 486 Minimum Grade of C)

Cross-Listed: MA 335, MA 536

MA 490 Special Topics 1-3 cr

Selected topics in advanced undergraduate mathematics. This course may be repeated for a maximum of six credits.

MA 494 Directed Studies 1-3 cr

Directed individual study. Requires permission of department chair.

MA 499 Honors Senior Project - H 3-6 cr

With the guidance and advice of a faculty mentor, honors students will identify, and carry out a research project in Mathematics. The outcome of the research project will include a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three members of the faculty, chaired by the faculty mentor.

MA 501 Number Systems 3 cr

A case study of axiom systems and the deductive method for graduate students in Mathematics Education. It is expected that students in this course will practice and improve their logical skills, better understand proof as a mathematical activity, and study the similarities and differences between several commonly used number systems.

Prerequisite: MA 321 Minimum Grade of C or MA 413 Minimum Grade of C

MA 502 Intro to Abstract Algebra 3 cr

An introduction to the fundamental concepts of modern algebra such as groups, rings, and fields through concrete examples. This course is designed for graduate students in the College of Education and Professional Studies.

Prerequisite: MA 413 Minimum Grade of C

MA 503 Introduction to Analysis 3 cr

A careful look at the elements, procedures, and applications of differential and integral calculus. This course is designed for graduate students in the College of Education and Professional Studies.

Prerequisite: MA 227 Minimum Grade of C

MA 504 Introduction to Geometry 3 cr

An introduction to the foundations of geometry using both synthetic and metric approaches. Euclidean, finite, projective, and hyperbolic geometries are discussed. The axioms for various geometries are discussed. The course is designed for graduate students in the College of Education and Professional Studies.

Prerequisite: MA 321 Minimum Grade of C

MA 505 Mathematical Problem Solving 3 cr

An in-depth activity-based approach to the methods and strategies for mathematical problem solving for students in Mathematical Education. Problems selected from logic, algebra, analysis, geometry, combinatorics, number theory and probability. This course is designed for graduate students in the College of Education and Professional Studies.

MA 506 Statistics for Teachers 3 cr

Prepares in-service and pre-service teachers to teach statistics in high schools using data-based approach. Uses hands-on-activities approach and simulation of situations to teach concepts and technology to teach data analysis. This course is designed for graduate students in the College of Education and Professional Studies.

Prerequisite: MA 126 Minimum Grade of C

MA 507 Adv Ordinary Differential Eqns 3 cr

A graduate-level introduction to topics of ordinary differential equations and their applications in physics and engineering.

MA 508 Adv Partial Differential Eqns 3 cr

A continuation of MA 507 with more emphasis on theory of partial differential equations, as well as their applications in physics and engineering problems.

MA 511 Algebra I 3 cr

A graduate level introduction to group theory. Topics include quotient groups, homomorphisms, group actions, Sylow theorems, composition series, simple groups, free groups, fundamental theorem of abelian groups.

MA 512 Algebra II 3 cr

A graduate level introduction to ring theory and fields. Topics include ring homomorphisms, quotient rings, ideals, rings of fractions, Euclidean domains, principal ideal domains, unique factorization domains, modules, finite fields, field extensions.

Prerequisite: MA 511 Minimum Grade of C

MA 515 Number Theory 3 cr

Modular arithmetic, arithmetic functions; prime numbers; algebraic number theory.

MA 516 Topics in Number Theory 3 cr

A second course in number theory, covering topics of interest to the students and instructor.

Prerequisite: MA 515 Minimum Grade of C

MA 518 Linear Algebra I 3 cr

Fields, vector spaces, dual spaces, quotient spaces, multilinear forms, linear transformations, algebras, adjoints, eigenvalues.

MA 519 Linear Algebra II 3 cr

Triangular form, nilpotence, Jordan form, inner products, self-adjoint transformations, positive transformations, isometries, Spectral Theorem, polar decomposition, applications to analysis.

Prerequisite: MA 518 Minimum Grade of C

MA 521 Enumerative Combinatorics 3 cr

Pigeonhole principle, basic counting techniques, binomial coefficients, inclusion-exclusion principle, recurrence relations, generating functions, systems of distinct representatives, finite fields.

MA 525 Graph Theory 3 cr

Fundamental concepts, connectedness, graph coloring, planarity and Kuratowski's theorem, four-color theorem, chromatic polynomial, Eulerian and Hamiltonian graphs, matching theory, network flows, NP-complete graph problems, Markov chains, matroids.

MA 535 Real Analysis I 3 cr

An introduction to real analysis. Topics include: the metric topology of the reals, limits and continuity, differentiation, Riemann-Stieltjes integral. Prerequisite: Undergraduate course in advanced calculus.

MA 536 Real Analysis II 3 cr

A continuation of MA 535. Topics covered include sequences and series of functions, differentiation and integration in several variables, an introduction to the Lebesgue integral and differential forms as time allows.

Prerequisite: MA 535 Minimum Grade of C

MA 537 Complex Analysis 3 cr

Arithmetic of complex numbers; regions in the complex plane; limits, continuity and derivatives of complex functions; elementary complex functions; mappings by elementary functions; contour integration; power series; Taylor series; Laurent series; calculus of residues; conformal representation; applications. Credit for both MA 537 and MA 437 is not allowed.

Prerequisite: MA 238 Minimum Grade of C or MA 338 Minimum Grade of C

MA 538 Topics in Complex Analysis 3 cr

A second course in complex analysis, covering topics of interest to the students and instructor.

Prerequisite: MA 537 Minimum Grade of C

MA 539 Measure Theory 3 cr

Foundations of the general theory of measure and integration with particular attention to the Lebesgue integral. Function spaces, product measure and Fubini's theorem, the Radon-Nikodym theorem and applications to probability theory are discussed, and possibly additional topics such as Haar measure or the Ergodic Theorem.

Prerequisite: MA 536 Minimum Grade of C

MA 540 Differential Geometry 3 cr

Local and global theory of curves and surfaces in three-dimensional space.

MA 542 Topology I 3 cr

An introduction to topology with emphasis on the geometric aspects of the subject. Topics covered include surfaces, topological spaces, open and closed sets, continuity, compactness, connectedness, product spaces, and identification and quotient spaces. Credit for both MA 542 and MA 434 is not allowed.

MA 543 Topology II 3 cr

A continuation of MA 542. Topics covered include the fundamental group, triangulations, classification of surfaces, homology, the Euler-Poincare formula, the Borsuk-Ulam theorem, the Lefschetz fixed-point theorem, knot theory, covering spaces, and applications.

Prerequisite: MA 542 Minimum Grade of C or MA 434 Minimum Grade of C

MA 550 Probability 3 cr

A comprehensive introduction to probability, the mathematical theory used to model uncertainty, covering the axioms of probability, random variables, expectation, classical discrete and continuous families of probability models, the law of large numbers and the central limit theorem. Credit for both MA 550 and MA 451 is not allowed.

Prerequisite: (MA 227 Minimum Grade of C or MA 237 Minimum Grade of C)

MA 551 Theory of Statistics 3 cr

A comprehensive introduction to the mathematical foundations of statistics. Sufficient statistics and information, parameter estimation, maximum likelihood and moment estimation, optimality properties of estimators and confidence intervals. Hypothesis testing, likelihood ratio tests and power functions. Credit for both MA 551 and ST 470 is not allowed.

Prerequisite: MA 451 Minimum Grade of C or MA 550 Minimum Grade of C

MA 555 Statistical Analysis I 3 cr

A first course in an integrated two course sequence in applied statistical theory and methods for research workers in technical fields. Coverage includes probability and basic probability models, mathematical expectations, random sampling processes and central limit theorem, estimation, hypothesis testing and power analysis, some applications of the theory of least squares. Computer assisted data analysis is used.

MA 560 Statistical Analysis II 3 cr

A second course (continuation of MA 555) in an integrated two-course sequence in applied statistical theory and methods for research workers in technical fields. Coverage includes regression analysis, design and analysis of experiments, factorial experiments, analysis of covariance, nonparametric analytical techniques, analysis of count data. Computer assisted data analysis is used.

Prerequisite: MA 555 Minimum Grade of C

MA 565 Numerical Analysis 3 cr

An introduction to Numerical Analysis. Topics include error analysis, systems of linear equations, nonlinear equations, integration, ordinary differential equations among others. Credit for both MA 436 & MA 565 is not allowed.

Prerequisite: MA 238 Minimum Grade of C

MA 567 Operations Research 3 cr

An introduction to linear programming. The course will include a study of the simplex method as well as using computers to solve linear systems of equations. As time permits, topics covered will include sensitivity analysis, duality, integer programming, transportation, assignment, transshipment, and networks. Credit for both MA 567 and MA 458 is not allowed.

Prerequisite: MA 237 Minimum Grade of C

MA 568 Topics in Operations Research 3 cr

A second course in operations research, covering topics of interest to the students and instructor.

Prerequisite: MA 567 Minimum Grade of C

MA 571 Ordinary Diff Equations 3 cr

An introduction to ordinary differential equations from a dynamical systems perspective. Topics include existence and uniqueness theorems, dependence on initial data, linear systems and exponential of operators, stability of equilibria, Poincare-Bendixson theorem. Additional topics such as applications to population dynamics, classical mechanics, periodic attractors among others will be included at the discretion of the instructor.

Prerequisite: MA 518 Minimum Grade of C

MA 572 Partial Differential Equations 3 cr

An introduction to partial differential equations emphasizing spectral methods. Topics include elementary Hilbert spaces, Fourier series and integrals and their applications to the study of the basic partial differential equations of mathematical physics. More advanced topics such as asymptotic properties and regularity of solutions and nonlinear equations among others will be included at the discretion of the instructor.

Prerequisite: MA 536 Minimum Grade of C

MA 581 Cryptography 3 cr

This course provides an introduction to classical and modern methods of message encryption and decryption (cryptography) as well as possible attacks to cryptosystems (cryptanalysis). Topics include classical (symmetric) cryptosystems (DES, AES), public-key (asymmetric) cryptosystems (Diffie-Hellman, RSA, ElGamal), modes of operation, one-way and trapdoor functions, Hash functions, cryptographic protocols. Credit for both MA 481 and MA 581 is not allowed.

Prerequisite: MA 311 Minimum Grade of C or (MA 126 Minimum Grade of C and MA 267 Minimum Grade of C)

Cross-Listed: MA 481

MA 590 Special Topics - 1-3 cr

Selected topics in elementary graduate mathematics. This course may be repeated for a maximum of six credits.

MA 592 Seminar 1 cr

Student Seminar. Topics covered vary. This course may be repeated indefinitely, but only two credits count towards the degree. Grading system: satisfactory/unsatisfactory.

MA 594 Directed Study 1-3 cr

Directed individual study. Prerequisites: Approval of the department chair.

MA 599 Thesis 1-6 cr

Thesis. Requires approval of research prospectus by Department Graduate Committee.

Mathematics for College (MTH)**MTH 100 Essentials for Precalculus 3 cr**

This course covers the foundations required for success in Precalculus Algebra. This course will provide an introduction to manipulating and solving algebraic expression, linear and quadratic equations and inequalities. Graphing functions, lines, piecewise functions, and quadratics will be explored. The algebraic manipulation of exponents, logarithms, rational and radical expressions, and polynomials will be discussed. Practical applications and problem solving are also included.

MTH 101 College Algebra 4 cr

This course combines Introductory Algebra and Intermediate College Algebra. Topics include fractions, percents, and order of operations. Various forms of linear equations manipulated; the solutions and graphs of linear equations and linear inequalities explored. Also included, rate of change, functions and graphs, piecewise-defined functions, solutions to absolute value inequalities expressed in set and interval notation, and systems of inequalities. Simplification of rational expressions, operations on rational and radical expressions, and solutions to rational and radical equations explored. Quadratic expressions factored and solutions to quadratic equations by factoring and graphing. Practical applications to problem solving are included. Pre-requisite: None. Credit for both MTH 100, MTH 101 and MTH 105 is not allowed.

Statistics (ST)**ST 150 Contemporary Math-Stat Seminar 1 cr**

This course gives an overview of modern mathematics and statistics from the point of view of the practitioners. The course is designed for majors in mathematics and statistics at all levels as well as those students who are considering mathematics and statistics as a major or minor area of study. Topics usually included are elements of geometry, algebra, analysis, methods of statistical inference, the role of the computer in the analytical sciences; these topics vary from semester to semester. This course cannot be taken for credit simultaneously with MA 150, but may be repeated in different semesters. NOTE: May be offered for Honors Credit.

Cross-Listed: MA 150

ST 210 Stat Reason and Application 3 cr

An introduction to modern statistics designed to provide the student with a solid foundation in statistical concepts, reasoning and applications. Emphasis given to problem identification, methodology selection and interpretation of results. Analysis of data accomplished by extensive use of statistical computer software, thereby minimizing manual computation. Coverage includes descriptive statistics, probability models, estimation, and hypothesis testing. High School level algebra is recommended. Computer Lab fee. NOTE: ST 210 is intended for students in all disciplines except Engineering and Computer Science. Credit for both ST 210 and ST 315 not allowed. May be offered for Honors Credit.

ST 305 Applied Stat Health Sciences 3 cr

An introduction to statistical reasoning and data analysis for the health sciences. Coverage includes descriptive statistics, methods of data collection, estimation, hypothesis testing, non-parametric statistics, ANOVA, repeated measures, correlation and other measures of association, modeling data with linear and logistic regression. Critique of selected research articles and case studies incorporating research and evidence-based practice will be adopted to connect statistics to daily work in healthcare field. Statistical computer software (e.g. Minitab) will be extensively used for data analysis. Computer Lab fee. Note: This course is offered only as a fully online course and only for health sciences students.

Prerequisite: MA 110 Minimum Grade of C or MA 112 Minimum Grade of C

ST 310 Stat Research Techniques 3 cr

This course is a continuation of ST 210. Coverage includes analysis of experimental designs such as completely randomized design, randomized block design, and factorial design using analysis of variance (ANOVA), correlation, simple and multiple regression analysis, model building, nonparametric techniques, contingency table analysis, sampling and survey methods. Time permitting topics such as time series analysis and statistical simulations will be covered. Statistical computer software will be extensively used for data analysis. Computer Lab fee. NOTE: Credit for only ONE course from ST 310, ST 315 and ST 320 is allowed.

Prerequisite: ST 210 Minimum Grade of C

ST 315 Applied Probability-Statistics 3 cr

Concepts of probability theory, discrete and continuous probability distributions including gamma, beta, exponential and Weibull, descriptive statistics, sampling, estimation, confidence intervals, testing of hypothesis, ANOVA and multiple comparisons, linear and multiple regression, correlation, nonparametric analysis, contingency table analysis, computer-assisted data analysis using appropriate statistical software. Computer Lab fee.

Prerequisite: MA 125 Minimum Grade of C

ST 320 Applied Stat Analysis 3 cr

Descriptive statistics, probability distributions, sampling, estimation, confidence intervals and hypothesis testing, experimental designs, ANOVA and multiple comparisons, linear and multiple regression, correlation, nonparametric analysis, goodness of fit, contingency table analysis, quality control, acceptance sampling, computer-assisted data analysis using appropriate statistical software. Computer Lab fee. NOTE: ST 315 and ST 320 are intended for students in Engineering, Computer Science, and Mathematics. ST 315 covers additional probability distributions while ST 320 additionally covers concepts of quality control and acceptance sampling. Students in these disciplines should consult with their academic advisor for appropriate choice between ST 315 and ST 320. Computer Lab fee. NOTE: Credit for only ONE course from ST 310, ST 315, and ST 320 is allowed.

Prerequisite: MA 125 Minimum Grade of D

ST 335 Applied Regression Analysis 3 cr

Simple, polynomial and multiple linear regression; residual and lack-of-fit analysis; simple, multiple, partial and multiple-partial correlation analysis; model building algorithms; dummy variables; analysis of covariance; model comparisons; analysis of experimental designs including messy data; nonlinear regression models; computer-assisted data analysis using appropriate statistical software. Computer Lab fee. NOTE: Satisfies the Technology Proficiency Requirement for Math/Stat majors.

Prerequisite: ST 210 Minimum Grade of C or ST 315 Minimum Grade of C or ST 320 Minimum Grade of C

ST 340 Design-Analysis of Experiments 3 cr

Principles, constructions, and analysis of experimental designs to include completely randomized, randomized complete block, Latin square and split plot designs, factorial experiments, designs with nested and/or crossed factors, multifactor experiments with randomization restrictions, transformations, incomplete block designs, multiple comparisons including contrasts, confounding, fractional replication, computer-assisted data analysis. Computer Lab fee.

Prerequisite: ST 210 Minimum Grade of C or ST 310 Minimum Grade of C or ST 315 Minimum Grade of C or ST 320 Minimum Grade of C

ST 345 Sampling-Survey Techniques 3 cr

Sampling concepts and designs for survey investigations; sampling methodologies including applications of simple random, stratified, one-and-two stage cluster, and systematic sampling; sample size determination; ratio and regression estimation; population size estimation; random response modeling; acceptance sampling including applications of single and multiple 2-class attribute sampling plans; computer-assisted data analysis using appropriate statistical software. Computer Lab fee.

Prerequisite: ST 210 Minimum Grade of C or ST 310 Minimum Grade of C or ST 315 Minimum Grade of C or ST 320 Minimum Grade of C

ST 350 Applied Time Series Analysis 3 cr

Fundamental concepts; classical regression models as forecasting models, exponential smoothings, stationary and nonstationary models, additive and multiplicative decompositions, moving average, autoregressive, ARMA and ARIMA processes, estimation in MA, AR, ARMA, and ARIMA processes. Box-Jenkins methodology, computer aided modeling, applications. Computer Lab fee.

Prerequisite: ST 210 Minimum Grade of D or ST 315 Minimum Grade of D or ST 320 Minimum Grade of D or ST 335 Minimum Grade of D

ST 355 Nonparametric Stat Methods 3 cr

Distribution-free analysis of location and scale measures, nonparametric treatment of fundamental statistical designs, nonparametric comparison procedures, association and contingency table analysis, nonparametric goodness-of fit procedures, and tests for randomness, nonparametric regression and other measures of association, computer intensive statistical methods. Computer Lab fee.

Prerequisite: ST 210 Minimum Grade of D or ST 315 Minimum Grade of D or ST 320 Minimum Grade of D

ST 415 Stat Qual Control Reliability 3 cr

Probability distributions in quality control, inferences about process quality, control charts for attributes and variables, process capability analysis, economic design of control charts, custom charts, acceptance sampling by attributes and variables, six sigma concepts, reliability concepts, censoring, definitions and properties of survival distributions, methods of estimating and comparing reliability distributions, Kaplan-Meier estimation, burn-in models with a major emphasis on computer-assisted data analysis. Computer Lab fee.

ST 425 Applied Linear Models 3 cr

Some results of matrix algebra, multivariate normal distributions, distributions of quadratic forms, general linear models, design models with one factor and two factors including interaction, component-of-variance models, and computing techniques. Computer Lab fee.

Prerequisite: MA 237 Minimum Grade of D and ST 335 Minimum Grade of D or ST 340 Minimum Grade of D

ST 450 Categorical Data Analysis 3 cr

Analysis of two-way, three-way and higher dimension contingency tables using log-linear models, measures of association for nominal and ordinal tables, multiple-factor models, multiple response models, logistic regression, and weighted least squares. Computer Lab fee.

ST 460 Multivariate Stat Analysis 3 cr

Multivariate normal distribution, sampling distribution, hypothesis testing, principal components and introduction to factor analysis, canonical correlation analysis, discriminant and classification analysis, and MANOVA. Computer Lab fee.

ST 470 Theory of Statistics 3 cr

A comprehensive introduction to the mathematical foundations of statistics. Sufficient statistics and information. Parameter estimation, maximum likelihood and moment estimation, optimality properties of estimators and confidence intervals. Hypothesis testing, likelihood ratio tests and power functions. Credit for both ST 470 and MA 551 is not allowed.

Prerequisite: MA 451 Minimum Grade of D or MA 550 Minimum Grade of D

ST 475 Stat Computing and Graphics 3 cr

Introduction to computer-assisted data analysis with statistical computer software, including SAS, R/S-Plus. Coverage includes basics of SAS, common SAS statistical procedures, high-dimensional data visualization, some elements of statistical computing such as numerical computation, semi-numerical computation, symbolic and graphical computation, and special topics selected by instructor. (Credit for ST 475 and ST 575 is not allowed. Computer Lab fee.

Prerequisite: ST 210 Minimum Grade of C or ST 315 Minimum Grade of C or ST 540 Minimum Grade of C

Cross-Listed: ST 575

ST 478 Stat Learning Tech in Data Sci 3 cr

Statistical learning refers to a set of tools for modeling and understanding complex datasets. It is a recently developed area in statistics and blends with parallel developments in computer science and, in particular, machine learning. The purpose of this course is to provide the student with a foundation in modern (non-traditional) statistical learning techniques to deal with small to large complex datasets. Analysis of data is accomplished by extensive use of statistical software thereby minimizing manual computation. Coverage includes introduction to statistical learning, classification or supervised learning methods, resampling methods, linear and non-linear model selection techniques, support vector machines and tree-based methods. Credit for both ST 478 and ST 580 not allowed.

Prerequisite: ST 335 (may be taken concurrently) Minimum Grade of C and CSC 121 (may be taken concurrently) Minimum Grade of C

ST 480 Statistical Practicum - W 1 cr

Relates to the student's classroom studies with actual statistical problems encountered in practice. Working with the departmental statistical consultant, the student will participate in providing statistical assistance to research faculty in applied fields. Computer Lab fee.

Prerequisite: ST 335 Minimum Grade of C and ST 340 Minimum Grade of C)

ST 490 Special Topics 1-3 cr

Selected topics in advanced undergraduate applied statistics This course may be repeated for a maximum of six credits.

ST 494 Directed Studies 1-3 cr

Directed Study. May be repeated for a maximum of six credits.

Prerequisite: Permission of Department Chair.

ST 499 Honor Senior Project - H 3-6 cr

With the guidance and advice of a faculty mentor, Honors Students will identify, and carry out a research project in Statistics. The outcome of the research project will include a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three members of the faculty, chaired by the faculty mentor.

ST 525 Appl Stat for Clinical Trials 3 cr

This course introduces the fundamental concepts of clinical trials and statistical methods in clinical trials with examples. Topics include clinical trial design and development, randomization, blindness, sample size and power calculation, data collection and management, missing data, survival analysis, association and reproducibility, crossover trials, Bayesian adaptive methods, and others. Most of the statistical methods will be implemented using R. Procedures or subroutines from other statistical software packages, such as SAS and SPSS, will also be introduced as needed.

Prerequisite: ST 210 Minimum Grade of C or ST 305 Minimum Grade of C or ST 315 Minimum Grade of C or ST 540 Minimum Grade of C

ST 540 Stat in Research I 3 cr

A service course for graduate students in disciplines other than mathematics and statistics. A non-calculus exposition in support of application. Coverage includes descriptive statistics, probability and probability distributions, sampling, estimation, tests of significance, analysis of variance, correlation, linear, polynomial, and multiple linear regression including residual and lack of fit analysis, nonparametric procedures, contingency table analysis, and computer-assisted data analysis using appropriate computer software. Computer Lab fee.

ST 545 Stat in Research II 3 cr

Continuation of ST 540. Coverage includes regression analysis through matrices, multiple, partial and multiple-partial correlation analysis, model building algorithms, non-linear regression, analysis of covariance, completely randomized, randomized complete block, and factorial experimentation for equal and unequal cell replication, logistic regression, resampling, basic multivariate techniques, and computer-assisted data analysis. Computer Lab fee.

Prerequisite: ST 540 Minimum Grade of C

ST 550 Environmental Statistics 3 cr

Sampling environmental populations; parametric and nonparametric and estimation; applications of lognormal, Weibull, gamma and beta distributions; locating hot spots; censored data; outlier detection; trend analysis, seasonality; estimation of animal abundance. Computer Lab fee.

Prerequisite: ST 210 Minimum Grade of C or ST 315 Minimum Grade of C or ST 540 Minimum Grade of C

ST 555 Categorical Data 3 cr

Introduction to categorical response data, probability distributions for categorical data, statistical inference for proportions, contingency tables and measures of association, logistic regression, log-linear models for contingency tables, multi-category response models, models for matched pairs categorical response variables. Credit for both ST 450 and ST 555 is not allowed.

Prerequisite: ST 540 Minimum Grade of C or ST 315 Minimum Grade of C or ST 335 Minimum Grade of C

Cross-Listed: ST 450

ST 560 Appl Desgn & Analysis of Exper 3 cr

A software aided introduction to the design and analysis of experiments for univariate and multivariate data. The coverage includes designs such as block designs, factorial designs, repeated measurement designs, hierarchical designs, response surface methods, and Taguchi methods along with various ANOVA techniques for univariate data, ANCOVA for the correlated data, and MANOVA for multivariate data. Analysis of data will be accomplished by extensive use of statistical software. Computer lab fee.

Prerequisite: ST 540 Minimum Grade of B

ST 575 Stat Computing and Graphics 3 cr

Introduction to computer assisted data analysis with statistical computer software, including SAS, R/S-Plus. Coverage includes basics of SAS, common SAS statistical procedures, high-dimensional data visualization, some elements of statistical computing such as numerical computation, semi-numerical computation, symbolic and graphical computation, and special topics selected by instructor. (Credit for both ST 475 and ST 575 is not allowed. Computer Lab fee.

Prerequisite: (ST 540 Minimum Grade of C or ST 315 Minimum Grade of C or ST 210 Minimum Grade of C)

Cross-Listed: ST 475

ST 580 Stat Learning Tech in Data Sc 3 cr

Statistical learning refers to a set of tools for modeling and understanding complex datasets. It is a recently developed area in statistics and blends with parallel developments in computer science and, in particular, machine learning. The purpose of this course is to provide the student with a foundation in modern (non-traditional) statistical learning techniques to deal with small to large complex datasets. Analysis of data is accomplished by extensive use of statistical software thereby minimizing manual computation. Coverage includes introduction to statistical learning, classification or supervised learning methods, resampling methods, linear and non-linear model selection techniques, support vector machines and tree-based methods.

Prerequisite: ST 540 Minimum Grade of C

ST 585 Nonparametric Modeling 3 cr

This course is designed to introduce an alternative set of methodologies to existing and non-existing statistical methods with emphasis on distribution-free and robust procedures. The coverage includes distribution-free analysis of location and scale measures. Nonparametric treatment of fundamental statistical designs, nonparametric multiple comparison procedures, association and contingency table analysis, goodness-of-fit procedures. Nonparametric regression and other measures of association and computer intensive methods. Statistical computer software is intended to enhance the facility with applications of various techniques covered in this course.

Prerequisite: ST 335 Minimum Grade of C and ST 540 Minimum Grade of C

ST 590 Sp Topic: 1-3 cr

Selected topics in advanced applied statistics. This course may be repeated for a maximum of six credits.

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
ABEYNANDA, GAYAN SHANAKA (gsabeynanda@southalabama.edu)	Mathematics and Statistics	Assistant Professor	BS, Univ of Colombo MS, Louisiana State University PHD, Louisiana State University
ADAMS, JAMES RANDOM (adams@southalabama.edu)	Mathematics and Statistics	Instructor	BS, Spring Hill College MS, University of South Alabama

Applied Statistics Graduate Certificate

Degree Requirements

The Department of Mathematics and Statistics will offer a new graduate certificate in applied statistics starting Fall 2023.

The Graduate Certificate program in Applied Statistics is a four-course program that can be completed in three to four semesters alongside a graduate degree program in another discipline or as a stand-alone program by working professionals interested in expanding their knowledge in analyzing and interpreting data. It will prepare students for the job market where data analyses skills are preferred. It is aimed to:

- Provide knowledge of designing studies for data collection in a variety of situations.
- Educate students about assumptions behind different statistical methods and how to check them.
- Prepare students to identify appropriate statistical analyses techniques for given situations.
- Prepare students to perform basic statistical data analysis needed for their research.

Pre-requisite is a bachelor's degree in any discipline. Students will be required to complete 12 hours of class work, from which two courses (ST 540 and ST 545) are mandatory and the other two are to be chosen from the courses listed below. Twelve hours of course work must be completed with no grade lower than "B". A minimum 3.0 GPA is required to obtain the certificate. Possible courses are:

Code	Title	Hours
Required Courses		
ST 540	Stat in Research I	3
ST 545	Stat in Research II	3
Elective Courses		
Select two of the following: see footnote table below (p.) ¹		6
ST 525	Appl Stat for Clinical Trials	
ST 550	Environmental Statistics	
ST 555	Categorical Data	
ST 560	Appl Desgn & Analysis of Exper	
ST 575	Stat Computing and Graphics	
ST 580	Stat Learning Tech in Data Sc	
ST 585	Nonparametric Modeling	
ST 590	Sp Topic:	
Total Hours		12

For further information about the program contact

Dr. Huybrechts Bindele
 phone: (251) 460-7294
 email: hbindele@southalabama.edu

Footnote

¹ Elective courses should be chosen based on students' professional goals.

Applied Statistics Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) semester hours of courses in the minor must be completed at the University.

Minor in Applied Statistics

Code	Title	Hours
Requirements		
Select one of the following (not both):		3
ST 210	Stat Reason and Application	
ST 315	Applied Probability-Statistics	
ST 335	Applied Regression Analysis	3
ST 340	Design-Analysis of Experiments	3
Select at least three of the following:		9
ST 345	Sampling-Survey Techniques	
ST 350	Applied Time Series Analysis	
ST 355	Nonparametric Stat Methods	
ST 415	Stat Qual Control Reliability	
ST 425	Applied Linear Models	
ST 450	Categorical Data Analysis	
ST 475	Stat Computing and Graphics	
ST 460	Multivariate Stat Analysis	
MA 451	Probability	
ST 550	Environmental Statistics	
Total Hours		18

One statistics oriented course from any other discipline may be counted toward this requirement with the approval from the department chair.

Where to Begin in the Mathematics Courses?

Students must begin at the proper level and in the proper track in mathematics. Students who lack college level credit in mathematics should take the placement exam at least 48 hours prior to registering for a mathematics course. Students must register online to take the test. Times and days of the test as well as registration information are available at the department website.

Note 1. To Avoid Duplication:

1. Credit for both MA 112 and MA 115 is not allowed.
2. Credit for both MA 113 and MA 115 is not allowed.
3. Credit for both MA 120 and MA 125 is not allowed.
4. Students may receive credit for only one of the following: ST 310, ST 315 or ST 320.

Note 2. MA 110 is not a prerequisite course for any other course required by mathematics and statistics major.

Mathematics (MS) - Non-Thesis Option

Degree Requirements

- A minimum of 32 semester hours of course work.
- Two two-course sequences (12 hours), selected from MA 511 & MA 512, MA 515 & MA 516, MA 518 & MA 519, MA 521 & MA 525, MA 535 & MA 536, MA 537 & MA 538, MA 542 & MA 543, MA 550 & MA 551, MA 555 & MA 560, MA 567 & MA 568, or MA 571 & MA 572 must be completed.
- Complete a comprehensive examination covering a collection of courses specified by the graduate coordinator.
- Complete MA 592 (Seminar) during at least two semesters.
- MA 501, MA 502, MA 503, MA 504, MA 505, MA 506 do not satisfy degree requirements.

Policies And Procedures

The document "Department Policies and Procedures for the MS Degree Program in Mathematics" is posted on the departmental website. It contains details concerning advising, the comprehensive examination, graduate assistant duties, student meetings and colloquia.

Mathematics (MS) - Non-Thesis Option with Computer Science Emphasis

Degree Requirements

- A minimum of 23 semester hours of Mathematics courses including a two-course sequences (6 hours), selected from MA 511 & MA 512, MA 515 & MA 516, MA 518 & MA 519, MA 535 & MA 536, MA 537 & MA 538, MA 542 & MA 543, MA 550 & MA 551, MA 555 & MA 560, MA 567 & MA 568, or MA 571 & MA 572 must be completed.
- MA 521 or MA 525.

- A minimum of 9 semester hours of Computer Science courses approved by the Mathematics Graduate Committee.
- At least twelve hours of graduate electives from the following:

MA 507, MA 508, MA 511, MA 512, MA 515, MA 516, MA 518, MA 519, MA 521, MA 525, MA 537, MA 538,

MA 539, MA 540, MA 542, MA 543, MA 550, MA 551, MA 555, MA 560, MA 565, MA 567, MA 568, MA 571,

MA 572, MA 581, MA 590, MA 594.

- Complete a comprehensive examination covering a collection of courses specified by the Graduate Coordinator.
- Complete MA 592 (Seminar) during at least two semesters.
- MA 501, MA 502, MA 503, MA 504, MA 505, MA 506 do not satisfy degree requirements.

Policies And Procedures

The document "Department Policies and Procedures for the MS Degree Program in Mathematics" is posted on the departmental website. It contains details concerning advising, the comprehensive examination, graduate assistant duties, student meetings and colloquia.

Mathematics (MS) - Thesis Option

Degree Requirements

- A minimum of 32 semester hours of course work including MA 599.
- Two two-course sequences (12 hours), selected from MA 511 & MA 512, MA 515 & MA 516, MA 518 & MA 519, MA 521 & MA 525, MA 535 & MA 536, MA 537 & MA 538, MA 542 & MA 543, MA 550 & MA 551, MA 555 & MA 560, MA 567 & MA 568, or MA 571 & MA 572 must be completed.
- Complete a thesis. A maximum of six semester hours of credit will be granted for the thesis. A student may not enroll in MA 599 (Thesis) until a thesis prospectus has been approved by the Graduate Coordinator and the Director of Graduate Studies in the College of Arts and Sciences.
- Complete a comprehensive examination covering a collection of course work specified by the Graduate Coordinator.
- Complete MA 592 (Seminar) during at least two semesters.
- MA 501, MA 502, MA 503, MA 504, MA 505, MA 506 do not satisfy degree requirements.

Policies And Procedures

The document "Department Policies and Procedures for the MS Degree Program in Mathematics" is posted on the departmental website. It contains details concerning advising, the comprehensive examination, graduate assistant duties, student meetings and colloquia.

Mathematics and Statistics Major (BS)

Degree Requirements

Code	Title	Hours
General Education Requirements		
https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext		53-57

Major Requirements		45
A. Complete the following:		
MA 125	Calculus I	4
MA 126	Calculus II	4
ST 210	Stat Reason and Application	3
or ST 315	Applied Probability-Statistics	
MA 227	Calculus III	4
MA 237	Linear Algebra I	3
MA 238	Differential Equations I	3
ST 335	Applied Regression Analysis	3
B. Select 21 hours from see C and D below		
C. Select nine hours from the following:		
MA 410	History of Mathematics - W	9
MA 413	Abstract Algebra I - W	
MA 414	Abstract Algebra II - W	
MA 434	Topology	
MA 436	Numerical Analysis	
MA 437	Complex Variables	
MA 451	Probability	
MA 452	Financial Mathematics	
MA 458	Operations Research - W	
MA 467	Mathematical Logic	
MA 481	Cryptography	
MA 486	Advanced Calculus I	
MA 487	Advanced Calculus II	
MA 490	Special Topics	
MA 494	Directed Studies	
MA 499	Honors Senior Project - H	
ST 415	Stat Qual Control Reliability	
ST 425	Applied Linear Models	
ST 450	Categorical Data Analysis	
ST 460	Multivariate Stat Analysis	
ST 470	Theory of Statistics	
ST 475	Stat Computing and Graphics	
ST 480	Statistical Practicum - W	
ST 490	Special Topics	
ST 494	Directed Studies	
ST 499	Honor Senior Project - H	
D. Select 12 additional hours from the following:		
MA 311	Intro to Number Theory	12
MA 316	Linear Algebra II	
MA 320	Foundations of Math - W	
MA 321	Elementary Geometry	
MA 332	Differential Equations II	
MA 354	Comp Assist Math Modeling - W	
MA 367	Combinatorial Enumeration	
MA 390	Special Topics	
MA 410	History of Mathematics - W	
MA 413	Abstract Algebra I - W	
MA 414	Abstract Algebra II - W	
MA 434	Topology	
MA 436	Numerical Analysis	

MA 437	Complex Variables
MA 451	Probability
MA 452	Financial Mathematics
MA 458	Operations Research - W
MA 467	Mathematical Logic
MA 481	Cryptography
MA 486	Advanced Calculus I
MA 487	Advanced Calculus II
MA 490	Special Topics
MA 494	Directed Studies
MA 499	Honors Senior Project - H
ST 340	Design-Analysis of Experiments
ST 345	Sampling-Survey Techniques
ST 350	Applied Time Series Analysis
ST 355	Nonparametric Stat Methods
ST 415	Stat Qual Control Reliability
ST 425	Applied Linear Models
ST 450	Categorical Data Analysis
ST 460	Multivariate Stat Analysis
ST 470	Theory of Statistics
ST 475	Stat Computing and Graphics
ST 480	Statistical Practicum - W
ST 490	Special Topics
ST 494	Directed Studies
ST 499	Honor Senior Project - H

Minor Requirements

A minor is required for this degree program	18-24
A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE	120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Notes:

- Collaborate with the academic advisor to choose upper division electives appropriate for your educational goals.

Graduation Plan

(120 Total Hours)

Course	Title	Hours
First Year		
Fall		
MA 125	Calculus I	4
CAS 100	First Yr Exp -	2

Mathematics Minor Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Mathematics

Code	Title	Hours
Requirements		
MA 125	Calculus I	4
MA 126	Calculus II	4
Additional Courses		
Select four of the following:		10-13
MA 227	Calculus III	
MA 237	Linear Algebra I	
MA 238	Differential Equations I	
MA 267	Discrete Math Structures	
MA 311	Intro to Number Theory	
MA 316	Linear Algebra II	
MA 320	Foundations of Math - W	
MA 321	Elementary Geometry	
MA 332	Differential Equations II	
MA 334	Advanced Calculus I	
MA 335	Advanced Calculus II	
MA 354	Comp Assist Math Modeling - W	
MA 367	Combinatorial Enumeration	
MA 410	History of Mathematics - W	
MA 413	Abstract Algebra I - W	
MA 414	Abstract Algebra II - W	
MA 434	Topology	
MA 436	Numerical Analysis	
MA 437	Complex Variables	
MA 451	Probability	
MA 458	Operations Research - W	
MA 467	Mathematical Logic	
MA 481	Cryptography	
MA 490	Special Topics	
ST 315	Applied Probability-Statistics	
Total Hours		18-21

At least two of the courses chosen for the minor must be 300 level or higher.

Where to Begin in the Mathematics Courses?

Students must begin at the proper level and in the proper track in mathematics. Students who lack college level credit in mathematics should take the placement exam at least 48 hours prior to registering for a mathematics course. Students must register online to take the test. Times and days of the test as well as registration information are available at the department website.

Note 1: To Avoid Duplication:

1. Credit for both MA 112 and MA 115 is not allowed.
2. Credit for both MA 113 and MA 115 is not allowed.
3. Credit for both MA 120 and MA 125 is not allowed.
4. Students may receive credit for only one of the following: ST 310, ST 315 or ST 320.

Note 2: MA 110 is not a pre-requisite course for any other course required by mathematics and statistics major.

Military Science

Department Information

Department of Military Science website
<https://www.southalabama.edu/colleges/artsandsci/armyrotc/> (<http://www.southalabama.edu/armyrotc/>)

Our Mission: To commission the future officer leadership of the United States Army. The Military Science Department offers a progressive program which will enhance student education regardless of academic endeavor. The program is designed to improve the leadership abilities of students, develop managerial skills, inform students concerning the roles, missions, and capabilities of the Army, and train qualified ROTC students to become commissioned officers in the National Guard, U.S. Army Reserve, or the U.S. Army. Military Science is an accredited field of minor study. National Guardsmen, reservists, veterans and former JROTC students may receive advanced placement by requesting it through the department chair.

Requirements for Enrollment and Continuance

The general requirements for enrollment and continuance in the Army ROTC program are as follows:

1. Basic course students must:
 - Be a citizen of the United States
 - Be physically qualified
 - Have freshman or sophomore standing. Students with higher standing require consent of PMS.
2. Basic course Cadets applying for enrollment in the advanced course who seek a commission must:
 - Have successfully completed MS 101, MS 102, MS 201, MS 202, OR placement credit for the 100 and 200 level courses for prior military service, Junior ROTC, ROTC Basic Camp and equivalent military training with approval from Professor of Military Science.
 - Have two years remaining at the university (either undergraduate, graduate or in pursuit of additional course work).
 - Have completed a minimum of 30 hours to contract.
 - Be under 31 years old during year of graduation and commissioning (waiverable to 39).
 - Be enrolled as a full-time student, either at the University of South Alabama, or affiliate College or University.
 - Meet military screening and physical requirements.
 - Maintain a minimum 2.0 G.P.A.
 - Maintain B average in military science and leadership courses.

Regularly enrolled students who meet the academic prerequisites may take individual courses as electives with the permission of the department head and academic advisor.

Basic Course

The purpose of the Army ROTC Basic Course is to introduce students to Army ROTC, to give them general information about the Army and to introduce them to basic skills which have both military and civilian application. Courses and practical exercises in land navigation, orienteering, and leadership round out the student's academic life, provide a challenge, develop confidence, and break the classroom monotony. With this initial exposure, the students will have experience upon which to base their decisions to continue into the Advanced Course and into the Army as commissioned officers. There is no military obligation in connection with the Basic Course. Contracted cadets are

required to pass an Army Fitness Assessment and meet the Army Height and Weight standards at least once a semester.

MS I (MS 101-MS 102). Meets for one hour per week. Students are required to attend a two hour leadership lab every week and are encouraged to attend physical training lab three times per week for 1 hour per session. During leadership laboratory, students will participate in land navigation training, and other military activities.

MS II (MS 201-MS 202). Meets for two hours per week. All students are required to attend a two hour leadership lab every week. In addition, students are required to attend physical training lab three times per week for 1 hour per session. During leadership laboratory, students will participate in land navigation training, and other military activities.

Cadet Summer Training (CST) Basic Camp

CST Basic Camp produces a Cadet grounded in foundational leadership doctrine and skills by following and leading; demonstrates proficiency in individual and collective tasks at the team and squad level; can apply in a physically demanding, complex, tactical environment; who comprehends critical thinking and problem solving using TLPs; comprehends the value of diversity and understands the officer's role in leading change; understands the fundamentals of the Army as a profession. Attendance at the Basic Camp does not necessarily obligate the student to military service; it does, however, qualify the student for continuation in the Army ROTC Courses as a contracted Cadet provided eligibility criteria are met, a student can compete for a 2-year or 3-year scholarship upon graduation. See the scholarship section that follows for more information.

Cadet Summer Training (CST) Advanced Course

CST Advance Camp produces a Cadet who is physically and mentally capable of leading at the platoon level; is tactically proficient; applies fundamentally sound techniques grounded in doctrine; anticipates problems; applies the Troop Leading Procedures to plan, rehearse, and execute mission context problems; applies and analyzes military education, training, and experience to exercise initiative in problem solving during tactical problems at the platoon level; applies essential components of the Army Profession nested in the cross cultural competence; capitalizes on team members' military education, training, and experience to exercise initiative in problem solving at the platoon level; communicates complex thoughts in a logical and easily understood manner and is dedicated to excellence and accepts accountability for self and assigned unit; willingly gathers input from team members to solve problems. The ROTC Program uses and extends the intellect, education, and special abilities of college students. Its primary purpose is to produce Army officers needed for the defense of our nation in time of crisis; but, in the process, it also develops the kind of Leader or Junior Executive or manager needed in every field of civilian endeavor.

MS III (MS 301-MS 302). Meets for three hours per week. All students are required to attend a two hour leadership lab once per week. In addition, students are required to attend physical training lab three times per week for 1 hour per session. Three training activities off campus will be scheduled during the school year.

MS IV (MS 401-MS 402). Meets for three hours per week. All students are required to attend a two-hour leadership lab once per week. In addition, students are required to attend physical training lab three times per week for 1 hour per session. Three training activities off campus will be scheduled during the school year.

Simultaneous Membership Program

The simultaneous membership program option combines the Army ROTC with membership in the Army Reserve or Army National Guard and allows the student to receive pay from both programs. ROTC Cadets serve as officer trainees in direct leadership/management positions. Simultaneous membership program participation with National Guard or Reserve forces is one weekend per month and two weeks each year.

Branch Selection

The curriculum of the Army ROTC program is designed to qualify the Cadet for appointment as an officer. Selection for assignment to the various branches of the Army is based upon the personal interests of the Cadet, the major course of study, academic accomplishments, leadership potential, and the needs of the service through the Talent Based Management System. Under this system a Cadet may be commissioned in any branch for which he or she is qualified and in which a need for officers exists. After graduation and commissioning, the officer will attend a service school for further specialized military training which will qualify him or her for the branch to which he or she is assigned.

ROTC Scholarship Program

See information provided in the chapter on financial aid.

Army ROTC Scholarships

These competitive scholarships are awarded solely on potential rather than financial need and cover the costs of tuition, fees, and a flat-rate fee for books, supplies and equipment (published annually by HQ USACC) plus a monthly stipend of \$420. Four-year scholarships are available to designated freshmen, who applied and were selected during their senior year in high school. Three and two-year scholarships are available to eligible students, enrolled in the ROTC program. Two-year undergraduate or graduate school scholarships are available to students who successfully complete Basic Camp. For members of the Army Reserves and National Guard, ROTC has Guaranteed Reserve Forces Duty Scholarships (GRFD) providing the same benefits listed above.

Activities

In an effort to develop maximum leadership qualities among cadets, the following organizations and activities are sponsored by ROTC as an integral part of the Army Cadet Corps:

- Color Guard: The official color guard for the University of South Alabama. Present the colors for USA and civic organizations in Mobile.
- Ranger Challenge: Students are trained in small-unit tactics and participate in ranger-type operations and competitions.
- Running Club: Participation is open to all students. Runs from 3k to 26.2 mile marathons and triathlons.
- Scabbard and Blade: Honor Society for Cadets. Cadets must meet national requirements to be a member.

Academic Credit

Academic credit is granted for the completion of Military Science course requirements as follows:

Basic Course 1st Year (MS 101-MS 102)
1st and 2nd Semester - 1 hour each - Total 2

Basic Course 2nd Year (MS 201-MS 202)

1st and 2nd Semester - 3 hours each - Total 6 (Basic Camp in lieu of Basic Course) (6)

Advanced Course 1st Year (MS 301-MS 302)
1st and 2nd Semester - 3 hours each - Total 6

Advanced Course 2nd Years (MS 401-MS 402) 1st and 2nd Semester - 3 hours each - Total 6

Auditing

Students who do not meet qualifications for Army contracting and commissioning may be allowed to audit a Military Science course. Students desiring to audit must receive the permission of the department chair. Auditing students may not participate in drill, marching, leadership laboratory, field training exercises, voluntary programs, or attend basic or advanced camp.

Requirements for a Commission as a Second Lieutenant in the United States Army

Students desiring a commission must complete a minimum of 23 hours of course work to include:

1. 20 hours of Military Science, including
 - a. MS 101 and MS 102;
 - b. MS 201 and MS 202;
 - c. Students can receive placement credit for the 100- and 200-level courses for prior military service, Junior ROTC, ROTC Basic Camp, and equivalent military training with PMS approval;
 - d. MS 301 and MS 302;
 - e. MS 401 and MS 402.
2. A 3 hour Military History Course (per approval from the PMS).
3. In addition to the required courses, students must contract and attend the ROTC Advance Camp for 33 days of training between the junior and senior year.

Degrees, Programs, or Concentrations

- Military Science Minor (p. 262)

Courses

MS 101 Introduction to the Army 1 cr

An introductory course on the Army and basic Soldier skills. Introduces Cadets to the Army and the Profession of Arms. Students are encouraged to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session and a 2 hour leadership lab every other week.

MS 102 Foundations of Leadership 1 cr

Introduces Cadets to the personal challenges and competencies that are critical for effective leadership. Students are encouraged to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session and a 2 hour leadership lab every other week.

MS 201 Leadership and Ethics 3 cr

Focuses on leadership and ethics. The course adds depth to the Cadets knowledge of the different leadership styles. Cadets will conduct a leadership analysis of famous leaders and self-assessment of their own leadership style. Students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session and a 2 hour leadership lab every other week.

Prerequisite: MS 101 Minimum Grade of C and MS 102 Minimum Grade of C

MS 202 Army Doctrine 3 cr

A further development of common task and leadership skills required to prepare cadets to lead small military units. Focuses on Army doctrine and decision making. The course begins with analytical techniques, creative thinking skills and the Army problem solving process as related to situations faced by leaders when making decisions. Students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session and a 2 hour leadership lab every other week.

Prerequisite: (MS 101 (may be taken concurrently) Minimum Grade of C and MS 102 (may be taken concurrently) Minimum Grade of C)

MS 301 Training Management 3 cr

Focuses on training management and the warfighting functions. It is an academically challenging course where you will study, practice, and apply the fundamentals of Training Management and how the Army operates through the Warfighting functions. Cadets also conduct physical fitness training three times per week focusing on development of individual flexibility, muscular strength, and cardio-respiratory endurance. Students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session and a 2 hour leadership lab every week. Contact Hour Distributions: 3 hours and 1 lab.

MS 302 Applied Leadership 3 cr

Focuses on applied leadership in small unit operations. It is an academically challenging course where you will study, practice, and apply the fundamentals of direct level leadership and small unit tactics at the platoon level. They also conduct military briefings and develop proficiency in the operational orders process. Cadets also conduct physical fitness training three times per week focusing on development of individual flexibility, muscular strength, and cardio-respiratory endurance. Students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session and a 2 hour leadership lab every week.

Prerequisite: MS 301 Minimum Grade of C

MS 401 The Army Officer 3 cr

Focuses on development of the Army Officer. It is an academically challenging course where you will develop knowledge, skills and abilities to plan, resource, and assess training at the small unit level You will also learn about Army programs that support counseling subordinates and evaluating performance, values and ethics, career planning, and legal responsibilities. In addition, MSL IVs are rotated through a variety of leadership positions that support a variety of ROTC battalion training and recruiting events throughout the semester where the MSL IV student will receive detailed and constructive feedback on their leader attributes and core leader competencies from experienced cadre. Students are required to attend Physical Training (PT) Lab three (3) times per week for 1 hour per session and a 2 hour leadership lab every week.

Prerequisite: MS 301 Minimum Grade of C and MS 302 Minimum Grade of C

MS 402 Company Grade Leadership 3 cr

This course is an academically challenging course where you will develop knowledge, skills, and abilities required of junior officers pertaining to the the Army in Unified Land Operations and Company Grade Officer roles and responsibilities. Additionally, it will discuss platoon leadership, how to take charge of your platoon and the additional duties you may have as a 2LT. Students will continue to examine the Army Profession and what it means to be a professional in the U.S. Army. The overall focus is on broadening the students knowledge of the Army.

Prerequisite: MS 401 Minimum Grade of B

MS 494 Directed Studies 1-3 cr

Directed study and research. May be repeated in different subject areas. Course work will be specified by the instructor prior to the beginning of the semester. Studies may include but are not limited to research papers, special projects, and leadership seminars. One and three hour courses are available.

Military Science Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Military Science

Completion of the 20 semester hours of MS course work and one military history elective (3) are required for a minor in Military Science. Placement credit may be awarded for the Basic Course for prior military service, attendance at ROTC Leadership Training Course, or three or four years of JROTC. Students who are already commissioned officers are not eligible to receive a minor in military science. Non-contracted students are not eligible to receive a minor in Military Science.

Code	Title	Hours

HY 437	Modern US II Since 1945 - W	

Faculty

Modern Languages and Literature

Department Information

Department of Modern Languages and Literature website
<http://southalabama.edu/colleges/artsandsci/languages/>

The department contributes to the liberal education of all students by helping them to improve their ability to communicate with and understand other cultures in an increasingly interdependent world. Language study provides direct insight into other ways of thinking and perceiving reality, and enables a fresh perspective on students' own language and culture. The department offers a major in Modern Languages and Literature with concentrations in French, German, Russian, and Spanish. Minors in those four languages, as well as a Minor in Chinese and a Minor in Applied Linguistics, are available. An interdisciplinary Minor in Classical Studies is offered in cooperation with the Philosophy Department. Introductory and intermediate level courses in Arabic, ASL, Classical and Modern Greek, Italian, Japanese, Korean, Latin and Portuguese are also provided.

In the first-year sequences (Introductory) the student is given a basic foundation in listening, speaking, reading, and writing. Typically, the emphasis is on listening and oral practice followed by development of reading and writing skills. The second-year courses (Intermediate) build upon the skills acquired in the first year. Upper-level courses provide students with more in-depth knowledge of the countries' language, culture, literature and history. Students with previous language training will be placed at the appropriate level.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Retroactive Credit Policy

Our beginning classes are designed for true beginners of the language. Students with previous experience in a language (from high school, the military, or family) are encouraged to take the online language placement exam to determine their appropriate level. Students who place into the second semester of the introductory sequence (or higher) may qualify

for retroactive credit. By earning a "C" or better in the higher-level course the student may petition the department for either 3 or 6 semester hours of introductory-level credit. No credit is given for the placement test, itself. Native speakers are not eligible for retroactive credit, however they may be exempted from any language requirements. Please contact the department for details.

Lesser Taught Languages Program (LTLS)

Besides its four main languages, the Department also offers four semesters of instruction for several other languages as part of its Lesser Taught Languages Program. LTLS classes meet three times a week and are conducted by native-speaker coaches. Mid-term and final student performance evaluations are administered by nationally certified external examiners. As in all language classes, success in these courses requires a high degree of motivation, self-discipline, and a long-term commitment to developing oral/aural proficiency in the target language. Students must be willing to assume responsibility for learning appropriate listening and speaking skills. Before enrolling in a LTLS course students are urged to discuss course requirements and testing procedures with the program coordinator. Call (251) 460-6291 for more information.

Graduate Studies

Although the Department of Modern and Classical Languages and Literature has no graduate degree program, graduate-level course work is offered in several languages under the rubrics of "Special Topics," "Seminar," and "Directed Studies" in conjunction with completing requirements in the Alternative or Innovative Master of Education Programs.

Degrees, Programs, or Concentrations

- Applied Linguistics Minor (p. 271)
- Chinese Minor (p. 272)
- French Minor (p. 272)
- German Minor (p. 272)
- Modern Languages and Literature (BA) - French Concentration (p. 272)
- Modern Languages and Literature (BA) - German Concentration (p. 274)
- Modern Languages and Literature (BA) - Russian Concentration (p. 275)

- Russian Minor (p. 277)
- Spanish Minor (p. 277)

Courses

Foreign Languages and Lit (LG)

LG 101 Introductory Latin I 3 cr

Introductory Latin I is the first half of a two-course sequence in Classical Latin. The goal of the courses is to achieve basic proficiency in understanding and reading Latin and to acquire a basic knowledge of Roman customs, history and culture.

LG 102 Introductory Latin II 3 cr

Introductory Latin II is the second half of a two-course sequence in Classical Latin. The goal of the courses is to achieve basic proficiency in understanding and reading Latin and to acquire a basic knowledge of Roman customs, history and culture.

Prerequisite: LG 101 Minimum Grade of D

LG 110 World Languages 3 cr

The general aim of this introductory-level course is to ground students in a basic understanding of the social, political, economic and cultural realities of language around the globe, including the importance of mastering one or more languages other than one's native tongue. Students taking the course will profit from an understanding of language value in the global marketplace and will gain new insight into their own native language through a brief examination of the structures of several of the world's major languages. The course may feature guest presenters and will also discuss techniques of language acquisition.

LG 111 Introductory French I 3 cr

The first of a two-semester sequence in introductory French. The goal of the two-semester sequence is to achieve a basic proficiency in understanding, speaking, reading, and writing French, and to acquire basic knowledge of French-speaking cultures. Core Course.

LG 112 Introductory French II 3 cr

The second semester of the introductory course. Core Course.

Prerequisite: LG 111 Minimum Grade of D

LG 121 Introductory Chinese I 3 cr

First half of the first-year sequence in Modern Standard Mandarin Chinese. Develops speaking, listening, reading and writing equally. Builds a solid foundation in pronunciation, syntax & vocabulary. Students will be able to hold simple conversations at the end.

Cross-Listed: LGS 121

LG 122 Introductory Chinese II 3 cr

Second half of the first-year sequence in Modern Standard Mandarin Chinese. Develops speaking, listening, reading and writing equally. Builds a solid foundation in pronunciation, syntax & vocabulary. Students will be able to hold simple conversations at the end.

Prerequisite: LG 121 Minimum Grade of D

Cross-Listed: LGS 122

LG 131 Introductory Spanish I 3 cr

The first of a two-semester sequence in introductory Spanish. The goal of the two-semester course is to achieve a basic proficiency in communication in Spanish through the development of listening, speaking, reading, and writing skills. Core Course.

LG 132 Introductory Spanish II 3 cr

The second semester of the introductory course. Core course.

Prerequisite: LG 131 Minimum Grade of D

Cross-Listed: LG 134

LG 141 Intro Classical Greek I 3 cr

Introductory Classical Greek I is the first half of a two-course sequence in Classical Greek. The goal of the courses is to achieve basic proficiency in understanding and reading Greek and to acquire a basic knowledge of ancient Greek customs, history, and culture.

LG 142 Intro Classical Greek II 3 cr

Introductory Classical Greek II is the second half of a two-course sequence in Classical Greek.

Prerequisite: LG 141 Minimum Grade of C

LG 151 Introductory German I 3 cr

The first of a two-semester sequence in introductory German. The goal of the two-semester course is to achieve a basic proficiency in understanding, speaking, reading, and writing German, and to acquire basic knowledge of German-speaking cultures. Core Course.

Cross-Listed: LG 153

LG 152 Introductory German II 3 cr

The second semester of the introductory course. Core Course.

Prerequisite: LG 151 Minimum Grade of D

LG 153 Accelerated Intro German 6 cr

A one-semester intensive first-year course for highly motivated students. This course covers the material taught in LG 151 and LG 152 and satisfies the Arts and Sciences Foreign Language requirement. By permission of instructor. Core Course.

Cross-Listed: LG 151, LG 152

LG 171 Introductory Russian I 3 cr

The first of a two-semester sequence in Introductory Russian. The goal of the two-semester course is to achieve a basic proficiency in understanding, speaking, reading, and writing Russian. Core Course.

LG 172 Introductory Russian II 3 cr

The second semester of the introductory course. Core course.

Prerequisite: LG 171 Minimum Grade of D

LG 173 Accelerated Intro Russian 6 cr

A one-semester intensive first-year course for highly motivated students with prior instruction in a foreign language (either high school or college level) with a B average or better. This course covers material taught in LG 171 and 172 and satisfies the Arts and Sciences foreign language requirement. By permission of the instructor. Usually taught in the Spring semester. Fees.

Cross-Listed: LG 172

LG 190 Sp Top - 1-3 cr

Topics to be determined by student need and interest. Course may be repeated when content varies for a total of 12 credit hours.

LG 193 Study Abroad 1-6 cr

This course is an introductory language and culture course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

LG 201 Intermediate Latin I 3 cr

The first of a two-semester sequence in intermediate Latin. The course is a continuation of the study necessary to achieve fluency in reading, understanding, and translating Classical Latin. A comprehensive review of grammar is accompanied with the presentation of material beyond the scope of Introductory Latin I and II. All texts for reading and translation are presented in the original classical texts, unabridged and complete. Emphasis on the development of the periods of classical Roman literature as well as pertinent events in Roman history and culture.

Prerequisite: LG 102 Minimum Grade of C

LG 202 Intermediate Latin II 3 cr

The second of a two-semester sequence in intermediate Latin.

Prerequisite: LG 201 Minimum Grade of C

LG 205 Modern Lit in Translation 3 cr

A varying-content course designed to introduce the student to selected major works of one language other than English. Works from English-speaking countries may occasionally be used for the purpose of cross-cultural comparison. The student may choose from a number of specific topics that will be designated prior to each semester. All readings and discussions are in English. May be repeated for credit when course content varies. Foreign Language majors wishing to have one or several of these courses count toward their major must seek prior approval from their advisor.

Prerequisite: (EH 102 Minimum Grade of B or EH 105 Minimum Grade of B)

LG 211 Intermediate French I 3 cr

The first of a two-semester sequence in intermediate French.

A continuation of the training necessary to achieve fluency in understanding, speaking, reading and writing French. A comprehensive grammar review is complemented by elaboration of grammatical topics and lexical development beyond the scope of Introductory French I and II. Readings of literary and cultural texts treating French-speaking areas of the world. Emphasis on fluency in conversation and cultural fluency through class discussion of both written and recorded texts from the Francophone world. Core Course.

Prerequisite: (LG 112 Minimum Grade of C or LG 113 Minimum Grade of C)

LG 212 Intermediate French II 3 cr

The second semester of the intermediate sequence. Core Course.

Prerequisite: LG 211 Minimum Grade of C

Cross-Listed: LG 213

LG 213 Accelerated Inter French - H 4 cr

A one-semester intensive intermediate course for students who have successfully completed LG 113 (Accelerated Introductory French-Honors), or the equivalent. This course covers material taught in LG 211 and 212. Usually taught in the Spring semester. By permission of instructor.

Prerequisite: LG 112 Minimum Grade of C or LG 113 Minimum Grade of C

Cross-Listed: LG 212

LG 221 Intermediate Chinese I 3 cr

First half of the second-year sequence in Modern Standard Mandarin Chinese. Furthers communicative competence in all aspects of language learning: listening, speaking, reading and writing. Students will be able to write essays at the end.

Prerequisite: LG 122 Minimum Grade of D

Cross-Listed: LGS 221

LG 222 Intermediate Chinese II 3 cr

Second half of the second-year sequence in Modern Standard Mandarin Chinese. Furthers communicative competence in all aspects of language learning: listening, speaking, reading and writing. Students will be able to write essays at the end.

Prerequisite: LG 221 Minimum Grade of D

Cross-Listed: LGS 222

LG 231 Intermediate Spanish I 3 cr

The first of a two-semester sequence in intermediate Spanish. A continuation of the training necessary to achieve fluency. Grammar review, class discussions, extensive oral and written work, short readings in literature and culture are included. Core Course.

Prerequisite: (LG 132 Minimum Grade of C or LG 133 Minimum Grade of C or LG 134 Minimum Grade of C)

LG 232 Intermediate Spanish II 3 cr

The second semester of the intermediate sequence. Core Course.

Prerequisite: LG 231 Minimum Grade of C

Cross-Listed: LG 234

LG 234 Inter Spanish Accel -H 6 cr

A one-semester intensive intermediate course for students who have successfully completed LG 134 (Accelerated Introductory Spanish), or the equivalent. This course covers the material taught in LG 231 and 232. Core Course. By permission of the instructor.

Prerequisite: (LG 132 Minimum Grade of C or LG 133 Minimum Grade of C or LG 134 Minimum Grade of C)

Cross-Listed: LG 232

LG 241 Interm Classical Greek I 3 cr

The first of a two-semester sequence in intermediate Classical Greek. The course is a continuation of the study necessary to achieve fluency in reading, understanding and translating Classical Greek. A comprehensive review of grammar is accompanied with the presentation of material beyond the scope of Introductory Classical Greek I and II. All texts for reading and translation are presented in the original classical texts, unabridged and complete. Emphasis on the development of the periods of classical Greek literature as well as pertinent events in Greek history and culture.

Prerequisite: LG 142 Minimum Grade of C

LG 242 Interm Classical Greek II 3 cr

The second of a two-semester sequence in intermediate Classical Greek.

Prerequisite: LG 241 Minimum Grade of C

LG 251 Intermediate German I 3 cr

The first of a two-semester sequence in Intermediate German. A continuation of the training necessary to achieve fluency in understanding, speaking, reading, and writing German. Reading of literary, cultural, and historical texts. Class discussions, reports in German, both oral and written, are required. Core Course.

Prerequisite: (LG 152 Minimum Grade of C or LG 153 Minimum Grade of C)

LG 252 Intermediate German II 3 cr

The second semester of the intermediate sequence. Core Course.

Prerequisite: LG 251 Minimum Grade of C

LG 271 Intermediate Russian I 3 cr

The first of a two-semester sequence in intermediate Russian. A continuation of the training necessary to achieve fluency and understanding in speaking, reading, and writing Russian. Reading of literary and cultural texts. Increased practice in Russian conversation. Core Course.

Prerequisite: (LG 172 Minimum Grade of C or LG 173 Minimum Grade of C)

LG 272 Intermediate Russian II 3 cr

The second semester of intermediate Russian. Core Course.

Prerequisite: LG 271 Minimum Grade of C

LG 273 Intensive Second Year Russian 4 cr

A one-semester intensive Second Year course for students who have successfully completed the LG 171 and 172 sequence or LG 173 (Intensive First Year Russian). This course covers material taught in LG 271 and 272. By permission of instructor.

Prerequisite: LG 171 Minimum Grade of C and LG 172 Minimum Grade of C or LG 173 Minimum Grade of C

LG 283 Chinese HY in Film and Lit 3 cr

This course will introduce students to major topics in Chinese history, covering both ancient periods such as the Three Kingdoms period, and twentieth-century events such as the war with Japan and the Cultural Revolution. Post-Tiananmen Chinese society will also be stressed. Students will explore these themes through Chinese film and literature, and will thus become familiar with major directors, including Zhang Yimou and Jia Zhangke, and writers such as Yu Hua.

Cross-Listed: CA 283, HY 283

LG 290 Sp Top - 1-3 cr

Topics to be determined by student need and interest. Course may be repeated when content varies for a total of 12 hours.

LG 293 Study Abroad 1-6 cr

This course is an introductory language and culture course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

LG 305 Studies in Gender and Writing 3 cr

A varying-content course that provides an in-depth study of gender-related questions in a literary and cross-cultural context. Unless otherwise indicated, all readings and discussions are in English. May be repeated for credit for a total of nine hours when course content varies. Foreign Language majors wishing to have one or several of these courses count toward their major must seek prior approval from their advisor.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

LG 311 Survey French Lit Culture I 3 cr

The first part of a two-semester course that deals with the major periods of French culture. Readings of representative works from the Middle Ages through the Eighteenth Century. In French.

Prerequisite: (LG 212 Minimum Grade of C or LG 213 Minimum Grade of C)

LG 312 Survey French Lit Culture II 3 cr

The second part of a two-semester course that deals with the major periods of French culture. Readings of representative works from the Nineteenth and Twentieth Centuries. In French.

Prerequisite: (LG 212 Minimum Grade of C or LG 213 Minimum Grade of C)

LG 314 Advanced French Conversation 1 cr

Intensive conversation with practice using various levels of the spoken language from slang to formal speech. Emphasis on the sounds and idioms of French. The course meets one hour per week with the instructor and one hour per week for a lab session, often with a native speaker. The content of this course will vary over four consecutive semesters. This course may be repeated for a maximum of four credits.

Prerequisite: LG 212 Minimum Grade of C or LG 213 Minimum Grade of C

LG 321 Advance Chinese I 3 cr

First half of the third-year sequence in Modern Standard Mandarin Chinese. By the end, the students will be able to hold a sustained conversation, and read and write informal essays of a substantial length.

Prerequisite: LG 222 Minimum Grade of D

LG 322 Advanced Chinese II 3 cr

Second half of the third-year sequence in Modern Standard Mandarin Chinese. By the end, the students will be able to hold a sustained conversation, and read and write informal essays of a substantial length.

Prerequisite: LG 321 Minimum Grade of D

LG 324 Literary Chinese 3 cr

Introduces advanced learners of modern Chinese Mandarin to the set expressions, vocabulary, and grammar of literary Chinese that continues to be used today. By the end students are better equipped for reading formal writing in modern Chinese.

Prerequisite: LG 222 Minimum Grade of D or LGS 202 Minimum Grade of D or LGS 272 Minimum Grade of D

LG 326 Adv French Grammar-Conversatn 3 cr

Comprehensive review of French grammar coupled with weekly practice in conversation using various levels of the spoken language from slang to formal speech. Emphasis on vocabulary acquisition and mastering the more complex features of French grammar.

Prerequisite: (LG 212 Minimum Grade of C or LG 213 Minimum Grade of C)

LG 327 Adv French Comp-Conversatn - W 3 cr

Intensive course in writing French coupled with oral presentations and activities designed to enhance the student's command of the language.

Prerequisite: LG 212 Minimum Grade of C or LG 213 Minimum Grade of C

LG 333 Spanish Conversatn-Comp 3 cr

Extensive oral and written work through a variety of activities to review and reinforce acquired language skills, emphasizing vocabulary acquisition and fluency in the language.

Prerequisite: (LG 232 Minimum Grade of C or LG 234 Minimum Grade of C)

LG 334 Adv Spanish Grammar-Comp - W 3 cr

Extensive study of major aspects of Spanish grammar with emphasis on increasing proficiency in the four language skills. Special emphasis is placed on descriptive and narrative writing.

Prerequisite: LG 232 Minimum Grade of C or LG 234 Minimum Grade of C

LG 335 Commercial-Technical Spanish 3 cr

Advanced course in written and spoken business and technical Spanish. Emphasis on writing proficiency in various aspects of business, government, technical and general commercial writing. Development of related speaking skills for commerce. Note: This course cannot be counted toward fulfilling degree requirements for B.A. concentration in Spanish.

Prerequisite: LG 333 Minimum Grade of C or LG 334 Minimum Grade of C

LG 336 Intro Textual Analys Hisp Lit 3 cr

Introductory course to literary analysis, literary and critical terminology, and genres as they appear in short works from both Spain and Latin America.

Prerequisite: LG 232 Minimum Grade of D or LG 234 Minimum Grade of D

LG 337 Spanish for Medical Prof 3 cr

LG 337 is designed for the advanced language student interested in further developing his/her linguistic proficiency in Spanish while acquiring terminology useful to the health care professional. In addition, the course affords the student an opportunity to gain insight into the health care needs of the non-English speaking Hispanic population in the U.S., as well as to begin understanding in general terms its diverse cultural milieu. The course is highly interactive and is conducted in its entirety in the target language. Note: This course cannot be counted toward fulfilling degree requirements for B.A. concentration in Spanish.

Prerequisite: LG 333 Minimum Grade of B and LG 334 Minimum Grade of B

LG 338 Spanish for Legal Professions 3 cr

Spanish for Legal Professionals introduces students to legal Spanish language as well as topics about the nature and functioning of law in the Spanish-speaking world and, in this country, the impact of the US legal system on the US-Hispanic population.

Prerequisite: LG 232 Minimum Grade of B or LG 333 Minimum Grade of C or LG 334 Minimum Grade of C or LG 335 Minimum Grade of C or LG 336 Minimum Grade of C

LG 348 19th C Cntl Phil-Lit Theory 3 cr

An examination of selected themes and issues in 19th Century Continental Philosophy and Literary Theory. Topics may include Idealism, Romanticism, Existentialism, Marxism, Freudianism. Identical with PHL 348 and EH 348. Credit cannot be received for both LG 348 and either PHL 348 or EH 348. (For LG credit, students will be required to do some coursework in their language of concentration.)

Cross-Listed: EH 348, PHL 348

LG 349 20th C Cntl Phil-Lit Theory 3 cr

An examination of selected themes and issues in 20th Century Continental Philosophy and Literary Theory. Topics may include Phenomenology, Existentialism, Hermeneutics, Structuralism, and Post-Structuralism. Identical with PHL 349 and EH 349. Credit cannot be received for both LG 349 and either PHL 349 or EH 349. (For LG credit, students will be required to do some coursework in their language of concentration.)

Cross-Listed: EH 349, PHL 349

LG 351 Mythen, Marchen and Musik 3 cr

In this course we will critically examine some of the myths and legends that form the foundation of some of Germanic civilization's most powerful cultural artifacts. By examining artistic interpretations and reinterpretations of these myths, we will come to a deeper understanding of the foundational role they play in German culture. Among the myths, legends and fairy tales we will consider are that of the hero Siegfried, the Faust myth, and the legend of Kaspar Hauser. Further, through a dialectic examination of how these myths are presented in text and music, students in this course will come to a deeper understanding of the importance of music to the totality of German culture. Composers whose work will be considered include Mozart, Beethoven, Mendelssohn and Wagner. This course will be conducted in German.

Prerequisite: LG 252 Minimum Grade of C

LG 352 Crisis, Change, Transformation 3 cr

This course explores how literature reflects various crises in the German-speaking world-cultural, linguistic, social, and political. Various literary forms, including short stories, novellas, and poems from the Middle Ages through the 21st century, will allow us to explore the source of the crisis as well as the proposed solutions, tracing these themes over the centuries. We will look at these crucial turning points, focusing on some key questions: What defines a crisis? Who (individual, family, group, nation) experiences it? How are these parties impacted? How do cultural or social or political norm shift? What kind of change, adjustment, or transformation is suggested in our text(s)? How does the crisis and/or its resolution later evolve? This course will be conducted in German.

Prerequisite: LG 252

LG 361 German Lit thru Classicism 3 cr

Origin and development of German Civilization (literature, thought, the arts, and society in a historical context) during the period of unification and industrialization, including Romanticism, Realism, Naturalism, and early Modernism. Extensive reading, class discussion, and oral and written reports in the language are required.

Prerequisite: LG 252 Minimum Grade of C or LG 253 Minimum Grade of C

LG 362 German Cult-Lit 19th Century 3 cr

Development of German civilization (literature, thought, the arts, and society in a historical context) during the period of unification and industrialization, including Romanticism, Realism, Naturalism, and early Modernism. Extensive readings, class discussions, and oral and written reports in the language are required.

Prerequisite: (LG 252 Minimum Grade of C or LG 253 Minimum Grade of C)

LG 363 Modern-Contemp German Cult-Lit 3 cr

Development of German civilization (literature, thought, the arts, and society in a historical context) from the early twentieth century through the present. Extensive readings, class discussions, and oral and written reports in the language are required.

Prerequisite: (LG 252 Minimum Grade of C or LG 253 Minimum Grade of C)

LG 364 Highlights German Cult-Lit 3 cr

A capstone course highlighting masterpieces of German literature and culture from a particular genre (e.g., the Novelle); a particular period or movement (e.g., Romanticism); an author or group of authors (e.g., Brecht); or a particular thematic focus. Extensive readings, class discussions, and oral and written reports in the language are required.

Prerequisite: LG 361 Minimum Grade of C or LG 362 Minimum Grade of C or LG 363 Minimum Grade of C

LG 366 Adv German Grammar 3 cr

Designed for the student who wishes to teach or do advanced work. Comprehensive study of formal grammar and structured practice in oral and written expression.

Prerequisite: (LG 252 Minimum Grade of C or LG 253 Minimum Grade of C)

LG 367 Advanced German Conversation 3 cr

Intensive conversation with practice in using various levels of the spoken language from slang to formal speech. Emphasis on the sounds and idioms of German. Students will gain familiarity with German cultural history, as well as contemporary political and popular culture. This course may be repeated for a maximum of six credits.

Prerequisite: (LG 251 (may be taken concurrently) Minimum Grade of C or LG 252 (may be taken concurrently) Minimum Grade of C)

LG 368 Adv German Composition - W 3 cr

Intensive course in writing German. Emphasis is on writing as a process, the communicative purposes of writing, and the development of critical reflection. Analysis of authentic texts and extensive practice in various genres of written German, including description, narrative, report, critical review, and interpretation.

Prerequisite: (LG 252 Minimum Grade of C or LG 253 Minimum Grade of C)

LG 370 Special Topics - 1-3 cr

Topics to be determined by student need and interest. Course may be repeated when content varies. A subtitle identifying the topic will be entered on the student's record.

Prerequisite: LG 212 (may be taken concurrently) Minimum Grade of C or LG 232 (may be taken concurrently) Minimum Grade of C or LG 252 (may be taken concurrently) Minimum Grade of C or LG 272 (may be taken concurrently) Minimum Grade of C

LG 372 Golden Age of Russian Lit - W 3 cr

A survey course designed to familiarize the student with the essential works of 19th century Russian literature. Students read and discuss works by Pushkin, Lermontov, Gogol, Dostoevsky, Turgenev, Tolstoy, and Chekhov. In English. Russian majors are required to read excerpts of works in Russian and to complete a course project in Russian.

Prerequisite: LG 272 Minimum Grade of C

LG 373 Intensive Third Year Russian 4 cr

A one-semester intensive Third Year course for students who have successfully completed the LG 271 and 272 sequence or LG 273 (Intensive Second Year Russian). This course is usually taught during the spring following LG 273, abroad during the summer or in the Fall following a semester abroad and acts as a bridge course. This course is meant to fill in any gaps in knowledge of Russian grammar before continuing to Advanced Grammar and Composition courses. Special attention is paid to nuances in Russian culture. By permission of instructor.

Prerequisite: LG 271 Minimum Grade of C and LG 272 Minimum Grade of C or LG 273 Minimum Grade of C

LG 374 Adv Russian Grammar 3 cr

A course designed to give students active control of the more complex features of Russian grammar. Structured practice in oral and written expression.

Prerequisite: LG 272 Minimum Grade of C

LG 375 Adv Russian Conversation 2 cr

Intensive conversation practice in using the various levels of modern spoken Russian. The course meets two hours per week. The content of this course will vary over eight consecutive semesters. This course may be repeated for a maximum of eight credits.

Prerequisite: LG 272 Minimum Grade of D

LG 376 Adv Russian Composition - W 3 cr

This course provides extensive practice in writing Russian. Students read, discuss, and write about texts which reflect the controversial and topical issues of the day.

Prerequisite: LG 272 Minimum Grade of C

LG 380 Russian Poetry 3 cr

Designed to enhance the student's overall command of spoken Russian through the study of Russia's rich poetic tradition. Russian poems and songs provide the basic materials for this course. Lectures, materials, and discussions in Russian.

Prerequisite: LG 272 Minimum Grade of C

LG 381 Russian Prose in Context 3 cr

A course designed to enhance the student's ability to read, translate, and discuss Russian texts. Students read works from both 19th and 20th century fiction, which they analyze both thematically and stylistically. Class work and assignments are geared towards increasing the student's vocabulary and understanding of Russian stylistics. All texts, lectures, and discussions in Russian.

Prerequisite: LG 272 Minimum Grade of C

LG 384 Japanese Film 3 cr

This course will introduce students to major themes in recent Japanese history, including samurai culture and other issues pertaining to social class, Westernization, the postwar family, sixties radicalism, and recent popular culture. Students will explore these themes through Japanese film and literature, and will thus become familiar with major directors, including Akira Kurosawa, Yasujiro Ozu and Juzo Itami, and novelists such as Junichiro Tanizaki and Yukio Mishima.

Cross-Listed: CA 284, HY 284, HY 384, LG 284

LG 390 Special Topics - 1-6 cr

Topics to be determined by student need and interest. Course may be repeated for a total of 12 hours.

Prerequisite: (LG 212 (may be taken concurrently) Minimum Grade of C or LG 213 (may be taken concurrently) Minimum Grade of C) or (LG 232 (may be taken concurrently) Minimum Grade of C or LG 234 (may be taken concurrently) Minimum Grade of C) or (LG 252 (may be taken concurrently) Minimum Grade of C or LG 253 (may be taken concurrently) Minimum Grade of C) or LG 272 (may be taken concurrently) Minimum Grade of C

LG 393 Study Abroad 1-6 cr

This course is an advanced language and culture course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

LG 394 Dir St PreStudy Abrod - 1 cr

Working under the direction of their faculty advisor, language majors will prepare for their required study abroad experience through an examination of selected country-specific readings as well as cross-cultural orientation materials. Prerequisite: completion of intermediate sequence in student's concentration or equivalent.

Prerequisite: (LG 212 Minimum Grade of B or LG 213 Minimum Grade of B) or (LG 252 Minimum Grade of B or LG 253 Minimum Grade of B) or (LG 232 Minimum Grade of B or LG 234 Minimum Grade of B) or LG 271 Minimum Grade of B

LG 400 Applied Linguistics 3 cr

LG 400 is one of the required core classes for the Applied Linguistics minor. The course introduces linguistics concepts to the students and gives them the foundation needed for the higher level classes required as part of the minor. Required core course. Pre-requisite: LG/LGS 200-level sequence with a C or better and sophomore standing.

Prerequisite: LG 200 (may be taken concurrently) Minimum Grade of C or LGS 200 (may be taken concurrently) Minimum Grade of C

LG 412 Readings Francophone Lit 3 cr

Study of the literature of the Francophone world, including West and North Africa, the Caribbean, and Quebec, in their cultural and historical context.

Prerequisite: (LG 311 Minimum Grade of C or LG 323 Minimum Grade of C) or (LG 312 Minimum Grade of C or LG 325 Minimum Grade of C)

LG 415 Readings in the French Novel 3 cr

Study of the development of the novel in French from the romantic period through the contemporary novel.

Prerequisite: (LG 311 Minimum Grade of C or LG 323 Minimum Grade of C) or (LG 312 Minimum Grade of C or LG 325 Minimum Grade of C)

LG 416 Identites Francaises 3 cr

Study of how different minority groups have been represented and have represented themselves in Nineteenth and Twentieth Century French and Francophone literature, essays, and film.

Prerequisite: (LG 311 Minimum Grade of C or LG 323 Minimum Grade of C) or (LG 312 Minimum Grade of C or LG 325 Minimum Grade of C)

LG 431 Hispanic Civilizations 3 cr

In-depth study of various aspects of Hispanic civilization and its contribution to world culture; emphasis upon on geographical, historical, social, political and artistic forces. Extensive class discussion, oral and written reports in the language are required.

Prerequisite: LG 333 Minimum Grade of C or LG 334 Minimum Grade of C or LG 336 Minimum Grade of C

LG 432 Rdgs in Spanish Literature 3 cr

Representative readings reflecting major literary movements and cultural events in Spain. Extensive class discussion, oral and written reports are required.

Prerequisite: LG 333 Minimum Grade of C or LG 334 Minimum Grade of C or LG 336 Minimum Grade of C

LG 433 Rdgs in Latin Amer Literature 3 cr

Representative readings reflecting major literary movements and cultural events in Latin America. Extensive class discussions, oral and written reports are required.

Prerequisite: LG 333 Minimum Grade of C or LG 334 Minimum Grade of C or LG 336 Minimum Grade of C

LG 451 The Aesthetic Lens 3 cr

In this course we will examine the tectonic shifts in German culture and history from the founding of the Weimar Republic to the present through the lens of lyric poetry and film. For each major period—the Weimar Republic: National Socialism and Second World War; the postwar period; the rise and fall of the Berlin Wall; Reunification—we will study the major poetic voices and two films both on their own aesthetic merits and relative to the historical contexts within which they were produced. We will also analyze the relationship between these works of art and the historical context in which they were produced. This class will be conducted in German.

Prerequisite: LG 366 Minimum Grade of C and LG 367 Minimum Grade of C and LG 368 Minimum Grade of C

LG 452 Love, Friendship and Family 3 cr

Representative readings addressing the concepts of love, friendship and family in German literature over a range of historical periods.

Prerequisite: LG 366 Minimum Grade of C or LG 367 Minimum Grade of C or LG 368 Minimum Grade of C

LG 480 Senior Seminar - W 3 cr

This course is designed to broaden and enhance the study-abroad experience and to serve as a capstone to the foreign-language major. Building on the study-abroad experience, students will (1) contextualize their experience through readings, (2) continue their experience by maintaining consistent contact with the target culture, and (3) communicate their experience and their enhanced understanding of topics such as culture shock, culture stereotypes, cultural metaphors, and cross cultural comparisons of behavior and mind-set. Classes will consist of lectures, discussions of readings, and a major research paper and public presentation of their research. Capstone Course. Prerequisite: completion of the Study Abroad requirement.

Prerequisite: EH 102 Minimum Grade of C and IS 391 Minimum Grade of S

LG 490 Special Topics - 1-6 cr

Topics to be determined by student need and interest. Course may be repeated when content varies. A subtitle identifying the topic will be entered on the student's record.

LG 492 Seminar - 1-3 cr

A course designed for advanced students to pursue a special topic in depth through readings, critical discussions, and delivery of a seminar paper. This course may be repeated for a maximum of 6 credits. Prerequisite: Normally limited to juniors and seniors.

LG 493 Study Abroad 1-6 cr

This course is an advanced language and culture course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

LG 494 Directed Studies- 1-3 cr

Directed study under the supervision of a member of the foreign language faculty. This course may be repeated for a maximum of 6 credits. Requires permission of department chair.

LG 496 Internship - Foreign Languages 1-9 cr

Supervised professional work with mandatory reading list and written report. This course may be repeated for a maximum of nine credits. Prerequisites: Permission of the Department Chair is required.

LG 499 Honors Senior Project - H 3-6 cr

Under the advice and guidance of a faculty mentor Honors Students will identify and carry out a research project, relevant to the field of foreign language study, that will lead to a formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three faculty chaired by the honors mentor.

LG 511 Intro Span for Health Profs 3 cr

LG 511 trains healthcare professionals to effectively serve Spanish-speaking patients. Learners will acquire a sustained novice mid/novice high level of proficiency in understanding, speaking, reading, and writing Spanish for the medical field.

Cross-Listed: GIS 511

LG 512 Inter Span for Health Profs 3 cr

LG 512 expands learners' Spanish language skills through a range of assignments related to healthcare and Spanish-speaking populations.

Prerequisite: LG 511 Minimum Grade of C

Cross-Listed: GIS 512

LG 513 Adv Span for Health Profs 3 cr

LG 513 will develop learners' Spanish language skills and cultural competency through readings and discussions on topics related to healthcare delivery for Hispanic populations. Students will also acquire an advanced medical terminology in Spanish.

Prerequisite: LG 512 Minimum Grade of C

Cross-Listed: GIS 513

LG 514 Pract Span for Health Profs 3 cr

This practicum is the capstone for the Certificate in Spanish for Healthcare Professionals. Students will complete 45 hour clinical practicum at a USA-approved healthcare facility within the US or abroad.

Prerequisite: LG 513 (may be taken concurrently) Minimum Grade of C

Cross-Listed: GIS 514

LG 590 Sp Top - 1-3 cr

Topics to be determined by student need and interest. Content will vary. A subtitle identifying the topic will be entered on the student's record.

LG 592 Seminar - 1-3 cr

A course designed for graduate students to pursue a special topic in-depth with readings, critical discussion and delivery of a seminar paper.

LG 594 Directed Studies- 1,3 cr

Directed study under the supervision of a member of the Foreign Languages and Literatures faculty having Graduate Faculty status. This course may be repeated for a maximum of 15 credits. Prerequisite: Permission of department chair.

Foreign Lang Less Taught (LGS)**LGS 101 Introductory Japanese I 3 cr**

The first of a two-semester sequence in Introductory Japanese. The goal of the course is to introduce students to Japanese as it is spoken today. Emphasis on developing speaking and listening skills through intensive drills, exposure to basic structural patterns, and functional vocabulary. LGS 101 is a NASILP course. Core Course.

LGS 102 Introductory Japanese II 3 cr

A continuation of Japanese 101. Core Course.

Prerequisite: LGS 101 Minimum Grade of C

LGS 106 Introductory Arabic I 3 cr

The first of a two-semester sequence in Introductory Arabic. Its purpose is to introduce students to Arabic as it is spoken today. Emphasis on developing speaking and listening skills through intensive drills, exposure to basic structural patterns, and functional vocabulary. Study requires extensive use of audio-tapes. LGS 106 is a NASILP course. Core Course.

LGS 107 Introductory Arabic II 3 cr

A continuation of Arabic I. Core Course.

Prerequisite: LGS 106 Minimum Grade of C

LGS 110 Intro American Sign Language I 3 cr

The first of a two-semester sequence in introductory American Sign Language (ASL). The goal of the two semester course is to introduce students to ASL as it is used today. Emphasis is on developing skills in signing through intensive drills, exposure to basic ASL structural patterns and functional vocabulary. LGS 110 is a LTLs course.

LGS 111 Intro American Sign Lang II 3 cr

The second of a two-semester sequence in introductory ASL. The goal of the two-semester course is to introduce students to ASL as it is used today. Emphasis is on developing skills in signing through intensive drills, exposure to basic ASL structural patterns and functional vocabulary. LGS 111 is a LTLs course.

Prerequisite: LGS 110 Minimum Grade of C

LGS 171 Introductory Korean I 3 cr

LGS 171 is the first of a two semester sequence of Introductory Korean. The course develops speaking and listening skills, as well as reading and writing skills through intensive drills, exposure to basic structural patterns, and functional vocabulary. Core Course.

LGS 172 Introductory Korean II 3 cr

The second of a two-semester sequence in introductory Korean. The goal of the two-semester course is to introduce students to Korean as it is spoken today. Emphasis is on building upon skills learned in LGS 171 and developing speaking and listening skills through intensive drills, exposure to basic structural patterns and functional vocabulary. LGS 172 is an LTLs course. Core Course.

Prerequisite: LGS 171 Minimum Grade of C

LGS 201 Intermediate Japanese I 3 cr

The first of a two-semester sequence. A continuation of the training necessary to build fluency in understanding and speaking Japanese. LGS 201 is a NASLIP course. Core Course.

Prerequisite: (LGS 102 Minimum Grade of C or LGS 103 Minimum Grade of D)

LGS 202 Intermediate Japanese II 3 cr

A continuation of LGS 201. Core Course.

Prerequisite: LGS 201 Minimum Grade of C

LGS 206 Intermediate Arabic I 3 cr

The first of two-semester sequence in Intermediate Arabic. This is a continuation of Introductory Arabic II. It continues to develop speaking and listening skills as well as reading and writing skills through intensive drills, exposure to basic structural patterns, and functional vocabulary. Study requires extensive use of audio -tapes. Core course.

Prerequisite: (LGS 107 Minimum Grade of C or LGS 108 Minimum Grade of D)

LGS 207 Intermediate Arabic II 3 cr

A continuation of Intermediate Arabic I. Core Course.

Prerequisite: LGS 206 Minimum Grade of C

LGS 210 Intermediate ASL I 3 cr

The first of a two-semester sequence in intermediate ASL. This is a continuation of Introductory ASL II. It continues to develop signing and interpreting skills through intensive drills, exposure to the basic ASL structure patterns and functional vocabulary. LGS 210 is a LTL's course. Core Course

Prerequisite: LGS 111 Minimum Grade of C

LGS 211 Intermediate ASL II 3 cr

A continuation of Intermediate ASL I. LGS 211 is a LTLs course. Core Course

Prerequisite: LGS 210 Minimum Grade of C

LGS 271 Intermediate Korean I 3 cr

The first of a two-semester sequence. A continuation of the training necessary to build proficiency in understanding and speaking Korean. Core Course.

Prerequisite: LGS 172 Minimum Grade of C

LGS 272 Intermediate Korean II 3 cr

A continuation of Intermediate Korean I. Core Course.

Prerequisite: LGS 271 Minimum Grade of C

Linguistics (LNG)**LNG 300 Intro to Linguistics 3 cr**

LNG 300-Introduction to Linguistics is the introductory class for the Applied Linguistics minor. It will introduce linguistics concepts to the students and give them the foundation needed for the higher level classes required as part of the minor. Required core course. Prerequisite: Sophomore standing.

Prerequisite: (LG 201 (may be taken concurrently) Minimum Grade of C and LG 202 (may be taken concurrently) Minimum Grade of C) or (LG 211 (may be taken concurrently) Minimum Grade of C and LG 212 (may be taken concurrently) Minimum Grade of C) or (LG 231 (may be taken concurrently) Minimum Grade of C and LG 232 (may be taken concurrently) Minimum Grade of C) or (LG 241 (may be taken concurrently) Minimum Grade of C and LG 242 (may be taken concurrently) Minimum Grade of C) or (LG 251 (may be taken concurrently) Minimum Grade of C and LG 252 (may be taken concurrently) Minimum Grade of C) or (LG 271 (may be taken concurrently) Minimum Grade of C and LG 272 (may be taken concurrently) Minimum Grade of C) or (LGS 201 (may be taken concurrently) Minimum Grade of C and LGS 202 (may be taken concurrently) Minimum Grade of C) or (LGS 206 (may be taken concurrently) Minimum Grade of C and LGS 207 (may be taken concurrently) Minimum Grade of C) or (LGS 210 (may be taken concurrently) Minimum Grade of C and LGS 211 (may be taken concurrently) Minimum Grade of C) or (LGS 221 (may be taken concurrently) Minimum Grade of C and LGS 222 (may be taken concurrently) Minimum Grade of C) or (LGS 241 (may be taken concurrently) Minimum Grade of C and LGS 242 (may be taken concurrently) Minimum Grade of C) or (LGS 261 (may be taken concurrently) Minimum Grade of C and LGS 262 (may be taken concurrently) Minimum Grade of C) or (LGS 281 (may be taken concurrently) Minimum Grade of C and LGS 282 (may be taken concurrently) Minimum Grade of C)

LNG 305 History of Euro Languages 3 cr

LNG 305-History of European Languages is an elective class for the Applied Linguistics minor. It will introduce students to the emergence and development of the European Languages as we know them today, tracing their historical development from the beginning to the modern era. Elective course.

Prerequisite: LNG 300 Minimum Grade of C

LNG 306 Contemporary Poetry and Trans 3 cr

In this course, students will broaden their knowledge of contemporary poetry in either the Chinese, French, German, Russian or Spanish language and become conversant with translation theory. They will also begin to work towards expertise in the translation of this poetry into English.

Prerequisite: LG 212 Minimum Grade of C or LG 232 Minimum Grade of C or LG 252 Minimum Grade of C or LG 272 Minimum Grade of C or LG 273 Minimum Grade of C

LNG 400 Applied Linguistics 3 cr

LNG 400- Applied Linguistics is the second linguistics class for the Applied Linguistics minor. It will introduce Second Language Acquisition theory and concepts to the students and give them the theoretical foundation needed for the minor. This is the last required class of the Applied Linguistics minor. Required core course.

Prerequisite: LG 300 (may be taken concurrently) Minimum Grade of C

LNG 465 Foreign Lang Pedagogy 3 cr

LNG 465-Foreign Language Pedagogy is an elective class for the Applied Linguistics minor. It will introduce students to the theories and methodologies of the surrounding second language instruction, tracing their historical development of these methodologies from the beginning to the modern era. Elective course. Special Permission of the Instructor required to enroll in course.

Prerequisite: LNG 300 Minimum Grade of C and LNG 400 Minimum Grade of C

LNG 490 Special Topics- 3 cr

LNG 490-Special Topics is an elective class for the Applied Linguistics minor. A variety of topics can be covered in this class as determined by student interest and the discretion of the Director of Applied Linguistics Program. Elective course. LNG 300 and LNG 400 with a C or better.

Prerequisite: LNG 300 Minimum Grade of C and LNG 400 Minimum Grade of C

LNG 494 Directed Studies- 3 cr

LNG 494 - Directed Studies is an elective class for the Applied Linguistics minor. A variety of topics can be covered in this class as determined by student interest and the discretion of the Director of Applied Linguistics Program. Elective courses.

Prerequisite: LNG 300 Minimum Grade of C and LNG 400 Minimum Grade of C

LNG 496 Intern. Applied Ling 3 cr

LNG 496 - Internship in Applied Linguistics is an elective class for the Applied Linguistic minor. Allows Applied Linguistics students the opportunity for hands-on practice of the theories and methodologies learned as part of the Applied Linguistics minor. Elective course.

Prerequisite: LNG 465 Minimum Grade of C

LNG 500 Introduction to Linguistics 3 cr

Introduction to Linguistics will introduce Linguistics concepts to the students and give them the foundation needed for studies in applied linguistics.

Cross-Listed: LNG 300

LNG 510 Applied Linguistics 3 cr

Applied Linguistics will introduce second language acquisition theory and concepts to the students and give them the theoretical foundation needed for studies in applied linguistics.

Cross-Listed: LNG 400

Applied Linguistics Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Applied Linguistics

Applied Linguistics is an interdisciplinary field that investigates and offers solutions to language-related problems in the world. Applied linguistics relies on the theories and findings of linguistics, together with the experiences and needs of language users, to engage real-world issues at the intersections of language and society, language and education, and language and power. The Minor in Applied Linguistics exposes students to a field of study that allows them to think critically about the language

learning process, and to build a deeper understanding of how languages are both learned and taught successfully.

No more than 6 hours from the student's major can be counted towards the Minor in Applied Linguistics

Museums, institutions dedicated to the acquisition, preservation, study, and exhibition of works of artistic, historical, or scientific value, play an integral role in today's societies through the act of discovery and the preservation of knowledge of both the past and present. The Museum Studies Program, using an interdisciplinary approach (e.g. humanities, social sciences, visual arts), offers a minor that allows students to gain a firm understanding of the histories, theories and skills involved in museum work. The minor in Museum Studies provides basic preparation to enter the museum industry by introducing students to both the variety of roles played by museums in today's societies and the diversity of museum careers.

Degrees, Programs, or Concentrations

- Museum Studies Minor (p. 281)

Courses

African-American Studies (AFR)

AFR 101 Intro to African Amer Studies 3 cr

An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States.

College of Arts/Sciences (CAS)

CAS 100 First Yr Exp - 2 cr

A course for first-year students majoring in the College of Arts & Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

CAS 190 Special Topics - 1-3 cr

This variable content course deals with selected topics from any of the disciplines in the College of Arts and Sciences. Topics will focus on current and relevant issues and may contain a service-learning component. The course may be repeated for credit when the topic varies for a maximum of six credit hours.

Gerontology (GRN)

GRN 272 Gender and Aging 3 cr

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Gender Studies (GS)**GS 101 Intro to Gender Studies 3 cr**

This course provides an interdisciplinary, multicultural overview of the concept of gender and gender roles in patriarchal society. This course examines the social construction of gender in our society and how that has shaped such areas as economics, politics, cultural/social values, and the impact upon women and men in historical and contemporary terms.

GS 290 Sp Tp-#MeToo, Black Lives Matter & Beyond 3 cr

Study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 301 Moving Beyond Diversity 3 cr

This course explores ways of fighting injustice and dismantling systemic oppression for those who are being disproportionately impacted generationally. The course offers a framework for activism that focuses on creating a culture that stands up for what is right by fighting against normalizing cycles of perpetuated injustices. Students will examine diverse perspectives that center on the capacity to mobilize solidarity for those efforts, strategies, and practices that negate performative allyship with systems-changing action for today's realities.

GS 302 Black Women and Activism 3 cr

This fully online three-hour credit course is interdisciplinary in nature and addresses the need to recognize and validate contributions made by Black women that sought and continue to uplift Black America throughout the late 19th and early 21st centuries. This cadre of activism will be contextualized through both womanist and feminist theories. Central to these works will be an examination for how multiple oppressions have shaped Black women's lives throughout their ongoing efforts to redefine self and bring empowerment to their communities through racial solidarity and advancement as a people. These women's underlying resistance strategies and intellectual discourse for offsetting the negative effects of racism and other oppressive measures will be mirrored through the use of race and gender as a socio-political construct. A postmodern response depicted through the lens of contemporary Black feminists for how both mainstream feminism and Black America have responded to these heroic forms of activism will be analyzed. These activists' contributions will unfold through the following curricula foci: 1) early roots of nationalism, 2) the emergence of both Black Feminist and Womanist Thought, and 3) political movements involving Black women activists. Additional cornerstones for learning will include participating in a posting process that involve sharing research and writing projects which in return will facilitate lively discussions on today's black women activism from their own respective domain (e.g. music, spirituality, film, arts and letters, judicial system, the intellectual and socio-political arenas).

GS 304 #Me Too, Black Lives Matter & 3 cr

The velocity of national protests fighting for human rights across the constitutional continuum of justice, dignity, and safety have evolved into an epidemic throughout American infrastructures. This course will plunge into the #MeToo Era, Black Lives Matter, and Woke Movements. Significant visibility for how social constructs of gender, race, and sexuality intersect with these protesters? outcries will be examined. Further considerations will be given to exposing those accused of sexual violence on various fronts as well as existing allegations of wrongful deaths will be a part of the course curriculum. An added dimension to the curriculum will include also focusing on political strategies and an operative activism model that are being used to effectively penetrate these existing cultures of power and dominance.

GS 390 Special Topics 3 cr

Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 490 Special Topics 3 cr

Advanced study of selected topics within an area in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 492 Gender Studies Seminar - 3 cr

Advanced study of selected topics in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 494 Directed Studies 1-3 cr

Directed research under the guidance of a Gender Studies faculty member. Requires permission of instructor. Student is restricted to taking a maximum of six hours of Directed Studies.

Prerequisite: GS 101 Minimum Grade of D

GS 496 Internship - 3-6 cr

Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special Permission required.

Prerequisite: GS 101 Minimum Grade of D

Interdisciplinary Progs (IDS)**IDS 290 Special Topics 1-3 cr**

A study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 490 Special Topics 1-3 cr

Advanced study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 590 Sp Top 1-9 cr

Specialized topics not generally listed in the course offerings. Requires consent of Graduate Director.

International Studies (IS)**IS 100 Global Issues 3 cr**

This course introduces students to the basic structural components of the global system, including the nation-state system and the world economy, and explores the major schools of thought in such areas as security, economic prosperity and development, international law, gender and environmental studies. The course helps students understand the complex and interlinked issues facing global society, and current problems, and view the U.S. within a broader global context.

IS 193 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 200 People-Nations - 3 cr

Variable content course focusing on particular nation or region of the world. Course offers a multi-disciplinary introduction to the people, society and politics. May be repeated for credit when content varies up to a total of 6 hours.

IS 210 Global Engagement Orientation 1 cr

This course introduces students to international global issues, allows students to identify opportunities for active engagement in these issues, and provides the framework for successful completion of the Global Engagement Certificate.

IS 290 Special Topics - 3 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 293 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and CJ 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 363, PSC 363

IS 371 Studies in Russia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Russian civilization. May be repeated for credit when content varies.

IS 372 Studies in E. Europe & C. Asia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Eastern European and Central Asian civilizations. May be repeated for credit when content varies.

IS 390 Sp Top- 1-3 cr

Advanced study of selected topics within a particular concentration. May be repeated for credit when content varies.

IS 391 Study Abroad - 18 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated.

IS 393 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 410 Global Engagement Capstone 1 cr

Global Engagement Capstone is required for students completing the Global Engagement Certificate (GEC), and is a one hour course designed to help students reflect on the 16 hours of coursework and nine hours of globally engaged activities they have completed. Students will create a portfolio during the course, which will be presented to students and affiliated faculty at its conclusion.

Prerequisite: IS 210 Minimum Grade of P

IS 473 International Law 3 cr

This course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 473, PSC 473

IS 489 Leadership and World Leaders 3 cr

An overview of the definitions, characteristics, and typologies of leadership, with a focus on lives and legacies of global influential political leaders over the past century.

Prerequisite: PSC 130 Minimum Grade of D or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of D

Cross-Listed: PSC 251, PSC 489

IS 490 Special Topics 3 cr

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with CJ 491 and PSC 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, PSC 491

IS 492 Seminar - 3 cr

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 493 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 494 Directed Studies 1-3 cr

Directed research in the field of international studies. May be repeated or credit up to a total of 9 hours. Prerequisite: permission of IS Director

IS 495 Senior Seminar - W 3 cr

The course seeks to provide an interdisciplinary and cross-regional overview of the fields and research opportunities within international studies.

Prerequisite: EH 102 Minimum Grade of C

IS 496 Prof St Internship - 3-9 cr

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business Prerequisite: Permission of IS Director

IS 499 Senior Honors Thesis 3 cr

The course covers major theoretical perspectives in organizational psychology based on empirical research and case studies. Students will explore learning theory, group dynamics, and change in different types of learning organizations.

Prerequisite: (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

IS 591 Study Abroad 12 cr

Graduate level international exchange programs for University of South Alabama students.

Museum Studies (MUM)**MUM 201 Intro to Museum Studies 3 cr**

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

Museum Studies Minor**Degree Requirements**

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Core Requirements

- Twenty-one (21) credit hours in approved courses; nine (9) hours must be taken at the University of South Alabama.
- At least one (1) course must be taken in each of the three primary disciplines of anthropology, art history and history.**
- MUM 201: Introduction to Museum Studies
- At least three (3) and no more than six (6) credit hours from AN 496: Anthropology Internship, ARH 360: Traineeship in Museum Work, or HY 498: Internship in History.
- Two (2) of the following courses: AN 435 Museum Methods in Archaeology, AN 442: Cultural Resources Management, ARH 493: Methodology of Art History, HY 496: Introduction to Public History.

Code	Title	Hours
Required		
MUM 201	Intro to Museum Studies	3
Choose at least 3 hours from one of the following:		3-6
AN 496	Anthropology Internship	
ARH 360	Traineeship in Museum Work	
HY 498	Internship in History	
Choose two of the following:		6
AN 435	Museum Methods in Archaeology	
AN 442	Cultural Resource Management	
ARH 493	Methodology of Art History-W	
HY 496	Public History	
<i>Choose from the following courses to reach 21 hours for the minor.</i>		
<i>Anthropology</i>		
AN 313	New World Archaeology	
AN 335	Field Work in Archaeology	
AN 340	Native American Cultures-W	
AN 347	Latin Amer Cultures-Societies	
AN 440	Adv Archaeological Field Meth	

AN 442	Cultural Resource Management
<i>Art History</i>	
ARH 304	Ancient Grk Art and Architect
ARH 306	Roman Art
ARH 324	Italian Early Renaissance
ARH 326	16th Century Italian Art
ARH 332	Baroque Art and Architecture
ARH 335	18th Century Art and Arch
ARH 340	Early Modern Art
ARH 344	Contemporary Art
ARH 345	American Arts 1600 - 1940
ARH 348	Native American Art
ARH 480	Women in Art-W
<i>English</i>	
EH 404	Grant Proposal Writing
<i>History</i>	
HY 228	Latin America
HY 312	America in the 1960s
HY 432	Colonial America
HY 433	The American Revolution
HY 435	Civil War and Reconstruction
HY 436	Modern US I 1877-1945
HY 437	Modern US II Since 1945 - W
HY 477	The Old South
HY 478	The New South

Other periods and topics in all disciplines must be approved by the Museum Studies Committee and Director.

Music

Department Information

Department of Music website
<http://www.southalabama.edu/colleges/music/>

The Department of Music of the University of South Alabama is an accredited institutional member of the National Association of Schools of Music, 11250 Roger Bacon Drive, Suite 21, Reston, Virginia 20190; (703) 437-0700. Degree programs are offered for those students pursuing careers in music performance, music education, music business, and those who wish to combine studies in music with other academic disciplines.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Placement in Music Theory

Transfer students intending to take music theory must take a Theory Placement Examination. Contact the Music Office for details.

Placement in Applied Music Classes

All students not previously enrolled in private music study at the University of South Alabama must audition prior to enrolling. Contact the Music Office for audition requirements and scheduling.

All students enrolled in private music study must fill out a Teacher Preference form for each Applied Music course in which they are enrolled. These forms must be filed on-line to the Music Office before registration begins. Once a student is registered and knows their schedule, they must submit their schedule information to their Applied teacher.

Applied Music

Applied music is an integral and vital part of the total education in the field of music. In addition to performing in recitals, full-time music students are also required to attend concerts and recital class (MUA 100) for six semesters and take part in various programs given during their course of study.

Students choosing a minor in music must include applied music courses at the 200 level.

Credit for applied music is based on the minimum practice time per week, not on the length of the lesson period. Courses that show one hour's credit require one 30-minute lesson per week with a minimum practice period of 30 minutes per day. A two-hour course requires 60 minutes of lesson time a week and at least 60 minutes of practice time per day. Those that show three hours' credit require 60 minutes of lesson time per week with a minimum of two hours per day for practice. Satisfactory achievement and development are best achieved by practicing twice the above minimum requirements.

A student may take no more than two applied music courses in any given semester unless permission is obtained from the student's advisor, major applied teacher, and department chair.

Senior Recital Requirements

A public senior recital (MUA 400) is required for the BM degree. Specific requirements vary according to the chosen concentration. See the Department of Music Student Handbook for details.

Applied Music Levels

Students must audition in order to enroll in Applied Music courses. Contact the Department of Music for information.

- 100 Level (Elective) is designated for students majoring in other academic disciplines (when possible) or music majors who wish to study in a secondary applied area.
- 200 Level (Major/Lower Division) is designated for the first four semesters of study as a music major. A student must pass an examination at the end of the fourth semester in order to enroll at the 300 or 400 level. Music minors will also enroll at the 200 level.
- 300 Level (Major/Upper Division) is designated for the junior and senior music major in all concentrations except Performance.
- 400 Level (Major/Performance) is designated for the junior and senior music major with a concentration in Performance.

Minor

Students pursuing a Bachelor of Music degree are not required to have an academic minor with the exception of the Bachelor of Music with Elective Studies in Outside Fields.

Music Organizations

The Department of Music sponsors performing organizations open to all students of the University, providing satisfactory audition requirements have been met. Ensemble participation is recognized as an essential literature class in music and music education. The appropriate MAJOR ensemble (Wind Ensemble, Orchestra, Marching Band, Symphony Band

or Concert Choir) must be elected each semester that a student is enrolled as a full-time student in music. Lower division credit is for 1st and 2nd year students. Upper division credit is for 3rd and 4th year students and reflects increased responsibility and leadership within the section and/or ensemble as assigned by the conductor/director. Graduate credit requires assisting the conductor/director with logistics, rehearsals, and presentation of concerts. Each course number is to be repeated four times for a two-year sequence of the course. All Bachelor of Music degree majors in guitar and piano must satisfactorily complete a minimum of six semester hours in a major ensemble, to be taken for three consecutive years and one semester hour in another ensemble in which they will play their principal performing instrument. Students are, in addition, encouraged to elect additional hours in both major and small ensembles. Consult the appropriate curriculum in the section entitled Music Organizations for the requirements. The organizations include the Concert Choir; University Chorale; Marching Band; University Symphony Band; Wind Ensemble; University Band; Orchestra; Jazz Band; Woodwind, Brass, Guitar, Percussion, Trumpet, Clarinet, Trombone, Tuba-Euphonium, Flute, World Music, String, and Piano Ensembles; and Opera and Musical Theatre Workshop.

Master of Music Graduate Studies

The Master of Music degree offers concentrations in Collaborative Keyboard, Music Education, Music Education-Alt. Choral or Instrumental, and Performance (Piano, Vocal, Brass, Percussion and Woodwinds). The program is designed to provide professional advancement for musician living and working along the Gulf Coast, produce research and/or performances, qualify students for admission to doctoral programs, and fulfill the mission of the University by offering high-quality teaching and public service that increases the education level of Alabama citizens, who can better participate in a global community and attain a higher quality of life.

The department's graduate faculty engage students to think critically as they address music practices and issues. Courses examine how music creates, sustains and changes personal lives, organizations, cultural institutions and society. Each concentration consists of 32-35 hours which culminate in performances, portfolios, recordings, or projects representing pedagogical work. The Music Education—Alt. Choral or Instrumental concentration consists of 46 hours culminating in a supervised student internship. Graduates of the traditional Music Education concentration and the Music Education—Alt. Choral or Instrumental concentrations are eligible for the Class A Professional Educator Certificate from the Alabama State Department of Education.

Requirement for Admission

All applications must receive approval from the Graduate Coordinator of Music, the Director of Graduate Studies for the College of Arts and Sciences, and the Graduate Dean. The Office of Admissions should receive a resume limited to one page and three letters of recommendation addressing academic or professional abilities. Students are admitted each semester and must meet the following additional requirements:

Regular Admission

Undergraduate Requirements

Students must submit official copies of undergraduate transcripts indicating the following:

- A bachelor's degree in music.
- At least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.

For the Music Education—Alt. Choral or Instrumental concentration, students must also submit official copies of undergraduate transcripts indicating the following:

- A bachelor's degree from a regionally accredited institution with a minimum overall GPA of 2.75 or a master's or higher degree with a GPA of at least a 3.0. This GPA must be documented on the official transcript of the degree granting institution and must be the GPA that was used as the basis for granting the degree, not a GPA that includes post-degree courses. If admitted on master's or higher degree GPA, courses from that degree cannot be used to meet certification requirements.
- An academic major in the teaching field, appropriate credit hours in the teaching field (30/18: 30 hours in the field with 18 hours in upper-division), or a passing score on the prescribed Praxis subject assessment.
- GPA Exception for unconditional admission to Alternative Class A State Department of Education-approved programs: Individuals who have earned a bachelor's degree from a regionally accredited institution at the time the degree was earned and do not meet the minimum overall undergraduate GPA of 2.75, but have at least a 2.0 overall undergraduate GPA, may seek provisional admission to an Alternative Class A program if the alternate score on the Alabama prescribed Praxis subject-area test is obtained. The alternate scores can be found on the Alternate Score Requirements document at www.alsde.edu (<http://www.alsde.edu>) (Department Offices: Educator Assessment: Educator Assessment Policies). The **only** tests and scores accepted are those listed on the Alternate Score Requirements document. All other requirements for admission must also be met.
- Students must pass a criminal background check.

International Students:

- International students must submit documentation of TOEFL test scores of 525 or above (197 on computer-based test or 71 on internet-based test).
- Students who are required to take the English Language Proficiency Examination and whose scores suggest an English language deficiency must take the appropriate English as a Second Language courses. These courses are not counted as part of the 32-hour degree program.

Departmental Admissions Requirements:

- Passing score in Graduate Music Theory and Music History Diagnostic Exam or Bachelor of Music degree from USA.
- Admittance requirements per area of specialization:
 - Collaborative Keyboards
 - Audition - recording or live. Admittance determined by area faculty
 - Contact Piano Area Coordinator for date, time and location
 - Music Education
 - Teaching Certificate
 - Video of teaching: 10 - 25 minutes. Acceptability determined by music education faculty
 - Contact Music Education Area Coordinator for date, time and location

- Music Education-Alt. Choral or Instrumental
 - Interview with Music Education Faculty
 - Contact Music Education Area Coordinator for date, time and location
- Performance Piano, Brass, Percussion and Woodwinds
 - Audition - recording or live. Admittance determined by area faculty
 - Contact Area Coordinator for date, time and location
- Performance: Voice
 - Audition - live on-site or live streamed via internet. Admittance determined by area faculty
 - Diagnostic exam in vocal diction (Italian, German, and French)
 - Contact Vocal Area Coordinator for date, time and location
- Diagnostic Exams
 - Students admitted to graduate degree programs in the USA Department of Music must take graduate diagnostic exams in music theory and history. USA graduates are exempt. Diagnostic exams are administered twice a year, in August and January. The results of the exams are advisory only; however, students may not take graduate-level history and theory courses until students have earned a passing score on the exams. Advisors receive the results of the diagnostic exams. Students consult with their advisors to determine appropriate history and theory studies.
- Remedial Courses
 - Students who do not pass the diagnostic exams will be required to pass remedial courses before enrolling in the graduate-level core course.

Non-degree Admission

Students may register for and complete up to 12 hours without formal entrance into the program.

Undergraduate Requirements

Students must submit official copies of undergraduate transcripts indicating the following:

- A minimum GPA of at least 2.5 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.75 GPA on the last 60 hours of undergraduate work.
- Students with a GPA below 2.5 may want to consider enrolling in undergraduate classes to increase their GPA average before applying to graduate school. USA course work completed after graduation is automatically averaged into the final GPA. The USA Office of Academic Records computes transfer credit averages and can advise students in determining when the minimum GPA has been met.

Degree Requirements and Courses

Students must complete a minimum of 32 semester hours of credit (46 hours of credit for Music Education – Alt. Choral or Instrumental) in approved 500-level courses. A minimum of 20 semester hours must be completed at the University of South Alabama. Up to 12 hours of USA courses taken while in another program (or non-degree status) may be applied. Only courses not applied to another degree may count. Maximum of 12 hours with grades of "A", "B", or "S" of approved transfer credit is allowed. If the university is non-accredited, the individual USA graduate program will determine if the quality and content of the courses meet the standards of the program.

Grade Requirements

- A minimum of a 3.0 GPA on all work attempted is required for graduation.
- Courses in which a student receives a "D" or below will not be counted toward the degree program.
- A maximum of two courses with a grade of "C" will be counted toward the degree program.
- Students receiving four grades of "C" or below, regardless of the overall GPA will be dismissed from the program.
- A student who receives a failing grade in a course for graduate credit may be dismissed from the program.

Time Limitations

- All degree requirements must be completed within seven calendar years.
- Most students who take six-eight hours per semester (including summer term) complete the degree within a two-year period (two and a half for Music Education - Alt. Choral or Instrumental).
- The time required for degree completion depends on how many courses a student can take each semester and the ability of that student to complete the recital(s) or final project(s).

Course Load

Six to ten credit hours per semester constitute a full-time course load.

Note: No more than twelve credits in this area are applicable toward a degree.

Degrees, Programs, or Concentrations

- Music (BM) - Elective Studies in Business Concentration (p. 300)
- Music (BM) - Vocal Music Education Concentration (p. 302)
- Music (BM) – Elective Studies in Specific Outside Fields Concentration (p. 304)
- Music (BM) – Instrumental Music Education Concentration (p. 306)
- Music (BM) – Instrumental Performance Concentration (p. 309)
- Music (BM) – Vocal Performance Concentration (p. 311)
- Music (MM) - Collaborative Keyboard Concentration (p. 313)
- Music (MM) - Music Education Concentration (p. 314)
- Music (MM) - Music Education Concentration - (Alternative Choral or Instrumental) (p. 315)
- Music (MM) - Performance Concentration (Piano, Voice, Brass, Percussion, Woodwinds) (p. 316)
- Music Minor (p. 318)

Courses

Applied Music A (MUA)

MUA 100 Recital Class 0 cr

A convocation required each term of all full-time music majors meeting each week in laboratory session to hear performances, perform, and discuss performing techniques, plus ten evening public programs. Six semesters of successful participation required for graduation with adjustments for transfer students.

MUA 101 Piano - Elective 1 cr

Private study at the elective level

MUA 102 Piano - Elective 2 cr

Private study at the elective level.

MUA 111 Organ - Elective 1 cr
Private study at the elective level.

MUA 112 Organ - Elective 2 cr
Private study at the elective level.

MUA 121 Applied Voice - Elective 1 cr
Applied Voice - Elective is designed for students who are neither music majors or minors to learn basic techniques of singing. Fundamentals of breath, tone, pitch, and musicianship will be explored through appropriate exercises and repertoire.

MUA 122 Applied Voice - Elective 2 cr
Applied Voice - Elective is designed for students who are neither music majors or minors to learn basic techniques of singing. Fundamentals of breath, tone, pitch, and musicianship will be explored through appropriate exercises and repertoire.

MUA 124 Group Applied - Elective Voice 1 cr
Applied voice lessons taught in groups of 4, consisting of individual instruction in technique and performance. Two 1-hour sessions per week TBA (MW or TR). This course is for non-majors. Majors and minors in music should take other applied courses. Special fee applies. Prerequisite: Admission by audition. Registration through the Department of Music.

MUA 131 Violin - Elective 1 cr
Private study at the elective level.

MUA 132 Violin - Elective 2 cr
Private study at the elective level.

MUA 141 Viola - Elective 1 cr
Private study at the elective level.

MUA 142 Viola - Elective 2 cr
Private study at the elective level.

MUA 151 Violoncello - Elective 1 cr
Private study at the elective level.

MUA 152 Violoncello - Elective 2 cr
Private study at the elective level.

MUA 161 String Bass - Elective 1 cr
Private study at the elective level.

MUA 162 String Bass - Elective 2 cr
Private study at the elective level.

MUA 171 Harp - Elective 1 cr
Private study at the elective level.

MUA 172 Harp - Elective 2 cr
Private study at the elective level.

MUA 181 Guitar - Elective 1 cr
Private study at the elective level.

MUA 182 Guitar - Elective 2 cr
Private study at the elective level.

MUA 186 Percussion - Elective 1 cr
Private study at the elective level.

MUA 187 Percussion - Elective 2 cr
Private study at the elective level.

MUA 201 Piano Major-Lower Division 1 cr
Private study at the secondary level.

MUA 202 Piano Major-Lower Division 2 cr
Private study at the secondary level.

MUA 211 Organ Major-Lower Division 1 cr
Private study at the secondary level.

MUA 212 Organ Major-Lower Division 2 cr
Private study at the secondary level.

MUA 221 Voice Major-Lower Division 1 cr
Private study at the secondary level.

MUA 222 Voice Major-Lower Division 2 cr
Private study at the secondary level.

MUA 231 Violin Major-Lower Division 1 cr
Private study at the secondary level.

MUA 232 Violin Major-Lower Division 2 cr
Private study at the secondary level.

MUA 241 Viola Major-Lower Division 1 cr
Private study at the secondary level.

MUA 242 Viola Major-Lower Division 2 cr
Private study at the secondary level.

MUA 251 Violoncello Major-Lower Div 1 cr
Private study at the secondary level.

MUA 252 Violoncello Major-Lower Div 2 cr
Private study at the secondary level.

MUA 261 String Bass Major-Lower Div 1 cr
Private study at the secondary level.

MUA 262 String Bass Major-Lower Div 2 cr
Private study at the secondary level.

MUA 271 Harp Major-Lower Division 1 cr
Private study at the secondary level.

MUA 272 Harp Major-Lower Division 2 cr
Private study at the secondary level.

MUA 281 Guitar Major-Lower Division 1 cr
Private study at the secondary level.

MUA 282 Guitar Major-Lower Division 2 cr
Private study at the secondary level.

MUA 286 Percussion Major-Lower Div 1 cr
Private study at the secondary level.

MUA 287 Percussion Major-Lower Div 2 cr
Private study at the secondary level.

MUA 300 Junior Recital 0 cr
Performance concentration junior recital. To be taken with a 400 level applied music course.

MUA 301 Piano Major-Upper Division 1 cr
Private study at the concentration level.

MUA 302 Piano Major-Upper Division 2 cr
Private study at the concentration level.

MUA 311 Organ Major-Upper Division 1 cr
Private study at the concentration level.

MUA 312 Organ Major-Upper Division 2 cr
Private study at the concentration level.

MUA 321 Voice Major-Upper Division 1 cr
Private study at the concentration level.

MUA 322 Voice Major-Upper Division 2 cr
Private study at the concentration level.

MUA 331 Violin Major-Upper Division 1 cr
Private study at the concentration level.

MUA 332 Violin Major-Upper Division 2 cr
Private study at the concentration level.

MUA 341 Viola Major-Upper Division 1 cr
Private study at the concentration level.

MUA 342 Viola Major-Upper Division 2 cr
Private study at the concentration level.

MUA 351 Violoncello Major-Upper Div 1 cr
Private study at the concentration level.

MUA 352 Violoncello Major-Upper Div 2 cr
Private study at the concentration level.

MUA 361 String Bass Major-Upper Div 1 cr
Private study at the concentration level.

MUA 362 String Bass Major-Upper Div 2 cr
Private study at the concentration level.

MUA 371 Harp Major-Upper Division 1 cr
Private study at the concentration level.

MUA 372 Harp Major-Upper Division 2 cr
Private study at the concentration level.

MUA 381 Guitar Major-Upper Division 1 cr
Private study at the concentration level.

MUA 382 Guitar Major-Upper Division 2 cr
Private study at the concentration level.

MUA 386 Percussion Major-Upper Div 1 cr
Private study at the concentration level.

MUA 387 Percussion Major-Upper Div 2 cr
Private study at the concentration level.

MUA 400 Senior Recital 0 cr
The Senior Recital provides a culminating performance experience of professional quality required of all concentrations of Bachelor of Music students. Committee approval needed to pass the course. To be taken in conjunction with the appropriate 300 or 400 level applied music course.

MUA 401 Piano Major-Performance 1 cr
Private study in Piano at the major level

MUA 402 Piano Major-Performance 2 cr
Private study at the major level

Private study at the major level

MUA 500 Graduate Recital 1 cr
Graduate recital. To be taken in conjunction with a 500-level applied music course.

MUA 501 Piano 1 cr
Private study at the graduate level.

MUA 502 Piano 2 cr
Private study at the graduate level.

MUA 503 Piano 3 cr
Private study at the graduate level.

MUA 507 Applied Collaborative Piano 1 cr

The Director for Collaborative Keyboard studies will meet with the student enrolled in Applied Collaborative Piano to assign literature, which will be studied during the semester. For MUA 507, the student meets with the instructor 30 minutes each week to study vocal music and at least 1 collaborative assignment with strings, winds or brass. The goal of the course is to learn standard repertoire for piano with voice and various instruments.

MUA 508 Applied Collaborative Piano 2 cr

The Director for Collaborative Keyboard studies will meet with the student enrolled in Applied Collaborative Piano to assign literature, which will be studied during the semester. For MUA 508, the student meets with the instructor 60 minutes each week to study vocal music and collaborates with at least 2 different instrument types (string, woodwinds, brass). The goal of the course is to learn standard repertoire for piano with voice and various instruments.

MUA 509 Applied Collaborative Piano 3 cr

The Director for Collaborative Keyboard studies will meet with the student enrolled in Applied Collaborative Piano to assign literature, which will be studied during the semester. For MUA 509, the student meets with the instructor 60 minutes each week to study vocal music and collaborates with 3 different instrument types (string, woodwinds, brass). The goal of the course is to learn standard repertoire for piano with voice and various instruments.

Music Education (MUE)**MUE 010 Music Education 0 cr**

The Piano Proficiency documents mastery of minimum piano proficiency skills for students who do not need to enroll in class piano.

MUE 102 Elementary Class Piano 1 cr

Functional keyboard playing. Open to music majors and minors only. No previous knowledge in piano necessary. To be taken in sequence.

MUE 103 Elementary Class Piano 1 cr

Functional keyboard playing. Open to music majors and minors only.

Prerequisite: MUE 102 Minimum Grade of D

MUE 120 Elementary Class Voice 1 cr

Beginning voice instruction emphasizing the fundamentals of singing and the vocal mechanism. This is the first semester of a two semester sequence.

MUE 121 Intermediate Class Voice 1 cr

This course is a continuation of MUE 120. Vocal fundamentals and the mechanics of singing will be emphasized. More advanced vocal exercises, diction, and interpretation will be stressed.

Prerequisite: MUE 120 Minimum Grade of D

MUE 141 String Methods 1 cr

The techniques of teaching the string instruments in class situations and the development of some proficiency on each string instrument.

MUE 170 Elementary Class Percussion 1 cr

Beginning percussion instruction with emphasis on development of sight-reading, concert style/mallet techniques and basic concepts of percussion instruments.

MUE 182 Elementary Class Guitar 1 cr

Beginning guitar instruction with the development of proficiency in sight reading and correct right and left hand techniques. No previous knowledge of guitar is necessary. Open to any university student except guitar majors. To be taken in sequence.

MUE 183 Elementary Class Guitar 1 cr

Beginning guitar instruction with the development of proficiency in sight reading and correct right and left hand techniques.

Prerequisite: MUE 182 Minimum Grade of D

MUE 202 Intermediate Class Piano 1 cr

A continuation of elementary class piano including sight reading and keyboard harmony. Open to music majors and minors only.

Prerequisite: MUE 103 Minimum Grade of D

MUE 203 Intermediate Class Piano 1 cr

A continuation of elementary class piano including sight-reading and keyboard harmony. Open to music majors and minors only.

Prerequisite: MUE 202 Minimum Grade of D

MUE 212 Adv Keyboard Musicianship I 1 cr

MUE 212 is the first of four courses required of all concentration level and performance level piano majors. During the course students develop sight reading ability, read lead sheets, learn accompanying strategies and practice systematic piano technique. Class piano pedagogy is also addressed. **Prerequisite:** Piano major or concentration.

MUE 213 Adv Keyboard Musicianship II 1 cr

The second of four courses required of all concentration level and performance level piano majors. During the course, students develop sight-reading ability, read lead sheets, learn accompanying strategies and practice systematic piano technique. Class piano pedagogy is also addressed.

Prerequisite: MUE 212 Minimum Grade of D

MUE 236 Mus-Lit Integ for Early Chldhd 3 cr

This course examines the use of music and literature integration in the early childhood classroom - establishing an active-learning environment, identifying elements of music in children's literature, engaging students in the storytelling process, and preparing music-literature instruction.

MUE 240 String Methods 1 cr

The techniques of teaching the string instruments in class situations and the development of some proficiency on each string instrument.

MUE 241 Woodwind Methods 1 cr

The techniques of teaching the woodwind instruments in class situations and the development of some proficiency on each of the main woodwinds.

MUE 242 Brass Methods 1 cr

The techniques of teaching the brass instruments in class situations and the development of some proficiency on each of the main brass instruments.

MUE 243 Percussion Methods 1 cr

The techniques of teaching percussion instruments in class situations and the development of some proficiency on all percussion instruments.

MUE 301 Music Literacy Child and Youth 3 cr

The fundamentals of music, music reading, and instruction for those working with children and youth in group settings.

MUE 312 Adv Keyboard Music III Vocal 1 cr

MUE 213 is the third of four courses required of all concentration and performance level piano majors. Students will develop sight reading ability, read lead sheets, learn accompanying strategies and practice systematic piano technique. Vocal accompanying workshops and class piano pedagogy are included.

Prerequisite: MUE 213 Minimum Grade of D

MUE 313 Adv Keyboard Music IV Inst 1 cr

MUE 313 is the fourth of four courses required of all concentration and performance level piano majors. During the course, students develop sight reading ability, read lead sheets, learn accompanying strategies and practice systematic piano technique. Instrumental accompanying workshops and class piano pedagogy are included.

Prerequisite: MUE 312 Minimum Grade of D

MUE 322 Early Chld/Elem Mus Perf Mthds 3 cr

The study of music and performance methods as used in dance and theatre throughout various early childhood and elementary settings.

MUE 336 Performing Arts for Young Chld 3 cr

This course provides an overview of the planning, preparation, and delivery of the performing arts in a developmentally appropriate environment. Students will explore dramatic arts, improvisation, use of musical instruments, and vocal exploration as a means of communication, expression, and learning for the young child. Appropriate learning environments and routines will be discussed regarding the individual child's needs of social, physical, and sensory motor skills and the role of facilitating the growth through discovery.

MUE 342 Brass Methods Class 1 cr

The techniques of teaching the brass instruments in class situations and the development of some proficiency on each of the main brass instruments.

MUE 345 Percussion Methods 1 cr

The techniques of teaching percussion instruments and the development of some proficiency on all percussion instruments.

MUE 346 Marching Band Techniques 1 cr

The techniques of organization, administration, instruction, and rehearsal of the marching band.

MUE 411 Woodwind Pedagogy 2 cr

A survey of the teaching techniques, instruments, accessories and pedagogical materials for woodwind instruments. Prerequisite: Upper division studio study in woodwinds or permission of instructor

MUE 412 Brass Pedagogy 2 cr

This course is intended as a technique course specific to high and low brass instruments. Topics of study will include: development of technique, etudes, performance preparation, pedagogical literature, performance anxiety. Upper division studio study in brass or permission of instructor.

MUE 413 Percussion Pedagogy 2 cr

A comprehensive study of methods and materials used to teach percussion instruments. Upper division studio study in percussion or permission of instructor.

MUE 414 Guitar Pedagogy 2 cr

A survey of the teaching techniques, instruments, accessories and pedagogical materials for guitar. Prerequisite: Upper division studio study in guitar or permission of the instructor.

MUE 415 String Pedagogy 3 cr

A comprehensive study that is intended as a technique course specific string instruments. Topics of study include: development of technique, performance preparation, pedagogical literature, and performance anxiety. Prerequisite: Upper division studio study in strings or permission of instructor.

MUE 430 Exceptional Music 3 cr

The philosophical and practical approach to increasing the effectiveness of learning and content retention for the exceptional student through music.

MUE 434 Keyboard, Voice, Guitar 3 cr

The study of music literature, note reading, and the effective practice of incorporating keyboard, voice, and guitar through music education and music therapy.

MUE 436 Integrating Arts in Education 1-3 cr

This course examines arts integration as a philosophical approach to increasing the effectiveness of learning and content retention in the PK-12 classroom.

MUE 444 Elementary/General Music 3 cr

Music program, methods, music literature, and teaching aids for elementary and middle school students. Prerequisites: Junior level or above in music education, concentration, admission to candidacy, completion of two-thirds of teaching field.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

MUE 446 Piano Pedagogy 2 cr

Methods and materials for the private lesson. Lab practice in teaching included. Offered in alternate years. Prerequisite: Piano major or piano concentration.

MUE 448 Vocal Pedagogy 2 cr

Theory and practice of the art of teaching singing as it relates to Voice Science, with regard to both current and historical practices, physiology, function, acoustics, observations, and hands-on experience. Prerequisite: Upper division in vocal studio studies or permission of instructor

MUE 455 Tch Mu in Middle-Scondary Sch 3 cr

Assists the student in organizing materials and in developing methods of teaching music in middle and secondary schools. Prerequisites: Junior level or above in music education concentration, admission to candidacy, completion of two-thirds of teaching field.

MUE 494 Directed Studies - 1-3 cr

An individual project concerned with the student's special interests in music education. May be repeated for a maximum of six hours. Prerequisite: Department Chair permission.

MUE 501 Instrumental Music Education 3 cr

Study of the organization, development, appraisal, role and future trends of instrumental programs in the public schools.

MUE 502 Choral Music Education 3 cr

Choral Music Education is designed to provide broad exposure to elements that comprise a comprehensive choral program at the elementary and secondary levels.

MUE 512 Foundations of Music Education 4 cr

Sequential study of major philosophies guiding music teaching and the history of music education that have led to contemporary issues and problems in Music Education. Major philosophies including Pestalozzi, Reimer, and the praxial approach of Mark and history from perspectives of sociology, psychology, philosophy, curriculum, history and comparative curricula, including emerging trends in the profession.

MUE 513 Curr and Assess in Music Ed 4 cr

Critical evaluation of current literature, research, and assessment tools used in the curriculum and teaching of music. This course examines the relationship between curriculum theory and philosophy of music education. Through the study of traditional and contemporary models of curriculum development and evaluation, students broaden their understanding of curriculum as it impacts the learning process. Field experience required.

MUE 515 String Pedagogy 3 cr

A comprehensive study that is intended as a technique course specific to all string instruments. Topics of study will include: development of technique, etudes, performance preparation, pedagogical literature, and performance anxiety.

MUE 519 Brass Pedagogy 3 cr

A teaching techniques course specific to brass instruments. Topics of study will include teaching philosophy and techniques, pedagogical literature, lesson structure, and resources for further brass research.

MUE 520 Adv Stdy in EC/Elem/Gen Music 4 cr

Music supervision and administration, program development, conducting children's choirs, inclusion, instructional materials and innovative teaching techniques for early childhood and elementary music programs, including Kodaly, Orff, Dacroze, and Gordon.

MUE 534 Keyboard, Voice, Guitar 3 cr

The study of music literature, note reading, and the effective practice of incorporating keyboard, voice, and guitar through music education and music therapy.

MUE 536 Integrating Arts in Education 1-3 cr

This course examines arts integration as a philosophical approach to increasing the effectiveness of learning and content retention in the PK-12 classroom.

MUE 540 Adv Study in Tchg Choral Music 4 cr

Focus of the course is to enhance the student's knowledge of rehearsal techniques and instructional strategies, strengthening the role of the conductor, techniques for analytical preparation of choral music, and organization of choral programs. Emphasis will also be given to expanding knowledge of choral repertoire and resources for the choral conductor.

MUE 548 Graduate Vocal Pedagogy 2 cr

Vocal Pedagogy is a 2 credit hour course for the upper level undergraduate voice major and graduate vocal performance majors. It focuses on the art, science and profession of teaching singing. Class meetings will be dedicated to lecture, class discussion, presentations, and workshops with various pedagogical and voice science topics.

MUE 560 Adv Study in Tchg Instr Music 4 cr

The purpose of this course is to help the student develop teaching materials, gain greater familiarity with instrumental music repertoire, and develop instructional strategies for instrumental music. Emphasis will be placed on rehearsal procedures, analytical techniques, organizational structure, instrumental music program management, and advanced instrumental conducting.

MUE 564 Woodwind Pedagogy 3 cr

This course involves the study of teaching principles of the woodwind family, with specialized instruction given to students' primary woodwind instrument. Focusing on the art of teaching by examining pedagogical concepts and history, woodwind performance majors will experience teaching demonstrations and the discovery of new and standard teaching literature for woodwind instruments.

MUE 585 Practicum in Music Education 1-4 cr

Observation and involvement in the teaching of undergraduate music courses at the college level with opportunities for individual research and teaching experiences.

MUE 587 Percussion Pedagogy 2 cr

A comprehensive study of methods and materials used to teach percussion instruments.

MUE 589 Reading and Conference 1 cr

Guided study in preparation of the portfolio-video recording and self critique, pedagogical project and research paper - which should be taken in conjunction with preparation of the final portfolio.

MUE 590 Special Topics - 1-3 cr

Special topics in music education designed to meet specific needs and special interests, and to explore current issues in the field. May be repeated for a maximum of nine hours when content varies. Requires permission of department chair.

Music Literature (MUL)**MUL 101 Introduction to Music 3 cr**

Music, what it is and how to listen to it; basic materials of music and the great style periods of music literature in the Western World. Attendance at approved concerts is required.

MUL 201 Contemporary Music 3 cr

An introduction to music-literature trends in the 20th century.

MUL 235 Survey Musical Masterworks I 2 cr

This course is the first of a two semester sequence and will familiarize the student with the vocabulary, traditions, conventions, genres, and repertoire of the art music world. The course will focus on the 'greatest hits' of the concert repertoire and other works of a regional/timely interest.

Prerequisite: MUT 113 Minimum Grade of C

MUL 236 Survey Musical of Masterwks II 2 cr

This course is the second of a two semester sequence and will familiarize the student with the vocabulary, traditions, conventions, genres, repertoire of the art music world. The course will focus on the 'greatest hits' of the concert repertoire and other works of a regional/timely interest.

Prerequisite: MUL 235 Minimum Grade of D

MUL 315 History of Music Theatre - W 3 cr

A comprehensive overview of the origins and evolution of American Music Theatre to present time. The course also includes both general and specific information toward appropriate performance choices. Cross-listed with DRA 315. Credit cannot be received for both DRA 315 and MUL 315.

Cross-Listed: DRA 315

MUL 335 History of Music I - W 3 cr

Music of the Western World from pre-Christian times to 1750: evolution of forms, styles, and media.

Prerequisite: MUT 113 Minimum Grade of C and MUL 236 Minimum Grade of D and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

MUL 336 History of Music II - W 3 cr

Music of the Western World from 1750 to the present: evolution of forms, styles, and media.

Prerequisite: MUL 335 Minimum Grade of D and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

MUL 411 Woodwind Literature 3 cr

A survey of the major works of the solo, concerto, and chamber music repertoire for the woodwind instruments. Prerequisites: Upper division studio study in woodwinds or permission of instructor.

MUL 412 Brass Literature 3 cr

A survey of the major works of the solo, concerto, and chamber music repertoire for brass instruments. Prerequisite: Upper division brass studio study or permission of instructor.

MUL 413 Percussion Literature 3 cr

A survey of the major works of the solo, concerto, and chamber music repertoire for percussion instruments. Prerequisite: Upper division studio study in percussion or permission of instructor.

MUL 414 Guitar Literature 3 cr

A survey of the major works of the solo, concerto, and chamber music repertoire for guitar. Prerequisite: Upper division studio study in guitar or permission of instructor.

MUL 415 String Literature 3 cr

A survey of the major works of the solo, concerto, chamber music repertoire for string instruments. Prerequisite: Upper division studio study in strings or permission of instructor.

MUL 438 Keyboard Literature 3 cr

Major works and styles in the keyboard literature from English Virginalists through the contemporary period. Offered in alternate years. Prerequisites: Upper division piano study or instructor permission.

MUL 442 Organ Literature 3 cr

Music for pipe organ, both secular and sacred. Offered in alternate years. Prerequisites: Upper division organ study or instructor permission.

MUL 444 Vocal Solo Literature 3 cr

A comprehensive overview of standard solo vocal repertoire within the foundation of historical performance practice of sacred and secular vocal music from its beginnings to the present.

Prerequisite: MUL 335 Minimum Grade of D and MUL 336 Minimum Grade of D

MUL 494 Dir St - 1-3 cr

An individual project concerned with the student's special interests. May be repeated for up to 6 hours. Requires Department Chair permission.

MUL 501 Graduate Research in Music 2 cr

Methods and materials of research in music. Bibliography and bibliographical aids. Introduction to musicology. Critical and historical writing. A survey of references and sources consulted in graduate music courses; format for papers and thesis, including footnotes and bibliography.

MUL 512 Brass Literature 3 cr

A survey of the major works of the method, solo, orchestral, and chamber music repertoire for brass instruments.

MUL 515 String Literature 3 cr

A survey of the major works of the solo, concerto, and chamber music repertoire for string instruments.

MUL 530 Symphonic Literature 3 cr

A survey of the development of the symphony and related forms from its origins through the twentieth century.

MUL 535 American Music 4 cr

Early music in the colonies. Various attempts to create an individual 'American' musical style. Diversity of influences: European, African American, Native American, Spanish-Mexican, religious, jazz, folk song, minstrel, etc. Music of Billings, Mason, Gottschalk, MacDowell, Sousa, Ives, Gershwin, Copland, and others.

MUL 544 Art Song Literature & History 2 cr

Art Song Literature and History is an advanced study of art song literature from 1800-present for the graduate vocal performance major. Elements of form, style, poetic materials, and performance practice will be covered. Special emphasis will be given to elements of preparation and literature exploration for the emerging performer.

MUL 545 Opera Literature and History 2 cr

Opera Literature and History is designed to provide the student with a comprehensive study of opera from its earliest development to the present day. Elements of form, style, social/political influences, and stagecraft will be explored. Critical analysis of operatic works will be developed through guided listening and viewing assignments.

MUL 546 Collab Piano Lit for Vocal 3 cr

The graduate-level Vocal Accompanying Literature course offers a survey of music composed for voice(s) and piano from the pianist's perspective. Music for solo voice and piano will be explored chronologically. Additional units will feature standard choral music, choral/vocal music for church services, strategies for playing musical theater scores and techniques for operatic score reduction.

MUL 564 Woodwind Literature 3 cr

Woodwind Literature examines solo and chamber woodwind literature. The course will focus on the evolution of woodwind literature and masterworks in the repertoire.

MUL 566 Coll Piano Lit for Instruments 3 cr

Graduate-level Collaborative Piano Literature for keyboard and various instruments is a survey course which seeks to expose students to musical works written for solo instrument and piano/keyboard, standard chamber music (piano trios, quartets and quintets), non-standard chamber music and piano concertos. Collaborative duos will be explored by instrument type (violin, flute, trumpet, etc.), while chamber music will be studied chronologically.

MUL 585 Grad Piano Literature Survey 2 cr

The chronological survey includes units on pre-piano literature from England, France, Germany and Italy, early development of the classical sonata, the Viennese Classical period, late Beethoven and Schubert, the Romantics, Brahms and Nationalism, Debussy and Impressionism, piano music from 1920-1950, piano music since 1950.

MUL 587 Percussion Literature 3 cr

A survey of the major works of solo, concerto and chamber music repertoire for percussion instruments.

MUL 590 Spec Topics in Music History 1-4 cr

A study of works and styles appropriate to the topics listed: (1) Middle Ages; (2) Renaissance; (3) Baroque Period; (4) Classical Period; (5) Romantic Period; (6) Modern. May be repeated for credit when topics vary.

Music Organization (MUO)**MUO 111 University Concert Choir 0.5,1 cr**

This large ensemble is open to all majors, and performs the masterpieces of choral literature. Required of all voice majors, and a placement audition is required for all participants.

MUO 114 Chamber Singers 0.5 cr

A small, select ensemble devoted to the performance of vocal chamber music. Audition and instructor permission required.

MUO 115 Chorale 0.5,1 cr

The Chorale is the preeminent choral ensemble on campus. Chorale members are chosen through special auditions, and perform in area schools and venues to promote the University and the Department of Music.

MUO 116 USA Opera Theatre 0.5-1 cr

A performing ensemble dedicated to training students in the fundamentals of stage craft, performance, and production through experience with music for the stage. Standards of opera, operetta, and American musical theater are explored in scene exercises and fully-staged productions on and off campus. Enrollment is open to all students through audition or permission of the instructor. Course is cross-listed with DRA 116. Credit cannot be received for both MUO 116 and DRA 116. **Cross-Listed:** DRA 116

MUO 117 University Symphony Band 0.5,1 cr

A large performing ensemble of woodwind, brass and percussion instrumentalists with an emphasis on wind band literature and live performance. Open to music majors and non-music majors with prior instrumental performance experience in high school or junior college.

MUO 118 Woodwind Ensemble 0.5 cr

The study and performance of literature for all combinations of woodwind instruments.

MUO 119 Brass Ensemble 0.5 cr

The study and performance of literature for all combinations of brass instruments.

MUO 120 Percussion Ensemble 0.5 cr

The study and performance of literature for all combinations of percussion instruments.

MUO 121 Jazz Band 0.5 cr

The ensemble study of jazz with an emphasis on literature and live performance.

MUO 122 Basketball Pep Band 0.5 cr

Performs for USA Basketball Games throughout the basketball season. Schedule varies annually.

MUO 123 String Ensemble 0.5 cr

The study and performance of literature for all combinations of string instruments.

MUO 124 Piano Ensemble 0.5 cr

The study and performance of two-piano and piano-ensemble literature. Required of piano majors.

MUO 125 Guitar Ensemble 0.5 cr

The study and performance for ensemble literature for guitar Required for all guitar majors.

MUO 126 Collegium Musicum 0.5 cr

A performing ensemble dedicated to combined chamber music experience of both vocal and instrumental forces, playing one-to-a-part, and focusing on music written before 1800. Enrollment is open to the entire university community through audition or permission of the co-directors. By virtue of the terms of the attached constitution, members will learn to choose repertoire, budget and raise small funds, develop programs, reserve performance space, organize print material, and explore the dynamics of team production. This team-taught course will also be dedicated to sharing cultural forces and encouraging the exchange of attitudes shared historically by all people.

MUO 127 Wind Ensemble 0.5,1 cr

A select performing ensemble of woodwind, brass, and percussion instrumentalists with an emphasis on wind ensemble literature and live performance. Open to music majors and non-majors with prior instrumental performance experience in high school or junior college. Audition or permission of instructor required for participation.

MUO 129 Mixed Chamber Ensemble 0.5 cr

The study and performance of chamber literature for all combinations of instruments and voices.

MUO 130 University Marching Band 1 cr

A large performing ensemble of woodwind, brass, percussion instrumentalists, and appropriate auxiliary personnel with an emphasis on live performance for athletic events. Open to music majors and non-music majors with prior instrumental performance experience in high school or junior college.

MUO 131 University Winterguard 0.5,1 cr

A large performing ensemble consisting of appropriate auxiliary personnel (flags, rifles, sabres, etc.) with an emphasis on live performance.

MUO 133 University Orchestra 0.5,1 cr

A large performing ensemble of string, woodwind, brass, and percussion instrumentalists with an emphasis on orchestral literature and live performance. Open to music majors and non-music majors with prior instrumental performance experience in high school or junior college. Audition or permission of instructor required for participation.

MUO 136 World Music Ensemble 0.5 cr

The study and performance of world literature for all combinations of instruments with an emphasis on music from non-Western cultures.

MUO 137 University Band 0.5,1 cr

A performing ensemble of woodwind, brass, and percussion instrumentalists with an emphasis on concert band literature and live performance. Open to music majors and non-majors with prior instrumental performance experience in high school, junior college, or at the university level. No audition is required for this ensemble and it is open to the entire campus community as well as faculty and staff.

MUO 138 Flute Choir 0.5 cr

The study and performance of literature for all combinations of flutes.

MUO 139 Trumpet Ensemble 0.5 cr

The study and performance of literature for all combinations of trumpets.

MUO 140 Horn Choir 0.5 cr

The study and performance of literature for all combinations of horns.

MUO 141 Trombone Choir 0.5 cr

The study and performance of literature for all combinations of trombones.

MUO 142 Tuba-Euphonium Ensemble 0.5 cr

The study and performance of literature for all combinations of tubas and euphoniums.

MUO 143 Brass Choir 0.5 cr

The study and performance of literature for large brass ensemble.

MUO 144 USA Steel Band 0.5 cr

The study and performance of literature for steel band including the traditional styles of soca and calypso music from the Caribbean. Instructor permission required.

MUO 145 Clarinet Ensemble 0.5 cr

The study and performance of literature for all combinations of clarinets.

MUO 411 University Concert Choir 0.5,1 cr

This large ensemble is open to all majors, and performs the masterpieces of choral literature. Required for all voice majors, and a placement audition is required for all participants.

MUO 414 Chamber Singers 0.5 cr

A small, select ensemble devoted to the performance of vocal chamber music. Audition and instructor permission required.

MUO 415 Chorale 0.5,1 cr

The Chorale is the preeminent choral ensemble on campus. Chorale members are chosen through special auditions and perform in area schools and venues to promote the University and the Department of Music.

MUO 416 USA Opera Theatre 0.5-1 cr

A performing ensemble dedicated to training students in the fundamentals of stage craft, performance, and production through experience with music for the stage. Standards of opera, operetta, and American musical theater are explored in scene exercises and fully-staged productions on and off campus. Enrollment is open to all students through audition or permission of the instructor. Course is cross-listed with DRA 416. Credit cannot be received for both MUO 416 and DRA 416.
Cross-Listed: DRA 116

MUO 417 University Symphony Band 0.5,1 cr

A large performing ensemble of woodwind, brass and percussion instrumentalists with an emphasis on wind band literature and live performance. Open to music majors and non-music majors with prior instrumental performance experience in high school or junior college.

MUO 418 Woodwind Ensemble 0.5 cr

The study and performance of literature for all combinations of woodwind instruments.

MUO 419 Brass Ensemble 0.5 cr

The study and performance of literature for all combinations of brass instruments.

MUO 420 Percussion Ensemble 0.5 cr

The study and performance of literature for all combinations of percussion instruments.

MUO 421 Jazz Band 0.5 cr

The ensemble study of jazz with an emphasis on literature and live performance.

MUO 423 String Ensemble 0.5 cr

The study and performance of literature for all combinations of string instruments.

MUO 424 Piano Ensemble 0.5 cr

The study and performance of two-piano and piano-ensemble literature. Required of piano majors.

MUO 425 Guitar Ensemble 0.5 cr

The study and performance of ensemble literature for guitar. Required of guitar majors.

MUO 426 Collegium Musicum 0.5 cr

A performing ensemble dedicated to combined chamber music experience of both vocal and instrumental forces, playing one-to-a-part, and focusing on music written before 1800. Enrollment is open to the entire university community through audition or permission of the co-directors. By virtue of the terms of the attached constitution, members will learn to choose repertoire, budget and raise small funds, develop programs, reserve performance space, organize print material, and explore the dynamics of team production. This team-taught course will also be dedicated to sharing cultural forces and encouraging the exchange of attitudes shared historically by all people.

MUO 427 Wind Ensemble 0.5,1 cr

A select performing ensemble of woodwind, brass and percussion instrumentalists with an emphasis on wind ensemble literature and live performance. Open to music majors and non-majors with prior instrumental performance experience in high school or junior college. Audition or permission of instructor required for participation.

MUO 429 Mixed Chamber Ensemble 0.5 cr

The study and performance of chamber literature for all combinations of instruments and voices.

MUO 430 University Marching Band 1 cr

A large performing ensemble of woodwind, brass, percussion instrumentalists, and appropriate auxiliary personnel with an emphasis on live performance for athletic events. Open to music majors and non-music majors with prior instrumental performances experience in high school or junior college.

MUO 431 University Winterguard 0.5,1 cr

A large performing ensemble consisting of appropriate auxiliary personnel (flags, rifles, sabres, etc.) with an emphasis on live performance.

MUO 433 University Orchestra 0.5-1 cr

A large performing ensemble of string, woodwind, brass and percussion instrumentalists, with an emphasis on orchestral literature and live performance. Open to music majors and non-music majors with prior instrumental performance experience in high school or junior college. Audition or permission of instructor required for participation.

MUO 436 World Music Ensemble 0.5 cr

The study and performance of world literature for all combinations of instruments with an emphasis on music from non-Western cultures.

MUO 437 University Band 0.5,1 cr

A performing ensemble of woodwind, brass, and percussion instrumentalists with an emphasis on concert band literature and live performance. Open to music majors and non-majors with prior instrumental performance experience in high school, junior college, or at the university level. No audition is required for this ensemble and it is open to the entire campus community as well as faculty and staff.

MUO 438 Flute Choir 0.5 cr

The study and performance of literature for all combinations of flutes.

MUO 439 Trumpet Ensemble 0.5 cr

The study and performance of literature for all combinations of trumpets.

MUO 440 Horn Choir 0.5 cr

The study and performance of literature for all combinations of horns.

MUO 441 Trombone Choir 0.5 cr

The study and performance of literature for all combinations of trombones.

MUO 442 Tuba-Euphonium Ensemble 0.5 cr

The study and performance of literature for all combinations of tubas and euphoniums.

MUO 443 Brass Choir 0.5 cr

The study and performance of literature for large brass ensemble.

MUO 444 USA Steel Band 0.5 cr

The study and performance of literature for steel band including the traditional styles of soca and calypso music from the Caribbean. Instructor permission required.

MUO 445 Clarinet Ensemble 0.5 cr

The Study and performance of literature for all combinations of clarinets.

MUO 507 Ensemble with Coll Keyboard 1 cr

The Director for Collaborative Keyboard studies will meet with the student enrolled in MUO 507 to determine an ensemble assignment. Assignments may include one of the following: accompany/collaborate with Opera Theater, Symphony Band, Wind Ensemble, Concert Choir, Chorale, Chamber Music Ensemble or smaller ensemble.

MUO 511 University Concert Choir 0.5,1 cr

This large ensemble is open to all majors, and performs the masterpieces of choral literature. Required for all voice majors, and a placement audition is required for all participants.

MUO 514 Chamber Singers 0.5 cr

A small, select ensemble devoted to the performance of vocal chamber music. Audition and instructor permission required.

MUO 515 Chorale 0.5,1 cr

The Chorale is the preeminent choral ensemble on campus. Chorale members are chosen through special auditions, and perform in area schools and venues to promote the University and the Department of Music.

MUO 516 Opera & Musical Theatre Wrkshp 1 cr

A performing ensemble dedicated to training students in the fundamentals of stage craft, performance, and production through experience with music for the stage. Standards of opera, operetta, and American musical theatre are explored in scene exercises and fully-staged productions on and off campus. Enrollment is open to all students through audition or permission of the instructor.

MUO 517 University Symphony Band 0.5,1 cr

A large performing ensemble of woodwind, brass and percussion instrumentalists with an emphasis on wind band literature and live performance. Open to music majors and non-music majors with prior instrumental performance experience in high school or junior college.

MUO 518 Woodwind Ensemble 0.5 cr

The study and performance of literature for all combinations of woodwind instruments.

MUO 519 Brass Ensemble 0.5 cr

The study and performance of literature for all combinations of brass instruments.

MUO 520 Percussion Ensemble 0.5 cr

The study and performance of literature for all combinations of percussion instruments.

MUO 521 Jazz Band 0.5 cr

The ensemble study of jazz with an emphasis on literature and live performance.

MUO 523 String Ensemble 0.5 cr

The study and performance of literature for all combinations of string instruments.

MUO 524 Piano Ensemble 0.5 cr

The study and performance of two-piano and piano-ensemble literature. Required of piano majors.

MUO 525 Guitar Ensemble 0.5 cr

The study and performance of ensemble literature for guitar. Required of guitar majors.

MUO 526 Collegium Musicum 0.5 cr

A performing ensemble dedicated to combined chamber music experience of both vocal and instrumental forces, playing one-to-a-part, and focusing on music written before 1800. Enrollment is open to the entire university community through audition or permission of the co-directors. By virtue of the terms of the attached constitution, members will learn to choose repertoire, budget and raise small funds, develop programs, reserve performance space, organize print material, and explore the dynamics of team production. This team-taught course will also be dedicated to sharing cultural forces and encouraging the exchange of attitudes shared historically by all people.

MUO 527 Wind Ensemble 1 cr

A select performing ensemble of woodwind, brass and percussion instrumentalist with an emphasis on wind ensemble literature and live performance. Open to music majors and non-majors with prior instrumental performance experience in high school or junior college. Audition or permission of instructor required for participation.

MUO 529 Mixed Chamber Ensemble 0.5 cr

The study and performance of chamber literature for all combinations of instruments and voices.

MUO 530 University Marching Band 1 cr

A large performing ensemble of woodwind, brass, percussion instrumentalists, and appropriate auxiliary personnel with an emphasis on live performance for athletic events. Open to music majors and non-majors with prior instrumental performance experience in high school or junior college.

MUO 531 University Winterguard 0.5,1 cr

A large performing ensemble consisting of appropriate auxiliary personnel (flags, rifles, sabres, etc.) with an emphasis on live performance.

MUO 533 University Orchestra 0.5,1 cr

A large performing ensemble of string, woodwind, brass and percussion instrumentalists with an emphasis on orchestral literature and live performance. Open to music majors and non-majors with prior instrumental performance experience in high school or junior college. Audition or permission of instructor required for participation.

MUO 536 World Music Ensemble 0.5 cr

The study and performance of world literature for all combinations of instruments with an emphasis on music from non-Western cultures.

MUO 537 University Band 0.5,1 cr

A performing ensemble of woodwind, brass and percussion instrumentalists with an emphasis on concert band literature and live performance. Open to music majors and non-majors with prior instrumental performance experience in high school, junior college, or at the university level. No audition is required for this ensemble and is open to the entire campus community as well as faculty and staff.

MUO 538 Flute Choir 0.5 cr

The study of performance of literature for all combinations of flutes.

MUO 539 Trumpet Ensemble 0.5 cr

The study and performance of literature for all combinations of trumpets.

MUO 540 Horn Choir 0.5 cr

The study and performance of literature for all combinations of horns.

MUO 541 Trombone Choir 0.5 cr

The study and performance of literature for all combinations of trombones.

MUO 542 Tuba - Euphonium Ensemble 0.5 cr

The study and performance of literature for all combinations of tubas and euphoniums.

MUO 543 Brass Choir 0.5 cr

The study and performance of literature for large brass ensemble.

MUO 544 USA Steel Band 0.5 cr

The study and performance of literature for steel band including the traditional styles of soca and calypso music from the Caribbean. Instructor permission required.

MUO 545 Clarinet Ensemble 0.5 cr

The study and performance of literature for all combinations of clarinets.

Music Studio (MUS)**MUS 201 Intro to Music Edu Technology 2 cr**

Application of current Music Technology for the N-12 curriculum. Laboratory experience is given in selected software programs appropriate to music education.

Prerequisite: MUT 113 Minimum Grade of C

MUS 202 Vocal Diction I 1 cr

A lecture/performance course, rooted in the International Phonetic Alphabet (IPA), designed to enable singers to analyze and perform vocal repertoire in English and Italian. Prerequisite: Open to music majors and minors only.

MUS 203 Vocal Diction II 1 cr

A lecture/performance course, rooted in the International Phonetic Alphabet (IPA), designed to enable singers to analyze and perform vocal repertoire in French and German.

Prerequisite: MUS 202 Minimum Grade of D

MUS 204 Introduction to Music Business 3 cr

A general overview of the music industry is the primary objective of the course. Some emphasis will be placed on career options.

MUS 304 Principles of Music Business I 3 cr

A continuation of MUS 204, 304 will place emphasis on the legal aspects of the music industry.

Prerequisite: MUS 204 Minimum Grade of D

MUS 305 Principles Music Business II 3 cr

A continuation of MUS 304, 305 will address marketing and promoting in music.

Prerequisite: MUS 304 Minimum Grade of D

MUS 404 Recording Technology 2 cr

This course provides an overview of analog and digital audio, introduces students to basic recording/mixing tools and topics include: microphone and mixer preparation, studio and computing capture/edit. Also addressed: project management, assets, and project.

Prerequisite: MUT 213 Minimum Grade of C

MUS 421 Music - Sound and Multimedia 2 cr

This course familiarizes students with the techniques and materials for incorporating sound and music in the Wintel and Macintosh multimedia environments. Topics to be addressed will include making music with and without MIDI, sound resources, special effects, commercial libraries and sounds, digital sequencing, authoring environments, and legal issues.

MUS 422 Sequencing 2 cr

To familiarize students with professional-level music sequencing software, hardware, and techniques. Students will gain practical skills with MIDI recording, playback, and editing.

MUS 470 Internship Music Bus 9-12 cr

Internship is a program that provides qualified university students with supervised experience in production practices, management techniques, research applications, personnel matters, and other activities found in the modern music industry. Prerequisites: Completion of the Music Industry Concentration core including College of Business course requirements, permission of the participating business-organization, and approval of the departmental internship coordinator and department chair.

MUS 490 Special Topics 1-3 cr

This course introduces students to fundamental techniques and materials for working with studio-quality sound, hardware and software. Topics will be drawn from: MIDI/music networks, graphic notation, MIDI controllers/sequencers, sampling basics, and film and video synchronization fundamentals. May be repeated for a maximum of nine credit hours.

Prerequisite: MUS 421 Minimum Grade of D and MUS 422 Minimum Grade of D

MUS 499 Senior Honors Proj in Music-H 3-6 cr

With the guidance and advice of a faculty mentor, Honors Students will identify, and carry out a research project in music. The outcome of the research project will include a written report and formal presentation at the annual Honors Student Colloquium. The senior project will be judged and graded by three members of the faculty, chaired by the faculty mentor. Requires permission of department chair.

MUS 501 Music Education Technology 3 cr

Application of current Music Technology for the N-12 curriculum. Laboratory experience is given in selected software programs appropriate to music education.

MUS 521 Music - Sound and Multimedia 3 cr

To familiarize students with the techniques and materials for incorporating sound and music in the multimedia environment. Topics to be addressed will include making music with and without MIDI, sound resources, special effects, commercial libraries and sounds, digital sequencing, authoring environments, and legal issues.

MUS 522 Sequencing 2 cr

This course familiarizes students with professional-level music sequencing software, hardware, and techniques. Students will gain practical skills with MIDI recording, playback, and editing. Instructor permission required.

MUS 585 Practicum in Coll Keyboard 2 cr

The Director for Collaborative Keyboard studies will meet with the student enrolled in MUS 585 to assign literature, which will be studied during the semester. Assignments may include several selections with vocalists, as well as collaboration with strings, woodwinds and brass. The goal of the course is to gain practical experience as collaborator studying standard repertoire with a varied group of vocalists and instrumentalists.

MUS 587 Arranging for Percussion 1 cr

The analysis of existing musical works from various genres and the ability to create effective musical arrangements scored only for percussion instruments.

MUS 590 Sp Top in Music Technology 1-3 cr

Special topics in Music Technology. May be repeated for a maximum of 9 hours.

Prerequisite: MUS 522 Minimum Grade of D

Music Theory (MUT)**MUT 112 Basic Music Theory I 3 cr**

Integrated course in aural and non-aural music theory including music skills, part writing analysis, counterpoint, sight singing, dictation, keyboard harmony, and computer applications in part writing and ear training.

MUT 113 Basic Music Theory II 3 cr

Elementary part-writing in two, three, and four voices. Sight-singing, ear-training, and keyboard harmony. Must be taken in sequence.

Prerequisite: MUT 112 Minimum Grade of C

MUT 212 Intermediate Music Theory I 3 cr

A continuation of elementary theory. Chromatic harmony and remote modulation; sight-singing, ear training, keyboard harmony. Must be taken in sequence.

Prerequisite: MUT 113 Minimum Grade of C

MUT 213 Intermediate Music Theory II 3 cr

A continuation of elementary theory. Chromatic harmony and remote modulation; sight-singing, ear-training, keyboard harmony. Must be taken in sequence.

Prerequisite: MUT 212 Minimum Grade of C

MUT 312 Integrated Analytical Tech I 2 cr

This is the first semester of a two semester sequence designed to familiarize students with the rudiments of formal analysis, counterpoint, and practical orchestration for 18th, 19th, and 20th century music - particularly emphasizing classical, jazz, pop, and selected world-music styles.

Prerequisite: MUT 213 Minimum Grade of C

MUT 313 Integrated Analytical Tech II 2 cr

This is the second semester of a two semester sequence designed to familiarize students with the rudiments of formal analysis, counterpoint, and practical orchestration for 18th, 19th, and 20th century musics- particularly emphasizing classical, jazz, pop, and selected world-music styles.

Prerequisite: MUT 312 Minimum Grade of C

MUT 314 Introduction to Composition 2 cr

Compositional techniques and the writing of original compositions for solo instruments and small ensembles.

Prerequisite: MUT 213 Minimum Grade of D

MUT 361 Fundamentals of Conducting 3 cr

Basic baton technique; simple and complex rhythms; score reading; practical choral and instrumental conducting techniques.

Prerequisite: MUT 213 Minimum Grade of D

MUT 362 Instrumental Conducting 3 cr

Advanced baton technique; psychology of rehearsal; interpretative and conducting techniques for instrumental organization.

Prerequisite: MUT 361 Minimum Grade of D

MUT 364 Choral Cond and Lit 3 cr

Advanced conducting with attention to the harmonic and formal analysis of choral works; special emphasis on performance practice.

Prerequisite: MUT 361 Minimum Grade of D

MUT 412 Orchestration 2 cr

The techniques of scoring for the orchestra, band, and small ensembles.

Prerequisite: MUT 213 Minimum Grade of D

MUT 413 Band Arranging 2 cr

The techniques of scoring for the modern concert wind band. Offered in alternate years.

Prerequisite: MUT 213 Minimum Grade of D

MUT 421 Composition I 3 cr

Original work in musical composition. To be taken in sequence. Offered by special arrangement only.

Prerequisite: MUT 314 Minimum Grade of D

MUT 422 Composition II 3 cr

Original work in musical composition. To be taken in sequence. Offered by special arrangement only.

Prerequisite: MUT 421 Minimum Grade of D

MUT 431 Jazz Improvisation I 2 cr

The study of elementary improvisation techniques used in contemporary jazz performance. Instructor permission required.

MUT 432 Jazz Improvisation II 2 cr

The study of intermediate to advanced improvisation techniques used in contemporary jazz performance. Instructor permission required.

MUT 490 Special Topics - 1-3 cr

Special topics in music theory and composition. May be repeated for a maximum of six hours credit when content varies.

MUT 512 Intro Analysis of Music Lit 4 cr

Introduction to the techniques of analysis applied to a selection of music literature emphasizing works from the seventeenth century to the middle of the twentieth century.

MUT 513 Pedagogy of Theory 1-4 cr

Practices and principles of teaching music theory, emphasizing most desirable and practical offerings possible. A comparative survey of current systems and materials for teaching music theory and aural skills. Review of materials and methods used in teaching the written music theory sequence and in teaching aural skills (music dictation and sight singing). Includes review of textbooks and technology used in the classroom.

MUT 531 Jazz Improvisation I 2 cr

The study of elementary improvisation techniques used in contemporary jazz performance. Instructor permission required.

MUT 532 Jazz Improvisation II 2 cr

The study of intermediate to advanced improvisation techniques used in contemporary jazz performance. Instructor permission required.

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
ABEND, ROBERT DAVID (robertabend@southalabama.edu)	Music	Assistant Professor	BME, Eastern Michigan University MM, Western Michigan University DMA, Michigan State University
BOHNET, ANDRA COOK (abohnet@southalabama.edu)	Music	Professor	BM, University of The Pacific MM, University of Southern CA PHD, Texas Tech University
DURANT, DAVID ZELL (ddurant@southalabama.edu)	Music	Professor	BM, University of Florida MM, University of Florida DMA, University of Alabama
FRANKLIN, KIP EDWARD (kipfranklin@southalabama.edu)	Music	Associate Professor	BM, Central Michigan University MM, Michigan State University MM, Michigan State University DMA, Michigan State University
HEAVNER, TRACY LEE (theavner@southalabama.edu)	Music	Professor	BME, Appalachian State University MME, Appalachian State University DME, University of Northern CO
HOLM, ROBERT E. (rholm@southalabama.edu)	Music	Professor	BA, Point Loma Nazarene University MM, University of Illinois-Urbana DMA, University of Illinois-Urbana
LEE, DOREEN CYNTHIA (doreenlee@southalabama.edu)	Music	Assistant Professor	BA, University of CA-Los Ang MM, Johns Hopkins University DMA, University of Colorado-Boulder

MADDOX, CLAYTON (claytonmaddox@southalabama.edu)	Music	Instructor	BM, University of Alabama MM, University of Memphis DMA, Louisiana State University
MOORE, LAURA M. (lauramoore@southalabama.edu)	Music	Associate Professor	BA, Davidson College MM, Johns Hopkins University MM, University of NC- Greensboro DMA, University of NC- Greensboro
PETERSEN, WILLIAM HANKS (wpetersen@southalabama.edu)	Music	Associate Professor	BME, Indiana University- Bloomington MM, Indiana University-Bloomington
ROWELL, THOMAS LAMAR (trowell@southalabama.edu)	Music	Professor	DM, Indiana University-Bloomington BM, Union University MM, Austin Peay State University DMA, Southwestern Baptist Theolog Sem
VANDE WAA, ARIE JOHN (ajvandewaa@southalabama.edu)	Music	Assistant Professor	BM, University of South Alabama MM, University of Alabama DM, University of Alabama
WOOD, PETER J. (pwood@southalabama.edu)	Music	Professor	BS, University of Illinois-Urbana MM, University of Wisconsin-Madis DM, Indiana University-Bloomington
ZOGHBY, LINDA V. (lzoghby@southalabama.edu)	Music	Assistant Professor	BM, Florida State University MM, Florida State University

General Education Requirements

Code	Title	Hours
Area I - Written Composition		
A. Complete the following:		
EH 101	English Composition I	3
B. Complete the following:		
EH 102	English Composition II	3
Area II - Humanities & Fine Arts		
A. Complete the following:		
CA 110	Public Speaking	3
B. Select one of the following: see footnote table below (p. 300) ^{1,2}		
EH 215	Brit Lit before 1785	3
EH 216	Brit Lit after 1785	3
EH 225	Am Lit before 1865	3
EH 226	Am Lit after 1865	3
EH 235	World Lit before 1650	3
EH 236	World Lit after 1650	3
Area III – Natural Sciences & Mathematics		
A. Select 3-4 hours from the following:		
MA 110	Finite Mathematics	3-4
MA 111	Math in Society	3-4
MA 112	Precalculus Algebra	3-4
MA 113	Precalculus Trigonometry	3-4
MA 115	Precal Algebra-Trigonometry	3-4
MA 120	Calculus and Its Applications	3-4
MA 125	Calculus I	3-4
MA 126	Calculus II	3-4
MA 227	Calculus III	3-4
MA 237	Linear Algebra I	3-4
MA 238	Differential Equations I	3-4

B. Select 8-10 hours from the following: 8-10

AN 121 & 121L	Biological Anthropology and Biological Anthropology Lab
BLY 101 & 101L	Life Science I and Life Science I Laboratory
or BLY 121 & 121L	General Biology I and General Biology I Lab
BLY 102 & 102L	Life Science II and Life Science II Lab
or BLY 122 & 122L	General Biology II and General Biology II Laboratory
BMD 110	Introduction to A & P I
BMD 111	Introduction to A & P II
CH 101 & 101L	Survey of Inorg and Org Chem and Survey Inorg-Org Chem Lab
CH 131 & 131L	General Chemistry I and General Chemistry I Lab
CH 132 & 132L	General Chemistry II and General Chemistry II Lab
GEO 101 & 101L	Environmental Geography and Environmental Geography Lab
GEO 102 & 102L	Earth and the Environment and Earth and the Environment Lab
GY 111 & 111L	Physical Geology and Physical Geology Lab
GY 112 & 112L	Earth History and Earth History Lab
MAS 134 & 134L	Ocean Science and Ocean Science Lab
PH 101 & 101L	Introduction to Astronomy and Introduction to Astronomy Lab

PH 104 & 104L	Concepts of Physics and Concepts of Physics Laboratory
PH 114 & 114L	Physics with Algebra-Trig I and Alg-Trig Based Physics I Lab
or PH 201 & 201L	Calculus-Based Physics I and Calculus-Based Physics I Lab
PH 115 & 115L	Physics with Algebra -Trig II and Alg-Trig Based Physics II Lab
or PH 202 & 202L	Calculus-Based Physics II and Calculus-Based Physics II Lab

Area IV – History, Social & Behavioral Sciences

A. Select one of the following:	3
HY 101	HY of Western Civilization I
HY 102	HY of Western Civilization II
HY 121	World Civilization I
HY 122	World Civilization II
HY 135	US History to 1877
HY 136	US History since 1877
B. Select three of the following: see footnote table below (p. 300) ⁴	9
AN 100	Intro to Cultural Anthropology
AN 101	Intro Archaeology-Bio Anthro
CA 100	Intro to Communication
CA 211	Interpersonal Comm
CJ 105	Introduction to Criminal Justice
ECO 215	Prin of Microeconomics (see footnote table below (p. 300)) ³
ECO 216	Prin of Macroeconomics (see footnote table below (p. 300)) ³
GEO 114	People, Places, Environment
GEO 115	World Regional Geography
GS 101	Intro to Gender Studies
HY 101	HY of Western Civilization I
HY 102	HY of Western Civilization II
HY 121	World Civilization I
HY 122	World Civilization II
HY 135	US History to 1877 (see footnote table below (p. 300)) ³
HY 136	US History since 1877 (see footnote table below (p. 300)) ³
IS 100	Global Issues
IST 201	Seasons of Life
NAS 101	Intro Native American Studies
PSC 130	Intro to US Government
PSY 120	Introduction to Psychology
PSY 250	Life Span Development
SY 109	Introductory Sociology
SY 112	Social Problems

Area V

A. Complete the following:	
CAS 100	First Yr Exp -

Total Hours 37-40**Footnote**

- Students must complete a 6 credit hour sequence either in literature (Area II – EH 215 & EH 216, EH 225 & EH 226, or EH 235 & EH 236) or history (Area IV – HY 101 & HY 102 or HY 121 & HY 122 or HY 135 & HY 136).
- Students must select a six-hour sequence in literature or history. If a literature sequence is selected, choose a 6 hour sequence of EH 215 and EH 216, EH 225 and EH 226, or EH 235 and EH 236.
- Recommended Course
- No more than 6 hours in any one discipline may be counted.

Music (BM) - Elective Studies in Business Concentration**Degree Requirements**

Music Literature		
A. Complete the following:		
MUL 235	Survey Musical Masterworks I	2
MUL 236	Survey Musical of Masterwks II	2
MUL 335	History of Music I - W	3
MUL 336	History of Music II - W	3
Applied Music		
A. Complete 8 hours from the following:		
MUA/B2**		8
B. Complete 6 hours from the following:		
MUA/B3**		6
MUA 400	Senior Recital	0
Major Ensemble		
A. Select four hours from the following:		
MUO 111	University Concert Choir	4
MUO 115	Chorale	
MUO 116	USA Opera Theatre	
MUO 117	University Symphony Band	
MUO 127	Wind Ensemble	
MUO 130	University Marching Band	
MUO 133	University Orchestra	
MUO 137	University Band	

B. Select three hours from the following:	3
MUO 411 University Concert Choir	
MUO 415 Chorale	
MUO 416 USA Opera Theatre	
MUO 417 University Symphony Band	
MUO 427 Wind Ensemble	
MUO 430 University Marching Band	
MUO 433 University Orchestra	
MUO 437 University Band	

Recital Class

A. Complete six semesters of the following:

MUA 100 Recital Class	0
-----------------------	---

Piano

Select one four hour sequence: 4

Option 1

MUE 102 Elementary Class Piano	
MUE 103 Elementary Class Piano	
MUE 202 Intermediate Class Piano	
MUE 203 Intermediate Class Piano	

Option 2

MUE 213 Adv Keyboard Musicianship II	
MUE 212 Adv Keyboard Musicianship I	
MUE 312 Adv Keyboard Music III Vocal	
MUE 313 Adv Keyboard Music IV Inst	

Concentration Requirements For Elective Studies In Business 35

Music Business

A. Complete the following:

MUS 204 Introduction to Music Business	3
MUS 304 Principles of Music Business I	3
MUS 305 Principles Music Business II	3
MUS 404 Recording Technology	2

Business

B. Complete the following:

ACC 211 Financial Accounting	3
ACC 212 Managerial Accounting	3
ECO 215 Prin of Microeconomics	3
ECO 216 Prin of Macroeconomics	3
MKT 320 Principles of Marketing	3

Internship

C. Complete the following:

MUS 470 Internship Music Bus	9-12
------------------------------	------

Minor Requirements

A minor is not required for this degree program 0

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

<i>Music Core Requirements</i>		<i>54</i>
Music Theory		
A. Complete the following:		
MUT 112	Basic Music Theory I	3
MUT 113	Basic Music Theory II	3
MUT 212	Intermediate Music Theory I	3
MUT 213	Intermediate Music Theory II	3
MUT 312	Integrated Analytical Tech I	2
MUT 313	Integrated Analytical Tech II	2
MUT 361	Fundamentals of Conducting	3
Music Literature		
A. Complete the following:		
MUL 235	Survey Musical Masterworks I	2
MUL 236	Survey Musical of Masterwks II	2
MUL 335	History of Music I - W	3
MUL 336	History of Music II - W	3
Applied Music		
A. Complete 8 hours of the following:		
MUA/B2**		2
B. Complete 6 hours of the following:		
MUA/B3**		2
C. Complete the following:		
MUA 400	Senior Recital	0
Major Ensemble		
A. Select four hours from the following:		
MUO 111	University Concert Choir	
MUO 115	Chorale	
MUO 116	USA Opera Theatre	
MUO 117	University Symphony Band	
MUO 127	Wind Ensemble	
MUO 130	University Marching Band	
MUO 133	University Orchestra	
MUO 137	University Band	
B. Select three hours from the following:		
MUO 411	University Concert Choir	3

¹ Core

MUO 415	Chorale
MUO 416	USA Opera Theatre
MUO 417	University Symphony Band
MUO 427	Wind Ensemble
MUO 430	University Marching Band
MUO 433	University Orchestra
MUO 437	University Band

Recital Class

A. Complete 6 semesters of the following:

MUA 100	Recital Class	0
---------	---------------	---

Piano

Select one four hour sequence: 4

Option 1

MUE 102	Elementary Class Piano
MUE 103	Elementary Class Piano
MUE 202	Intermediate Class Piano
MUE 203	Intermediate Class Piano

Option 2

MUE 212	Adv Keyboard Musicianship I
MUE 213	Adv Keyboard Musicianship II
MUE 312	Adv Keyboard Music III Vocal
MUE 313	Adv Keyboard Music IV Inst

Concentration Requirements For Elective Studies In Specific Outside Fields 6

Applied Music

A. Complete the following:

MUA/B3**	2
----------	---

Major Ensemble

A. Select one of the following: 1

MUO 411	University Concert Choir
MUO 415	Chorale
MUO 416	USA Opera Theatre
MUO 417	University Symphony Band
MUO 427	Wind Ensemble
MUO 430	University Marching Band
MUO 433	University Orchestra
MUO 437	University Band

Upper Division Electives

A. Select six hours from the following: 6

MUE 300 - MUE 499
MUL 300 - MUL 499
MUO 300 - MUO 499
MUT 300 - MUT 499

Minor Requirements

A minor is required for this degree program 18-21

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one of which must be in the student's major or minor.

¹ Core² Gen Ed, see General Education Requirements³ Concentration

No courses for the Baccalaureate music core or concentration are offered during the Maymester or summer semester.

Music (MM) - Collaborative Keyboard Concentration

Degree Requirements

Degree Requirements and Courses

Students must complete a minimum of 32 semester hours of credit in approved 500-level courses. A minimum of 20 semester hours must be completed at the University of South Alabama. Up to 12 hours of USA courses taken while in another program (or non-degree status) may be applied. Only courses not applied to another degree may count. Maximum of 12 hours with grades of "A", "B", or "S" of approved transfer credit is allowed. If the university is non-accredited, the individual USA graduate program will determine if the quality and content of the courses meet the standards of the program.

Grade Requirements

- A minimum of a 3.0 GPA on all work attempted is required for graduation.
- Courses in which a student receives a "D" or below will not be counted toward the degree program.
- A maximum of two courses with a grade of "C" will be counted toward the degree program.

- Students receiving four grades of "C" or below, regardless of the overall GPA will be dismissed from the program.
- A student who receives a failing grade in a course for graduate credit may be dismissed from the program.

Time Limitations

- All degree requirements must be completed within seven calendar years.
- Most students who take nine hours per semester complete the degree within a two-year period.
- The time required for degree completion depends on how many courses a student can take each semester and the ability of that student to complete the recital(s) or final project(s).

Course Load

Six to ten credit hours per semester constitute a full-time course load.

Collaborative Keyboard Degree Checklist

(15 Courses, 32 Hours)

- All master's degree students will be advised by the Graduate Music Program Coordinator to ensure timely completion of the curriculum.
- The time required for degree completion depends on how many courses a student can take each semester and the ability of that student to complete the recital(s) or final project(s).

Total Hours		32

Comprehensive Exams

Each student will be evaluated to ensure achievement of program outcomes. This evaluation may be in the form of a comprehensive exam or other measurement tools, such as a recital. If unsatisfactory, after corrective action, the evaluation may be repeated up to two (2) times. Eligibility for graduation is contingent upon successful completion of the degree requirements specified by both the University and the Department of Music, including

1. Completion of all coursework with a minimum grade point average of 3.0 (A=4.0) and

- Successful completion of comprehensive examinations after all course work is completed.

Approval of committee must be secured no less than two weeks prior to the scheduled date of the recital. The Graduate Coordinator will complete the "USA Graduate School Comprehensive Examination Committee Appointment Request and Evaluation Report" Form prior to recital. The Student will sign the form upon notification of recital results. A recital program will be attached and the form with program will be sent to the Graduate College.

Music (MM) - Music Education Concentration

Degree Requirements

Degree Requirements and Courses

Students must complete a minimum of 35 semester hours of credit in approved 500-level courses. A minimum of 20 semester hours must be completed at the University of South Alabama. Up to 12 hours of USA courses taken while in another program (or non-degree status) may be applied. Only courses not applied to another degree may count. Maximum of 12 hours with grades of "A", "B", or "S" of approved transfer credit is allowed. If the university is non-accredited, the individual USA graduate program will determine if the quality and content of the courses meet the standards of the program.

Total Hours **35**

Reading and Conference (MUE 589)

Students submit one Portfolio/Final Project to the faculty committee three weeks prior to an oral examination during finals week of the semester of graduation with two of the following:

- A video recording (min. 35 minutes) of the candidate's teaching or conducting, illustrating the students learning/rehearsing process with notable progress, accompanied by a written self-critique;
- A project representing pedagogical work in music education (e.g. choral arrangement; folk song collection and analysis; curriculum project; marching band unit; a composition or arrangement or set of compositions or arrangements with notes for rehearsal and/or performance)
- A paper demonstrating knowledge of music or teaching specialization (e.g. a history, theory or research paper; an article published in a music teaching periodical)

Comprehensive Exams

Each student will be evaluated to ensure achievement of program outcomes. This evaluation may be in the form of a comprehensive exam or other measurement tools, such as a recital. If unsatisfactory, after corrective action, the evaluation may be repeated up to two (2) times. Eligibility for graduation is contingent upon successful completion of the degree requirements specified by both the University and the Department of Music, including

1. Completion of all coursework with a minimum grade point average of 3.0 (A=4.0) and
2. Successful completion of comprehensive examinations after all course work is completed.

Approval of committee must be secured no less than two weeks prior to the scheduled date of the recital. The Graduate Coordinator will complete the "USA Graduate School Comprehensive Examination Committee Appointment Request and Evaluation Report" Form prior to recital. The Student will sign the form upon notification of recital results. A recital program will be attached and the form with program will be sent to the Graduate College.

Music (MM) - Music Education Concentration - (Alternative Choral or Instrumental)

Degree Requirements

Degree Requirements and Courses

This program is designed to provide initial teacher preparation at the graduate level primarily for students interested in pursuing a career in teaching but whose undergraduate degree did not include a teacher education program. Students must complete a minimum of 46 semester hours of credit in approved 500-level courses. A minimum of 20 semester hours must be completed at the University of South Alabama. Up to 12 hours of USA courses taken while in another program (or non-degree status) may be applied. Only courses not applied to another degree may count. Maximum of 12 hours with grades of "A", "B", or "S" of approved transfer credit is allowed. If the university is non-accredited, the individual USA graduate program will determine if the quality and content of the courses meet the standards of the program.

Grade Requirements

- A minimum of a 3.0 GPA on all work attempted is required for graduation.
- Courses in which a student receives a "D" or below will not be counted toward the degree program.
- A maximum of two courses with a grade of "C" will be counted toward the degree program.
- Students receiving four grades of "C" or below, regardless of the overall GPA will be dismissed from the program.
- A student who receives a failing grade in a course for graduate credit may be dismissed from the program.

Time Limitations

- All degree requirements must be completed within seven calendar years.
- Most students who take nine hours per semester complete the degree within a two-and-a-half-year period.
- The time required for degree completion depends on how many courses a student can take each semester and the ability of that student to complete the recital(s) or final project(s).

Course Load

Six to ten credit hours per semester constitute a full-time course load.

Music Education ALT. Choral or ALT. Instrumental Degree Checklist

(14 Courses, 46 Hours)

- All master's degree students will be advised by the Graduate Music Program Coordinator to ensure timely completion of the curriculum.
- The time required for degree completion depends on how many courses a student can take each semester and the ability of that student to complete the recital(s) or final project(s).

Total Hours		46

Internship in Music Education

The internship is a supervised learning experience in a work setting similar to that in which the educator will eventually be employed. The internship provides the student an opportunity to apply the theories and concepts learned during the graduate program of study. Students enroll in the internship during the final semester of study after all other degree coursework.

Alabama State Department of Education Certification Requirements

A Student applying for initial teacher certification will be required to pass the appropriate Praxis II test (s) and have a successful score on his/her edTPA portfolio. ALSDE certification requirements are subject to change and students will be required to meet those which are in place the semester they are applying for certification. Prior to registering for any Praxis II exam, please verify current requirements by going directly to the ALABAMA portion of the Praxis II website at:

<https://www.ets.org/praxis/al> (<https://www.ets.org/praxis/al/>)

Music (MM) - Performance Concentration (Piano, Voice, Brass, Percussion, Woodwinds)

Degree Requirements

Degree Requirements and Courses

Students must complete a minimum of 32 semester hours of credit in approved 500-level courses. A minimum of 20 semester hours must be completed at the University of South Alabama. Up to 12 hours of USA courses taken while in another program (or non-degree status) may be applied. Only courses not applied to another degree may count. Maximum of 12 hours with grades of "A", "B", or "S" of approved transfer credit is allowed. If the university is non-accredited, the individual USA graduate program will determine if the quality and content of the courses meet the standards of the program.

Grade Requirements

- A minimum of a 3.0 GPA on all work attempted is required for graduation.
- Courses in which a student receives a "D" or below will not be counted toward the degree program.
- A maximum of two courses with a grade of "C" will be counted toward the degree program.
- Students receiving four grades of "C" or below, regardless of the overall GPA will be dismissed from the program.
- A student who receives a failing grade in a course for graduate credit may be dismissed from the program.

Time Limitations

- All degree requirements must be completed within seven calendar years.
- Most students who take nine hours per semester complete the degree within a two-year period.
- The time required for degree completion depends on how many courses a student can take each semester and the ability of that student to complete the recital(s) or final project(s).

Course Load

Six to ten credit hours per semester constitute a full-time course load.

Note: No more than twelve credits in this area are applicable toward a degree.

Performance Degree Course Requirements by Concentration

- All master's degree students will be advised by the Graduate Music Program Coordinator to ensure timely completion of the curriculum.
- The time required for degree completion depends on how many courses a student can take each semester and the ability of that student to complete the recital(s) or final project(s).
- Select Concentration for specific requirements

Native American Studies Staff

Title	Name
Co-Directors	Dr. Philip J. Carr
Affiliates	Dr. Patrick Cesarini
	Dr. Deidra Suwanee Dees
	Dr. Sam Fisher
	Dr. Kevin Meeker
	Dr. Erin Nelson
	Dr. Elizabeth Rivenbark
	Dr. Phillip Smith

The Native American Studies Minor provides an interdisciplinary approach to understanding the experience of the Indigenous people of North America through courses in the humanities and social sciences. Employing course work across various disciplines, the minor examines both historical and contemporary issues from the perspective of Native Americans. The Native American Studies minor allows students to augment a wide range of majors, and position them for employment in government, education, and other areas by providing an increased understanding of the unique history, cultural traditions, and political

status of Native Americans. The field of Native American Studies works to demonstrate the relevance of the American Indian perspective to the contemporary economic, political, and social issues locally and around the world.

For a description of these courses, please refer to the appropriate departments. For further information about the program contact

Degrees, Programs, or Concentrations

- Native American Studies Minor (p. 321)

Courses

African-American Studies (AFR)

AFR 101 Intro to African Amer Studies 3 cr

An interdisciplinary investigation of the origins, experiences, conditions, accomplishments and contributions of people of African ancestry in the United States.

College of Arts/Sciences (CAS)

CAS 100 First Yr Exp - 2 cr

A course for first-year students majoring in the College of Arts & Sciences that assists with maximizing the student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by college life. Taught in small groups, the course provides an introduction to the nature of higher education and a general orientation to the functions and resources of the University.

CAS 190 Special Topics - 1-3 cr

This variable content course deals with selected topics from any of the disciplines in the College of Arts and Sciences. Topics will focus on current and relevant issues and may contain a service-learning component. The course may be repeated for credit when the topic varies for a maximum of six credit hours.

Gerontology (GRN)

GRN 272 Gender and Aging 3 cr

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Gender Studies (GS)**GS 101 Intro to Gender Studies 3 cr**

This course provides an interdisciplinary, multicultural overview of the concept of gender and gender roles in patriarchal society. This course examines the social construction of gender in our society and how that has shaped such areas as economics, politics, cultural/social values, and the impact upon women and men in historical and contemporary terms.

GS 290 Sp Tp-#MeToo, Black Lives Matter & Beyond 3 cr

Study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 301 Moving Beyond Diversity 3 cr

This course explores ways of fighting injustice and dismantling systemic oppression for those who are being disproportionately impacted generationally. The course offers a framework for activism that focuses on creating a culture that stands up for what is right by fighting against normalizing cycles of perpetuated injustices. Students will examine diverse perspectives that center on the capacity to mobilize solidarity for those efforts, strategies, and practices that negate performative allyship with systems-changing action for today's realities.

GS 302 Black Women and Activism 3 cr

This fully online three-hour credit course is interdisciplinary in nature and addresses the need to recognize and validate contributions made by Black women that sought and continue to uplift Black America throughout the late 19th and early 21st centuries. This cadre of activism will be contextualized through both womanist and feminist theories. Central to these works will be an examination for how multiple oppressions have shaped Black women's lives throughout their ongoing efforts to redefine self and bring empowerment to their communities through racial solidarity and advancement as a people. These women's underlying resistance strategies and intellectual discourse for offsetting the negative effects of racism and other oppressive measures will be mirrored through the use of race and gender as a socio-political construct. A postmodern response depicted through the lens of contemporary Black feminists for how both mainstream feminism and Black America have responded to these heroic forms of activism will be analyzed. These activists' contributions will unfold through the following curricula foci: 1) early roots of nationalism, 2) the emergence of both Black Feminist and Womanist Thought, and 3) political movements involving Black women activists. Additional cornerstones for learning will include participating in a posting process that involve sharing research and writing projects which in return will facilitate lively discussions on today's black women activism from their own respective domain (e.g. music, spirituality, film, arts and letters, judicial system, the intellectual and socio-political arenas).

GS 304 #Me Too, Black Lives Matter & 3 cr

The velocity of national protests fighting for human rights across the constitutional continuum of justice, dignity, and safety have evolved into an epidemic throughout American infrastructures. This course will plunge into the #MeToo Era, Black Lives Matter, and Woke Movements. Significant visibility for how social constructs of gender, race, and sexuality intersect with these protesters' outcries will be examined. Further considerations will be given to exposing those accused of sexual violence on various fronts as well as existing allegations of wrongful deaths will be a part of the course curriculum. An added dimension to the curriculum will include also focusing on political strategies and an operative activism model that are being used to effectively penetrate these existing cultures of power and dominance.

GS 390 Special Topics 3 cr

Advanced study of selected topics with an area in gender studies. May be repeated for credit when content varies.

GS 490 Special Topics 3 cr

Advanced study of selected topics within an area in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 492 Gender Studies Seminar - 3 cr

Advanced study of selected topics in Gender Studies. May be repeated for credit when content varies for a total of six hours.

GS 494 Directed Studies 1-3 cr

Directed research under the guidance of a Gender Studies faculty member. Requires permission of instructor. Student is restricted to taking a maximum of six hours of Directed Studies.

Prerequisite: GS 101 Minimum Grade of D

GS 496 Internship - 3-6 cr

Practical learning through occupational or community work with an approved agency dealing with gender-related issues. Readings and final report supervised by gender studies faculty. Special Permission required.

Prerequisite: GS 101 Minimum Grade of D

Interdisciplinary Progs (IDS)**IDS 290 Special Topics 1-3 cr**

A study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 490 Special Topics 1-3 cr

Advanced study of selected topics of an interdisciplinary nature. May be repeated for credit when content varies. Requires permission of instructor.

IDS 590 Sp Top 1-9 cr

Specialized topics not generally listed in the course offerings. Requires consent of Graduate Director.

International Studies (IS)**IS 100 Global Issues 3 cr**

This course introduces students to the basic structural components of the global system, including the nation-state system and the world economy, and explores the major schools of thought in such areas as security, economic prosperity and development, international law, gender and environmental studies. The course helps students understand the complex and interlinked issues facing global society, and current problems, and view the U.S. within a broader global context.

IS 193 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 200 People-Nations - 3 cr

Variable content course focusing on particular nation or region of the world. Course offers a multi-disciplinary introduction to the people, society and politics. May be repeated for credit when content varies up to a total of 6 hours.

IS 210 Global Engagement Orientation 1 cr

This course introduces students to international global issues, allows students to identify opportunities for active engagement in these issues, and provides the framework for successful completion of the Global Engagement Certificate.

IS 290 Special Topics - 3 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 293 Study Abroad 1-6 cr

This course is an introductory International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and CJ 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 363, PSC 363

IS 371 Studies in Russia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Russian civilization. May be repeated for credit when content varies.

IS 372 Studies in E. Europe & C. Asia 3-6 cr

This course will cover specific topics in the history, politics, and culture of modern Eastern European and Central Asian civilizations. May be repeated for credit when content varies.

IS 390 Sp Top- 1-3 cr

Advanced study of selected topics within a particular concentration. May be repeated for credit when content varies.

IS 391 Study Abroad - 18 cr

Study of selected topics within a particular Area Studies Concentration. May be repeated.

IS 393 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 410 Global Engagement Capstone 1 cr

Global Engagement Capstone is required for students completing the Global Engagement Certificate (GEC), and is a one hour course designed to help students reflect on the 16 hours of coursework and nine hours of globally engaged activities they have completed. Students will create a portfolio during the course, which will be presented to students and affiliated faculty at its conclusion.

Prerequisite: IS 210 Minimum Grade of P

IS 473 International Law 3 cr

This course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 473, PSC 473

IS 489 Leadership and World Leaders 3 cr

An overview of the definitions, characteristics, and typologies of leadership, with a focus on lives and legacies of global influential political leaders over the past century.

Prerequisite: PSC 130 Minimum Grade of D or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of D

Cross-Listed: PSC 251, PSC 489

IS 490 Special Topics 3 cr

Advanced study of selected topics within a particular Area Studies Concentration. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with CJ 491 and PSC 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, PSC 491

IS 492 Seminar - 3 cr

Advanced study of selected topics in international studies from a comparative perspective. May be repeated for credit when content varies.

Prerequisite: IS 100 Minimum Grade of D

IS 493 Study Abroad 1-6 cr

This course is an advanced International Studies course taught as part of a faculty-led study abroad program. Topics and credit hours vary based on availability.

IS 494 Directed Studies 1-3 cr

Directed research in the field of international studies. May be repeated or credit up to a total of 9 hours. Prerequisite: permission of IS Director

IS 495 Senior Seminar - W 3 cr

The course seeks to provide an interdisciplinary and cross-regional overview of the fields and research opportunities within international studies.

Prerequisite: EH 102 Minimum Grade of C

IS 496 Prof St Internship - 3-9 cr

Practical learning experiences through occupational or professional work with an approved international organization, governmental agency, or international business Prerequisite: Permission of IS Director

IS 499 Senior Honors Thesis 3 cr

The course covers major theoretical perspectives in organizational psychology based on empirical research and case studies. Students will explore learning theory, group dynamics, and change in different types of learning organizations.

Prerequisite: (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

IS 591 Study Abroad 12 cr

Graduate level international exchange programs for University of South Alabama students.

Museum Studies (MUM)**MUM 201 Intro to Museum Studies 3 cr**

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

Native American Studies Minor**Degree Requirements**

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Native American Studies**Core Requirements**

1. Students must complete at least 18 credit hours in approved courses, of which, at least 9 hours must be taken at this University.
2. The courses must include at least one course from humanities and one from the social sciences.
3. All students must take NAS 101.
4. A minimum of nine hours must be at the course level 300 or above.

Philosophy

Department Information

Department of Philosophy website
<http://www.southalabama.edu/philosophy> (<http://www.southalabama.edu/philosophy/>)

Undergraduate Studies

Through reasoned reflection, philosophy seeks to understand human experience in all its various aspects. Courses examine the moral, social, political, aesthetic, and religious dimensions of human existence, topics in special fields such as science, and the historical development of philosophy. In these courses students can develop skills in the presentation, interpretation, analysis, and evaluation of differing viewpoints, and refine their own beliefs about deeply important issues. Philosophy majors can choose from three concentrations: Philosophy, Religion, or Classics.

General Education Requirements for Philosophy Majors

General Education Requirements for Philosophy are specified on the College of Arts and Sciences section.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following

entry. PHL 461 will fulfill the technology proficiency requirement for Philosophy majors.

Philosophy Majors can now fulfill the Minor requirement by taking one of the other concentrations offered.

- Majors concentrating in Classics can fulfill the Minor requirement by using Philosophy or Religion concentration.
- Majors concentrating in Philosophy can fulfill the Minor requirement by using Religion or Classics concentration.
- Majors concentrating in Religion can fulfill the Minor requirement by using Philosophy or Classics concentration.

Graduate Studies

Although the Department of Philosophy has no graduate program, graduate-level courses are offered for those students who need such work.

Degrees, Programs, or Concentrations

- Classics Minor (p. 329)
- Philosophy (BA) Classics Concentration (p. 329)
- Philosophy (BA) Philosophy Concentration (p. 330)
- Philosophy (BA) Religion Concentration (p. 331)
- Philosophy and Medicine Minor (p. 332)
- Philosophy Minor (p. 332)
- Religion Minor (p. 332)

Courses

Argument (ARG)

ARG 120 Critical Thinking 3 cr

This course will examine complex types of reasoning, including statistical judgment, decision making, and causal and analogical thinking. Emphasis will be placed on the analysis of concrete examples of reasoning in various fields. Students will learn how to evaluate arguments, fallacies, common errors, and biases in reasoning and decision making. Identical with PHL 120. Credit cannot be received for both ARG 120 and PHL 120. Fulfills the General Education requirement.

Cross-Listed: PHL 120

ARG 210 Argumentation 3 cr

Examines the role of argumentation in a democratic society and aims to develop critical thinking and reasoned advocacy. Course makes functional a knowledge of tests of evidence and the modes of logical reasoning. Students participate in various forms of argumentation and debating. Identical with ARG 210. Students cannot receive credit for both ARG 210 and CA 210.

Cross-Listed: CA 210

ARG 222 Rhetoric, Culture and Society 3 cr

Cross-Listed: CA 222

ARG 321 Symbolic Logic 3 cr

A study of sentential and predicate logics and related topics. Identical with 321. Credit cannot be received for both ARG 321 and PHL 321.

Cross-Listed: PHL 321

ARG 371 Approaches to English Grammar 3 cr

A course designed primarily to help education majors translate between the languages of conventional grammar and the syntactical grammar relevant to the teaching of English at Precollege levels. Consideration will also be given to the rationales basic to the formation of different grammars and to methods of presenting grammatical material in a classroom situation. Non-education majors interested in a sophisticated approach to the study of grammar might also benefit from this course. Identical with EH 371. Credit cannot be received for both ARG 371 and EH 371.

Prerequisite: EH 101 Minimum Grade of C and EH 102 Minimum Grade of C

Cross-Listed: EH 371

ARG 390 Special Topics - 3 cr

Different figures, periods, or topics of significance in Argument will be studied as announced. May be repeated, when content varies, for a total of six hours. Requires Sophomore, Junior or Senior standing.

ARG 402 Rhetoric: Ancient and Modern 3 cr

Readings in rhetorical theory, ancient and modern, are applied in specific writing assignments with encourage students to adopt a point of view and address a specific audience. Identical to EH 402. If credit for ARG 402 is received, then credit cannot be received for EH 402.

Prerequisite: EH 101 Minimum Grade of C and EH 102 Minimum Grade of C

Cross-Listed: EH 402

ARG 481 Studies in Rhetoric 3 cr

Seminar in specific topics dealing with writing, rhetoric, or language studies. May be repeated once for credit when course content varies. Identical with EH 481. Credit cannot be received for both ARG 481 and EH 481 when it is on the same specific topic. Junior standing required.

Prerequisite: EH 101 Minimum Grade of C and EH 102 Minimum Grade of C

Cross-Listed: EH 481

ARG 490 Special Topics - 3 cr

An investigation of issues and concepts in Argument for advanced undergraduate students. May be repeated, when content varies, for a total of six hours. Prerequisites: Junior or Senior standing.

ARG 492 Seminar 3 cr**ARG 494 Directed Studies- 1-3 cr**

Directed research in Argument under the guidance of a member of the department. Credit according to the magnitude of the individual project. May be repeated, if content varies, for a total of six hours. Prerequisites: Junior or Senior standing and approval of directing professor and department chair.

Classics (CLA)**CLA 103 Art History I 3 cr**

A survey of art and architecture of Europe and the Near East from the prehistoric to the end of the Gothic era. Identical with ARH 103. Credit cannot be received for both CLA 103 and ARH 103. Core Course.

Cross-Listed: ARH 103

CLA 105 Encounter with the Humanities 3 cr

Introduction to the various disciplines within the humanities with emphasis on the role each plays in a liberal arts education. Identical with AIS 105. Credit cannot be received for both CLA 105 and AIS 105. Core Course.

Cross-Listed: AIS 105

CLA 110 Intro Anc Greek Roman Culture 3 cr

A survey of the history, literature, philosophy, religion, art architecture, sociology, and political institutions of the Greek and Roman world with readings in translation from major Greek and Latin authors.

CLA 240 Western Philosophy: Classical 3 cr

Survey of classical Greek philosophy. The philosophers surveyed may include Presocratic philosophers, Socrates, Plato, Aristotle, and Hellenistic philosophers. Fulfills the General Education Requirement. Identical with PHL 240. Credit cannot be received for both CLA 240 and PHL 240.

Prerequisite: CA 101 Minimum Grade of D

Cross-Listed: PHL 240

CLA 290 Sp Top - 3 cr

Different figures, periods or topics of significance in Classics will be studied as announced. May be repeated, when content varies, for a total of six hours.

CLA 304 Ancient Greek Art Architecture 3 cr

Architecture, sculpture, and painting in Ancient Greece and the expansion and influence of Greek culture in the Ancient World.

Prerequisite: ARH 103 Minimum Grade of C or CLA 110 Minimum Grade of C

Cross-Listed: ARH 304

CLA 306 Roman Art 3 cr

Roman Art: Architecture, sculpture, and painting in Ancient Rome and its empire.

Prerequisite: (ARH 103 Minimum Grade of C or CLA 103 Minimum Grade of C) or CLA 110 Minimum Grade of C

Cross-Listed: ARH 306

CLA 310 Classical Mythology 3 cr

Through the disciplines of English and Philosophy, this course will provide a introduction to myths and to the literature that recounts the myths and to the literature that recounts the myths, legends, and folktales of ancient Greece and Rome. This course will also look at how different writers treat the material and why their treatments vary. Cross-listed with PHL 310, REL 310, and EH 310. Credit cannot be received for both CLA 310 and either PHL 310 or REL 310 or EH 310.

Prerequisite: (ACT English 27 or SAT Critical Reading 610 or University - EH101 Exempt P or EH 101 Minimum Grade of C or EH 110 Minimum Grade of D or EH 190 Minimum Grade of D or USA 010 Minimum Grade of S) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: EH 310, PHL 310, REL 310

CLA 311 Classical Political Thought 3 cr

The course examines the central themes of classical Western political philosophy through the reading and discussing of the primary works of such thinkers as Plato, Aristotle, Augustine, and Aquinas. (Cross-listed as PHL 311 and PSC 311).

Cross-Listed: PHL 311, PSC 311

CLA 390 Sp Top - 3 cr

Different figures, periods or topics of significance in Classics will be studied as announced. May be repeated, when content varies, for a total of six hours.

CLA 402 Rhetoric: Ancient and Modern 3 cr

Readings in rhetorical theory, ancient and modern, are applied in specific writing assignments which encourage students to adopt a point of view and address a specific audience.

Prerequisite: EH 101 Minimum Grade of C and EH 102 Minimum Grade of C

Cross-Listed: ARG 402, EH 402

CLA 454 Ancient Greek Culture 3 cr

Through the disciplines of History and Philosophy, ancient Greek culture, including its history, literature, philosophy, art and architecture will be examined.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

CLA 455 Ancient Roman Culture 3 cr

Through the disciplines of History and Philosophy, ancient Roman culture, including its history, literature, philosophy, art and architecture will be examined.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

CLA 492 Seminar - 3 cr

An in-depth investigation of figures, periods or topics in Classics for advanced undergraduates. May be repeated, when content varies, for a total of six hours.

CLA 494 Directed Studies 1-3 cr

Directed research in Classics under the guidance of a member of the department. Credit according to the magnitude of the individual project. May be repeated, if content varies, for a total of three hours.

Prerequisites: Junior or senior standing and approval of directing professor and department chair.

CLA 499 Honors Thesis -W 3-6 cr

Extended research paper prepared under the direction of thesis advisor plus two-person committee selected by advisor in consultation with student. **Prerequisites:** The student must have developed a proposal for the thesis in consultation with the advisor, and received permission for the work from the committee. In addition, the student must be a senior major or minor, have completed the common core, and have at least 3.3 GPA in the Classics concentration of the Philosophy major. Credit for this course is only given as an addition to the hours required for the major.

Prerequisite: (PHL 120 and PHL 240 (may be taken concurrently) and PHL 245 and PHL 321 and PHL 461 and PHL 310) or (REL 310 or CLA 310)

CLA 594 Directed Studies 3 cr

Directed research in philosophy under the guidance of a member of the department. May be repeated, if content varies, for a total of six hours. **Prerequisite:** Graduate Student in Department conferring a Graduate Degree (hence not open to Philosophy majors in any Concentration in Philosophy.)

Cross-Listed: PHL 594, REL 594

Philosophy (PHL)**PHL 110 Introduction to Philosophy 3 cr**

An introduction to philosophical analysis and criticism through a survey of the major branches of philosophy. Topics may include, but are not limited to: the mind/body problem, theory of knowledge, skepticism, ethics, political philosophy, aesthetics, and philosophy of religion. Fulfills the General Education Requirement.

PHL 120 Critical Thinking 3 cr

This course will examine complex types of reasoning, including statistical judgment, decision making, and causal and analogical thinking. Emphasis will be placed on the analysis of concrete examples of reasoning in various fields, including science, religion and theology, politics, law as well as alternative medicine and other non-traditional disciplines. Students will be encouraged to improve their own judgment and decision making by learning how to evaluate arguments and by learning about fallacies, common errors and biases in reasoning and decision making. There will also be extensive discussion on the relation between how people do reason and how they ought to reason. Fulfills the General Education Requirement.

Cross-Listed: ARG 120

PHL 121 Introduction to Logic 3 cr

Studies arguments: what they are, how to identify them, and how to judge their quality; and examines inductive and deductive arguments in both their informal and formal aspects. Fulfills the General Education Requirement. MA 110 or equivalent is recommended.

PHL 131 Introduction to Ethics 3 cr

Examines ideas about good and bad, right and wrong, and moral obligation through a survey of major ethical systems in western philosophy. The course includes consideration of how these ideas apply to moral problems and issues. Fulfills the General Education Requirement.

PHL 220 Medical Reasoning 3 cr

This course will examine complex types of reasoning, including statistical judgment, decision making and causal and analogical reasoning. Emphasis will be placed on the analysis of concrete examples of reasoning in the medical field. Students will learn how to evaluate arguments, fallacies, common errors, and biases in medical reasoning and decision making.

PHL 231 Social Ethics 3 cr

Readings and analyses of ethical issues in society. Topics may include euthanasia, sexual equality, sexual morality, censorship, world hunger, animal rights, the environment, and capital punishment. Fulfills the General Education Requirement.

PHL 233 Phil of Love-Friendship - W 3 cr

Love and friendship are investigated by a philosophical analysis of concepts embraced by the terms. Examples of the concepts are drawn from common life, religion, history, and literature.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

PHL 240 Western Philosophy: Classical 3 cr

Survey of classical Greek philosophy. The philosophers surveyed may include Presocratic philosophers, Socrates, Plato, Aristotle, and Hellenistic philosophers. Fulfills the General Education Requirement. Identical with CLA 240. Credit cannot be received for both PHL 240 and CLA 240.

Cross-Listed: CLA 240

PHL 242 Western Philosophy - Medieval 3 cr

A survey of Medieval Western Latin, Jewish and Islamic philosophers. Identical with REL 242. Credit cannot be received for both REL 242 and PHL 242.

Cross-Listed: REL 242

PHL 245 Renaissance-Enlightenment - W 3 cr

Survey of Western philosophy from F. Bacon to Kant with emphasis on the empiricists, rationalists, and Kant.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

PHL 251 Philosophy and Cognitive Sci 3 cr

A survey of central concepts and issues in cognitive science, including an informal introduction to automata theory, intelligent systems architecture, and the philosophical issues arising out of computational models of language and cognition.

PHL 290 Special Topics - 1-3 cr

Different themes and issues of philosophical significance will be studied as announced. May be repeated for a maximum of 9 hours.

PHL 301 Skepticism in Media-Philosophy 3 cr

This course examines some of the most fundamental questions about human knowledge, belief and rationality and compares the treatment of such issues in philosophical discussions and contemporary media, especially film. Identical with CA 301. Credit cannot be received for both CA 301 and PHL 301.

Prerequisite: EH 102 Minimum Grade of D or EH 105 Minimum Grade of D

Cross-Listed: CA 301

PHL 310 Classical Mythology 3 cr

Through the disciplines of English and Philosophy, this course will provide an introduction to myths and to the literature that recounts the myths, legends, and folktales of ancient Greece and Rome. This course will also look at how different writers treat the material and why their treatments vary. Credit cannot be received for both PHL 310 and either EH 310 or REL 310 or CLA 310.

Prerequisite: (ACT English 27 or SAT Critical Reading 610 or University - EH101 Exempt P or EH 101 Minimum Grade of C or EH 110 Minimum Grade of D or EH 190 Minimum Grade of D or USA 010 Minimum Grade of S) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: CLA 310, EH 310, REL 310

PHL 311 Classical Political Thought 3 cr

The course examines the central themes of classical Western political philosophy through the reading and discussing of the primary works of such thinkers as Plato, Aristotle, Augustine, and Aquinas. (Cross-listed as CLA 311 and PSC 311)

Cross-Listed: CLA 311, PSC 311

PHL 312 Renaissance Political Thought 3 cr

The course examines central themes of Renaissance and modern Western political philosophy through the reading and discussing of the primary works of such thinkers as Machiavelli, Hobbes, Locke, and Rousseau. (Cross-listed as PSC 312)

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PSC 312

PHL 313 Modern Political Thought - W 3 cr

The course examines central themes of modern Western political philosophy through the reading and discussing of the primary works of such thinker as Hegel, Mill, Marx, and Nietzsche. (Cross-listed as PSC 313)

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PSC 313

PHL 321 Symbolic Logic 3 cr

A study of sentential and predicate logics and related topics.

Cross-Listed: ARG 321

PHL 327 Philosophy of Science 3 cr

Studies such topics as method and explanation in the sciences; the demarcation between science and pseudoscience; realist and anti-realist views about scientific theories; the logic of scientific change; confirmation; reduction; laws of nature; underdetermination; and society, science, and values.

PHL 331 Constitutional Law 3 cr

The study of the principles of constitutional powers and liberties examined through an analysis of decisions and opinions by the U.S. supreme Court. (Cross-listed as CJ 331 and PSC 331)

Cross-Listed: CJ 331, PSC 331

PHL 333 Biomedical Ethics - W 3 cr

Ethical analyses of problems and issues in the biomedical and health-related fields. Topics may include genetic research and technology, abortion, health care, experimentation, and death and dying.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: BLY 333

PHL 334 Man and Technology 3 cr

Examines the most common impacts that technology is envisioned to have on both the spirit of the human person and the environment in which that person lives. Both the technologist and anti-technologist arguments will be explored.

PHL 336 The Law and Legal Theory 3 cr

Explores issues and problems in the area of law, including the nature and rule of law, the aims and roles of legal systems, morality, and law, obligations to obey the law, and systematic injustices related to race, ethnicity, gender. (Cross-listed as PSC 336 and CJ 336)

Cross-Listed: CJ 336, PSC 336

PHL 337 Liability and Punishment 3 cr

Explores theoretical issues and problems in the areas of law—especially criminal law—concerning liability and punishment. Topics to be examined include diminished capacity, theories of punishment, and capital punishment. (Cross-listed as PSC and CJ 337)

Cross-Listed: CJ 337, PSC 337

PHL 339 Philosophy of Culture 3 cr

Acquaints students with Cassirer's philosophy of culture, with emphasis on the unity of human experience as ramified into myth, language, religion, art, history, science, and politico-social life.

PHL 345 Post-Kant Anglo-American 3 cr

An examination of selected themes and issues in Anglo-American philosophy since 1800. Topics may include pragmatism, ideal language philosophy, and ordinary language philosophy.

Prerequisite: PHL 121 Minimum Grade of C or (PHL 321 Minimum Grade of C or PHL 324 Minimum Grade of C)

PHL 348 19th C Contl Phil-Lit Theory 3 cr

An examination of selected themes and issues in 19th Century Continental Philosophy and Literary Theory. Topics may include Idealism, Romanticism, Existentialism, Marxism, Freudianism. Identical with EG 348 and LG 348. Credit cannot be received for both PHL 348 and either EH 348 or LG 348. (For LG credit, students will be required to do some coursework in their language of concentration.)

Cross-Listed: EH 348, LG 348

PHL 349 20th C Cntl Phl-Lit Theory 3 cr

An examination of selected themes and issues in 20th Century Continental Philosophy and Literary theory. Topics may include Phenomenology, Existentialism, Hermeneutics, Structuralism, and Post-Structuralism. Identical with EH 349. Credit cannot be received for both PHL 349 and either EH 349 or LG 349. (For LG credit, students will be required to do some coursework in their language of concentration.)

Cross-Listed: EH 349, LG 349

PHL 351 Philosophy of Religion - W 3 cr

Investigates the nature of religion, including religious experience, religious language, arguments for the existence of God, and the problems of evil. Identical with REL 351. Credit cannot be received for both PHL 351 and REL 351.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

PHL 352 World Religions 3 cr

This course is an introduction to the religions of the world. It is divided into three basic units: Indigenous Religions (of Africa, North America, and Oceania); Eastern Religions (Hinduism, Buddhism, Daoism, Confucianism, Jainism) and Western Religions (Judaism, Christianity, Islam). The emphasis is on grasping the core principles of each tradition, seeing the ways in which religion meets basic human needs, and religion as a cultural artifact that borrows, adapts, and changes over time. Course is identical with REL 352 and SY 352. Credit cannot be received for both PHL 352 and REL 352 or SY 352.

Cross-Listed: REL 352, SY 352

PHL 354 Philosophies of India 3 cr

Introduces the major religions and philosophies of India by way of the classical Realist/Anti-Realist debate in India. Study of the major religious doctrines of theistic and non-dualist Vedanta, Buddhism, and Jainism, and their philosophical articulation in the Nyaya, Advaita Vedanta, Madhyamaka, and other schools. Identical with REL 354. Credit cannot be received for both PHL 354 and REL 354.

PHL 355 Chinese Philosophy 3 cr

Introduces the major classical religious and philosophical systems of China by way of an examination of early Confucianism, Mohism, Yangism, Legalism, Taoism, and Chinese Buddhism. Particular emphasis will be placed upon the role of these schools in the development of Chinese religion, morality, and political organization. Identical with REL 355. Credit cannot be received for both PHL 355 and REL 355.

PHL 361 Philosophy of Mind 3 cr

A study of the concept of consciousness and related concepts (e.g., mind, self, thinking) as applied to man, other animals, non-terrestrials, and machines.

PHL 370 Philosophy of Art 3 cr

Acquaints students with main issues in aesthetics. Includes such issues as the nature and function of art and the criteria of aesthetic judgment. Identical with ARH 370. Credit cannot be received for both PHL 370 and ARH 370.

Cross-Listed: ARH 370

PHL 390 Special Topics - 1-3 cr

Different figures or topics of philosophical significance will be studied as announced. May be repeated for a maximum of 9 hours.

PHL 418 American Political Thought-W 3 cr

This course examines the central themes, issues, and evolution of American political thought, including how we understand our role and responsibilities in contemporary democracy. (Cross-listed as PSC 418)

Prerequisite: PSC 130 or PHL 110 or PHL 120 or PHL 121 or PHL 131

Cross-Listed: PSC 418

PHL 421 Literary Criticism to 1900 - W 3 cr

Classical, Neoclassical, Romantic, and Victorian literary theory. Identical with EH 421. Credit cannot be received for both PHL 421 and EH 421.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: EH 421

PHL 422 Literary Criticism Sn 1900 - W 3 cr

Modern and Contemporary Literary Theory. Identical with EH 422.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: EH 422

PHL 431 Advanced Ethical Theory 3 cr

Problems in traditional and recent value theory and ethics.

PHL 441 Theory of Knowledge 3 cr

Examines knowledge, its scope and limits. Topics may include the conditions, criteria, and grounds for knowledge, and theories of truth and meaning.

Prerequisite: PHL 110 Minimum Grade of C or PHL 121 Minimum Grade of C

PHL 461 Metaphysics - W 3 cr

Studies philosophical theories about the nature of reality, including such topics as what is real, change, the nature of things, universals, and such views as monism, materialism, realism, and idealism. Capstone course for all philosophy concentrations.

Prerequisite: (PHL 240 (may be taken concurrently) Minimum Grade of C or CLA 240 (may be taken concurrently) Minimum Grade of C or PHL 241 (may be taken concurrently) Minimum Grade of C) and (PHL 243 (may be taken concurrently) Minimum Grade of C or PHL 245 (may be taken concurrently) Minimum Grade of C) and (PHL 321 (may be taken concurrently) Minimum Grade of C or PHL 324 (may be taken concurrently) Minimum Grade of C)

PHL 467 Mathematical Logic 3 cr

An introduction to formal first-order logic, first-order metatheory, and its extensions. Topics include axiom systems and their models, completeness, compactness, and recursive sets and functions. Identical with MA 467. Credit cannot be received for both PHL 467 and MA 467.

Prerequisite: (PHL 321 Minimum Grade of C or PHL 324 Minimum Grade of C) or MA 311 Minimum Grade of C or MA 316 Minimum Grade of C or MA 318 Minimum Grade of C or MA 320 Minimum Grade of C or MA 321 Minimum Grade of C or MA 332 Minimum Grade of C or MA 334 Minimum Grade of C or MA 335 Minimum Grade of C or MA 354 Minimum Grade of C or MA 367 Minimum Grade of C or MA 410 Minimum Grade of C or MA 413 Minimum Grade of C or MA 414 Minimum Grade of C or MA 434 Minimum Grade of C or MA 436 Minimum Grade of C or MA 437 Minimum Grade of C or MA 451 Minimum Grade of C or MA 458 Minimum Grade of C or MA 490 Minimum Grade of C or MA 537 Minimum Grade of C or MA 542 Minimum Grade of C or MA 550 Minimum Grade of C

Cross-Listed: MA 467

PHL 490 Special Topics 3 cr

An investigation of issues and concepts in philosophy for advanced undergraduates and graduate students. May be repeated, when content varies, for a total of six hours. Prerequisites: junior, senior, or graduate standing.

PHL 492 Seminar - 1-3 cr

An investigation of issues and concepts in philosophy for advanced undergraduates and graduate students. May be repeated, when content varies, for a total of 6 hours.

PHL 494 Directed Studies 1-3 cr

Directed research in philosophy under the guidance of a member of the department. Credit according to the magnitude of the individual project. May be repeated, if content varies, for a total of 6 hours. Prerequisites: Junior or senior standing and approval of directing professor and department chair. Prerequisites: Junior, senior, or graduate standing.

PHL 499 Honors Thesis - H (W) 3-6 cr

Extended research paper prepared under direction of thesis advisor plus two-person committee selected by advisor in consultation with student. Prerequisites: The student must have developed a proposal for the thesis in consultation with the advisor, and received permission for the work from the committee. In addition, the student must be a senior major or minor, have completed the logic and history of philosophy requirements, have at least two courses at the 300-level or higher, and have at least a 3.3 GPA in the Philosophy Concentration of the Philosophy major. Credit for this course is only given as an addition to the hours required for the major.

PHL 590 Special Topics - 1-3 cr

Study of individuals or topics of philosophical significance. May be repeated for credit when content varies. Enrollment is limited to students in disciplines other than philosophy. May be repeated, if content varies, for a total of 6 hours.

PHL 594 Directed Studies 3 cr

Directed research in philosophy under the guidance of a member of the department. May be repeated, if content varies, for a total of six hours. Prerequisite: Graduate Student in Department conferring a Graduate Degree (hence not open to Philosophy majors in any Concentration in Philosophy).

Cross-Listed: CLA 594, REL 594

Religion (REL)**REL 100 Intro to the Study of Religion 3 cr**

As a general introduction to the academic study of religion, REL 100 examines the function of religion in relation to human beliefs, social practices, and culture in general. The course surveys a broad number of important debates in the history of religious studies, such as the definition of religion, the insider/outsider problem, theories on the origins of religion, the comparison of religions, religion's psychological, sociological, and political functions, and the manner in which human communities authorize systems of behavior.

REL 200 Old Testament/Hebrew Bible 3 cr

An introduction or survey of the literature and social world of the Old Testament/Hebrew Bible. As a way of further illuminating these materials, attention will also be given to the history and religion of Israel as well as the other peoples of the ancient Near East. Fulfills the General Education Requirement.

REL 201 Survey of the New Testament 3 cr

This course is an introductory survey of the New Testament, including the life and ministry of Jesus Christ, apostolic history, related Greco-Roman history and archeology, principal critical issues, and the unity and diversity of New Testament theology. Fulfills the General Education Requirement.

REL 242 Western Philosophy: Medieval 3 cr

A survey of Medieval Western Latin, Jewish, and Islamic philosophers. Identical with PHL 242. Credit cannot be received for both REL 242 and PHL 242.

Cross-Listed: PHL 242

REL 290 Special Topics - 3 cr

Different themes and issues of significance in religion will be studied as announced.

REL 310 Classical Mythology 3 cr

Through the disciplines of English and Philosophy, this course will provide an introduction to myths and to the literature that recounts the myths, legends, and folktales of ancient Greece and Rome. This course will also look at how different writers treat the material and why their treatments vary. Cross-listed with EH 310, PHL 310 and CLA 310. Credit cannot be received for both REL 310 and either EH 310 or PHL 310 or CLA 310.

Prerequisite: (ACT English 27 or SAT Critical Reading 610 or University - EH101 Exempt P or EH 101 Minimum Grade of C or EH 110 Minimum Grade of D or EH 190 Minimum Grade of D or USA 010 Minimum Grade of S) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: CLA 310, EH 310, PHL 310

REL 331 History of England to 1603 3 cr

The history of England from the Roman occupation to the Age of Tudors. Identical with HY 331. Credit cannot be received for both REL 331 and HY 331.

Cross-Listed: HY 331

REL 343 Witchcraft and Magic 3 cr

The history of beliefs and practices concerning witches, magic, and witch-hunting in Medieval and Early Modern Europe. Identical with HY 343. Credit cannot be received for both REL 343 and HY 343.

Cross-Listed: HY 343

REL 347 The Holocaust 3 cr

The history of the systematic mass murder of Europe's Jews and other groups by Nazi Germany during World War II. Cross-listed with HY 347. Credit cannot be received for both REL 347 and HY 347.

Cross-Listed: HY 347

REL 351 Philosophy of Religion - W 3 cr

Investigates the nature of religion, including religious experience, religious language, arguments for the existence of God, and the problem of evil. Identical with PHL 351. Credit cannot be received for both REL 351 and PHL 351.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: PHL 351

REL 352 World Religions 3 cr

This course is an introduction to the religions of the world. It is divided into three basic units: Indigenous Religions (of Africa, North America, and Oceania); Eastern Religions (Hinduism, Buddhism, Daoism, Confucianism, Jainism) and Western Religions (Judaism, Christianity, Islam). The emphasis is on grasping the core principles of each tradition, seeing the ways in which religion meets basic human needs, and religion as a cultural artifact that borrows, adapts, and changes over time. Course is identical with PHL 352 and SY 352. Credit cannot be received for both REL 352 and PHL 352 or SY 352.

Cross-Listed: PHL 352, SY 352

REL 353 Reformation Europe 1300-1520 3 cr

The role of religious change in the 16th and 17th centuries. Identical with HY 353. Credit cannot be received for both REL 353 and HY 353.

Cross-Listed: HY 353

REL 354 Philosophies of India 3 cr

Introduces the major religions and philosophies of India by way of the classical Realist/Antirealist debate in India. Study of the major religious doctrines of theistic and non-dualist Vedanta, Buddhism, and Jainism, and their philosophical articulation in the Nyaya, Advaita Vedanta, Madhyamaka, and other schools. Identical with PHL 354. Credit cannot be received for both REL 354 and PHL 354.

Cross-Listed: PHL 354

REL 355 Chinese Philosophy 3 cr

Introduces the major classical religious and philosophical systems of China by way of an examination of early Confucianism, Mohism, Yangism, Legalism, Taoism, and Chinese Buddhism. Particular emphasis will be placed upon the role of these schools in the development of Chinese religion, morality, and political organization. Identical PHL 355. Credit cannot be received for both REL 355 and PHL 355.

Cross-Listed: PHL 355

REL 364 Islamic Civilization to 1453 3 cr

This course will cover the political, economic, social, and cultural history of Islamic Civilization from its beginnings in the Arabian Peninsula in the sixth century to the Ottoman conquest of Constantinople in 1453. Cross-listed with HY 364. Credit cannot be received for both REL 364 and HY 364.

Cross-Listed: HY 364

REL 365 Islamic Civilization 1465 - W 3 cr

This course will cover specific topics in the history of Islamic civilization. Prerequisite: Junior or Senior status. Cross-listed with REL 365. Credit cannot be received for both HY 365 and REL 365.

Cross-Listed: HY 365

REL 373 Religion in American History 3 cr

Examines the role of religion in United States history from the colonial era to the present. Identical with HY 373. Credit cannot be received for both REL 373 and HY 373.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: HY 373

REL 390 Special Topics - 3 cr

Different figures or topics of significance in religion will be studied as announced. May be repeated, when content varies, for a total of six hours.

REL 420 Sociology of Religions 3 cr

An analysis of religion as a social institution with emphasis on modern western societies. Topics include the functions of religion for society and individuals, changing patterns of religious belief and practice and the relationship between religion and other social institutions. Identical with SY 420. Credit cannot be received for both REL 420 and SY 420.

Prerequisite: SY 109 Minimum Grade of C

REL 465 Studies of HY of Islamic Civ 3 cr

This course will cover specific topics in the history of Islamic civilization. May be repeated for credit when content varies. Prerequisite: Junior or Senior status. Cross-listed with HY 465. Credit cannot be received for both REL 465 and HY 465.

Cross-Listed: HY 465

REL 492 Seminar - 3 cr

An investigation of issues and concepts in religion for advanced undergraduates and graduate students. May be repeated, when content varies, for a total of six hours.

REL 494 Directed Studies - 1-3 cr

Directed research in religion under the guidance of a member of the department. Credit according to the magnitude of the individual project. May be repeated, if content varies, for a total of three hours. Prerequisites: Junior or senior standing and approval of directing professor and department chair.

REL 499 Honors Thesis - H - W 3-6 cr

Extended research paper prepared under the direction of thesis advisor plus two-person committee selected by advisor in consultation with student. Prerequisites: The student must have developed a proposal for the thesis in consultation with the advisor, and received permission for the work from the committee. In addition, the student must be a senior major or minor, have completed the Common Core, and have at least a 3.3 GPA in the Religion Concentration of the Philosophy major. Credit for this course is only given as an addition to the hours required for the major. **Prerequisite:** (PHL 120 Minimum Grade of D and PHL 240 Minimum Grade of D and PHL 245 Minimum Grade of D and PHL 321 Minimum Grade of D and PHL 461 Minimum Grade of D) and (PHL 310 Minimum Grade of D or REL 310 or CLA 310 Minimum Grade of D)

REL 594 Directed Studies 3 cr

Directed research in philosophy under the guidance of a member of the department. May be repeated, if content varies, for a total of six hours. Prerequisite: Graduate Student in Department conferring a Graduate Degree (hence not open to Philosophy majors in any Concentration in Philosophy.)

Cross-Listed: CLA 594, PHL 594

Classics Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Classics

A minimum of 18 hours must be taken in approved Classics course listings. No more than two 100-level courses may count towards the Classics minor. The minor is interdisciplinary in nature and cross-listed course offerings may be used outside of Classics (CLA) discipline. Students minoring in Classics must fulfill the Foreign Language requirement by taking either 2 semesters of Latin or 2 semesters of Ancient Greek.

Code	Title	Hours
Latin or Ancient Greek		6
LG 101 & LG 102	Introductory Latin I and Introductory Latin II	
LG 141 & LG 142	Intro Classical Greek I and Intro Classical Greek II	
Classics Electives (200+ level)		12
Total Hours		18

Philosophy Majors can now fulfill the Minor requirement by taking one of the other concentrations offered. No more than 6 hours may cross-list between major and minor.

- Majors concentrating in Classic can fulfill the Minor requirement by using Philosophy or Religion concentration.
- Majors concentrating in Philosophy can fulfill the Minor requirement by using Religion or Classics concentration.
- Majors concentrating in Religion can fulfill the Minor requirement by using Philosophy or Classics concentration.

Philosophy and Medicine Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Philosophy and Medicine

All Philosophy and Medicine minors must take 18 credit hours, including the following three courses (9 credit hours), in no particular order.

Code	Title	Hours
PHL 220	Medical Reasoning	3
PHL 240	Western Philosophy: Classical	3
PHL/BLYMID-TERM GRADES	Biomedical Ethics - W	3
WEB ENTRY DUE BY 10:00 AM333		
Philosophy and Medicine minors must take an additional 9 hours in Philosophy, with at least 2 courses at the 300/400 level. Students are especially recommended to take some of the following:		9
PHL 245	Renaissance-Enlightnment - W	
PHL 321	Symbolic Logic	
PHL 327	Philosophy of Science	
PHL 431	Advanced Ethical Theory	
PHL 441	Theory of Knowledge	
Total Hours		18

Philosophy Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Philosophy

A minimum of 18 semester hours in Philosophy, to include a logic course (PHL 121 or PHL 321). At least nine hours must be taken in residence. No more than two 100-level courses may be counted toward the minor.

Code	Title	Hours
PHL 121	Introduction to Logic	3
or PHL 321	Symbolic Logic	
Philosophy Electives		15

No more than two 100-level courses may be counted toward the minor.

Total Hours **18**

Philosophy Majors can now fulfill the Minor requirement by taking one of the other concentrations offered. No more than 6 hours may cross-list between a major and minor.

- Majors concentrating in Classic can fulfill the Minor requirement by using Philosophy or Religion concentration.
- Majors concentrating in Philosophy can fulfill the Minor requirement by using Religion or Classics concentration.
- Majors concentrating in Religion can fulfill the Minor requirement by using Philosophy or Classics concentration.

Religion Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Religion

A minimum of 18 hours must be taken in approved course listings. No more than two 100-level courses may count towards the minor. The minor is interdisciplinary in nature and cross-listed course offerings may be used outside of Religion (REL) discipline, however, a minimum of 9 hours must be in the Religion (REL) discipline. A minimum of 9 hours of coursework must be taken at the 300 and/or 400 level at the University of South Alabama.

Code	Title	Hours
Religion Electives (300+)		9
Religion Electives (200+)		3
Religion Electives (100+)		6
Total Hours		18

Philosophy Majors can now fulfill the Minor requirement by taking one of the other concentrations offered. No more than 6 hours may cross-list between the major and minor.

- Majors concentrating in Classic can fulfill the Minor requirement by using Philosophy or Religion concentration.
- Majors concentrating in Philosophy can fulfill the Minor requirement by using Religion or Classics concentration.
- Majors concentrating in Religion can fulfill the Minor requirement by using Philosophy or Classics concentration.

Physics

Department Information

Department of Physics website
<https://www.southalabama.edu/physics/>

The curriculum in the Department of Physics serves three groups of students: those preparing for careers in physics, those pursuing professional fields such as medicine and engineering, and those electing physics and astronomy as part of the natural science requirement for Bachelor of Arts or Bachelor of Science Degrees. The degree program in physics allows for flexibility to the extent that the serious student can

select related courses in biology, chemistry, geology, computer science, and engineering to prepare for a career in such interdisciplinary areas as biophysics, geophysics, oceanography, and environmental science. Three options for a Bachelor of Science degree in Physics are offered. One option (the Premedical Option) is for those students pursuing medicine as a career. Links to sample programs and requirements for each option are given in the degree General Comments sections of each Area of Study. Students pursuing a degree in Physics also must have a minor in another discipline. In addition, the Department of Physics offers a double major with the Meteorology program within the Department of Earth Sciences.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

The Physics Pre-Medical Option requires a minimum of 129 hours, while the other Physics options require a minimum of 120 hours.

Degrees, Programs, or Concentrations

- Physics (BS) - General Physics (p. 336)
- Physics (BS) - Graduate School Prep (p. 337)
- Physics (BS) - Meteorology Double Major (p. 339)
- Physics (BS) - Premedical Option (p. 340)
- Physics Minor (p. 342)

Courses

PH 101 Introduction to Astronomy 4 cr

This is a descriptive survey course of elementary astronomy with laboratory intended for both non-science and science majors. Topics covered include a description of the celestial sphere, a tour of the Solar System, techniques for measuring and classifying stars, stellar evolution, white dwarfs, black holes, neutron stars, galaxies, and Big Bang cosmology. Students must take PH 101L concurrently and pass the lab. The PH 101L grade is a component of the PH 101 course grade. Core course.

Corequisite: PH 101L

PH 101L Introduction to Astronomy Lab 0 cr

Laboratory course for the Introduction to Astronomy course. Student must pass this laboratory course to receive a passing grade in the PH 101 course. Students must take PH 101L concurrently with PH 101 and pass the lab. The PH 101L grade is a component of the PH 101 course grade.

Corequisite: PH 101

PH 104 Concepts of Physics 4 cr

A descriptive overview of the entire field of physics with laboratory, including the concepts of scalars and vectors. Newton's law, momentum and energy conservation, rotational motion, fluids, heat and thermodynamics, sound, electricity and magnetism, optics, atomic and nuclear physics, relativity, and elementary particle physics. This course is intended to provide the non-scientist with substantial insight into the physical behavior of matter and energy. Extensive demonstrations accompany the presentation of material to illustrate key concepts. Students must take PH 104L concurrently and pass the lab. The PH 104L grade is a component of the PH 104 course grade. Core course.

Corequisite: PH 104L

PH 104L Concepts of Physics Laboratory 0 cr

Laboratory course for the Concepts of Physics course. Student must pass this laboratory course to receive a passing grade in the PH 104 course. Students must take PH 104L concurrently with PH 104 and pass the lab. The PH 104L grade is a component of the PH 104 course grade.

Corequisite: PH 104

PH 107 Contemporary Topics in Physics 1 cr

Intended for physics majors in their first year or others interested in physics as a possible major. This course will survey current "hot topics" in physics, basic useful techniques in physics problem-solving, physics as a career, and research in physics at USA. This course is not intended to satisfy the science requirements within the College of Arts & Sciences.

PH 114 Physics with Algebra-Trig I 5 cr

First semester of a two-semester introductory course in algebra/trigonometry-based physics with laboratory and recitation. This course covers mechanics and thermodynamics: one- and two-dimensional motion, vectors, Newton's laws of motion, work and energy, momentum and collisions, circular motion, rotational motion, properties of solids and fluids, the laws of thermodynamics, kinetic theory of matter, simple harmonic motion, and wave motion. The laboratory uses computerized data acquisition and analysis for most of the experiments. Students must take PH 114L concurrently and pass the lab. The PH 114L grade is a component of the PH 114 course grade. Core course.

Prerequisite: ACT Math 25 or MA 113 Minimum Grade of D or MA 115 Minimum Grade of D or MA 125 Minimum Grade of D or MA 120 Minimum Grade of D

Corequisite: PH 114L

PH 114L Alg-Trig Based Physics I Lab 0 cr

Laboratory course for the first semester of a two-semester introductory sequence in algebra/trigonometry-based physics. Student must pass this laboratory course to receive a passing grade in the PH 114 course. Students must take PH 114L concurrently with PH 114 and pass the lab. The PH 114L grade is a component of the PH 114 course grade.

Corequisite: PH 114

PH 115 Physics with Algebra -Trig II 5 cr

Second semester of a two-semester introductory course in algebra/trigonometry-based physics with laboratory and recitation. This course covers electrostatics, DC circuits, RC circuits, magnetic fields and forces, Faraday's Law, AC circuits, geometrical optics, interference and diffraction of light, the special theory of relativity, quantum physics, and atomic and nuclear physics. The laboratory uses computerized data acquisition and analysis for most of the experiments. Students must take PH 115L concurrently and pass the lab. The PH 115L grade is a component of the PH 115 course grade. Core course.

Prerequisite: PH 114 Minimum Grade of D

Corequisite: PH 115L

PH 115L Alg-Trig Based Physics II Lab 0 cr

Laboratory course for the second semester of a two-semester introductory sequence in algebra/trigonometry-based physics. Student must pass this laboratory course to receive a passing grade in the PH 115 course. Students must take PH 115L concurrently with PH 115 and pass the lab. The PH 115L grade is a component of the PH 115 course grade.

Corequisite: PH 115

PH 194 Dir St - Variable Content Lab 1 cr

A directed studies course to substitute for a laboratory credit for students who have successfully completed an introduction to astronomy or concepts of physics course at another university without the laboratory. Students taking this course must get the approval of the Physics Department Chair. This course may be taken up to two times (once for each course).

PH 201 Calculus-Based Physics I 4 cr

First semester of a two-semester introductory course in calculus-based physics with recitation and laboratory. This course covers: one and two-dimensional motion, vectors, Newton's laws of motion and their applications, work and energy, momentum and collisions, circular motion, rotational motion, properties of materials, simple harmonic motion, wave motion and topics in thermodynamics. The laboratory uses computerized data and analysis for most of the experiments. Core course.

Prerequisite: MA 125 Minimum Grade of C and (EH 101 Minimum Grade of C or ACT English 27 or SAT Critical Reading 610 or READING TEST SCORE 33)

Corequisite: MA 126, PH 201L

PH 201L Calculus-Based Physics I Lab 0 cr

Laboratory course for the first semester of a two-semester introductory sequence in calculus-based physics. Student must pass this laboratory course to receive a passing grade in the PH 201 course. Students must take PH 201L concurrently with PH 201 and pass the lab. The PH 201L grade is a component of the PH 201 course grade.

Corequisite: PH 201

PH 202 Calculus-Based Physics II 4 cr

Second semester of a two-semester introductory course in calculus-based physics with laboratory. This course covers electrostatic fields and Gauss' law, electric potential, electric circuits, magnetic fields, Ampere's law, Faraday's law, inductance, Maxwell's equations, electromagnetic waves and optics. The laboratory uses computerized data acquisition and analysis for most of the experiments. Students must take PH 202L concurrently and pass the lab. The PH 202L grade is a component of the PH 202 course grade. Core course.

Prerequisite: PH 201 Minimum Grade of D and MA 126 Minimum Grade of C and (EH 101 Minimum Grade of C or ACT English 27 or SAT Critical Reading 610)

Corequisite: PH 202L

PH 202L Calculus-Based Physics II Lab 0 cr

Laboratory course for the second semester of a two-semester introductory sequence in calculus-based physics. Student must pass this laboratory course to receive a passing grade in the PH 202 course. Students must take PH 202L concurrently with PH 202 and pass the lab. The PH 202L grade is a component of the PH 202 course grade.

Corequisite: PH 202

PH 290 Special Topics- 1-4 cr

Topics of current interest but not available in regularly scheduled sophomore level courses. This course may be repeated once for credit when the content varies and may be taken twice for up to eight hours.

PH 294 Dir St - Variable Content Lab 1 cr

A directed studies course to substitute for a laboratory credit for students who have successfully completed a calculus or algebra-based physics lecture course at another university without the laboratory. Students taking this course must get the approval of the Physics Department Chair. This course may be taken up to two times (once for each of the missing laboratories). Prerequisite: Permission of the Department Chair

Prerequisite: EH 101 Minimum Grade of C

PH 301 Introductory Astrophysics 3 cr

Application of the principles of physics to the study of astronomical phenomena. Topics include celestial mechanics, stars and stellar evolution, the Milky Way and other galaxies, and cosmological models. Prior knowledge of astronomy is not required.

Prerequisite: PH 115 Minimum Grade of D or PH 202 Minimum Grade of D and MA 125 Minimum Grade of C

PH 303 Modern Physics 4 cr

This course, with laboratory, surveys physics of the twentieth century. Topics covered include special relativity, wave-particle concepts, the Schrodinger equation and quantum theory of the hydrogen atom, atomic spectra and structure, molecular spectra, the solid state, nuclear structure, radioactivity, and elementary particles. The accompanying laboratory includes experimental investigations of important topics in the subject of Modern Physics. Computerized numerical and graphical analysis of data is extensively used in the laboratory. Laboratory reports are written with word processors and submitted in a format consistent with articles submitted to student research journals. Students must take PH 303L concurrently and pass the lab. The PH 303L grade is a component of the PH 303 course grade.

Prerequisite: PH 303L (may be taken concurrently) and MA 125 Minimum Grade of C and PH 202 Minimum Grade of D or PH 115 Minimum Grade of D

Corequisite: PH 303L

PH 303L Modern Physics Lab 0 cr

Laboratory course for the Modern Physics Course. Students must take PH 303L concurrently with PH 303 and pass the lab. The PH 303L grade is a component of the PH 303 course grade.

Corequisite: PH 303

PH 311 Condensed Matter Physics 3 cr

This is an introductory course which covers modern condensed matter physics. Topics include crystal structure and properties; electronic structure of insulators, semiconductors and metals; and phenomena of current research interest and technological relevance. Methods used to measure and analyze these phenomena will also be discussed.

Prerequisite: PH 303 Minimum Grade of D

PH 346 Classical and Modern Optics 3 cr

Wave motion, reflection, refraction, dispersion, diffraction, interference phenomena, Fourier spectroscopy, lasers and other modern applications of optics.

Prerequisite: PH 202 Minimum Grade of D and MA 125 Minimum Grade of C

PH 348 Electricity and Magnetism I 3 cr

First of two-semester sequence in electromagnetism. Topics include a review of vector analysis, Coulomb's law, Gauss' law, calculation of the scalar potential, electric fields in matter, the Biot-Savart law, Ampere's law, the vector potential, magnetostatics in matter, electrodynamics, Faraday's law, inductance, Maxwell's correction to Ampere's law and Maxwell's equations.

Prerequisite: MA 227 Minimum Grade of C and PH 202 Minimum Grade of D or PH 115 Minimum Grade of D

PH 349 Electricity and Magnetism II 3 cr

Second of two-semester sequence in electromagnetism. Topics include electromagnetic wave propagation in free space, electromagnetic wave propagation in materials, reflection and transmission at interfaces, wave guides, electromagnetic radiation, optical dispersion, and electrodynamics extended to the special theory of relativity

Prerequisite: PH 348 Minimum Grade of D

PH 354 Electronics 3 cr

This course is intended to provide a theoretical and practical background in electronics. Topics include AC circuits, diode circuits, single-stage amplifiers, op-amps and feedback, and digital electronics. This course is not intended to satisfy the technical elective requirements for Electrical Engineering. The course will include periodic laboratory work.

Prerequisite: MA 126 Minimum Grade of C and PH 202 Minimum Grade of D or PH 115 Minimum Grade of D

PH 366 Physical Mechanics I 3 cr

First course in a two-semester sequence in classical mechanics. Topics include motion of particles in one-dimension, one-dimensional motion theorems, harmonic oscillations, damped oscillations, forced oscillations, kinematics in multiple dimensions, momentum and energy theorems, the central force problem, motion under inverse square law forces, planetary orbital motion, Rutherford scattering, conservation theorems for multi-particle systems and their applications, collisions, coupled-harmonic oscillators, and rigid body rotation about a fixed axis.

Prerequisite: MA 227 Minimum Grade of D and PH 202 Minimum Grade of D

PH 367 Physical Mechanics II 3 cr

Second course in a two-semester sequence in classical mechanics. Topics include: moving and rotating coordinate systems. Lagrange's equation and applications, Hamiltonian formulation, inertia and stress tensors, rotations of rigid bodies and the theory of small oscillations.

Prerequisite: PH 366 Minimum Grade of D

PH 385 Experimental Physics - W 3 cr

A course in the methods and techniques of experimental physics. A number of experiments in the area of classical mechanics, atomic physics, molecular physics, and nuclear physics will be performed and analysis is required. Computerized numerical and graphical analysis of data is extensively used in the laboratory. Laboratory reports are written with word processors and submitted in a format consistent with articles submitted to a student research journal.

Prerequisite: PH 385L (may be taken concurrently) and PH 303 (may be taken concurrently) Minimum Grade of D

Corequisite: PH 385L

PH 385L Experimental Physics Lab 0 cr

Laboratory course for the Experimental Physics course. Students must take PH 385L concurrently with PH 385 and pass the lab. The PH 385L grade is a component of the PH 385 course grade.

Corequisite: PH 385

PH 390 Special Topics - 1-3 cr

Topics of current interest not available in a regularly scheduled course. This course may be repeated once for credit and may be taken for up to six hours credit.

PH 411 Computational Methods in Phys 3 cr

Use of computers in physics research (industrial, applied, or basic) is now common. This course will introduce advanced undergraduate physics students to computer solutions of physics problems. Particular attention will be paid to problems that have no analytic solutions and may only be solved numerically. This course will introduce several numeric methods and apply them to specific problems from quantum mechanics, electrodynamics, and mechanics. Students will write a series of programs in the Fortran or the C programming language and use them to solve undergraduate level physics problems.

Prerequisite: (PH 303 Minimum Grade of D and MA 238 Minimum Grade of C and CPE 260 Minimum Grade of D)

PH 448 Elementary Quantum Mechanics I 3 cr

The first course of a two-semester sequence in Quantum Mechanics.

Topics include an introduction to Hilbert space and operators, the quantum state and observables, the Heisenberg uncertainty principle, time evolution of the quantum state, application of the Schrodinger equation to one-dimensional systems, and the solution of the hydrogen atom.

Prerequisite: MA 238 Minimum Grade of C and PH 303 Minimum Grade of D or CH 302 Minimum Grade of D

PH 449 Elementary Quantum Mechanic II 3 cr

The second course of two-semester sequence in Quantum Mechanics.

Topics include a continuation in the mathematical formulation of quantum mechanics, angular momentum, perturbation theory, identical particles and spin, collision theory, and the semi-classical treatment of radiation. This course is recommended for students anticipating graduate study in physics.

Prerequisite: PH 448 Minimum Grade of D

PH 463 Thermodynamics-Stat Mechanics 3 cr

An in-depth course in thermodynamics and statistical mechanics. Topics include simple thermodynamics systems, work, heat and the first law of thermodynamics, ideal gases, the second law of thermodynamics, entropy, enthalpy, Helmholtz and Gibbs functions, TdS equations, heat capacity, partition function, equipartition of energy, statistical distribution of molecular speeds, thermal properties of solids, higher order phase transitions, chemical equilibrium, Thomson effect, Bose-Einstein statistics, Nuclear Magnetism, and the third law of thermodynamics.

Prerequisite: PH 202 Minimum Grade of D and MA 227 Minimum Grade of C

PH 494 Directed Studies - 1-3 cr

PH 494 Directed Studies 1-3 cr Directed research under the supervision of a faculty member. Topics generally coincide with the research interest of the supervising faculty member. Pre-requisite: Permission of the Physics department chair. May be taken three times for up to 9 hours.

PH 499 Senior Thesis-Honors - H 3 cr

A written thesis that is part of the Honors Senior Project which is submitted to partially satisfy the requirements for a Degree in Physics with distinction. The Senior Thesis will be written on research done in collaboration with an Honors Physics Faculty member in the Junior/Senior year. The Senior Thesis will be reviewed by a committee of Honors Physics Faculty. Upon approval by the committee the Senior Honors candidate will present the Senior Thesis at Honors Student Colloquium. This course may be repeated once for credit. Prerequisite: The Honors candidate must have developed in the last semester of the previous year a prospectus with the Physics Faculty Mentor and presented this prospectus at the Annual Honors Student Colloquium, also permission of the Department Chair.

Prerequisite: EH 102 Minimum Grade of C

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
BOLEMAN, MICHAEL W (mboleman@southalabama.edu)	Physics	Senior Instructor	BS, University of West Georgia MS, University of Kentucky
COCHRAN, MELANIE ROSE BRADY (melaniebrady@southalabama.edu)	Physics	Senior Instructor	BS, University of Southern Miss MS, University of Southern Miss EDD, University of South Alabama
DAHAL, ARJUN P (adahal@southalabama.edu)	Physics	Assistant Professor	MS, University of Minnesota-Duluth PHD, University of South Florida
FRANK, MARTIN JOHANNES (mfrank@southalabama.edu)	Physics	Associate Professor	BS, Emory University BS, Emory University PHD, Baylor University
GAPUD, ALBERT AGCAOILI (gapud@southalabama.edu)	Physics	Associate Professor	BS, University of Kansas PHD, University of Kansas
GODANG, ROMULUS (godang@southalabama.edu)	Physics	Professor	BS, University of North Sumatra MS, Virginia Polytechnic Inst and PHD, Virginia Polytechnic Inst and

Physics (BS) - General Physics

Degree Requirements

Code	Title	Hours
General Education Requirements		
https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext		56-60
Major Requirements		43
<i>Physics (BS) - General Physics Core</i>		
A. Complete the following:		
PH 107	Contemporary Topics in Physics	1
PH 201	Calculus-Based Physics I	4
PH 202	Calculus-Based Physics II	4
PH 303	Modern Physics	4
PH 348	Electricity and Magnetism I	3
PH 354	Electronics	3
PH 366	Physical Mechanics I	3
PH 385	Experimental Physics - W	3
PH 411	Computational Methods in Phys	3
PH 448	Elementary Quantum Mechanics I	3
PH 463	Thermodynamics-Stat Mechanics	3
B. Select three of the following Physics electives:		9
PH 301	Introductory Astrophysics	
PH 311	Condensed Matter Physics	
PH 346	Classical and Modern Optics	
PH 349	Electricity and Magnetism II	

PH 367	Physical Mechanics II	
PH 390	Special Topics -	
PH 449	Elementary Quantum Mechanic II	
PH 494	Directed Studies -	
PH 499	Senior Thesis-Honors - H	
C. Complete the following Technical/Pre-requisite courses:		26
CH 131 & 131L	General Chemistry I and General Chemistry I Lab	
CH 132 & 132L	General Chemistry II and General Chemistry II Lab	
MA 125	Calculus I (Prerequisite to upper division Physics courses)	
MA 126	Calculus II (Prerequisite to upper division Physics courses)	
MA 227	Calculus III (Prerequisite to upper division Physics courses)	
MA 238	Differential Equations I (Prerequisite to upper division Physics courses)	
CPE 260	Intro to C++ Programming	

Minor Requirements

A minor is required for this degree program 18-24

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Notes:

With the exception of PH 303 and PH 448, which are offered every year, all upper division Physics courses are offered every other year.

All Physics majors will be required to take an assessment exit exam, at no cost to the student, and an exit interview before graduation as directed by the department.

General Comments:

- PH 114 and PH 115 with either PH 201 or PH 202 may be substituted for PH 201 and PH 202 with the prior approval of the physics department chair.
- The sequences PH 114/PH 115 and PH 201/PH 202 may not both be taken for credit.

MA 126	Calculus II	4
MA 227	Calculus III	4
MA 238	Differential Equations I	3
ST 315	Applied Probability-Statistics	3

D. This course is highly recommended as electives for students planning to find employment with the National Weather Service:

MET 492 Seminar - (see footnote table below (p. 339)) ¹

Minor Requirements	
A minor is not required for this degree program	0
A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE	120

All undergraduates must complete two designated writing credit (W) courses, at least one must be in major or minor.

Footnote

¹ Recommended Courses

Notes:

MET 456 (W) and MET 356 are only offered in the summer.

With the exception of PH 303 and PH 448, which are offered every year, all upper division Physics courses are offered every other year.

All Physics majors will be required to take an assessment exit exam, at no cost to the student, and an exit interview before graduation as directed by the department.

General Comments:

- PH 114 and PH 115 with either PH 201 or PH 202 may be substituted for PH 201 and PH 202 with the prior approval of the physics department chair.
- The sequences PH 114/PH 115 and PH 201/PH 202 may not both be taken for credit.

Additional Information

The Meteorology program, with the Department of Earth Sciences, and the Department of Physics jointly offer a double major in Meteorology and Physics. This curriculum is intended for students who anticipate graduate study in Atmospheric Science, yet wish a very strong background in Physics. As constructed, this curriculum will require the student to complete an extra seventeen (17) hours over the maximum 120 hours required for either major alone. The changes from the current Option B: General Physics curriculum for a student intending to pursue graduate study in Meteorology include: removal of six (6) Physics Elective hours, two courses, and the addition of PH 367. Requirements removed from the regular Meteorology curriculum are the completion of Meteorology electives and the satisfaction of one of the four Meteorology Tracks; the Physics Major will replace the normal requirements for a Meteorology track and the electives. Only Meteorology-Physics double majors may have these track and elective requirements waived. The double major satisfies the minor requirement for the College of Arts and Sciences.

- The sequences PH 114/PH 115 and PH 201/PH 202 may not both be taken for credit.

Additional Information

Major in Physics (Premedical Option) is designed for a student intending a career in a health professional field such as Medicine. Besides Physics, the Curriculum includes extra courses in Chemistry and recommended courses in Biology, Psychology and the Social Sciences to prepare the

student for the MCAT exam. Because of these additional requirements there are relative few elective hours in this program and the overall hours total is 129 hours instead of the nominal 120 hours.

Political Science and Criminal Justice

Department Information

Department of Political Science and Criminal Justice website
<https://www.southalabama.edu/colleges/artsandsci/pscj/>

Undergraduate Studies

The courses offered in the Department of Political Science and Criminal Justice are designed to achieve three important objectives:

1. To provide a broad and comprehensive education with exceptional social science training—promoting critical thinking, analytic, oral communication, and writing skills.

2. To help students advance toward professional careers in a diversity of fields including law enforcement; education; government; law; corrections; public policy; business; journalism; NGOs and non-profits; and more.
3. To prepare students to be leaders in their communities and to seize meaningful opportunities to effect positive changes locally, nationally, and globally.

Criminal Justice

The curriculum in Criminal Justice provides students interested in law enforcement, criminal law, corrections, and the criminal court system with a broad educational background emphasizing social science and the University's general education skills of critical thinking, writing, communication, and analysis. Students in the department acquire knowledge of the criminal justice field. The program addresses issues relating to the entire criminal justice system, from the nature of crime and delinquency to society's varied responses to crime. Such a focus includes the organization and operation of each of the components in the field.

Political Science

Political Science is a broad discipline that includes studies of governments, politics, and policies. Political scientists may focus on political behavior, decision making, processes, institutions, and public policies. Inquiry in political science addresses the domestic and international policies of the United States and all other countries and regions. Political scientists study the political values, attachments, and activities of people, individually and in groups. Political science examines both what preferences people share and how they differ according to their personal attributes and positions in the economy and society. Political science also studies how people regard and trust each other as well as their leaders and governments.

First Year Experience Requirement

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Technological Competency Requirement

Research Methods (PSC 310 (W)/CJ 310 (W)) will satisfy the technology competency requirement for both political science and criminal justice majors. Enrollment in PSC 310 (W) or CJ 310 (W) is required for both political science and criminal justice majors.

Departmental Honors

The Department of Political Science and Criminal Justice offers an opportunity for students in Political Science or Criminal Justice who are not in the University's Honors College to graduate with departmental honors. In order to graduate with departmental honors, the student needs to have at least a 3.50 grade point average (overall and in the major) and maintain that average upon graduation. In addition, the student must complete a two-semester departmental honors thesis project with a faculty mentor and a committee.

Graduate Studies In Public Administration

The Master of Public Administration degree (MPA) curriculum in the Department of Political Science and Criminal Justice is a professional degree program designed principally for present and future administrators, officers in government, other public related organizations, not for profit agencies, and agencies that interact with governmental institutions and funding. It is a broad discipline, open to qualified students after completion of their undergraduate degree.

Students entering the program come from varied academic and vocational backgrounds. Accordingly, no specific undergraduate major is required for admission to the MPA Program. However, certain course prerequisites must be satisfied prior to enrollment in any of the required core courses of the curriculum.

Requirements for Admission to the MPA Program

Students are admitted each semester. The following criteria supplement the Graduate School criteria (see Categories of Admission).

Regular Admission to the MPA Program

1. Students must have a minimum undergraduate GPA of 2.5 on all undergraduate work (on a 4-point scale) or a GPA of 2.75 over the last 60 hours of undergraduate work.
2. Students must have taken PSC 130, Introduction to US Government, or its equivalent, with a minimum grade of C; or have received a score of 50 or higher in the "American Government" exam through the College Level Examination Program (CLEP). Students must satisfy this requirement no later than the end of their third semester in the program, including summer semesters. Failure to complete the requirement of PSC 130/its equivalent/satisfactory CLEP credit by the end of the third semester will prohibit registration for remaining core curriculum MPA courses.
3. Students are encouraged to apply in the fall semester, but are admitted each semester.

Degrees, Programs, or Concentrations

- Criminal Justice (BA) (p. 350)
- Criminal Justice Minor (p. 352)
- Political Science (BA) (p. 352)
- Political Science Minor (p. 353)
- Public Administration (MPA) (p. 353)

Courses

Criminal Justice (CJ)

CJ 105 Introduction to Criminal Justice 3 cr

An overview of crime in the U.S. and the three major criminal justice agencies: law enforcement, courts, and corrections. CJ majors must pass with a grade of "C" or better.

Cross-Listed: CJ 205

CJ 210 Policing and Society 3 cr

An overview of the police functions in U.S. society, including law enforcement, maintenance of order, and public service—and of police responsibilities, including organizational and managerial aspects of policing in our democracy.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

Cross-Listed: CJ 320

CJ 215 Correctional Policies and Proc 3 cr

An overview of the policies and procedures of U.S. correctional systems, and the methods of treatment of offenders.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

Cross-Listed: CJ 340

CJ 223 Intro to Forensic Science 3 cr

Survey of scientific crime detection methods; crime scene search, identification and preservation of evidence; uses of the laboratory for criminal investigation.

Cross-Listed: CJ 423

CJ 310 Research Methods-W 3 cr

This course examines research methodologies in the social sciences, covering the tools and techniques for designing and conducting research, including collecting and analyzing data, and presenting findings. (Cross-listed as PSC 310).

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: PSC 310

CJ 321 Public and Private Security 3 cr

An overview of security in modern society, including public and private security, covering the role and administration of security and security personnel.

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

CJ 330 Judicial Process 3 cr

The study of U.S. judicial process at both the federal and state court levels. (Cross-listed as PSC 330)

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C)

Cross-Listed: PSC 330

CJ 331 Constitutional Law 3 cr

The study of the principles of constitutional powers and liberties examined through a analysis of decisions and opinions by the U.S. Supreme Court. (Cross-listed as PSC 331 and PHL 331)

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C

Cross-Listed: PHL 331, PSC 331

CJ 332 Criminal Law 3 cr

An overview of what constitutes crime and of the body of law governing the punishment of crime. (Cross-listed as PSC 332)

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C

Cross-Listed: PSC 332

CJ 336 The Law and Legal Theory 3 cr

Explores issues and problems in the area of law, including the nature and rule of law, the aims and roles of legal systems, morality and law, obligations to obey the law, and systematic injustices related to race, ethnicity, and gender. (Cross-listed as PSC 336 and PHL 336)

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C)

Cross-Listed: PHL 336, PSC 336

CJ 337 Liability and Punishment 3 cr

Explores theoretical issues and problems in the areas of law—especially criminal law—concerning liability and punishment. Topics to be examined include diminished capacity, theories of punishment, and capital punishment. (Cross-listed as PSC 337 and PHL 337)

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C

Cross-Listed: PHL 337, PSC 337

CJ 360 Theories of Offending 3 cr

A study of theories of criminal behavior and delinquent behavior.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

CJ 363 Crime and Politics in Latin Am 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as PSC 363 and IS 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: IS 363, PSC 363

CJ 372 Gender and Criminal Justice 3 cr

This course examines the experiences of women in the criminal justice system—as criminals, as crime victims, and as criminal justice professionals—together with social values and institutions that shape perceptions and outcomes.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or GS 101 Minimum Grade of C

CJ 374 Race, Ethnicity, and Crim Just 3 cr

The study of the role and impact of race and ethnicity in the development and evolution of the criminal justice system. Topics include criminal victimization, the treatment of criminal offenders, and the impact of race and ethnicity on those in the criminal justice system.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or AFR 101 Minimum Grade of C

CJ 380 Drugs and Crime 3 cr

An examination of different types of illegal and legal drugs, their effects on the human body including addiction, and the relationship of drug abuse and crime.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

CJ 390 Special Topics - 3 cr

Study of a significant topic or problem in criminal justice. May be repeated up to two time when content varies.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

CJ 403 Sexual Violence 3 cr

This course focuses on the perpetration and experience of sexual violence in the United States and incorporates perspectives from criminal justice, gender studies, sociology, and psychology.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or GS 101 Minimum Grade of C

CJ 411 Criminal Justice Admin 3 cr

This course applies classical and modern management and organization theories to broad range of institutions, actors, and agencies, including police, courts and corrections, as well as drug traffickers, sexual offender treatment centers, and homeland security agencies.

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C)

Cross-Listed: PSC 411

CJ 422 Criminal Investigations 3 cr

Explores criminal investigations procedures including theory of investigations, case presentation, interrogation, and special problems in criminal investigations.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

CJ 423 Criminalistics 3 cr

Survey of scientific crime detection methods; crime scene search, identification, and preservation of evidence; use of the laboratory for criminal investigation.

Prerequisite: (CJ 205 Minimum Grade of C or PSC 205 Minimum Grade of C)

CJ 430 Criminal Procedure 3 cr

An overview of the processes used by criminal investigators and the roles of those involved in the judicial process, as well as the interaction that occurs between the police, prosecutors, defense attorneys and the judiciary. (Cross-listed as PSC 430)

Prerequisite: (CJ 105 Minimum Grade of C or PSC 130 Minimum Grade of C)

Cross-Listed: PSC 430

CJ 440 Community Based Corrections 3 cr

Examine alternatives to incarceration in the community informed by current practice and research.

Prerequisite: CJ 105 Minimum Grade of C

CJ 455 Juvenile Justice Administration and Policy 3 cr

An examination of the policies, programs, and practices of crime involving youth and the administration of juvenile justice.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

Cross-Listed: CJ 450

CJ 469 Criminal Justice Policies 3 cr

This course examines how public policy has shaped both the criminal justice system and its results, with particular emphasis on crime control.

Prerequisite: CJ 105 Minimum Grade of C or PSC 130 Minimum Grade of C or CJ 205 Minimum Grade of C

Cross-Listed: CJ 370, PSC 469

CJ 471 Police Account and Community 3 cr

This course examines the interaction of peace officers with the community and community oriented policing strategies. The class examines police accountability, which has increased since the inception of body cameras, social media and "cop watching" groups.

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

CJ 472 Comparative CJ Systems 3 cr

An examination of differences and similarities in criminal justice systems globally, including criminal law, crime rates, crime control and law enforcement.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: PSC 330

CJ 473 International Law 3 cr

The course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: IS 473, PSC 473

CJ 488 Armed Conflict 3 cr

The study of armed conflict from an interdisciplinary perspective incorporating criminology, political science, security studies, conflict and peace studies, and international law.

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or IS 100 Minimum Grade of C or PSC 130 Minimum Grade of C or PSC 270 Minimum Grade of D)

Cross-Listed: PSC 488

CJ 490 Special Topics- 3 cr

Study of a significant topic, problem, or issue in criminal justice. May be repeated up to two times when the content varies. Only 6 credit hours may be applied to the criminal justice major.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

CJ 491 Seminar on Terrorism 3 cr

Study of a terrorism from a sociopolitical perspective with an emphasis on causes, policy, tactics and operational characteristics and counter-terrorism operations. Cross-listed with PSC 491 and IS 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: IS 491, PSC 491

CJ 492 Capstone Seminar CJ-W 3 cr

The Capstone course brings together key components from across the criminal justice curriculum. As part of the course, students will write a research paper, present their research, and take a comprehensive exam. CJ majors must earn a grade of C or better for graduation.

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C) and (PSC 130 Minimum Grade of D) and (CJ 210 Minimum Grade of D or CJ 320 Minimum Grade of D) and (CJ 215 Minimum Grade of D or CJ 340 Minimum Grade of D) and (CJ 310 Minimum Grade of D or PSC 310 Minimum Grade of D) and (CJ 330 Minimum Grade of D or PSC 330 Minimum Grade of D) and (CJ 360 Minimum Grade of D) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

CJ 493 Study Abroad - 3 cr

Examines the principles of the United States Constitution and roles of Congress, the President, and the courts, the mass media, interest groups, and more in our U.S. political system. PSC majors and minors must pass with a grade of 'C' or better.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

CJ 494 Directed Studies - 1-3 cr

Students will pursue directed research or readings on an approved topic in criminal justice.

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

CJ 496 Internship 3 cr

An opportunity to gain experiential learning through a supervised internship offered by a variety of criminal related agencies.

Prerequisite: (CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

CJ 497 Practicum in Polling 3 cr

Supervised experience in all aspects of the survey research process including but not limited to literature review, research design, questionnaire development, sampling techniques, interviewing, data analysis, and interpretation and presentation of findings. Requires permission of instructor.

Prerequisite: (CJ 205 Minimum Grade of C or PSC 205 Minimum Grade of C) and PSC 130 Minimum Grade of C and (CJ 310 Minimum Grade of C or PSC 310 Minimum Grade of C)

CJ 498 Practicum in Policy Studies 3 cr

Students will be exposed to a variety of experiences associated with the operations of a fully operational research center, including in-service and management training, consulting, sponsored research, organizational assessments, strategic and programming planning, operations, program evaluation, intergovernmental fiscal processes including the search for funding, and grant writing. Research assignments will include basic research design, survey and focus group instrument development, administration of surveys, handling focus groups, curriculum preparation and administration data manipulation and analysis, and report writing. Requires permission of instructor.

Prerequisite: (CJ 205 Minimum Grade of C or PSC 205 Minimum Grade of C) and PSC 130 Minimum Grade of C and (CJ 310 Minimum Grade of C or PSC 310 Minimum Grade of C)

CJ 499 Honors Thesis W 3-6 cr

The research and writing of a major paper in the field of criminal justice. Registration is open to criminal justice majors in the Honors College or those pursuing Department Honors.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

Political Science (PSC)**PSC 130 Intro to US Government 3 cr**

Examines the principles of the United States Constitution and roles of Congress, the President, and the courts, the mass media, interest groups, and more in our U.S. political system. PSC majors and minors must pass with a grade of 'C' or better.

PSC 250 Comparative Politics 3 cr

This course examines government systems across the globe, including both democracies and authoritarian systems. It analyzes strategic interactions between political actors in a diverse set of contexts, as well as the key theories that helps us to understand politics.

PSC 270 International Relations 3 cr

This introductory course in the theory and practice of International Relations includes topics such as IR's importance and principal actors, as well as causes of conflict and war, conflict resolutions, international law, globalization, global events, issues, and problems.

PSC 301 Public Policy 3 cr

This course provides an overview of policy and the policymaking process in the United States. Topics include what issues rise to the public agenda; how politicians, groups, and citizens shape and implement policy; and how political scientists can analyze public policy.

Prerequisite: PSC 130 Minimum Grade of C

PSC 310 Research Methods-W 3 cr

This course examines research methodologies in the social sciences, covering the tools and techniques for designing and conducting research, including collecting and analyzing data, and presenting findings. (Cross-listed as CJ 310).

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

Cross-Listed: CJ 310

PSC 311 Classical Political Thought 3 cr

The course examines the central themes of classical Western political philosophy through the reading and discussing of the primary works of such thinkers as Plato, Aristotle, and Aquinas. (Cross-listed as PHL 311 and CLA 311)

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: CLA 311, PHL 311

PSC 312 Renaissance Political Thought 3 cr

The course examines central themes of Renaissance and modern Western political philosophy through the reading and discussing of the primary works of such thinkers as Machiavelli, Hobbes, Locke, and Rousseau. (Cross-listed as PHL 312)

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PHL 312

PSC 313 Modern Political Thought-W 3 cr

The course examines central themes of modern Western political philosophy through the reading and discussing of the primary works of such thinkers as Hegel, Mill, Marx, and Nietzsche. (Cross-listed as PHL 313).

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PHL 313

PSC 330 Judicial Process 3 cr

The study of the U.S. judicial process at both federal and state court levels. (Cross-listed as CJ 330)

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 330

PSC 331 Constitutional Law 3 cr

The study of the principles of constitutional powers and liberties examined through an analysis of decisions and opinions by the U.S. Supreme Court. (Cross-listed as CJ 331 and PHL 331)

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C)

Cross-Listed: CJ 331, PHL 331

PSC 332 U.S. State and Local Government and Politics 3 cr

An overview of what constitutes crime and of the body of law governing the punishment of crime. (Cross-listed with CJ 332.)

Prerequisite: PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

Cross-Listed: CJ 332

PSC 336 The Law and Legal Theory 3 cr

Explores issues and problems in the area of law, including the nature and rule of law, the aims and roles of legal systems, morality and law, obligations to obey the law, and systematic injustices related to race, ethnicity, and gender. (Cross-listed as CJ 336 and PHL 336)

Prerequisite: PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

Cross-Listed: CJ 336, PHL 336

PSC 337 Liability and Punishment 3 cr

Explores theoretical issues and problems in the areas of law—especially criminal law—concerning liability and punishment. Topics to be examined include diminished capacity, theories of punishment, and capital punishment. (Cross-listed as CJ 337 and PHL 337)

Prerequisite: PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

Cross-Listed: CJ 337, PHL 337

PSC 340 Race, Gender, & Politics 3 cr

This course examines the role of race and gender in shaping political outcomes, experiences, and institutions.

Prerequisite: PSC 130 Minimum Grade of C or GS 101 Minimum Grade of C or AFR 101 Minimum Grade of C

PSC 345 Women and Politics 3 cr

This course examines gender as a conceptual construct in the study of politics.

Prerequisite: PSC 130 Minimum Grade of C or GS 101 Minimum Grade of C

PSC 347 Public Opinion and Polit Part 3 cr

The formation, composition, distribution, and measurement of public opinions and its effect upon public policy.

PSC 354 Media and Politics 3 cr

Examining the role and influence of mass media in politics, exploring how and why the media contribute to and shape democracy.

Prerequisite: (PSC 130 Minimum Grade of C or CA 100 Minimum Grade of C or CA 101 Minimum Grade of C)

Cross-Listed: CA 354

PSC 360 Politics of Europe 3 cr

The course provides an overview of the political systems, institution, public policies, and actors in European Politics. Countries covered may include Germany France, Great Britain, and Russia.

Prerequisite: PSC 130 Minimum Grade of C or PSC 250 Minimum Grade of C or IS 100 Minimum Grade of C

PSC 363 Crime and Politics in LatinAm 3 cr

An examination of the violent crime epidemic affecting many parts of Latin America, with specific focus on the themes of democratic transition, political economy, and foreign relations with the United States. Same as CJ 363 and IS 363.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 363, IS 363

PSC 365 Politics of the Middle East 3 cr

The course focuses on the current politics, and the political history and political development, of several countries in the Middle East.

Prerequisite: (PSC 130 Minimum Grade of C or PSC 250 Minimum Grade of D or PSC 270 Minimum Grade of D or IS 100 Minimum Grade of C)

PSC 368 Politics of South Asia 3 cr

This course focuses on the political histories and current politics of India, Pakistan, Bangladesh, and Afghanistan.

Prerequisite: (PSC 130 Minimum Grade of C or PSC 250 Minimum Grade of D or PSC 270 Minimum Grade of D or IS 100 Minimum Grade of C)

PSC 372 American Foreign Policy 3 cr

This course examines the political development and theories of U.S. foreign policy, from the Cold War to the present. Topics include power; nationalism; trade; defense; security and terrorism and other threats; and prospects and challenges in today's global society.

Prerequisite: PSC 130 Minimum Grade of C or PSC 250 Minimum Grade of C or PSC 270 Minimum Grade of C or IS 100 Minimum Grade of C

PSC 390 Special Topics - 3 cr

Study of a significant topic or problem in political science. May be repeated up to two times when content varies.

Prerequisite: PSC 130 Minimum Grade of C

PSC 401 Public Administration 3 cr

The study of the implementation of public policy at the national, state, and local levels, and the study of the planning, organization and coordination of government operations.

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PSC 501

PSC 411 Criminal Justice Admin 3 cr

This course applies management and organization theories to a broad range of criminal justice institutions, actors, and agencies—including police, courts, and corrections, treatment centers, drug traffickers, and homeland security. (Cross-listed as CJ 411)

Prerequisite: PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C

Cross-Listed: CJ 411, PSC 511

PSC 418 American Political Thought-W 3 cr

The course examines the central themes, issues, and evolution of American political thought, including how we understand our role and responsibilities in contemporary democracy. (Cross-listed as PHL 418)

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PHL 418

PSC 430 Criminal Procedure 3 cr

An overview of the processes used by criminal investigators and the roles of those involved in the judicial process, as well as the interaction that occurs between the police, prosecutors, defense attorneys and the judiciary. (Cross-listed as CJ 430)

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of C)

Cross-Listed: CJ 430

PSC 432 State and Local Government 3 cr

An overview of U.S. state and local government systems, including an analysis of the politics, public policy, and administration within the U.S. states and localities.

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PSC 232, PSC 332

PSC 436 Politics of Urban Govt 3 cr

A study of urban growth with an analysis of the major problems facing large cities in this country. Political, administrative, social, and economic aspects will be covered

PSC 437 US Congress and Policymaking 3 cr

An inside view of the U.S. Congress centered on the process for passing laws and policymaking, including an examination of influential legislation.

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PSC 537

PSC 438 US Presidency 3 cr

A study of the U.S. presidency covering the political development and organization of the office; executive powers and responsibilities; elections and campaigns; and presidential communication.

Prerequisite: PSC 130 Minimum Grade of C

PSC 440 Adv Studies in Pub Policy 3 cr

Advanced study in the field of public policy.

Prerequisite: PSC 130 Minimum Grade of C

PSC 450 Adv Study Comparative Pol 3 cr

Advanced study in the field of comparative politics.

Prerequisite: PSC 250 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

PSC 453 Campaign and Election Comm. 3 cr

Focuses on political communication in the context of U.S. campaigns and elections, Same as CA 453.

Prerequisite: (PSC 130 Minimum Grade of C or CA 100 Minimum Grade of C or CA 101 Minimum Grade of C)

Cross-Listed: CA 453

PSC 456 Social Media and Politics 3 cr

An examination of how and why digital information technologies are used by citizens, activists, journalists, and politicians to shape and influence individual's political participation and engagement and public policy and society.

Prerequisite: (PSC 130 or CA 100 or CA 101)

Cross-Listed: CA 456

PSC 469 Criminal Justice Policies 3 cr

This course examines how public policy has shaped both the criminal justice system and its results, with particular emphasis on crime control.

Prerequisite: CJ 105 or PSC 130

Cross-Listed: CJ 370, CJ 469

PSC 470 Adv Study Intl Relations 3 cr

Advanced study in the field of international relations.

Prerequisite: PSC 270 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

PSC 473 International Law 3 cr

The course covers major issues, cases and topics in public and private international law. Course coverage includes individuals and corporations, diplomatic relations, jurisdiction, human rights, economic relations, treaties, environmental law, and more.

Prerequisite: (PSC 130 Minimum Grade of C or CJ 105 Minimum Grade of D or CJ 205 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 473, IS 473

PSC 481 Public Policy and Aging 3 cr

This course examines government responses to the growing number of older Americans. Topics Include retirement and pensions, health care, housing, social services, intergenerational issues, and policy advocacy for the elderly.

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PSC 581

PSC 484 Healthcare Around the World 3 cr

This course examines global connections within healthcare. Objectives include understanding health, its impact on populations, and how policy shapes healthcare. These objectives are studied within a global framework with emphasis on improving health and health equity.

Prerequisite: PSC 130 Minimum Grade of C or PSC 250 Minimum Grade of D or IS 100 Minimum Grade of C

Cross-Listed: PSC 584

PSC 488 Armed Conflict 3 cr

The study of armed conflict from an interdisciplinary perspective incorporating criminology, political science, security studies, conflict and peace studies, and international law.

Prerequisite: (PSC 130 Minimum Grade of C or PSC 270 Minimum Grade of D or CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or IS 100 Minimum Grade of C)

Cross-Listed: CJ 488

PSC 490 Special Topics 3 cr

Study of a significant topic or problem in political science. May be repeated up to two times when the content varies.

Prerequisite: PSC 130 Minimum Grade of C

PSC 491 Seminar on Terrorism 3 cr

This course will introduce students to the meaning, characteristics, typology, history, and causes of terrorism. The course will also summarize the biographies of the most prominent terrorists, past and present, and conclude, with a discussion of counter-terrorism strategies. Cross-listed with IS 491.

Prerequisite: CJ 105 Minimum Grade of C or CJ 205 Minimum Grade of C or PSC 130 Minimum Grade of C or IS 100 Minimum Grade of C

Cross-Listed: CJ 491, IS 491

PSC 492 PSC Capstone Seminar-W 3 cr

The Capstone course brings together key components from across political science. As part of the course, students will write a research paper, present their research, and take a comprehensive exam. PSC majors must earn a grade of C or better for graduation.

Prerequisite: PSC 130 Minimum Grade of C and PSC 250 Minimum Grade of D and PSC 270 Minimum Grade of D and (PSC 310 Minimum Grade of D or CJ 310 Minimum Grade of D) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

PSC 493 Study Abroad 3 cr

This course is an advanced Political Science course taught as part of a faculty-led study abroad program. Topics and credit hours vary. May be repeated when content varies. Up to 6 hours may be applied toward the PSC major or minor.

Prerequisite: PSC 130 Minimum Grade of C or PSC 250 Minimum Grade of D or PSC 270 Minimum Grade of D

PSC 494 Directed Studies 1-3 cr

Students will pursue directed research or readings on an approved topic in political science.

Prerequisite: PSC 130 Minimum Grade of C

PSC 496 Internship 3 cr

An opportunity to gain experiential learning through a supervised internship offered by a variety of political science and government related agencies.

Prerequisite: PSC 130 Minimum Grade of C

PSC 497 Practicum in Polling 3-6 cr

Supervised experience in all aspects of the survey research process including but not limited to literature review, research design, questionnaire development, sampling, techniques, interviewing, data analysis, & interpretation & presentation of findings. **Prerequisite:** Permission of professor

PSC 498 Practicum Policy Studies 3-9 cr

Students will be exposed to a variety of experiences associated with the operations of a fully operational research center, including in-service and management training, consulting, sponsored research, organizational assessments, strategic and programming planning, program evaluations, intergovernmental fiscal processes, including the research for funding, and grant writing. Research assignments will include basic research design, survey and focus group instrument development, administration of surveys, handling focus groups, curriculum preparation, data manipulation and analysis, and report writing. Only three hours apply to the political science curriculum at the University of South Alabama. **Prerequisite:** PSC 130, PSC 310, or permission of professor. Pass/Fail grading only.

Prerequisite: PSC 130 Minimum Grade of C and PSC 310 Minimum Grade of C

PSC 499 Honors Thesis - W 3-6 cr

The research and writing of a major paper in the field of political science. Registration is open to political science majors in the Honors College or those pursuing Department Honors.

Prerequisite: PSC 130 Minimum Grade of C

PSC 500 Organization Theory Public Mgt 3 cr

This course provides a comprehensive overview of the field of organization theory. The course exposes students to seminal works in the field as well as covering more recent developments.

Prerequisite: PSC 130 Minimum Grade of C

PSC 501 Public Administration 3 cr

The study of the implementation of public policy at the national, state and local levels, and the study of the planning, organization, and coordination of government operations.

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PSC 401

PSC 510 Intergov-Interorg Relations 3 cr

A review of the political, fiscal, and administrative relationships between various levels of government in America. In addition, the emerging nexus to 3d sector non-profit organization will be examined.

PSC 511 Crim. Justice Admin. 3 cr

This course applies classical and modern management and organization theories to a broad range of institutions, actors, and agencies, including police, courts, and corrections, as well as drug traffickers, sexual offender treatment centers, and homeland security agencies.

PSC 520 Research Methods and Design 3 cr

Social science research methodologies will be used to help students develop skills for policy analysis and decision making in the public service. Stresses the understanding of research methods and data collection in a Public Administration setting. Theoretical development and elaboration, and an overview of the variety of research designs used in social science research will be included.

PSC 530 Quantitative Analysis 3 cr

Focus is on application of statistical analysis techniques to Public Administration problems and issues. Computer analysis and interpretation of descriptive statistics will be emphasized. Topics will include fundamentals of probability, sampling, hypothesis testing, point estimation, association, correlation, and multi variate analysis.

PSC 532 State and Local Government 3 cr

An overview of U.S. state and local government systems, including an analysis of the politics, public policy, and administration within the U.S. states and localities.

Prerequisite: PSC 130 Minimum Grade of C

PSC 537 Legislative Process in the US 3 cr

Principles, procedures, and problems of law making, with special attention to the U.S. Congress.

PSC 540 Human Resource Management 3 cr

This course will cover contemporary topics in public administration, including public-employee unionization, relevance of the traditional civil-service approach, the challenge of employee productivity and motivation, equal opportunity, and public service ethics.

Prerequisite: PSC 130 Minimum Grade of C

PSC 541 Leadership Theory and Practice 3 cr

The course will provide the analytical and intellectual thought, careful examination and reflection of the core issues in the practice of leadership. Models and influence on leadership will be critically examined.

PSC 550 Public Budgeting 3 cr

This course emphasizes the political management and public-policy implications of budget reform, maintenance, and development. It explores the conceptual framework for program and performance budgeting and the increasing congressional role of Congress in federal budget policy.

Prerequisite: PSC 130 Minimum Grade of C

PSC 560 Comparative Public Admin 3 cr

A study of the operation of government systems throughout the world—their history, features, similarities, and differences.

PSC 570 Administrative Law 3 cr

Prerequisite: PSC 130 Minimum Grade of C

PSC 572 Environmental Law 3 cr

This course will introduce the student to some of the fundamental concepts of environmental law. It will utilize the philosophy and history of environmental law as it has developed from the Common Law of England to provisions of a Municipal Code

PSC 576 Adm Issues CJ Men Health 3 cr

An overview of the relevant federal and state laws, federal regulations, and court rulings that address the issues of criminal justice for preserving the rights of those citizens who suffer from mental illness.

PSC 580 Public Pol Analysis and Eval 3 cr

This course is an introduction to policy and program evaluation incorporating various qualitative and quantitative techniques for analyzing.

Prerequisite: PSC 520 Minimum Grade of B and PSC 530 Minimum Grade of B and PSC 130 Minimum Grade of C

PSC 581 Public Policy and Aging 3 cr

This course examines government responses to the growing number of older Americans. Topics include retirements and pensions, health care, housing, social services, intergenerational issues, and policy advocacy of the elderly.

Prerequisite: PSC 130 Minimum Grade of C

Cross-Listed: PSC 481

PSC 582 Crim. Just. Policy Evaluation 3 cr

This course examines the most effective and commonly used forms of policy and program evaluation and applies them to criminal justice system. It explores policy and program evaluation related a number of subfields, including policing, drug policy, and gun control, recidivism, and police use of force.

Prerequisite: PSC 520 Minimum Grade of C and PSC 530 Minimum Grade of C

PSC 583 Social Construction of Policy 3 cr

This course examines the implications of the U.S. policy process through the lens of social construction theory as applied to the functionality of health care systems.

Prerequisite: PSC 130 (may be taken concurrently) Minimum Grade of C

PSC 584 Healthcare Around the World 3 cr

This course examines global connections within healthcare. Objectives include understanding health, its impact on populations, and how policy shapes healthcare. These objectives are studied within a global framework with emphasis on improving health and health equity.

Cross-Listed: PSC 484

PSC 585 Health Policy 3 cr

This course focuses on two distinct aspects of American Health Policy. First, the policy making process is examined in the context of health care and the major decision making powers (Congress, presidency, bureaucracy, and special interests). Second, existing health care policies are examined with an emphasis on the implications for access, financing, and quality of care. Finally, existing U.S. health policies are compared and contrasted with those of similar and dissimilar political systems.

PSC 586 Health Administration 3 cr

Applications of management principles to health care organizations with a focus on governance and leadership, human resources, control systems, strategic planning, and accountability.

PSC 587 Health Politics & The Elderly 3 cr

This course focuses on the health policy process and issues impacting the elderly with particular attention given to the politics of legislation, financing mechanisms, and strategies for reform.

PSC 590 Special Topics - 3 cr

Study of a significant topic in Public Administration. May be repeated for credit when the content varies.

PSC 594 Dir St - 1-6 cr

Under the guidance of a faculty member, student will pursue directed study of approved topics in public administration. For non-thesis students.

PSC 596 Prof St - Intern Publ Admin 3-6 cr

Relates the participants' classroom studies to occupational and professional experiences in an approved public agency. Written reports required. May be taken for a total of nine hours. (For further details, see section on Internship.)

PSC 597 Practicum in Polling 3-6 cr

Supervised experience in all aspects of the survey research process including but not limited to literature review, research design, questionnaire development, sampling techniques, interviewing, data analysis, and interpretation and presentation of findings. Requires permission of graduate director or department chair.

PSC 598 Practicum Policy Studies 3-9 cr

Students will be exposed to a variety of experiences associated with the operation of a fully operational research center, including in-service and management training, consulting, sponsored research, organizational assessments, strategic and program planning, operations, program evaluation, intergovernmental fiscal processes, including research for funding and grant writing. Research assignments will include basic research design, survey and focus groups, curriculum preparation and administration, data manipulation and analysis, and report writing. Only three hours of PSC 598 can be applied toward the requirements for the MPA degree at the University of South Alabama. Requires permission of the professor.

PSC 599 Thesis 3-6 cr

Completion and oral defense of a master's thesis based upon original research. May be repeated for up to six hours credit. A minimum of six hours credit is required to meet degree requirements. Prerequisite: Approval of research prospectus including IRB or Animal Use and Care Committee approval if applicable.

CJ Upper Division (300/400) Electives		15

Minor Requirements		
A minor is required for this degree program		18-24
A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE		120

All undergraduates must complete two designated writing credit (W) courses, at least one of which must be in the student's major or minor.

Additional Information

Majors in Arts and Sciences may be completed with a minimum of 120 semester hours unless designated otherwise. At least 30 hours of course work, which represents 25% of the required 120 hours, must be at the upper division level in order to fulfill the University's residency requirement. At least 15 of the 30 upper-division hours must be in the

major or concentration area. An overall grade-point-average (GPA) of 2.0 is required for graduation. In addition, a minimum GPA of 2.0 is required in the student's major or concentration area.

The major in criminal justice requires 39 semester hours, including CJ 105, PSC 130, CJ 210, CJ 215, CJ 310/PSC 310 (W), CJ 330/PSC 330, CJ 360, and CJ 492 (W)—plus 15 semester hours of criminal justice electives at the 300/400 level. CJ 105 is a prerequisite for most upper-level CJ courses. Criminal Justice majors must earn a grade of "C" or higher in CJ 105 and in the Capstone Seminar, CJ 492 (W). Students pursuing a degree in Criminal Justice also must have a minor in another discipline.

In addition, all Criminal Justice majors must take the ETS major field test in criminal justice as part of their Capstone Seminar, CJ 492 (W), and receive a satisfactory score. (The standards for passing are determined by the Department of Political Science and Criminal Justice.) Students with unsatisfactory scores on the ETS test can retake the test, or they may be required to repeat coursework in criminal justice. The ETS is administered in the Capstone Seminar, CJ 492 (W). All CJ core courses must be completed prior to enrolling in CJ 492 (W).

All criminal majors must demonstrate competency in oral and written communication. Students will be expected to deliver presentations, particularly in the Capstone Seminar. The University of South Alabama requires two Writing-Intensive (W) courses for graduation. CJ 492 (W) fulfills one Writing-Intensive requirement, and CJ 310/PSC 310 (W) fulfills the second.

Criminal Justice Minor

Degree Requirements

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Minor in Criminal Justice

The minor in Criminal Justice requires 18 semester hours, including CJ 105, plus 15 semester hours of criminal justice electives, including 6 hours at the 200-400 level, and 9 hours at the 300-400 level. CJ 105 is a prerequisite to most other CJ courses, and a minimum grade of C in CJ 105 is required for the CJ minor.

¹ A minimum grade of C is required; or a score of 50 or higher in the "American Government" exam through the College Level Examination Program (CLEP). Students must satisfy this requirement no later than the end of their third semester in the program, including summer semesters. Failure to complete the requirement of PSC 130/its equivalent /satisfactory CLEP credit by the end of the third semester will prohibit registration for remaining core curriculum courses. Note that the course does not contribute credit to the required 36 graduate credit hours.

² Note: The core curriculum cycle should ideally commence in the Fall Semester.

³ Students must have a minimum of 12 hours of graduate elective and thesis credit combined. They must also complete a thesis in compliance with Graduate School requirements.

Any substitutions for the above requirements must be approved in writing by the Director of the MPA Program.

A candidate for the MPA degree must complete successfully a comprehensive written examination covering the eight core courses listed previously. To be eligible to take this examination, a student must have achieved at least a 3.00 (B) grade-point average on the core curriculum course work. Normally, the examination will be administered during the Fall and Spring Semesters. The comprehensive examination may be attempted no more than twice.

Internship

Students in the MPA Program may be allowed to enroll in PSC 596, Graduate Internship in Public Administration, for a maximum of six semester hours.

Normally, admission to the Internship Program will be dependent upon the following prerequisites:

1. Satisfactory completion of at least six of the required core courses;
2. Approval by the internship professor of the prospective intern's qualifications and proposed project; and
3. Placement of the student in an appropriate agency of the government or other public service institution.

The length of the internship and corresponding credit (at the rate of three to six hours per semester), not to exceed a total of six hours, will be determined for each student on the basis of the student's particular needs and opportunities.

Each intern will be required, in consultation with the intern professor, to develop a research design for the project to be undertaken during the internship. Each intern will also be required to write a paper showing how that research design has been carried out. Particular emphasis will be placed in the paper upon the relationship between the internship experience and academic course work. Close and continuing supervision of each intern's progress will be provided by the intern professor.

Psychology

Department Information

Department of Psychology website
<http://www.southalabama.edu/psychology> (<http://www.southalabama.edu/psychology/>)

Undergraduate Studies

The objective of psychology, as a science, is to understand, explain, and predict the behavior of organisms. The Department of Psychology has developed and organized its course offerings to meet three major goals:

1. To provide a strong foundation for those students who plan to enter a graduate school of psychology after completing their undergraduate degree requirements.
2. To assist those students who are planning careers in psychology or in related fields by providing a flexible curriculum that can be designed to meet the career goals of individual students.
3. To meet the needs of those students who are taking psychology courses as part of their liberal arts education.

All first-time freshmen must successfully complete CAS 100: First Year Experience as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Accelerated Bachelor's To Master's Program In Psychology (ABM)

See Graduate School Bulletin for rules for all Accelerated Bachelor's to Master's Programs <https://www.southalabama.edu/> (<https://www.southalabama.edu/bulletin/current/colleges-schools/graduate-school/>) [bulletin/current/colleges-schools/graduate-school/index.html](https://www.southalabama.edu/bulletin/current/colleges-schools/graduate-school/index.html). (<https://www.southalabama.edu/bulletin/current/colleges-schools/graduate-school/>)

Program Description

The USA accelerated bachelor's to master's (ABM) in Psychology provides exceptional undergraduate students the opportunity to earn a bachelor's and master's degree at an accelerated pace in Psychology. While still an undergraduate, ABM students may count up to 12 credit hours of graduate course work towards their undergraduate degree. ABM students typically complete the master's degree within one academic year after completing the undergraduate degree.

Psychology majors are encouraged to apply for the Accelerated Bachelor's to Master's (ABM) Program in Psychology. This program is designed to allow the student to complete the Bachelor's degree in

Psychology and the Master's degree in Psychology (Behavior and Brain Sciences program only) in five years.

Admission Procedures

Admission will be a competitive process. The minimum standards are:

- Have completed at least 90 credit hours
- Have completed at least 30 credit hours at USA
- Must complete PSY 220 prior to fall semester of junior year
- Must complete PSY 220 and PSY 320 with a minimum grade of B
- Must have at least a 3.3 GPA (Cumulative and Psychology). In exceptional cases, candidates with a lower GPA may be considered.
- Requires 2 letters of recommendation.
- Requires a personal statement
- Must have a verifiable score on either the ACT, SAT, or GRE
- Taking PSY 490- Research Design and Analysis III is recommended

Admission will be based on characteristics of the applicant and research match to the Psychology faculty. Applicants must transmit a personal statement and have two referees submit a letter of recommendation to the graduate program coordinator. Once admitted into the ABM program, students must maintain at least a 3.0 GPA and remain in good standing to progress into the graduate program.

Program Procedures

ABM students may begin taking graduate courses after completing at least 90 hours of undergraduate credit. Typically, during their senior undergraduate year, students will take 7 graduate credits per semester for 2 semesters (14 hours) while they are also taking undergraduate courses. Of these 14 graduate hours, 6 hours typically count toward the undergraduate degree. Graduate courses counting toward the graduate degree taken during the senior year must be completed with grades of at least B. Graduate courses with a grade of C can count toward the undergraduate degree but not the graduate degree. Graduate courses with a grade below C cannot count toward the undergraduate or graduate degree. Completion of the ABM program requires students complete at least 150 approved unique credit hours. To qualify for a baccalaureate degree, a student must complete at least 120 approved semester hours. To qualify for a master's degree a student must complete a minimum of 30 approved semester hours. Generally, undergraduate students are not approved to take more than 12 credit hours of graduate coursework.

Upon completing the undergraduate degree, students will apply to the Psychology (Behavioral and Brain Sciences) Master's program. ABM students who are in good standing will be accepted into the Psychology Master's program. A student who withdraws or is dismissed from the ABM program may not count graduate coursework towards both degrees.

An ABM student must be a full time student and must complete all degree requirements for the master's within three semesters of the semester in which they were admitted to the Graduate School. An exception for a fourth semester may be granted where an additional semester is required for final revisions to and submission of a defended thesis. Exceptions to the ABM policy are at the discretion of the Dean of the Graduate School.

Graduate Study In Psychology

The Department of Psychology accepts applicants to the Behavioral and Brain Sciences Master of Science program (BBS) and to the Doctor of

Philosophy program in Clinical/Counseling Psychology (CCP). Students admitted to the CCP program with a Bachelor's degree will complete the Master of Science program (Clinical and Counseling Psychology).

The Master of Science degree program in Psychology (BBS) is designed to provide individuals with knowledge of current theories, principles, and methods of psychology in preparation for future work toward a doctoral degree, employment in a research setting or employment in a college teaching position. The Department of Psychology currently accepts applicants to the Master of Science degree program, with an interest in one or more areas of concentration in the Behavioral and Brain Sciences. The available areas of concentration include: Behavioral Statistics/ Computational Modeling, Personality and Measurement, Cognitive and Perceptual Processing, Psychophysiology, Social/Developmental Psychology, and Scholarship of Teaching and Learning. Students interested in the BBS Masters in Psychology program are encouraged to see the full program description at <https://www.southalabama.edu/colleges/artsandsci/psychology/bbs.html>.

Students enrolled in the Doctor of Philosophy in Clinical and Counseling Psychology have the opportunity to earn a Master's of Science in Psychology as they progress towards completion of the doctoral degree. Students interested in a graduate degree in Clinical and Counseling Psychology are encouraged to see the full program description of the doctoral program in Clinical and Counseling Psychology under the heading "The Graduate School" for more information www.southalabama.edu/ccp/ (<https://www.southalabama.edu/ccp/>).

Requirements For Admission

For the Doctoral CCP Graduate Program, students are admitted Fall Semester only. Applications to the Doctoral CCP Graduate Program should be completed by December 15. For the BBS Masters in Psychology program, students are typically only admitted for the Fall Semester. Students may be admitted during Spring semester if warranted due to special circumstances approved by all BBS core faculty. Applications to the Masters program in Behavioral and Brain Sciences should be completed by February 15. Late applications will be considered only if there are still openings available. Please note that the Psychology Graduate Programs are competitive programs with a limited capacity.

In addition to the Graduate School application form and required supporting documentation, the Department of Psychology Master of Science requires a statement of purpose, and three letters of recommendation. Applicants to the Psychology Master of Science concentration in Behavioral and Brain Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work and have completed at least 21 hours of psychology courses, including at least one course in statistics and one in experimental methods. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work. Applicants typically submit official GRE scores and have a minimum combined score of 300 (verbal + quantitative).

Applicants to the Doctor of Philosophy in Clinical and Counseling Psychology should see www.southalabama.edu/ccp/ (<https://www.southalabama.edu/ccp/>).

Non-degree Students

Applicants for non-degree status in psychology are considered only in exceptional cases and will normally be admitted only if they meet regular admission standards. Following admission, non-degree students must have permission of the department chair and director of graduate

studies of the college for each course they wish to enroll in. Enrollment will be approved on a space-available basis with preference being given to degree students. Non-degree students must satisfy the same prerequisites and corequisites as degree students.

Progress Toward Degree

All graduate students will be evaluated each semester to determine if they are making satisfactory progress toward completion of degree requirements. Students will be given written reports, including specific deficits, if they are not making satisfactory progress. Such students will have one semester to remedy the specific deficits listed or will be subject to dismissal from the program.

Graduate Assistantships

Each year the Psychology Department recommends qualified applicants to the Dean of the Graduate School for graduate assistantships. Application forms for graduate assistantships may be obtained from the Graduate School. The deadline for receipt of completed doctoral assistantship applications is December 15.

Degrees, Programs, or Concentrations

- Psychology (MS) (p. 364)
- Psychology Minor (p. 364)

Courses

Clinical Counseling Psy (CCP)

CCP 742 Advanced Psych Assessment 3 cr

This course will offer an in-depth understanding of the assessment of complex cases, which includes both mental illness and physical disorders, as well as the impact of complex social issues, such as culture, ethnicity, and economic issues. The course covers topics pertaining to adults and children. The emphasis will be on the integration of nomothetic and empirical perspectives with idiographic approaches in an evidence-based assessment model. Topics covered will be assessing special populations (e.g., severely mentally ill, trauma, forensic, parents), therapeutic assessment, person-centered report writing, providing feedback, theoretical and scientific issues in assessment, and current controversies.

Prerequisite: CCP 706 (may be taken concurrently) Minimum Grade of B

CCP 745 Teaching of Psychology 3 cr

This course will offer an in-depth understanding of the teaching of psychology at the post secondary level.

CCP 750 Applied Psychophys Biofeedback 3 cr

This course will survey theory, research, and applications of psychophysiology and biofeedback in the prevention and treatment of illness and the enhancement and maintenance of health.

Prerequisite: CCP 706 Minimum Grade of B

CCP 752 Clinical Neuropsychology 3 cr

This course will offer an in-depth understanding of the different theories of brain function in humans. Assessment methods for detecting abnormal functioning and the localization of functioning by behavioral methods will also be examined. The possible etiologies of abnormal functioning as well as their treatment will be reviewed.

Prerequisite: CCP 706 Minimum Grade of B and CCP 742 Minimum Grade of B

CCP 756 Practicum Therapy 1-3 cr

Supervised experience with child and/or adult populations; includes case conference and seminars. This course may include supervised placement in an applied setting.

Prerequisite: CCP 706 (may be taken concurrently) Minimum Grade of B or PSY 506 (may be taken concurrently) Minimum Grade of B

CCP 758 Psychology Resilience & Trauma 3 cr

This course will offer an in-depth understanding of resilience, as it manifests across the lifespan in response to various types of traumas (natural vs. manmade; community-wide versus family- or individually-specific). Prevention and reduction of psychological impact related to trauma and the development, enhancement, and maintenance of resilience in the face of adversity will be emphasized.

Prerequisite: CCP 706 (may be taken concurrently) Minimum Grade of B

CCP 759 Group and Systems Theory 3 cr

This course will survey group and systems theories and the interventions that have been derived from this perspective. The dynamics of group processes will be delineated.

Prerequisite: CCP 706 Minimum Grade of B

CCP 763 Prevention Treat Public Health 3 cr

This course will survey the basic theory and techniques underlying the study of public health problems. Research related to the prevention and treatment of several specific public health problems (e.g. suicide, HIV/AIDS, youth violence) will be covered in depth.

CCP 764 Consult Psych Program Develop 3 cr

This course provides an overview of approaches to psychological consulting and program development in individual, small group and large organization contexts. Specific aspects of psychological consulting in mental health, business, and educational settings will be reviewed

CCP 766 Clinical Supervision 3 cr

This course provides an overview of the various theoretical approaches to supervision of professional psychological services, particularly psychotherapy services. In addition, relevant research findings in the area of supervision are reviewed. Students also have the opportunity to receive feedback on audio/video tapes of their supervision sessions with a junior graduate student clinician

Prerequisite: CCP 706 Minimum Grade of B and CCP 756 Minimum Grade of S

CCP 772 Child Family Psychopath Interv 3 cr

This course provides an overview of current theory and research findings relevant to psychological disorders typically occurring in childhood and adolescence. In addition, evidence-based interventions for various childhood disorders are reviewed. A focus will be upon an ecological and developmental view of childhood psychopathology that integrates family, community, and societal forces in a comprehensive view of such disorders.

Prerequisite: CCP 706 Minimum Grade of B

CCP 777 Seminar on Suicide 3 cr

This graduate seminar will examine the topic of suicide and self-harm in depth. Theoretical and empirical perspectives from sociology, psychology, and genetics/neuroscience will be considered. Additionally, we will examine suicide as both a clinical phenomenon and as a public health issue. Accordingly, cultural, political, and policy issues related to suicide will be explored alongside risk factors, mental health, and individual patient-level factors. This course will utilize focused readings, group discussions, and writing assignments to achieve the course objectives.

CCP 780 Applied Health Psychology 3 cr

This course will survey theory, research, and applications of health psychology in the prevention and treatment of illness and the enhancement and maintenance of health.

Prerequisite: CCP 706 (may be taken concurrently) Minimum Grade of B

CCP 782 Advanced Practicum 1-3 cr

Supervised experience with child and/or adult populations in a variety of settings; includes case conferences and advanced psychological assessment and interventions and supervision of lower level graduate students.

Prerequisite: CCP 756 Minimum Grade of B

CCP 790 Special Topics- 3 cr

Selected topics in psychology and may be repeated or credit when course varies.

CCP 795 Multicultural Counseling 3 cr

CCP 795 Multicultural Counseling in Professional Psychology. Provides a foundation in multicultural awareness, knowledge, and skills from a clinical and counseling psychology perspective.

CCP 796 Directed Studies 1-3 cr

Directed study and research.

CCP 797 Psychology Internship 3 cr

The predoctoral internship is a supervised learning experience in a work setting similar to that in which students will eventually be employed. The internship provides students with an opportunity to apply the theories and concepts learned during their graduate program. Not more than 18 hours may be taken.

CCP 799 Dissertation Research 1-6 cr

Completion and oral defense of a dissertation based upon original research. May be repeated for up to 12 hours credit. A minimum of nine hours is required to meet degree requirements.

Psychology (PSY)**PSY 120 Introduction to Psychology 3 cr**

A survey of the basic theories, concepts, principles, and research findings in the field of Psychology. Core course.

Cross-Listed: PSY 121

PSY 121 Honors Gen Psychology - H 3 cr

This course will provide a survey of the basic theories, concepts, principles, and research findings in the field of Psychology. Along with the broad overview provided by the course, students will participate in a more in-depth examination of selected special topics (e.g. those topics generating controversy in the research community and in our society) as selected by the instructor. By contrast with the PSY 120 Introduction to Psychology course already being taught, the Honors General Psychology course will provide a more thorough coverage of selected topics. **Prerequisite:** Special permission.

Cross-Listed: PSY 120

PSY 220 Res Design and Analysis I 3 cr

Research methods in psychology with an emphasis on the experimental method.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

PSY 221 Research Desgn/Analysis I-Apps 1 cr

Laboratory in research methods in psychology with an emphasis on the experimental method.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 210 Minimum Grade of D) or PSY 121 Minimum Grade of D and (EH 102 Minimum Grade of D or EH 105 Minimum Grade of D)

Corequisite: PSY 220

PSY 250 Life Span Development 3 cr

An overview of human development from conception to death. Special emphasis will be placed on cognitive and social development. Core course.

PSY 270 Psy of Black Experience 3 cr

Theories and principles of psychology pertaining to the experience of black Americans. Includes the development of the black psychological perspective, African-American historical developments and philosophy, identity development and the determinants of the black personality, and contemporary issues in the black community.

PSY 290 Special Topics - 1-3 cr

Selected topics in psychology. May be repeated for credit when course content varies for a total of 12 credit hours.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 310 Biological Psychology I 3 cr

An introductory survey of research and theory in neuroscience as it applies to the understanding of behavior. Focus will be on understanding basic mechanisms of neuron function and general coverage of topics such as sensory and motor systems, motivation and emotion, learning and memory, language and thinking, and mental disorders.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 317 Applied Behavior Analysis I 3 cr

An introduction to the principles of behavior intended as a prerequisite to the specific strategies and procedures practiced by behavior analysts. This course will present the historical and scientific foundations of behavior analysis as applied in educational and other human service settings.

Prerequisite: (PSY 120 Minimum Grade of C or PSY 121 Minimum Grade of C or PSY 210 Minimum Grade of C) and (PSY 220 Minimum Grade of C or PSY 222 Minimum Grade of C)

PSY 320 Res Design-Analysis II-W 3 cr

Experience in applying methodological and statistical concepts introduced in PSY 220 and ST 210, as well as instruction in additional topics such as research and analysis. The course will emphasize the use of computers in conducting behavioral research (e.g. literature searches, collecting data, analyzing data, writing reports).

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (PSY 220 Minimum Grade of D or PSY 222 Minimum Grade of D) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

PSY 321 Research Desgn/Analysis II-App 1 cr

Laboratory in research methods in psychology with an emphasis on applying methodological and statistical concepts introduced in PSY 220 and PSY 320.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 210 Minimum Grade of D) or PSY 121 Minimum Grade of D and (PSY 220 Minimum Grade of D and PSY 222 Minimum Grade of D) and (EH 102 Minimum Grade of D and EH 105 Minimum Grade of D)

Corequisite: PSY 320

PSY 340 Abnormal Psychology 3 cr

Nature and development of deviant behavior.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 350 Child and Adolescent Dev 3 cr

The development and psychosocial aspects of childhood and adolescence.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 394 Directed Study 1-3 cr

Specific topics and research findings introduced through the reading of appropriate professional and scientific literature. Requires special permission. May be repeated for a total of 8 credit hours.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 395 Psychology Practicum 1-6 cr

Supervised experience in an area of psychology. May include supervised placement in an applied setting. May be repeated for a total of 12 credit hours.

Prerequisite: (PSY 120 Minimum Grade of C or PSY 121 Minimum Grade of C or PSY 210 Minimum Grade of C)

PSY 412 History-Systems Psy - W 3 cr

The historical foundations of modern psychology and the development of major theories in psychology.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

PSY 414 Introduction to Clin Psych 3 cr

This course serves as a practical capstone for Psychology students interested in careers in professional Psychology. Through a series of lectures, readings, exercises, films, and demonstrations, this course will introduce student to the ways that clinical psychologists approach the conceptualization, assessment, diagnosis, and treatment of health problems. The course will focus on the scientific basis for the practice of clinical psychology.

Prerequisite: PSY 120 Minimum Grade of D or EH 102 Minimum Grade of D or EH 105 Minimum Grade of D

PSY 416 Cognition 3 cr

An overview of psychological research and theory in cognitive psychology. The course will emphasize how people gather, process, represent, and use information to guide thought and action. This course is an approved elective for students seeking gerontology certification.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (PSY 220 Minimum Grade of D or PSY 222 Minimum Grade of D)

PSY 417 Applied Behav Analysis I-Intro 3 cr

An introduction to the principles of behavior intended as a prerequisite to the specific strategies and procedures practiced by behavior analysts. This course will present the historical and scientific foundations of behavior analysis as applied in educational and other human service settings. Prerequisites: PSY 120 or PSY 121 and PSY 220 or Education Teacher candidacy.

Prerequisite: (PSY 120 Minimum Grade of C or PSY 121 Minimum Grade of C or PSY 210 Minimum Grade of C) and (PSY 220 Minimum Grade of C or PSY 222 Minimum Grade of C)

PSY 418 Applied Behav Analysis II-Meth 3 cr

Behavioral assessment techniques and operant and respondent methods for deceleration of inappropriate behavior will be covered. Operant methods for accelerating appropriate behaviors, teaching new behaviors, and maintaining behaviors will be covered. Data-based decision making strategies will be used in developing and altering individual programs.

Prerequisite: PSY 317 Minimum Grade of C

PSY 419 App Behav Analysis III-Adv App 3 cr

Behavioral assessment techniques and experimental designs for the evaluation of behavior change programs will be covered. Data-based decision making strategies for formative program evaluation and modification are also included.

Prerequisite: PSY 417 Minimum Grade of C

PSY 420 Psychology of Learning 3 cr

Theories, experimental findings, and methods of investigation in learning.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (PSY 220 Minimum Grade of D or PSY 222 Minimum Grade of D)

PSY 425 Mental Health and Law 3 cr

Selected topics in psychology and criminal Justice. An overview of the relevant federal and state laws, federal regulations and court rulings which address the issues of justice for preserving the rights of individuals with mental illness.

Prerequisite: PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D

PSY 428 Perception 3 cr

A critical analysis of the main theories and research trends in sensation and perception. This course will include computer simulations and demonstrations, and will also emphasize computer applications for data collection, data analysis, and for reporting results. This course is an approved elective for students seeking gerontology certification.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (PSY 220 Minimum Grade of D or PSY 222 Minimum Grade of D) and (PSY 310 Minimum Grade of D or PSY 380 Minimum Grade of D)

PSY 435 Social Psychology 3 cr

A survey and analysis of major theoretical and experimental topics of interest in social psychology, such as how we perceive others, attitude, interpersonal attraction, aggression, prejudice and altruism.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 440 Psychology of Personality 3 cr

A survey and critical analysis of major historical and current theories about personality. The course will also examine research relevant to the different approaches and consider various techniques of personality assessment.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 456 Adult Development and Aging- 3 cr

The development and psychosocial aspects of adulthood and late life. This course is an approved elective for gerontology certification.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of C or PSY 210 Minimum Grade of D)

Cross-Listed: PSY 356

PSY 460 Industrial Psychology 3 cr

Application of psychological principles and techniques to business, industry, and government.

Prerequisite: PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D

PSY 465 Intro to Measurements-Tests 3 cr

This course will provide a survey of the methodology of assessment, test design and construction, test administration and scoring, achievement and intelligence testing, personality observations and inventories, and issues in ethics and applications of testing.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or ST 210 Minimum Grade of D)

PSY 470 Intellectual Disabilities 3 cr

The study of theories and research in intellectual disabilities and related areas.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 475 Comparative Evolutionary Psy 3 cr

A critical analysis of the main theories and research trends in comparative and evolutionary psychology. This course is an approved elective for students seeking gerontology certification.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (PSY 220 Minimum Grade of D or PSY 222 Minimum Grade of D)

PSY 480 Health Psychology - W 3 cr

Current theories, research and applications in health psychology.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (PSY 220 Minimum Grade of D or PSY 222 Minimum Grade of D) and (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

PSY 485 Psychology of Gender 3 cr

The study of psychological research on gender differences and theories regarding the origins of these differences.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or ST 210 Minimum Grade of D)

PSY 490 Special Topics 1-3 cr

Selected topics in psychology. May be repeated for a total of 12 credit hours when course content varies.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 492 Seminar - 1-3 cr

A survey of basic theories, concepts, principles, and research findings in a particular focal topic in psychology. Students will study topics in depth by reading and presenting research reports, review papers and book chapters, and through active in-class discussion of the reading materials. Requires permission of department chair. May be repeated up to 2 times when content varies for a total of 6 credit hours.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (PSY 220 Minimum Grade of D or PSY 222 Minimum Grade of D)

PSY 494 Directed Studies - 1-3 cr

Directed study and research. Requires special permission. May be repeated for a total of 8 hours.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D)

PSY 499 Honors Senior Thesis-H 3-6 cr

Student conducts an independent research project under the supervision of a faculty sponsor. Recommended for psychology majors planning graduate school. Permission of department chair is required prior to registration. Requires GPA of 3.3 or higher. May be repeated for a total of 6 credit hours.

Prerequisite: (PSY 120 Minimum Grade of D or PSY 121 Minimum Grade of D or PSY 210 Minimum Grade of D) and (PSY 220 Minimum Grade of D or PSY 222 Minimum Grade of D)

PSY 500 Proseminar in Psychology 1 cr

Research presentations will be given by faculty and advanced graduate students. In addition, discussion of project and thesis requirements and procedures will take place. Required of all students registered for PSY 500, 502, and 503.

PSY 501 Research Design and Stats I 3 cr

Theories and principles of research design and elements of modern statistics. Introduction to computer programs for statistical analysis will be included.

Corequisite: PSY 500

PSY 502 Research Design and Stats II 3 cr

Theories and principles of advanced research design and elements of modern statistics. The use of computer applications such as SPSS to analyze empirical data sets will be covered.

Prerequisite: PSY 501 Minimum Grade of B or PSY 521 Minimum Grade of B

Corequisite: PSY 500

PSY 503 Quantitative Methods II 3 cr

Elements of modern statistics with emphasis on application to psychological research. Multivariate statistical techniques to include multiple regression, multivariate analysis of variance, discriminant, canonical, and factor analysis will be discussed.

Prerequisite: (PSY 502 Minimum Grade of B or PSY 522 Minimum Grade of B)

Corequisite: PSY 500

PSY 506 Prof Ethics and Standards 3 cr

An introduction to professional and ethical issues as they pertain to psychology. Focus is on the development of an ethical and professional awareness in the practice of psychology, including teaching and research.

PSY 507 History of Psych & Prof Ethics 3 cr

This course provides instruction through readings, lecture, and case studies in the application of ethics in the professional practice of psychology. In addition, the course focuses on the philosophical foundations, professional identity, and standards of practice found in both clinical psychology and counseling psychology.

PSY 510 Physiological Psychology 3 cr

This course provides a foundation in the techniques of advanced psychophysiological methods. The course covers the history of psychophysiology, including the electrical properties of cells, and major organ systems, with particular emphasis on the electroencephalogram (EEG) and neuroimaging techniques. Students are introduced to the principles of psychophysiological recording, common applications of psychophysiology, safety and ethics in psychophysiological research, instrumentation, and research design issues in psychophysiology. Relevant statistical treatment of psychophysiological data will be discussed, including multiple regression, complex ANOVA, scaling of data, and non-parametric alternatives such as bootstrapping.

PSY 512 Adv History/Systems Psychology 3 cr

An advanced course in the historical foundations of modern psychology and the development of major theories in psychology.

PSY 514 Learning 3 cr

A survey of research and theory in learning.

PSY 516 Cognitive Psychology 3 cr

An advanced survey of research and theory in cognitive psychology. Topics include pattern recognition, attention, memory, language processing, decision making, and problem solving. This course is an approved elective for students seeking gerontology certification.

PSY 520 Personality Res and Theory 3 cr

A critical analysis and evaluation of major theories and current research trends in personality.

PSY 522 Soc & Personality Psychology 3 cr

This course provides a foundation for conducting quantitative research in personality and social psychology. Topics covered will include (a) measurement of personality and individual differences (e.g., narcissism, self-esteem), (b) measurement of cognitive and behavioral outcomes in laboratory and non-laboratory settings (e.g. decision-making, implicit cognitions), and (c) data analytic techniques (e.g. testing for mediation/moderation, structural equation modeling).

PSY 524 Lifespan Development 3 cr

Analysis of theories, research methods, and major findings of sensory, perceptual, social, and cognitive changes across the lifespan, from infancy to late life. Research in social and cognitive development, including cognitive disabilities, the underlying mechanisms involved in thinking and learning processes, and age-related cognitive models are central to this course. **This course is an approved elective for students seeking gerontology certification.

PSY 528 Sensation and Perception 3 cr

This course provides a multidisciplinary analysis of how the sensory systems analyze physical stimuli to support perception and successful actions. Consideration is given to how the anatomy and physiology of the major sensory systems extract information using low- and high-level mechanisms to create meaningful percepts. Other topics include psychophysics, comparative studies, communication, production and performance, face and object recognition, attention, and event perception.

PSY 530 Applied Psy & Dx Interviewing 3 cr

Theories, principles and techniques of interviewing, behavioral observation and classification of psychological disorders.

PSY 532 Psychopathology 3 cr

Current research and theoretical aspects of psychopathology in children and adults.

PSY 540 Psychometrics 3 cr

Theories and methods of test construction and principles of measurement and evaluation in the behavioral sciences.

PSY 542 Cognitive Assessment 3 cr

Principals and methods of individual intelligence testing, including the administration of the Wechsler and the Stanford-Binet tests. Practical experience in the administration, interpretation and report writing of a psychological evaluation using intelligence tests.

Prerequisite: PSY 530 Minimum Grade of B and (PSY 540 Minimum Grade of B or PSY 571 Minimum Grade of B)

PSY 544 Personality & Affective Assmt 3 cr

Theory, development and interpretation of selected personality assessment instruments. Methods and procedures in administering and interpreting personality, aptitude and career interest tests.

Prerequisite: (PSY 540 Minimum Grade of B or PSY 571 Minimum Grade of B) and (PSY 542 Minimum Grade of B or PSY 575 Minimum Grade of B)

PSY 550 Evidenced Based Clin/Coun Prac 3 cr

Study of the theoretical and empirical foundations of the major systems of psychotherapeutic change.

PSY 552 Multicultural Issues in Psy 3 cr

This course will focus on theoretical models, research, techniques, and interventions for working with culturally diverse populations in various settings. Specific issues to be addressed include world views, acculturation and acculturative stress, prejudice and prejudice-reduction techniques, racial/ethnic identity, culture and assessment, and the nature of multicultural competence in Psychology. Issues related to ethnic and racial identity will form the primary focus; however, other types of diversity (e.g., religion, gender, sexual orientation, physically challenged) will also be considered.

Prerequisite: (PSY 550 Minimum Grade of B or PSY 589 Minimum Grade of B) and PSY 506 Minimum Grade of B and PSY 530 Minimum Grade of B and (PSY 532 Minimum Grade of B or PSY 561 Minimum Grade of B)

PSY 554 Cognitive Behavior Therapy 3 cr

A follow up course to PSY 550, this course will survey theory, research and application of cognitive behavior therapy. Focus will be on treatment strategies and application to a variety of psychological disorders of adults and children.

Prerequisite: PSY 530 Minimum Grade of B and (PSY 532 Minimum Grade of B or PSY 561 Minimum Grade of B) and (PSY 550 Minimum Grade of B or PSY 589 Minimum Grade of B)

PSY 556 Practicum 1-3 cr

Supervised experience with adult and children clients. Includes case conference and seminars. May include supervised placement in an applied setting. May be repeated up to five times for a total of 18 credit hours.

Prerequisite: (PSY 532 Minimum Grade of B or PSY 561 Minimum Grade of B) and (PSY 550 Minimum Grade of B or PSY 589 Minimum Grade of B)

PSY 558 External Practicum 3-5 cr

Supervised placement in an applied setting. May be repeated four times for a total of 15 credit hours.

Prerequisite: PSY 552 Minimum Grade of B and PSY 554 Minimum Grade of B

PSY 570 Intel Disable/Autism Spec Dis 3 cr

A study of theories and research related to Intellectual Disabilities and Autism Spectrum Disorders.

PSY 572 Child Psychopathology 3 cr

The description and etiology of deviant behavior patterns in children and adolescents.

Prerequisite: (PSY 532 Minimum Grade of B or PSY 561 Minimum Grade of B)

PSY 575 Comparative Psychology 3 cr

An in-depth analysis of the proximal and ultimate causes of animal and human behavior examined from the perspectives of comparative and evolutionary psychology, psychobiology and ethology. Relevant research in animal models of biological and cognitive systems, learning and motivation, lifespan development and related biopsychosocial factors will be included. ** This course is an approved elective for students seeking gerontology certification.

PSY 586 Cognitive Neuroscience 3 cr

This course includes an advanced and integrative study of the experimental study of cognition and neuroscience. Topics include sensation and perception, memory, learning, language, metacognition, intelligence, problem solving, decision making, mental imagery, consciousness, attention, and the development of cognition through the life span. Major theoretical perspectives and current research within the fields of cognition and neuroscience are discussed. This course also provides students with a basic understanding of the neural underpinnings of a variety of cognitive processes.

PSY 590 Sp Top in Psychology - 1-3 cr

Selected topics in psychology. May be requested for credit when course content varies for a total of 12 credit hours.

PSY 594 Dir Individual Study 1-3 cr

Individual study under the direction of a member of the graduate faculty. May be repeated for up to 9 hours credit.

PSY 598 Project in Psychology 1-6 cr

Completion of a research project, program proposal, program evaluation, major literature review or other comparable experience under the direction of a member of the graduate faculty. IRB or Animal Use and Care Committee approval may be required for some projects. May be repeated for up to 6 hours credit. A minimum of 3 hours is required to meet degree requirements.

PSY 599 Thesis Research 1-6 cr

Completion and oral defense of a master's thesis based upon original research. May be repeated for up to 9 hours credit. A minimum of 6 hours is required to meet degree requirements. Prerequisite: Approval of research prospectus including IRB or Animal Use and Care Committee approval if applicable.

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
AHLICH, ERICA MARIE (eahlich@southalabama.edu)	Psychology	Assistant Professor	BA, Albion College MA, University of South Florida PHD, University of South Florida

General Education Requirements		
https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext		50-54
Major Requirements		
<i>Psychology Core Basic</i>		36
A. Complete the following:		
PSY 120	Introduction to Psychology	3
PSY 220	Res Design and Analysis I	3
PSY 320	Res Design-Analysis II-W	3
PSY 310	Biological Psychology I	3
<i>Psychology Experimental/Learning</i>		
A. Select two of the following:		6
PSY 416	Cognition	
PSY 420	Psychology of Learning (see footnote table below (p. 362)) ¹	
or PSY 317	Applied Behavior Analysis I	
PSY 428	Perception	
PSY 475	Comparative Evolutionary Psy	
<i>Psychology Personality/Social And Abnormal</i>		
A. Select two of the following:		6
PSY 340	Abnormal Psychology	
PSY 435	Social Psychology	
PSY 440	Psychology of Personality	
<i>Psychology Developmental</i>		
A. Complete the following:		
PSY 350	Child and Adolescent Dev	3
or PSY 456	Adult Development and Aging-	
<i>Psychology Capstone</i>		
A. Complete the following:		
PSY 412	History-Systems Psy - W	3
or PSY 414	Introduction to Clin Psych	
<i>Psychology Elective</i>		
Select six hours of PSY electives, excluding PSY 250		6
Minor Requirements		
A minor is required for this degree program		0
A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE		120

Footnote

¹ You may take either PSY 420 or PSY 317 but not both.

All undergraduates must complete two designated writing credit (W) courses, at least one of which must be in the student's major or minor.

Notes:

The remaining six hours of electives needed for a major may be taken from any courses not taken previously (excluding PSY 250).

Students who are preparing for graduate study are encouraged to take all courses listed in the undergraduate core and any additional courses recommended by their faculty advisor. Student research is encouraged by the faculty and students may obtain course credit for individual student research projects in PSY 494. Students pursuing a degree in Psychology also must have a minor in another discipline.

Undergraduate Studies

The objective of psychology, as a science, is to understand, explain, and predict the behavior of organisms. The Department of Psychology has developed and organized its course offerings to meet three major goals:

1. To provide a strong foundation for those students who plan to enter a graduate school of psychology after completing their undergraduate degree requirements.
2. To assist those students who are planning careers in psychology or in related fields by providing a flexible curriculum that can be designed to meet the career goals of individual students.
3. To meet the needs of those students who are taking psychology courses as part of their liberal arts education.

Requirements for a Minor in Psychology

A minimum of 21 semester hours in Psychology, including PSY 120 or PSY 121, PSY 220 and 15 semester hours of electives (twelve of those must be in courses numbered 300 or above).

Additional Information

Accelerated Bachelor's to Master's Program in Psychology (ABM)

See Graduate School Bulletin for rules for all Accelerated Bachelor's to Master's Programs <https://www.southalabama.edu/bulletin/current/colleges-schools/graduate-school/index.html> (<https://www.southalabama.edu/bulletin/current/colleges-schools/graduate-school/>).

Program Description

The USA accelerated bachelor's to master's (ABM) in Psychology provides exceptional undergraduate students the opportunity to earn a bachelor's and master's degree at an accelerated pace in Psychology. While still an undergraduate, ABM students may count up to 12 credit hours of graduate course work towards their graduate degree. ABM

students typically complete the master's degree within one academic year after completing the undergraduate degree.

Psychology majors are encouraged to apply for the Accelerated Bachelor's to Master's (ABM) Program in Psychology. This program is designed to allow the student to complete the Bachelor's degree in Psychology and the Master's degree in Psychology (Behavior and Brain Sciences program only) in five years.

Admission Procedures

Admission will be a competitive process. The minimum standards are:

- Have completed at least 90 credit hours
- Have completed at least 30 credit hours at USA
- Must have at least a 3.3 GPA (Cumulative and Psychology)
- Requires 2 letters of recommendation
- Must have a verifiable score on either the ACT, SAT, or GRE

Admission will be based on characteristics of the applicant and research match to the Psychology faculty. Applicants must transmit a personal statement and have two referees submit a letter of recommendation to the graduate program coordinator.

Once admitted into the ABM program, students must maintain at least a 3.0 GPA and remain in good standing to progress into the graduate program.

Completion of the ABM program requires students complete at least 150 approved unique credit hours. To qualify for a baccalaureate degree, a student must complete at least 120 approved semester hours. To qualify for a master's degree a student must complete a minimum of 30 approved semester hours. Generally, undergraduate students are not approved to take more than 12 credit hours of graduate coursework.

Program Procedures

ABM students may begin taking graduate courses after completing at least 90 hours of undergraduate credit.

Typically, during their senior undergraduate year, students will take 7 graduate credits per semester for 2 semesters (14 hours) while they are also taking undergraduate courses. Of these 14 graduate hours, 6 hours can count toward both degrees (Bachelor's and Master's) if the courses are completed with grades of at least B. Courses with a grade of C can count toward the undergraduate degree but not the graduate degree. Courses with a grade below C cannot count toward the undergraduate or graduate degree.

Upon completing the undergraduate degree, students will apply to the Psychology (Behavioral and Brain Sciences) Master's program. ABM students who are in good standing will be accepted into the Psychology Master's program.

Completion of the Master of Science (Behavioral and Brain Sciences) requires successful completion of all requirements, including at least 36 graduate credit hours. Graduate credit taken while an undergraduate that is completed with at least the grade of B will be transferred into the Master's program upon acceptance and will apply toward the 36 hours required for the Master of Science degree.

A student who withdraws or is dismissed from the ABM program may not count graduate coursework towards both degrees. Graduate courses for which an undergraduate student did not earn an "A" or "B" grade, may not be counted towards the graduate degree.

An ABM student must be a full-time student and must complete all degree requirements for the master's within three semesters of the semester in which they were admitted to the Graduate School. An exception for a fourth semester may be granted where an additional semester is required for final revisions to and submission of a defended thesis. Exceptions to the ABM policy are at the discretion of the Dean of the Graduate School.

Sociology, Anthropology, And Social Work

Department Information

Department of Sociology, Anthropology and Social Work website
<https://www.southalabama.edu/colleges/artsandsci/syansw/>

Departmental Mission Statement

The Department of Sociology, Anthropology and Social Work seeks to equip students with conceptual tools to enhance their social and cultural awareness and with methodological tools to obtain empirical knowledge to empower them to engage in improvement of social conditions. Acknowledging the inextricable link between teaching and scholarly research, we strive for excellence in both areas to unite students and faculty in a common experience of learning and discovery through pure and applied research to prepare students for service through careers and civic engagement.

Degrees, Programs, or Concentrations

- Anthropology (BA) (p. 378)
- Anthropology Minor (p. 378)
- Social Work (BSW) (p. 378)
- Sociology (BA) (p. 380)
- Sociology Minor (p. 381)

Courses

Anthropology (AN)

AN 100 Intro to Cultural Anthropology 3 cr

Introduces culture as a set of integrated behaviors and meanings learned in a social environment. Explores the diversity of human cultural practices in terms of kinship, gender, religion, subsistence, and politics. Language is emphasized as the means by which culture is transmitted from one generation to the next.

AN 101 Intro Archaeology-Bio Anthro 3 cr

The place of people in nature; the origin, development, and differentiation of people as biological organisms; archaeological evidence of early human cultures; basic concepts and principles for understanding human cultures. Introduces students to the topics of evolution, genetics, and primates and integrates cultural aspects associated with early human development. The fundamental orientation and methods of archaeology are introduced and an overview of world prehistory presented.

AN 121 Biological Anthropology 3 cr

This course asks students to explore what it means to be human, focusing on humanity's biological roots and modern variation between populations. To understand our present condition, we must understand our evolutionary past. We reconstruct this past utilizing data from the fossil record, as well as comparative evidence from modern monkeys and apes. This course discussed the following topics: evolutionary theory, natural selection, population genetics, primate behavior, and human evolution.

Corequisite: AN 121L

AN 121L Biological Anthropology Lab 1 cr

The lab section of this course is designed to provide a more in-depth understanding of biological anthropology through a variety of exercises and hands-on learning opportunities. Topics covered parallel those in lecture (AN 121) and include evolutionary theory, living primates, primate origins, human evolution, and modern human variation.

Corequisite: AN 121

AN 190 Special Topics - 3 cr

Different topics of anthropological importance will be studied as announced. This course may be taken twice for credit when content varies, but not for more than six credits.

AN 200 Language and Culture 3 cr

Brief introduction to descriptive and structural linguistics, language universals, classification and processes of change in language, language and thought, social cultural factors as expressed in language, origin of language, child language and non-verbal communication.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 210 Biological Anthropology 4 cr

Course focuses on humans as biological and cultural beings and includes a laboratory. Covers variation in modern human populations, as well as evolutionary trends as seen in fossil remains. Also studies nonhuman primates, such as apes and monkeys. Fulfills a College of Arts and Sciences General Education Core requirement for the Natural Sciences.

Corequisite: AN 210L

Corequisite: AN 210L

Cross-Listed: AN 121

AN 210L Biological Anthropology Lab 0 cr

Course focuses on humans as biological and cultural beings. Covers variations in modern human populations, as well as evolutionary trends as seen in fossil remains. Also studies nonhuman primates, such as apes and monkeys. Lab.

Corequisite: AN 210

Cross-Listed: AN 121L

AN 220 Archaeology Around the World 3 cr

Archaeology is unique in its ability to demonstrate the shared heritage of humankind and the local variations of cultural evolution through time. This course covers the great span of prehistory from human origins through ancient civilizations, and includes the origin of food production. Ancient civilizations from all over the world are discussed from the viewpoint of archaeology with a focus on how archaeology allows us to understand the lives of the people who lived in simple societies as well as great civilizations.

AN 250 Forensic Anthropology 3 cr

This course will introduce students to the field of forensic anthropology. Specifically, it will survey the basic methods employed by forensic anthropologists to recover and analyze human skeletal remains, including the construction of a biological profile and the analysis of skeletal trauma.

AN 256 Anthropology of Food 3 cr

Explores the complex ways that food and food-related activities are woven into the human experience. Considers "food and culture" at several critical junctions of human history, as well as contemporary issues relating to food systems, cuisine, identity, and food justice.

AN 290 Special Topics - 1-3 cr

Different topics of anthropological importance will be studied as announced. This course may be taken twice for credit when content varies, but not for more than 6 credits. Prerequisites: AN 100 or AN 101 or permission of instructor.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 300 Thinking Anthropologically 1 cr

This one-credit hour course is designed to expose anthropology majors to important applied concepts in our field, with a particular emphasis on scientific literacy and professional development. Through short lectures, guided activities, facilitated discussions, and student presentations, this course will help our majors identify and engage in practical skills to enhance their success as students as well as in their chosen post-graduation career paths.

Prerequisite: AN 100 Minimum Grade of C and AN 101 Minimum Grade of C and AN 121 Minimum Grade of C and AN 121L Minimum Grade of C

AN 305 Arch Method and Theory 3 cr

The theoretical basis of archaeology, and the various methods used to discover and interpret the human past from material evidence.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 313 New World Archaeology 3 cr

The evolution of Native American cultures, from the first arrival of humans across the Bering Straits land bridge to the European settlement of the New World.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 314 North American Archaeology 3 cr

This course explores over 10,000 years of North American archaeological record, primarily investigating the unwritten histories of Native American people through archaeological remains including architecture, art, foodways, and the tools of everyday life.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 315 Maya, Aztec, & Inca 3 cr

This course explores the human cultures of Mesoamerica and the Andes region of South America through archaeological remains including architecture, art, foodways, and the tools of everyday life.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 335 Field Work in Archaeology 4 cr

Archaeological field and laboratory techniques include excavation, site survey, artifact processing and analysis.

Prerequisite: AN 101 Minimum Grade of D

AN 340 Native American Cultures-W 3 cr

An ethnographic and ethnohistorical survey of native cultures of North America, including historical and modern groups, with an emphasis on Indians of the Southeast.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 342 Applied Anthropology 3 cr

Issues surrounding theory and method of applied anthropology. Presentation and analysis of case studies concerning problems in areas such as development, both domestic and in foreign settings, community health, homelessness, drug and alcohol abuse, and others. Prerequisites: AN 100 or permission of instructor.

Prerequisite: AN 100 Minimum Grade of D

AN 344 SE Asian Cultures and Soc 3 cr

This course provides an anthropological assessment of the historical and political development of Southeast Asian societies, and an ethnographic survey of cultures in the region. Prerequisites: AN 100 or permission of instructor.

Prerequisite: (AN 100 Minimum Grade of D or AN 105 Minimum Grade of D)

AN 345 Research Methods Anthropology 3 cr

A survey course designed for students majoring in Anthropology and other social science disciplines. The course explores the logic of scientific inquiry with special emphasis on the measurement of theoretical concepts, data analysis, and data collection techniques. Qualitative and quantitative approaches to understanding are presented as both are essential elements of Anthropology's holistic approach to understanding human diversity. Prerequisite: AN 100.

Prerequisite: (AN 100 Minimum Grade of D or AN 105 Minimum Grade of D)

AN 347 Latin Amer Cultures-Societies 3 cr

A survey of Latin American society and culture from the pre-contract period to the present. Pre-Columbian antecedents, colonial use of land and labor, patterns of race, class and ethnicity, and problems of development are examined. Prerequisite: AN 100 or permission of instructor.

Prerequisite: AN 100 Minimum Grade of D

AN 354 Psychological Anthropology 3 cr

This course provides an introduction to anthropological perspectives of the relationship between culture/society and psychological processes. The course will survey the history of anthropological interest in cross-cultural psychology, and will address current topics of interest of anthropologists in studies of the mind, emotion, and mental illness in a wide range of cultures. Prerequisite: AN 100 or permission of instructor. PSY 120 is recommended.

Prerequisite: (AN 100 Minimum Grade of D or AN 105 Minimum Grade of D)

AN 355 Gender and Anthropology 3 cr

This course provides an introduction to anthropological themes and debates in gender theory, including an ethnographic survey of women and men in a variety of cultures. Prerequisites: AN 100 or permission of instructor.

Prerequisite: AN 100 Minimum Grade of D

AN 356 Kinship and Soc Organization 3 cr

Study of the range of variation in family and extended family relations. Marriage, sexuality, and household organization are viewed in comparative perspective. Prerequisite: AN 100.

Prerequisite: (AN 100 Minimum Grade of D or AN 105 Minimum Grade of D)

AN 357 Political Anthropology 3 cr

Authority, power, and conflict are examined cross-culturally and in evolutionary perspective. Particular emphasis is placed on the origins of stratification and the state.

Prerequisite: AN 100 Minimum Grade of D

AN 358 Economic Anthropology 3 cr

An evolutionary survey of production and exchange in diverse societies. Considers the applicability of western economic theory to nonmarket economies, as well as their transformation by global capitalism.

Prerequisite: AN 100 Minimum Grade of D

AN 365 Human Osteology 3 cr

This hands-on course focuses on the identification of the bones of the human skeleton and its application to specialties within biological anthropology, including bioarchaeology and forensic anthropology. Topics to be covered include human skeletal and dental anatomy, skeletal growth and development, skeletal pathology and anomalies, and the biological profile.

Prerequisite: AN 210 Minimum Grade of B or AN 250 Minimum Grade of B

AN 370 Human Origins and Evolution 3 cr

This lecture, discussion, and lab-based seminar will examine the fossil, genetic, and archaeological evidence for human evolution - from the origins of primates to anatomically modern humans - with particular attention given to our hominid ancestors. Students will learn about the nature and timing of these developments, current theoretical models used to explain such changes, and the implications of these evolutionary trends for understanding modern human adaptations. Important fossil sites and associated material culture will also be used to provide insight into hominid biocultural behavior. Students must take AN 121/L (formerly AN 210/L) as a prerequisite for this course, or receive permission of the instructor.

Prerequisite: AN 210 Minimum Grade of C and AN 210L Minimum Grade of C or AN 121 Minimum Grade of C and AN 121L Minimum Grade of C

AN 390 Special Topics 1-3 cr

Different topics of anthropological importance will be studied as announced. This course may be taken twice for credit when content varies, but not for more than 6 credits.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 394 Directed Studies - 1-3 cr

Supervised readings or projects. No more than a total of six hours may be taken for credit. Requires prior approval of instructor.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 435 Museum Methods in Archaeology 3 cr

Archaeology as practiced in museums, including the registration and curation of archaeological collections; artifact conservation; public interpretation of the past; and exhibit design, composition, construction, and evaluation.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 440 Adv Archaeological Field Meth 4 cr

This course involves participant instruction in archaeological field and laboratory techniques, including advanced excavation and survey methods, soils analysis, site mapping with electronic instruments, sampling strategy, and site interpretation. Requires permission of instructor.

AN 442 Cultural Resource Management 3 cr

This course examines the interaction between archaeologists, architectural historians, historic preservationists, state and federal governments, and the public with regard to cultural resources. The focus of the course is identification, evaluation, and mitigation of cultural resources. Related topics discussed include public perceptions of the past, ethics, and being a professional in historical preservation.

AN 454 Anthropological Theory - W 3 cr

An advanced historical survey of anthropological ideas, with primary emphasis on contemporary theoretical orientations and debates. Examines anthropology's often contested status as a science or humanity.

Prerequisite: AN 100 Minimum Grade of D

AN 456 Health and Culture - W 3 cr

This course provides an overview of a broad range of subjects in the fields of medical anthropology and medical sociology. It analyzes the ways in which health, illness and healing are embedded in their cultural and social contexts. And it investigates healing practices and meanings attributed to health and illness in a variety of cultures and social settings.

Prerequisite: (AN 100 Minimum Grade of D or AN 105 Minimum Grade of D)

AN 470 Bioarchaeology - W 3 cr

This class introduces students to the field of bioarchaeology, the study of human remains in archaeological contexts. Through lectures, readings, activities, and discussions, students will examine how skeletal remains are used to reconstruct life in the past, including patterns of subsistence, diet, disease, demography, biological relatedness, and physical activity.

Prerequisite: AN 250 Minimum Grade of B or AN 365 Minimum Grade of B

AN 490 Special Topics 3 cr

Different topics of anthropological importance will be studied as announced. This 3 hour course may be repeated for credit as long as the content varies up to a maximum of 6 credit hours. Requires junior or senior standing; or permission of instructor.

Prerequisite: (AN 100 Minimum Grade of D or AN 101 Minimum Grade of D)

AN 492 Senior Seminar - 3 cr

Course specifically designed for majors in their senior year. Some topical aspect of the discipline will be analyzed.

Prerequisite: AN 100 Minimum Grade of D or AN 101 Minimum Grade of D

AN 496 Anthropology Internship 3-6 cr

Provides an opportunity to combine academic principles with practical experiences in an agency dealing with human relationships, cultural resources, or primate research. Specifics of the assignment result from mutual agreement among student, course director and agency. Course may be repeated for a maximum of six hours of credit. Requires advanced standing in Anthropology major and permission of course instructor.

AN 498 Senior Thesis 3 cr

With the guidance and advice of a faculty mentor, student will identify and carry out an in-depth, year-long, field research project in anthropology. The Senior Thesis will be judged and graded by a committee of three faculty, chaired by the faculty mentor. This course will be repeated to continue the thesis during a second semester. This is a 3 hour course that is expected to be repeated once for a total of six hours. Must be an Anthropology major; senior status; permission of a faculty mentor through an AN 394 Directed Studies course taken during the junior year.

Prerequisite: AN 394 Minimum Grade of D

AN 499 Honors Senior Thesis - H 3 cr

With the guidance and advice of a faculty mentor, honors students will identify and carry out an in-depth, year-long field research project in anthropology. The Honors Senior Thesis will be judged and graded by a committee of three faculty, chaired by the faculty mentor. This is a 3 hour course that can be repeated once for a total of six hours. Must be an Anthropology major; senior status; permission of a faculty mentor; grade point average of 3.5; and completion of a thesis prospectus prepared in consultation with the faculty mentor through an AN 394 Directed Studies course taken during the junior year.

Prerequisite: AN 394 Minimum Grade of D

AN 535 Museum Methods in Archaeology 3 cr

Archaeology as practiced in museums, including the registration and curation of archaeological collections; artifact conservation; public interpretation of the past; and exhibit design, composition, construction, and evaluation.

AN 542 Adv. Cultural Resource Mgmt. 3 cr

This course examines the interaction between archaeologists, architectural historians, historic preservationists, state and federal governments, and the public with regard to cultural resources. The focus of the course is identification, evaluation, and mitigation of cultural resources. Related topics discussed include public perceptions of the past, ethics, and being a professional in historical preservation.

AN 594 Directed Studies - 1-3 cr

Field or library projects through which special interests of the student may be pursued on a tutorial basis with a graduate faculty member. Arrangements must be made prior to registration. Permission of the Department Chair is required.

Gerontology (GRN)**GRN 272 Gender and Aging 3 cr**

This course examines the dynamics of gender and aging within society from an interdisciplinary perspective. Students will be introduced to controversies in gender over the life course. These include, but are not limited to, definitions and cultural boundaries, gender in childhood, gender and relationships, gender in education and the workplace, gender and sexuality, as well as gender in late life.

GRN 290 Special Topics - 3 cr

This designation is used for interdisciplinary courses on aging on a variety of subjects. This course does not replace any course in a single discipline. May be repeated as long as the topic changes, to maximum of six semester hours.

GRN 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 Minimum Grade of D

Cross-Listed: SY 435

GRN 490 Special Topics 3 cr

This course is designated for upper division students and graduate students, particularly those pursuing studies for the Certificate of Gerontology. The course content focuses on interdisciplinary treatments on various topics on aging. This course does not replace any course in a single discipline. (Examples of special topics: Trends and Issues in Gerontology; Leadership and Advocacy in Gerontology; Housing and Lifestyle Changes over the Life Course). May be repeated as long as the topic changes, to maximum of six semester hours.

Prerequisite: SY 372 Minimum Grade of D

GRN 494 Directed Studies 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research on readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to a maximum of six semester hours. Requires permission of Director of Gerontology.

Prerequisite: SY 372 Minimum Grade of D

GRN 496 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The undergraduate student will apply theoretical concepts in specific areas of interest related to aging and intergenerational relations. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 372 Minimum Grade of C

GRN 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as GRN 435/535 and SY 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: SY 535

GRN 594 Dir St in Gerontology - 1-3 cr

Under the guidance of a faculty member, the student will pursue directed research or readings of an approved topic in Gerontology. May be repeated as long as the topic changes, to maximum of six credit hours. Requires permission of the Director of Gerontology.

GRN 596 Internship - Gerontology 3,6 cr

This course is to provide a practicum experience in gerontology in a setting selected by the student and approved by the Program Director. The course emphasis is on the experiential learning process and outcomes. The graduate student will apply theoretical concepts to leadership roles, conducting research and influencing social and health care policies related to aging and intergenerational relationships. Interns will meet as a group three times during the semester for orientation, professional development, and evaluation activities. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 hours. Permission of Director of Gerontology is required.

Prerequisite: SY 523 Minimum Grade of B

GRN 597 GRN Teaching Apprenticeship 1-3 cr

Directed Studies/Apprenticeship that focuses on teaching Gerontology. The student will work directly with a member of the Gerontology graduate faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments. Many PhD programs offer both Teaching Assistantships and Research Assistantships. Gerontology students need to show evidence that they have had some teaching-related experience to compete strongly for the TA position. This course is also appropriate for students who anticipate careers in teaching within the field of Gerontology (aging or intergenerational studies). Arrangements must be made prior to registration. Permission of the Program Director is required.

Prerequisite: SY 372 Minimum Grade of C

Museum Studies (MUM)**MUM 201 Intro to Museum Studies 3 cr**

This course is designed to provide a general introduction to museum history, practice, and the role of museums in contemporary society. The class will explore a range of museum positions, curatorial practices, collection management, museum administration, and the academic and public roles museums play in society.

Prerequisite: EH 102 Minimum Grade of C

MUM 290 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies, for a maximum of nine credit hours. Prerequisite: To be announced.

MUM 390 Special Topics - 3 cr

Different subjects or themes in museum studies as announced. This course may be repeated twice when content varies. for a maximum of nine credit hours. Prerequisite: To be announced.

Native American Studies (NAS)**NAS 101 Intro Native American Studies 3 cr**

This course is designed to provide a general introduction to Native American Studies. The class will explore a range of topics covering historical and contemporary issues from the perspective of Native Americans.

NAS 390 Directed Studies- 1-6 cr

Directed Studies consists of readings or projects relating to Native American Studies chosen by the student and completed under direct supervision of the course director.

NAS 490 Special Topics - 3 cr

An investigation of issues and concepts in Native American Studies for advanced undergraduate students. May be repeated, when content varies, for a total of six hours.

NAS 496 Internship Native Am Studies 3-6 cr

Internship in Native American Studies allows the student to combine academic learning with practical experience as an intern with a position relevant to Native American Studies.

Social Work (SW)**SW 200 Intro to SocWork-SocWelfare 3 cr**

Introduction to the profession of social work. Topics include historical development, nature of profession, professional associations, practice theory, values and ethics.

SW 201 Human Behav/Social Environ I 3 cr

The Person-In-Environment model of human behavior. Course examines individual, family and group behavior in the social context.

Prerequisite: (BLY 101 Minimum Grade of C and BLY 101L Minimum Grade of C) or (BLY 121 Minimum Grade of C and BLY 121L Minimum Grade of C)

SW 214 SW Skills and Field Experience 3 cr

Service learning experience in social work. Forty hours of agency-based experience is required. Students must attend two hour weekly skills development lecture.

Prerequisite: SY 109 Minimum Grade of C or SY 112 Minimum Grade of C

SW 220 Power, Privilege & Oppression 3 cr

This course is designed as an introduction to the field of social work with diverse populations. The purpose is to prepare students to work with diverse groups of people locally and globally. This course examines issues related to the creation of race in America, the oppression of people on the basis of their gender, ethnicity, race, culture, sexual orientation, physical or mental ability, age, religion and national origin.

SW 300 Ethical Decision-Making-W 3 cr

This course provides a more in-depth analysis of the Social Work Code of Ethics and overviews frameworks for ethical decision-making. The emphasis is on improving students' ability to more readily identify ethical problems and thoughtfully work through these issues through the use of case studies.

Prerequisite: EH 101 Minimum Grade of C or EH 102 Minimum Grade of C

SW 301 Social Welfare Policy 3 cr

Social Policy in relation to Social Work Practice. Course addresses social policy analysis, social advocacy, diversity and social and economic justice.

SW 302 Human Behav/Social Environ II 3 cr

The Person-In-Environment Model of human behavior. Course examines task groups, organizations, and community systems in the social context.

Prerequisite: SY 109 Minimum Grade of C

SW 310 Community Context 3 cr

The rural and urban contexts of social work practice. Emphasis of the course is placed on how these contexts affect human behavior and the practice of social work.

SW 340 Family Violence 3 cr

Study of the social problems of family violence including domestic violence, intimate partner violence, child abuse, and elder abuse. The role of the social worker, social services, and social policy will be examined.

Prerequisite: SY 109 Minimum Grade of C

SW 350 Child Welfare Services 3 cr

General survey of the Social Work field of child welfare services with a focus on child protective services.

SW 360 SW Practice in Mental Health 3 cr

This course is designed to provide the student with an overview of the mental health system and focuses specifically on issues related to the role of a social worker in a mental health setting.

Prerequisite: SW 200 Minimum Grade of C

SW 380 International SW Practice 3 cr

This course explores social work as an international profession and the application of social work practice methods with various populations around the world. Students will learn cross-cultural practice methods and apply conceptual frameworks, such as those based on human rights, social development, and sustainable development, to a range of global social problems.

SW 401 Generalist Practice I 3 cr

The Generalist Model of social work applied to individuals, families, and groups. Emphasis is placed on diversity, social work values and ethics, and evidence based practice.

Prerequisite: (SW 302 (may be taken concurrently) Minimum Grade of C or SW 202 Minimum Grade of C)

SW 402 Generalist Practice II 3 cr

The Generalist Model of social work applied to organizations, communities and task groups. Emphasis is placed on diversity, social work values and ethics and social justice.

SW 412 Field Instruction 3-12 cr

Field Instruction in social work. Four hundred thirty-six hours of supervised experience in social work setting. SW 412 can be taken during a single semester or over multiple semesters.

Prerequisite: SW 401 Minimum Grade of C and SW 402 Minimum Grade of C and SY 382 Minimum Grade of C

Corequisite: SW 414

SW 414 Senior Seminar - W 3 cr

This is the capstone senior level course in social work. Class discussion and assignments are designed to facilitate integration between field instruction experience and curriculum content. SW 412 must be taken concurrently.

Prerequisite: SW 401 Minimum Grade of C and SW 402 Minimum Grade of C and SY 382 Minimum Grade of C

Corequisite: SW 412

SW 420 Social Work in Health Care 3 cr

Study of the practice of social work in the health care field. Major social policy issues, service delivery systems, relationships with other health care professionals, and practice issues related to social work will be covered.

SW 460 Rural Social Services 3 cr

This elective course in rural social services provides a survey of professional services with rural and small communities. It is open to all majors. Included are topics related to services, social policy, rural culture and behavior, professional values and ethics, diversity, and services.

Prerequisite: EH 102 Minimum Grade of C

SW 490 Special Topics 3 cr

Advanced topics in Social Work. May be repeated twice for elective content when topic varies.

Sociology (SY)**SY 109 Introductory Sociology 3 cr**

Sociology is the scientific study of social behavior and social phenomena. This course is a survey intended to introduce students to the major concepts, issues, theory, methods and substantive findings of the discipline. Topics may include the impact of social structures on behavior and opportunity, inequalities, socialization, culture, religion, crime and deviance, the family, modernity, and globalization. Core Course.

SY 112 Social Problems 3 cr

A study of persistent and recurring social conditions and individual and group behaviors that are contrary to the expressed norms of community members and that community members strive to control through collective action. Core Course.

SY 200 Sex, Power, & Politics 3 cr

An analysis of social patterns in sexual identifies, behaviors, and desires, including an introduction to history of sexuality, contemporary theories of sexuality, and the politics of sexuality today.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 212 Field of Social Welfare 3 cr

A survey of the field of social welfare and of social-work functions. Rise, development, and present organization of social welfare agencies and the social services. Brief introduction to the techniques of the social-work profession.

SY 220 Marriage and the Family 3 cr

The organization, function, and present status of the family, primarily in the United States. Problems of mate selection, marital adjustment, and parent-child relations treated on the basis of recent and current social change.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 241 Criminology 3 cr

The nature and causation of criminal behavior. Evaluation of theories and research.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 242 Corrections 3 cr

Administration of criminal justice in American society. Federal state and local prison systems; management and treatment of criminals; history of punishment; jail detention, probation and parole; prison activities; rehabilitation.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 290 Special Topics - 3 cr

Selected topics in sociology. May be taken for a maximum of nine hours credit when the subject matter varies.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 305 Sociology of Sport 3 cr

Addresses the issues of rise and development of Sport in North America and relates these developments to other societal structures and processes.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D

SY 312 Social Work Applications 3 cr

Focus is on the application of social-behavioral science orientations to the amelioration of social problems and public policy issues.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D and SY 212 (may be taken concurrently) Minimum Grade of D

SY 315 African American Families 3 cr

The study of family structure, mate selection, marital and other romantic interaction, parenting and kinship among African Americans.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 319 Sociology of Drugs 3 cr

This course examines social, historical, cultural, and political factors that shape ideas about drugs and views on drug use, drug treatment, and drug policy.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 340 Juvenile Delinquency 3 cr

A study of the nature, extent, treatment, and prevention of delinquent behavior among youth in the United States and other urban industrial societies.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 350 Evolutionary Sociology 3 cr

This course considers social behavior and social phenomena as manifestations of the observable properties of the organisms that make up societies (i.e. 'human nature'). The core of the course will involve constructing a brief but sound model of human behavior and then seeing how well that model can help explain a spectrum of behavior and phenomena. In addition, we will consider different religious, cultural, and scientific views on human nature, as well as some of the classic philosophical debates (e.g. nature/nurture) that revolve around questions of human nature.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 352 World Religions 3 cr

This course is an introduction to the religions of the world. It is divided into three basic units: Indigenous Religions (of Africa, North America, and Oceania); Eastern Religions (Hinduism, Buddhism, Daoism, Confucianism, Jainism) and Western Religions (Judaism, Christianity, Islam). The emphasis is on grasping the core principles of each tradition, seeing the ways in which religion meets basic human needs, and religion as a cultural artifact that borrows, adapts, and changes over time. Course is identical with PHL 352 and REL 352. Credit cannot be received for both SY 352 and PHL 352 or REL 352.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

Cross-Listed: PHL 352, REL 352

SY 360 Soc of Work and Occupations 3 cr

Examines work, occupations and careers in modern societies. Course topics include: the evolution of work, the meaning of work, the demography of work, unions, jobs, occupations, professions, industries, classes, unions, technology and alienation, labor market segmentation, nonstandard and contingent work, work and the family, work and economic inequality, job satisfaction and organizational commitment.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 372 Social Gerontology - W 3 cr

Sociological aspects of aging in contemporary American society. Within its parameters are related problems of economics, health, and social contacts.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 381 Research Methods 3 cr

The goal of this course is to provide you with a foundation in social science research methods. The course will cover basic concepts used in social science research, sampling, survey instrument construction, observational and experimental research designs, and qualitative research. In addition to providing you with a foundation in research methods, SY 381 and SY 382 will give you the computing skills needed to create and analyze quantitative data using SPSS and EXCEL.

Prerequisite: SY 109 Minimum Grade of D

SY 382 Research Analysis 3 cr

This course, along with SY 381, provides a foundation in social research methods and statistics. In this course you will develop a mastery of descriptive and inferential statistics, basic probability theory, and significance testing. The computer lab portion of this course will continue to build upon the research and skills you acquired in SY 381.

Prerequisite: SY 109 Minimum Grade of D

SY 390 Special Topics 1-6 cr

Special topics courses are classes that are not part of the sociology curriculum, and so may be offered irregularly, or even only once, but for which students receive credit as a junior-level (upper division) elective.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 394 Directed Studies 1-3 cr

Field or library pursuits through which special interests or needs of the student may be pursued on an individual, supervised, or tutorial basis. No more than six hours may be used in the degree. Arrangements must be made with the instructor prior to registration. Requires permission of Department Chair.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 401 Disasters and Society 3 cr

The Sociological examination of natural, technological, and human-initiated disasters. The social impacts of disasters will be reviewed through case-studies of major twenty-first century catastrophes and issues of community vulnerability, resiliency and recovery will be addressed.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 406 Sociological Theory 3 cr

An exploration of the role of theorizing, with introduction and application to major paradigms of social explanation from the 18th Century to today.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

Cross-Listed: SY 376

SY 407 Social Research Design 3 cr

This course provides an introduction to sociological and social science methodology, including epistemology, research ethics, observational and experimental designs, survey and qualitative methods of data collection, comparative and historical research, and program evaluation.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 408 Industrial Sociology 3 cr

Examines the historical development and contemporary structure of American industry as social choices shaped by contending forces; also explores alternative industrial futures.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D

SY 409 Social Research Analysis 3 cr

This course provides instruction in quantitative analysis in sociological and social science research. It provides instruction in basic and inferential statistics including, descriptive statistics, probability, confidence intervals, one and two sample significance tests, Chi Square tests of independence, and an introduction to bivariate linear models. The course also provides computer instruction in the use of SPSS software.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 411 Population - W 3 cr

An introduction to the study of human populations: population growth and decline; fertility, mortality, and migration; characteristics of populations; population, food and economic development; demographic analysis; population policies.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 412 Applied Sociology - W 3 cr

A survey of the specialties and techniques of professional sociologists, including the kinds of social problems and how these problems are addressed.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 413 Qualitative Inquiry 3 cr

This course surveys forms of qualitative inquiry: ethnography and participant observation, focus groups, in-depth interviews, narrative inquiry, case study, historical research, and oral history.

Prerequisite: (SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D)

SY 415 Soc of Mental Health-Illness 3 cr

A sociological analysis of mental health and illness including social epidemiology, effects of social integration and support, labeling mechanisms, social evolution of treatment systems, and cultural factors in the recognition and diagnosis of disorders.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 418 Adv Family Studies 3 cr

This course examines interaction patterns in different types of family structure, with emphasis on marital adjustment, parent-child interaction, and sibling interactions.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 420 Sociology of Religion 3 cr

The study of religion is at or near the core of sociology. This course is an exploration of the sociological dimensions of religion within the classical theoretical traditions of Durkheim, Weber and Marx, augmented with more recent theory and research. We consider the definition, functions and origins of religion, the role of beliefs and rituals in it, the interaction of religion with other aspects of society, and secularization of the future of religion, among other topics.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 421 Social Stratification - W 3 cr

This course introduces students to the patterns and processes of inequality in its major forms. It includes discussions of social class, sex, race, ethnicity, and policy. Additionally, this course satisfies the University's writing requirement. As such, students will acquire knowledge through writing assignments and will demonstrate mastery of new information in written form.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 425 Urban Sociology - W 3 cr

The study of urbanization and urban ways of life. Emphasis is given to relationships between urbanization and changes in the social organization of urban areas. Urban problems and planning are analyzed in terms of social change at the structural level.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D

SY 426 Social and Cultural Change 3 cr

This course is designed to familiarize students with major theories and processes of social and cultural change, the factors influencing social and cultural change, diffusion of innovations, and adoption of new ideas and practices.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

Cross-Listed: AN 426

SY 428 Gender and Society 3 cr

Description and analysis of gender roles and inequality in contemporary Western societies in cross-cultural and historical context.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 430 Sociology of Culture 3 cr

Examines the major perspectives in the sociology of culture, with emphasis on the problems of culture in modern and post-modern societies.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 435 Health Disparities Life Span 3 cr

This course examines differences in health status across the life span. The course will focus heavily on racial/ethnic and socioeconomic disparities in health applying a social determinants' of health framework. Issues that will be considered include how income, education, neighborhood conditions, access to health care, and other community factors shape opportunities to be healthy. The course is cross-listed as SY 435 and GRN 435 and has been approved as an elective for the Undergraduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

Cross-Listed: GRN 435

SY 440 Deviance and Social Control 3 cr

The study of societal norms and their violation. Focus on social construction, control, condemnation and accommodation of deviant behavior.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 445 Majority-Minority Relations-W 3 cr

The study of relationships between 'majorities' and 'minorities' in society. This course will explore the macro- social forces that bring these relationships about and the institutional setting where different group members come into contact with each other. A variety of key concepts and theories surrounding majority and minority relations will be defined and analyzed. Historical and current case studies will be examined to illustrate the development of these relations.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 447 Sociology of Law 3 cr

Overview of predominant theoretical approaches, classical and contemporary, in legal sociology, and their application. Undergraduates require permission of instructor.

Prerequisite: SY 109 Minimum Grade of D

SY 455 Self and Certainty 3 cr

This course explores the complex relationship between the individual and the groups they are a part of, with a special emphasis on the challenges of identity and knowledge in modern society. Draws primarily upon the work of classical social psychologists like Mead, Berger & Luckman, Foggman and Simmel, as well as modern extensions of their work.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 458 Crowds Riots Soc Movements - W 3 cr

A survey of the theoretical and historical foundations of collective behavior, riots, and social movements. A variety of situations and behaviors will be analyzed including social movement participation; growth and organization; strategies, tactics, and consequences for participants and society.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 459 Medicine and Society 3 cr

The sociological study of medical care, with topics ranging from the micropolitics of doctor-patient communication through macro-level investigation of comparative health care systems.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 460 Social Organization - W 3 cr

This course provides the student with a comprehensive behavioral science approach to understanding modern social organizational trends.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 467 Environmental Sociology 3 cr

This course will cover topics such as public awareness and the social construction of environmental issues, especially acid rain, biodiversity, biotechnology and technological disasters.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 472 Sociology of Aging and Family 3 cr

The class focuses on sociological theories of family and aging and the linkages of families and their aging members with organizations that deliver services, including: government agencies, healthcare organizations, legal services, corporations/businesses, and religious organizations.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 475 Dev of Sociological Theory 3 cr

The development of theories in sociology, as related to social thought, institutions, and theories of social progress.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 490 Special Topics 1-3 cr

A sociological examination of advanced topics. This course may be taken for a maximum of 9 hours credit when the subject matter varies.

Prerequisite: Upper division status.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 492 Seminar - W - 3 cr

Selected topics in sociology for students with junior or senior standing. Note: SY 492 is not intended for graduate students.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 494 Directed Studies 1-3 cr

Designing a study, carrying out the research, and writing the result of a thesis. No more than six hours credit may be applied to major. Prerequisites: Requires upper division status and permission of department chair.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 496 Sociology Internship 3-6 cr

Provides an opportunity to combine academic principles with practical experience in an agency dealing with human relationships. Specifics of the assignment result from a mutual agreement among student, faculty supervisor and agency. Course may be repeated for a maximum of six hours of credit. The 3-hour internship requires 100 contact hours; the 6-hour internship requires 200 contact hours. Requires permission of Faculty Supervisor and Department Chair.

Prerequisite: SY 109 (may be taken concurrently) Minimum Grade of D or SY 112 (may be taken concurrently) Minimum Grade of D

SY 499 Honors Research Hours-H 1-3 cr

This course awards hours of course credit within the SY department to University and/or Departmental Honors students who are working with a research mentor in the SY department on a thesis or capstone project of appropriate scope.

SY 500 Orientation 1-3 cr

Introduces students to graduate study in sociology by providing information about applicable academic degrees, career opportunities, and professional activities in the discipline.

SY 501 Disasters and Society 3 cr

The sociological examination of natural, technological, and human-initiated disasters. The social impacts of disasters will be reviewed through the case-studies of major twenty-first century catastrophes and issues of community vulnerability, resiliency, and recovery will be addressed.

SY 505 Adv Principles of Sociology 3 cr

Systematic review and integration of major propositions, concepts, and research data from various fields of sociology. Development of a comprehensive orientation for the description and explanation of social phenomena.

SY 506 Sociological Theory 3 cr

An exploration of the role of theorizing, with introduction and application to major paradigms of social explanation from the 18th Century to today.

SY 507 Social Research Design 3 cr

Advanced treatment of topics in sociological methodology, including: logic of scientific explanation; experimental, quasi-experimental, survey and qualitative research designs; and research ethics.

SY 509 Social Research Analysis 3 cr

This is an applied course in the application of data analysis and statistical methods in social research. The course covers basic regression models with limited and categorical independent variables. It assumes knowledge of basic and inferential statistics. The course includes weekly instruction in data analysis and statistical computer use. This course is usually taught in the Spring semester.

SY 511 Introduction to Population 3 cr

An introduction to the study of human populations: population growth and decline, fertility, mortality and migration: characteristics of populations: population, food and economic development: demographic analysis: population policies. Students will be able to substantively analyze in any discussion of past and future population problems and its related factors that affect different societies.

SY 512 Applied Sociology 3 cr

A survey of the specialties and techniques of professional sociologists and the conditions under which sociological knowledge is applied to social problems, the kinds of problems addressed, and the degree of effectiveness of applications. A variety of methods will be discussed including social impact analysis, program evaluation, needs assessment, and social indicators. Requires SY 508 and SY 509 or instructor's permission.

Prerequisite: SY 508 Minimum Grade of B and SY 509 Minimum Grade of B

SY 513 Qualitative Inquiry 3 cr

This course surveys forms of qualitative inquiry: ethnography and participant observation, focus groups, in-depth interviews, narrative inquiry, case study, historical research, and oral history.

SY 515 Soc of Ment Health and Illness 3 cr

A sociological analysis of mental health and illness including social epidemiology, effects of social integration and support, labeling mechanisms, social evolution of treatment systems, and cultural factors in the recognition and diagnosis of disorders.

SY 518 Advanced Family Studies 3 cr

This course examines interaction patterns in different types of family structure, with emphasis on marital adjustment, parent-child interaction, and sibling interactions.

SY 520 Sociology of Religion 3 cr

An analysis of religion as a social institution with emphasis on modern western societies. Topics include the function of religion for societies and individuals, changing patterns of religious belief and practice, and the relationship between religion and other social institutions.

SY 521 Poverty, Inequal/Social Stat 3 cr

A sociological approach to the study of class, status, power and poverty with a particular emphasis on American society. Students will present material in the classroom and conduct an advanced research project in the area of social inequality.

SY 523 Aging in American Society 3 cr

The role of the elderly in today's society, problems, adaptability, crises, functions. Comparisons with youth and working adults. Survey of social programs and resources in formal and informal support networks.

SY 528 Gender and Society 3 cr

Description and analysis of gender roles and inequality in contemporary Western societies in cross-cultural and historical context.

SY 530 Sociology of Culture 3 cr

This course will introduce students to the major perspectives in the field of the sociology of culture. Particular attention will be given to each perspective's diagnosis of the problems of culture in modern and postmodern capitalist societies.

SY 535 Health Disparities Life Span 3 cr

The main purpose of this seminar is to provide students with an understanding of how social factors contribute to racial/ethnic, socioeconomic and gender disparities in health and health care. We will examine how dyadic relationships such as interpersonal forms of discrimination, marriage, and social ties may contribute to health disparities. We will also examine the ways in which neighborhood and community context, as well as inequalities in socioeconomic status materially shape health and access to health care services. The course is cross-listed as SY 535 and GRN 435/535 and has been approved as an elective for the Undergraduate/Graduate Certificate in Gerontology and the interdisciplinary minor in Gerontology.

Cross-Listed: GRN 535

SY 540 Deviance and Social Control- 3 cr

Deviance includes acts that violate norms. Social control is the groups' efforts to induce people to conform to these norms. This course includes discussions of what actually is deviance, how things become deviant, and how sociologists explain deviance. Several weeks are devoted to talking about specific forms of deviance, ranging from alcohol and drugs to mental illness. The last part of the course is spent discussing elite deviance.

SY 547 Sociology of Law 3 cr

Overview of predominant theoretical approaches, classical and contemporary in legal sociology, and their application in empirical studies engaging legal phenomena.

SY 550 The Community 3 cr

An advanced consideration of the concept of community.

SY 555 Self and Certainty 3 cr

This course explores the complicated relationship between individuals and the groups they are part of, with a special emphasis on the challenges of identity and knowledge in modern society. Draws primarily upon the work of classical social psychologists like Mead, Berger, Luckmann, Foggman and Simmel as well as modern extensions of their work.

SY 559 Medicine and Society 3 cr

The sociological study of medical care, with topics ranging from the micropolitics of doctor-patient communication through macro-level investigation of comparative health care systems. Explores extant research methods and theories of medical sociology to prepare graduate students to do sociological research in health care settings.

SY 565 Maritime Sociology 3 cr

Provides a sociological assessment of the relationship between human communities, technology, and marine resources.

SY 566 Soc Impact Assess Coast Enviro 3 cr

This course will provide a general introduction to the various frameworks used in social impact analysis.

SY 567 Environmental Sociology 3 cr

This course will cover topics such as public awareness and the social construction of environmental issues, especially acid rain, biodiversity, biotechnology, and technological disasters.

SY 572 Sociology of Aging-Family 3 cr

The class focuses on sociological theories of family and aging, and the linkages of families and their aging members with organizations that deliver medical and social services, with government bureaucracies, the legal system, corporations and businesses, and religious organizations.

SY 590 Sp Top - 3 cr

Selected topics in graduate sociology. Course may be repeated for different topics.

SY 591 Papers & Presentations Seminar 1-2 cr

A self-directed studies course, guided by graduate faculty mentors, to develop and enhance the career and scholarly interests, and professional socialization, of advanced master's students through written work and presentation opportunities.

Prerequisite: MASY Comprehensive Exam Score P

SY 592 MA Practicum Report Proposal 3 cr

Based on student work in a local agency (in conjunction with course co-requisite SY 596, Sociology Internship) to generate a practicum report proposal (directed by a member of the sociology graduate faculty) that the student must formally defend.

Prerequisite: SY 596 (may be taken concurrently)

SY 593 Master's Practicum Report 3 cr

Course in which students prepare and defend a formal report based on work in course pre-requisite SY 596 and SY 592.

Prerequisite: SY 596 (may be taken concurrently) Minimum Grade of B and SY 592 Minimum Grade of B

SY 594 Directed Studies - 1-3 cr

Field or library projects through which special interests of the student may be pursued on a tutorial basis with a graduate faculty member. Arrangements must be made with the professor prior to registration. Permission of the Department Chair is required.

SY 595 SY Research Apprenticeship 1-3 cr

Students pursue research-related interests as directed by, and with prior approval from, a member of the graduate faculty.

SY 596 Sociology Internship 3-6 cr

Relates the student's classroom studies to occupational and professional experiences in an approved community agency that culminates with a written report. Requires permission of the Graduate Coordinator and Department Chair as well as proof of insurance. The 3 hour internship requires 100 contact hours; the 6 hour internship requires 200 contact hours.

SY 597 Sociology Teaching Apprentice 1-3 cr

The student will work directly with a member of the Sociology faculty to learn pedagogy, innovation in teaching, and course content that will equip the student for future teaching assignments.

SY 598 Master's Thesis Proposal 3 cr

Focused on a specialized subject area of research interest in sociology (directed by a member of the sociology graduate faculty) to generate a thesis proposal that the student must formally defend.

SY 599 Master's Thesis 1-6 cr

Focused on a specialized subject area of research interest in sociology to generate a master's-level thesis that the student must formally defend. (Pre-requisite: SY 598, Master's Thesis Proposal).

Prerequisite: SY 598 Minimum Grade of B

All undergraduates must complete two designated writing credit (W) courses, at least one of which must be in the student's major or minor.

Additional Information

Social Work Admission Policy and Procedures

The social work program has policies and procedures for admission that are consistent with the goals of our national accrediting agency, the Council on Social Work Education. The policies and procedures ensure that students have a liberal arts base, demonstrate a beginning knowledge of social work and identification with the profession, have content in diversity, populations-at-risk, social and economic justice, and can demonstrate effective communication skills prior to entry into the professional program

Admission Policy

Students who want to major in social work are admitted to the pre-professional social work major and remain in the pre-professional major until they meet requirements to be admitted into the social work major. Prior to entering the major, please consider consulting with a pre-professional social work advisor from Academic Advising and Transfer Services at the earliest opportunity. The admission policy is applicable to all students: new freshmen, transfer students, students seeking a second bachelor's degree, and students changing their major. In order to be admitted into the social work major, students must meet the following criteria:

- Have a 2.60 overall GPA in courses taken at USA.
- Have completed SW 200, SW 214, and SW 220 with a grade of "C" or better.
- Have completed the BLY 101/BLY 102 or BLY 121/BLY 122 and a second natural science course with lab earning a grade of "C" or better in both courses and labs.
- Have completed EH 101 and EH 102 with a grade of "C" or better.
- Have completed the Math requirement.
- Have completed the Statistics requirement (ST 210 or BUS 245).
- Have completed a minimum of 56 credit hours.
- Meet all requirements specified by the program for demonstrating behavior consistent with the NASW Code of Ethics.

Students entering the pre-professional social work major who have 45 or more credit hours are strongly encouraged to take SW 200, SW 214, and SW 220 in their first semester. Students who have not been admitted to

the major may not enroll in SW 201, SW 300, SW 301, SW 302, SW 401, SW 402, SW 412, or SW 414.

Admission Procedures

Once the specified requirements are complete, the student must submit an application for admission to the social work major. Students who meet the minimum prerequisite requirements are not guaranteed admission into the social work major. The application process is competitive and admission is dependent upon available space. Students are encouraged to consult with their advisor prior to submitting this application.

The student's application for admission to the major will be reviewed by the BSW program faculty and a determination will be made on whether or not the student will be admitted to the major. Following this determination, students will be notified in writing concerning the faculty decision.

Once the student is admitted to the major, the program will initiate a change of major to the university. The criteria for continuation as a major include:

- Maintain a 2.50 grade point average in social work courses.
- Maintain an overall 2.60 grade point average at USA.
- Demonstrate acceptable professional conduct, personal integrity and emotional stability requisite for effective social work practice.
- Demonstrate identification with the profession of social work.
- Demonstrate behavior consistent with Code of Ethics for the National Association of Social Workers.

Transfer Students

Social work course credit will only be granted for courses transferred from programs accredited by the Council on Social Work Education or in CSWE Candidacy. In order to receive a degree in social work from the University of South Alabama, students must complete SW 401, SW 402, SW 412, and SW 414 and meet the university residency requirements. The program director will evaluate social work transfer credits to determine equivalency. No credit will be given for life or prior work experience.

Graduation Plan

(120 Total Hours)

Course	Title	Hours
First Year		
Fall		
EH 101	English Composition I	3
MA 110	Finite Mathematics (or higher)	3

Stokes School of Marine and Environmental Sciences

Department Information

The Stokes School of Marine & Environmental Sciences website <http://www.southalabama.edu/marinesciences> (<http://www.southalabama.edu/marinesciences/>)

Undergraduate Minor in Marine Sciences

Seventy percent of the Earth's surface is occupied by oceans. This dominance means that oceans exert a major influence on atmospheric dynamics and terrestrial ecology. The societal and economic importance of healthy ocean ecosystems cannot be overstated or ignored. The School of Marine & Environmental Sciences welcomes qualified students who wish to better focus their academic training towards oceanography and marine biology. The undergraduate minor in marine sciences is designed to complement many science and non-science majors offered at USA. Ocean-related science is relevant to many contemporary environmental issues and problems and central to understanding earth-system evolution, dynamics, climate and sustainability. The minor consists of courses and research opportunities offered primarily by faculty and researchers in the School of Marine & Environmental Sciences and the Dauphin Island Sea Lab.

Requirements for a Minor in Marine Sciences include a minimum of 18 hours in Marine Sciences related classes. The student must take:

Code	Title	Hours
MAS 134	Ocean Science	3
MAS 134L	Ocean Science Lab	1
MAS 331	Marine Science I	3
MAS 332	Marine Science II-W	3
Select 2-3 elective courses from the following:		6-12
MAS 371	Shark and Ray Biology	
MAS 367	Marine Biology	
MAS 430	Marine Botany	
MAS 451	Marine Vertebrate Zoology	
MAS 471	Marine Invertebrate Zoology	
MAS 475	Marine Ecology	
Other Marine Sciences electives may be approved by the Chair		

Up to 6 hours required by a student's major may be applied toward the minor. The Marine Science minor places a strong emphasis on a rigorous natural science foundation; thus, several of the upper division courses related to the minor have prerequisites. Students planning the minor should check catalog course descriptions carefully and should meet with advising staff in the Marine Science Program office.

Bachelor of Science (B.S.) In Marine Sciences

The School of Marine & Environmental Sciences offers a Bachelors in Marine Sciences to address society's growth need for specialized understanding of the marine environment. This program is designed to prepare students for tackling challenges and opportunities presented by the "Blue Economy (<https://www.worldbank.org/en/news/infographic/2017/06/06/blue-economy/>)". The "Blue Economy" encompasses a broad range of job opportunities related to the marine environment allowing graduates to pursue careers in government, academic, commercial and industrial settings. The degree program takes

advantage of the location of the University South Alabama as well as its partnership with the Dauphin Island Sea Lab, DISL, to provide a unique educational experience as well as experiential learning opportunities.

This degree program takes advantage of the location of the University South Alabama as well as its partnership with the Dauphin Island Sea Lab (<https://www.disl.edu/>), DISL, to provide a unique educational experience as well as experiential learning opportunities. These institutional locations give students direct access to the natural marine laboratories of the Mobile Tensaw Delta, Mobile Bay, and the Gulf of Mexico where students will be immersed in all things marine! A cornerstone of this program is the Semester by the Sea at DISL where students in this program will spend their spring semester of junior or senior year taking coursework at DISL with the option of living in residence at DISL.

Core Courses

The Marine Science core courses are as follows: MAS 134 and MAS 134L Introduction to Ocean Sciences, MAS 331 and MAS 331L Marine Sciences I: Geological & Physical Oceanography, MAS 332 and MAS 332L Marine Science II: Chemical & Biological Oceanography, Dauphin Island Sea Lab Summer Course Electives (e.g. Shark and Ray Biology, Marine Technical Methods, Marine Vertebrate Zoology, Marine Invertebrate Zoology, and more), and courses in residence at DISL during the spring semester of a student's junior or senior year. Marine Operations and Research (Capstone Course), Marine Geology, Marine Ecology, and Field and Lab Measurements in Marine Science.

Bachelor of Science (B.S.) In Environmental and Sustainability Sciences

The School of Marine & Environmental Sciences, SOMES, offers a Bachelor's program in Environmental Science & Sustainability to address the need for a broad understanding of the natural world and its interaction with the demands of human development. A fundamental component of environmental science is its interdisciplinary essence and how this integrative approach can be used to develop mutually beneficial solutions to some of society's most pressing challenges. The Environmental Science & Sustainability degree program is designed to provide a foundational knowledge base coupled with specialized skills so that students will be able to immediately begin addressing environmental issues in sustainable ways. A major goal of this program is to provide a workforce that will be trained to address the inevitable environmental pressures that coastal communities are, and will be, facing as global warming continues to accelerate. Students that complete the undergraduate degree program will be prepared to conduct analysis and mitigation of environmental problems in a range of fields (e.g. sustainability, renewable energy, conservation, agriculture, urban planning and development, natural resource management, education, environmental toxicology, etc.) and employers (e.g. environmental consulting firms, health and safety field (HAZMAT), non profit agencies, research labs, education and outreach, government agencies: AL Department of Environmental Management, EPA, Fish and Wildlife Service, Bureau of Land Management, Forest Service, etc.).

Core Courses

Students will take the following core courses: ENV 337 and ENV 337L Environmental Science I, ENV 338 and ENV 338L Environmental Science II, ENV 339 Climate Change, ENV 340 Fundamentals of Environmental Toxicology & Chemistry, ENV 334 and ENV 334L Environmental Monitoring and Assessment, ENV 335 and ENV 335L Environmental Conservation & Sustainability, GY 425 Hydrology, GIT 460 Intro to Geographic Information Technology, and GEO 410 Biogeography.

Master of Science (M.S.) in Marine Sciences

The Master of Science (M.S.) Program in marine sciences is designed to train and prepare superior students for a career in this field. The marine sciences program offers courses and opportunities for research in four main areas: biological, chemical, physical, and geological oceanography. Each M.S. student receives formal training in at least three of these disciplines while concentrating in a specific research area. Thus, the program is structured to develop the capacity for productive and innovative research, founded on a solid background of broad scientific knowledge. The requirements and procedures that follow are specifically for the Department of Marine Sciences. However, the general rules and policies of the Graduate School also apply.

Minimum Requirements for Admission

Application before February 1 is encouraged; beginning February 15, the admission committee will make initial recommendations about applicants for the following Fall class, with formal letters sent to applicants by the end of April. Although students are normally admitted in the Fall Semester, depending on availability of space and funding, applications may be approved and students admitted throughout the year. In addition to the general admissions requirements of the Graduate School, minimal requirements for admission in full standing to the Marine Sciences M.S. Program are:

1. A baccalaureate degree in marine sciences or in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited four year college or university
2. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.
3. The GRE score is not required for admission. You may optionally submit your GRE scores if you wish for them to be considered as part of your application to any graduate program in the Stokes School of Marine and Environmental Sciences, but this is not required. Individual faculty members may consider available GRE scores as part of a holistic evaluation of the candidates.

The applicant will be required to submit:

1. A completed application including a statement indicating the student's interests and professional goals
2. Official transcripts from all undergraduate institutions attended
3. Three letters of recommendation

Assessment of credentials will be supplemented by evaluation of letters of recommendation and the educational background of the student. Foreign applicants will be required to pass the TOEFL exam with a score of 71 or greater, or equivalent score on computer administered tests.

To insure compatibility between the student's research interests and the faculty expertise in the Marine Sciences Department, particular attention will be given to the statements of research interests. A faculty member will be asked to act as a "mentor" for the applicant based on the statement of interest and, if necessary, a personal interview. Through this process the student's interests will be matched to the expertise available within the faculty. Moreover, the mentor also may be able to offer the student financial support if a departmental stipend is not available. Students whose interests do not correspond to those of a faculty member and/ or have not identified a faculty willing to serve as

a mentor, will not be admitted into the M.S. degree program in marine sciences.

Application forms for admission can be found at <http://www.southalabama.edu/departments/admissions/>. Applications for fellowships (see below) are obtained by writing to:

Chair
Department of Marine Sciences
University of South Alabama
Mobile, AL 36688-0002
or visit the website at <http://www.southalabama.edu/marinesciences>
(<http://www.southalabama.edu/marinesciences/>)

Fellowships and Assistantships

The Department of Marine Sciences offers a variable number of research assistantships that are sponsored by externally funded grants and contracts. The current stipend for M.S. students is \$17,000 per year. Additional funding for tuition fellowship may also be available through extramural grants. Information about assistantships is available from the:

Office of the Dean of the Graduate School
Administration Building Room 340
University of South Alabama
Mobile, AL 36688-0002

Master of Science (M.S.) in Marine Conservation and Resource Management

The M.S. in Marine Conservation and Resource Management is designed to provide a formal course of training and professional development in the marine sciences that will enable students to contribute to the sustainable management of marine resources.

The program does not require thesis research, but instead offers professional development through group projects and professional internships with government agencies, NGOs, and environmental consulting firms. The curriculum and other requirements can accommodate students currently in the workforce.

Minimum Requirements for Admission

Applications for Fall admission are due by June 1 of each year. Enrollment normally begins in the fall semester; however spring and summer admissions will be considered on a case by case situation. In addition to the general admissions requirements of the Graduate School, minimal requirements for admission in full standing to the M.S. Program in Marine Conservation and Resource Management are:

1. A baccalaureate degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics, and engineering) or conservation biology (economics, sociology) from an accredited four year college or university
2. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.
3. The GRE score is not required for admission. You may optionally submit your GRE scores if you wish for them to be considered as part of your application to any graduate program in the Stokes School of Marine and Environmental Sciences, but this is not required. Individual faculty members may consider available GRE scores as part of a holistic evaluation of the candidates.

The applicant will be required to submit:

1. A completed application including a statement indicating the student's interests and professional goals
2. Official transcripts from all undergraduate institutions attended

Doctor of Philosophy (Ph.D.) Program

The Doctor of Philosophy (Ph.D.) Program in marine sciences is designed to provide formal course work and advanced research in marine sciences that produces significant, original contributions to knowledge. The Ph.D. degree is awarded to students who have reached and formally demonstrated a level of competence and accomplishment that enables them to pursue careers as marine science professionals. The Ph.D. degree confers eligibility for many positions in academia, industry, and government.

The marine sciences program offers courses and opportunities for research in multiple sub-disciplines: biological, chemical, physical, and geological oceanography as well as marine ecology, fisheries, and biogeochemistry. Each student receives formal training in each of these disciplines while concentrating in a specific research area. The requirements and procedures that follow are specifically for the Department of Marine Sciences. However, the general rules and policies of the Graduate School also apply.

Minimum Requirements for Admission

Students are normally admitted in the Fall Semester. Although applications for admission and fellowships are accepted throughout the year, application before February 1 is encouraged; beginning February 15 the admissions committee will make initial recommendations about applicants for the following Fall class, with formal letters sent to applicants by the end of April. Depending on availability of space and funding, applications may be approved and students admitted throughout the year. In addition to the general admissions requirements of the Graduate School, requirements for admission to the Marine Sciences Ph.D. program are:

1. A narrative statement indicating the student's research interests, professional goals and commitment to full-time study for completion of degree requirements
2. Three letters of recommendation
3. For students with baccalaureate degrees:
 - a. A baccalaureate degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited four-year college or university
 - b. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.
4. For students with M.S. degrees:
 - a. An M.S. degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited college or university
 - b. A graduate minimum grade-point average of 3.00 overall (A=4)
5. International students must submit an official score of at least 71 on the Test of English as a Foreign Language (TOEFL), or equivalent score on computer administered tests.
6. The GRE score is not required for admission. You may optionally submit your GRE scores if you wish for them to be considered as part of your application to any graduate program in the Stokes School

of Marine and Environmental Sciences, but this is not required. Individual faculty members may consider available GRE scores as part of a holistic evaluation of the candidates.

To ensure research compatibility between the student and the faculty in the marine sciences program, attention will be given to the statement of research interests. A faculty member will be asked to act as a mentor for the applicant based on the statement of interests and, if necessary, a personal interview. Through this process, the student's interests will be matched to the expertise available within the faculty. Moreover, the mentor may also be able to offer the student financial support if a stipend is not available. Students whose interests do not correspond to those of a particular faculty mentor, and have not identified a faculty member willing to serve as a mentor, will not be admitted into the Ph.D. degree program in marine sciences.

Application forms for admission to the program and for fellowships (see below) are obtained by writing to:

Chair
Department of Marine Sciences
University of South Alabama
Mobile, AL 36688-0002

Fellowships and Assistantships

The Department of Marine Sciences offers at-large fellowships to Ph.D. students annually on a competitive basis. In addition, there are a variable number of doctoral assistantships that are sponsored by externally funded grants and contracts to faculty. The current stipend for Ph.D. fellowships is \$21,000 per year plus a tuition fellowship and waiver of out-of-state fees. The stipend increase to \$24,000 upon completion of the written research prospectus, usually completed within 1.5 years after entering the program. Prospective students must submit applications by February 1 to receive consideration for at-large fellowships. Information about assistantships is available from the:

Office of the Dean of the Graduate School
Administration Building Room 340
University of South Alabama
Mobile, AL 36688-0002

Courses

MAS 134 Ocean Science 3 cr

An introduction to physical, chemical, geological and biological oceanography. Equivalent to BLY 134.

Corequisite: MAS 134L

Cross-Listed: BLY 134

MAS 134L Ocean Science Lab 1 cr

Laboratory experiences associated with BLY 134.

Corequisite: MAS 134

Cross-Listed: BLY 134L

MAS 331 Marine Science I 3 cr

This course will present the basic principles of geological and physical oceanography. Marine science is an interdisciplinary science field in which geology, physics, chemistry and biology interact in complex ways that are fundamental to the oceanic environment. This course will examine the characteristics of oceanic and coastal geomorphology and the associated marine sediments as well as the circulation of water masses that reside in these different regions of the world's oceans. Geological oceanography topics that will be covered include: Structure and evolution of ocean basins, types and properties of marine sediments, sediment transport processes and characterizing coastal regions. Physical oceanography topics that will be covered include: basic physical laws, properties of the water and the ocean, air-sea interactions, general circulation and coastal processes.

Prerequisite: MAS 134 Minimum Grade of C and MAS 134L Minimum Grade of C

Corequisite: MAS 331L

MAS 331L Marine Sciences I Lab 1 cr

Lab component for MAS 331.

Corequisite: MAS 331

MAS 332 Marine Science II-W 3 cr

Oceanography ("ocean"= the marine environment, and "graphy"= the study of) is literally the study of the marine environment. In practice, oceanography is an interdisciplinary science at the intersection of geology, chemistry, physics and biology. Marine Science II focuses on fundamental concepts in chemical and biological oceanography. The study of chemical oceanography will encompass dissolved components, stratification, chemical tracers, marine pollution, ocean acidification and global warming. This will lead to an introduction to biological oceanography, which will include organismal biology, marine adaptation and fisheries. In-class lectures will provide the students with the foundation to understand the principles discussed and will be supplemented with discussion of the modern ways in which these disciplines are pursued.

Prerequisite: (MAS 134 Minimum Grade of C and MAS 134L Minimum Grade of C)

MAS 332L Marine Sciences II Lab 1 cr

Lab component for MAS 332.

MAS 334L Env Monitor & Assess Lab 1 cr

MAS 336 Marine Operations/Research-W 3 cr

Students will conduct collaborative experiments at local field sites. This will involve collecting and analyzing samples, analyzing the subsequent data, and using primary scientific literature to write a short paper and conduct an oral presentation.

Prerequisite: (BLY 121 Minimum Grade of C and BLY 121L Minimum Grade of C) and (BLY 122 Minimum Grade of C and BLY 122L Minimum Grade of C) and (CH 131 Minimum Grade of C and CH 131L Minimum Grade of C) and (CH 132 Minimum Grade of C and CH 132L Minimum Grade of C) and (MAS 134 Minimum Grade of C and MAS 134L Minimum Grade of C) and (MAS 331 Minimum Grade of C and MAS 331L Minimum Grade of C) and (MAS 332 Minimum Grade of C and MAS 332L Minimum Grade of C) and (PH 114 Minimum Grade of C and PH 114L Minimum Grade of C) and MA 125 Minimum Grade of C

MAS 337 Marine Geology 3 cr

Marine Geology explores our ocean basins and coasts, specifically focusing on the dynamic forces that move and shape our ocean basin through the study of marine geology.

Prerequisite: (BLY 121 Minimum Grade of C and BLY 121L Minimum Grade of C) and (BLY 122 Minimum Grade of C and BLY 122L Minimum Grade of C) and (CH 131 Minimum Grade of C and CH 131L Minimum Grade of C) and (CH 132 Minimum Grade of C and MAS 134 Minimum Grade of C and MAS 134L Minimum Grade of C) and (MAS 331 Minimum Grade of C and MAS 331L Minimum Grade of C) and (MAS 332 Minimum Grade of C and MAS 332L Minimum Grade of C) and MA 125 Minimum Grade of C

Corequisite: MAS 337L

MAS 337L Marine Geology Lab 1 cr

Marine Geology lab.

Prerequisite: (BLY 121 Minimum Grade of C and BLY 121L Minimum Grade of C) and (BLY 122 Minimum Grade of C and BLY 122L Minimum Grade of C) and (CH 131 Minimum Grade of C and CH 131L Minimum Grade of C) and (CH 132 Minimum Grade of C and CH 132L Minimum Grade of C) and (MAS 134 Minimum Grade of C and MAS 134L Minimum Grade of C) and (MAS 331 Minimum Grade of C and MAS 331L Minimum Grade of C) and (MAS 332 Minimum Grade of C and MAS 332L Minimum Grade of C) and MA 132 Minimum Grade of C

Corequisite: MAS 337

MAS 367 Marine Biology 4 cr

The relationship of marine organisms to their environment. (Usually taught in the summer semester.) Equivalent to BLY 367. Requires permission of Department Chair.

Prerequisite: ((BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D)) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C) and (CH 115 Minimum Grade of D or CH 131 Minimum Grade of D) and (CH 116 Minimum Grade of D or CH 132 Minimum Grade of D)

Cross-Listed: BLY 367

MAS 371 Shark and Ray Biology 2 cr

This course will provide an introduction to biology of sharks and rays, with special emphasis on regional shark fauna and field techniques.

Topics to be covered include chondrichthyan origin, systematics, sensory biology, trophic ecology, reproductive biology, life history, ecology, fisheries and conservation. Lectures will be supplemented with discussions of papers from the primary literature to familiarize students with current research. In addition, longline, trawl and gillnet sampling will provide students with firsthand knowledge of field techniques and local shark identification. Equivalent to BLY 371. Requires permission of Department Chair.

Prerequisite: ((BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C))

Cross-Listed: BLY 371

MAS 430 Marine Botany 4 cr

A general survey of marine algae and vascular and non-vascular plants associated with the marine environment. Distribution, identification, structure, ecology, and reproduction will be considered. Course offered only through Marine Environmental Science Consortium, (usually taught in the summer semester). Equivalent to BLY 430. Requires permission of Department Chair.

Prerequisite: ((BLY 121 Minimum Grade of D or BLY 141 Minimum Grade of D) and (BLY 122 Minimum Grade of D or BLY 142 Minimum Grade of D) and (CH 115 Minimum Grade of D or CH 131 Minimum Grade of D) and (CH 116 Minimum Grade of D or CH 132 Minimum Grade of D))

Cross-Listed: BLY 430

MAS 431 Field and Laboratory Measuremn 3 cr

Provide Marine Science majors with the opportunity to gain a thorough coverage in the many diverse measurements obtained by marine scientists in field/laboratory settings with consideration for the hypotheses, research questions, quality assurance, analysis and data management.

Prerequisite: (BLY 121 Minimum Grade of C and BLY 121L Minimum Grade of C) and (BLY 122 Minimum Grade of C and BLY 122L Minimum Grade of C) and (CH 131 Minimum Grade of C and CH 131L Minimum Grade of C) and (CH 132 Minimum Grade of C and CH 132L Minimum Grade of C) and (MAS 331 Minimum Grade of C and MAS 331L Minimum Grade of C) and (MAS 332 Minimum Grade of C and MAS 332L Minimum Grade of C) and MA 125 Minimum Grade of C and (MAS 134 Minimum Grade of C and MAS 134L Minimum Grade of C) and (PH 114 Minimum Grade of C and PH 114L Minimum Grade of C)

Corequisite: MAS 431L

MAS 431L Field and Laboratory Measure 1 cr

Lab component for MAS 431. Must be taken with Lecture.

Prerequisite: (BLY 121 Minimum Grade of C and BLY 121L Minimum Grade of C) and (BLY 122 Minimum Grade of C and BLY 122L Minimum Grade of C) and (CH 131 Minimum Grade of C and CH 131L Minimum Grade of C) and (CH 132 Minimum Grade of C and CH 132L Minimum Grade of C) and (MAS 331 Minimum Grade of C and MAS 331L Minimum Grade of C) and (MAS 332 Minimum Grade of C and MAS 332L Minimum Grade of C) and MA 125 Minimum Grade of C

MAS 451 Marine Vertebrate Zoology 4 cr

A study of marine vertebrates, with emphasis on fishes; their systematics, zoogeography, and ecology, (usually taught in the summer semester). Equivalent to BLY 451. Requires permission of Department Chair.

Prerequisite: ((BLY 121 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C))

Cross-Listed: BLY 451

MAS 471 Marine Invertebrate Zoology 4 cr

A study of natural history, systematics, and morphology of marine invertebrates, (usually taught in the summer semester). Equivalent to BLY 471. Requires permission of Department Chair.

Prerequisite: ((BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C))

Cross-Listed: BLY 471

MAS 474 Introduction to Oceanography 4 cr

A general introduction to the oceans, with emphasis on chemical, physical, and geological processes and their relation to biological systems. Course offered only through Marine Environmental Science Consortium (DISL). Offered during the summer term.

Prerequisite: (BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C)

Cross-Listed: BLY 474

MAS 475 Marine Ecology 4 cr

The relationship of marine organisms to their environment, (usually taught in the summer semester). Equivalent to BLY 475. Requires permission of Department Chair.

Prerequisite: ((BLY 121 Minimum Grade of C or BLY 141 Minimum Grade of C) and (BLY 122 Minimum Grade of C or BLY 142 Minimum Grade of C) and (BLY 301 Minimum Grade of C or BLY 341 Minimum Grade of C) and (BLY 302 Minimum Grade of C or BLY 311 Minimum Grade of C) and (BLY 303 Minimum Grade of C or BLY 325 Minimum Grade of C) or (MAS 134 Minimum Grade of C and MAS 134L Minimum Grade of C))

Cross-Listed: BLY 475

MAS 476 Marine Technical Methods 2 cr

This course will provide an introduction to different methods of sensing the ocean, including building and testing simple sensors, use of instruments to collect high resolution data and some background on how technology has led to key advances in marine sciences.

MAS 477 Coral Reef Biology & Ecology 4 cr

This course will explore the biology and ecology of coral reef and associated communities, with a view to understanding what is happening in these ecosystems today.

Prerequisite: (BLY 121 Minimum Grade of C) or (BLY 101 Minimum Grade of C) or (MAS 134 Minimum Grade of C)

MAS 478 Marine Mammal Hlth/Strd Resp 2 cr

Prerequisite: (BLY 368 Minimum Grade of C or MAS 490 Minimum Grade of C or BLY 452 Minimum Grade of C)

MAS 488 Field Marine Science II 3 cr

The course will focus on the biological and ecological characteristics of the aforementioned ecosystems, and emphasize the importance of connectivity among seascape components for maintaining ecosystem function.

Prerequisite: (BLY 121/L Minimum Grade of C or (MAS 134/L Minimum Grade of C)

MAS 490 Special Topics 1-8 cr

An in-depth tutorial exposure to specific areas in the marine sciences. Credit and title will be arranged to examine the subject matter in the area of current interest to one group of students. Specialized topics not currently listed in catalog course offerings.

MAS 510 Oceanography and Marine Bio 3 cr

Oceanography is an interdisciplinary science at the intersection of geology, chemistry, physics and biology. This course is designed to be a survey course of these four disciplines with special emphasis on the biological aspects of ocean sciences. In-class lectures will provide the students with the foundation to understand the principles discussed, and will be supplemented with discussion of the modern ways in which these disciplines are pursued.

MAS 511 Marine Analytical Methods 3 cr

This course will provide an introduction to the analytical methods most commonly used in marine science: spectrometry, fluorometry, colorimetry, gas and liquid chromatography and the use of radio-isotopes. The course will consist of lectures covering the theory of each method and laboratory exercises in their use. Throughout, there will be a focus on the quality of the data being collected, as derived from quantitative assessments of accuracy, precision and repeatability; and propagation of errors. Students will be assessed on problem-sets based on data collected in the labs and on a research project using the instruments and techniques of their choice.

MAS 512 Chlorophyll Fluorescence Tech 2 cr

This course will provide an introduction to the scope and application of fluorescence techniques based on excitation of and emission from the ubiquitous plant pigment chlorophyll a. These include fluorometric determination of chlorophyll concentration in vitro; the use of active, single-wavelength fluorometry to assess temporal and spatial variability of chlorophyll a and microalgal biomass in natural assemblages; the use of multiple-wavelength excitation and/or hyperspectral emission to determine taxonomic distributions in vivo; and the use of modulated (pulse-amplitude modulated and fast repetition rate) fluorometry to investigate photosynthetic efficiency and model productivity.

MAS 515 Environmental Toxicology 4 cr

Introduction to the scientific and technical principles of toxicological processes in the context of the ecosystem. Students will understand the types of major environmental toxicants and how to properly evaluate their toxicity and factors that influence toxicity. Students will recognize and coherently formulate risk assessment and by using the tools and techniques acquired, develop and communicate proposals for remediation.

Prerequisite: (BLY 301 Minimum Grade of C and BLY 302 Minimum Grade of C) and (CH 201 Minimum Grade of C and CH 202 Minimum Grade of C) and (CH 540 Minimum Grade of B and CH 541 Minimum Grade of B)

Cross-Listed: CH 515, EXT 515

MAS 520 Marine Resource Management 3 cr

Designed to acquaint graduate students concerned with management of marine resources; development of legislation, evolution of policy, legal processes, impacts on human resources. The emphases will be placed on living resources.

MAS 521 Marine Conservation Biology 3 cr

This course will develop student's understanding of conservation biology in marine habitats. Lectures and assigned or student-selected readings will cover the widest possible range of current topics in marine conservation biology. Regular field trips will supplement and exemplify lecture topics. Each class will include an introductory lecture that presents an overview of basic ecological concepts and historical perspective for the assigned readings, followed by discussion. Students will lead discussion of student selected papers and write a topical term paper.

MAS 522 Horseshoe Crabs- Resource Mgmt 2 cr

The course will travel to Delaware Bay, home of the largest population of horseshoe crabs in the world. Students will gain and apply information on recent conflicts in horseshoe crab research and fishery management to explore political, ecological, and economic values of marine resources, options for management, conservation, and outreach, conflict resolution and applied ecology.

MAS 523 Anthropogenic Impacts on Coast 3 cr

This course will offer a state-of-the-art review of the nature and extent of anthropogenic impacts on marine coastal ecosystems, including climate change, destruction of wetlands, overfishing and nutrient pollution.

MAS 524 Scientific Communication 3 cr

Instruction on the principles of scientific communication and opportunities to practice different forms of written and oral communication common to marine and other sciences. Topics include: 1) the rationale for scientists to communicate effectively, 2) how to identify and share information to different audiences, 3) successful scientific data presentations, 4) writing, editing, publishing, and reviewing abstracts, scientific papers, and proposals, and 5) biases in scientific communication.

MAS 525 Chemical Ecology 3 cr

Chemical Ecology focuses on chemically mediated interactions within organisms in both aquatic and terrestrial environments. The topics covered include: chemoreception, chemical defense, chemical attraction, and the impact of chemical ecology on humans.

Cross-Listed: BLY 525

MAS 530 Marine Microbial Ecology 3 cr

A general survey of the types of microorganisms found in the marine environment. Emphasis will be on the interaction of microorganisms with each other and with their environment. In particular, the role of microorganisms in carbon cycling and biogeochemical processes will be stressed. Readings from current literature will expose students to the latest techniques and research.

Cross-Listed: BLY 530

MAS 531 Physiol Eco Marine Microalgae 3 cr

This course will cover the acclimative responses of marine microalgae to variability in light, nutrients, temperature and other environmental factors. Stress responses that are engendered when variability in these environmental factors exceeds the organisms' acclimative capacity will also be covered. The course will emphasize the commonality of these processes across taxa as well as considering taxon-specific responses that allow different groups to exploit their niches. Methods such as molecular biology, active fluorescence and remote sensing that can be used to investigate population dynamics and growth over a range of spatial and temporal scales will be covered.

MAS 532 Marine Trophic Processes 3 cr

This course will examine the nature and controls of the trophic routes followed by primary production and resulting carbon budgets in coastal ecosystems. Trophic processes in marine ecosystems such as herbivory, consumption by secondary consumers, decomposition, export/import and burial will be studied. The course will also offer a review of anthropogenic impacts, such as eutrophication and climate change, on the trophic rate of primary production and carbon budgets in coastal ecosystems. Students are expected to contribute with personal experimental projects and critical reading and discussion of seminal papers.

MAS 533 Marine Molecular Ecology 3 cr

The use of molecular biology in ecological studies has been increasing rapidly with the development of new techniques. These techniques can supplement the laboratory and field studies traditionally part of ecology. This course seeks to introduce the use of molecular techniques in marine ecology through lectures accompanied by computer exercises using data from public databases. Lectures will pull data from the primary literature, with emphasis on examples of applications in marine science. Computer exercises will introduce students to how data is analyzed as well as to some of the programs available to carry out this analysis.

MAS 540 Sediment Biogeochemistry 3 cr

Detailed examination of sediment biogeochemical processes and the implications thereof on nutrient cycles, plant production, and animal distribution, including discussion of early diagenesis in coastal sub-tidal and wetland sediment systems. permission of instructor.

MAS 548 Marine Biogeochem Processes 2 cr

The course will examine the interaction between biological, chemical and geological processes in the marine environment. This will be done by first reviewing the cycling of several of the major elements (e.g. carbon, nitrogen, phosphorus, sulfur, and iron) in the sea, and then examining how these cycles differ between various marine ecosystems (e.g. open ocean surface waters, estuaries, coral reefs, seagrass systems and tidal marshes). The focus will be on developing an understanding of how biogeochemical processes serve to regulate ecosystem function in these various habitats. Prerequisites: Organic chemistry, geology, marine ecology.

MAS 550 Fisheries Techniques 3 cr

Students are exposed to a detailed, semi-quantitative introduction to current biological and technological methodologies for studying fishes and aquatic habitats, with emphasis on study design and integration across sub-disciplines.

MAS 551 Quant Methods Fish and Ecology 3 cr

Ecological and fisheries research has progressed beyond qualitative inference and is continuing to adopt more quantitative methods. A diversity of modeling and experimental approaches exists for ecologists and fisheries scientists. This course is designed to familiarize the students with the most commonly used quantitative approaches. Requires permission of instructor.

MAS 555 Fisheries Oceanography 2 cr

Students examine the relationships between fish life history, recruitment dynamics and harvest potential, and local-, meso- and global scale oceanographic processes. Students are exposed to the evolution in thinking on the role of interaction between biology and physics relative to fish and fisheries.

MAS 560 Mar Exp Ecol 4 cr

Advances in marine ecology and oceanography are dependent on the ability of researchers to design effective and robust experiments to test hypothesis. Understanding the power, limitations and potential biological and statistical artifacts are critical to achieving this goal. The course focuses on fundamental concepts in the design and analysis of experiments in marine sciences, ecology and fisheries. Primary emphasis will be placed on design and interpretation and secondarily on techniques for analyses. Various analysis of variance models will be introduced beginning with completely randomized designs and factorial treatment structures, and proceeding through block and split-plot designs. In-class demonstrations and take-home problems will provide students with experience in performing many of these analyses.

Prerequisite: BLY 520 Minimum Grade of C or ST 540 Minimum Grade of C and ST 545 (may be taken concurrently) Minimum Grade of C

MAS 570 Ocean Var and Global Change 3 cr

This course will examine large scale, spatial and temporal variability in the Earth/ocean system as evidenced by present-day and paleo records. Variability such as the El Nino Southern Oscillation will be covered. It will critically evaluate the evidence for and the consequences of modern global change as it pertains to the marine environment. Emphasis will be placed on potential changes in climate, biogeochemical cycles, hydrologic cycles, eutrophication/species diversity, and UV light fluxes. Prerequisites: Permission of instructor.

MAS 571 Marine Hydrodynam-Biomechanics 4 cr

To present an introduction to the importance of small scale fluid dynamics, thermodynamics, and solid mechanics to marine science and to present techniques for measurement of important parameters.

MAS 572 Estuarine Hydrodynamics 3 cr

This course will address physical processes in estuarine environments. With physical processes in estuaries occurring in various time scales, discussion will proceed in terms of three different time scales: turbulent, tidal, and residual time scales. Emphasis will be placed on mass transport by physical transport processes (water movement).

Prerequisite: MAS 601 Minimum Grade of B

MAS 573 Oceanology of Gulf of Mexico 3 cr

This course provides a survey of the physics, chemistry, biology, geology and meteorology of the continental margins and deep ocean regions in the Gulf of Mexico and adjacent waters. Requires permission of instructor.

MAS 574 Marine Ecosystem Modelling 3 cr

An introduction to the principles, tools, and applications of marine ecosystem modelling. Emphasis will be placed on biological and physical coupling and numerical representations of these processes. Students will develop facility with numerical tools and learn how to apply coupled models to their ecosystems of interest.

MAS 575 Marine Ecology 4 cr

The course covers general ecological principles and how they apply to marine ecosystems. Both open ocean and nearshore waters are considered. Specific topics covered include: adaptations of marine organisms for life in the intertidal vs. subtidal zones; different modes of feeding and reproduction in marine organisms; and the importance of predation, competition, adult/larval interactions and dispersal mechanisms. The second half of the course is devoted to discussion of specific habitats including: coral reefs, mangrove swamps, kelp forests, and hydrothermal vents.

MAS 576 Benthic Ecology 2 cr

This course covers the evolutionary history and the ecology of marine benthic communities from the earliest fossils to present. The importance of scale and of proper design will be considered. Other topics include: predation, competition, adult/larval interactions and dispersal mechanisms. There will be discussion of productivity and materials cycling in benthic systems. Special topics of students' suggestions conclude the course.

MAS 577 Interdisciplinary Coastal Processes 3 cr

The coastal ocean has a physical regime that is distinct from that of the open ocean. This physical regime contributes to disproportionately high levels of ecological productivity associated with these areas. Because of the often close coupling of physical and biogeochemical processes in the coastal ocean, the solutions to the problem facing these ecosystems typically require interdisciplinary perspectives. The objective of the course is to introduce the main physical processes and fisheries in the coastal ocean. The course will provide an overview of the physics operating in the coastal ocean and link the physical forcings to biogeochemical processes and ecosystem function. The course will cover topics from shelf break-open ocean interactions to the fundamental processes operation in estuarine environments. The end goal is for graduate students to acquire a fundamental understanding of the physical mechanisms driving the circulation and the associated hydrographic properties in the coastal ocean and how those physical phenomena link to biogeochemical processes.

Prerequisite: MAS 601 (may be taken concurrently) Minimum Grade of C

MAS 579 Coastal Ecosystem Dynamics 2 cr

Coastal Ecosystem Dynamics will allow students to investigate the basic principles of ecosystem structure and function. The course is divided into 2 parts: an instructional phase for learning basics of ecosystem modeling, and a student-led investigation of the structure and function of a variety of coastal ecosystems. This approach will give the student a set of quantitative tools for modeling ecosystems. Also, students will learn to evaluate differences and similarities of energy and nutrient processing in disparate ecosystems. There will be one 2 hr class meeting each week during which students will learn to use the ecological modeling software packages 'Ecopath' and 'Ecoism'. During the initial period, students will 'dissect' published models (obtained from the Internet) as a mechanism to understand the utility of ecosystem modeling as well as the basics of this particular software. The second half of the course will be devoted to student-constructed ecosystem models. The models will be constructed from data and pathway descriptions in Alongi's 'Coastal Ecosystem Processes' (CRC Press). A synthesis of these models will be constructed and placed on the WWW.

MAS 580 Marine Biogeo and Paleoecology 3 cr

This graduate level course will give students a broad overview of the time course of evolutionary changes in the structure and function of marine ecosystems, and will consider the interacting roles of both historical and current factors as they influence the distribution and abundance of marine organisms. Lectures will be mixed with discussions of assigned readings from the primary literature to stimulate critical thinking about the various topics.

MAS 581 Advanced Marine Ecology 3 cr

This course will build on the foundations provided by introductory ecology courses to enhance understanding of the mechanisms that control the distribution and abundance of marine plants and animals. The class periods will be dominated by discussions of assigned readings from the primary literature, which will be complemented by summary lecture material.

MAS 582 Marine Larval Ecology 2 cr

An in depth treatment of the taxonomy, nutrition, dispersal, bio-energetics, behavior, and bio-physical coupling of larval forms of marine species.

MAS 583 Field Marine Science I 2 cr

The Field Marine Science course will consist of an 11 day field exercise in representative coastal sites in Maine with emphasis on rocky intertidal, kelp bed and eelgrass habitats. Two faculty members will accompany the students, participate in the pre-trip readings and evaluate the product developed by each student.

MAS 584 Oceanographic Experience 1-3 cr

This course provides students with practical skills involved in oceanographic research. Skills may include hydrographic, hydroacoustic, and organismic sampling, gear deployment and use of analytical instrumentation at sea. Students participate in one or more oceanographic cruises during a semester and carry out a defined project using research tools available on the ship. A final report on the project forms the major part of the course grade. Cruises are available only on an ad hoc basis so permission of the instructor is required.

MAS 585 Marine Zooplankton 3 cr

This course familiarizes the student with the taxonomic breadth of estuarine and marine zooplankton ranging from protists through all major phyla of metazoa. Though the focus of the course is on taxonomic familiarization, basic biology (including reproduction and feeding) of all major taxa represented in the plankton will be covered. Students will also learn basic and advanced field collection, laboratory and statistical techniques. Although not a prerequisite, it is useful for students to have a background in invertebrate zoology.

MAS 586 Marine Restoration Ecology 3 cr

The course examines factors in the evolution current U.S. and International marine and coastal policy related to the management of natural resources. Course includes policy components, policy information implementation, change processes and economic criteria for evaluating policy effectiveness. The course also surveys the basic approaches to economic valuation of marine resources.

MAS 587 Seagrass Ecosystem Ecology 2 cr

A survey of current literature on topics related to the ecology of seagrass ecosystems. Students will read assigned papers to be analyzed in faculty lead discussion format. A final research paper will be prepared by each student.

MAS 588 Field Marine Science II 3 cr

The Field Marine Science course will consist of an 8 - 12 day field exercise in representative coastal sites. Faculty members with diverse interests will accompany the students, participate in pre-trip discussions and evaluate the product developed by each student. The course is designed to familiarize students with habitats and research conditions on the Northern Gulf Coast. Field trip locations are selected on the basis of faculty and student interest, economics, and availability of logistic support. Students pay their room and board costs for the field exercise. The course is primarily for graduate students, but advanced undergraduates may enroll with consent of instructor. Both MAS 588 and MAS 583 may be taken for credit when each is taught in a different environment.

MAS 589 Marine Plankton 3 cr

The course familiarizes the student with the taxonomic breadth of phytoplankton, bacterioplankton and zooplankton in estuaries, coastal seas and open oceans. Though the focus of the course is on taxonomic familiarization, basic biology (including reproduction and feeding) of all major taxa represented in the plankton will be covered. Student will learn fundamental, as well as "cutting-edge", field laboratory and statistical techniques. Two hours of lectures each week will be accompanied by two hours of hand-on laboratory work. Prerequisites: Graduate status in one of the physical or biological sciences.

MAS 590 Sp Top - 1-4 cr

An in-depth tutorial exposure to specific areas in the marine sciences. Credit and title will be arranged to examine the subject matter in an area of current interest to one or group of students. Specialized topics not currently listed in catalog course offerings. MAS 590 is available to master students - MAS 690 is available to Ph.D. students.

MAS 592 Seminar 1 cr

Students and faculty meet weekly in an interactive discussion of current literature in marine sciences. The focus will be on "state-of-the-art" theories and methodologies as they occur in the primary marine literature. Student presentation is required to receive credit.

MAS 594 Directed Studies 1-4 cr

Independent research, not related to the thesis, under the direction of a member of the graduate faculty. May be used to learn new techniques or explore research questions of special interest. A maximum of 4 hours may be earned for this course toward the MS degree.

MAS 599 Thesis 1-8 cr

Independent research by the student under the sponsorship of a member of the department. Progress reports of the work accomplished are required every six months.

MAS 601 Physical Oceanography 4 cr

Physical properties and circulation of the world's oceans. Topics to be covered include: basic physical laws; properties of heat, water, and salt budgets; waves; tides; large and small scale circulations; sea-level fluctuations; interactions of the sea with the atmosphere and land masses; light and acoustics.

MAS 602 Chemical Oceanography 4 cr

An in-depth examination of the chemistry of sea water and its relationship with biological, geological, and physical processes in the oceans. Coverage of sea water composition, buffering capacity, redox potential, and photochemistry will form the basis for an in-depth analysis of dynamic equilibria of gases, organic materials, nutrients, and trace elements in the sea. Critical evaluation of recent primary literature in chemical oceanography will be used to illustrate state-of-the-art research approaches.

MAS 603 Geological Oceanography 4 cr

Geological Oceanography encompasses the historic and current consequences of both geophysical and classical geological processes. Included topics are tectonic theory and its development, sedimentary processes in coastal and oceanic provinces, stratigraphy, structural geology, micropaleontology, erosion, diagenesis and the formation of hydrocarbons.

MAS 604 Biological Oceanography 4 cr

A comprehensive survey of marine organisms and their interaction including pelagic and benthic communities of the oceans, coastal waters and estuaries. Primary formation of particulate material, feeding processes, kinetics of food webs, biogeochemical processes, patterns of distribution, ecology of biotic systems, human interactions and current concerns are topics to be covered.

MAS 690 Sp Top - 1-4 cr

An in-depth tutorial exposure to specific areas in the marine sciences. Credit and title will be arranged to examine the matter in an area of current interest to one or group of students. Specialized topics not currently listed in catalog course offerings. MAS 590 is available to master students - MAS 690 is available to Ph.D. students.

MAS 692 Seminar 1 cr

Students and faculty meet weekly in an interactive discussion of current literature in marine sciences. The focus will be on "state-of-the-art" theories and methodologies as they occur in the primary marine literature. Student presentation is required to receive credit.

MAS 694 Directed Studies 1-6 cr

Independent research, not related to the dissertation, under the direction of a member of the graduate faculty. May be used to learn new techniques or explore research questions of special interest. A maximum of 4 hours may be earned for this course toward a Ph.D. degree.

MAS 799 Dissertation 1-8 cr

Independent research by the student under the sponsorship of a member of the department.

Faculty

Faculty Name	Faculty Department	Faculty Position	Degrees Held
ALBINS, MARK ALLEN (markalbins@southalabama.edu)	Marine Sciences	Part-Time Instructor	BA, University of Hawaii At Hilo PHD, Oregon State University
BAKER, RONALD (ronaldbaker@southalabama.edu)	Marine Sciences	Assistant Professor	BS, James Cook University PHD, James Cook University
CARMICHAEL, RUTH H. (rcarmichael@southalabama.edu)	Marine Sciences	Professor	BA, University of Chicago MA, Boston University PHD, Boston University
CLOYED, CARL STEPHEN (ccloyed@southalabama.edu)	Marine Sciences	Part-Time Instructor	BA, Prescott College PHD, University of Louisville
DEBOSE, JENNIFER (jdebose@southalabama.edu)	Marine Sciences	Part-Time Instructor	BS, Texas A&M Univ At Galveston MS, University of California-Davis PHD, University of California-Davis
DORGAN, KELLY M. (kdorgan@southalabama.edu)	Marine Sciences	Associate Professor	BS, University of CA-Santa Cruz PHD, University of Maine
DZWONKOWSKI, BRIAN (bdzwonkowski@southalabama.edu)	Marine Sciences	Associate Professor	BA, The College of New Jersey MS, University of Delaware PHD, University of Delaware

Environmental & Sustainability Sciences (B.S.)

Bachelor of Science (B.S.) in Environmental & Sustainability Sciences

The University of South Alabama offers a B.S. in Environmental and Sustainability Sciences designed to address the need for a broad understanding of the natural world and its interaction with the demands of human society and development. A fundamental component of environmental science is its interdisciplinary essence and how this integrative approach can be used to develop mutually beneficial solutions to some of society's most pressing challenges.

Degree Requirements

ENV 338 & 338L	Enviro Sciences II and Environ Sciences II Lab	4
ENV 339	Climate Change - W	3
ENV 340	Fundamentals of E Tox & Chem	3
ENV 334 & 334L	Enviro Monitoring & Assessment and Environmental Monitoring & Assessment Lab	4
ENV 335 & 335L	Enviro Conserv/Sustainabilit-W and Env Conserv & Sustain Lab	4
GY 425	Hydrology	4
GIT 460	Intro to GIT	4
GEO 410	Biogeography	3
Other Course Requirements		
See list below		

Minor Requirement 18-24

A minor is required for this degree program.

The Composite Science minor consists of three laboratory science sequences. Students may satisfy a Composite Science minor by completing the major additional course requirements (i.e. BLY 121/L, BLY 122/L, CH 131/L, CH 132/L, and PH 114/L) plus either PH 115 & PH 115L or PH 202 & PH 202L. Or a student could take GY 111 & GY 111L and GY112 & GY 112L to complete the Composite Science minor or by taking GEO 101 & GEO 101L and GEO 102 & GEO 102L.

A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE 120

All undergraduates must complete two designated writing credit (W) courses.

NOTE: PHL 231 is suggested as one of the AREA II. General Education Requirements.

Other Course Requirements:

Additional courses required for the major include general education courses in the following list.

Code	Title	Hours
BLY 121 & 121L	General Biology I and General Biology I Lab	4
BLY 122 & 122L	General Biology II and General Biology II Laboratory	4
CH 131 & 131L	General Chemistry I and General Chemistry I Lab	4
CH 132 & 132L	General Chemistry II and General Chemistry II Lab	4
MA 125	Calculus I	4
GY 111 & 111L	Physical Geology and Physical Geology Lab	4
Choose one from the following:		4-5
PH 114 & 114L	Physics with Algebra-Trig I and Alg-Trig Based Physics I Lab	
PH 201 & 201L	Calculus-Based Physics I and Calculus-Based Physics I Lab

Major Milestone Notes

- Students with ACT Math scores 22-23 should take MA 112 in the first semester. Students with ACT Math scores 21 and below should begin math courses in the summer before Fall - Year 1.
- There may be additional prerequisites for upper level major electives. Refer to the bulletin for more information.
- All Arts and Sciences majors require a minor between 18 and 24 hours. Courses used in a minor can also be used for general education requirements or major requirements (up to two courses).
- Two designated writing (W) courses are required with at least one course chosen from offerings in the student's major or minor. Courses carrying this required credit are identified in the University Bulletin by a (W) after the course title.
- The Sample 4-year plan is designed as a guide for students preparing for their course selections. This information provides only a suggested schedule. Actual course selections should be made in consultation with an advisor.

Marine Science (MS) - Marine Conservation

Master of Science (M.S.) In Marine Conservation and Resource Management

The M.S. in Marine Conservation and Resource Management is designed to provide a formal course of training and professional development in the marine sciences that will enable students to contribute to the sustainable management of marine resources. The program does not require thesis research, but instead offers professional development through group projects and professional internships with government agencies, NGOs, and environmental consulting firms. The curriculum and other requirements can accommodate students currently in the workforce.

Minimum Requirements for Admission

Applications for Fall admission are due by June 1 of each year. Enrollment normally begins in the fall semester; however spring and summer admissions will be considered on a case by case situation. In addition to the general admissions requirements of the Graduate School, minimal requirements for admission are:

1. A baccalaureate degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics, and engineering) or conservation biology (economics, sociology) from an accredited four year college or university.
2. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5

GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.

3. The GRE score is not required for admission. You may optionally submit your GRE scores if you wish for them to be considered as part of your application to any graduate program in the Stokes School of Marine and Environmental Sciences, but this is not required. Individual faculty members may consider available GRE scores as part of a holistic evaluation of the candidates.

Degree Requirements

Required Credit

A minimum of thirty (30) semester hours of course credit beyond the baccalaureate degree is required for students pursuing an MS degree. Details about the curriculum are given as follows.

Transfer Credit

A maximum of twelve (12) semester hours of graduate courses taken at another accredited university in the same (or closely related) subject as that of the masters program may be considered as part of the MS degree requirements at USA. Only grades of "A" or "B" may be accepted as transfer credits. The School's Director or Associate Director will evaluate transfer credit; the transfer credit is approved by the Dean of the Graduate School only after completion of a minimum of eight (8) semester hours of graduate course work in the MS program at USA.

Time Limit

All requirements for the MS degree must be completed within two and one half years from the date of matriculation. A student who has not satisfactorily completed a M.S. degree in a 2.5-year period must apply for a defined extension to complete the degree. This request must be recommended by a major professor, the Chair, the Director of Graduate Studies, and approved by the Dean of the Graduate School. If the student does not complete the degree requirements in the defined extension period, the Director of Graduate Studies may recommend, and the Dean of the Graduate School may take, whatever action is necessary up to and including dismissal.

Failure to complete the work within the periods specified shall necessitate reevaluation of the student's program, and may result in a recommendation of dismissal by the Director of Graduate Studies to the Graduate Dean.

Coursework

All students must complete the four core courses of the program. At least two statistics courses will be required for the program. For students who have not had statistics courses as an undergraduate, ST 540 must be one of those courses taken. Two seminar courses and directed studies are also required. The remaining coursework (6 cr) should be met through elective courses that are approved by the program coordinator.

Requirements

Code	Title	Hours
Core Courses		
MAS 510	Oceanography and Marine Bio	3
MAS 520	Marine Resource Management	3
MAS 521	Marine Conservation Biology	3
SY 567	Environmental Sociology	3
Statistics		
Select two of the following:		6

MAS 560	Mar Exp Ecol	
ST 540	Stat in Research I	
ST 550	Environmental Statistics	
ST 560	Appl Desgn & Analysis of Exper	
Seminars		
MAS 592	Seminar	1
GIS 501	Responsible Conduct of Researc	1
Directed Studies		
MAS 594	Directed Studies ¹	4
Electives		
Select two courses from the following, at least one course must be outside MAS to fulfill interdisciplinary requirement of the program:		6
MAS courses that may be used as electives:		
MAS 604	Biological Oceanography	
MAS 602	Chemical Oceanography	
MAS 555	Fisheries Oceanography	
MAS 551	Quant Methods Fish and Ecology	
MAS 603	Geological Oceanography	
MAS 601	Physical Oceanography	
MAS 581	Advanced Marine Ecology	
MAS 583	Field Marine Science I	
MAS 584	Oceanographic Experience	
MAS 560	Mar Exp Ecol	
Non-MAS Electives: ²		
CE 579	Fundamentals Environmental Eng	
CH 514	Environmental Chemistry	
PHA 643	Molecular-Cellular Toxicology	
GIT 542	Remote Sensing II	
GIT 560	Intro to GIT	
GIT 561	Environmental GIS	
Directed studies		
MAS 594	Directed Studies (Up to four credits of directed studies may be earned once a student completes their capstone project)	
Total Hours		30

¹ Ideally these directed studies classes should be taken in Fall – Semester Year 2 –Directed Studies -Part 1; and Spring Year 2- Directed Studies Part II- Project completion.

² These courses represent suggested electives. Other graduate level courses offered at USA can be used to fulfill the elective requirement provided approval of the Program coordinator is received.

A key element of the program is participation in a professional internship or the completion of a capstone research project. Students will do either an internship or capstone, but not both. We recommend that students pursue the internship route in order to develop professional experience. The requirements for these options are below.

- To fulfill the requirements of the program by performing an internship, a student must perform an internship of approximately 6-month duration working 20 hours a week (approximately 480 hours of internship) in the field of Marine Conservation and Resource Management.
- In some cases, students may opt for a capstone research project in lieu of the internship. A capstone project provides an opportunity to

go more in depth on a topic to address the complex problems facing marine and coastal systems. With the help of a faculty mentor and the program coordinator, a student pursuing the capstone project will design and perform a project to resolve a problem related to conservation and/or resource management. The project shall result in a paper of modest length (about the length of a journal article) and a formal presentation to the Marine Sciences Department faculty and students.

Marine Science (MS) - Non-Thesis Option

Master of Science in Marine Sciences

The Master of Science degree in Marine Sciences is awarded in recognition of the student's demonstrated ability to successfully complete a prescribed program of courses. It also is preferred that students undertake original scholarly research, which culminates in writing and defending an acceptable thesis.

Minimum Requirements for Admission

Students are normally admitted in the Fall Semester. Although applications for admission and fellowships are accepted throughout the year, application before February 1 is encouraged; beginning February 15 the admissions committee will make initial recommendations about applicants for the following Fall class, with formal letters sent to applicants by the end of April. Depending on availability of space and funding, applications may be approved and students admitted throughout the year.

In addition to the general admissions requirements of the Graduate School, requirements for admission to the Marine Sciences M.S. program are:

1. A narrative statement indicating the student's research interests, professional goals and commitment to full-time study for completion of degree requirements. It is highly encouraged that prospective students reach out to the faculty to discuss research interests. All of our M.S. students are funded on grant-funded research assistantships. Thus, acceptance of new students may be a condition of available funding.
2. Three letters of recommendation.
3. For students with baccalaureate degrees:
 - a. A baccalaureate degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited four-year college or university.
 - b. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.
 - c. The GRE score is not required for admission. You may optionally submit your GRE scores if you wish for them to be considered as part of your application to any graduate program in the Stokes School of Marine and Environmental Sciences, but this is not required. Individual faculty members may consider available GRE scores as part of a holistic evaluation of the candidates.
4. International students must submit an official score of at least 71 on the Test of English as a Foreign Language (TOEFL), or equivalent score on computer administered tests.

Degree Requirements

Required Credit

A minimum of thirty (30) semester hours of approved graduate credit is required. Details about the curriculum are given below.

Transfer Credit

A maximum of twelve (12) semester hours of graduate courses taken at another accredited university in the same (or closely related) subject as that of the masters program may be considered as part of the MS degree requirements at USA. Only grades of "A" or "B" may be accepted as transfer credits. The student's mentor (major professor), in consultation with the Chair, and if necessary, the student's advisory committee, will evaluate transfer credit; the transfer credit is approved by the Dean of the Graduate School only after completion of a minimum of eight (8) semester hours of graduate course work in the MS program in marine sciences at USA.

Residence, Full-Time Study, and Continuous Registration

A minimum of two (2) consecutive semesters of full-time study in residence is required. The residency requirements may be met at USA or the Dauphin Island Sea Lab. Students are considered full-time if registered for six (6) or more hours during fall and spring semesters. Students must be registered continuously, i.e., every semester (fall, spring, and summer), during their program.

Employment other than University activities directly associated with graduate study is not allowed during full-time study, unless specifically approved by the Chair.

Time Limit

All requirements for the MS degree must be completed within three (3) years from the date of matriculation. A student who has not satisfactorily completed a M.S. degree in a three-year period must apply for a defined extension to complete the degree. This request must be recommended by a major professor, the Chair, the Director of Graduate Studies, and approved by the Dean of the Graduate School.

Failure to complete the work within the periods specified shall necessitate reevaluation of the student's program, and may result in a recommendation of dismissal by the Director of Graduate Studies to the Graduate Dean.

Curriculum

All students pursuing the non-thesis option must have formal coursework in the following general areas of marine sciences; physical, chemical, geological, or biological oceanography. This requirement is met by completion of four (4) core courses, representing sixteen (16) credit hours.

Coursework

The required core courses are each four (4) semester hours. In addition, two (2) seminar courses are required that are one-hour each.

The remaining course work will be determined by the student's advisory committee and may include marine sciences or other graduate electives, directed studies, and thesis hours.

Code	Title	Hours
Core Courses		16
MAS 601	Physical Oceanography	
MAS 602	Chemical Oceanography	
MAS 603	Geological Oceanography	
MAS 604	Biological Oceanography	
Seminar		2
Two (2) enrollments in seminar, one (1) hour per semester		
Minimum Number of Hours for Electives and Directed Studies		12
Electives		
Select Marine Sciences or other electives (500 or 600 level courses) as determined by advisory committee		
Directed Studies		
Maximum of six (6) hours		
Total Hours		30

- Minimum of thirty (30) hours
- Comprehensive examinations
- Grades of "B" or better in all core courses will satisfy the requirement of a comprehensive exam.

Non-Thesis Program

Students pursuing the MS degree in Marine Sciences are encouraged to follow the thesis option. However, a non-thesis curriculum is available for students, upon agreement of the major professor and advisory committee, who so elect. The student will be required to complete the same degree requirements as those for a student who chooses the thesis option, with the following exceptions:

1. A thesis will not be required, consequently thesis hours can not be applied to the thirty (30) hour minimum requirement.
2. Course work must include all four (4) core courses.
3. The student must take written and oral comprehensive exams to be given by the advisory committee.
4. The student must complete Directed Studies under the direction of the major professor. The student must also have an advisory committee whose members will decide if the student's report relating to the directed study is satisfactory. The committee normally will consist of the major professor and two others. The student is required to present an open seminar about the directed study during the last semester of residency.

Marine Science (MS) - Thesis Option

Master of Science in Marine Sciences

The Master of Science degree in Marine Sciences is awarded in recognition of the student's demonstrated ability to successfully complete a prescribed program of courses and undertake original scholarly research, which culminates in writing and defending an acceptable thesis.

Minimum Requirements for Admission

Students are normally admitted in the Fall Semester. Although applications for admission and fellowships are accepted throughout the year, application before February 1 is encouraged; beginning February 15 the admissions committee will make initial recommendations about applicants for the following Fall class, with formal letters sent to

applicants by the end of April. Depending on availability of space and funding, applications may be approved and students admitted throughout the year.

In addition to the general admissions requirements of the Graduate School, requirements for admission to the Marine Sciences M.S. program are:

1. A narrative statement indicating the student's research interests, professional goals and commitment to full-time study for completion of degree requirements. It is highly encouraged that prospective students reach out to the faculty to discuss research interests. All of our M.S. students are funded on grant-funded research assistantships. Thus, acceptance of new students may be a condition of available funding.
2. Three letters of recommendation.
3. For students with baccalaureate degrees:
 - a. A baccalaureate degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited four-year college or university.
 - b. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.
 - c. The GRE score is not required for admission. You may optionally submit your GRE scores if you wish for them to be considered as part of your application to any graduate program in the Stokes School of Marine and Environmental Sciences, but this is not required. Individual faculty members may consider available GRE scores as part of a holistic evaluation of the candidates.
4. International students must submit an official score of at least 71 on the Test of English as a Foreign Language (TOEFL), or equivalent score on computer administered tests.

Degree Requirements

Required Credit

A minimum of thirty (30) semester hours of approved graduate credit is required. Details about the curriculum are given below.

Transfer Credit

A maximum of twelve (12) semester hours of graduate courses taken at another accredited university in the same (or closely related) subject as that of the masters program may be considered as part of the MS degree requirements at USA. Only grades of "A" or "B" may be accepted as transfer credits. The student's mentor (major professor), in consultation with the Chair, and if necessary, the student's advisory committee, will evaluate transfer credit; the transfer credit is approved by the Dean of the Graduate School only after completion of a minimum of eight (8) semester hours of graduate course work in the MS program in marine sciences at USA.

Residence, Full-Time Study, and Continuous Registration

A minimum of two (2) consecutive semesters of full-time study in residence is required. The residency requirements may be met at USA or the Dauphin Island Sea Lab. Students are considered full-time if registered for six (6) or more hours during fall and spring semesters.

Students must be registered continuously, i.e., every semester (fall, spring, and summer), during their program.

Employment other than University activities directly associated with graduate study is not allowed during full-time study, unless specifically approved by the Chair.

Time Limit

All requirements for the MS degree must be completed within three (3) years from the date of matriculation. A student who has not satisfactorily completed a M.S. degree in a three-year period must apply for a defined extension to complete the degree. This request must be recommended by a major professor, the Chair, the Director of Graduate Studies, and approved by the Dean of the Graduate School.

Failure to complete the work within the periods specified shall necessitate reevaluation of the student's program, and may result in a recommendation of dismissal by the Director of Graduate Studies to the Graduate Dean.

Curriculum

All students must have formal coursework in two (2) of the following general areas of marine sciences; physical, chemical, geological, or biological oceanography. This requirement is met by completion of two core courses, representing eight (8) credit hours.

Coursework

The required two (2) core courses are each four (4) semester hours. In addition, two (2) seminar courses are required that are one-hour each.

The remaining course work will be determined by the student's advisory committee and may include marine sciences or other graduate electives, directed studies, and thesis hours. This program is oriented toward research and students will be expected to demonstrate research capability through completion of an acceptable thesis. Up to nine (9) hours of thesis credit may be directed toward the minimum requirement of thirty (30) semester hours. Thesis hours are taken after completion of the student's research prospectus (described below), which is due within 1.25 years of matriculation.

Code	Title	Hours
Core Courses (Take 2 of 4)		8
MAS 601	Physical Oceanography	
MAS 602	Chemical Oceanography	
MAS 603	Geological Oceanography	
MAS 604	Biological Oceanography	
Seminar		2
Two enrollments in seminar, one hour per semester		
Minimum Number of Hours for Electives, Directed Studies, and Thesis		20
Electives		
Select Marine Sciences or other electives (500 or 600 level courses) as determined by advisory committee		
Directed Studies		
Maximum of six (6) hours		
Thesis		
Maximum of nine (9) hours		
Total Hours		30

- Minimum of 30 hours
- Grades of "B" or better in core courses

Research Prospectus

Beyond beginning coursework, the first milestone is to develop a written research prospectus in consultation with a thesis advisory committee. The research prospectus is a document that lays out the student's rationale, methods, and objectives for their thesis research. It must include enough detail for the committee to evaluate both the novelty of the proposed work as well as the techniques needed to achieve the research objectives. Students are expected to complete this task with 1.25 years of matriculation.

Defense of Thesis

The final oral defense of the thesis is scheduled after the written thesis is completed except for such revisions as may be necessary as a result of the defense. The final oral defense will not be given before all required course work has been completed or is currently in progress.

Marine Science (Ph.D.)

Doctor of Philosophy (Ph.D.) in Marine Sciences

The Doctor of Philosophy (Ph.D.) Program in Marine Sciences is designed to provide formal coursework and advanced research in marine sciences that produces significant, original contributions to knowledge. The Doctor of Philosophy degree is awarded in recognition of the student's demonstrated ability to conduct original, scholarly research at the highest levels without extensive supervision. The degree is not granted upon completion of a stated amount of coursework, but rather after demonstration by the student of a comprehensive knowledge and research capability in a specialized field of study. The student must demonstrate this ability in writing and by defending a dissertation based upon the results of an original investigation. Earning a Ph.D. demonstrates a level of competence and accomplishment that enables graduates to pursue careers as marine science professionals in academia, industry, and government.

The Marine Sciences program offers courses and opportunities for research in multiple sub-disciplines: biological, chemical, physical, and geological oceanography as well as marine ecology, fisheries, and biogeochemistry. Each student receives formal training in these disciplines while concentrating in a specific research area.

Minimum Requirements For Admission

Students are normally admitted in the Fall Semester. Although applications for admission and fellowships are accepted throughout the year, application before February 1 is encouraged; beginning February 15 the admissions committee will make initial recommendations about applicants for the following Fall class, with formal letters sent to applicants by the end of April. Depending on availability of space and funding, applications may be approved and students admitted throughout the year. In addition to the general admissions requirements of the Graduate School, requirements for admission to the Marine Sciences Ph.D. program are:

1. A narrative statement indicating the student's research interests, professional goals and commitment to full-time study for completion of degree requirements. It is highly encouraged that prospective students reach out to the faculty to discuss research interests. Most

of our Ph.D. students are funded through grant-funded research assistantships. Thus, acceptance of new students may be a condition of available funding as well as matching students to faculty with new grant funded projects.

2. Three letters of recommendation.
3. For students with baccalaureate degrees:
 - a. A baccalaureate degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited four-year college or university.
 - b. Applicants to graduate programs in Arts and Sciences typically have a minimum GPA of at least a 3.0 on all undergraduate work. In exceptional cases, applicants may be considered with at least a 2.5 GPA on all undergraduate work, or at least a 2.75 GPA on the last 60 hours of undergraduate work.
4. For students with MS degrees:
 - a. A. An MS degree in a discipline related to marine sciences (e.g., biology, chemistry, geology, physics) from an accredited college or university.
 - b. A graduate minimum grade-point average of 3.0 overall.
5. International students must submit an official score of at least 71 on the Test of English as a Foreign Language (TOEFL), or equivalent score on computer administered tests.
6. The GRE score is not required for admission. You may optionally submit your GRE scores if you wish for them to be considered as part of your application to any graduate program in the Stokes School of Marine and Environmental Sciences, but this is not required. Individual faculty members may consider available GRE scores as part of a holistic evaluation of the candidates.

To ensure research compatibility between the student and the faculty in the marine sciences program, attention will be given to the statement of research interests. A faculty member will be asked to act as a mentor for the applicant based on the statement of interests and, if necessary, a personal interview. Through this process, the student's interests will be matched to the expertise available within the faculty. Moreover, the mentor may also be able to offer the student financial support if a stipend is not available. Students whose interests do not correspond to those of a particular faculty mentor or who have not identified a faculty member willing to serve as a mentor will not be admitted into the Ph.D. degree program in marine sciences.

Degree Requirements

Required Credit

A minimum of sixty (60) semester hours of approved graduate course credit is required. Details about the curriculum are given below.

Transfer Credit

Graduate courses taken at another accredited university, such as for students with MS degrees in the same (or a closely related) subject as that of the Ph.D. program, may be considered in the Ph.D. plan of study up to a maximum of 30 semester hours. Only grades of "A" or "B" may be accepted as transfer credit. The student's mentor, in consultation with the Chair, and if necessary, the advisory committee, will evaluate transfer credit; the transfer credit is approved by the Dean of the Graduate School only after completion of a minimum of eight semester hours of graduate course work in the doctoral program at USA.

Residence, Full-time Study, and Continuous Registration

A minimum of two (2) consecutive semesters of full-time study in residence is required. The residency requirements may be met at USA or the Dauphin Island Sea Lab. Students are considered full-time if registered for six (6) or more hours during fall and spring semesters. Students must be registered continuously, i.e., every semester (fall, spring, and summer), during their program.

Employment other than University activities directly associated with graduate study is not allowed during full-time study, unless specifically approved by the Chair.

Time Limit

All requirements for the Ph.D. degree must be completed within five years from the date of matriculation. A student who has not satisfactorily completed a dissertation in an five-year period must apply for a defined extension to complete the degree. This request must be recommended by the major professor, the Chair of the Department, the Director of Graduate Studies, and approved by the Dean of the Graduate School.

Failure to complete the work within the periods specified shall necessitate reevaluation of the student's program and may result in a recommendation for dismissal by the Director of Graduate Studies to the Graduate Dean.

Curriculum

All students must have formal course work in three (3) of the following general areas of marine sciences; physical, chemical, geological, or biological oceanography. This requirement is met by completion of three core courses, representing twelve (12) credit hours.

Coursework

The required three (3) core courses are each four (4) semester hours. In addition, two (2) semester hours of seminar (two, one (1) semester hour enrollments) and a minimum of twelve (12) dissertation hours are required. Dissertation hours are taken after completion of the student's research prospectus (described below), which is due within 1.5 years of matriculation.

The remaining course work will be determined by the student's advisory committee and may include marine sciences or other graduate electives, directed studies, and dissertation hours. No more than eighteen (18) hours of dual-listed courses (400- and 500- level listing for the same course) may be counted toward meeting the minimum hours required. Graduate students will only receive graduate credit for the 500-level version of dual-listed courses.

Code	Title	Hours
Core Courses (Take 3 or 4)		12
MAS 601	Physical Oceanography	
MAS 602	Chemical Oceanography	
MAS 603	Geological Oceanography	
MAS 604	Biological Oceanography	
Seminar		2
Two enrollments in seminar, one hour per semester		
Dissertation		12
1-5 hours per semester, minimum requirement is 12 hours and maximum that may be applied to the 60 hour total is 15		
Minimum Number of Hours for Electives, Directed Studies, and Additional Dissertation		34

Electives

Select Marine Sciences or other electives (500 or 600 level courses) as determined by advisory committee

Directed Studies

Maximum of eight (8) hours

Total Hours **60**

- Minimum of 60 hours
- Grades of "B" or better in core courses

Research Prospectus

Beyond beginning coursework, the first milestone is to develop a written research prospectus in consultation with a dissertation advisory committee. The research prospectus is a document that lays out the student's rationale, methods, and objectives for their thesis research. It must include enough detail for the committee to evaluate both the novelty of the proposed work as well as the techniques needed to achieve the research objectives. Students are expected to complete this task with 1.5 years of matriculation.

Comprehensive Examinations

Written and oral examinations are required of all students seeking the Ph.D. degree in marine sciences. These examinations are given after completion of the core courses requirement and submission of the research prospectus. The written comprehensive examination is taken first and normally is more general in scope focusing on materials from core courses as well as the student's research area. The oral comprehensive examination may also address general knowledge in the student's discipline but is more focused on questions about the research prospectus. The examinations may be taken no more than twice.

Candidacy

A doctoral student is admitted to candidacy after submitting a prospectus, passing both the written and oral comprehensive examinations, and completing all formal course work requirements. The doctoral candidate is a student who has fulfilled all preliminary requirements for the Ph.D. and has only completion of the dissertation research as the remaining requirement.

Defense of Dissertation

The final oral defense of the dissertation is scheduled after the dissertation is written except for such revisions as may be necessary as a result of the defense. The final oral defense will not be given earlier than one semester after admission to candidacy and not before all required course work has been completed or is currently in progress.

Marine Sciences (B.S.) Bachelor of Science (B.S.) in Marine Sciences

The Stokes School of Marine & Environmental Sciences offers a B.S. in Marine Sciences to address society's need for specialized understanding of the marine environment. This program is designed to prepare students for tackling challenges and opportunities presented by the "Blue Economy". The "Blue Economy" encompasses a broad range of job opportunities related to the marine environment allowing graduates to pursue careers in government, academic, commercial and industrial settings. The degree program takes advantage of the location of the University South Alabama as well as its partnership with the Dauphin

Island Sea Lab, DISL, to provide a unique educational experience as well as experiential learning opportunities. These institutional locations give students direct access to the natural marine laboratories of the Mobile Tensaw Delta, Mobile Bay, and the Gulf of Mexico where students will be immersed in all things marine!

A cornerstone of this program is the Semester by the Sea at DISL where students in this program will spend their spring semester of junior or senior year taking coursework at DISL with the option of living in residence at DISL. Students must complete the following courses prior to attending the spring semester by the sea: BLY 121/L, BLY 122/L, CH 131/L, CH 132/L, PH 114/L or PH 201/L, MAS 134/L, MAS 331/L, and MAS 332/L.

Degree Requirements

Code	Title	Hours
General Education Requirements. Please see the STEM requirements below that must be taken for this major.		
https://bulletin.southalabama.edu/programs-az/arts-sciences/#generaleducationtext		53-57
Required Marine Sciences Courses		37
MAS 134 & 134L	Ocean Science and Ocean Science Lab	4
MAS 331 & 331L	Marine Science I and Marine Sciences I Lab	4
MAS 332 & 332L	Marine Science II-W and Marine Sciences II Lab	4
MAS 336	Marine Operations/Research-W	3
MAS 337 & 337L	Marine Geology and Marine Geology Lab	4
MAS 431 & 431L	Field and Laboratory Measuremn and Field and Laboratory Measure	4
MAS 475	Marine Ecology	4
Choose 3 of the following DISL Summer courses:		10
MAS 371	Shark and Ray Biology	
MAS 367	Marine Biology	
MAS 430	Marine Botany	
MAS 451	Marine Vertebrate Zoology	
MAS 471	Marine Invertebrate Zoology	
MAS 477	Coral Reef Biology & Ecology	
MAS 478	Marine Mammal Hlth/Strd Resp	
MAS 488	Field Marine Science II	
MAS 490	Special Topics	
Other Course Requirements		
See list below		
Minor Requirements		
A minor is required for this degree program.		18-24
The Composite Science minor consists of three laboratory science sequences. Marine Science students may satisfy a Composite Science minor by completing the major additional course requirements (i.e. BLY 121/L, BLY 122/L, CH 131/L, CH 132/L, and PH 114/L) plus either PH 115 & PH 115L or PH 202 & PH 202L. Or a student could take GY 111 & GY 111L and GY112 & GY 112L to complete the Composite Science minor or by taking GEO 101 & GEO 101L and GEO 102 & GEO 102L.		
A MINIMUM OF 120 HOURS IS REQUIRED FOR A DEGREE		120

All undergraduates must complete two designated writing credit (W) courses.

Note: PHL 231 is suggested as one of the AREA II. General Education Requirements.

Other Course Requirements:

Additional courses required for the major includes 16 credits hours of general education courses in the following list.

Code	Title	Hours
MA 125	Calculus I	4
BLY 121 & 121L	General Biology I and General Biology I Lab	4
BLY 122 & 122L	General Biology II and General Biology II Laboratory	4
CH 131 & 131L	General Chemistry I and General Chemistry I Lab	4
CH 132 & 132L	General Chemistry II and General Chemistry II Lab	4
Choose one from the following:		4-5
PH 114 & 114L	Physics with Algebra-Trig I and Alg-Trig Based Physics I Lab	
PH 201 & 201L	Calculus-Based Physics I and Calculus-Based Physics I Lab

Total Hours		121

Notes

Students with ACT Math scores 22-23 should take CH 100 and MA 112 in the first semester, and they will graduate with 128 hours; MA 125 also satisfies the math requirement. Students with ACT Math scores 21 and below should begin math courses in the summer before Fall - Year 1.

* Students who earn an English ACT score of 27 or above, SAT score of 610 or above on the verbal portion, or a new SAT Reading Test can opt out of EH 101.

** Must have one history elective and one literature elective. In addition, students must choose a second history or literature to complete a two-part sequence.

*** There may be additional prerequisites for upper level major electives. Refer to the bulletin for more information.

All Arts and Sciences majors require a minor between 18 and 24 hours. Courses used in a minor can also be used for general education requirements or major requirements (up to two courses).

Two designated writing (W) courses are required with at least one course chosen from offerings in the student's major or minor. Courses carrying

this required credit are identified in the University Bulletin by a (W) after the course title.

The Sample 4-year plan is designed as a guide for students preparing for their course selections. This information provides only a suggested schedule. Actual course selections should be made in consultation with an advisor.

Marine Sciences Minor

Degree Requirements

Undergraduate Minor in Marine Sciences

Seventy percent of the Earth's surface is occupied by oceans. This dominance means that oceans exert a major influence on atmospheric dynamics and terrestrial ecology. The societal and economic importance of healthy ocean ecosystems cannot be overstated or ignored. The School of Marine and Environmental Sciences welcomes qualified students who wish to better focus their academic training towards oceanography and marine biology. The undergraduate minor in marine sciences is designed to complement many science and non-science majors offered at USA. Ocean-related science is relevant to many contemporary environmental issues and problems and central to understanding earth-system evolution, dynamics, climate and sustainability. The minor consists of courses and research opportunities offered primarily by faculty and researchers in the Stokes School of Marine and Environmental Sciences and the Dauphin Island Sea Lab.

Requirements for a Minor in Marine Sciences include a minimum of 18 hours in Marine Sciences related classes. The student must take MAS 134 Ocean Science, MAS 134L Ocean Science Lab, MAS 331 Marine Sciences I and MAS 332 Marine Science II. In addition to these core requirements, students must take 8 credit hours of coursework at the Dauphin Island Sea Lab during the Summer Program which is equivalent to 2-3 elective courses (e.g., MAS 371, MAS 367, MAS 430, MAS 451, MAS 471, MAS 475 or other summer courses). Up to 6 hours required by a student's major may be applied toward the minor. The Marine Science minor places a strong emphasis on a rigorous natural science foundation; thus, several of the upper division courses related to the minor have prerequisites. Students planning the minor should check catalog course descriptions carefully and should meet with advising staff in the Marine Science Program office.

If a minor is required in your degree program, at least 9 (lower and/or upper-division) hours of courses in the minor must be completed at the University.

Code	Title	Hours
Required Courses		
MAS 134 & 134L	Ocean Science and Ocean Science Lab	4
MAS 331	Marine Science I	3
MAS 332	Marine Science II-W	3
Electives		
Select 2-3 courses (8 credits needed) from the following:		8
MAS 371	Shark and Ray Biology	
MAS 367	Marine Biology	
MAS 430	Marine Botany	
MAS 451	Marine Vertebrate Zoology	
MAS 471	Marine Invertebrate Zoology	

MAS 475	Marine Ecology
MAS 477	Coral Reef Biology & Ecology
MAS 478	Marine Mammal Hlth/Strd Resp
MAS 488	Field Marine Science II
Other DISL offered courses will be considered for elective	

Total Hours **18**

Course of Study

- Freshmen/Sophomore*
On Campus- MAS 134 Ocean Science (3 cr) and MAS 134L (1 cr)
- Junior/Senior Level*
On Campus - MAS 331 Advance Marine Sciences I (3 cr lecture)
On Campus - MAS 332 Advance Marine Sciences II (3 cr lecture)
Two-three MAS listed electives at the Dauphin Island Sea Lab (DISL).

Theatre and Dance

Department Information

Department of Theatre & Dance website
<https://www.southalabama.edu/colleges/artsandsci/theatre/>

The program is designed to provide students with a theoretical foundation and a practical proficiency in the arts of theatre.

The Bachelor of Arts (B.A.) allows the student to gain a better understanding of the theatre, while allowing each individual student the opportunity to start to specialize in a specific area of the art, including performance, and design/tech. Courses in this degree utilize lectures, workshops, and practical experience in all phases of the theatre.

All first-time freshmen must successfully complete CAS 100 as a degree requirement. Students must enroll during their first term at USA, except for summer-entry students who must enroll in the fall semester following entry.

Degrees, Programs, or Concentrations

- Drama (BA) (p. 402)
- Drama Minor (p. 403)
- Drama Minor with Concentration in Dance (p. 404)

Courses

DRA 100 Theatre Practicum: Performance 1 cr

Practical experience in acting. May be repeated three times for a maximum of four credit hours. Prerequisite: Permission of department chair. Fulfills the Fine Arts and Humanities requirement in general education.

DRA 101 Theatre Practicum: Tech 1 cr

Practical experience in backstage work. May be repeated three times for a maximum of four credit hours. Prerequisite: Permission of department chair. Fulfills the Fine Arts and Humanities requirement in general education.

DRA 102 Theatre Practicum: Leadership 1 cr

Practical experience in theatre areas other than acting or technical production. May be repeated three times for a maximum of four credit hours. Prerequisite: Permission of department chair. Fulfills the Fine Arts and Humanities requirement in general education.

DRA 106 Theatre Cornerstone 1 cr

An introductory course designed to familiarize incoming majors to the basics of professional theatre, the expectations for the upcoming 4-year degree, and the processes of the USA Department of Theatre and Dance.

DRA 110 Introduction to Theatre 3 cr

A basic survey of theatre practice. Fulfills the Fine Arts and Humanities requirement in general education.

DRA 121 Acting II 3 cr

A continuation of Acting I, this course emphasizes character development and analysis of classic American texts and introduces the work of Konstantin Stanislavski. Prerequisite: DRA 120 or permission of the instructor. Restrictions: Must be a drama major or minor or a dance minor. This course fulfills the Fine Arts and Humanities requirements in General Education

Prerequisite: DRA 120 Minimum Grade of D

DRA 125 Fundamentals of Acting 3 cr

An introductory class in acting for the stage, aimed at those with little or no previous experience. Students will be introduced to a basic acting vocabulary, begin to develop skills in necessary script analysis, observe acting through live and recorded performances, and gain practical experience in acting through exercise, rehearsal and performance.

DRA 135 Fund of Technical Theatre I 3 cr

A basic survey of fundamentals of scenery and lights for the theatre. This course prepares students for the Essential Skills in Entertainment Technician exams as proctored by the United States Institute of Theatre.

DRA 136 Fund of Technical Theatre II 3 cr

A basic survey of fundamentals of Costuming, Wigs/Stage Make-up and Properties for theatre. Course prepares students for the Essential Skills in Entertainment Technician exams as proctored by the United States Institute of Theatre.

DRA 150 Text Analysis 3 cr

Reading and analyzing play scripts as blueprints for dramatic actions, sights, sounds, characters, and productions. This course fulfills the Fine Arts and Humanities requirement in General Education.

DRA 220 Stage Movement 3 cr

Through exercises and scene study, student-actors explore movement for the stage.

Prerequisite: DRA 121 Minimum Grade of C

DRA 221 Voice for Actors 3 cr

A workshop-lecture course in speaking voice and articulation for performance.

Prerequisite: DRA 121 Minimum Grade of C

DRA 235 Fund of Theatrical Design 3 cr

A basic survey of theatrical design practices including the fundamental elements of line, shape, texture, composition, and color utilized for visual communication.

Prerequisite: DRA 135 Minimum Grade of C and DRA 136 Minimum Grade of C

DRA 290 Special Topics - 1-3 cr

Theatre and drama topics not covered in regular curriculum. May be repeated when subject varies for a total of 9 hours.

DRA 300 Adv Wksp Rehearsal and Perform 1 cr

Advanced practical experience in acting. May be repeated for a maximum of 4 hours. Prerequisites: Junior status and Permission of Instructor.

DRA 301 Adv Wksp Technical Production 1 cr

Advanced practical experience in backstage work. May be repeated for a total of 4 hours. Prerequisites: Junior status and permission of Instructor.

DRA 302 Adv Wksp Spec Activities 1 cr

Advanced practical experience in theatre areas other than acting or technical production. May be repeated three times for a total of four hours. Prerequisites: Junior status and permission of department chair.

DRA 310 Playwriting 3 cr

Studies in character, plot development, and the one-act play form. Prerequisite: Permission of Instructor.

DRA 321 Acting IV 3 cr

A continuation of Acting III, this course emphasizes the techniques of theatrical styles, typically "Shakespeare." Prerequisite: DRA 121 or permission of the instructor. Limited to undergraduate status.

Prerequisite: DRA 121 (may be taken concurrently) Minimum Grade of D

DRA 323 Acting II 3 cr

Course is designed to teach theory and techniques in character development and analysis, as used in Realistic theatre, through the use of scene study. Prerequisites: DRA 120 Acting I, DRA 220 Stage Movement, DRA 221 Voice of the Actor, or permission of the dept. chair.

Prerequisite: DRA 120 Minimum Grade of C or DRA 220 Minimum Grade of C or DRA 221 Minimum Grade of C

Cross-Listed: DRA 222

DRA 330 Scene Design 3 cr

The fundamentals of scene design for the stage. Prerequisite: Limited to undergraduate status.

Prerequisite: DRA 235 Minimum Grade of C

DRA 331 Lighting Design 3 cr

The course focuses on the fundamentals of lighting design for the Stage.

Prerequisite: DRA 235 Minimum Grade of C

DRA 332 Costume Design 3 cr

The fundamentals of costume design for the stage.

Prerequisite: DRA 235 Minimum Grade of C

DRA 334 Costume Design 3 cr

A class in basic design theory, concentrating on design concept, characterization and research. Some instruction in figure drawing and rendering. Artistic and Technical concerns as they apply to Costume Design will be addressed through lectures, discussions, and critiques. The course will focus on the first half of the design process: research, direction and rendering of ideas. Special concentration will focus on character analysis and their physical manifestations. In-class critiques will help the student to identify and utilize the characteristics of good design.

Cross-Listed: DRA 432

DRA 340 Directing I 3 cr

The fundamental techniques involved in directing a stage play: analysis, casting, and blocking.

Prerequisite: DRA 120 Minimum Grade of C and DRA 150 Minimum Grade of C

DRA 350 Theatre History I - W 3 cr

A comprehensive study of the important developments in theatre art from its beginnings to 1642, including a computer component.

Prerequisite: DRA 120 Minimum Grade of C and DRA 150 Minimum Grade of C and EH 102 Minimum Grade of C

DRA 351 Theatre History II - W 3 cr

A continuation of DRA 350 from the Restoration to the present.

Prerequisite: (EH 102 Minimum Grade of C or EH 105 Minimum Grade of C)

DRA 400 Theatre Internship 6 cr

Practical experience in stock, repertory, or touring theatre. Prerequisites: Junior status or permission of the department chair. May be repeated for a maximum of 6 credit hours.

DRA 410 3-Dimensional Makeup and Masks 3 cr

A class in basic face casting, theatrical masks and slush mold latex appliances for the Stage.

Prerequisite: DRA 210 Minimum Grade of C

DRA 420 Studies in Acting Styles 3 cr

Variable content course featuring acting styles found in different theatrical genres as well as for the camera. May be repeated twice for credit when topic varies.

Prerequisite: DRA 120 Minimum Grade of C and DRA 220 Minimum Grade of C and DRA 221 Minimum Grade of C

DRA 431 Lighting Design 3 cr

The fundamentals of lighting design for the stage.

Prerequisite: DRA 131 Minimum Grade of C and DRA 133 Minimum Grade of C

DRA 432 Costume Design 3 cr

The fundamentals of costume design for the stage. Prerequisite: DRA 132

Prerequisite: DRA 132 Minimum Grade of D

DRA 435 Design Practicum - Main Stage 3 cr

A class geared to giving the student practical application design theory, continued development of render/modeling skill, and actualization of design

Prerequisite: DRA 330 Minimum Grade of C or DRA 331 Minimum Grade of C or DRA 332 Minimum Grade of C

DRA 480 Senior Capstone 3 cr

A culminating experience for all theatre majors, this course will provide instruction in professional theatre business practices aimed at graduating students about to leave the university for early career opportunities, as well as afford the student the opportunity to prepare and present a major research project that builds upon and synthesizes the knowledge and skills acquired during their theatre studies. A presentation of the research project will be presented to the entire department, and adjudicated by the full-time theatre faculty.

Prerequisite: DRA 340 Minimum Grade of C

DRA 490 Special Topics 1-3 cr

Various topics of special interest to Theatre majors. Restrictions: Limited to undergraduate status. Prerequisite: Permission of department chair. May be repeated once for a maximum of six credit hours when topic varies.

DRA 494 Directed Studies - 1-3 cr

Independent study under faculty supervision, involving research readings, or artistic projects. Restrictions: Limited to undergraduate status. Prerequisites: Permission of department chair. May be repeated seven times for a maximum of eight credit hours.

DRA 496 Theatre Internship 6 cr

Practical experience in stock, repertory, or touring theatre.

Vision and Mission

Vision Statement

The vision of the College of Education and Professional Studies is to prepare exemplary professionals committed to life-long learning who are leaders in contributing to the betterment of our diverse and dynamic world.

Mission Statement

The mission of the College of Education and Professional studies is to transform our community and expand our outreach through a commitment to excellence in education and human services, advancement of innovative research, and supporting the dedicated service of our faculty, staff, students, and alumni.

Diversity, Equity, and Inclusion Statement

The College of Education and Professional Studies is committed to creating and sustaining an inclusive environment where every student's unique identity is valued and respected, and in which students feel safe to explore their intellectual, interpersonal and professional development in order to serve competently in a multicultural world.

The risk of engaging in bias is always present and requires constant vigilance. Faculty, staff and administrators of the College of Education and Professional Studies are dedicated to making an active, conscious, and intentional effort to provide educational experiences, conduct research, and provide community service in a manner which furthers our collective capacity for civil discourse, which actively combats racism, sexism and other forms of bigotry, and which reflects an appreciation for diverse values and cultures of all people.

International Education

As part of its mission, the College of Education and Professional Studies is committed to broadening students' understanding of different cultures and preparing them for the global community in which we live. We believe that an international academic experience, in which students immerse themselves in a different culture and apply what they have learned in their USA classes, can enhance their cross-cultural competence and improve their interpersonal skills. While abroad, students develop a greater understanding and a deeper appreciation of the complexity of educational, cultural, political, environmental, economic, and social issues worldwide that promote the knowledge and skills needed to interact effectively in today's global society. Students are encouraged to explore the full range of international opportunities for directed study, teaching internships, collaborative research, and service learning projects available in the College and in other programs across campus.

Interested students should contact the College's Office of Student Advising (<https://www.southalabama.edu/colleges/ceps/advising.html>) or the USA Office of International Education (<https://www.southalabama.edu/ie/>) to explore options available to students majoring in programs in the College.

Accreditation and Approvals

The College of Education and Professional Studies at the University of South Alabama is accredited by the:

Council for the Accreditation of Educator Preparation (CAEP)
 1140 19th St. NW, Suite 400
 Washington, DC 20036
 (202) 223-0077

This accreditation covers initial and advanced educator preparation programs.

Additionally, teacher and support personnel certification programs are approved by the Alabama State Board of Education.

The Clinical Mental Health Counseling and School Counseling programs at the University of South Alabama are accredited by the Council

for Accreditation of Counseling and Related Educational Programs (CACREP).

The Combined-Integrated Clinical & Counseling Psychology Ph.D. program is accredited by the American Psychological Association Commission on Accreditation.

Choice of Bulletin

If a student does not attend the College for a period of one (1) calendar year or longer, he/she will be required to fulfill the requirements of the program as specified by the Bulletin in effect during the year of his/her return as a student.

Students requesting to change their program, major, or concentration must meet the requirements as specified by the Bulletin in effect at the time of the change.

Computer Access Requirement College of Education and Professional Studies Computing Policy

In addition to the University Access Requirement the College of Education and Professional Studies requires all students who are pursuing a degree in designated programs to own or have access to a personal portable laptop computer or equivalent device and accessories that conform to the College's current minimum standards. See <https://www.southalabama.edu/colleges/ceps/resources/computerpolicy.pdf> for details.

Fingerprint/Background Check Requirement

Beginning fall term 2011 proof of a clear ALSDE background check (Suitability Letter) will be required to complete any course in a teacher education program which contains a field experience/placement in a K-12 school.

In addition, proof of clear background check may also be required prior to enrollment in any course which contains a field experience in a Non Teacher Cert program.

Undergraduate

Requirements for Admission to Candidacy in Teacher Education Programs

Student should make a written application for admission to a teacher education program during the semester preceding the completion of 60 semester hours of credit. Courses in progress during the semester the student makes the application for candidacy may be used as a part of meeting the regulations.

Admission to a program in teacher education requires:

1. The student
 - a. declare teaching specializations,
 - b. take any necessary tests
 - c. submit any needed evaluations, and
 - d. be available for necessary interviews.
2. The student's application must be submitted to the College of Education and Professional Studies Advising Center by the published deadline of the semester in which the student is eligible to be admitted.
3. Transfer students must complete twelve semester hours of work at the University of South Alabama to be eligible for candidacy consideration.
4. The student's application receives approval from the Undergraduate Candidacy Committee.

Criteria for Admission to Teacher Education Candidacy

1. Completion of 60 semester hours of course work, 48 of which must be in general studies.
2. A minimum overall grade-point average of 2.5 on all work attempted at the University of South Alabama and a minimum program grade-point average of 2.5 (including transfer work).
3. A minimum grade point average of 2.5 in professional studies (including transfer work), no grade below "C" is acceptable.
4. A minimum grade-point average of 2.5 in area(s) of teaching specialization(s) (including transfer work).
5. Completion of EH 101, EH 102, CA 110, EDM 310, EPY 351 including successful completion of the e-portfolio assessment of standards in completed courses. Secondary Education, Health Education, and Physical Education and SPE Collaborative 6-12 must also complete EDU 400.
6. Satisfactory completion of a departmental interview designed to provide information on the applicant's personality, dispositions, interests, and aptitudes consistent with the requirements for the successful teaching.
7. Proof of clear (ALSDE) background check, and professional liability insurance.
8. Sufficient physical ability and emotional stability to perform successfully as a teacher. (**Note:** These factors might be covered in the departmental interview.)
9. Recommendation of advisor and department chair.
10. Department/program may have additional candidacy requirements.

Completion of the minimum requirements does not guarantee admission to Teacher Candidacy.

Requirements for Admission to Student Teaching

Admission to student teaching requires that the applicant:

1. Submit an application for student teaching to the Office of Field Services through the advisor February 15 for fall placements and September 15 for spring placements.
2. Receive approval of the application from the Director, Office of Field Services.
3. All students must comply with the College of Education and Professional Studies Policies and Procedures, which are on file in the Office of Field Services and in the Office of the Dean.
4. A student may not enroll in any other course during the hours assigned for student teaching except by approval and for one course only.
5. Student Teaching Assignments: All student teaching placements and nontraditional fifth-year teaching field internships will be coordinated by the Office of Field Services. All student teaching placements will be made in the Greater Mobile area to facilitate the supervision of students by University of South Alabama faculty or other personnel so designated by the chair of the department in which that student is enrolled.

Criteria for Admission to Student Teaching

1. Be admitted to Teacher Candidacy and senior standing.
2. A minimum overall grade point average of 2.5 at the University of South Alabama.
3. A minimum program grade point average of 2.5 (including transfer work).
4. A minimum grade point average of 2.5 in professional studies (including transfer work). No grade below a "C" is acceptable.
5. Completion of a minimum of three-fourths of teaching specialization(s) with a minimum grade point average of 2.5 (including transfer work).
6. Completion of all program prerequisite courses.
7. Continued satisfactory progress in meeting requirements for admission to the program of teacher education.
8. Recommended for Student Teaching by assigned faculty advisor.
9. Satisfactory score on the required Praxis II test(s).
10. Completion of any departmental prerequisites.
11. Proof of clear (SDE suitability letter) background check and professional liability insurance.
12. Completion of field experience requirement, hours vary with program.
13. Department/program may have additional admission requirements.

See departmental section of the bulletin.

Graduate

Admission/Readmission

Each applicant to a graduate program must hold a bachelor's degree from a regionally accredited institution of higher education documented on an official transcript and meet the admission requirements of the Graduate School (<http://www.southalabama.edu/colleges/graduateschool/>), The College of Education and Professional Studies (<http://www.southalabama.edu/colleges/ceps/index.html>) (<http://www.southalabama.edu/colleges/ceps/>), and the specific program that the student is seeking admission. Individual programs may have additional requirements for admission and may be restricted because of capacity limitations in addition to the Graduate School and College of Education and Professional Studies requirements.

Individuals interested in applying for admission to a specific program should consult the department program website for program GPA and any other or more specific requirements. Satisfying minimal standards, however, does not guarantee admission. Some programs have additional GPA minimum requirements above the college GPA requirement.

Sufficient courses in the major subject are required to qualify for graduate study in the involved discipline. A student who has a deficiency in courses in the discipline but who otherwise qualifies for admission will be required to complete appropriate prerequisite course work.

The different programs in the College have different requirements as to whether standardized testing is required. Consult specific requirements on the department program website to determine which test results if any are required for admission.

Readmission to some programs in the College of Education and Professional Studies require review and approval by program faculty. A student wishing to change from one graduate program to another must apply to the new program through the Office of Admissions.

Admission Requirements

1. GPA Requirement: A minimum overall grade-point-average (GPA) of 2.5 on a 4.0 scale based on the GPA used as the basis for granting the degree and posted on the official transcript from a regionally accredited institution at the time the degree was earned OR a 2.5 GPA on the last 60 semester hours of undergraduate course work posted on the official transcript from a regionally accredited institution at the time the degree was earned. For specific program GPA admission requirements, consult the department program website.
GPA Exception: Individuals who have earned a bachelor's degree from a regionally accredited institution at the time the degree was earned and who do not have a qualifying GPA for admission may seek admission based on a qualifying score of the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT). For the GRE, this standard is defined as having a score at the 50th percentile on all of the following subtests: Verbal Reasoning, Quantitative Reasoning, and Analytical Writing. For the Miller Analogies Test, students must have a score at or above the 50th percentile based on the total group percentile rank score. For Alternative Class A programs, applicants must submit a qualifying alternate score on the Alabama-prescribed Praxis subject-area test.
2. Personal statement on purpose for graduate study and applicant's career goals.
3. Sufficient coursework in the major subject to qualify for graduate study in the involved discipline. Students with a deficiency in required coursework may be required to successfully complete additional prerequisite courses.
4. For those students who have had previous graduate work, performance at the graduate level may be taken into consideration as well as undergraduate performance. An earned advanced degree may substitute for some admission requirements.

Non-Degree Admission

See Non-Degree Admission requirements in Graduate School section of the Bulletin.

Undergraduate Programs

The College of Education and Professional Studies, working in cooperation with the Administrative staff and with other colleges of the University, recognizes and accepts the responsibility for identifying,

recruiting, and preparing students who will be capable of providing education in a dynamic society. The College accepts the further responsibility of ensuring that every student preparing to teach will have the advantage of continuous counseling. Planned observation and participation are regular parts of the student's program throughout the preparation period.

The College of Education and Professional Studies has five major objectives: to prepare professional educators for meeting the educational needs of children, youth, and adults; to prepare support personnel for meeting the educational needs of the schools; to assist schools with the improvement of instructional programs; to prepare students in professional areas other than teaching; and to conduct research to expand, enhance, and evaluate instructional programs and personnel.

Undergraduate preparation is offered in elementary education, secondary education, special education, health and physical education, health promotion, exercise science, sport and recreation management, recreational therapy, hospitality and tourism management, interdisciplinary studies, and organizational leadership.

Student Portfolio Assessment

The College of Education and Professional Studies uses student portfolio assessment as a part of program requirements and assessment of student learning outcomes.

Students majoring in the College of Education and Professional Studies are required to purchase the License to use the portfolio beginning with the first College of Education and Professional Studies course containing teacher education standards taken and will continue to use the software throughout their program of study.

The Teacher Education Program

The Teacher Education Program begins with selective recruitment, gives careful attention to each phase of the preparation program, and assists in the proper placement and adjustment of teachers and other educational personnel. Follow-up studies of graduates are made in an effort to assist them, to gain knowledge of their effectiveness on the job, and to secure data vital to future planning and development. Programs for the preparation of teachers are built on a liberal arts foundation. Those preparing for teaching positions in the secondary schools pursue a composite teaching specialization in the College of Education and Professional Studies, and a content area in the College of Arts and Sciences. Those preparing to teach in elementary school concentrate on subject matter relevant to the elementary school curriculum while completing general requirements in the liberal arts. Those preparing for a teaching specialization which extends from nursery through twelfth grade pursue a broad program appropriate to elementary and secondary schools. All groups complete their undergraduate programs with suitable professional preparation.

Course Fees

All undergraduate three semester hour courses in the CEPS, except the PE activity courses, internships and practicum, require a computer lab course fee. Internships require an internship fee, and some PE activity courses require special fees as noted in other sections of this Bulletin.

Minimum Professional Studies Requirements

Because professional studies requirements vary from program to program, the student is referred to the appropriate departmental section in this Bulletin. However, a candidate may not enroll in more than five professional studies courses before the candidate has met all criteria for

unconditional admission to a teacher education program. The candidate may repeat any of the five courses in which he or she received a grade of "C" or below. A student who changes from non-teacher certification to a teacher certification program must comply with this standard. A student who violates this standard is in jeopardy of losing academic credit.

Requirements For Admission To Candidacy In Teacher Education Programs

The student should make a written application for admission to a teacher education program during the semester preceding the completion of 60 semester hours of credit. Courses in progress during the semester the student makes the application for candidacy may be used in meeting the requirements.

Admission to a program in teacher education requires:

1. The student
 - a. declare teaching specialization(s),
 - b. take any necessary tests,
 - c. submit any needed evaluations, and
 - d. be available for necessary interviews.
2. The student's application must be submitted to the College of Education and Professional Studies Advising Center by the published deadline of the semester in which the student is eligible to be admitted.
3. Transfer students must complete twelve semester hours of work at the University of South Alabama to be eligible for candidacy consideration.
4. The student's application receives approval from the Undergraduate Candidacy Committee.

Criteria For Admission To Teacher Education Candidacy

1. Completion of 60 semester hours of course work, 48 of which must be in general studies.
2. A minimum overall grade-point average of 2.5 on all work attempted at the University of South Alabama and a minimum program grade-point average of 2.5 (including transfer work).
3. A minimum grade point average of 2.5 in professional studies (including transfer work), no grade below "C" is acceptable.
4. A minimum grade-point average of 2.5 in area(s) of teaching specialization(s) (including transfer work).
5. Completion of EH 101, 102, CA 110, EDM 310, EPY 351 including successful completion of the e-portfolio assessment of standards in completed courses. Secondary Education, Health Education, and Physical Education and SPE Collaborative 6-12 must also complete EDU 400.
6. Satisfactory completion of a departmental interview designed to provide information on the applicant's personality, dispositions, interests, and aptitudes consistent with the requirements for the successful teaching.
7. Proof of clear (ALSDE) background check, and professional liability insurance.
8. Sufficient physical ability and emotional stability to perform successfully as a teacher. (NOTE: These factors might be covered in the departmental interview.)
9. Recommendation of advisor and department chair.
10. Department/program may have additional candidacy requirements.

Completion of the minimum requirements does not guarantee admission to Teacher Candidacy.

Requirements For Admission To Student Teaching

Admission to student teaching requires that the applicant:

1. Submit an application for student teaching to the Office of Field Services by February 15 for fall placements and September 15 for spring placements.
2. Receive approval of the application from the Director, Office of Field Services.
3. All students must comply with the College of Education and Professional Studies Policies and Procedures, which are on file in the Office of Field Services.
4. A student may not enroll in any other course during the hours assigned for student teaching except by approval and for one course only.
5. Student Teaching Assignments: All student teaching placements will be coordinated by the Office of Field Services. All student teaching placements will be made in the Greater Mobile area to facilitate the supervision of students by University of South Alabama faculty or other personnel so designated by the chair of the department in which that student is enrolled.

Criteria For Admission To Student Teaching

1. Be admitted to Teacher Candidacy and senior standing.
2. A minimum overall grade point average of 2.5 at the University of South Alabama.
3. A minimum program grade point average of 2.5 (including transfer work).
4. A minimum grade point average of 2.5 in professional studies (including transfer work). No grade below a "C" is acceptable.
5. Completion of a minimum of three-fourths of teaching specialization(s) with a minimum grade point average of 2.5 (including transfer work).
6. Completion of all program prerequisite courses.
7. Continued satisfactory progress in meeting requirements for admission to the program of teacher education.
8. Recommended for Student Teaching by assigned faculty advisor.
9. Satisfactory score on the required Praxis II test(s).
10. Completion of any departmental prerequisites.
11. Proof of clear (SDE suitability letter) background check and professional liability insurance.
12. Completion of field experience requirement, hours vary with program.
13. Department/program may have additional admission requirements. See departmental section of the bulletin.

Retention

To remain in the teacher education program, each student shall make satisfactory progress as determined by continuous evaluation. A student shall be removed from candidacy when any of the minimum required program GPA's drop below 2.5, or, the USA transcript GPA drops below 2.5 or if a D or F or U grade is received in a candidacy course. Violations of the Alabama Educators Code of Ethics is grounds for dismissal from the program or delay in advancing through the program. Failure to receive or maintain a clear background check is grounds for dismissal from the program.

Minimum Completion Requirements for Certification Programs

Successful completion of the following minimum requirements may qualify the student for Class B Certification. Currently in Alabama this certificate is valid for five years.

1. Satisfactory completion of a program approved by the State Board of Education with a minimum overall grade-point average of 2.5 on all work attempted at the University of South Alabama and a minimum program grade-point average of 2.5 (including transfer work), a minimum grade point average of 2.5 in professional teacher education with no grade below "C" (including transfer work), and a minimum grade-point average of 2.5 in area(s) of teaching specialization(s) (including transfer work).
2. Demonstrated readiness to teach through on-the-job performance as a student teacher as determined by an evaluation plan approved by the State Board of Education.
3. Satisfactory completion of the student teaching experience.
4. A minimum of 25 percent of the credit hours required for the degree from the last 45 semester hours and a minimum of 32 semester hours of upper level course work in the major discipline must be earned in residence at The University of South Alabama.
5. A community college graduate can transfer no more than 50% of the credits used toward the degree with a maximum of 64 semester hours toward the Bachelor of Science degree requirements.
6. Satisfactory performance on the specified Standards as determined by the e-portfolio assessment.
7. Satisfactory performance on all requirements of the Alabama Educator Certification Assessment Program (AECAP).
 - a. Praxis test(s)
 - b. Effective September 1, 2018, a performance assessment (edTPA) administered by Pearson will be required for initial certification in a teaching field or area of instructional support.
8. An official transcript from a regionally accredited institution documenting an earned bachelor's degree.
9. Course work used to meet certification requirements (B, A, AA) may not be used to meet a different level requirement.
10. Secondary Education programs require an academic major in Arts & Sciences.
11. Remedial or developmental studies courses may not be used to meet program requirements.

Recommendation for Certification

The Dean of the College of Education and Professional Studies is responsible for recommending qualified University of South Alabama students seeking teacher certification. Only those students who have completed requirements of the University and of the Alabama State Department of Education will be recommended for Class B Professional Teaching Certificate. The State Department of Education and Teacher Certification do not recognize minors in teacher education programs.

A candidate cannot be recommended for certification based on completion of a program for which State approval expired more than seven years prior to the date of program completion.

Warranty Statement

Consistent with the policies of the Alabama State Department of Education, the College of Education and Professional Studies at the

University of South Alabama warrants its graduates (State Approved Program Competencies) under the following conditions:

Warranties will be provided to USA graduates who receive their initial professional certification through the college and are employed by a public school district in Alabama in their area of specialization. The College of Education and Professional Studies shall provide assistance at no cost to such individuals who were recommended for certification by the College of Education and Professional Studies and are deemed to be unsatisfactory based on performance evaluations established/approved by the Alabama State Board of Education and recommended by the Local Education Agency within two years after program completion.

Transfer Credit From Non-Accredited Institutions

No degree credit will be accepted by the College of Education and Professional Studies from any collegiate institution unless that institution has regional accreditation and prepares teachers on the same degree level of certification. Course work from institutions in foreign countries require an official (WES or IEE) evaluation to determine if the course may be used for programs leading to Teacher Certification.

Persons With Degrees Other Than in Education

Persons holding degrees other than in Education may apply for study in an approved program leading to professional certification; they will be required to complete their approved programs outlined in this Bulletin to qualify for Alabama certification.

Worksheets Available for All Programs

Course of Study sheets are available on-line at <https://www.southalabama.edu/colleges/ceps/programs.html>. Each student will have access to his/her degree audit via PAWS.

Approvals and Services

Upon satisfactory completion of an approved program of study and upon recommendation of the Dean and Certification Officer of the College of Education and Professional Studies, a professional certificate will be issued by the appropriate State Department of Education only if the student is eligible and applies. Presently, many State Departments of Education have reciprocal agreements for issuing certificates to graduates of NCATE-accredited institutions.

Certification in More Than One Teaching Field

Students enrolled in the College of Education and Professional Studies desiring to complete certification requirements in more than one teaching field will complete the curriculum in each field including general studies, professional studies in teacher education (including the internship), and teaching specialization. Courses used for one level of certification may not be used again for a higher level certificate.

Graduation Grade Point Average

A minimum grade-point average of 2.2 in the major/specialization (including transfer work) and a grade-point average of 2.2 on all work undertaken in residence at the University of South Alabama are required for the Bachelor of Science degree in CEPS majors other than teacher certification, Hospitality and Tourism Management, and Interdisciplinary Studies. Students seeking teacher certification must have a minimum overall grade-point average of 2.5 on all work attempted at the University of South Alabama and a minimum program grade-point average of 2.5 (including transfer work), a minimum grade-point average of 2.5 in professional teacher education with no grade below "C" (including

transfer work), and a minimum grade-point average of 2.5 in area(s) of teaching specialization(s) (including transfer work).

Directed/Independent Studies

No more than two (2) Directed/Independent Study courses may be used for degree and/or certification requirements, including use in improving the grade-point average. For students with a minor, no more than 12 hours can count toward major or professional studies.

Graduate Programs

The Master of Education degree in Educational Administration with an emphasis in higher education leadership. The Master of Education degree leading to Alabama Class A Certification in Art Education, Early Childhood Education, Elementary Education, English for Speakers of Other Languages, Health Education, Instructional Leadership, Library Media, Physical Education, Reading Specialist, School Counseling, Secondary Education, Special Education, and Visual Arts. Both thesis and non-thesis degree options are available to the graduate student.

The Alternative Master of Education degree leading to the Alabama Class A Certificate, or equivalent, to persons who have earned a non-education baccalaureate degree from an accredited institution of higher education: Early Childhood Education, Elementary Education, English for Speakers of Other Languages, Foreign Languages, Secondary Education, Special Education and Visual Arts.

The Master of Science degree in Clinical Mental Health Counseling, Educational Media and Technology, Exercise Science, Health Promotion, Instructional Design and Development, and Sport Management. Both thesis and non-thesis degree options are available to the graduate student.

The Educational Specialist degree leading to AA Certification, in Alabama, in the following areas: Early Childhood Education, Elementary education, Instructional Leadership, Reading Specialist, Secondary Education, Special Education and Teacher Leader.

The Doctor of Philosophy degree in Instructional Design and Development. The Doctor of Philosophy degree in Exercise Science and Performance Nutrition. The Doctor of Education degree in Educational Leadership. The doctoral program in Educational Leadership offers two tracks—one with a focus in P-12 education and the other with a focus in higher education.

The combined-integrated Doctor of Philosophy Degree in Clinical and Counseling Psychology offered jointly with the Department of Psychology in the College of Arts and Sciences.

Admission/Readmission

Each applicant to a graduate program must hold a bachelor's degree from a regionally accredited institution of higher education documented on an official transcript and meet the admission requirements of the Graduate School (<http://www.southalabama.edu/colleges/graduateschool/>), The College of Education and Professional Studies (<http://www.southalabama.edu/colleges/ceps/index.html>) (<http://www.southalabama.edu/colleges/ceps/>)), and the specific program that the student is seeking admission. Individual programs may have additional requirements for admission and may be restricted because of capacity limitations in addition to the Graduate School and College of Education and Professional Studies requirements.

Individuals interested in applying for admission to a specific program should consult the department program website for program GPA and

any other or more specific requirements. Satisfying minimal standards, however, does not guarantee admission. Some programs have additional GPA minimum requirements above the college GPA requirement.

Sufficient courses in the major subject are required to qualify for graduate study in the involved discipline. A student who has a deficiency in courses in the discipline but who otherwise qualifies for admission will be required to complete appropriate prerequisite course work.

The different programs in the College have different requirements as to whether standardized testing is required. Consult specific requirements on the department program website to determine which test results if any are required for admission.

Readmission to some programs in the College of Education and Professional Studies requires review and approval by program faculty. A student wishing to change from one graduate program to another must apply to the new program through the Office of Admissions.

Admission Requirements

1. GPA Requirement: A minimum overall grade-point-average (GPA) of 2.5 on a 4.0 scale based on the GPA used as the basis for granting the degree and posted on the official transcript from a regionally accredited institution at the time the degree was earned OR a 2.5 GPA on the last 60 semester hours of undergraduate course work posted on the official transcript from a regionally accredited institution at the time the degree was earned. For specific program GPA admission requirements, consult the department program website.

GPA Exception: Individuals who have earned a bachelor's degree from a regionally accredited institution at the time the degree was earned and who do not have a qualifying GPA for admission may seek admission based on a qualifying score of the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT). For the GRE, this standard is defined as having a score at the 50th percentile on all of the following subtests: Verbal Reasoning, Quantitative Reasoning, and Analytical Writing. For the Miller Analogies Test, students must have a score at or above the 50th percentile based on the total group percentile rank score. For Alternative Class A programs, applicants must submit a qualifying alternate score on the Alabama-prescribed Praxis subject-area test.

2. Personal statement on purpose for graduate study and applicant's career goals.
3. Sufficient coursework in the major subject to qualify for graduate study in the involved discipline. Students with a deficiency in required coursework may be required to successfully complete additional prerequisite courses.
4. For those students who have had previous graduate work, performance at the graduate level may be taken into consideration as well as undergraduate performance. An earned advanced degree may substitute for some admission requirements.

Non-Degree Admission

See Non-Degree Admission requirements in the Graduate School section of the Bulletin.

Completion Time

All requirements for a master's degree or educational specialist degree must be completed within seven calendar years from admission as a graduate student at the University of South Alabama. Course work completed more than seven years prior to the date for graduation in a

master's degree or educational specialist degree may not be counted for degree credit. All requirements for a doctoral degree must be completed within ten calendar years from admission to a doctoral program at the University of South Alabama. Under extraordinary circumstances, an appeal for a time extension may be made to the Director of Graduate Studies in the College of Education and Professional Studies.

Examinations

Students are responsible to apply for the Graduate Comprehensive Examination. This should be done prior to the end of the first week of class in the semester the student intends to sit for the examination. Two types of examinations are available. See departmental programs for specific information.

Type I Comprehensive Examination – Written or Oral

This examination is written or oral, or both, at the option of the faculty of the student's major department, and is in the candidate's Program of Study. The examination is conducted by a committee of at least three members appointed by the chair of the department in which the student has majored. This examination shall not exceed three hours. Comprehensive examinations are scheduled once each semester. The student is responsible for ascertaining the date and time of the examination. The student must be in good standing, i.e. not on academic probation in order to take the exam.

The comprehensive examination is taken during the semester in which students complete their degree requirements or a subsequent semester. The examination is given at least two weeks before the end of the semester.

Application for the comprehensive examination can be obtained from <https://www.southalabama.edu/colleges/ceps/gradschool/resources/compsapp.pdf>. Submission deadlines for the application are available at <https://www.southalabama.edu/colleges/ceps/gradschool/comps.html>. The result of this examination is reported to the Director of Graduate Studies College of Education and Professional Studies by the Chairperson of the department.

Comprehensive examinations may be repeated at the discretion of the graduate student's department. A student will be dismissed from the program after two unsuccessful attempts to pass the examination. Specific recommendations for additional work, following failure of the comprehensive examination, will be at the discretion of the department involved.

Type II Comprehensive Examination Performance

This examination requires a performance either as part of a culminating seminar, internship, field study, or practicum review. Successful completion of this examination is determined by the faculty of the department of the student's major.

The result of this examination is reported to the Director of Graduate Studies, College of Education and Professional Studies, by the Chair of the Department. The student should consult with an advisor for entering this phase of graduate work.

If a thesis is submitted, an oral examination on the thesis is required. The examination is conducted by the candidate's Thesis Committee. Approval by a majority of the examination committee is required.

Course Fees

All graduate three semester hour courses in the CEPS, except internships, practicum and pre-practicum experiences have a computer course lab fee.

Graduate Assistantships

Masters level assistantships are awarded on an annual basis and are granted for the fall and spring semesters. The stipend for the two semesters is \$6,000 and waiver of up to 10 hours of tuition. Fees are paid by the student. In return, twenty clock hours of work are required per week. Awards are made generally in the summer for the next academic year.

Doctoral level assistantships are awarded on an annual basis and are granted for the fall, spring, and summer semesters. The stipend for the three semesters is \$11,000 and waiver of up to 10 hours of tuition. Fees are paid by the student. In return, twenty clock hours of work are required per week. The awards are made generally during the summer for the next academic year.

Teacher Certification Policies

For All Graduate Programs Leading to Alabama Class A or AA Certification

1. Prior-Level Credit: Credits used for prior-level certification or degree in any teaching field or area of instructional support may not be used to meet subsequent-level certification requirements.
2. Special Education/Diversity Requirement: A survey of special education course is required unless that course was taken for prior-level certification. If taken for prior-level certification, then an ALSDE-approved diversity course is required for each subsequent level of certification.
3. Transfer Courses from Previous Degrees: Students with a previous master's or specialist degree, seeking Class A or AA certification without obtaining a second master's and second specialist degree, and wish to apply this credit, must obtain approval from the CEPS Office of Graduate Studies. Courses approved in this manner may be applied to certification requirements, but will not be applied toward earning a second master's or second specialist degree.
4. Degree for Certification: If seeking Class A certification, then a transcript from a regionally accredited institution documenting an earned master's degree is required. If seeking Class AA certification, then a transcript from a regionally accredited institution documenting an earned education specialist degree is required.
5. Validity of Certificate: The certification used as the basis for admission must be valid at the time of admission and at the time of graduation for certification recommendation. If unconditionally admitted based on a valid certificate from another state, the individual must hold an appropriate and valid certificate in Alabama before applying for Class A or Class AA certification.
6. Unconditional Admission: Admission to the graduate school is not equivalent to unconditional admission to an approved program. Admission requirements listed for educator preparation programs are for unconditional admission and must be met to begin the program. In addition to program specific admission requirements, all programs require a criminal history background check with a suitable status in the ALSDE Certification Search.
7. A candidate cannot be recommended for certification based on completion of a program for which State approval expired more than seven years prior to the date of program completion.

For Graduate Programs Leading to Alabama Class A Certification

1. Certification/Graduation Requirements: For students unconditionally admitted July 1, 2017, and thereafter, to Class A programs, a minimum GPA of 3.25 is required in coursework used to meet the requirements for the ALSDE-approved program.
2. Level of Course Enrollment: Students may not enroll in courses unique to Ed.S. programs that lead to Class AA certification while enrolled in Class A programs.

Master of Education, Traditional Class A Certification in a Teaching Field

1. Admission Requirements: A valid bachelor's-level professional educator certificate in the same teaching field(s) in which the Class A Professional Educator Certificate is sought, with the exception of special education, English for speakers of other languages (ESOL), and reading specialist. Unconditional admission to a Class A special education program or a Class A ESOL program requires at least a valid bachelor's-level certificate in any teaching field. Unconditional admission to a Class A reading specialist program requires two full years of full-time classroom teaching experience.
2. Certification/Graduation Requirements: A qualifying score on the prescribed Praxis subject assessment(s) for initial Class A certification in a teaching field.

Master of Education, Alternative Class A Certification in a Teaching Field

1. Admission Requirements:
 - a. A criminal history background check.
 - b. A bachelor's degree from a regionally accredited institution with a minimum overall GPA of 2.5 or a master's or higher degree with a GPA of at least 3.0. This GPA must be documented on the official transcript of the degree granting institution and must be the GPA that was used as the basis for granting the degree, not a GPA that includes post-degree courses. If admitted on master's or higher degree GPA, courses from that degree cannot be used to meet certification requirements.
 - c. Appropriate coursework in the teaching field or a passing score on the prescribed Praxis subject assessment.
GPA Exception for unconditional admission to Alternative Class A State Department of Education-approved programs: Individuals who have earned a bachelor's degree from a regionally accredited institution at the time the degree was earned and do not meet the minimum overall undergraduate GPA of 2.5, but have at least a 2.0 overall undergraduate GPA, may seek provisional admission to an Alternative Class A program if the alternate score on the Alabama prescribed Praxis subject-area test is obtained. The alternate scores can be found on the Alternate Score Requirements document at www.alsde.edu (<http://www.alsde.edu>) (Department Offices: Educator Assessment: Educator Assessment Policies). The **only** tests and scores accepted are those listed on the Alternate Score Requirements document. All other requirements for admission must also be met.
2. Certification/Graduation Requirements:
 - a. A qualifying score on the prescribed Praxis subject assessment(s).

- b. A passing score on the appropriate Educative Teacher Performance Assessment (edTPA) handbook administered by Pearson.

Master of Education, Class A Certification in Areas of Instructional Support

1. Admission Requirements:
 - a. A valid bachelor's-level or valid master's-level professional educator certificate in a teaching field or a valid master's-level certificate in another area of instructional support.
 - b. A minimum of two full years of full-time, acceptable P-12 professional educational work experience documented on the Supplement EXP form. The School Counseling program at USA is CACREP accredited, leads to Class A certification, and does not require existing certification or work experience for admission.
2. Certification/Graduation Requirements:
 - a. A qualifying score on the prescribed Praxis assessment.

Master of Education, Class A Certification in Instructional Leadership

1. Admission Requirements:
 - a. A valid bachelor's-level or valid master's-level ALABAMA professional educator certificate in a teaching field or a valid master's-level certificate in another area of instructional support.
 - b. A minimum of three full years of full-time, acceptable professional educational experience in a P-12 setting, which must include at least one full year of full-time P-12 classroom teaching experience documented on the Supplement EXP form.
 - c. Three letters of recommendation to include the applicant's principal or supervisor.
 - d. Completed copy (all forms) of the most recent performance appraisal to include the professional development component, if available.
 - e. Evidence of ability to improve student achievement.
 - f. Evidence of leadership and management potential, including evidence of most recent accomplishments in the area of educational leadership.
 - g. Summary of candidate's reasons for pursuing instructional leadership certification.
 - h. Summary of what the candidate expects from the preparation program.
 - i. Pass an interview conducted by a program admission committee that includes both P-12 instructional leaders and higher education faculty.
2. Certification/Graduation Requirements:
 - a. A qualifying score on the prescribed Praxis assessment.

For Graduate Programs Leading to Alabama Class AA Certification

1. Certification/Graduation Requirements: For students unconditionally admitted July 1, 2017, and thereafter, to Class AA programs, a minimum GPA of 3.5 is required in coursework used to meet the requirements for the ALSDE-approved program.

Educational Specialist, Class AA Certification in a Teaching Field

1. Admission Requirements: A valid master's-level professional educator certificate in the same teaching field(s) in which the Class AA Professional Educator Certificate is sought with the exception of

Special Education (Class A in any teaching field), Early Childhood (if Class B in Early Childhood and Class A in Reading), Elementary Education (if Class B in Elementary and Class A in Reading), English Language Arts (if Class B in English and Class A in Reading), and any teaching field for which Class B is valid if Class A in ESOL.

2. Teacher Leader Admission Requirements:
 - a. A valid master's level professional educator certificate in any teaching field or area of instructional support.
 - b. A minimum of three full years of full-time teaching experience in a P-12 setting documented on the Supplement EXP form.
 - c. Three letters of recommendation.
 - d. Evidence of ability to positively affect student achievement.
 - e. Evidence of collaborative leadership potential.

Educational Specialist, Class AA Certification in Areas of Instructional Support

1. Admission Requirements: A valid master's-level professional educator certificate in the instructional support field in which the Class AA Professional Educator Certificate is sought with the exception of Teacher Leader.

Educational Specialist, Class AA Certification in Instructional Leadership

1. Admission Requirements:
 - a. A valid Class A Professional Educator Certificate in Instructional Leadership or a valid Class A Professional Leadership Certificate.
 - b. If certificate is not Instructional Leadership, then applicant must submit same admission documents as required for Class A Instructional Leadership and meet one of the following criteria on Supplement EXP form:
 - i. Currently serving as a superintendent, assistant or associate superintendent, assistant to the superintendent, principal, assistant principal, supervisor (any subject and/or grade level), administrator of career and technical education, coordinator, or evaluator.
 - ii. Document three years of employment in an instructional leadership position.

Assistant Professors	Ding, Gaston, Kim, McCarty, Moore, Upton, Zha

Department of Counseling and Instructional Sciences

The Department of Counseling and Instructional Sciences offers the Master of Education degree in Educational Media (leading to certification

in Library Media), and in School Counseling leading to certification as a school counselor, and the Master of Science degree in Educational Media & Technology, Clinical Mental Health Counseling, and Instructional Design. The department also offers the Doctor of Philosophy degree in Instructional Design and Development. The department collaborates with the Department of Psychology in the College of Arts and Sciences to deliver the Ph.D. degree in Combined-Integrated Clinical & Counseling Psychology. Finally, the department offers the B.S. degree and minor in Instructional Design & Performance Improvement.

Interdepartmental Education

Faculty within the department offer foundational coursework in Education Technology, Educational Psychology, Educational Foundations, and Educational Research. These courses are offered for students in the undergraduate and graduate programs throughout the college and are designed to broaden and strengthen degree-area preparation.

Degrees, Programs, or Concentrations

- Clinical Mental Health Counseling (MS) (p. 423)
- Clinical Mental Health Counseling Graduate Certificate (p. 424)
- Educational Media (M.Ed.) - Library Media (p. 424)
- Educational Media and Technology (MS) (p. 425)
- Educational Media and Technology Graduate Certificate (p. 426)
- Human Performance Improvement Graduate Certificate (p. 426)
- Instructional Design and Development (MS) (p. 426)
- Instructional Design and Development (Ph.D.) (p. 427)
- Instructional Design and Development Graduate Certificate (p. 429)
- School Counseling (M.Ed.) (p. 430)

Courses

Counselor Education (CED)

CED 560 Diagnosis/Treatment Planning 3 cr

The Diagnostic and Statistical Manual of Mental Disorders (DSM) is used to develop a basic understanding of mental disorders. Students learn to utilize the DSM classification system to identify counseling techniques and develop counseling plans.

CED 561 Marriage and Family Counseling 3 cr

The theories, principles, and techniques of counseling couples and families are examined. Other topics include ethical and multicultural issues, assessment, and current research in marriage and family counseling.

CED 562 Addictions Counseling 3 cr

This course provides an overview of research and theory in regards to the etiology, assessment, diagnosis and treatment of addictive disorders, e.g. alcoholism, drug addiction, gambling, etc. The course will review theoretical and evidence-based models of counseling for addictive disorders as well as considerations for treating addictive disorders among various special populations and with culturally diverse clients.

CED 563 Divorce Mediation 3 cr

This course will introduce students to the techniques of divorce mediation. Legal, ethical and psychological issues in the divorce mediation process will be examined with special emphasis on the neutral role of the mediator explored.

CED 564 Gerontological Counseling 3 cr

Emphasis is on a basic knowledge of the theories, principles and techniques of counseling elderly individuals, couples and their families. Includes such topics as assessment, ethical and cultural issues, model programs, and current research in gerontological counseling.

CED 565 Found of Prof School Couns 3 cr

Provides an overview of the history, philosophical foundations, and professional duty of professional school counseling. Review of historical and contextual forces that shaped the evolution of professional school counselors' roles and functions within schools. Special emphasis will be placed on current trends and best practices as identified by ASCA and current literature.

CED 566 Multicultural Counseling 3 cr

Includes a study of historical and current theories and issues in multicultural counseling, provides an understanding of societal trends and changes, and demonstrates strategies/techniques for cross-cultural counseling techniques through class exercises, case studies, and demonstrations. Reflective experiences are used to allow for the development of cultural self-knowledge.

CED 567 Couples Counseling 3 cr

This course will provide an overview of various theoretical approaches and related research findings for couples counseling. The course will also provide an overview of current theory and research in human sexuality, including sexual development, sexual well-being/wellness, sexual orientation and sexual dysfunction and disorders. The course will apply particular focus to sexuality issues as they are an aspect of individual and couples counseling work.

CED 568 Comm Mental Health Counseling 3 cr

This course examines community mental health counseling and includes a survey of its organizational, fiscal, and legal dimensions; of community needs assessment, program delivery, advocacy, funding, and intervention; of the principles of consultation, education and outreach; of client and community characteristics; and of the various practice settings and roles.

CED 569 Child Counseling 3 cr

This course provides an overview of current theoretical perspective and evidence-based intervention paradigms regarding psychological, behavioral, cultural and social context/environmental problems commonly occurring during childhood and adolescence. A focus will be upon knowledge of basic counseling skills for use with children and adolescents as well as learning to conceptualize childhood problems at various levels of social ecology: individual, cultural, academic, familial, community and societal.

CED 571 Foundations of CMHC 3 cr

This course is an introduction to the historical and philosophical foundation of Clinical Mental Health Counseling as well as overview of contemporary clinical practice issues within this counseling specialty.

CED 572 Princ and Theories of Couns 3 cr

Includes a study of various theories, principles, and techniques in counseling. Opportunity is provided for the implementation of counseling techniques through the study of case studies and transcripts.

CED 573 Ed Occup Info Sys - Mats - Res 3 cr

The study of educational, vocational, psychological, and individual resources needed to make employment decisions. Emphasis is on the collection and evaluation of information, procedures and strategies for researching employment opportunities, and the management of information services.

CED 574 Group Couns Theory and Process 3 cr

Includes both the theory and practice of group counseling, counseling with clients of diverse backgrounds, and selecting group work suitable to multicultural needs. Emphasis is on the developmental level and background of clients with which the counselor expects to work.

CED 575 Intro to Community Rehab 3 cr

Introduces the student to a broad field of community rehabilitation. Included is the history, philosophy, present activities and future trends in rehabilitation. A multidisciplinary approach to the study of the "whole person" is emphasized and direct contact with community social service agencies is an integral part of the course.

CED 576 Supv Practicum in Couns 3 cr

This course requires the student to demonstrate the appropriate use of a variety of counseling skills and techniques. Audio and video tapes of individual counseling sessions are critiqued in class by the instructor. Requires special permission of the instructor.

Prerequisite: (CED 571 Minimum Grade of B or CED 565 Minimum Grade of B) and CED 586 Minimum Grade of B and CED 572 Minimum Grade of B and CED 574 Minimum Grade of B and CED 566 Minimum Grade of B and CED 584 Minimum Grade of B

CED 578 Supv Pract-Group Counseling 3 cr

Supervised practice is provided in group counseling and other group work experience appropriate for a counselor. Practicum experience is offered in the setting in which the student plans to work.

CED 579 Soc and Psych Asp of Disabil 3 cr

The theory, research, and practices in related disciplines which contribute to an understanding of human disability. Field work and case study serve as integrating activities.

CED 580 Student Personnel Services 3 cr

Included is a survey of historical developments and current practices in student personnel services in post-high school educational institutions. The organization, administration, and functions of the various services are stressed.

CED 581 Rehab Case Management 3 cr

This course provides for critical analysis of representative rehabilitation case studies. Case records are used as a basis for developing an understanding of the clients with handicaps and their problems, the rehabilitation case work process, diagnosis, eligibility requirements, and the provision of services.

CED 582 Data-Driven School Counseling 3 cr

Provides an overview of how school counselors can access, interpret, and use achievement data, demographic data, school process data, and perception data to inform school counseling programmatic decisions. Assessment of systemic data, using data to guide program development, formative and summative evaluation methods, and strategies for dissemination of data are reviewed.

CED 583 Indiv and Group Testing Lab 3 cr

Supervised experience in the selection, administration, and scoring of educational and psychological tests, and the interpretation and reporting of test results.

Prerequisite: EPY 555 Minimum Grade of B

CED 584 Sem Ethical and Legal Issues 3 cr

Ethical standards of the profession and current legal issues will be examined in the context of case studies and current literature. Critical analysis by each student of legal and ethical issues faced by counselors and psychometrists will be stressed.

CED 585 Medical Aspects of Rehab 3 cr

Common symptomology, treatment, and medical management techniques of rehabilitation and physical medicine are emphasized. Other topics include assessment of client's functional limitations, interpretation of medical information, and planning for the client's rehabilitation.

CED 586 Counseling Skills and Process 3 cr

Emphasis is placed on the counseling procedures involved in developing and maintaining the therapeutic relationship. Students are required to model the basic skills of counseling using videotaped incidents and observations for feedback on skill development.

CED 588 Career Devel, Assess, & Interv 3 cr

Emphasis is placed on a basic knowledge of the theories, principles, and techniques of career counseling used for a wide range of ages. Other topics include model career development programs, assessment, population and age diversity, individual characteristics, placement and current research.

CED 590 Special Topics - 3 cr

Guided supervision in the completion of learning tasks in counselor education such as program design and revision study of a significant topic, theory, model and supervision of selected learning activities to acquire specific counseling and testing skills.

CED 591 Advocacy, Collab. & Consult. 3 cr

This course will provide an overview of advocacy, collaboration and consultation models and essential skills for professional school counselors and clinical mental health counselors. The role that each of these skills play in the professional identity of the school and mental health counselor and strategies for using these skills to promote systemic change and equitable social systems will be examined.

CED 592 Crisis & Trauma Counseling 3 cr

Students will gain knowledge of research-informed theoretical models of etiology and development of problems such as suicidality and other forms of mental health crisis, as well as grief, trauma, and disaster-related mental health symptoms. Students will also gain knowledge of evidence-based models of counseling and intervention in these areas such as comprehensive risk assessment strategies, psychological first aid and systems of mental health crisis management.

CED 594 Dir St and Research 1-3 cr

Students explore through directed study problems and issues of special interest or significance in Counselor Education. Not more than three semester hours of any departmental 594 courses can be accepted toward a degree program.

CED 595 Internship - School Counseling 1-9 cr

The internship is a supervised learning experience in a work setting similar to that in which a school counselor eventually will be employed. The internship provides the student with an opportunity to apply the theories and concepts learned during the graduate program. Not more than 12 hours may be taken. Prerequisite: Special permission of the instructor and a grade of B or above in CED 586 and CED 576.

Prerequisite: (PRAXIS- Prof School Counselor 156) and CED 576 Minimum Grade of B and CED 586 Minimum Grade of B and CED 584 Minimum Grade of B

CED 596 Internship-School Psychometry 1-9 cr

The internship is a supervised learning experience in a work setting similar to that in which a school psychometrist eventually will be employed. The internship provides the student with an opportunity to apply the theories and concepts learned during the graduate program. Not more than 12 hours may be taken. Requires special permission of the instructor.

Prerequisite: EPY 556 Minimum Grade of B and CED 584 Minimum Grade of B and EPY 558 Minimum Grade of B and CED 583 Minimum Grade of B

CED 597 Internship in CMHC 1-9 cr

The internship is a supervised learning experience in a work setting similar to that in which a community counselor eventually will be employed. The internship provides the student with an opportunity to apply the theories and concepts learned during the graduate program. Not more than 12 hours may be taken. Requires special permission of the instructor.

Prerequisite: CED 576 Minimum Grade of B and CED 584 Minimum Grade of B and CED 586 Minimum Grade of B

CED 598 Internship-Rehab Counseling 1-9 cr

The internship is a supervised learning experience in a work setting similar to that in which a rehabilitation counselor eventually will be employed. The internship provides the student with an opportunity to apply the theories and concepts learned during the graduate program. Not more than 12 hours may be taken. Requires special permission of the instructor.

Prerequisite: CED 576 Minimum Grade of B and CED 584 Minimum Grade of B and CED 586 Minimum Grade of B

CED 599 Thesis 1-9 cr

A student selects a project, study or investigation which is related to an area of specialization in Counselor Education. The project forms a basis for the thesis. A thesis committee will provide direction during the writing of the thesis.

CED 672 Adv Couns Theory and Practice 3 cr

An advanced study of counseling theories and strategies as they apply to practical situations and special populations.

Prerequisite: CED 572 Minimum Grade of B

CED 674 Adv Theory and Pract Grp Couns 3 cr

This course provides the student with advanced skills and knowledge designed to facilitate working with groups. The course emphasizes group theory, research, and participation in group dynamics.

Prerequisite: CED 574 Minimum Grade of B

CED 676 Advanced Practicum-Counseling 3 cr

Supervised field experience in appropriate settings. Required weekly seminar. Requires special permission of the instructor.

CED 678 Negotiation Training 3 cr

This course focuses on the development of negotiation, conflict resolution, and communication skills needed to be effective in resolving a variety of training-related problems. Students will have an opportunity to research and practice in the negotiation process by applying communication and conflict resolution techniques in simulated and real situations.

CED 690 Sp Top - 3 cr

Guided supervision in the completion of learning tasks in counselor education such as program design and revision, study of a significant topic, theory, model, and supervision of selected learning activities to acquire specific counseling and testing skills.

CED 694 Dir St and Research 1-3 cr

Students explore through directed study problems and issues of special interest or significance in Counselor Education. Not more than three semester hours of any departmental 694 courses can be accepted toward a degree program.

CED 699 Research Project 3 cr

A supervised field project, or investigation in the Counselor Specialist Program, serving as the culminating experience in the program. Applying concepts and skills learned during the sixth-year program, the student will conduct an investigation and prepare a field project report in standard form.

Prerequisite: CED 576 Minimum Grade of B

Educational Foundations (EDF)**EDF 207 Law and Politics in Educ 3 cr**

Examines the legal and political considerations that affect education in America. Emphasis will be placed on the practical applications of these legal and political considerations to the operation of schools.

EDF 211 Clinical and Lab Experience 0 cr

Provides relevant clinical and laboratory experiences directly related to the several academic disciplines that constitute the social foundations of education. Must be taken with EDF 315. Requires a special fee.

Corequisite: EDF 315

EDF 290 Sp Top - 1-3 cr

Varies in content in one disciplinary area of educational foundations (e.g., history of education or anthropology of education) or in an interdisciplinary area (e.g., multicultural education). May be repeated for credit when course content varies.

EDF 300 Gender & International Devel-W 3 cr

This course introduces concepts in gender, international development and global education through an examination and critique gender issues in developing nations and international efforts to address these concerns from the 1970's to the present with particular emphasis on the context of women. Includes formal and nonformal education of women, cultural differences (reproduction, marriage, male/female hierarchies) affecting life opportunities, rural vs. urban issues, politics, social class influences, international movements, and organizations and efforts to empower girls and women to advance their lives within the context of gendered social roles. Analysis of issues through various lenses including the Gender Equality Continuum. Students will interact directly with individuals in the field via videoconferencing and other modes of electronic communication. Assessment will center on a guided project and experience specific to individual student interests.

Prerequisite: EH 102 Minimum Grade of C

EDF 310 International Develop & Educ-W 3 cr
